## **SPECIAL ANNOUNCEMENT**

---

---

### **ERIC DIGESTS ONLINE (EDO) A New Full Text Database**

ERIC DIGESTS ONLINE (EDO), a full text database of short topical reports on education (called "Digests") from the 16 ERIC Clearinghouses, is now available on ED-LINE (an online information service for educators) via the online network known as The Source.

Users of EDO are able to access ERIC Digests through either menus or key words. A special feature permits users to comment on (or to read others' comments on) Digests in a field called "User Notespace."

Examples of titles in the new file are: "Full Day or Half Day Kindergarten?," "Qualities of Effective Writing Programs," "Dismissing Incompetent Tenured Teachers," and "Part-Time Faculty: Higher Education at a Crossroads." New Digests will be added to the EDO file on a monthly basis.

EDO is coordinated by project staff at the ERIC Clearinghouse on Elementary and Early Childhood Education, with the cooperation of the 15 other ERIC Clearinghouses.

Funding for EDO is provided by the Office of Educational Research and Improvement (OERI), U.S. Department of Education. Additional information and sample Digests may be obtained by writing to EDO Project, ERIC Clearinghouse on Elementary and Early Childhood Education, 805 W. Pennsylvania, Urbana, IL 61801 (217-333-1386).

For information on subscribing to The Source and ED-LINE, call ED-LINE at (703) 528-5840.

Volume 21 • Number 6

*Resources in Education (RIE)* is processed for printing by ORI, Inc., under contract with the U.S. Department of Education, Office of Educational Research and Improvement (OERI), and published monthly by the U.S. Government Printing Office (GPO) with printing funds approved by the Office of Management and Budget. Contents do not necessarily reflect official OERI policy.

Copies of *RIE* are available from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.C. 20402. Inquiries regarding subscription prices (12 issues/year) and single issue prices should be directed to the Superintendent of Documents.

Two *Semiannual Indexes* to *RIE* (January-June and July-December) are also available from GPO. Contact the Superintendent of Documents for prices.

## Introduction

**RESOURCES IN EDUCATION (RIE)** —A monthly abstract journal announcing recent report literature related to the field of education, permitting the early identification and acquisition of reports of interest to the educational community.

**Sponsor: Educational Resources Information Center (ERIC)  
Office of Educational Research and Improvement (OERI)  
U.S. Department of Education  
Washington, D.C. 20208**

ERIC is a nationwide information network for acquiring, selecting, abstracting, indexing, storing, retrieving, and disseminating significant and timely education-related reports. It consists of a coordinating staff in Washington, D.C. and 16 clearinghouses located at universities or with professional organizations across the country. These clearinghouses, each responsible for a particular educational area, are an integral part of the ERIC system. The clearinghouses are listed on the inside back cover.

**Organization of Journal:** *Resources in Education* is made up of resumes and indexes. The resumes provide descriptions of each document and abstracts of their content. Resumes appear in a "Document Section" and are numbered sequentially by an accession number beginning with the prefix ED (*ERIC Document*). The indexes appear in an "Index Section" and provide access to the Resumes by Subject, Personal Author, Institution, and Publication Type.

**Availability of Documents:** The documents cited in *Resources in Education*, except as noted, are available from the ERIC Document Reproduction Service (EDRS), in both microfiche (MF) and paper copy (PC), or microfiche only. Availability in microfiche only may be determined by the source, for proprietary or copyright reasons, or by ERIC for reasons related to legibility and reproducibility. The price per document is based on the number of pages and is subject to change over time. An ERIC Price Code Schedule permits the user to convert all price codes to actual dollar amounts. Current price information for documents, microfiche, and subscriptions to microfiche collections is to be found in the section entitled "How to Order ERIC Documents" in the most recent issue of RIE.

**How to Submit Documents to ERIC:** If you have documents that you would like to have considered for announcement in *Resources in Education* (RIE), you should send clean, legible copies (in duplicate, if possible) to the ERIC Processing and Reference Facility, 4833 Rugby Avenue, Bethesda, MD 20814. A reproduction release, giving ERIC permission to reproduce in paper copy and microfiche (or microfiche only), and signed by the author or official representative of the source institution, is requested for all documents selected for inclusion in RIE. Standard reproduction release forms may be obtained from the ERIC Facility (a sample appears at the back of this issue of RIE).

**How To Order RIE:** The U.S. Government Printing Office (GPO) prints *RIE* and functions as subscription agent. Detailed subscription information appears on the page in the back of *RIE* entitled "How to Order **RESOURCES IN EDUCATION**."

# HIGHLIGHTS Of Special Interest

## ERIC Clearinghouse Publications

This page highlights publications announced in this issue of *Resources in Education* which were created by the ERIC Clearinghouses and which have been selected as having special significance for educators. For each brief citation appearing here, there is a full abstract appearing under the same ED number in the pages of the issue.

In addition to collecting the literature of education for announcement in *Resources in Education* and *Current Index to Journals in Education*, the ERIC Clearinghouses analyze and synthesize the literature in a number of different formats designed to compress the vast amount of information available and to meet the varying needs of ERIC users. These formats include research reviews, state-of-the-art studies, interpretive studies on topics of high current interest, research briefs, annotated bibliographies, and compilations. While some publications are comprehensive reviews designed for those who are interested in pursuing a subject in depth, others are brief analyses designed for the busy practitioner whose time for staying abreast of new developments in education is limited.

ERIC publications are published either by the ERIC Clearinghouses responsible for producing them or through cooperative arrangements with other organizations. Copies are usually available directly from the responsible Clearinghouse or from the source listed in the citation. In addition, the publications announced in *Resources in Education* are contained in all ERIC microfiche collections, and are available in paper copy and/or microfiche from the ERIC Document Reproduction Service (EDRS), 3900 Wheeler Avenue, Alexandria, Virginia 22304.

Pub Type— Speeches/Meeting Papers (150)

**EDRS Price—MF01/PC06 Plus Postage.**

**Descriptors** — Career Guidance,\*Career Planning, Careers, \*Demand Occupations, \*Employed Women, \*Employment Opportunities, Females, Labor Force, Labor Market, \*Labor Needs, Occupational Aspiration, Occupations

**Identifiers** — Consortium of States, \*National Occupational Competency Testing Institute

Women's opportunities for employment will be directly related to their level of skill and experience and also to the labor market demands through the remainder of the decade. The number of workers needed for all major occupational categories is expected to increase by about one-fifth between 1980 and 1990, but the growth rate will vary by occupational group. Professional and technical workers are expected to have the highest predicted rate (39 percent), followed by service workers (35 percent), clerical workers (26 percent), sales workers (24 percent), craft workers and supervisors (20 percent), managers and administrators (15 percent), and operatives (11 percent). This publication contains a brief discussion and employment information concerning occupations for professional and technical workers, managers and administrators, skilled trades, sales workers, clerical workers, and service workers. In order for women to take advantage of increased labor market demands, employer attitudes toward working women need to change and women must: (1) receive better career planning and counseling, (2) change their career aspirations, and (3) fully utilize the sources of legal protection and assistance that are available to them. (SB)

**Clearinghouse Accession Number.**

**Sponsoring Agency**—agency responsible for initiating, funding, and managing the research project.

**Informative Abstract.**

**Abstractor's Initials.**

## Document Resumes

The document resumes in this section are arranged in numerical order by ED number, and also alphanumerically by Clearinghouse prefix and Clearinghouse accession number.

As explained in the Introduction, each Clearinghouse focuses on a specific aspect of education. The reader who is interested in one of these major aspects (e.g., Reading) may, however, find pertinent resumes among the entries of virtually any Clearinghouse, dependent on the orientation of the document. For this reason, it is important to consult the Subject Index if a comprehensive search is desired.

The following is a list of Clearinghouse prefixes and names used in this Section, together with the page on which each Clearinghouse's entries begin:

	Page		Page
AA—ERIC Processing and Reference Facility	1	JC—Junior Colleges	95
CE—Adult, Career, and Vocational Education	1	PS—Elementary and Early Childhood Education	100
CG—Counseling and Personnel Services	22	RC—Rural Education and Small Schools	110
CS—Reading and Communication Skills	33	SE—Science, Mathematics, and Environmental Education	115
EA—Educational Management	52	SO—Social Studies/Social Science Education	121
EC—Handicapped and Gifted Children	62	SP—Teacher Education	128
FL—Languages and Linguistics	69	TM—Tests, Measurement, and Evaluation	136
HE—Higher Education	72	UD—Urban Education	144

EDRS Price - MF03 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Abstracts, Catalogs, Education, \*Educational Resources, \*Indexes, Resource Materials

Identifiers—\*Resources in Education

Resources in Education (RIE) is a monthly abstract journal that announces (catalogs, indexes, abstracts) documents of interest to the educational community (including researchers, teachers, students, school board members, school administrators, counselors, etc.). Each issue announces approximately 1,100 documents and provides indexes by Subject, Personal Author, Institution, Publication Type, and ERIC Clearinghouse Number. This special Computer Output Microfiche (COM) edition is prepared directly from the ERIC magnetic tape database prior to publication of the printed journal and therefore is lacking the cover and other regular introductory and advertising matter contained in the printed journal. The first accession in each issue of RIE is the issue itself. In this way, the monthly microfiche collection for each issue is immediately preceded by a microfiche index to that collection. This practice began with the RIE issue for May 1979. (LRS/WTB)

Descriptors—Career Education, \*Economic Development, \*Employment Projections, Foreign Countries, \*Labor Force Development, Labor Market, \*Labor Needs, \*Labor Supply, Models, Technical Education, Vocational Education

Identifiers—\*South Korea

This report presents information on a study to project labor force demand in Korea against the existent capacity of supply and to explore corrective measures to ensure balance between demand and supply. Chapter I describes the background and goals of the study. Chapter II examines human resource development of Korea in the period 1961-1979 with special attention to the relationship between labor force structure and economic growth. Analysis is made of total population, economically active population, school population, the current system of vocational training, and employment trends by industry, occupation, and education level. Chapter III describes models for the projection of demand for and supply of labor and presents statistical data projected by these models by industry and by occupation. Chapter IV examines the sources of labor supply in relation to projected demand and additional requirements in a long-term perspective. Chapter V explains the gap between supply and demand and concludes by suggesting three strategies for labor force development: qualitative development of higher education, strengthening of technical education and vocational training, and improvement of the labor force development system. Sixty-six data tables and 12 diagrams are provided. Projected data related to demand and supply in all occupations are appended. (YLB)

Identifiers—Electrical Stimulation, Kinematics, \*Rehabilitation Engineering

These proceedings represent a cross-section of the results of rehabilitation research across a range of disciplines. The 130 presentations, which deal generally with the exploitation of science and technology in the rehabilitative process, are divided among 21 sessions. Topics of the first 15 sessions are: aids to promote independent vocation and life activities, biomechanics/kinematics, improvements in wheeled mobility (papers with a clinical orientation), computer and microcomputer use, improvements in upper limb prosthetics, wheelchair design research, technology transfer, research in electrical stimulation (papers with a clinical orientation), studies in augmentative communication (papers with a clinical orientation), investigations into service delivery, functional assessment (much of it computer-assisted), rural rehabilitation, research on sensory aids, studies dealing with various aspects of lower limb orthotics and prosthetics, and more electrical stimulation research. The other six sections address these concerns: research into and aids to promote independent vocational and life activities; studies of control interfaces, including microprocessor systems; studies of biomechanics/kinematics; development and research in the area of alternative communication; development and research in wheelchair seating; and study of microprocessor system use. Twenty-two presentations from two poster sessions are also provided. Two student design papers on posture safety seats and myoelectric prosthesis control using microprocessors precede abstracts of 24 self-contained audiovisual presentations, the majority of which address clinical issues. An author index is attached. (YLB)

Needs of Older Employees and Retirees: Task Force Results of the Corporate Volunteerism Council of Minneapolis and St. Paul, Minnesota. Corporate Volunteerism Council of Minneapolis/St. Paul, MN.; Honeywell, Inc., Minneapolis, Minn.

Pub Date—85

Note—83p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC04 Plus Postage.

**Descriptors**—Aging (Individuals), Business Responsibility, Financial Needs, Health Needs, Information Needs, \*Needs, Needs Assessment, \*Older Adults, Personnel Policy, \*Preretirement Education, \*Retirement, Retirement Benefits, \*Volunteers

**Identifiers**—\*Minnesota (Minneapolis), \*Minnesota (Saint Paul), Older Workers

The Twin Cities-based Corporate Volunteerism Council (CVC) sponsored the development and administration of a survey and focus groups in May through August, 1985, to determine the needs of older people before and after retirement. Twenty-five members of the CVC answered the survey. They replied that most companies offer preretirement planning and health care, and that their retirees expressed needs for general retirement benefits, food and nutrition. People over age 85 also are concerned about institutional or other home care. The greatest unmet needs experienced by the elderly are emotional. Few employees work as volunteers to meet the needs of the elderly; however, structured retiree programs were seen as one way corporations can help their retirees. Respondents endorsed preretirement planning, and collaborative efforts with other companies, volunteer agencies, social service agencies, and individual employees before and after retirement. They were also in favor of providing leadership through public awareness projects for the elderly. Besides the survey of employees, two focus groups were conducted, one with 10 men and one with 10 women, aged 50-75. The groups focused on volunteerism, retirement planning, and retirement clubs as ways to meet retirees' needs. The older persons expressed both positive and negative attitudes toward volunteerism, but agreed it could help meet socialization and learning needs. They also endorsed retirement planning and the concept of retirement clubs sponsored by employers. The results of these two studies are intended to be used to enhance program planning for the elderly in the Minneapolis-St. Paul area. (KC)

**Descriptors**—Adolescents, Agency Cooperation, \*Disabilities, Educational Needs, \*Education Work Relationship, \*Institutional Cooperation, Mainstreaming, \*Outcomes of Education, Secondary Education, \*Vocational Education, Vocational Followup, \*Vocational Rehabilitation

**Identifiers**—\*Arizona (North)

This study was designed to identify and describe transitioning of disabled adolescent students from public school programs to community life and the world of work in northern Arizona. Public school personnel and vocational rehabilitation counselors were interviewed in order to obtain information on the types of vocational training and work experience offered, interagency cooperative efforts, the kinds of handicapped students being served, and barriers to effective transitioning. Interviews with 38 persons from public high schools and vocational rehabilitation offices in northern Arizona showed that the school districts appear to be serving predominantly mildly handicapped students in regular vocational education programs. Although very little special programming occurs for this population, and despite the fact that interagency coordination of resources is occurring at a minimal level, districts are reporting a high degree of success in post-school employment status of their handicapped population. Even more severely handicapped students appear to benefit because of their small numbers. Few adolescents were served by vocational rehabilitation agencies. The study concluded that vocational rehabilitation and schools need to increase cooperation, and that schools should increase parental involvement in the vocational planning process. Other recommendations include a network of summer jobs for the disabled, coordination of vocational assessment, and more awareness of transitioning services. A bibliography and the interview questionnaires are appended. (KC)

**Identifiers**—Algeria, Argentina, Australia, Chile, Czechoslovakia, Ecuador, Gambia, Ghana, India, Indonesia, Ireland, Lesotho, Netherlands, Sri Lanka, Sudan, Turkey

This comparative study of technical and vocational education policy, planning, and administration in 16 countries is based on case studies prepared by representatives of those countries in 1982 according to guidelines drawn up in conformity with the activities foreseen in the Unesco Programme for 1981-83. Chapter 1 introduces the study. Chapter 2 presents the 16 countries in terms of the structures now in place for policymaking and planning in technical and vocational education, along with those for coordinating with manpower and development planning and with training systems outside the formal education system. Where appropriate, the structural analysis also deals with the framework for research, evaluation, and feedback in the system. Chapter 3 looks more closely into the policymaking and planning processes of the countries. Chapter 4 presents examples of the administrative process and related problems in certain selected countries, with particular attention to the management principles and methods applied. In chapter 5 the problems of financing and cost efficiency are addressed. Chapter 6 looks to future trends and development problems as they arise out of the material presented, and chapter 7 deals with what is being done and what could be done through international cooperation to strengthen policy, planning, and management in technical and vocational education. Following a brief concluding chapter, four appendices provide the text of the Revised Recommendations concerning Technical and Vocational education; the technical and vocational education systems in diagram form; the guidelines for the original country reports; and a list of the authors of the reports. This case study provides information on the formal and informal technical and vocational education systems operating within the United Kingdom. It is intended to assist policymakers, planners, administrators, and experts in technical and vocational education. Part I provides basic information on the country and its economy with special emphasis on employment and changing needs. Part II deals in some detail with the educational system in the United Kingdom and discusses the role played by the government, the private sector, and the local educational authorities as well as the various educa-

tional councils and the institutions in the formal and higher education system where emphasis is placed on technical and vocational education. Part III is devoted to the organization of productive work in technical and vocational education in the United Kingdom in both the formal and nonformal systems. A list of addresses of bodies concerned with technical and vocational education in the United Kingdom and a bibliography follow. Five annexes provide diagrammatic presentations of the educational system and its administrative structure as well as three examples of workshops and laboratories, four examples of practical student work projects, and two examples of curriculum outlines. **Identifiers**—\*Macomb Community College MI

Macomb Community College (MCC) in Warren, Michigan, has a commitment to support business and industrial development, consequent employee retraining, and program design. In addition to helping workers in their retraining and/or relocation, the college provides systematic support in the development of basic skills. Occupational programs have tended to be vertical in design, i.e., they provided students with as much depth as possible in a limited area. New faculty coming from industry show greater interest and willingness to reevaluate program composition and consider a horizontal approach, i.e., a balanced selection across the technology area. Other factors bringing a shift in thinking about horizontal programming are changes in approaches to labor relations and work design in local industry. A formal long-range plan for the Technical Division at MCC is being developed which will establish several key and strategic concepts and considerations. This planning approach should help the college deal with change. To help the college adapt to external forces driving the changes, Macomb is formalizing a participative and formal process that openly deals with issues and seeks commitment from faculty and administration alike. Macomb's effort has included development of an advisory committee, identification of concerns with which the Technical Division must deal in setting a course of action for the future, involvement of faculty as leaders in the leadership process, and encouragement of faculty participation in the change process. **Descriptors**—\*Academic Standards, Administrator Role, Adult Education, College Credits, College Programs, \*Continuing Education, \*Educational Objectives, Educational Policy, Educational Quality, Enrollment Influences, \*Extension Education, Financial Support, Graduate Study, Marketing, Noncredit Courses, Policy Formation, Postsecondary Education, \*Program Administration

The advantages of off-campus extension education courses in rural settings are numerous, and extension courses offered on a noncredit basis present minimal problems for the individuals responsible for administering them. When such courses are offered for credit, however, the problems associated with administering them increase dramatically. Because most extension programs must be self-supporting, the ability to market the product is almost as important as the product itself. Institutions must meet the needs of their constituencies and balance the exten-

sion program's budget while simultaneously addressing the need to maintain academic standards appropriate for graduate credit. Too often, extension directors have taken the path of marketing at the expense of rigor. For this reason, administrators or graduate deans and continuing education directors must communicate their program goals and direction to one another and identify appropriate standards to use in developing graduate level off-campus courses. Standards should be spelled out in detail and communicated to all parties involved in delivering programs. Colleges could also offer a dual numbering and prefix system to clarify which courses can and cannot eventually be applied to graduate programs. Local school districts and state departments of education that determine that graduate credit is necessary for advancement on salary or promotion schedules should monitor courses offered through extension and encourage continuing education directors to provide courses meeting graduate program standards. Identifiers—\*West Fargo School District ND

West Fargo Community High School (North Dakota) was established in 1982 to provide alternative secondary education to high school dropouts and students who would be unable to function successfully in the traditional high school setting. The school was set up to be a self-supporting institution staffed by three part-time instructors and one part-time paraprofessional; its approach was a hybrid of traditional classroom-based instruction and individualized instruction. Upon entering the program, students develop an educational program consisting of eight 1/2-credit courses that are completed in a 4-week time block system. Time extensions are provided for students who have been working at their full capacity; students judged not to have been working at capacity must pay a \$2 fee for a time extension. Despite school board disagreements resulting in separate diplomas for graduates of the district's traditional and alternative high schools and delays in instruction caused by the fact that the alternative school was set up as a correspondence program, the West Fargo Community High School is filling a definite need and has been successful. The main problems still facing the school are inadequate funding and continued resistance to placing the alternative and traditional programs on an equal footing. (MN)

Education Reporting Sys, Vocational Education  
Data System

This manual is intended to accompany a software system for the Apple II microcomputer that is designed to aid local districts in completing vocational education enrollment claims and Vocational Education Data System (VEDS) reports. Part I, Introduction, gives a brief overview of the Microcomputer Vocational Education Reporting System (MICRO-VERS), makes some suggestions regarding time schedules, and describes the reports that the system will help to prepare. Part II, System Requirements, is a description of the hardware that is required to operate the microcomputer under MICRO-VERS version 3.1. Some suggested sources for course and student data are also presented. Part III, Operator's Handbook, describes each of the major steps in creating and editing the MICRO-VERS files and finally printing the required reports. Part IV, MICRO-VERS Tutorial, is intended for new users of the software package. It presents sample data similar to that encountered by the local education agency. These examples allow data entry operators to practice and familiarize themselves with the system. Part V contains appendices. MICRO-VERS information provided includes lists of the program disk and printer disk programs, tutorial data, sample forms, and sample printouts. A glossary of terms and a list of resources and resource organizations are also appended. (YLB)

TAFE (Technical and Further Education) is a multifaceted educational organization in Australia and few people in it, and even fewer outside, know about all its aspects outside their own areas of interest and expertise. This book provides information about some current aspects of TAFE, intended to give a broad perspective on 12 different issues. The following papers are included in the book: "The Influence of the Kangan Philosophy on Australian TAFE," by Leslie Claydon; "Attrition and Retention in TAFE," by Joy Cumming and Peter Mountney; "External Studies in TAFE," by Roy Farren; "A Review of Competency-Based Occupational Education," by Roger Harris and Robyn Schutte; "Educational Media in TAFE," by Brian Kenworthy; "Career Paths of Tradespersons," by Lucio Kravac; "Curriculum Development in TAFE Trade Courses," by David Laird; "Curriculum Evaluation in TAFE," by David Mitchell; "TAFE Staff Development," by David Snerwin; "Options for the Evaluation of TAFE Colleges," by Peter Thomson; "Access to TAFE for Disabled Persons," by Elaine Walker; and "The TAFE Transition Program," by Greg Woodburne. Identifiers—\*Australia

The workers' cooperative movement has grown in many countries of Europe, where it is often state-sanctioned and supported. In Australia, however, the movement is just beginning. The government organization of what are called cooperative development programs is the dominant new feature on the Australian worker cooperative scene. However, funding is only marginal. Cooperative development programs are not worker cooperatives either, and their origins in Australia from state government initiatives are a long way from the origins at grassroots level that idealists concerning worker cooperation would possibly have preferred. Nevertheless, the programs are facilitators for worker cooperatives. The structure of Australian cooperatives and related development programs varies by state. Cooperative movements place great importance on education. In Australia, this principle needs to be pursued vigorously if cooperation is to become established successfully. Since the cooperatives now operating in Australia are too small to operate their own educational systems, they must rely on systems already in place, such as TAFE (Technical and Further Education). The responses of TAFE to the educational needs of worker cooperatives in Australia have varied considerably state by state. Until the cooperative movement has developed its own formal education system, more formal connections among the movement and TAFE and other education systems will be needed. TAFE has a role to play in the success of the workers' cooperatives. A four-page bibliography is included. (KC)

Identifiers—\*Australia

Universities and colleges of advanced education in Australia were surveyed to determine their policies and practices in admitting and granting status to holders of TAFE (Technical and Further Education) middle-level certificates who wish to transfer to relevant higher education courses. Of the 90 higher education institutions that were approached, 35 responded. It was found that the majority of higher education institutions in Australia, including a number of universities, was prepared to admit students to courses on the basis of a successfully completed relevant TAFE middle-level course and that during the years 1980-1983, more than 15,000 students had availed themselves of that opportunity. It was also found that many higher education institutions are prepared to grant status to holders of TAFE middle-level certificates, but that the number of students who are actually granted status is quite small. No conclusions could be drawn from the information obtained in this study on the success of students with TAFE middle-level certificate backgrounds who have been admitted either with or without status to courses in higher education compared with students admitted in the traditional way, but, from the limited information available, such students seem to be reasonably successful. Recommendations were directed principally at obtaining more information on the performance in higher edu-

cation of holders of TAFE middle-level certificates so that the current policies of the institutions might be liberalized further, and at ensuring that information concerning opportunities available to holders of TAFE middle-level certificates is readily available. (Author/KC)

Identifiers—\*Australia

This paper looks at the selection of students in Australia for trades-based prevocational or pre-apprenticeship courses. Selections for two types of courses are considered in the paper: (1) pre-apprenticeship courses that focus on a particular trade area and usually lead to credit in only one apprenticeship course; and (2) prevocational courses that introduce the student to a number of trade areas and lead to credit in several apprenticeships. The paper is organized in five chapters. Chapter 1 discusses issues in selection, including rationale, selection for particular courses, and other issues. In Chapter 2, research on selection methods for entry into pre-employment and part-time trades courses is reported both for Australia and for other countries. Chapter 3 provides a description of current Australian selection processes for pre-employment courses in each of the states or territories. Chapter 4 contains a discussion of equity of access to education and the selection process, while the final chapter makes recommendations on selection, equity of access, selection tests, and research and evaluation. Extensive references are provided. (KC)

The Mid-Career Plateau: A Note on Coping with Demotivated Staff. Coombe Lodge Working Paper. Information Bank Number 1796.  
Further Education Staff Coll., Blagdon (England).  
Pub Date—Jan 82

Note—12p.  
Pub Type—Opinion Papers (120)  
EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Burnout, Career Change, Foreign Countries, Incentives, \*Job Satisfaction, Life Satisfaction, Mental Health, \*Middle Aged Adults, \*Midlife Transitions, Motivation, \*Motivation Techniques, \*Personnel Management, Psychological Characteristics

People who have reached a career plateau may have become demotivated. The career plateau often coincides with the so-called midlife crisis. The midlife and mid-career crisis is a time of reassessment, self-evaluation, and reflection; awareness of aging and of the limitations of the future produces such problems as depression, discouragement and lost motivation, affecting marriage, health, and career. Four major response patterns during a mid-career crisis are the constructive, underachieving, defensive, and depressed styles. Managers dealing with staff undergoing mid-career crisis can help people change their dysfunctional responses and adjust to their altered environment. There are five basic tasks with which managers can help individuals: (1) developing awareness of career anchors; (2) assessing the implications for the future of those anchors; (3) choosing to accept the present or work toward change; (4) working out new roles and new family/work relationships; and (5) working out mentoring relationships. Matching organizational and individual needs through such strategies as job redesign, counseling, retraining, retirement, and reward systems enables the organization and its personnel to weather the mid-career crisis. Identifiers—\*British Columbia Institute of Technology

Introductory material offers observations useful to British readers regarding a Canadian educational program assessment manual, which is the main component of this document. The manual was developed at the British Columbia Institute of Technology and revised based upon the experiences of the biological sciences technology and broadcast technology programs, which were assessed in 1978, and the further experiences of seven other programs in health, business, and engineering in 1979. The manual is organized in four sections. The first section explains the purpose of program assessment and lists the characteristics of the program self-evaluation. In the second section, procedures for conducting program assessments are covered. These procedures include forming evaluation committees, establishing a program assessment schedule, creating a task force, and assessing programs with two or more options. The third section focuses on collecting the information, including what basic information should be sought, and how to develop the questionnaires needed for the various groups from whom data should be collected. The final section of the manual explains how to prepare the program assessment report. Numerous examples are provided throughout the manual. (KC)

Identifiers—\*West Germany

The Federal Republic of Germany (FRG) has developed five sets of measures to respond to the problems of the transition from school to working life. These are (1) *Arbeitslehre* (learning about the world of work); (2) vocational guidance, involving multimedia, open-access vocational information centers and close coordination with the *Arbeitslehre* program; (3) *Berufsvorbereitungsjahr* (vocational orientation year); (4) *Berufgrundbildungsjahr* (a basic foundation year that is designed to be a first-year training program, which is appropriate for a group of approximately 460 defined trades); and (5) apprenticeships. The traditional (and basic) system of vocational education and training in the FRG is known as the Dual System. Under this system, youths on a training contract or apprenticeship receive appropriate vocational training in a contracting firm and also attend a vocational school one day each week. In addition, each Land in the republic is free to make its own organizational arrangements for the provision of upper secondary education and apprenticeship training. Although apprentice wages are generally low, the system is accepted because of the social and economic status that comes with achieving the Meister certificate, which remains the most valuable and significant qualification available in the manual sector of West German industry. **Motivation Theories and Motivation Systems. The Gulf between Theory and Practice.** Coombe Lodge Working Paper. Information Bank Number 1937.

Further Education Staff Coll., Blagdon (England).  
Pub Date—Jan 84

Note—10p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Achievement Need, Adults, Business Administration, Foreign Countries, Goal Orientation, Incentives, \*Motivation, \*Motivation Techniques, \*Needs, \*Personnel Management, \*Research Utilization, Self Actualization

Managers have an obvious interest in motivation, yet there are few connections between the needs of the manager and research on motivation theory and system building. Motivation can be defined as the degree to which an individual wants and chooses to engage in certain specified behaviors. This definition assumes that motivation is an individual phenomenon; that it is intentional; that it involves arousal, direction, and persistence; and that it is reflected in behavior. Motivation theories include arousal theories, which mostly revolve around the needs of people, and direction theories, which include goal-setting, expectancy theory, operant conditioning, and equity theory. However, this information is often difficult for managers to put into practice. It is difficult to individualize rewards in large organizations, and it is often difficult to observe people—another motivating factor. Many jobs are interdependent and rewards cannot easily be separated. In terms of management practice, most of the answers are still awaited. There are, however, two basic questions managers should ask themselves: is motivation important for performance? and can performance be defined in behavioral terms? If the answers to these questions are yes, and if other criteria are operant, then the strategies arising from motivation theory can be put into practice. (KC)

Descriptors—Adult Education, Adult Students, \*Curriculum Design, Foreign Countries, \*Individualized Instruction, Participative Decision Making, \*Performance Contracts, Postsecondary Education, Records (Forms), Student Participation, \*Teacher Student Relationship, Tutors, Vocational Education

This working paper presents guidelines for negotiating learning contracts between tutors and postsecondary students enrolled in a vocational program. The first two sections discuss the general rationale for negotiating curricula and the specific benefits of conducting such negotiations with students over the age of 16. Addressed next is the importance of allowing students a choice in their course of study, making students aware of their instructional alternatives, maintaining open relationships with students, and developing shared goals and understanding among tutors and students. Negotiation problems and strategies and information tutors need before entering into negotiations with students are outlined. Covered next is the importance of flexibility in managing available instructional resources. The final section examines the content of student-tutor contracts and includes sample student-college agreements and contracts. (MN)

Identifiers—\*Alberta

This paper describes the provision of vocational education in the Province of Alberta, especially the education provided by Alberta Vocational Centres (AVCs). The paper is organized in two sections. The first, introductory section describes the Province of Alberta and its educational system. The second section focuses on Alberta Vocational Centres which provide education and job training for adults with less than a high school education. It discusses the role of AVCs, and provides a long list of sources of student financial aid. This section then reports a case study of the Lac la Biche AVC which serves largely a Native Canadian population, including its background, campus, organization, and course portfolio. Finally, the paper discusses the role and future direction of AVCs. Appendices to the report describe a course for community resource workers and provide a form for institutional self-evaluation. Identifiers—\*USSR

In the Union of Soviet Socialist Republics (USSR), vocational education is designed to assist in the achievement of political, economic, and social aims. The emphasis that the USSR constitution places on "socially useful work" and its results has been consistently reflected in legislation governing vocational training since 1919. Not only does vocational training have a higher status within central planning institutions than it does in the West, but 50 percent of the elementary-secondary curriculum is devoted to achieving objectives within the affective domain intended to implant appropriate work attitudes in young people. Therefore, vocational education in the country is administered by a strong central organization with a descending system of hierarchies from national to local levels in policy-making, administration, and the regulation of the training system. Several institutes are involved in research on vocational training and methods of providing it. The USSR has 7,626 vocational schools with 3.8 million students being trained in 1,500 different trades, some 2 million skilled and semiskilled workers graduating each year. The system employs 340,000 teachers who receive pre- and inservice training; the directors and senior staff must take refresher courses every 5 years. (Appended to this report are the USSR general and vocational training reforms that were passed in April 1984). (MN)

Identifiers—\*Alberta

This paper, written as the result of a two-month study visit to Alberta during May and June, 1984, attempts to describe the broad provision for education and vocational training in the postsecondary system. The paper is organized in five sections. It begins with an overview of the educational system of Canada as a whole, including the role of the federal government and a description of education on all levels from elementary through postsecondary. The second section of the paper describes the administration of postsecondary institutions in Alberta and the legislative framework for education, while the third section describes the educational institutions established in the Province. (These institutions include universities, affiliated and non-affiliated independent colleges, technical institutes, public colleges, vocational centers, community vocational centers, community vocational consortia, and private vocational schools.) Apprenticeship and training programs are the subject of the fourth section, while the final section focuses on a discussion of issues surrounding education in Alberta. Appendices to the report describe student funding sources. (KC)

Identifiers—\*England (Liverpool)

A study examined trends in enrollment in further education (FE) in Liverpool. Because the primary objective of the study was to identify possible factors that may influence the scale and specific strategies of student recruitment efforts, a case study approach was used to examine the FE participation rates and socioeconomic characteristics of Liverpool youths between the ages of 16 and 19. Data from a 1983 statistical analysis of the school attendance of this group of students indicated that although the enrollment rate of this age group in FE may increase slightly as the result of 17+ recruitment and transfer of the adult education centers to the colleges, little improvement in employment or growth in vocational education is likely. By the end of the decade, the enrollment level of full-time equivalent students will have fallen to 62 percent of its 1983 level. The post-19 general and nonvocational sectors appeared to be the greatest sources of potential FE enrollees. Although part-time provision in the vocational sector is becoming increasingly more competitive, data from the study indicated that implementation of a 2-year training program replacing the Youth Training Scheme may increase college-based activities. This trainer's guide is intended to assist supervisors of work-based career training projects in helping students learn about the operations of a marine hose factory, requisition supplies, rewrap nylon binders, determine the cost of material depreciation, communicate with coworkers, and learn about health and safety procedures. Though specific to the hose industry, the guide could also be used to explain the production process, which is typical for many industries. The guide is one in a series of core curriculum modules that is intended for use in combination on- and off-the-job programs to familiarize youth with the skills, knowledge, and attitudes necessary for success in the workplace. Included in the guide are the following components: project information, a summary of the content and approach of the guide, supervisor's notes, background information, lists of tasks and core skills, an action plan that includes suggested learning activities, supervisor and trainee review sheets, and an assessment form. This document provides guidelines for designing, implementing, and evaluating the effectiveness of a district-specific career education program for special education students. Part I lists 10 activities to design, implement, and evaluate a cost-effective career education program. Examples are included of the outcome of each activity. Activities are as follows: establish a career education committee, develop district career education goals, describe the current special education and vocational education programs, conduct an assessment of community and educational resources, develop a career education program, develop career education curriculum topics, receive staff input regarding the program, conduct a workshop to initiate the program, evaluate program effectiveness, and revise the program. Part II contains an example of a district's career education goals, data collection instruments (current special education and vocational education programs; special education's vocational education program and services; vocational services to special education students in vocational education personnel; parent, student, and graduate attitudes about special education program; employing special education students in community businesses; services to special education students by community agencies; program effectiveness feedback form), and examples of a career education program and career education curriculum topics. Appendixes include an architectural checklist, a glossary, and a 20-page bibliography. (YLB)

Few dissertations on vocational educational history are being written by graduate students. Reasons for this paucity of research include: (1) few opportunities exist for employment in the foundations of education field; and (2) few mentorships are available for those with training in both historical methods and vocational education fields. The history of vocational education has had various trends. Early 20th-century educators propagated the myth of a universal mandate for public schools. These historians tended to ignore the social and class struggles that were a part of early public education and are essential to an understanding of it. Some early educators recognized public schooling as a ladder for social mobility. The post-World War II educational historians broadened the scope of educational history. They often fell into the class of reform liberalism. Later, revisionist historians sought a different set of motives for early school reformers. They believed that vocational education was shaped by the model of efficiency advocated by industry, and that education was made to be "efficient." Vocational education was seen as keeping the lower classes in their place. Vocational education history has been largely hortatory in approach, seeking to advance its own cause. Instead of a top-down approach, however, a bottom-up approach is needed, and is being provided today by a few scholars who are doing case studies, looking at limited areas, and trying to discover what vocational education has done for former students, rather than what educators have said vocational education should do. More of this small-scale type of research is needed to paint a clearer picture of vocational education history. (KC)

## 12 Document Resumes

Note—12p; Paper presented at the Annual Meeting of the American Vocational Association (Atlanta, GA, December 6-10, 1985).

Pub Type—Reports—Research (143)—Speeches—Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Educational Attitudes, Educational Quality, Higher Education, Outcomes of Education, Private Colleges, \*Private Education, Private Schools, Program Attitudes, \*Program Effectiveness, \*Teacher Attitudes, \*Teacher Education, Teacher Educator Education, \*Teacher Educators, Trade and Industrial Education, \*Trade and Industrial Teachers, Vocational Education Teachers

A study was conducted to determine the impact of private, nonpublic education on the education of industrial teachers. To collect data, questionnaires were sent to industrial teacher educators in 252 institutions of higher education. Responses were received from 99 persons who had some educational experience in private programs. (Almost 99 percent of the respondents' educational experience was in both private and public institutions.) From the data gathered, the following conclusions were drawn, among others: (1) private education continues to be a meaningful component of the American educational system, and industrial education programs are a meaningful component of private education; (2) the quality of education in private institutions is comparable to or better than that of public institutions; (3) there is much interest in industrial education at private institutions; (4) the curriculum of private institutions is similar to that of public institutions; and (5) in recent years, private educational and industrial/business institutions have been offering more special programs for the teacher educator. The study suggested that additional research be conducted with public and private school teachers, and teachers in special educational programs of business, industry, and the military. (KC)

This instructional package consists of a plan of instruction, glossary, and student handouts and exercises for use in training Air Force personnel to become turboprop propulsion mechanics. Addressed in the individual lessons of the course are the following: common hand tools, hardware, measuring devices, and safety wiring; aircraft and engine fundamentals; maintenance management; engine preservation and storage; safety devices; mechanical hand tools; fuel systems; temperature data systems; engine starter and ignition systems; multimeters; electrical safety; engine repair and testing; technical publications; and propeller rigging and adjustments. The lesson plans included in the plan of instruction include a presentation outline, suggested times for covering individual topics, student materials and audiovisual aids required for the lesson, suggested instructional methods, and instructional guidelines. The student-use portion of the package includes programmed instructional texts, study guides, handouts, and exercises. (MN)

Identifiers—\*Airframe Technicians

This airframe repairman course comprises the self-study portion of an on-the-job training program. It deals with the job-related knowledge requirements for airframe repairs that are required to progress from the 3 to 5 skill level of the career field. It contains five volumes. Volume 1 (27 hours) covers the general subjects related to the operation of an airframe repair shop. Subjects such as career progression, security, publications, supply, supervision and training, maintenance management, and safety are covered. Volume 2 (54 hours) discusses the fundamentals of metal working. Volume 3 (27 hours) covers the basic repair procedures. Volume 4 (27 hours) advances the discussion into the various fastening methods, and volume 5 (42 hours) deals with the specialized repairs related to airframe repair. Subject matter is developed by a series of learning objectives which set learning goals. The text that follows each objective gives the information needed to reach that goal. Exercises following the information give a check on achievement. Answer keys appear in the back of each volume. Supplementary material provided for each volume contains replacement pages. Volume review exercises are also provided for each volume. (YLB)

**EDRS Price - MF01/PC06 Plus Postage.**

Descriptors—Ancillary School Services, Career Education, \*Employment Potential, Employment Services, \*Followup Studies, \*Job Development, \*Job Placement, \*Job Search Methods, Postsecondary Education, Program Development, Program Evaluation, \*Program Implementation, Two Year Colleges, Vocational Education, Vocational Followup

This manual is designed to give placement and other school personnel detailed suggestions related to the formation and implementation of a school-based job placement service. Chapter 1 serves as an introduction which discusses goals for organizing and implementing job placement services, functions of a job placement service, and essential components of job placement services. Chapter 2 addresses organization of a job placement program, including personnel and their responsibilities and operational planning. Chapters 3 through 6 deal with the four major categories of the duties of a job placement coordinator: preemployment preparation, job development, job placement, and follow-up and follow-through. Each of these chapters describes responsibilities involved in the category considered, major activities within that category, and suggestions for completing the activities. Chapter 7 concentrates on suggestions about how to evaluate a comprehensive job placement service. Each area is explained briefly and is followed by a description of the acceptable evidence or criteria for evaluation for each aspect of the total job placement program. Thirteen appendices contain samples of resumes and employment applications; examples of business letters for use by employment candidates such as letter of application, letter of acceptance, thank you, etc.; interviewer and interviewee forms; sample job opening forms; employer forms; and var-

ious other forms for use by prospective employees, employer placement personnel and by placement coordinators at the job service. (YLB)

Identifiers—\*Missouri

This compilation presents descriptions of 146 unusual and innovative job development activities that have been used successfully by deans, directors, and placement coordinators of Missouri area vocational-technical schools and community colleges. The strategies are divided into nine categories: Innovative Ideas, Educators Go to Employers, Employers Come to School, Use of the Mail, Educators/Students Speak to Employers, Placement Days/Seminars, Internships, Field Trips, and Preemployment Preparation. Each description provides this information: school name, address, and telephone number; director; placement coordinator; community population; name of activity; objective; description; outcomes; time schedule; and approximate cost. A table of contents lists school names and cites page numbers of their activities. (YLB)

Identifiers—\*Entropy

Entropy is defined as that condition in which the lack of order, information, and energy prevent useful work. What does vocational education contribute to the order, information flow, and useful work in industry and society? Is vocational education the appropriate method for extracting meaning, providing new information, new order, and new life in a society that may be sliding into catastrophic, irreversible entropy? Often, vocational education offers not a general preparation for life but narrow skill training for occupations that are soon obsolete. This training often excludes what is convenient not to know, is controlled by conventional thinking that is hostile towards the new, and is a captive of established structures whose goal is simplification and convenience. New approaches to vocational education are necessary for survival. Vocational educators must generalize skills, develop a common set of attitudes, foster common expectations, and teach curriculum commonalities. These needs are all connected by complexity, organization, separability, continuity, sequentiality, interdependence, and self-regulation. These factors are all connected, and should be taught that way. (KC)

Descriptors—Demand Occupations, Education Work Relationship, Employment Opportunities, \*Employment Projections, Job Training, Labor Market, \*Labor Needs, \*Models, \*Occupational Surveys, Postsecondary Education, Secondary Education, Student Educational Objectives, Student Needs, \*Vocational Education

Identifiers—Colorado (Mesa County), \*Colorado (West)

This project sought to develop a model that could be used to gather information on employer and student needs in Mesa County and Western Colorado in order to enhance and validate vocational education offerings. To meet the objectives of the study, a comprehensive review of literature regarding existing models and/or programs, along with numerous interviews with persons directly involved with data collection were conducted. In addition, local agencies that could deliver the existing data were contacted in order to establish localized primary sources. The recommended information system, based on the findings of this research, is designed to facilitate an ongoing program. The model developed as a result of the research involves the following components: (1) identifying regions into which trainees will likely go when seeking employment; (2) identifying current employer needs; (3) researching new business and industry; (4) assessing potential student interests, needs, and capabilities; and (5) taking into account general population trends. (Appendixes to the document include a map showing Colorado planning regions, a student flow chart (showing path through vocational program), and a twelve-page list of selected references and resource materials). Descriptors—\*Computer Assisted Instruction, \*Computer Software, Educational Benefits, Elementary Education, \*Elementary School Students, Microcomputers, \*Outcomes of Education, Pilot Projects, Program Effectiveness, \*Skill Development

Identifiers—\*Keyboarding

Before students can use microcomputers effectively, they need keyboarding skills. A project was conducted in Montana to teach keyboarding to fourth-grade children using computer-assisted instruction. Two fourth-grade classes at Hawthorne Elementary School, Bozeman, Montana, participated in an 8-week, 32-session elementary keyboarding pilot program. They were instructed with "Microtype, The Wonderful World of Paws," suitable for grades 3-6, which was selected following a literature search. The students took a pretest and then completed the eight-week course. During the classes, it was found that more than one class period had to be spent on a lesson, especially in the beginning. Children also progressed more rapidly when the keyboards of the Apple microcomputers they were using were covered with paper. Significant progress was reported after the eight-week session, and a posttest showed that all children had made measurable gains in keyboarding skills. However, another posttest administered six weeks after the keyboarding class had finished showed that most of the gains were not maintained. The study concluded that it is feasible to teach keyboarding skills to elementary students and they can learn well, but that they need continuous practice to maintain the newly learned skills. (KC)

This document contains a unit for teaching the use of hand tools in agricultural mechanics in Montana. It consists of an outline of the unit and seven lesson plans. The unit outline contains the following components: situation, aims and goals, list of lessons, student activities, teacher activities, special equipment needed, and references. The seven lessons cover these topics: hand tools; hatching, files, and whetstones; power grinding; sharpening plane irons and wood chisels, knives, axes and hatchets, metal chisels, punches, twist drills, auger bits, and tin snips and scissors; distinguishing between crosscut saws and rip saws; taking care of hand tools; and using a chain saw safely. Each lesson contains some or all of the following parts: estimated time, why the lesson is needed, objectives, interest approach, presentation, tryout experience, follow-up, equipment needed, references, information sheets, and transparency masters or handouts. This unit of instruction on electricity has been designed especially for teachers to use with freshmen and sophomore vocational agricultural students in Montana. It consists of an outline of the unit and eight lesson plans. The unit outline lists the following components: situation, aims and goals, lesson plans, student activities, teacher activities, and references. The eight lessons cover these topics: what electricity is; understanding electrical terms and symbols; safety practices; electricity from plant to farm; electrical tools, materials, and controls; types of electrical circuits; practical wiring applications; and calculating amps, volts, resistance, and cost of electrical power. Each lesson contains some or all of the following parts: need for the lesson, objectives, interest approach, teaching plan, association and follow-up, references, handouts, and transparency masters. **Identifiers—**Montana

This revised handbook was developed to help teachers and administrators in Montana conduct cooperative education programs. The handbook is organized in 13 sections. In narrative style, the first 11 sections cover the following topics: introduction to cooperative education, advisory committees, re-

lated instruction, coordination of activities, secondary program standards, sex equity, youth groups, public relations, evaluation, vocational guidance, and legal responsibilities. The final two sections are supplements describing cooperative education programs in postsecondary vocational education and in colleges. Twenty-one appendices include a glossary, a list of resources, surveys and other forms, and the Montana State University Cooperative Education Program Learning Contract. (KC)

This document is a curriculum guide for a course for electronics mechanics for use in vocational-technical education. The course outline includes the following units: adjusting/calibrating electronic circuitry, replacing components, maintaining electronic devices, designing equipment and circuitry, performing environmental tests, and administering personnel. Each unit contains a performance objective with a task, conditions, standard, and source for standard; a performance guide; enabling objectives; learning activities; resources; evaluation/questions and answers; practical applications; methods of evaluation; and checklists for performance objectives. Extensive appendices to the guide contain cross-reference tables of duties, tasks, and performance objectives; definitions of terms; tools and equipment lists; sources for standards; a reference list of state-of-the-art literature; a bibliography; and written evaluation questions and answers. Designed as a supplement to workshops on radio support for literacy, this reader is intended to assist workshop participants to put radio in the broader perspective of development support communication and to provide background information on the use of radio in adult literacy education. An introduction provides an overview of literacy and literacy programs. Each of the reader's six parts consists of journal articles and selections from published documents on the specified topic. Part 1 addresses the educational and developmental context of radio and television. Part 2 deals with radio as a medium for developing and supporting functional literacy. Part 3 concerns planning the use of radio. The section is supplemented by a 2-part questionnaire on the use of radio and television in literacy campaigns which was sent to educational authorities and broadcasting organizations in many parts of the world and which could serve as a checklist for project planning. Part 4 discusses the Rural Farm Forum, an organized group listening approach that has become a classical strategy in many literacy programs and beyond literacy for overall rural development. Part 5 is comprised of case studies and country reports of the use of radio for literacy programs in Tanzania, Zambia, Ghana, Niger, India, Dominican Republic, and Co-

lombia. Part 6 provides a brief theoretical framework, followed by a list of requirements for an effective educational media project that seem in large proportion to be well met by the most successful cases, less well by the less successful ones. A bibliography is attached. (YLB)

**Identifiers—**"Fifth Generation Computers, United Kingdom

Research to develop a fifth generation of computers is underway in several countries. These computers, which will be distinguished by the ability to provide knowledge information processing and respond to natural language commands, will have a profound impact on the labor market and hence on further education. Rather than being a separate curriculum area, computer studies should increasingly underlie the teaching and learning of each subject area, offering a knowledge-based approach to computer literacy. The role and form of face-to-face teaching must be reassessed, and institutional amalgamations may be necessary to meet the new perceived needs. Staff development must be focused both on using the expanded capabilities of the new computers and on addressing their social implications. Colleges should have information technology development units to develop pertinent curricula and materials, introduce artificial intelligence to teachers, and collaborate with subject specialist teachers in introducing the applications of advanced information technology into their subject areas. Company involvement in collaborative projects should also be encouraged. (Appendices to this report include a glossary, selected quotations dealing with fifth generation computers and their likely impact, an introduction to micro-PROLOG and Augmented PROLOG for Expert Systems-APES—and an annotated bibliography.) Re-employment for Dislocated Workers: The Job Training Partnership Act Experience in Maryland.  
**Pub Date—**[85]

**Note—**31p; Document contains light type.  
**Pub Type—**Reports - Evaluative (142)  
**EDRS Price - MF01/PC02 Plus Postage.**

**Descriptors—**Adult Education, Cooperative Planning, Cooperative Programs, Coordination, "Dislocated Workers, Educational Cooperation, "Employment Programs, Federal Legislation, Financial Support, Job Placement, Participant Characteristics, Postsecondary Education, Program Content, Program Effectiveness, "Retraining, "School Business Relationship, "Statewide Planning  
**Identifiers—**"Job Training Partnership Act 1982, "Maryland, Reemployment

A study examined the effectiveness of Title III of the Job Training Partnership Act (JTPA) in providing employment and training assistance for dislocated workers in Maryland. Four areas—participants, program content, funding, and performance—were assessed. Despite its imperfections, JTPA seemed to do a good job of establishing a partnership of public agencies, employers, and labor representatives. More reemployment training than occupational skills training was being conducted under Title III, and eligible candidates were choosing immediate reemployment rather than 6 to 12 months of skills training, even though this frequently meant making transitions from manufacturing jobs with generous compensation packages to service sector jobs with low wages and limited bene-

fits. It was concluded that deleting the currently existing restriction against receiving unemployment benefits while participating in JTPA-funded retraining could enable far more trainees to afford the longer-term solution than is now the case. If success is defined as placements into unsubsidized employment, the Maryland program has certainly been successful. Of the 761 persons who terminated their participation in JTPA-funded reemployment training in fiscal year 1984, 502 (66 percent) reported entering unsubsidized employment. The JTPA performance orientation seems to result in higher unsubsidized employment rates than did the Comprehensive Employment and Training Act (CETA), although CETA did not maintain separate records for dislocated workers. \*Disadvantaged Youth, Economically Disadvantaged, Educationally Disadvantaged, \*Exceptional Persons, Federal Legislation,

\*Mainstreaming, \*Mild Disabilities, Models, Secondary Education, Special Education, \*Vocational Education, \*Vocational Evaluation

Identifiers—Carl D Perkins Vocational Education Act 1984

The requirements for vocational assessment of special needs students in the Carl D. Perkins Vocational Education Act are not well served by the traditional kinds of vocational assessment often practiced. Instead, vocational assessment for the purposes of responding to the mandate of the Act should be defined within the context of answering service delivery questions that naturally arise with respect to the successful completion of a vocational education program by an individual. A model of vocational assessment for special needs students should consist of five domains: screening, placement, program planning, monitoring, and individual program evaluation. The model described in this paper contains several characteristics that should make it particularly appropriate for use with secondary mildly handicapped and disadvantaged students. First, the model conforms directly with the language and intent of the Act. Second, the model maximizes the use of special services personnel directly performing services in the vocational classrooms, rather than encouraging the development of vocational evaluators as a specialized group distinct from teachers. Third, this model does not require the expense of commercial systems and formal laboratory space. Finally, the model conforms well with individualized planning cycles associated with individualized education programs or individualized vocational program planning. Perhaps its greatest strength is that it combines the duties of assessment and direct service personnel, and places both functions where they belong—in the vocational education program assisting the vocational educator who is delivering the instruction. Identifiers—Impact Studies, \*Private Sector

A study examined the impact of public policy on education and training in the private sector. During the study, the following research activities were completed: a statistical examination of the scope and nature of firm-supplied training, 20 case studies of the training supplied by large firms representing a diverse set of industries across the country, and a review of key public policies and programs. These analyses indicated that of the approximately 5 million workers now receiving formal training in the workplace, approximately 3.5 million are participating in programs financed and organized (but not necessarily conducted) by firms. Generally speaking, training is being offered to comparable numbers of men and women; however, minorities and those individuals with the least prior education still remain the least likely to receive firm-sponsored training. Most of the training provided by the firms studied was job specific and highly sensitive to business cycles. Although the decentralization of job training programs should be extended, policymakers should continue to recognize the importance of the Federal Government as a modest, yet necessary, unifying force in shaping policies for the delivery of firm-sponsored training and should formulate legislation concerning educational appropriations and taxes accordingly. Identifiers—\*Private Sector

A study examined the training provided to workers by 20 firms across the Nation. In the 12 years

between 1969 and 1981, American firms increased their expenditures on employee training from \$2.4 to \$3.5 million according to an analysis of data gathered by Current Population Surveys. In the same period, members of the American Society for Training and Development nearly tripled from 8,600 to 22,600. Nevertheless, the extent of firm-sponsored training appears to be related to business cycles since a temporary decrease in such training was noted during the 1981-1983 recession. Less than one-fifth of those trainers interviewed as part of this research project had been trainers in 1972. In general, the larger a firm and the more complex its services, the more likely it is to have a management development program with a built-in strategy for developing and teaching the company culture. As corporations have changed their attitudes toward affirmative action, and as the new generation of trainers has needed to establish their profession, present-day trainers interviewed in the study tended to see themselves as part of a larger movement in which the personnel function within their firms provides an integrated approach to human resource development. (An inventory for firms to use in assessing their own training programs is included in this report.) (MN)

Identifiers—Private Sector

This report, comprised of five separate reports, presents a set of statistical benchmarks for gauging the growth and development of corporate training and education over the last decade. "Summary Findings" (Robert Zernsky) presents in capsule form the technical analyses of the findings of the other four reports. It considers these questions: how much has corporate training and education increased? who gets trained and why? what is the link between training and compensation? and does training promote employment stability? Part Two, "Trends in Employer-Sponsored Education and Training: 1969-1978" (Michael L. Tierney), presents the technical analyses of the four questions, in the form of an analysis of the survey of adult education, 1969 through 1978. It discusses the total volume of employer-sponsored education and training, attributes of employer-sponsored courses, demographic attributes of participants, and the labor force attributes of participants. "Employer-Provided Education and Training in 1981" (Michael L. Tierney) is an analysis of the 1981 survey of adult education. "The Impact of Corporate Education and Training on Earnings and Employment" (Michael L. Tierney) is a modeling of the relationship between wages and training and between employment stability and training. "Company Training, Employment Stability, and Employers' Needs and Practices" (Ivar Berg and Janice Shack-Marquez) is an analysis of three additional national surveys of work and training experiences—the Panel Study of Income Dynamics, the new National Longitudinal Survey of Youth, and the National Longitudinal Study of the High School Class of 1972. Implementing Technology Education in America's Schools.

Pub Date—Dec 85

Note—13p; Paper presented at the Meeting of the American Vocational Association (Atlanta, GA, December 6-10, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price — MF01/PC01 Plus Postage.

**Descriptors**—\*Educational Needs, \*Educational Objectives, Experiential Learning, Futures (Of Society), \*Program Implementation, Secondary Education, \*Technical Education, \*Technological Advancement, \*Technological Literacy  
Practitioners involved in implementing technology education in middle, junior, and senior high schools should keep several guiding principles in mind. Technology education is a vital educational component in a highly technological society, and present and future societies will depend upon the wise use of technology as an important factor in survival and human progress. Technology education must be packaged and delivered in keeping with the characteristics and needs of all students at all ability levels. The program should be experientially based and should utilize the base of research findings on how individuals learn. Instruction should take place in the context of a multi- and cross-disciplinary involvement of the learner. Technology education must be extended beyond the craft domination of previous years and most programs, thus making technology education much more broadly conceived than technical education as it is usually understood. The process of technology education must be a holistic one that recognizes the fact that nothing can be studied to any measurable degree within a single discipline. (MN)

**The Personal Interview as a Data Collection Technique.**

Pub Date—Dec 85

Note—15p; Paper presented at the Meeting of the American Vocational Association (Atlanta, GA, December 6-10, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

**Descriptors**—\*Data Collection, \*Interviews, Postsecondary Education, \*Research Methodology, \*Vocational Education

**Identifiers**—\*Focused Interviews

This paper is a personal account of the use of the focused interview technique to collect data on the factors that facilitated and inhibited the research productivity of faculty members in vocational education. A brief literature review is followed by an explanation of how the researcher was urged to abandon her original intention of interviewing a narrow sample of respondents and instead interview the most diverse sample of researchers possible. The paper describes next the procedures followed, problems encountered, and insights gained during the following stages of the study: planning the project to meet specific objectives, selecting and contacting organizations or respondents, constructing the interview guide, conducting the interviews, and recording and analyzing the responses and observations. After reviewing problems and successes while conducting the interviews, the paper concludes that the interview is a useful and workable research method. (MN)

**Descriptors**—Agricultural Education, \*Competence, \*Educational Attitudes, \*Educational Needs, \*Extension Agents, Extension Education, \*Inservice Education, \*Job Performance, Needs Assessment, Postsecondary Education, Program Improvement

**Identifiers**—Illinois

A needs assessment was conducted to determine how county cooperative extension advisors in Illinois perceive their duties and what they consider their needs for inservice education. Questionnaires identifying 14 competencies needed by cooperative extension agents were sent to county extension advisors; the 298 that were returned constituted the study sample. Data gathered from these surveys were analyzed using canonical discriminant analysis. The survey found that about 60 percent of respondents had been employed 10 years or less and 29 percent were employed 3 years or less, that

one-half were less than 35 years old, that they possessed a great variety of undergraduate degrees, and that they had a strong interest in lifelong learning. A large majority of advisors considered the 14 job duties to be a part of their work responsibility and requested specific inservice programs on these duties. The study also found that inservice education was the primary source of current competence to perform all duties, with undergraduate programs the second most important source. A majority of advisors believed that a new employee should already be able to perform 11 of the 14 duties at the time of original employment. Evaluating program effectiveness was the duty about which advisors considered themselves least competent and most in need of inservice education. The report recommends that the results be used to improve inservice education programs for cooperative extension agents. (KC)

Development of human resources is the primary purpose of vocational education, and it is only through continued professional growth that vocational educators can develop and maintain the knowledge, attitudes, skills, and habits needed to assist others in the process of realizing their full potential. The individual and professional development of vocational educators may be viewed in terms of the same models used to describe the improvement of an entire nation. The following models are particularly relevant to those responsible for providing professional development opportunities for adult educators: the KASH Formula, Main Event Principle, People Resist Change, Desire for Change, Attitude Box, Attitude Stair Steps, Behavior Is Goal Directed, Two Tragedies, and Opportunity Wedge models. These models suggest that (1) improvement is realized by increasing one's knowledge and skills and changing one's attitudes and habits; (2) all people resist change to some extent and must learn to overcome this resistance; (3) vocational educators must develop a positive attitude toward self-improvement and become sufficiently anxious to increase their desire for change; and (4) because motivation comes from within each person, professionals must establish their own self-improvement goals. Although those responsible for staff development cannot motivate the vocational educators with whom they are working, they can stimulate them to continue to expand their professional horizons. (MN)

**Descriptors**—\*Cost Effectiveness, Educational Benefits, \*Educational Economics, Models, \*Outcomes of Education, \*Program Effectiveness, \*School Effectiveness, Secondary Education, \*Vocational Education, Vocational Followup

**Identifiers**—Roanoke County Schools VA

A major challenge confronting vocational educators is to justify programs in economic terms. The purpose of this study was to propose and implement a cost-benefit analysis model to determine the economic outcomes of secondary vocational education programs at the local level. For the study, a cost-benefit model for secondary vocational educa-

tion was proposed, submitted to a panel of experts for revision, implemented, and evaluated. The model was implemented at a comprehensive high school and an area vocational center in the Roanoke County School Division, Virginia. Four visits were made by the researchers from December, 1984, to April, 1985, to the central administrative offices and to the school sites to gather data related to costs and benefits. Further, a follow-up survey was conducted to determine the monthly income earned and average number of hours worked per week by the graduates of each of four vocational programs. Based upon analysis of the data, the study concluded that the cost-benefit analysis model is usable and should be transportable to other secondary vocational settings. (In the specific implementation for this study, it was concluded that the trade and industrial program, the business education program, and the marketing and distributive education program were economically profitable, while the occupational home economics program was not economically profitable.) The field test of the cost-benefit analysis model of secondary vocational education programs with its findings and conclusions suggests that the Roanoke County model can be used to determine the economic outcomes of vocational programs and is transportable to other secondary vocational education settings. **Education and Employment. A Handbook to Promote Sex Equity.**

Pueblo Community Coll., CO.

Pub Date—Aug 85

Note—73p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC03 Plus Postage.

**Descriptors**—Administrator Attitudes, Attitude Change, Change Strategies, Educational Attitudes, \*Females, Feminism, \*Individual Needs, \*Nontraditional Occupations, Questionnaires, Secondary Education, Self Evaluation (Individuals), Sex Bias, \*Sex Fairness, Sex Stereotypes, Student Needs, \*Student Recruitment, Teacher Attitudes, \*Vocational Education

This handbook is intended to help instructors and administrators increase enrollments of females in nontraditional vocational training programs and thereby foster sex equity in society. Information is provided that is designed to address the following objectives: increasing nontraditional enrollment, facilitating positive educational experiences for women, and understanding the unique situation of women choosing nontraditional training. The first section includes a brief history of feminism in the United States, a rationale for increasing nontraditional enrollment and student recruitment efforts, and a self-scored gender communications quotient inventory for teachers and administrators. The next three sections contain quizzes dealing with work and the family, female labor force participation, and women and education along with information disproving many stereotypes. The final section consists of fact sheets covering such topics as recruitment strategies and supportive services needed by women in nontraditional vocational programs. (MN)

Pub Type—Reference Materials - Bibliographies (131) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

**Descriptors**—Annotated Bibliographies, Change Strategies, Counseling Services, \*Dislocated Workers, \*Educational Needs, Emotional Problems, Employment Problems, Employment Programs, \*Employment Services, Family Problems, Health Needs, Individual Needs, Job Training, Policy Formation, \*Public Policy, Retraining, Skill Development, Skill Obsolescence, \*Unemployment, \*Vocational Rehabilitation  
Dislocated workers are distinguished from chronically unemployed individuals in that the former have a stable work history and are generally un-

aware of the community's social services programs and how to use them. Dislocated workers frequently lack job search skills and do not see the transferability of their work skills. Often, they have heavy family and community responsibilities, may have become socially isolated, and may need retraining to become employable again. Although many of these workers may have high school diplomas, they may nevertheless be functionally illiterate. Thus, dislocated workers need the following services to help them return to the labor market: coordination of community services, outplacement service to workers at all levels, support groups, information and referral, education and training services, relocation assistance, and assistance or resource centers. The policy study is followed by an annotated bibliography of approximately 180 works dealing with the problems of dislocated workers and strategies for addressing them. Described in the bibliography are works on such topics as the characteristics of dislocated workers, the extent and causes of the dislocation problem, health and social stresses related to dislocation, social networks and unemployment, retraining and counseling needs, the role of community agencies and local agencies, and the role of the State and Federal governments. Descriptors—Adult Education, \*Computer Assisted Instruction, \*Correctional Education, Cost Effectiveness, English, Foreign Countries, \*Formative Evaluation, Language Arts, Mathematics, \*Microcomputers, \*Online Systems, \*Program Effectiveness, Program Evaluation, Programming Languages, Student Attitudes, Teacher Attitudes  
Identifiers—\*Canada

The computer-assisted learning (CAL) pilot project in Canadian penitentiary schools involved the use of computer courseware supplied from a central computer via telephone lines to terminals in the schools. Courseware was in three curricular areas: mathematics, English language arts, and the BASIC programming language. The evaluation was conducted by visiting microcomputer and online sites, where teachers and inmate-students were interviewed and observed. Interview schedules, questionnaires, and opinionnaires were developed for use by the evaluation team. An assessment of the extent to which Stony Mountain, Warkworth, Leclerc, and Springhill have been successful in implementing online CAL in the classrooms of their schools was examined. Factors that aided and impeded the implementation, staff and student attitudes, cost calculations, and comparisons with microcomputer delivery systems were recorded. Findings were that (1) staff and student attitudes are positive, (2) expenditures for the computer delivery mode are less than would have been required to have a teacher deliver the same number of hours of instruction, and (3) a justifiable need exists for additional equipment, courseware, and training. Recommendations are presented regarding teacher training and supervision, acquisition of additional hardware, improvements to software, and credits for courses. (Appendixes, amounting to approximately one-half of the report, contain descriptions of implementation sites, including student attitude survey results and summaries of staff attitudes and administrative concerns; information from other sites, including staff questionnaires; a list of suppliers; and a schedule of site visits for the project. Descriptors—\*Citizen Participation, Comparative Analysis, Longitudinal Studies, National Programs, \*Older Adults, \*Participant Characteristics, \*Participant Satisfaction, Program

Effectiveness, Quality of Life, \*Retirement, Tables (Data), \*Volunteers  
Identifiers—Impact Studies, \*Retired Senior Volunteer Program

A study examined the long-term effects of participation in the Retired Senior Volunteer Program (RSVP) on participants from 20 RSVP projects nationwide. Three rounds of interviews were conducted. In Round 1, 750 volunteers were interviewed: 595 veteran volunteers and 155 new volunteers. In Round 2, 792 volunteers were interviewed: 175 new volunteers and 617 volunteers from the earlier round. In Round 3, 677 volunteers were reinterviewed. Data from these interviews were then compared to data collected from the General Accounting Office's longitudinal study entitled "The Well-Being of Older People in Cleveland, Ohio." The RSVP was found to appeal to a broad spectrum of the American public. Compared with the Cleveland cohort, RSVP attracts a healthier group of senior citizens, and continued involvement in RSVP is associated with improved or stable levels of functioning. Continued program participation is associated with participants' enhanced sense of well-being and outlook on life and may stave off the effects of aging. RSVP volunteers also provide meaningful services and contribute indirectly to the national work force. Program effectiveness may be increased by lowering first-year attrition rates. (Appendixes to this report include a glossary, a detailed description of the study design and methodology, sample attrition data, panel composition data tabulations, information on the reliability and validity of the study scales, levels-of-functioning data tabulations, and psychological/sociological scale results.) Identifiers—\*Jamaica

There are more than 70 different organizations in Jamaica engaged in some form of adult education, from university extension and professional career and skills training to social education and basic literacy. Programming for adults is currently available in the following forms: training for out-of-school youth, basic adult education and literacy training, the arts and culture, instruction delivered via the mass media, church-provided instruction, management and administrative training, and continuing education for professional personnel. As in other developing nations, adult education in Jamaica is viewed primarily as a tool for social change. Compared with many other Third World countries, Jamaica lags behind in adult education at the university level. Extensive coordination efforts are necessary to remedy the currently fragmented nature of adult education services. Improvements are especially needed in the areas of lifelong learning, teacher education for adult educators, development of a mass education movement, and adequate training in the area of management development. Perhaps the most important task facing adult education in Jamaica is to convince Jamaicans that matters of science and technology are not beyond the grasp of Third World nations and that Jamaica's substantial working population can indeed become a

part of a modern industrializing state. (MN)

Educational Training in a Pre-Release Correctional Center/A Collaborative Model.

Pub Date—84

Note—14p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Adult Education, Competency Based Education, Cooperative Planning, \*Cooperative Programs, \*Correctional Education, \*Correctional Rehabilitation, County Programs, Educational Cooperation, Job Placement, Job Search Methods, \*Job Training, Models, Outcomes of Education, Postsecondary Education, State Programs, \*Transitional Programs, Vocational Education

Identifiers—\*Pre-release Programs

A prerelease program was developed to provide job training to persons who were within 90 to 120 days of their scheduled release date from a Washington State prison. The Geiger program was sponsored and operated jointly by Spokane County and State agencies. Because it was determined that the 84-bed unit would handle approximately 30 arrivals and 30 departures each month, the program was designed using an open-entry/open-exit format. The initial stage in the vocational training program evolved around a simplified needs assessment process using inmate representatives to conduct an institutional survey. The first projects at the center featured a series of competency-based modules dealing with electrical training, drapery making, and cook and baker training. Job placement assistance and training in job search methods were also provided. To date, the program has been quite successful and is slated to continue. (MN)

secondary Education, Program Effectiveness, \*School Business Relationship, Student Characteristics, \*Work Experience Programs, Youth Programs

Identifiers—Great Britain, Youth Training Scheme

A pilot project was undertaken in South Bedfordshire, England, to develop a work-based job training program for out-of-school youth. The program was based on a partnership between local educators and employers and featured an integrated curriculum that combined work-based learning with off-the-job training. Besides integrating occupational and basic skills, the program provided for instruction in such areas as communication, numeracy, manipulative, and English-as-a-second-language (ESL) skills. Tutors developed training curricula during the training process rather than before it. The training model called for counselors to play a central role, functioning as (1) liaisons between supervisors, trainers, tutors, and trainees and (2) teachers and providers of guidance and support. Although a few employers regarded the program as an opportunity to obtain cheap labor, the majority of those employers contacted welcomed the idea of youth training and went to considerable lengths to provide work experiences that included variety. At the end of the program's first year, most of the staff agreed that while some differences existed between the approaches of supervisors and tutors, some aims supported by the Youth Training Scheme (YTS) approach were already being practiced by supervisors. (Appendixes to this report include data tabulated for the induction questionnaire, the tutor/counselor questionnaire, the form used to assess progress and attainment, and a sample work-based training unit.) Descriptors—Competency Based Education, \*Curriculum Development, Educational History, Educational Needs, Educational Philosophy, \*Educational Practices, Higher Education, \*Job Analysis, \*Preservice Teacher Education, Program Improvement, Teacher Education, Technical Education, Trade and Industrial Education, \*Trade and Industrial Teachers, Vocational Education

Identifiers—Fryklund (Verne C)

Traditionally, trade and industrial education teachers performed their own job analyses in order to develop a curriculum and teach their classes. Eventually, processes were created for such analyses. One that had a great influence in educational circles was the job analysis system of Fryklund. However, since Fryklund's time, occupational analysis systems have become increasingly complex; today, many teachers rely exclusively on prepackaged materials for occupational analysis and curriculum development. However, it should be remembered that occupational analysis does more than aid in developing the curriculum; it also aids teachers in "thinking analysis" as a teaching and management methodology. This second goal should be an extremely important aspect of any trade and technical teacher preparatory program. Since prepared curricula are available, teachers no longer have a need to analyze an entire program for curriculum development. However, they should be provided the practice in performing an analysis so that they fully understand the concepts involved. In addition, packaged occupational analysis systems and curriculum guides have become increasingly complicated and will eventually become less useful. Teachers become "turned off" when a system becomes so time consuming that it gets in the way of providing good instruction. The development of occupational analysis and the use of prepackaged curricula may have reached the point of diminishing returns. It should not be forgotten that trade and industrial teachers and technical teachers have had a superior analysis system for over 40 years. They should continue processes that are of most benefit to themselves and their students. (KC)

Descriptors—\*Computer Oriented Programs, Computers, \*Curriculum Development, \*Manufacturing, Manufacturing Industry, Postsecondary Education, \*Program Development, Program Implementation, School Business Relationship, \*Technical Education, Technological Advancement

Identifiers—\*Computer Assisted Manufacturing  
A computer-integrated manufacturing (CIM) technician program was developed to provide training and technical assistance to meet the needs of business and industry in the face of the demands of high technology. The Computer and Automated Systems Association (CASA) of the Society of Manufacturing Engineers provided the incentive and guidelines throughout the program development process. The first step in the CIM program planning was to determine objectives and establish instructional parameters. In the initial program design were blended together (1) the CASA guide to CIM, known as the "CIM Wheel," which depicts the basic model of a CIM system as it would actually function in industry; (2) the present stage of CIM development in area industries; and (3) the resources and expertise in computer manufacturing already developed at Moraine Park Technical Institute (MPTI) in Wisconsin. Courses were developed around identified competencies and categorized as occupational specific, occupational support, technical support, and general education courses. These computer manufacturing subsystems already available at MPTI were identified as requiring further development and integration: computer-aided design, automated machining and computer-assisted programming, automated material handling and robotics, and manufacturing control and planning. (An addendum provides descriptions of 14 CIM technician courses.) (YLB)

Descriptors—Business Education, \*Business Education Teachers, Educational Research, \*Enrollment, Enrollment Rate, \*Enrollment Trends, Postsecondary Education, \*Preservice Teacher Education, \*Student Recruitment

Representatives from 154 National Association for Business Teacher Education institutions responded to a questionnaire designed to elicit responses about the most effective recruiting practices for business teacher education programs. Several questions were included to determine the present status of business education programs and trends in these programs since 1982. Data revealed enrollments are increasing in business teacher education in about 45 percent of responding colleges of business and education. Enrollment trends for administrative office management programs did not look as encouraging. Respondents cited as key ingredients necessary for maintenance and/or growth of a quality business education program the following attributes (in order of decreasing mention): relevant, innovative, complete programs; competent staff; strong recruitment program; modern equipment; administrative support; availability of jobs and better salaries; interaction with public schools; and program reputation and graduate quality. Recruiting techniques respondents listed as successful included letter writing, school visits, student organizations, sponsor activities, student teachers, alumni, newsletters, advisory committees, campus recruiting, and professional activities. Microcomputer Troubleshooting Training.

Pub Date—Dec 85

Note—17p.; Paper presented at the Meeting of the American Vocational Association (Atlanta, GA,

December 6-10, 1985).

Pub Type—Guides - Classroom - Teacher (052) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Electromechanical Technology, \*Electronics, \*Electronic Technicians, \*Equipment Maintenance, \*Microcomputers, Postsecondary Education, \*Program Development, Repair, Technical Education

Identifiers—\*Troubleshooting

The microcomputer troubleshooter is regarded as a technically knowledgeable member of the team and is more active in equipment selection, site preparation, site supervision and preventive maintenance, and on-site training of operators, maintenance people, and programmers. Microcomputer troubleshooting can be incorporated into an electronics program in two ways. Troubleshooting can be an area of study in a comprehensive electronics program or the goal of a specialized electronics program. The background study required for either path is the same, and coursework used to meet the first objective (a comprehensive electronics program) can also become part of the program with the second objective (specialized electronics program). A good foundation in basic electronics is essential. Troubleshooting microcomputer-based equipment may be broken into a basic and an advanced course. The basic course should use a single-board system, emphasize basic ideas, and introduce specialized instruments and techniques designed for computer troubleshooting. The advanced course should include a more complex system (multiboard system and disk drives), a more detailed study of the system, details of the system's operating system and common peripherals, and application of troubleshooting techniques and use of instruments covered in the basic course to troubleshoot the larger, more complex system. Way, Wendy L.

The Role of the Future Homemakers of America Student Organization in Facilitating the Development of Critical Thinking Skills.

Pub Date—Dec 85

Note—17p.; Paper presented at the Meeting of the American Vocational Association (Atlanta, GA, December 6-10, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Cognitive Development, \*Critical Thinking, \*Home Economics, Intellectual Development, \*Metacognition, Secondary Education, \*Skill Development, \*Student Organizations, Student Participation

Identifiers—\*Future Homemakers of America

The Future Homemakers of America (FHA) organization has historically provided an ideal climate for development of critical thinking by devoting conscious attention to thinking, teaching skills directly, and providing opportunities for interaction through cooperative learning and discussion. Strategies for expanding the knowledge base and building conceptual complexity include peer education projects and use of teaching models developed to stress group interaction and assist learners with the inquiry process in these projects. In regard to building metacognitive (executive) and nonexecutive thinking skills, the FHA Planning Process provides an ideal framework for members to build metacognitive skills. Other, more direct strategies might include peer education projects involving teaching others about the components of metacognition and investigating the use of metacognitive thinking skills in fulfilling various work and family roles. Members may study nonexecutive thinking skills themselves or incorporate them into peer education projects. Advisors can also strengthen the climate existing within FHA for the healthy development of the critical spirit by giving attention to ideas as well as skill-centered projects, encouraging respectful weighing of other points of view, discouraging hasty decision making, and encouraging reliance on self as well as experts to construct knowledge and make judgments. A bibliography is appended. (YLB)

Descriptors—Automation, \*Educational Resources, \*Information Sources, \*Paraprofessional Personnel, Postsecondary Education, \*Program Development, Program Improvement, \*Robotics, \*Technical Education

Major resources exist that can be used to develop or upgrade programs in community colleges and technical institutes that educate robotics/automated systems technicians. The first category of resources is Economic, Social, and Education Issues. The Office of Technology Assessment (OTA) report, "Automation and the Workplace," presents analyses of dimensions of technological change, occupational change forecasting, and changes in instructional requirements for technology and manufacturing. "Computerized Manufacturing Automation: Employment, Education, and the Workplace," another OTA report, is an analysis of technical, economic, and social issues concerning programmable automation in manufacturing. The category of Programs, Bibliographies, and Newsletters includes "Resources for Automated Manufacturing Technologies Programs" (Doty, 1985), containing resources on organizations, agencies, electronic databases, newsletters, and exemplary technical programs located throughout the nation; Rodenstein's (1984) profiles of eight high technology cluster programs; "1983 North American Director of Robotics Education and Training Institutions"; and the newsletter, "Open Entries," which provides technical educators with an information system for exchange of competency-based curricula. The third category of Centers, Associations, and Private Firms suggests as sources of materials the Vocational Technical Education Consortium of the States; Center for Occupational Research and Development; National Center for Research in Vocational Education; a national clearinghouse for computing curriculum materials at Iona College; Rhino Robotics, Inc.; and Amatrol, Inc. This document serves as a guide for establishing new supervised occupational experience (SOE) programs in agriculture and/or updating/improving existing SOE programs. It is designed for use by administrators, guidance counselors, agricultural teachers, advisory committee members, and others who have an interest in or responsibility for the school curriculum. Section I lists the major steps (activities) for establishing/improving existing programs. Individuals and/or groups needed to carry out the activities are suggested. Section II provides guidelines for conducting high quality SOE in agriculture and suggested strategies for implementing these guidelines. The 11 areas for which guidelines and strategies are provided include definition, purposes, types of SOE, clientele, administrative support and policies, supervision/coordination/placement, relationship to in-class instruction and Future Farmers of America, legal requirements, evaluation, and options for using SOE as part of an agricultural sequence in New York State. Some adaptation is anticipated to meet individual school situations. Section III contains supplemental materials, including a teacher calendar of key SOE activities and a glossary of terms. (YLB)

Optometry Specialist.

Air Force School of Health Care Sciences, Sheppard AFB, TX.

Pub Date—84

Note—407p.

Pub Type—Guides - Classroom - Learner (051) — Guides - Classroom - Teacher (052)

**EDRS Price - MF01/PC17 Plus Postage.**

Descriptors—\*Allied Health Occupations Education, Behavioral Objectives, Clinical Experience, Eyes, \*Job Skills, Job Training, Lesson Plans, Military Personnel, \*Military Training, Optometrists, \*Optometry, Postsecondary Education, Teaching Methods, Units of Study, \*Vision, Vision Tests, Visual Acuity, Workbooks

Identifiers—\*Air Force

This course is designed to help military personnel to attain the rating of optometry specialist in the Air Force. The packet includes both a teacher's plan of instruction and five student study guides/workbooks. The teacher's plan of instruction contains lesson plans, lists of student instructional materials and audiovisual aids, and suggested methods and instructional guidance for the course. Designated Blocks I-V, the five student study guides/workbooks cover the following topics: introduction and basic optics, visual acuity and its correction, assisting the optometrist, vision classification, and clinic management and practicum. The guides contain an introduction, objectives, information, and exercises. Materials are illustrated with line drawings. (KC)

Descriptors—\*Computer Managed Instruction, \*Computer Oriented Programs, Educational Needs, Foreign Countries, \*Information Needs, Innovation, \*Management Information Systems, Needs Assessment, \*Program Administration, Program Development, School Administration, Secondary Education, Vocational Directors, \*Vocational Education

Identifiers—\*Taiwan

Computerized school administration has become one of the most crucial innovations in vocational education in Taiwan in the Republic of China. As these educators begin to design or purchase computerized information systems for their own schools, they must first define their specific information needs. Next, they should pay attention to interrelationships among all the data subsystems in their information systems so as to avoid data redundancy. Care should be taken so that the system is designed in a way that will generate information in a format that meets pertinent regulations and rules. All persons who will use the system, including data processing personnel, faculty members, clerks, and department heads, must work jointly to set up the system, and appropriate training for the end users of the system must be designed and provided. The in-

formation system itself should be divided into the following subsystems: personnel, learning resources, student services, facilities and equipment, finance, and instruction. Finally, efforts should be made to (1) help school personnel adjust to the change in organizational climate that will undoubtedly arise after the computerized system is introduced and (2) develop and maintain procedures to provide information security and protect individuals' and organizations' rights to privacy. **A Study of Student Career Choices in Three High Schools of the Upper Cumberland Region of Middle Tennessee.**

Pub Date—7 Nov 85

Note—17p.; Paper presented at the Annual Meeting of the Mid-South Educational Research Association (14th, Biloxi, MS, November 7, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—\*Career Choice, Career Education, Educational Research, High Schools, \*High School Students, \*Influences, \*Teacher Education

A study determined what careers 11th- and 12th-grade students have chosen and who was the greatest influence in their choices. It identified the following: (1) career choices teachers selected for the most able student; (2) career counseling roles for school personnel; and (3) major influences in students' career choices. Questionnaires were developed and administered to all high school teachers and 11th- and 12th-grade students of three Upper Cumberland, Tennessee, high schools. Surveyed students as a group listed other, vocational, undecided, and medicine as their top five career choices. Teachers as a group ranked engineering, medicine/business, high tech, vocations, and law as preferred careers for their most able students. Students selected friends, others, mothers, fathers, and vocational teachers as the most influential persons in their choice of careers. When schoolmates, friends, and others are combined, 35 percent of the students' choice influence comes from individuals with limited career information. Teachers indicated that fathers, mothers, counselors, vocational teachers, and science teachers/others should be the most influential in student career choice. In general, students and teachers reported that salary is the primary reason students do not choose education as a career, followed by educational requirements and working conditions. (Eleven data tables are provided.) (YLB)

Descriptors—Classroom Techniques, Curriculum, Educational Needs, Educational Objectives, \*Industrial Arts, Laboratory Procedures, Needs Assessment, \*Program Content, Program Improvement, Secondary Education, \*Statewide Planning, Teacher Workshops, Technical Education, \*Technological Advancement, \*Technological Literacy, Technology, \*Trade and Industrial Education

Identifiers—\*Pennsylvania

This workshop presentation was developed to assist Pennsylvania industrial arts teachers in developing and teaching a curriculum in technology and technological literacy that meets the 12 Pennsylvania goals for attaining quality education that were established in 1979. Designed to explain the basis for the study of technology in public school technology programs, the presentation addresses the following topics: the impact of technology on society; the evolution of technological systems (production, transportation, and communication and information systems); the nature of technical means (knowledge of society, knowledge and technical means, and intellectual factors); the relationship between technology and science; the importance of technological literacy and the nature of technological systems; the need to study technology; and a curriculum structure for technology education.

Work and Programmable Automation.

Pub Date—8 Apr 83

Note—22p; Paper presented at the Annual Spring Conference of the Industrial Relations Research Association, West Virginia Chapter (Charleston, WV, April 8, 1983).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Automation, Career Education, Computer Oriented Programs, Employment Patterns, Employment Projections, Futures (of Society), Microcomputers, Robotics, Role of Education, Technological Advancement

A new industrial era based on electronics and the microprocessor has arrived, an era that is being called intelligent automation. Intelligent automation, in the form of robots, replaces workers, and the new products, using microelectronic devices, require significantly less labor to produce than the goods they replace. The microprocessor thus makes it possible to have economic growth without increasing employment. Microprocessors and robots have altered and will continue to alter significantly the nature and character of work. If work is to serve human beings in their personal development, it seems imperative that they control the nature and character of their technical means so they contribute to, rather than detract from, the human quality of life. The institution of education has a responsibility to help people know and understand more about technical means and the relation of these means to social purpose, themselves, their work, the environment, and their future. The development of the microprocessor and other technical means forces a reassessment of traditional, institutionalized approaches. Education must focus on the future, learning how to learn, lifelong learning, and the skills associated with these processes which enable humans to reprogram themselves to do what they have not been trained to do. Education-Technology and Public Policy.

Pub Date—20 Apr 83

Note—22p; Paper presented at the Summit Conference of the American Industrial Arts Association (Milwaukee, WI, April 20, 1983).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Educational Benefits, Educational Needs, Educational Policy, Industrial Arts, Information Centers, Needs Assessment, Public Policy, Secondary Education, Technical Education, Technological Literacy, Technology, Trade and Industrial Education

Public policy with respect to industrial arts as a part of general education is almost nonexistent. In fact, one finds little true commitment to the field except by its practitioners, and they frequently report such problems as not having a textbook available for their course or having school counselors assign to their courses students who cannot read. This situation is especially critical when considered in light of the competition that the United States is currently facing in such areas as heavy industry, manufacturing, and microprocessor and information technology. At long last, others concerned with the need for technological literacy have realized that the industrial arts/technology education field has a vital role to play in revitalizing the Nation's economy by increasing the understanding of technology among its citizens. One way to enable industrial arts to accomplish this mission would be to create a national center for the study of technology and human affairs that could provide the level of academic and political leadership required for the development and implementation of appropriate public policy concerning technology education. Differentiating between Science and Technology.

Pub Date—27 Mar 85

Note—29p; Paper presented at the Annual Conference of the International Technology Education Association (San Diego, CA, March 25-30, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Definitions, Educational Benefits, Educational Needs, Educational Objectives, Educational Policy, Industrial Arts, Needs Assessment, Program Content, Public Policy, Sciences, Secondary Education, Technical Education, Technological Literacy, Technology, Trade and Industrial Education

The confusion concerning the meaning of the terms science and technology is readily apparent in the literature of various study groups concerned with the issue of technological literacy, including researchers working in the fields of mathematics, engineering, and education. The literature would suggest that rather than one relationship between science and technology, there are many. These fields are mutually exclusive and not mutually dependent, although each has been enhanced by contributions of the other. Generally, if the scope of a problem is clearly defined as solving a human or social problem within a specified environment, then the activity is technological. If, on the other hand, the goal of the problem does not restrict the scope of the results sought or the direction of inquiry, then, in most cases, the activity is scientific. Practitioners designing technological literacy programs would do better to avoid the seemingly unresolvable controversy over the difference between science and technology and concentrate instead on determining what constitutes the science of technology. It is proposed that technology be viewed as a science that deals with the creation, utilization, and behavior of adaptive systems in relation to human beings, society, and the environment. (MN)

Preparing the Technology Education Profession for the Future.

Pub Date—Nov 84

Note—37p; Technical Foundation of America Distinguished Lecture delivered at the Annual Conference of the Kentucky Industrial Education Association (Louisville, KY, November 2-3, 1984).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Educational Needs, Educational Objectives, Futures (of Society), Higher Education, Industrial Arts, Needs Assessment, Program Content, Program Improvement, Secondary Education, Teacher Education, Teacher Improvement, Technical Education, Technological Advancement, Technological Literacy, Trade and Industrial Education

The first step in determining how to prepare the future teachers who will teach in the field of technology education in the 21st century is to determine what technology education itself will be like. If one purpose of technology education is to prepare people to adapt to new situations and control their own destinies, then the role of educators in the technologies should be to determine what learning is of most worth in the ever-changing, dynamic, worldwide technological society. Traditionally, educators have separated liberal education from technological education. This can no longer be the case. Teacher education programs must be revamped radically and must receive adequate staffing and funding to prepare future teachers who will be able to provide technology education that is both job specific and broad enough to focus on the role of the individual in a free society. Research is necessary to develop pedagogical methods adequate to prepare teachers who can fuse the knowledge about the concepts, relationships, and consequences of technical means with the knowledge and know-how for using and designing appropriate technical means. Ford, Geraldine A. Ford, Jerry D.

A Study to Determine the Perception of Business Persons on Changing from a Traditional Office to the Electronic Office.

Pub Date—[85]

Note—41p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Automation, Computer Literacy, Educational Needs, Electronic Equipment, Employer Attitudes, Office Machines, Office Occupations Education, Offices (Facilities), State Surveys

Identifiers—Arkansas

A study examined the attitudes of employers from 10 firms in northwest Arkansas toward changing from a traditional office to an electronic one. Even though the 10 employers represented 7 different categories of industry (construction, manufacturing, transportation and public utilities, wholesale and retail trade, finance and real estate, services, and government), their responses to the 20-item questionnaire were quite similar to one another. All of the employers had had experience in the electronic office and therefore all could relate to the resulting changes in people, equipment, procedures, and attitudes. The 10 respondents agreed that the electronic office is capable of requiring less time to do a certain task with the least amount of expense, thereby being more cost-efficient than the traditional office. The majority of respondents felt that the electronic office will demand greater efficiency in the language arts, and most felt that the person who is not computer literate by the end of the decade will be at a disadvantage. (The survey instrument is appended to this report.) (MN)

Identifiers—Competency Tests

These 10 papers focus on the key to excellence in vocational education in light of teacher assessment and effective assessment systems, challenges to testing students and teachers and the legal implications, basic and employability skills, and the need for vocational teacher technological update strategies. "Introduction and Colloquium Purpose" (Rupert Evans) offers a brief introduction to the above concerns. "Assessing the Professional Performance of Teachers: Promising Principles and Practices" (Glen Fardig) considers what should be assessed, the skills of effective vocational teaching, and what needs to be accomplished. "The Law and Testing of Students and Teachers" (August W. Steinhilber) addresses the legality of testing. "Basic Skills—Integration of Mathematics and Science into the Teaching of Vocational Education" (Donald Maley) considers the reasons and opportunities for this integration, including the process, systems, and construction approaches. "Basic Skills into the Teaching of Vocational Education" (Dewey Allen Adams) offers a broader range of "basics" discusses how a broader focus enhances vocational education, and suggests implications for the preparation and inservice education of vocational teaching personnel. "Employability Skills—Basics for Employment: Keeping the Job" (Lee W. Stewart) discusses the basics that are considered by industry to be a condition for graduation and includes a lengthy description of the Virginia Peninsula Vocational Training Council. "Drive for Show-Put for Dough: Teaching Employability Skills in Occupational Education" (Richard D. Jones) focuses on the importance of employability skills. "A Strategy for Vocational Teacher Technological Update" (James B. Hamilton) discusses the need for such a strategy and characteristics essential to it. "Technological Update—Who's Responsible?" (Gary Bunch) considers obstacles and solutions. "Summarization" (Rupert Evans) highlights these themes: the basics, technique's updating, Individualized Educational Plan for teachers, and program improvement. (YLB)

Descriptors—\*Educational Objectives, \*Educational Principles, Outcomes of Education, \*Role of Education, Secondary Education, \*Vocational Education

The educational system of the United States reflects U.S. respect for both diversity and equality. Differences in students' aspirations are accommodated by offering both precollegiate and vocational education. Three essential major purposes of education are the civic, the personal, and the utilitarian. Where the civic and personal ends of education are concerned, Americans have essentially the same goals for all students. When the utilitarian ends of education are considered, more serious disagreement over curricula arises. The utilitarian ends of education are governed more by considerations of diversity. Two rival views exist regarding students choosing employment requiring less than a baccalaureate degree. One holds that what the employment-bound student needs is academic rigor; the other, that academics are not important but training in a trade is. A new consensus among educators and employers lies in the middle: the utilitarian function of school is to assist in preparing all students for that 40-year sequence of events following graduation—for different employers, different jobs, and different trades. Three sets of attributes are needed: general skills, general knowledge, and worthy values and habits. The main objective of learning in schools must be the same for all students; differences in educational programs must never invite distinctions of citizenship. (YLB)

EDRS Price - MF01/PC06 Plus Postage.

Descriptors—\*Adult Basic Education, \*Adult Vocational Education, Annotated Bibliographies, \*Correctional Education, Curriculum, Directories, Financial Support, Program Descriptions, \*Program Development, Staff Development, Teaching Methods

This guide is intended to help the correctional educator plan and develop comprehensive vocational and related academic skills programs. Sections I and II introduce the guide and its use. Section III focuses on these program elements: fundings—resource mobilization; coalition building—networking; curriculum—training methods—teaching techniques; capacity building—staff and supervisory training; and information management and evaluation. It lists issues that should be examined and possible actions for implementation. The section concludes by summarizing key areas to be monitored for program quality. Section IV is a summary of the findings of the project's research on correctional education and discusses how they relate to the development of quality vocational and correctional education programs. Section V contains descriptions of 25 programs that can serve as models for correctional educators. A subject index is provided. Each description presents this information: name and address of sponsoring institution(s), name(s) of director or program manager, telephone number, and information on the program. Section VI includes annotated listings of funding sources, grant foundations, sources for education and technical information, literacy organizations, literacy resources, educational centers, resources on prison industries, non-profit institutes, and ex-offender programs and information resources. Section VII is a general bibliography of nine pages. (YLB)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Adult Basic Education, \*Adult Reading Programs, \*English (Second Language), Learning Activities, \*Limited English Speaking, Reading Comprehension, Reading Instruction, \*Reading Skills, Tests, Transitional Programs, Units of Study

Identifiers—Public Law 95 561

These instructional units are intended to help limited English proficient students establish the solid foundation of reading skills that will enable them to make a transition from English as a Second Language programs to General Educational Development or community college classes. An introduction and information on use of the lessons discuss the types of activities included in the units. The six units cover scanning for information, understanding the meaning from context, finding the main idea, making inferences, understanding how ideas are organized, and putting it all together. Each unit includes these types of activities: "to do on your own" (additional practice applying the particular skill), and "test your skill" (these sections to be detached and administered as a test). The interactive method uses a learning-by-doing approach, breaks skills down into manageable steps so students can learn strategies for attacking reading comprehension problems, and involves a modeling procedure by which students work with the teacher to master the reading skills. Appendixes include lists of reading skills essential for successful transitioning, suggested materials for transitional reading classes, and the Final Report on the project, prepared by David Caravella, Barbara Isaacson, and Gail Miller. Descriptors—Career Education, Educational Media, \*Educational Research, Educational Technology, \*Employment Potential, \*Inservice Teacher Education, Instructional Materials, \*Material Development, \*Research Utilization, Secondary Education, \*Telecommunications, Vocational Education, Vocational Education Teachers, Workshops

Identifiers—\*Employability Development

The Knowledge Development and Utilization project was created to facilitate the public use of research by educators and trainers in the employability development field. The research to be disseminated emanated from the Youth Employability Research Program findings concerning employer demand and schooling effectiveness for employability. A user-driven approach to knowledge utilization involved potential users in activities ranging from giving advice to translating the research for other practitioners. Project staff collaborated with 21 national associations to develop brochures, articles, and workshops. Although project staff had to develop first drafts and sometimes complete final drafts, practitioners participated in design and review of all materials. Local education agencies and project staff developed two inservice booklets, three classroom products, and a job search videotape for students. All school-based products were extensively enhanced by ideas and activities suggested by the educator in the field trials. In cooperation with 50 state education agencies, project staff conducted

two audioconferences, using telecommunications to disseminate research findings. (A synopsis of insights is intended as a guide to a user-driven approach to communicating research through existing channels in national associations, inservice and classroom materials, and telecommunication using videotapes and audioconferences. Descriptions of materials produced are appended.) (YLB)

Identifiers—Corporate Support

This audioconference report consists of nine sessions, each featuring a panel of experts who discussed a variety of issues related to collaboration in education and employment. The focus is on practitioners and employers and how they can collaborate to improve the quality of schooling and employment opportunities for secondary- and postsecondary-school youth. Highlights are provided from each of the nine sessions, which addressed these issues: school standards and business expectations—achieving both without compromise; becoming informed about business and the economy—collaboration provides the missing link for educators and students; the do's and don'ts of implementing collaborative programs; cooperative and experiential learning—is it worth the time away from the classroom; preparing for the changing skill demands of the workplace—closing the gap through collaboration; technological skills—how schools and businesses can meet the challenge together; collaboration in job search, guidance, and placement—"win-win" strategies for students and employers; handicapped populations—collaboration equals access and success; and retraining and adult transitions—revitalizing our work force through collaboration. Other contents are background information on the moderators and panelists and a directory of participants. (YLB)

**Laboratory Analysis within the Vocational Technical School as Adapted [from] a Guide to Job**

**Analysis [by the] U.S. Department of Labor.**

Gateway Technical Inst., Racine, WI.

Pub Date—[Jun 85]

Note—50p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Access to Education, Disabilities, \*Exceptional Persons, \*Job Analysis, Job Skills, \*Laboratories, Laboratory Equipment, Laboratory Procedures, \*Laboratory Training, \*Mainstreaming, Secondary Education, Special Education, Student Characteristics, \*Vocational Schools

The importance of analyzing laboratory situations in a technical school special needs area is increasing rapidly. Such a system is essential for objectively analyzing the content of laboratories and describing the tasks performed there in a standardized and easily understood manner. The laboratory description can be easily used to provide program placement information to advisors of special needs students. It becomes a basic document for special needs staff orientation and student assessment. The laboratory analysis used in this document was based on a job analysis technique developed by the U.S. Department of Labor. This system identifies and describes in a systematic, succinct manner the following components: (1) what the student is required to do in the laboratory in terms of activities or functions; (2)

how the laboratory activities are done—the methods, techniques, or processes involved, and the devices used; (3) student characteristics—the skills, knowledge, abilities, and adaptabilities needed to accomplish the laboratory activities; (4) the results of the laboratory activities—the goods produced, services given, and materials used; and (5) the context of the laboratories in terms of environmental factors and the nature of the student's discretion, responsibility, or accountability. The use of this adaptation of job analysis techniques within a vocational technical school's laboratory will allow for increased access, increased quality, and increased success for special needs students in vocational education. Identifiers—\*Troubleshooting

This curriculum guide is designed to build upon the skills and knowledge of industrial electronics gained by the student through the learning activities of the introductory volumes of the electronics program. Specifically, the student, whether in secondary, postsecondary, or adult education, will have the opportunity to expand those skills in three important industrial applications—power control, maintenance planning, and troubleshooting. The curriculum guide includes nine instructional units that cover the following topics: (Section A) direct current controllers, alternating current controllers, power factor regulation, digital counting and metering circuits, analog control, analog control circuits, digital control and maintenance; and (Section B) troubleshooting and troubleshooting power supplies. The guide follows a standard format that includes eight basic components that form each unit of instruction: performance objectives, suggested activities for the teacher, information sheets, assignment sheets, job sheets, transparency masters, and supplements, tests, and answers to tests and assignment sheets. Depending on the specific objectives, there may or may not be transparency masters, supplements, assignment sheets, or job sheets included in the unit of instruction. (KC)

Descriptors—Behavioral Objectives, \*Building Trades, \*Carpentry, \*Construction (Process), Curriculum Guides, Finishing, Learning Activities, Postsecondary Education, Secondary Education, Tests, \*Trade and Industrial Education, Transparencies, Units of Study

This curriculum guide provides instructional materials for a course to train carpenters who will make careers in construction. It includes 6 sections and 21 instructional units. Each unit of instruction consists of eight basic components: performance objectives, teacher activities, information sheets (content essential for meeting the cognitive objectives), assign-

ment sheets (applications of knowledges which are prerequisites to skill development), job sheets (procedures to complete a manipulative or psychomotor skill), transparency masters and supplements, tests, and test and assignment sheet answers. Depending on specific objectives, the unit may include transparency masters, supplements, assignment sheets, or job sheets. Section A has one unit—Introduction to Residential Construction. Section B, Foundations, contains three units: Concrete Foundations, Wood Foundations, and Special Applications. Section C, Forming, contains two units: Footing and Foundation Forms and Edge Forms. The four units in section D, Framing, are Floor and Sill Framing, Wall and Ceiling Framing, Roof Framing, and Special Framing. Section E, Exterior Framing, has five units: Cornices and Gable Ends, Roof Finishes, Exterior Walls and Trims, Windows, and Exterior Doors. Section F, Interior Finishing, contains six units: Insulation, Dry Wall, Interior Walls and Ceilings, Interior Doors and Trims, Cabinet Installation and Special Built-ins, and Floor Finishes. (YLB)

Descriptors—\*Auto Body Repairers, Behavioral Objectives, Course Content, \*Job Skills, Learning Activities, \*Motor Vehicles, Postsecondary Education, Secondary Education, State Curriculum Guides, Teaching Methods, Technical Education, \*Trade and Industrial Education, Transparencies, Units of Study, Vocational Education

This curriculum guide is designed to provide students with an overview of the duties, procedures, concepts, tools, and equipment used in the auto body industry. This introductory course will prepare students to undertake training in one or more specialty areas of the auto-body trade. Suitable for secondary, postsecondary, or adult education programs, this curriculum guide contains 13 instructional units. The units cover the following topics: orientation, safety and basic first aid, painted body shop safety, mathematics and measuring, interior detailing, body and frame construction nomenclature, general hand tools, body and refinishing equipment, fasteners, circuits and wires, battery service, engine cooling system, and air conditioning system. The guide follows a standard format that includes eight basic components that form a unit of instruction: performance objectives, suggested activities for the teacher, information sheets, assignment sheets, job sheets, transparency masters and supplements, tests, and answers to tests and assignment sheets. Depending on the specific objectives, there may or may not be transparency masters, supplements, assignment sheets, or job sheets included in the unit of instruction. (KC)

Descriptors—Agency Cooperation, Cost Effectiveness, \*Curriculum Development, \*Curriculum Problems, \*Educational Improvement, \*Educational Needs, Educational Practices, Educational Trends, Futures (of Society), Instructional Development, \*Instructional Materials, Material Development, Media Adaptation, Relevance (Education), Secondary Education, Technological Advancement, \*Vocational Education

New curriculum materials are necessary to improve vocational education. Even when new materials are developed, however, they often fail to improve programs, either because teachers are not taught how to manage and use the new instructional

materials, or because the environment does not allow change. The role of administrators is to encourage instructors to follow through with the curriculum and to provide instructors with adequate time and resources to implement it. Instructional materials for vocational programs should meet three basic requirements to satisfy user needs: the materials must be flexible, they must be timely, and they must be affordable. Flexibility is needed because of the recent emphasis on individualizing instruction, and because of the rapid advances being made in technology. Curricula with components that can be easily replaced would provide flexibility. Timeliness means that curriculum materials must reflect the latest technologies, they must not spend so much time in development that they are already obsolete when they are implemented, and they must reflect the latest in educational advancement. Finally, materials must be made affordable in such ways as mass production and elimination of duplication and designed so that customers have to buy only the parts they need, and elimination of duplication. More important than ever is the need for the various agencies involved in curriculum materials development to join forces to make the most economical and effective use of resources. These methods will help to stretch the curriculum dollar. (KC)

Theories of Career Development and the Practice

Career Counseling: Will They Ever Get Together?

Pub Date—3 Apr 85

Note—13p. Paper presented at the Annual Convention of the American Association for Counseling and Development (New York, NY, April 2-5, 1985).

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Career Counseling, \*Career Development, \*Career Guidance, College Students, \*Counseling Theories, \*Counselor Training, Higher Education

Career development and vocational choice theories have been criticized as inaccurate and not useful as models for the practice of career counseling. It may be that theorists have not extended their theories into practice concepts, since current literature is lacking in attempts to relate theory to practice. Because of this void in theory-practice information, practitioners have relied on personal-intuitive and traditional trait-and-factor approaches. Career development and vocational choice theory and its applications should be taught to students of career counseling. Career counselors should work to generate better theories. Practitioners and students need to consult theory to enact eclectic approaches to career counseling. Students must examine their concepts of work, motivation, and development. An eclectic theory of career development and a counseling approach can be generated that would enable practitioners to provide remedial assistance when needed and to assist clients in: (1) making initial career choices; (2) making career change choices; (3) developing career adjustment strategies; and (4) identifying the role of work in their lives. A three-page list of references concludes the paper.

# Education, Parenting Skills, \*Parents, \*Self Help Programs, \*Social Support Groups

This document is a guide for the establishment and maintenance of parent support groups. It is a result of a conference on building parent support groups sponsored by the Colorado State Department of Social Services which brought together professionals and parents. The suggested audiences are people interested in forming similar groups; non-profit agencies interested in structure, financing, and marketing; and existing formal and informal support groups. The document consists of 13 articles on relevant topics. Fund raising, marketing, and choosing board members are discussed in the first section. Advice on getting off to a good start with support groups, stories of successful groups, and the use of para-professionals are included in the second section. Special interest groups including Parents Anonymous, mothers' support groups, and single parent groups are also discussed. Many articles include bibliographies. An appendix gives national and state resources for program development in child abuse/neglect prevention. (ABL)

Descriptors—Adolescents, Change, Children, \*Counseling Effectiveness, Counseling Services, Counselor Attitudes, \*Counselor Role, \*Counselor Training, Elementary Secondary Education, Long Range Planning, \*School Counseling, \*School Counselors

Many factors, including changes in the family, drug abuse, high technology, crime, population shifts, and television are changing schools. These forces have already had an impact on the counselor's job or will have an impact in the future. Counselors should be prepared for these social changes and manage them better than their predecessors in the 1960's did. An inadequate response will maintain the status quo. Appropriate responses include: (1) identifying problems facing young people and informing the public; (2) outreach to the community; (3) greater research and evaluation; (4) creating super-counselors who perform more tasks than counselors in the past; and (5) viewing counselors as educators also. School counselors should engage in skill building activities. Professional organizations should give assistance to counselors. University programs should offer a fine education and recognize current social forces. Counselors should use computers and other means to free themselves from recordkeeping burdens. Students wanting to work in school counseling should study counseling in a program which emphasizes school counseling. The best help to young people will be provided by counselors who are aware of current and future trends. (ABL)

Helplessness, Pseudohelplessness and Psychotherapy.

Pub Date—Nov 85

Note—28p.; Paper presented at the Annual Scientific Meeting of the Gerontological Society of America (38th, New Orleans, LA, November 22-26, 1985).

Pub Type—Reports - Descriptive (141) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Counseling Techniques, \*Counselor Client Relationship, Counselor Role, \*Helplessness, \*Individual Power, \*Institutionalized Persons, Locus of Control, Nursing Homes, \*Older Adults, Personal Autonomy, Psychotherapy

Learned helplessness often precedes depression. The elderly are more likely than the general population to be faced with uncontrollable events which may bring on learned helplessness. Intervention by gerontological counselors has been useful in reducing effects of helplessness. With pseudohelplessness,

persons act helpless in order to control another person's behavior. It is important for counselors to enhance their clients' perceptions of personal control. The counselor can engender the feeling of promotion of choice and predictability. The counselor should explain psychotherapeutic goals to the client at the beginning of therapy. Counselors must eliminate any helplessness-engendering stereotypes about the elderly that they may have, or risk damaging the counselor/client relationship. Attributional counseling can be effective in helping clients identify problems within their control. Psychotherapy may seem overwhelming to the truly helpless client, who may be assisted early in therapy by planned successes in relatively undemanding situations. Clients should be helped to set realistic goals and modify unrealistic expectations. By the counselor's effective communication, the client should feel personal control of the therapy. Although the clinical needs of nursing home residents must be met, residents' independence should be encouraged. The paper includes a five-page list of references and an appendix providing a brief description of counseling techniques that have proven effective with older clients. (ABL)

An Evaluation of Life in the Residence Halls at Indiana University from an Ecosystem Perspective: 1985.

Pub Date—[86]

Note—22p.; For an earlier study, see ED 253 806.

Pub Type—Reports - Evaluative (142) - Tests/Questionnaires (160)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*College Environment, College Housing, \*College Students, \*Dormitories, Ecological Factors, Higher Education, Participant Satisfaction, Resident Assistants, Student Attitudes, Student Personnel Services

Identifiers—\*Indiana University

Studies examining life in the Indiana University residence halls from an ecosystem perspective have been conducted annually since 1978 to ascertain how students evaluate a series of issues related to residential living. The 1985 study, the eighth in a series, involved a representative sample of 824 students drawn from the residence centers. The instrument used was similar to one used with previous assessment projects. A Likert scale was used for the forced-choice items. After completing the questionnaire, students were asked to go back over the questionnaire and identify up to five items about which they felt strongly. The questionnaire examined satisfaction with programming, residence hall staff, student government, student publications, study conditions, and food services. Responses for residence hall programs, residence hall staff, student government, publications, and food service were strongly positive. Study conditions were rated as mildly positive. Students seemed basically satisfied with their environment. (Five data tables are included, one comparing the results of the 1985 study with those from previous years. A copy of the questionnaire is appended.) (ABL)

Selected Bibliography on Indochinese Refugees: Children and Adolescents. Amerasian Project, Bibliography #1.

Dartmouth Coll., Hanover, N.H. Dept. of Psychiatry.

Pub Date—Dec 85

Note—18p.

Pub Type—Reference Materials - Bibliographies (131)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Adjustment (to Environment), \*Adolescents, \*Asian Americans, Cambodians, \*Children, \*Indochinese, \*Refugees, Vietnamese People

This is a selected bibliography on child and adolescent refugees of Indochinese from the American project at Dartmouth Medical School. Very little literature exists on child or adolescent refugees of any nationality and virtually no prospective, longitudinal studies are available. No firm conclusions about the development and adaptation of these children can be made because the few studies that are available are characterized by major methodological flaws and focus on short-term adjustment. This literature search is drawn from Psychological Abstracts, Sociological Abstracts, Public Affairs Information Service, Magazine Index, National Newspaper In-

dex, ERIC, and Medline. It covers the years 1970-1985 with increased citations after the 1975 influx of refugees. Personal contacts with experts in Southeast Asia were used in developing this bibliography. It is arranged by primary and secondary sources; within each group the citations are listed in alphabetical order by the author's name. The citations are relatively brief; documents found in ERIC contain only the author, title, and ED number. This bibliography is targeted for clinicians, resettlement professionals, and researchers involved with Indochinese refugee children's adaptation to life in the United States. (ABL)

Father Involvement, Sex-Typing and the Toy Play of Children.

Pub Date—Aug 85

Note—18p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Children, \*Father Attitudes, \*Fathers, \*Parent Child Relationship, Parent Influence, Play, Sex Differences, \*Sex Role, \*Toys

Children are encouraged early in life to adopt socially appropriate sex-role activities and behaviors. Parents influence their children's behavior and attitudes through the toys they choose for the children and the way they play with them. The term androgyny is used to indicate the blending of masculine and feminine characteristics. This study examines the effects of the degree of father involvement on sex-role orientation of the fathers and the children and on the child's sex-typed toy play. It was hypothesized that increased father involvement would reduce sex-role classification. Participants included 90 4-year-old children enrolled in day care and their parents who were of middle to upper middle socioeconomic status. Both parents filled out independent descriptions of typical weeks of their children. From this, the families were classified as high or low in father involvement. Using the Children's Sex-Role Inventory (CSRI), children were classified as androgynous, masculine, feminine, or undifferentiated based on their toy preferences. Results suggested no direct relationship between father involvement and cross-sexed toy play. The study is limited for two reasons: the total degree of father involvement was low and most of the children spent a large portion of their week in day care. Further study might examine fathers who are prime caregivers. (ABL)

Dees, Morris S. III. And Others

Survey of the Public Perception of Psychology, Psychologists, and Psychiatrists.

Pub Date—Aug 85

Note—14p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Psychiatrists, \*Psychologists, \*Public Opinion, \*Rural Urban Differences

The public perception of psychology, psychologists, and psychiatrists has not been examined for 20 years. Participants for this study were randomly selected from an urban area (Oklahoma City) and a rural area (Okarche, Oklahoma). Questionnaires about the usefulness and competency of these professionals were administered by telephone; half of the questionnaires used the term psychologist (N=225) and the other half substituted the word psychiatrist (N=225). Additionally, urban psychologists (N=47) and psychiatrists (N=25) responded to the questionnaire as if they were members of the public. Survey results showed that urban residents recognized the need for psychologists and psychiatrists. Psychiatrists were favored for intelligence testing, career counseling, sexual dysfunction, and alcohol and drug abuse while psychologists were favored for stress management. The findings indicated that the perception of psychologists' competence had improved since a 1965 study but confusion about professional domain continued. Rural residents also recognized the need for psychiatrists and psychologists but they desired less infor-

mation than urban residents about a potential therapist. The psychologists and psychiatrists who responded to the questionnaire reported that the public had a higher perception of their abilities to solve problems than the public reported. (ABL)

**On Gold Diggers: Status Gain or Loss in Age Heterogamous Marriages.**  
Pub Date—Nov 85

Note—24p.; Paper presented at the Annual Scientific Meeting of the Gerontological Society of America (38th, New Orleans, LA, November 22-26, 1985).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Adults, \*Age Differences, \*Family Income, \*Family Status, Interpersonal Relationship, \*Marriage, Mate Selection, Motivation, \*Spouses

The term "gold digger" is often applied to women and to the younger spouse in marriages with unconventional age differences. While this follows the view that women derive their class position from their husbands, the status gain or loss in age heterogamous studies has not been empirically tested. To examine status gain or loss in these marriages, 3,609 age homogamous and heterogamous couples were compared in terms of how the family's current status was related to measures of each of the spouse's inherited and achieved status and the contribution these make to explaining variance in income. Subjects were divided into four groups in which: (1) wives were 4 or more years older than their husbands; (2) husbands and wives were separated by no more than 3 years of age difference in either direction; (3) husbands were 4-10 years older than their wives; and (4) husbands were 11 or more years older than their wives. Data on subjects from the 1976 wave of the Panel of Income Dynamics was subjected to hierarchical multiple regression analysis which revealed that the status of the older spouse did not make a more important contribution toward explained income. For these subjects, in fact, the younger wife's status contributed more toward explained income than did the older husband's status. These findings suggest that the notion that age heterogamy in marriage represents a channel of upward mobility for young women married to older men needs systematic reexamination. (NRB)

**Keeping Students in School. Dropout Data, Research, and Programs.**

North Carolina State Dept. of Public Instruction, Raleigh.

Pub Date—Jul 85

Note—61p.

Pub Type—Numerical/Quantitative Data (110) - Reports - Descriptive (141)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Academic Failure, Attendance, \*Dropout Prevention, Dropout Rate, \*High Risk Students, High Schools, \*High School Students, Motivation, \*Potential Dropouts, School Guidance, Student Attrition, Student Needs, Withdrawal (Education)

Identifiers—North Carolina

This report, compiled by the North Carolina State Board of Education's Office for Dropout Prevention, provides dropout data, reasons for students' dropping out of school, and approaches for keeping students in school until successful completion of their education. Facts and figures for dropout rates of high school and the extended day school program servicing high risk students are presented in graphs and charts. A summary of four research studies examining reasons for students' dropping out is given with material from the studies themselves included. One of the studies described concludes that students most likely not to graduate are children of the poor and poorly educated; these children enter high school without firm direction and with low levels of achievement and patterns of non-success early in their school careers. Many dropouts, asserts another study, feel alienation. Specific recommendations from the other two studies are given which include identifying potential dropouts at an earlier age, and looking at attendance, retention, participation in extracurricular activities, how program choices are made, and how grades are assigned to students (especially minorities) as possible avenues to reducing the dropout rates. A third section (which makes up half the document) describes promising approaches

(primarily conducted in North Carolina counties) which contribute to dropout prevention and illustrate the wide range of services and programs needed to meet the various needs of individual students. (ABB)

ED 265 431 CG 018 754

**Outplacement Counseling.**

Pub Date—Apr 85

Note—14p.; Paper presented at the Annual Convention of the American Association for Counseling and Development (New York, NY, April 2-5, 1985).

Pub Type—Reports - Descriptive (141) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adjustment Counselors, \*Career Counseling, \*Dislocated Workers, Employment Opportunities, Job Layoff, \*Job Placement, \*Outplacement Services (Employment), Reduction in Force, \*School Business Relationship, \*School Community Relationship

Rapid changes in technology and the economy have led to major staff reductions in the workplace, and have increased the need to assist displaced employees with outplacement counseling that is responsive, cost-effective, humane, and on-going. College counselors have the basic skills to effectively expand their role in this field in ways that enhance their contributions to their community or region, while providing new opportunities for professional growth and development. An actual outplacement counseling program used by college counselors at the State University College at Cortland, New York is described. The program combines not only individual and group programs, but also combines the people and resources of a college and a major industry. The article gives background of the need for counseling, the plan's development and implementation, and the outplacement outcomes. It concludes that an outplacement program alleviates some of the emotional trauma, shortens periods of unemployment, provides a much needed support system, provides economical and educational alternatives, and reduces personal and family stress levels. It also lists benefits to organizations faced with reduction in force, including the creation of good will, reduction in unemployment insurance costs, reduction in the likelihood of legal action, and enhancement of later recruitment efforts in terms of expansion or recall. The final summary identifies benefits of cooperation between education and industry in outplacement programming. (ABB)

ED 265 432 CG 018 755

**Facilitating Collaboration between the Clergy and Self-Help.**

Pub Date—Aug 85

Note—27p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Attitude Measures, \*Clergy, Community Resources, \*Cooperation, Counselors, Helping Relationship, Intervention, Mental Health Programs, \*Self Help Programs, \*Social Support Groups

Identifiers—Mental Health Workers

People seeking help for personal problems usually turn to family, friends, and relatives first and then to sources such as neighborhood support systems, self-help groups, and community helpers such as physicians and clergy. These natural support systems need to be used and supported more by mental health professionals. One relationship which could be encouraged is the one between the clergy and self-help groups. The relationships and communications between these two groups were clarified in a two-part study. In the first part of the study, religious leaders (N=200), within Jewish, Catholic, Lutheran and Baptist organizations in Chicago were surveyed concerning their attitudes toward self-help groups. Results showed that 70 percent of the respondents (N=64) had made at least one referral to a self-help group and that the religious leaders had generally positive feelings towards these groups. Even though they felt that self-help groups would be helpful, the religious leaders were aware of specific self-help groups to whom they could refer for only 54 percent of the problems brought to them by congregation members. In the second part of the study,

a consultation session was provided for a sample of the religious leaders who had never made a referral to a self-help group. The results showed an observable increase in activities involving self-help groups following consultation, suggesting that mental health professionals can provide the clergy with information and resources about self-help groups in their communities. EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adjustment (to Environment), \*Adolescents, \*Childhood Attitudes, \*Children, \*Diabetes, Disabilities, \*Mother Attitudes, Special Health Problems, Tests, Therapy

Identifiers—Compliance (Behavior), Diabetes Opinion Survey, Parents Diabetes Opinion Survey

Insulin dependent diabetes is an incurable disease requiring complex management by the patient and/or his family. Previous research has found that there is no specific personality type associated with this or other diseases, nor do chronically ill persons exhibit characteristic behavioral or emotional problems. An attempt to identify the cognitive, affective, and behavioral parts of adjustment to childhood diabetes involved two instruments for measuring diabetes attitudes. The Diabetes Opinion Survey measures the child's attitudes on stigma, rule orientation, divine intervention, family interruption, and sick role. The Parent Diabetes Opinion Survey measures stigma, rule orientation, divine intervention, family interruption, manipulativeness, attitudes toward medical staff, reactions: observations/detection, and consumption of sweets. Compliance was found to be reliably measured using 24-hour recall interviews with mother and child questioning five areas: (1) insulin injection; (2) diet type; (3) diet amount; (4) exercise; and (5) eating/testing frequency. The results suggest that measures of chronically ill children's adjustment must be disease specific. (ABL)

**Clinicians' Use of Explanation and Counterexplanation in a Judgment Task.**

Pub Date—Aug 85

Note—16p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Attribution Theory, \*Clinical Psychology, \*Decision Making, Evaluation Methods, Influences, \*Prediction, Psychological Evaluation, \*Psychologists

Identifiers—Explanations

The search for and generation of causal explanations required by the task of explaining an initial impression, appear to be sufficient to raise the subjective likelihood of the event explained and to result in the persistence of the initial impression. Generating supporting and counter arguments with respect to the event does not result in an increase in the event's subjective likelihood. To study the performance differences between experts and novices for these hypotheses, a study was conducted which replicated Tutin's experiment (1985) with undergraduate students, using 86 clinical psychologists as subjects. In the first condition, clinicians were required to explain the reasons for the hypothetical occurrence of an event in the later life of a person, after reading biographical material. In a second condition, subjects were required to explain both the occurrence and the nonoccurrence of an event. Control subjects explained an unspecified event. All subjects rated the likelihood of the occurrence of a series of events, including the events explained by some subjects. Findings indicated that, similar to the performance of undergraduate student subjects on an identical task, clinicians generating only supporting arguments exhibited a biased perception of

the likelihood of the event, while clinicians providing dual explanations did not show such a bias. Clinicians, however, showed some resilience to this bias depending on the event explained. (ABB)

**Identifiers—**\*Project STAR  
Project STAR (Social Thinking and Reasoning Program) is a classroom-based social skills program for students in grades 5-8. To assess the long-term effectiveness of this program, students participated in the project (N=331) were compared with control students (N=191) during 1980-83. The hypothesis that there are significant differences in current achievement level, self-concept, and behavior of students who received STAR training in grades 6-8 between 1980 and 1983 compared to the original group of students who did not receive STAR training was tested. The evaluation was based on students' self report measures of health, self-concept, and social skills. Student record data was also collected on current attendance, academic performance, and behavior. The results of the first year of research show that students trained in STAR had significantly better grades and attendance, fewer health problems, and were more assertive and resistant to peer pressure to use drugs than were control subjects. These findings suggest that students do retain social skills training and put it to positive use in their lives. (ABB)

**Identifiers—**Congress 99th, Medicaid, Medicare, \*Older Americans Act 1984, \*Social Security  
This is a 1984 annual Senate report on aging which examines the health, income, employment, housing, and assistance problems of older people. In a preface, Senators Heinz and Glenn note the following significant events of 1984: (1) Congress reauthorized the Older Americans Act; (2) a strong economy with low inflation helped Social Security and Medicare avoid financial difficulties; (3) health care costs are still increasing dramatically and will continue to do so with increasing percentages of older Americans; (4) subgroups of the elderly including the sick, very old, minorities, and widows still suffer high poverty rates; and (5) reassessment of the Social Security, Medicare, Medicaid and Older Americans Act programs will occur in 1985. The main text of the document is divided into five parts. Part I, Retirement Income, includes chapters on Social Security, employee pensions, taxes and savings, and employment. Part II, Low-Income Assistance Programs, contains chapters on supplemental security income and food stamps. Chapters in Part III, Health, deal with health care and long-term care. Chapters in Part IV, Housing, examine housing programs and energy assistance and weatheriza-

tion. Part V, Social Services, contains chapters on the Older Americans Act; social, community, and legal services; personal safety and consumer issues; and civil liberties. These sections include discussions, statistics, tables, and graphs. A section of supplemental materials includes a list of 1984 hearings and witnesses, a list of committee prints and reports printed by the committee in 1984, names of committee staff members, and a publications list. The entire report is indexed. (ABL)

**Suicide Management Plan—Post Suicide Response.**  
Pub Date—Apr 85

Note—23p.; Paper presented at the Annual Meeting of the National Association of Student Personnel Administrators (Portland, OR, March 31-April 3, 1985).

**Pub Type—**Guides—Non-Classroom (055)—Speeches/Meeting Papers (150)

**EDRS Price - MF01/PC01 Plus Postage.**  
**Descriptors—**College Faculty, College Planning, \*College Role, \*College Students, \*Crisis Intervention, Higher Education, Staff Development, \*Staff Role, \*Student Personnel Services, Student Welfare, \*Suicide

This document contains a suicide management plan developed specifically for colleges. The suicide management plan described includes pre-planning, immediate response to the event, press releases, college staff jobs, college responses (such as memorials or scholarships), interaction with the family, and staff counseling. The plan is presented as a form, with spaces for the institution to record its particular responses. Also included is the Violence Epidemiology Branch Press Book describing the branch and its activities. It notes that the purpose of this group is to reduce the incidence of violence-related morbidity and mortality in the United States. Contained in the Press Book are statistics on homicide and suicide as well as bibliographies and resource lists for materials on interpersonal violence and suicide. A bibliography on teen suicide from the American Association for Counseling and Development is also included. (ABL)

**Identifiers—**Blooms Taxonomy  
This document is a plan for tracking students' social growth by the college resident assistant and for evaluating the students' growth and the resident assistant's performance. The plan, based on Bloom's Taxonomy of Affective Cognitive Processes, includes a clarified purpose, objectives for implementation, shared assessment values, and continuing strategies for advancement along the continuum of development. According to this plan, resident staff agree on stages of development and evaluation of the stages, and strategies are developed to help students' development. Seven stages are described for a student's integration into the campus community. It is proposed that a student develops by coming to: (1) know that others recognize his campus presence; (2) feel wanted; (3) realize that significant others know him; (4) feel accepted; (5) become involved in the community; (6) feel committed to the community; and (7) provide service or leadership to the community. An amplified taxonomy by Sharon Royster giving behavior and conversation characteristics for each stage is included. A personal taxonomy development chart and a completed example are also provided. **Identifiers—**\*Adult Children, \*Caregivers  
The perceptions of burden in providing care to the disabled elderly by a family member may be affected by the caregiver's personal and social resources and by the differences in involvement and familial roles between the caregiver and the care receiver. To test this relationship, 41 spouse and adult daughter caregivers involved in a home-based treatment program completed the 29-item Zarit Burden Interview and a checklist of their participation level in 10 caregiving tasks, and rated the incidence and severity of the care receiver's specific behavioral problems. Adult children caregivers reported sources of burden which were outside the caregiver/care receiver relationship, with major stressors being the influence of concurrent role demands and financial strain. Spouse caregivers, on the other hand, reported sources of stress within the caregiving relationship, with major burdens being personal functioning, especially in direct caregiving tasks, and interpersonal relationships with the disabled spouse. These findings suggest that fundamental differences exist in how elderly spouses and adult daughters define and perceive their roles as primary caregivers. (ABB)

**Descriptors—**Adolescents, Children, Community Services, \*Economics, \*Mental Health Programs, \*Policy Formation, \*Political Influences, Program Evaluation, Psychological Needs, Public Policy, Qualitative Research, \*State Agencies

Mental health services are often unavailable, inaccessible, or inappropriate for the children and families who need them. In order to implement a more effective system of mental health services to children and adolescents, an adequate system of care must be defined and described, and a policy mandate to implement such a system must be developed. As part of a continuing program of research on mental health policy for children and adolescents, a study in one state was conducted which involved: (1) a survey of all community mental health centers; (2) a compilation of data from the state's management information system; and (3) in-depth interviews with stakeholders in the mental health system. Key figures (N=49) in the development of the state's mental health system over the last 30 years and 18 additional current stakeholders in the state's mental health system were interviewed within a qualitative research framework. The interview data showed that the major factors influencing policy development and implementation were economic and political, not scientific and professional as traditional viewpoints might suggest. These results support the view that the traditional treatment-oriented and positivist-empiricist approach is inadequate for studying, understanding, or influencing mental health policy. Needed is a focus on the economics and politics of the policy implementation process, including value considerations (in addition to traditional study of the treatment process) and the use of qualitative methods to complement the positivist-empiricist approaches most widely used in policy analysis and program evaluation. (A six-page bibliography and two data tables are included.) (Author/NRB)

### Multimodal Self-Management for Children: An Holistic Program for Teachers.

Pub Date—Aug 85

Note—16p; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Speeches/Meeting Papers (150) — Guides — Classroom — Teacher (052) — Reports — Descriptive (141)

EDRS Price — MF01/PC01 Plus Postage.

Descriptors—Affective Behavior, Cognitive Development, \*Elementary Secondary Education, \*Holistic Approach, Intervention, Self Evaluation (Individuals), Self Help Programs, Student Behavior, \*Student Problems, \*Teacher Workshops Identifiers—Lazarus (Arnold), \*Multimodal Methods, \*Self Management

This paper describes an innovative program for teaching self-management to children in elementary and secondary schools. The background of techniques for teaching self-management is briefly reviewed, the application of self-management programs are considered, and Lazarus's multimodal model of therapy is explained. This discussion is followed by an outline of a training program which has been developed and offered as a workshop to help teachers instruct themselves on student self-management techniques. The workshop detailed here provides an holistic, systematic, and integrative approach which instructs teachers in comprehensive self-assessment and treatment strategies based on Lazarus's Multimodal Therapy, and provides them with methods for teaching these skills to students. The specific assessment instruments and self-change techniques are detailed and a variety of classroom exercises and teaching activities are suggested. The workshop outline includes an introduction which states the purpose of the workshop and explains the application of self-management principles. This is followed by a discussion of the multimodal conceptualization of change which concentrates on the seven modalities identified by Lazarus and an examination of children's problems, and by a general assessment of problems. The remainder of the workshop outline concentrates on students' personal and academic problem identification in the areas of affect, behavior, and cognition. Therapeutic interventions discussed include systematic desensitization and emotive imagery for affective problems; stimulus control, contingency management, and behavioral rehearsal for behavioral problems; and rational emotive therapy for cognitive problems. A four-page bibliography lists references cited for use in the workshop outline. (Author/NRB)

### Drake, Roger A. More Optimism About Future Events with Relative Left Hemisphere Activation.

Pub Date—Aug 85

Note—13p; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports — Research (143) — Speeches/Meeting Papers (150)

EDRS Price — MF01/PC01 Plus Postage.

Descriptors—\*Cerebral Dominance, Cognitive Measurement, \*Cognitive Processes, College Students, Emotional Response, Higher Education, \*Individual Power, \*Lateral Dominance, \*Perception, Perceptual Development, Psychological Patterns, Sex Differences Identifiers—\*Optimism

Unrealistic personal optimism is the perception that undesirable events are less likely and desirable events are more likely to happen to oneself than they are to happen to other similar people. Three experiments were performed to study the relationships among personal optimism, perceived control, and selective activation of the cerebral hemispheres. This selective activation was produced by the manipulation of lateral attentional orientation. Right-handed college students were subjects for all three experiments. Experiment 1 (N=40) attempted to replicate the effect of greater personal optimism for future events during relative left than during relative right hemisphere activation. It was further tested whether personal optimism would be predicted by scores on the Desirability of Control scale. The results confirmed both hypotheses and the orientation effect was extended from visual to auditory attention. Because both hemisphere activa-

tion and perceived control influenced optimism, Experiment 2 (N=37) was performed to test the hypothesis that manipulated hemisphere activation would alter trait control as measured by several scales. The data failed to support the hypothesis, but produced an unexpected finding that the correlations among the different scales were significantly higher during left than during right hemisphere activation, lending support to consistency as a mediator of the lateralized optimism effect. In Experiment 3 (N=43), the manipulation produced higher perceived control over the outcome of future events during relative right hemisphere activation than during left, in male but not female subjects. (Methods and results for all three experiments are detailed and an extensive list of references is provided.) (Author/NRB)

Descriptors—\*Divorce, \*Extended Family, Family Problems, \*Family Relationship, \*Family Structure, \*Grandparents, \*Kinship, Marital Instability, Remarriage, Sociocultural Patterns Identifiers—Blended Families

Divorce and remarriage may pose special problems for the grandparent-child-grandchild relationship. The kinship relationships after divorce have not been institutionalized; there are not generally accepted forms of behavior. To examine the role of grandmothers in the divorce of their children, 50 parent-grandmother pairs were interviewed. The sample came from white, middle-class families; one-half consisted of maternal grandmothers and the other half was made up of paternal grandmothers. Since one-half of the grandmothers were over age 65 and one-half were under age 65, various stages in the family cycle were represented. Kinship reorganization includes three types of relatives—blood relatives, relatives of divorce, and relatives of remarriage. The interview data identified the emergence of at least five basic types of change in the kinship system: (1) contraction with divorce; (2) replacement with remarriage; (3) retention through in-law coalition; (4) expansion by divorce and remarriage of multiple children; and (5) two-generation divorce and remarriage chains. The data indicated that paternal grandmothers were more likely to maintain relationships with former daughters-in-law than were maternal grandmothers with former sons-in-law. Grandmothers with expanding kinship systems reported having more permissive and flexible values on divorce. The findings showed that expanding kinship systems did not result in more sound support, but rather in a loosely-knit network. The relationships will continue to be followed. (ABL)

This document contains statistics on mental illness and organized mental health service delivery systems. Data sources cited include the National Institute of Mental Health, state mental health agencies, universities in the Epidemiological Catchment Area program, the National Center for Health Statistics, and the National Association of State

Mental Health Program Directors. Included are the latest data on prevalence of mental disorders; trends in availability, volume, staffing, and expenditures of organized specialty mental health services in the United States, including the characteristics of patients who use these services; the features of organized specialty mental health services in each state; national mental health expenditures; revenues and expenditures of each state mental health agency; and trends in suicide. The document highlights trends in prevalence of mental disorders, mental health service delivery, expenditures, revenues, and suicide. Most of the document consists of statistics on the various topics. Appendices include sources and qualifications of data contained in specific chapters, a glossary of terms, and a list of contacts for further information. Ninety-one data tables and 17 figures are included. (ABL)

### Perceptions of Women and Men in Counselor Education About Writing for Publication.

Pub Date—[85]

Note—15p.

Pub Type—Reports — Research (143)

EDRS Price — MF01/PC01 Plus Postage.

Descriptors—\*College Faculty, \*Counselor Educators, Faculty Development, Higher Education, Professors, \*Sex Differences, \*Work Environment, \*Writing for Publication

Women in academic appointments have published less frequently than men. Since this difference is only partially explainable on the basis of fewer years in higher education, a study was conducted to determine men's and women's perceptions and experiences of writing for publication in the field of counselor education. A sample of 82 counselor educators balanced by sex, academic rank, and appearance or non-appearance as authors in the Social Sciences Citation Index (SSCI) between 1966 and 1983 was drawn from the fifth edition of a national directory of counselor education programs. Subjects completed a questionnaire on job activities, professional memberships, journal subscriptions, and recollection about having had mentor experiences. In addition, SSCI respondents were asked to recall perceptions, impressions, and judgments of variables that might bear differently on women's circumstances in scholarly work compared to those of men. Comparison group subjects were asked their views about writing for publication and any barriers or difficulties bearing on research and writing they perceived as present in their work or personal situations. The results indicated that more SSCI members had assigned time for research, engaged in fewer non-job professional activities, and had more statistics courses in their training than did non-SSCI subjects. Comparisons between women and men revealed two significant differences: the number of statistics courses taken in training, and perceptions of institutional emphases on writing for publication. Women reported less access/entry to writing possibilities within departments than did their male colleagues. They also noted lack of confidence and training, and the pressure of family responsibilities and commitments as conditions affecting publishing opportunities. Overall, women perceived a lower institutional emphasis on publishing than did men. (Author/ABB)

### Relationships with Adult Children: Support Functions and Vulnerabilities.

Spons Agency—National Inst. on Aging (DHHS/NIH), Bethesda, MD.

Pub Date—Nov 85

Grant—NIA-AG05013

Note—30p; Paper presented at the Annual Scientific Meeting of the Gerontological Society (38th, New Orleans, LA, November 22-26, 1985).

Pub Type—Reports — Research (143) — Speeches/Meeting Papers (150)

EDRS Price — MF01/PC01 Plus Postage.

Descriptors—Age Differences, Background, Child Responsibility, Family Relationship, \*Helping Relationship, \*Older Adults, \*Parent Attitudes, \*Parent Child Relationship, Self Concept, Social History, Social Support Groups Identifiers—\*Adult Children, Self Reliance

The family is the primary source of supportive services to the aged in this country. A study was undertaken to examine two issues related to developmental functions of relationships with adult children: the parent's view of assistance received from

adult children, and age differences in those views; and, secondly, the functions of assistance received from adult children. In semi-structured interviews, 17 parents in two age groups (65-74, 75-85) described family structure and helping patterns, and evaluated children's help. Content analysis of interview transcripts was performed. The interview data revealed that parents rarely received help with everyday tasks, but children more often helped during crisis periods. For the most part, parents were satisfied with children's help; a significant number of parents, however, were dissatisfied. Dissatisfaction usually stemmed from concern about burdening children, and sometimes also reflected long-term distance in the relationships. The oldest parents, although receiving similar types of help as the younger parents, were more often concerned about burdening their children. These oldest parents also described their experiences during the Great Depression, which they remembered as lessons in self-reliance. For these parents, the self-reliance acquired during young adulthood may be a self-imposed barrier precluding adaptive interdependence in old age. It can be concluded that optimal developmental functions of elderly parent-adult child relationships are at least partially determined by the historical context of the life cycle. (References and data tables are provided.) (Author/ABB)

Descriptors—Family (Sociological Unit), Family Life, \*Family Relationship, \*Family Role, Family Structure, \*Grandchildren, \*Grandparents, Older Adults, \*Parent Attitudes, Parents

Identifiers—Adult Children  
Demographic trends of marriage and childbearing early in adulthood and longer life spans have meant that many people become grandparents in middle age and are grandparents for 20 or 30 years. The relationship between grandparent and grandchild is mediated through the parent. This study examines the qualities that parents desire in grandparents and the relationship between parents' marital status and grandparent qualities. Study participants (N=79) were parents who were university undergraduates or patrons of day care centers, 57 of whom were married and 22 of whom were single. Participants answered questions on family background and open-ended questions on the best and worst things about grandparents and on qualities of the ideal grandparents. Responses to the open-ended questions were categorized. Parents cited grandparents' help and support as desirable and advising about or interfering in grandchildren's upbringing as undesirable. Single parents more often cited grandparents' support as desirable than did married parents which may indicate an evolving role for grandparents. Ideal grandparents were thought to have a warm relationship with grandchildren. Few responses referred to grandparents' involvement in discipline; parents only criticized grandparents' unwarranted discipline. Gender differences were found in specific grandparent activities but not in grandparent qualities. Married parents most often endorsed family solidarity. (ABL)

Descriptors—Children, Coping, \*Crisis Intervention, Elementary Education, \*Elementary School Students, Foreign Countries, \*Guidance Programs, \*School Counseling, Teacher Education, Teachers

Identifiers—Canada

This paper describes a developmental guidance program on the topic of children and crises from

kindergarten through grade eight. Many crises that children may deal with are discussed, including accidents, illness, death of a loved one, family problems, and moving. A crisis education response program developed and initiated to facilitate an adaptive response is presented. The five parts of the program are listed: (1) sharing and exploring ideas and experiences of crises; (2) drawing a picture or writing a story of crisis situations; (3) understanding the types of feelings and thoughts that children have during and after a crisis; (4) activating helpful coping strategies; and (5) identifying the learning outcomes gained from the discussions. Also described is the implementation of this program in second, fifth, and eighth grade classes. The results of the implementation are reported and it is noted that the children learned that they were not alone in their feelings, that they would survive a crisis, and that talking with someone was helpful. It is also noted that both teachers and students reported positive responses to the program. A policy on crisis intervention is recommended for schools. An appendix includes an outline of the children and crises program. (Author/ABL)

Malden, Robert Walker, Gail Attitudes Toward Death Across the Life Span.

Pub Date—Nov 85

Note—19p; Paper presented at the Annual Scientific Meeting of the Gerontological Society (38th, New Orleans, LA, November 22-26, 1985).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)—Tests/Questionnaires (160)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Adult Development, Adults, \*Age Differences, Aging (Individuals), \*Anxiety, \*Attitude Change, Attitudes, \*Death, \*Sex Differences

Identifiers—Life Span, Life Transitions

To understand the change and development of people's attitudes toward death over the life span, a 62-item attitude questionnaire on death and dying was administered to 90 adults. Participants included five females and five males in each of nine age categories: 18-20, 20-24, 25-29, 30-34, 35-39, 40-49, 50-59, 60-64, and 65 or older. Participants were primarily Protestant, Caucasian, and of higher socioeconomic status. The results showed that only 10 percent of respondents indicated overt death anxiety while 51 percent were death acceptors. Responses indicated ambiguous feelings about death, with females being more open to expressing these ambiguous feelings than were males. Females also reported beliefs in reincarnation and afterlife more than did males. Data analysis revealed that death anxiety had no relationship to age; older respondents had no more death anxiety than did younger respondents. Generational differences were suggested by similar views on religion and drugs expressed by the younger and older cohorts as opposed to the middle-aged cohorts. The results suggest that environmental factors and generational differences are more important than aging in the formulation of adults' views of death. (ABL)

Descriptors—Aging (Individuals), \*Client Characteristics (Human Services), \*Counseling Objectives, Counselor Attitudes, \*Counselor Client Relationship, \*High Risk Persons, \*Intervention, \*Older Adults, Social Workers, Trust (Psychology)

Identifiers—Protective Services, \*Resistance (Psychology)

Elderly clients resistant to help present an ethical dilemma for professionals. This dilemma may climax when assumption of authority over the client for his safety is necessary. Social workers need to work for decisions closest to the wishes of the client. The at-risk client should be informed about changes that will occur and how these changes will help him in order to reconcile the client to these changes. A client may resist assistance because he feels it is interference and signifies the loss of his integrity as a person. The client may defend himself against pro-

tective help by opposing changes in his environment, minimizing his problems, blaming outside causes for his discomfort, and manipulating another person to supply his needs. The objective for a social worker is to reconcile his and his client's goals. This can be facilitated by an empathetic relationship and by the social worker's acceptance of the client's choice of alternatives. If the client's cognitive abilities do not support this, a trusting therapeutic relationship must be substituted. Skill and patience with the resistant client are of utmost importance. (ABL)

Colardyn, Danielle White, Kathleen M. Mental Representation and Problem Solving in Work-Study Students.

Pub Date—Mar 85

Note—16p; Paper presented at the Annual Meeting of the Eastern Psychological Association (Boston, MA, March 21-24, 1985). Research study was conducted as part of an assessment project supported by the French Ministry of Vocational Education.

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—\*Cognitive Development, \*Cognitive Style, Foreign Countries, \*Logical Thinking, Postsecondary Education, \*Problem Solving, \*Student Development, Work Experience, \*Work Study Programs

Identifiers—France (Paris), \*Mental Representation

Transitional situations, such as those experienced by work study students, may create cognitive difficulties by requiring people to simultaneously use both a learning and a use logic. To examine this phenomenon, a problem solving task (electrical schemata of a washing machine) was administered to 43 full time students and 51 work study students studying electricity. The schemata was administered before and after a 2-week on-the-job training program for work study students. Data analysis revealed five categories of errors. With regard to these categories, both full time and work study students presented roughly the same pattern of mistakes on the pretest. Comparison of pre- and post-test results, however, revealed that full time students showed a significant decrease in the number of mistakes made while the nature of the errors stayed the same between the two tests. Work study students maintained a constant number of mistakes between pre- and post-tests, but the nature of the errors changed. These results suggest that full time students experienced no disruption in the evolution of their mental representation while work study students experienced interference with the evolution in the learning logic and a change in mental representation. This change in mental representation might be seen as a first step in a cognitive process of integration of the learning and the use logics. (NRB)

The major purpose of this monograph is to provide counselors in elementary and secondary schools with information on learning style to enable them to diagnose the learning style of each student, utilize counseling interventions that complement individual learning style preferences and consult with teachers and parents regarding the accommodation of student learning style preferences in the classroom and at home. Application of the learning

style approach is described as involving: (1) assessing the learning style of each student; (2) identifying patterns within the counseling caseload for grouping students according to learning style preferences; (3) interpreting learning style requirements of students for counseling purposes and applying complementary counseling approaches; and (4) evaluating student outcomes as a result of using the learning style model. Case studies are provided to assist counselors in applying the model at the elementary and secondary school levels. The learning style needs of special populations (gifted, physically disabled, school dropouts) are described. Descriptions of counseling programs that use learning preferences in counseling are provided. Research studies are outlined that show evidence that using the learning style approach in teaching and counseling results in improved academic achievement, more positive attitudes toward school, and selected developmental gains, such as increased career awareness. Identifiers—\*Community Options Program, Long Term Care, Wisconsin

This document contains a preliminary report on the implementation of Wisconsin's Community Options Program (COP), a program designed both to divert persons from entering nursing homes and to deinstitutionalize current nursing home residents who can be effectively served by community-based alternatives. The introduction of this report provides a description of the program and information on the eight counties which are operating programs, funding, and methods used to prepare the report. Part I of this report focuses on the policies and procedures developed in each of the volunteer counties and on county staff and community representatives' opinions regarding program operations. Information on program context, operations, indirect effects, and agency assessment of initial implementation is presented for each county individually. The section concludes with a summary of programs in the eight counties. Part II evaluates COP county efforts to target program services to the type of clients described in the legislation and guidelines for the program, and describes the type, amount, and cost of services provided to clients in the initial months of program operation. Also presented are findings from two client telephone surveys conducted to determine why some clients preferred nursing home care to community services and to assess client satisfaction with COP assessments and community services. Part III contains conclusions and recommendations focusing on future implementation of COPs. A bibliography and 63 data tables are included. Appendices include data collection instruments, statutory language, summaries of other community options programs, level of care definitions, and community services definitions. (NRB)

Descriptors—Community Programs, Community Services, \*Cost Effectiveness, \*Deinstitutionalization (of Disabled), \*Delivery Systems, Disabilities, Institutionalized Persons, Nursing Homes, Older Adults, \*Program Evaluation  
Identifiers—\*Community Options Program, Long Term Care, \*Medicaid, Wisconsin

This document is a report evaluating the Community Options Program (COP) operated in Wisconsin in 1982 and 1983. The report states that the program is designed to reduce the institutionalization of disabled persons by supporting these persons in the community, thereby decreasing expenditures for long term support and slowing the demand for nursing home beds. The document reports that the data on the influence of the COP on Medicaid-funded admissions to nursing homes are inconclusive. Elderly and nonelderly disabled persons in the program are compared and the COP clients' characteristics are profiled in light of their risk of institutionalization. An extensive segment of the document compares the costs of COP programs versus nursing home care, examining such factors as Medicaid eligibility, client turnover, Medicaid costs for community care, and Medicaid costs for nursing home care. Eighty data tables and seven figures are given to document this analysis. The report concludes that Community Option Programs do not replace or diminish private support to the disabled by friends and family. Appendices include data collection instruments, county statistics, specific comparison groups, and services available in Wisconsin. (ABL)

This monograph discusses the learning style model for counseling college students. The targeted audience includes college counselors and counselor educators. Six objectives are noted: (1) to increase counselor effectiveness through individual learning style identification and prescription; (2) to provide counselors with a model for matching counseling techniques with learning style preferences of students; (3) to provide counselor educators with a model for looking at individual differences from a learning style perspective; (4) to identify counseling strategies that complement specific learning style elements; (5) to summarize research related to learning styles; and (6) to enable counselors to be consultants with teachers and instructors in providing a more effective learning environment. The document includes sections on increasing counselor effectiveness through learning style identification, using learning styles in counseling, counseling interventions based on learning styles, and research on counseling and learning styles. An extensive bibliography is included. (ABL)

Descriptors—\*Delivery Systems, Health Insurance, \*Home Programs, \*Medical Services, \*Needs Assessment, Older Adults, Use Studies  
Identifiers—\*Home Health Care

The use of health and social services is influenced by economic, community, geographic, organizational, societal, and environmental factors. A study was conducted to examine predisposing, enabling, and need-for-care factors related to the use of home health care services by a stratified random sample of 400 older adults. Predisposing factors included age, sex, race, and employment status. Enabling factors included knowledge of home health care agencies and the type of insurance coverage available to the individual. Need-for-care variables included health status, illness-induced limitations of daily living activities, use of health appliances (walker, cane), and whether the individual stated a need for services. Respondents completed a selection of items from the Older Americans Resources and Services Functional Assessment Questionnaire, the Philadelphia Geriatric Center Multi-Level Assessment Instrument, and other items related to home health care. Results of the study revealed five variables which directly affected the use of home health services by the elderly: need for service, employment of health care appliances, limited activity due to illness, type of medical insurance coverage, and age. The findings suggest that people who express a need for home health care services and have knowledge of them tend to use services, and that others who have disabling conditions also will use the services independent of expressed need for services. Four pages of references conclude the document. (NRB)

Descriptors—Age Differences, \*Cubans, Demography, Economic Status, Hispanic Americans, \*Individual Needs, Needs Assessment, \*Older Adults, Prediction, \*Social Services, Use Studies  
In 1979-80, a national study used a combination of the Older Americans Resources and Services Functional Assessment Questionnaire and the Subjective Distress Scale of Psychiatric Status Schedule to assess the service needs of the Hispanic elderly. Thirty variables were selected from this data and categorized using Anderson and Newman's (1973) framework for classifying individual determinants

of service use to determine which factors predict the social service use of a subset of 209 Cuban elderly. This framework conceptualizes the individual's demand for services as a function of the relationship among predisposing, enabling, and need factors. A path analysis used to examine the relative importance of the factors indicated that six variables directly impacted the use of social services by the Cuban elderly and accounted for 45.5 percent of the variance in use. The strongest predictors of use were the enabling factors of awareness and income, followed by the predisposing factors of nativity, age density, and age, and by one need factor, the need for services. These findings suggest that the Cuban elderly (who have a higher frequency of awareness of social services, lower income, greater frequency of need, are foreign born, live in rural areas, and are older) have a tendency to use more social services. Social service delivery systems should focus more attention on the Cuban elderly who possess these characteristics. (NRB)

Pub Type—Reports—Research (143)—Speeches/Meetings Papers (150)

**EDRS Price—MF01/PC01 Plus Postage.**

Descriptors—Crime, Disabilities, Ethnic Discrimination, Family Relationship, \*Hispanic Americans, \*Older Adults, \*Physical Health, Sex Discrimination, \*Victims of Crime

Although the determinants of experienced and reported crime have been fairly extensively studied, there is relatively little consensus about the predictors of victimization or likelihood of reporting crimes, and research on the elderly Hispanic Americans as victims and reporters is practically nonexistent. In 1979-80, a national study used a combination of the Older Americans Resources and Services Functional Assessment Questionnaire and the Subjective Distress Scale of Psychiatric Status Schedule to assess the service needs of the Hispanic elderly. Data from a subset of 84 Hispanic elderly respondents who reported having been victimized by crime in the last year were examined to determine the crime reporting behavior and the crime experienced by the Hispanic elderly. Twenty variables were selected and classified according to whether they represented individual, family, or community characteristics; health; or indicators of crime. The results of the regression analysis revealed that crime reporting behavior was directly impacted by four variables (ethnic discrimination, contact with children, hospitalization, and sex discrimination) which accounted for 30 percent of the variance. Only one variable was found to directly affect the amount of crime experienced: being disabled accounted for 11 percent of the variance. These findings suggest that ill health predisposes some Hispanic elderly persons to more experienced and reported crime, while sensitivity to ethnic discrimination and family support motivate the Hispanic elderly to report crime. (NRB)

Safon-Rush, Donna  
Is the Authoritarian Trait in Mental Health Workers a Significant Predictor Variable of Patient Assault?

Pub Date—[81]

Note—65p.

Pub Type—Reports—Research (143)

**EDRS Price—MF01 Plus Postage. PC Not Available from EDRS.**

Descriptors—Aggression, \*Authoritarianism, \*Mental Health Clinics, \*Nurses, \*Patients, Personality Traits, Physician Patient Relationship, \*Psychiatrists, Sex Differences, \*Violence  
Identifiers—\*Assaults

Mental health workers may be assaulted by their violent patients. A study was conducted to examine one predictor variable of aggressive behavior in patients. It was hypothesized that authoritarian traits in the mental health worker could result in more assaults against the mental health worker by patients. Participants (N=32) were mental health workers in a crisis intervention unit of a hospital in Miami, Florida. The workers included 3 psychiatrists, 16 nurses, 3 social workers, and 10 mental health technicians. A questionnaire was administered to determine the number of patient assaults

against respondents and to collect demographic information on the respondents. Participants' personality traits were assessed using the F scale measure of authoritarianism (Adorno, 1950). The results indicated that men were attacked more than 16 times as often as women. Sixty-eight percent of the workers reported attacks, and 58 percent of those workers felt that the attacks could have been prevented. The relationship between authoritarianism and attack, though positive, was not significant. Further research about attitudes likely to provoke violence, prevention of patient assaults, and qualifications of workers is recommended. (ABL)

An Evaluation of Guidance Services in Scarborough Schools. Internal Evaluation Report No. 6. Scarborough Board of Education (Ontario).

Pub Date—Jun 82

Note—310p; Scarborough's Co-operative Evaluation and Development of School Systems (CEDSS) Project.

Pub Type—Reports—Descriptive (141)

**EDRS Price—MF01/PC13 Plus Postage.**

Descriptors—Elementary School Students, \*Elementary Secondary Education, \*Evaluation Methods, Foreign Countries, \*Guidance Objectives, \*Guidance Programs, \*Program Evaluation, School Counseling, School Counselors, \*School Guidance, Secondary School Students

Identifiers—\*Ontario (Scarborough)

This document contains an internal evaluation of guidance services in Scarborough, Ontario schools undertaken to achieve the following: (1) to investigate what guidance services should be provided to Scarborough students (by reviewing curriculum documents, surveying involved persons, and reviewing the success of the service); and (2) to assess how well guidance services are being provided (by relating services to objectives, examining usage of services, and surveying parent and teacher attitudes). A chapter on the research plan presents the purposes of the study, a definition of the survey population, an explanation of the questionnaire development, plans for data collection and analysis, and a description of data reporting. The three chapters of evaluation results focus on return rate of questionnaires, secondary school guidance objectives, and secondary school guidance services. Evaluation of guidance services in the Scarborough elementary schools is addressed in a separate chapter which covers objectives, activities related to objectives, a discussion of elementary school student needs, and a survey of attitudes of grade eight students toward grade nine programs. The final chapter contains summaries of results, conclusions, and recommendations for guidance services. Appendices contain a summary of guidance services; cover letters; tables of comments; and nine questionnaires for students, guidance counselors, parents, teachers, supervisory officers, trustees, and the business com-

munity. Thirty-three data tables are included. (NRB)

Descriptors—Elementary School Students, \*Elementary Secondary Education, Foreign Countries, Secondary School Students, \*Self Concept Measures, \*Self Esteem, Self Evaluation (Individuals), Student Attitudes, Student Development, Teacher Attitudes, Teachers, \*Teaching Methods

Identifiers—Ontario (Scarborough)

This document contains an internal investigation of students' self-esteem in the Scarborough, Ontario school system undertaken because of the emphasis that the school system places on students' self-esteem as a predictor of academic achievement. A chapter on the research plan presents descriptions of the population, sample selection, choice of questionnaire (the Piers-Harris Self Concept Inventory entitled "The Way I Feel about Myself"), the development of questionnaires for teachers and students, data collection and analysis, and the reporting of results. The six chapters of results of the study focus on: (1) the return rate of questionnaires; (2) student self-esteem; (3) student perceptions of the importance of selected teaching methods; (4) comparison by grade of student responses regarding their perceptions of extent of teacher use of selected methods; (5) teacher attitudes toward the development of positive student self-esteem as a classroom objective; and (6) teacher perceptions of the usefulness of selected teaching methods in the development of positive student self-esteem. A summary, conclusions, and recommendations are given. Appendices contain two interim reports and the questionnaires used in the evaluation. Numerous data tables are included. (ABL)

**EDRS Price—MF01/PC07 Plus Postage.**

Descriptors—Adolescents, Children, \*Counseling Services, Older Adults, \*Prevention, \*Suicide, Theories

This document is an information analysis paper based on a computer search of the Educational Resources Information Center (ERIC) database from 1966 to the present and on pertinent outside resources on the topic of suicide. The paper reviews, analyzes, and interprets the literature on suicide and points out the implications of the information for human services professionals. Part 1 of this paper presents a brief history of suicide theories, reviews selected literature on the subject, and describes some of the factors which researchers have linked to suicide. Part 2 focuses on various aspects of suicide unique to special populations, including the elderly, children, adolescents, women, and blacks. Part 3 describes counseling programs designed for prevention, intervention, and postvention, including individual and group counseling for suicide attempters and survivors, and school-based, community-based, and government programs. Advice to parents is offered. This paper concludes with a list of programs that creatively and effectively serve the needs of their local suicidal population. Printed with the paper are selections from the computer search, including complete bibliographic citations with abstracts

of ERIC journal articles and documents. (ABL)

Child Relationship, Parent Counseling, Social  
Services, State Agencies, \*State Programs, Statistical  
Analysis, Statistical Surveys, Trend Analysis  
Identifiers—\*Colorado

This report represents the first comprehensive  
summary of child abuse and neglect reporting in  
Colorado. Section I of this report presents an initial  
summary listing the number of confirmed and un-  
confirmed reports of abuse over a 14-year period  
and a look at key findings based on analysis of confirmed  
reports. Data and analyses are presented in the  
next four sections. Section II, Overview of the  
Central Registry, gives background information on the  
Colorado Central Registry for Child Protection and  
details how reports enter and exit the registry.  
Section III, Overview of Reporting Trends and Patterns,  
shows trends across time and Colorado reporting  
rates. Section IV, Detailed Analysis of  
Reporting Patterns, analyzes reporting patterns in  
relation to age and sex characteristics, characteristics  
of perpetrators, ethnicity and reporting, source  
of referrals, characteristics of parents, and services  
to families. The final section, Colorado and National  
Reporting, lists data on child abuse and neglect  
reporting across Colorado and provides  
nationwide comparison rates. The Colorado  
Abuse/Neglect Reporting Form is contained in the  
appendix. Four figures and 51 tables are included in  
the report. (ABB)

Descriptors—\*Adolescents, Early Parenthood,  
\*Pregnancy, \*Prevention, Social Services, State  
Agencies, \*State Programs, Youth Programs

This information memorandum, prepared for the  
Wisconsin Special Committee on Pregnancy Options,  
provides a summary of selected programs in  
five other states relating to adolescent pregnancy  
prevention. The memorandum notes that the pro-  
grams selected have state statutory or administra-  
tive rule mandates or receive substantial  
administrative and financial support from state gov-  
ernment agencies, or both. The programs described  
represent different types of programs to prevent ad-  
olescent pregnancy which involve schools, families,  
youth-service agencies, community groups, health  
agencies, the media, or coalitions of various groups.  
The states and types of programs described include:  
(1) New Jersey: Mandatory Sex Education Pro-  
gram; (2) Minnesota: In-School Clinic Program Pro-  
viding Reproductive and General Health Education  
and Services; (3) Michigan: Major Media Campaign  
and Contract Program; (4) New York: Grant Pro-  
gram for Adolescent Pregnancy Prevention Pro-  
grams Integrating Reproductive-Related Services  
with Job-Training and Self-Awareness Education;  
and (5) Illinois: Coordinated Prevention Services  
for High-Risk Adolescents are Part of a Statewide  
Pregnant and Parenting Adolescent Program. Pro-  
gram description, implementation time, adminis-  
tration and funding, and relevant findings are given  
for each program. Two appendices provide legisla-  
tion from New Jersey and New York. (ABB)

ing Relationship, \*Older Adults, Physical Health,  
\*Stress Management, Stress Variables, Well Be-  
ing, \*Workshops

Identifiers—\*Pain Control

This guide presents strategies used in Pain Man-  
agement and Stress Reduction workshops for help-  
ing the elderly cope with stress and chronic pain.  
Client evaluations of the workshops are given along  
with an analysis of the clients' presenting problems.  
Coping strategies described include: the relaxation  
response, imagery, daily logs, journal techniques,  
cognitive group discussion of dysfunctional think-  
ing, values clarification, hugging, groupwork, and  
setting personally meaningful goals and putting them  
into action. Applications and analysis of the  
relaxation response are detailed most thoroughly.  
Appendices include three handouts: (1) suggested  
readings for pain management workshops; (2)  
step-by-step instructions for performing the relax-  
ation response; and (3) pain management workshop  
topics and assignments. (ABB)

Special Health Problems, Surgery, \*Visual Im-  
pairments

Identifiers—\*Cataracts, Congress 99th, \*Intraoc-  
ular Lenses, Medicare

This report is a summary of the findings from the  
Subcommittee on Health and Long-Term Care of  
the United States House of Representatives Select  
Committee on Aging investigation of cataract sur-  
gery and the use of intraocular lenses (IOL's) in  
the United States. The document provides background  
on the definition and treatment of cataracts and  
describes IOL implantation procedures, the IOL in-  
dustry in the United States and abroad, and IOL  
utilization, including numbers and costs. Medicare  
payment for cataract surgery is also examined. Current  
problems are detailed, including efficacy and  
safety; cost; kickbacks, discounts, and rebates; and  
no cost advertisements. Results from surveys of  
ophthalmologists and the IOL industry regarding  
their experiences with fraud, waste, and abuse in the  
area of cataract surgery are analyzed and a conver-  
sation with an IOL salesman is reported. Current  
regulatory activity involving IOL enforcement, ap-  
proval, and reimbursement is detailed. Policy rec-  
ommendations, based on the findings, are listed and  
supported by the conclusion that cataract surgery is  
fraught with fraud, waste, and abuse but can still be  
provided with some improvements in program ad-  
ministration and legislative changes. A glossary of  
terms specific to the cataract industry and an an-  
atomy of the eye are included. Several appendices  
present surveys of ophthalmologists and the IOL in-  
dustry, information supplied by the Food and Drug  
Administration and the Health Care Financing Ad-  
ministration, and marketing materials of the IOL  
industry. (ABB)

Descriptors—Community Health Services, Daily  
Living Skills, Disabilities, \*Home Programs,  
Home Visits, \*Older Adults, Quality of Life, Re-  
search Design, \*Research Methodology, Test  
Construction, \*Test Validity, Well Being  
Identifiers—Home Health Care, \*Quality of Circum-  
stances Measure

Home care has not consistently proven to prevent  
institutionalization, reduce mortality rates, reduce  
hospital use, or improve functional status and mor-  
ale; and indeed, these objectives may be unreason-  
able. Rather, the purpose of home care should be to  
meet immediate needs of recipients which they can  
no longer meet themselves. Publicly-funded home  
care was evaluated in a study which employed qual-  
ity of circumstance, a construct which includes ob-  
servable conditions and behaviors such as eating  
regularly, having a clean residence and clothing, and  
ability to go out. Participants were selected from  
1,068 elderly hospital patients who were functionally  
disabled, of low or moderate income status, and  
able to sign a consent form. Four months after hos-  
pitalization, participants (N=633) who had re-  
turned to home settings were interviewed on quality  
of circumstances subscales, including shelter, pri-  
vacy, safety, household supplies, eating, choice,  
laundry, clothing, housecleaning, quietness, and ac-  
tivity. The quality of circumstances measure gave a  
detailed picture of living conditions linking specific  
problems to quality of circumstance subscales. Re-

Descriptors—\*Divorce, \*Family Relationship,  
\*Grandchildren, \*Grandparents, \*Parents, \*State  
Legislation

Identifiers—Congress 99th, \*Visitation Rights

This document is a report on a resolution rec-  
ommending that states develop and adopt a Uniform  
Grandparent's Visitation Act which would allow  
grandparents to petition state courts for the right to  
visit their grandchildren after the dissolution of the  
grandchildren's parents' marriage (by divorce, sepa-  
ration, or death). The resolution calls for technical  
assistance in developing a Best Interest of the Child  
standard by the National Center for Child Abuse  
and Neglect and the Administration on Aging. The  
justification for this legislation is the lack of unifor-  
mity in existing state laws and the vagueness of  
these laws. It is further reported that this resolution  
entails no federal costs and thus no inflationary im-  
pact. (ABL)

islation, \*Rural Areas

Identifiers—Congress 99th, \*Medicare, \*Missouri  
This is a report of a Congressional hearing held in  
Jefferson City, Missouri on the crisis in health care

for the elderly in Missouri. Representative Ike Skelton's opening statement notes that the purpose of the series of hearings being held around the country, of which this is one, is to examine the effect of changes in the Medicare program on the quality of hospital care senior citizens receive in rural hospitals, and also to review the quality of the Peer Review Organizations (PROs) which are the watchdogs of the health care providers. This hearing focuses specifically on the activities of the Missouri PRO. The first panel of witnesses included the daughter of an elderly patient who had encountered health care delivery problems related to Medicare, the woman's physician who discussed his problems with the PRO, another Medicare beneficiary with medical problems, a health advocacy service coordinator for the elderly, and the president of the Missouri Hospital Association discussing his problems with the PRO and the Health Care Financing Administration. The second panel included two witnesses from the Missouri Patient Care Review Foundation (the PRO for Missouri) and the regional administrator of the Health Care Financing Administration. (ABL)

Identifiers—Congress 99th

This document is the text of a Congressional hearing called to examine prevention of alcohol abuse in American families. In her opening statement, Representative Lindy Boggs states that alcohol abuse is related to many problems confronting families including divorce, violence, and behavioral emotional problems and that the purpose of this hearing is to focus on preventing alcohol abuse. Witnesses giving testimony include researchers; government administrators; representatives from advocacy groups, the alcohol industry, and the National Association of Broadcasters; counselors; and parents. Witnesses called for increased alcoholic beverage taxes, warning notices in alcohol advertising, and funding for various agencies. Prepared statements and materials submitted by witnesses and others comprise a large part of this document. These prepared materials include statements of social responsibility, public alcohol education program summaries and brochures, local government reports, newspaper clippings, and policy statements. Descriptors—\*Adolescents, \*Citizen Participation, \*Community Involvement, Crime, \*Crime Prevention, Program Descriptions, Social Action, \*Social Responsibility, \*Youth Programs

This document discusses the involvement of teenagers in community crime prevention. It gives the justification, methods, successes, and problems of crime prevention programs in which young people

participate. Several reasons for involving teenagers are given: teenagers need to develop a sense of community, they are often the victims of crime, and they have useful services to offer. Two chapters offer "primers" in community crime prevention and youth potential in these prevention programs. Teenage involvement in crime prevention programs in cities, suburbs, and rural areas with a variety of sponsors including law enforcement agencies, schools, youth groups, and community agencies is described. The characteristics of good programs, including resources, adult mentors, and community support are noted. The problems existing crime prevention groups have encountered such as lack of adult involvement, adult domination, lack of rules, insufficient funding, and transportation problems are discussed. Twenty-eight programs throughout the United States and two from Canada are summarized with addresses and telephone numbers. (ABL)

Descriptors—\*Adolescents, \*Children, \*Delivery Systems, \*Hospitalized Children, Hospitals, Insurance, \*Medical Services, Statistical Analysis

Identifiers—\*Access to Health Care, Canada, \*United States

This document presents a statistical study of hospital use by children in the United States and Canada designed to determine why the hospital discharge rate of children in the United States is lower than many other Western industrialized nations, although the discharge rate for the general U.S. population is higher. Several reasons for the lower rate are suggested, including the possibilities that American children are in better health, fewer children are hospitalized unnecessarily in the United States, or some children are not receiving needed hospital care. A comparison of Canadian and U.S. statistics is included because of the two countries' similar hospital structure and data. Data are presented in three areas. Hospital use is compared using data on age and sex, diagnosis, surgical procedures, newborn infants, and hospital fatalities. Health status is compared using morbidity, mortality, and cause of death data. Health services are compared using supply and distribution of resources, physician utilization, and health insurance data. It is concluded that: (1) children in the United States had lower discharge rates for upper respiratory infections but higher infant mortality; (2) ambulatory care appeared to be used more in the United States than in Canada; and (3) more U.S. children were uninsured than were Canadian children. A 1983 statistical update is included. (ABL)

Identifiers—Prenatal Care

This report describes trends and differentials in births and birth rates for teenagers since 1970, and examines the demographic characteristics of the mothers and the health of their newborn children. A brief introduction and a review of highlights of the findings from National Vital Statistics System data is followed by discussions in several areas: (1) birth rate; (2) numbers and proportions of births; (3) birth rates by marital status; (4) numbers and ratios of births to unmarried mothers; (5) educational attainment of mothers; (6) low birth weight; (7) prenatal care; and (8) Apgar scores (used to evaluate infants' overall physical condition at birth). The data presented here focus primarily on childbearing by teenagers aged 15-19 years. Detailed in this report are some of the circumstances that accompany a birth to a teenager, including higher rates of nonmarital childbearing, lower educational attainment of the mother, higher levels of low birth weight, less prenatal care, and lower Apgar scores. Five text figures on birth rate statistics are provided and 11 detailed data tables are included. The appendix contains technical notes on sources of data, population denominators, births by marital status of mother, and computation of percent distributions. (NRB)

Descriptors—\*Attribution Theory, College Students, \*Employment Potential, Higher Education, \*Sex Bias, \*Sex Role, \*Test Construction, \*Test Reliability

While earlier, more blatant forms of sex discrimination may have declined, some researchers have suggested the existence of more subtle forms of bias, based less on gender than on gender-related attributes. The investigation of bias related to either gender or gender-related attributes requires a scale to address both the gender-relatedness of characteristics and how positively or negatively the stereotypical characteristics are viewed. Twenty masculine, 20 feminine, and 20 neutral gender-related characteristics with positive connotations related to employability were selected for the development of the Positive Sex Role Inventory (PSRI). The 60 attributes were placed in an instrument and presented to 284 undergraduates who rated the attributes for their desirability for a counseling psychologist. Analysis of this instrument showed that the scale had a three-factor structure and satisfactory subscale internal consistency reliability. Five masculine and feminine item pairs were then identified from the subscales so that the mean difference between the ratings of the two items was not statistically significant. This study yielded two experimentally useful products: the PSRI can be used in experimental research involving positive sex-role attributes and the set of five item pairs developed to be of equal market value provides a potentially useful methodology for sex bias research. Descriptors—\*Adult Development, \*Cognitive Development, Cognitive Style, \*Evaluative Thinking, Knowledge Level, \*Social Cognition, Theories

Structural views assume that a single, comprehensive system of thought underlies cognitive activity. Although developmental research with both children and adults has tended to assume the validity of a structural model of cognitive development, this assumption may be invalid when applied to the social cognitive judgments of adults. There are two basic concerns in examining the area of social cognition in adulthood. First, the concept of social cognition, its measurement and definition, cannot be simply conceived in a unitary fashion. Social judg-

ments across a variety of different situations suggest patterns of heterogeneity and inconsistency across empirical studies. Secondly, social cognitive understanding represents development of the personal domain of knowledge. Knowledge in adulthood becomes increasingly domain-specific and expert. Adult competence within the logico-mathematic domain alone appears incapable of explaining the social cognitive skills of adulthood. However, domain-general descriptions of the unique qualitative dimensions of post-formal thinking by themselves are not sufficient to account for the emerging facility of adult social cognitive expertise. Social cognitive performance in adulthood is simultaneously marked by the growth of both post-formal thinking styles and expert knowledge within the personal domain. A reference list is appended. Descriptors—Classification, \*Congruence (Psychology), \*Environmental Influences, Interaction, \*Personality Traits, Proximity, \*Punishment, \*Rewards, \*Work Environment  
Identifiers—Holland (John L.)

Holland's original environmental formulations proposed that an environment's influence was transmitted through its inhabitants: environments could be classified by the predominant personality type of their inhabitants. But the approach to environmental assessment that relies on a census of inhabitants is only one approach, job analysis is another. The principal prediction that Holland's theory makes about person-environment interactions is that beneficial outcomes follow from congruency between the person and the environment. Congruency leads to stability and incongruency leads to change. Several empirical studies have been conducted which provide evidence on Holland's predictions about person-environment interactions. Although it is expected that some environments exert more influence than others, no satisfactory explanations of the sources of such differences are available. Holland has suggested assessing the consistency, differentiation, and identity of the environment. An alternative set of speculations about the determinants of environmental influence makes use of the notion of proximity. The proximity of an environment refers to the probability that it will reward or punish behaviors. A proximate environment is one in which rewards for behaviors congruent with the environment or punishments for incongruent behavior occur with high probability. The use of the notion of proximity helps to make sense of some disparate results in tests of the congruence hypotheses. (NRB)

Descriptors—\*Age Differences, \*Aging (Individuals), \*Alcohol Education, \*Alcoholism, \*Drinking, \*Older Adults  
Identifiers—\*Risk Factors

The Gerontology Alcohol Project, a treatment/research program investigating the characteristics of the late-life onset elderly alcohol abuser, was used as a model for a new program which emphasized teaching the elderly abusers how to break down their personal drinking behavior chain and deal with the antecedents of drinking behavior, to use general problem solving skills, and to understand consequences of alcohol abuse. Physical health, mental health, social/family relationships, legal problems, and financial problems of the 67 program participants were also assessed for effects of alcohol abuse. The results from administration of the Drinking Profile revealed that most phys-

ical/medical problems were related to episodes of drinking, that the majority of abusers lived alone and had a small social network, and that few financial or legal problems relating to alcohol abuse were found. Antecedents of drinking behavior were markedly different for older abusers than younger abusers. Intrapersonal rather than interpersonal antecedents of alcohol abuse were common in the elderly. The elderly abuser's antecedent depressed mood was related to the drinking episode rather than to peer pressure or anger as in young abusers. Most younger abusers consumed alcohol in social settings but most elderly abusers drank liquor at home alone. Elderly alcohol abuse was found to be related to loneliness, lack of social contacts, age-related changes, and intermittent depression and did not cause major psychological/interpersonal impairment. Eight data tables are appended. (ABL)

Schonfeld, Lawrence Dupree, Larry W.  
Increasing the Social Networks of Isolated Elderly: Treatment and Research Findings.  
Pub Date—24 Aug 85  
Note—16p; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).  
Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Demonstration Programs, Institutionalized Persons, \*Interpersonal Competence, \*Mental Health Programs, \*Older Adults, \*Social Adjustment, \*Social Isolation, \*Social Networks  
Identifiers—Risk Factors

The Community Aging Program is a demonstration outpatient, mental health program designed to study and treat elderly individuals. The individual's skills relevant to living independently are assessed and those individuals with deficits enter an appropriate treatment program. Two of the treatment programs or modules help the individual adjust to the community. The Community Resources Module teaches information about Social Security payments, places to go for activity, and public transportation, and how to practice these skills. The Social Support Module emphasizes using the individual's existing social support network and increasing it by making new friends. Program participants (N=77) completed the Beck Depression Inventory, Life Satisfaction Scale, and Social Support Network Inventory. The results revealed that graduates of the program significantly increased the size of their social network. The graduates' self-esteem rating increased and their depression rating decreased. These individuals were referred because of their risk of being institutionalized but this project demonstrates that this risk can be lowered by improving the elderly person's social skills. (ABL)

McClam, Tricia  
Volunteer Motivations and Rewards: Shaping Future Programs.  
Pub Date—Apr 85  
Note—12p; Paper presented at the Annual Conference of the American Association for Counseling and Development (New York, NY, April 2-5, 1985).  
Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)  
EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—\*Burnout, Incentives, \*Locus of Control, \*Motivation, Recognition (Achievement), \*Rewards, Self Actualization, \*Voluntary Agencies, \*Volunteers

Volunteerism is increasing today and helps to fill in the gaps created by funding and staff cutbacks in service-oriented agencies. It is critical not only to recruit new volunteers but to retain volunteers. This study examines hospice volunteers for motivation and rewards. Previous studies have found motivations to include altruism and self-actualization and rewards to include social interaction and recognition. Forty hospice volunteers (29 females and 11 males) completed a questionnaire and Rotter's Internal-External Locus of Control Scale. Participants were asked what kinds of activity they performed and their primary reason for volunteering. Fifty-two percent cited inner-directed reasons indicating personal interest or benefit. Thirty-eight percent cited other-directed reasons indicating concern for others. Other respondents combined inner- and other-directed reasons or did not cite reasons. The

hospice volunteer directors were questioned about rewards. Rewards included certificates of appreciation, banquets, service pins, bookmarks, free meals, and free parking. Little relationship was found between volunteer motivations and reward structure. Agencies could be more creative by taking into account the needs and talents of the volunteers when creating job descriptions and roles thereby probably reducing volunteer burnout. It is also probable that supervision as needed over and above the supervision regularly supplied provides the support, encouragement and rewards most valued by these volunteers. (ABL)

Identifiers—Canada

This document discusses and reviews the research on the issue of in females and males. A 1970 study by Broverman, Broverman, Clarkson, Rosenkrantz, and Vogel found that both male and female clinicians ascribed more positive characteristics to males and fewer desirable traits to females. Research disagreeing with this position and failing to replicate the study is cited. Other research showing that clinicians tended to reject female patients who exhibited masculine traits such as assertiveness is cited as support for Broverman. Two theories, the labeling theory, and the higher male social status theory which account for possible bias are discussed. Several studies relating disorders to male and female gender type expectations are reviewed. It is concluded that females are judged as maladjusted when exhibiting gender role incongruent behavior. The issue of an androgyny concept to counteract sex stereotyping is also reviewed. A reference list is included. (ABL)

Descriptors—Aggression, Battered Women, College Students, \*Emotional Response, Higher Education, \*Interpersonal Relationship, Psychological Patterns, \*Sex Differences, \*Stress Variables, \*Violence  
Abuse between intimates has begun to be examined. Recent research has studied the incidence and causes of violence in marriages and in premarital relationships. A study was conducted to examine the level of intimate violence, patterns of violence for each gender, and the relationship of stress to violence in adult relationships. Study participants (N=336) were undergraduate students. Females made up 51.8 percent of the sample and males made up 48.2 percent, with subjects ranging in age from 17 to 52. Demographic information, the receipt and expression of violence in adult relationships in the previous 12 months, and the number of stressful life events were measured by questionnaires. Over one-half of the respondents reported expressing or receiving physical abuse at least once. Few reported serious violence but this may have been due to the young age of the sample. Females were more likely to have expressed physical violence than were males but both sexes reported similar rates of received violence. The number of stressful events was significantly correlated with the expression and receipt of violence. The relationship between the expression and receipt of violence and the perception of aggression and victimization should be further explored in future research. (ABL)

Jackson, Linda A.  
Self Concept and Gender Role: An Open-Ended Inquiry.

Pub Date—Aug 85

Note—16p; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Androgyny, \*College Students, \*Higher Education, \*Personality Traits, \*Self Concept, \*Self Evaluation (Individuals), \*Sex Role

Much research on masculinity and femininity has relied on the Bem Sex Role Inventory (BSRI) and similar androgyny inventories. Recently, investigators have questioned whether self ratings on androgyny inventories reflect salient dimensions of the self. The relations between spontaneous self descriptions and the respondent's gender and gender role were examined in 503 undergraduates. Males and females categorized by their responses on the BSRI short form as masculine, feminine, androgynous, or undifferentiated provided open-ended responses to the query "I AM" which were coded according to their gender-related and gender-neutral content. Results indicated that gender role influenced the frequency with which gender-related traits were used in self descriptions. Persons categorized as masculine or feminine more frequently used desirable masculine and feminine personality traits, respectively, in their self descriptions. Androgynous persons used both sets of desirable traits in describing themselves. These findings suggest that androgyny inventories, such as the BSRI, may provide valid measures of desirable masculine and feminine traits in the self concept. However, there was little correspondence between gender role and self references to gender behaviors. Moreover, the predominance of gender neutral traits in self descriptions suggested that the salience of gender to the self concept may be overestimated. (Author/NRB)

This document provides witnesses' testimonies and prepared statements from a Congressional hearing on the roles of the federal government and of the Juvenile Justice and Delinquency Prevention Office in preventing youth suicides. Opening statements are included from four Senate committee members and statements are given by the Assistant Secretary for Human Development Services of the Department of Health and Human Services, and by the Deputy Director for Special Projects and the Chief of the Suicide Research Unit from the National Institute of Mental Health. Testimony is also included from the president of the American Association of Suicidology, the cochairperson of the National Committee for Youth Suicide Prevention, and the director of the Youth Suicide and Crisis Prevention Center of San Mateo County, California. The incidence of youth suicides, its possible causes, and ways of identifying possible victims are discussed. Suggestions are made for recognizing suicidal youth and for reaching out to prevent suicide on individual, community, and national levels. Current research efforts are detailed and allocation of additional funding for research is urged. Legislation declaring June 1985 as Youth Suicide Prevention Month is included. The seriousness of the problem and the need for national attention to and programs for the problem are emphasized throughout this

document. (ABB)

Descriptors—\*College Administration, \*College Environment, \*Counseling Techniques, \*Counselor Role, \*Foreign Countries, \*Helping Relationship, \*Higher Education, \*Peer Relationship, \*Problem Solving, \*Professional Personnel, \*Staff Development, \*Staff Role

Identifiers—England

This paper presents a counseling model for managers in education who must deal with staff, their problems, and their perceptions. The basic principle underlying the model is given: the helper is not expected to have ready-made solutions to others' problems, but to offer motivation, time, and skills to help others solve their own problems. The three stages through which the problem management helping model works are listed and explained; they are: (1) initial problem clarification; (2) setting goals; and (3) designing and implementing action programs to achieve the goals. For each stage, the roles of the helper and the problem owner are described. An outline summarizing the work at each stage is provided which extends the helper's necessary behavior in each stage within the context of a work-centered problem situation. The paper concludes with a list of advantages of the counseling mode of managerial behavior. It is noted that this counseling model places the responsibility for self-management and change with the individual, fulfills the responsibility the manager has for helping clients, helps to produce a caring, honest, and sharing environment which contributes to the overall climate of the institution, and establishes the professional peer relationship most suitable for educational institutions. Descriptors—\*Administrators, \*Counseling Techniques, \*Counselor Role, \*Foreign Countries, \*Helping Relationship, \*Job Performance, \*Personnel Evaluation, \*Problem Solving, \*Staff Development, \*Transactional Analysis

Identifiers—England

This paper presents a counseling model based on transactional analysis (TA) to be used with staff members whose professional performance is considered marginal. The introduction of the paper suggests reasons for marginal performance. Counseling from the TA viewpoint is described as a series of transactions designed to improve performance, solve a personal or job-related problem, and create a path for individual development. Two stages to counseling situations based on TA techniques are explained. A first internal review of ego states and their effects by the manager is recommended as a preparation for counseling. Guidelines for this review are given which concentrate on strengthening the adult aspect of the client. A set of 10 TA guidelines for the actual counseling, designed to assist in developing exchanges which will solve the problem and encourage client growth and development, are listed and explained. The paper concludes by recommending follow-up evaluations once counseling has been terminated as a control measure to determine whether goals are practical and whether the action being taken will assure their attainment. Identifiers—England, \*Intrapersonal Skills

This first paper in the intrapersonal skills series presents a conceptual model of intrapersonal skills. Intrapersonal skills are defined as those skills individuals need to possess and perfect in order to manage themselves, and as a prerequisite to interpersonal skills. It is noted that intrapersonal skills are concerned with lessening internal conflict; understanding how one handles perceived external experience internally; and coming to terms with one's qualities, limitations, and potential. The conceptual model presented here views people as systems with inputs, processes, outputs, and, as open systems, with a feedback loop between output and input. Two systems models, a simple, closed psychological model and a more complicated, open psychological one, are illustrated and discussed. The psychological system is then expanded to include needs, decisions, and goals in the model. The effects of natural limitations, value added limitations, and cost/rewards analysis on the model are considered. A flow chart of intrapersonal conflict is provided and five defense mechanism responses to conflict are discussed: (1) reaction formation; (2) displacement; (3) projection; (4) introjection; and (5) rationalization. Descriptors—\*Assertiveness, \*Beliefs, \*Civil Liberties, \*Cognitive Style, \*Foreign Countries, \*Perception, \*Self Esteem, \*Skill Development, \*Work Environment

Identifiers—\*Employee Rights, England, \*Intrapersonal Skills

This second paper in the intrapersonal skills series is concerned with belief systems and how individuals can manage self-esteem by internalizing assertion and awareness training program concepts. The introduction of the paper defines self-esteem and examines how individuals form their self-concepts. It is proposed that persons gather and selectively encode information from external events in accordance with some already existing internal scripts. Assertion training is described as a way to increase self-esteem and respect by enabling people to choose to respond by defining a set of rights which people must learn to act upon. Two sets of rights which might be internalized are presented. The first set concerns the basic rights of the individual in the work situation and 10 work-related rights are listed and explained. Meetings at work are presented as activities which can create stress and conflict, and 12 rights related to meetings are listed. The second set of rights concerns general basic rights of the individual, and 11 such rights are listed and discussed. (NRB)

A Study of the Use of the Semantic Webbing Technique to Improve Reading Comprehension of Third and Fourth Graders.

Pub Date—Oct 84

Note—64p; Paper presented at the Annual Meeting of the Northern Rocky Mountain Educational Research Association (2nd, Laramie, WY, October 4-6, 1984).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Basic Reading, \*Comparative Analysis, \*Elementary Education, \*Grade 3, \*Grade 4, \*Reading Achievement, \*Reading Comprehension

sion, Reading Improvement, \*Reading Research, Reading Strategies, Study Skills, \*Teaching Methods

Identifiers—\*Semantic Webbing

A study investigated the use of the semantic webbing technique to improve reading comprehension. The model of a web consists of the core question, the web strands, the supports of the strand, and the strand ties. Subjects, 25 third graders and 26 fourth graders, were assigned to reading ability groups based on past performance, informal testing and teacher evaluation. The reading groups were then randomly assigned to the experimental or control group. Form A of the Stanford Diagnostic Reading Test was used as a pretest while Form B was used as the posttest. Subjects in the control groups worked on reading comprehension using their basal texts and workbooks, while the experimental group worked with comprehension through semantic webbing activities. The results indicated that basal reading series are an effective way of teaching reading, and that semantic webbing is an alternative additional technique. No significant differences were found except in the area of literal comprehension when the students were grouped by achievement levels. The fact that the experimental group did as well as, or even a little better on the adjusted means, than the control group might indicate that semantic webbing is as good as other techniques. Students responded favorably to the technique even though they tired of it when it was presented in a very concentrated format during the study. The students' preference for short answer detail items to the more difficult, thought provoking questions is not unique to semantic webbing, but one characteristic of all reading and writing tasks. (Extensive tables of data are included in the text, and appendices contain examples of semantic webbing, an outline of the inservice teacher training in use of the technique, and teacher evaluations of the technique.) Adventure Games in the Reading Curriculum:  
Problems and Potential.

Pub Date—[85]

Note—22p.

Pub Type—Guides—Classroom—Teacher (052)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Computer Assisted Instruction, Computer Oriented Programs, \*Courseware, Elementary Education, Microcomputers, \*Reading Comprehension, \*Reading Games, \*Reading Instruction, Reading Processes, Reading Skills

Identifiers—\*Adventure Games

Intended for teachers interested in integrating computers into a reading curriculum, this paper analyzes three computer adventure games and suggests applications of each game within the reading class. Beginning with definitions of the concepts of reading, comprehension, and adventure game, the paper then describes the three games: "Seastalker," "Mystery House," and "Jury Trial." The paper then discusses motivation, control, interaction, application, the text, and the graphics of the game, as well as further uses for the games. The paper concludes that adding carefully selected adventure games to the reading curriculum can help students to develop a commitment to reading and to become actively involved in reading selections. A list of references, including the software discussed in the paper, concludes the report. (EL)

Until recently, kindergartens were designed to

foster a positive attitude toward school and provide a well-rounded development through the use of suitable play, art, and social activities. Unfortunately, many kindergarten programs have begun to rely on inappropriate materials and techniques taken from formal first-grade programs. Such programs reflect a skill-based perspective with activities and tasks hierarchically ordered. Instruction usually means the teacher presents a skill and then the children practice it on materials that are arranged by difficulty of words and sentences. An alternative approach is one that draws on the notion of reading as a thinking and understanding act and learning to read as a constructive, problem-solving process. This means that while children can be given information to learn and practice in a stepwise fashion, they must interpret the ideas and relate them to their own knowledge and experience. Three principles guide these alternative programs: (1) learning to read is supported when a classroom features familiar printed information and interesting literacy activities; (2) learning to read requires the use of diverse materials and a wide variety of tasks that are directly or indirectly related to reading, writing, speaking, and listening; and (3) learning to read is an active process. An eight-page reference list is appended. (HOD)

Descriptors—Behavior Patterns, Educational Research, \*Learning Processes, Learning Strategies, \*Memory, \*Memory, Mnemonics, Primary Education, \*Recall (Psychology), Retention (Psychology), \*Study Skills, \*Young Children

Two experiments were conducted to determine whether children remembered information more efficiently if they were provided with an explicit purpose for learning. In the first experiment, 96 5-year-old children watched a simple science demonstration and were told either to remember the names of the depicted items from pictures for a memory test (rote memory group), to learn the names of the items because they were needed for a second science demonstration (embedded memory group), or to tell the experimenter whether they thought they had seen the pictures anywhere before (incidental memory group). Except for the incidental memory group, all subjects were told that their recall would be tested immediately or after a one-hour delay. Results indicated that children in the embedded group employed mnemonic strategies (rehearsal, elaboration) more frequently and studied longer than children in other groups, but only children tested immediately recalled more. The second experiment, using the same set of materials and procedures with 65 5-year-old children from the same population source, investigated whether omitting mention of the time the children would have to remember would minimize their concern and, in turn, lead to elevated recall. Under this condition, the performance of the embedded delay and the embedded immediate groups was equivalent. These data show that 5-year-old children can use task appropriate strategies if the memory task is embedded in a purposeful, motivating activity, but the effort is dependent on the nature of the task content and other factors, such as doubts about one's competence, which may intervene and affect performance. A Theory-Based Approach to Reading Assessment

in the Army. Technical Report 625.

Army Research Inst. for the Behavioral and Social

Sciences, Alexandria, Va.

Pub Date—Jul 84

Note—28p.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Armed Forces, \*Instructional Material Evaluation, Reading Achievement, \*Reading Comprehension, \*Reading Diagnosis, \*Reading Research, Theories

Identifiers—Army

Noting that the United States Army Research Institute for the Behavioral and Social Sciences (ARI) has been involved in research on reading assessment in the Army from both practical and theoretical perspectives, this paper addresses practical Army problems in reading assessment from a theory base that reflects the most recent and most sound research on reading comprehension. The first two sections of the paper, which concern the importance of reading in work life and the importance of reading assessment in the Army, provide the basis for addressing the overall issue of reading assessment in the Army. The reading theories presented in the third section are helpful in generating evaluative criteria for reviewing potential measures of reading for Army use. In the fourth and fifth sections, three categories of measures are considered: civilian, military, and the special case of the Armed Services Vocational Aptitude Battery (ASVAB)—a military test of general cognitive ability with potential value as a surrogate reading measure. The sixth section deals with scoring issues that should be addressed regardless of which measure is used. The final section offers conclusions based on both theory and practice: (1) reading is important in military and civilian work life; (2) reading assessment is a highly visible and important issue in the Army; (3) reading theories—especially the interactive-inferential theory—can positively influence Army reading measurement practices; (4) reading tests differ widely in terms of psychometric characteristics and overall quality as evaluated using theory-based standards; (5) high correlations exist between ASVAB and various reading tests, although caution should be exercised when using any part of the ASVAB as a reading surrogate; and (6) available alternative grade equivalent scores should be considered for use by the Army. (A chart providing data and quality ratings on commercially developed reading tests and selected military developed reading tests is appended.) (HTH)

Descriptors—\*Authoring Aids (Programming), Computer Assisted Instruction, \*Computer Oriented Programs, \*Computer Software, Elementary Secondary Education, Higher Education, Lesson Plans, \*Material Development, \*Reading Instruction, \*Teacher Developed Materials

A growing number of computer software companies currently offer reading software that provides teachers with author/editing procedures, allowing them to enter their own text (specialized words, sentences, concepts, and so forth) and match the software content to their objectives for reading instruction. Programs of modification contain "frames" in which teachers' content changes and additions may be written for their lessons. Frames, the text and graphic images that appear on the computer screen at any given time, come in at least four types: (1) instruction frames designed to present goals and directions to the students, (2) information frames that present a sequence of explanations and examples about specific reading skills, (3) response frames that ask students to show what they have learned from the information frames, and (4) hint frames that provide specific explanations to students for each incorrect response that they make. While each modifiable reading software package is unique in some feature or procedure, all allow for at least some versatility and ease in creating new lessons, changing existing programs, adding or removing items from new or existing programs, and making corrections. Pub Type—Opinion Papers (120)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Cognitive Development, \*Cognitive Processes, \*Critical Thinking, Educational Philosophy, \*Learning Processes, \*Learning Theories, Models, \*Reading Programs, \*Reading Skills, Teaching Methods

The theoretical foundations of thinking skills models differ. One category of thinking skills programs uses the cognitive process approach on the premise that thinking abilities depend upon certain fundamental processes. Thinking skills programs that present a strategic approach to thinking are called heuristics-oriented programs, and focus on an intellectual route to problem solving. The Piagetian approach groups thinking skills in a developmental scheme. In another perspective of thinking skills, it is believed unlikely that one's language competence can be enhanced without a corresponding improvement in one's ability to think and vice versa. In yet another category, thinking with identified sub-skills should be taught as a subject in itself. Closely related to the teaching of thinking skills is the "thinking about thinking" model called metacognition. Researchers are suggesting that examining how one thinks will increase and strengthen thinking skills. Published programs and approaches to the teaching of thinking skills include (1) Taxonomy of Educational Objectives, (2) the CORT Thinking Program, and (3) Feuerstein Instructional Enrichment. Background, content and materials, and intended audience for each program are described. (HOD)

Pub Date—May 85

Note—19p.; Cover title reads: Instructional Leadership Practices in Reading.

Pub Type—Reports - Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Administrator Role, Elementary Secondary Education, \*Principals, Program Evaluation, \*Reading Instruction, \*Reading Programs, \*Reading Research, \*Reading Teachers, Teacher Role

Identifiers—Role

A study examined the leadership and management of reading programs from the viewpoint of principals and reading teachers. A questionnaire designed to describe and evaluate the reading programs in their schools was completed by 153 principals and teachers from public and private schools. Analysis of the results indicates that the nation's reading programs seem to be moving toward holistic programs, which stress comprehension and problem solving, and away from lock-step mastery learning programs that stress subskills and memorization. Some problems identified are a lack of time for teachers to provide individual help and for students to practice their skills, classes that are too large, and lack of flexibility in school programs. Teachers have a positive view of the principal as the administrator of the program, but as a director of learning resources rather than as an administrator who assertively directs teachers' efforts. Principals rated teachers high in terms of classroom environment, individualized instruction, and understanding and supporting the school's philosophy of reading, but indicated that their greatest shortcoming is in their lack of creativity in reading instruction and their reliance on commercial materials. Descriptors—College Freshmen, Higher Education, \*Prior Learning, \*Reading Comprehension, \*Reading Research, \*Reading Tests, Test Con-

struction, \*Testing Problems, \*Test Validity, Test Wiseness

To determine how much prior knowledge affects students' performance on a reading comprehension test, a study was undertaken to examine the prior knowledge factor in a reading competency test developed for college freshmen in New Jersey. The passages used in this test are based on common, everyday topics. Subjects were students in two sections of a basic skills class, both taught by the same instructor and using the same materials as the core program. In addition, subjects serving as the experimental group read supplementary articles related to topics on the test, while subjects in the control group read articles on nonrelated topics. Data were taken from scores achieved on the state-mandated competency test before the students were admitted to college and again during the last week of the basic skills course. To determine if the students were aware of their knowledge about the topics on the test, they were also administered a prior knowledge inventory. Data analysis showed that (1) exposure to the topics did not significantly increase the experimental group's test scores, (2) instruction in basic comprehension skills did significantly increase the scores of both groups, and (3) awareness of topic knowledge did not make a significant difference in scores. (Copies of the prior knowledge inventory, the course syllabus, and titles of the supplementary reading materials are appended.) (FL)

Identifiers—\*New England

Focusing on readable books for young people about New England and on available materials around which to develop local history and social study units, this annotated bibliography addresses both the recreational reading interests and the research needs of young people. Titles are categorized according to: (1) literature type (fiction; folktales; poetry, drama, and music; biography and personal accounts; and other informational books); and (2) the New England state providing the setting for each title. Each entry includes bibliographic data, suggested grade range, and a brief quotation from the book to identify style, theme, strong characterization, or mood, followed by an annotation that indicates the book's content, scope, and regional value. A directory of regional publishers and local book sources, and author-title and subject indexes are included. (EL)

Intended for teachers across grade levels and disciplines, this monograph reviews research on the development of critical thinking skills and introduces a series of these skills that can be incorporated into classroom teaching. Beginning with a definition of critical thinking, the monograph contains two main sections. The first section reviews both research findings and several programs for improving students' thinking skills, and then discusses helping students to remember what they read, improve their problem-solving skills, and adjust to their differing learning styles in acquiring knowledge. The second section presents a number of exercises for stimulating students' critical thinking, that involve generating questions, imaginative writing, feedback that improves student performance, working in pairs, exploring students' problem solving methods, preparing and sequencing classroom discussions, and generating examples of the terms and concepts encountered in the learning process. The monograph concludes with a list of thinking skills programs. (EL)

Identifiers—\*Diagnostic Skills

In light of criticisms that teacher preparation programs do not adequately prepare prospective reading teachers and specialists for actual classroom problems, a study was conducted to determine the accuracy of teacher diagnoses and planning for reading difficulties and to examine differences in coursework preparation and classroom experience. Subjects, 94 education students, were grouped according to their coursework backgrounds as follows: (1) those having taken developmental and diagnostic reading instruction courses, (2) those having taken only diagnostic reading instruction courses, and (3) those having taken only developmental reading instruction courses. Information about the teaching backgrounds of each was also collected. Subjects were asked to develop diagnoses and prescriptive plans for four cases, each characterized by

a different reading problem. The responses were evaluated according to the judgments of three experts in the field. Results showed that coursework background and years of teaching experience did not lead to differential performance in diagnosing and planning instruction. In addition, the subjects performed poorly in comparison with expert judgment on all variables examined. (FL)

Descriptors—\*Decoding (Reading), Lexicology, Measurement Techniques, Models, Phonemes, \*Reading Comprehension, Reading Processes, \*Reading Research, Semantics, \*Visual Perception, \*Word Recognition, \*Word Study Skills

Intended to (1) provide new data and reconceptualizations relevant to evolving debates, (2) present summaries of current theoretical positions, and (3) in some cases, to juxtapose radically different opinions in a rapidly growing field, this volume offers a number of views on topics concerning visual word recognition. In chapter 1, Thomas H. Carr and Alexander Pollatsek give a broad yet detailed review of current theory and data in visual word recognition, discussing major classes of models and identifying the unique properties of individual models. In chapter 2, Marcus Taft provides a critical review of the evidence for and against involvement of morphemes and syllables in lexical access of visually presented words. In chapter 3, Curtis A. Becker reviews the issue of how context affects visual word recognition, while Ian Dennis, Derek Besner, and Eileen Davelaar report on a series of four experiments on the pseudohomophone effect in lexical decision in chapter 4. In chapter 5, Mark S. Seidenberg addresses the questions of how sentential context affects word recognition, and when and how phonological recoding affects visual word recognition. Glyn W. Humphreys, in chapter 6, reviews evidence indicating that there are dissociations between the various criteria that are currently thought to characterize automatic processing in word recognition and suggests that even some of the single criteria are inchoate. In the last chapter, Jim Cheesman and Philip M. Merikle address the question of whether word recognition is possible in the absence of conscious perceptual processing. (HOD)

Descriptors—Classroom Environment, Classroom Research, Cognitive Processes, Computer Assisted Instruction, English (Second Language), Language Acquisition, \*Language Processing, \*Reading Instruction, \*Reading Research, Reading Writing Relationship, Research Methodology, Teaching Methods

Identifiers—Teacher Researchers

Focusing on the reading-thinking-learning process, the classrooms in which such processes occur, and the means for studying these processes, this book presents essays on teaching, learning, and assessing the reading process. The first section contains essays on learning contexts that are interactive and participatory, while essays in the second part deal with reading instruction itself. The third part deals with personal and cultural variations in language and reading development. The essays in the fourth part discuss sociolinguistic and ethnographic approaches to assessing reading instruction, and teachers as reading researchers. The essays and their authors are as follows: (1) "Communicating in Classrooms: Research on Reading Groups" (Louise Cherry Wilkinson); (2) "Classroom Contexts for Learning" (Rita S. Brause); (3) "Decision Making in School and Classroom Contexts" (Anthony N. Baratta); (4) "Toward a Composing Model of Reading" (Robert J. Tierney and P. David Pearson); (5) "Writing, Reading, and Learning" (Bryant Filion); (6) "The Curriculum as Language" (Carolyn N. Hedley); (7) "Achieving Cognitive Synthesis of Separate Language Skills: Implications for Improving Literacy" (Roy O. Freedle); (8) "Reading and Writing with Computers" (Brian D. Monahan); (9) "Reading and the Special Learner: Variations in Language and Reading Development" (Rosa A. Hagin); (10) "The ESL Reading Class: Reality or Unreality" (Carlos A. Yorio); (11) "Looking at Reading Instruction: Sociolinguistic and Ethnographic Approaches" (David Bloome and Judith Green); and (12) "Teachers as Reading Researchers" (Donald R. Gallo). (HTH)

Document Not Available from EDRS.

Descriptors—Beginning Reading, Models, Nursery Schools, Parent Child Relationship, Preschool Education, Reader Response, Reading Aloud to Others, Reading Instruction, \*Reading Readiness, \*Reading Research, Socialization, \*Story Reading

Identifiers—\*Print Awareness

A study of the ways adults socialize children into particular patterns of literacy by helping them develop the literary and social knowledge necessary for using and understanding print is described in this monograph. Specifically, the monograph focuses on adults and children observed over a period of 18 months at a preschool, and provides insights into how adults acted on their assumptions about how children learn to make sense of written text. The chapters discuss (1) the constructs framing the study; (2) dimensions of storyreading—what we know and need to know; (3) a case study approach to examining storyreading; (4) the context in which storyreading is embedded, including the attitudes, values, and beliefs of the nursery-school community; (5) the nursery school structure, including the physical plant, material culture and organization of space, and organization of time; (6) reading and writing "off the rug" which includes the uses, contexts for, instruction, and practice of reading and writing occurring in many differing situations during the school day; (7) "rug-time" (usually book reading events) as a framework for storyreading; (8)

storyreading as an interactive negotiation; (9) experiences in life related to text during group story reading; (10) relating text information to life experiences; and (11) conclusions and implications for teachers, parents, and researchers. Most chapters contain summaries. The monograph concludes with a list of children's books cited in the text, references, and author and subject indexes. (EL)

Amoriel, William J.  
Use of Standardized Reading Tests as Measures of Reading Achievement.

Pub Date—[81]

Note—9p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Comparative Analysis, Evaluation Methods, Grade 3, \*Informal Reading Inventories, Primary Education, \*Reading Achievement, Reading Diagnosis, \*Reading Research, \*Reading Tests, \*Standardized Tests, \*Test Reliability

A study was conducted to provide insight into the consistency of reading achievement scores from four standardized tests. Several sets of data were compared to assess the accuracy of grade equivalents or instructional reading levels obtained on standardized tests. Each test was randomly assigned for administration to 23 third graders in a group setting during one of four consecutive mornings. The four tests were: (1) the Iowa Tests of Basic Skills (Form 4); (2) Stanford Achievement Test (Primary Level III-Form A); (3) Gates-MacGinitie Reading Test (Level C-Form 2); and (4) Metropolitan Achievement Test (Elementary-Form F)-Metro. The resulting grade levels revealed significant discrepancies across the different tests. Seventy percent of the children received grade scores ranging over more than one year. A comparison of the instructional reading levels obtained from the Metro with those obtained from a subsequently administered informal reading inventory indicated that more than 50% of instructional reading levels from the Metro varied as much as two to five reading levels from those of the informal reading inventories. The results did not support the use of standardized test scores as adequate measures of reading achievement or as a substitute for individually administered informal reading inventories. (HTH)

Individuals in 14 job categories at the Analytical Instrument Division of the Hewlett-Packard Corporation were observed and interviewed for six months to determine their reading practices at work and in leisure settings. The individuals ranged from a research chemist and a printed circuit designer, to a quality assurance inspector and a mechanical parts inspector. Findings indicated that reading in job tasks had some of the following qualities: (1) most reading is not from books, (2) rarely is the goal of reading to learn the gist of the material, (3) the anticipated benefits are seldom simplified to the level of information or entertainment, (4) reading activities rarely occur for long time periods, (5) self-awareness of reading is remarkably low, (6) improvement in reading is assumed to be necessary, and (7) reading is not one option for acquiring information. (The report includes case studies of each individual). (HOD)

Descriptors—Adults, \*Cognitive Processes, Ethnography, Individual Needs, \*Information Sources, Job Skills, Literacy, \*Reading Ability, \*Reading Comprehension, Reading Instruction, Reading Interests, Reading Materials, \*Reading Processes, \*Reading Research, Reading Strategies

Identifiers—Job Literacy, \*Reading Uses

Psychometric and ethnographic frameworks were used to explore the relationships among adults' uses for reading and their demonstrated competencies with related domains of tasks. Information regarding frequently occurring reading tasks was gathered from 42 adults in both work and leisure settings by means of questionnaires, interviews, and observations. Based on these data, two types of reading-text search and prose comprehension were proposed. A two-stage information processing model for text search was developed and contrasted with a general model of reading. The subjects then undertook 38 reading tasks corresponding to prose comprehension and text search and completed measures of reading performance and reading volume. Results showed that text search and prose comprehension were uncorrelated, and that the amount of time adults spent engaged in each type of reading significantly predicted their performance in those domains. The findings support the view that people can and do acquire competencies to meet their occupational and personal reading needs. As such, the findings are consistent with other ethnographic research, which emphasizes the importance of studying reading and literacy as a system of culturally organized skills and values that are acquired in particular contexts to satisfy specific needs. (FL)

Pub Date—Oct 82

Contract—MDA-90381C-0446

Note—27p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Reading Habits, \*Reading Interests, Reading Material Selection, \*Reading Research, \*Recreational Reading

A study examined the roles of reading in a community by describing the reading activities of individuals and demographic subgroups of individuals. After the preliminary, trial phase to determine the feasibility of the survey, 109 adult wage earners from 4 occupation groups, in a community of 6,000 households, responded to an inventory designed to elicit and record reading activities. Analysis of data showed that the median amount of time individuals spent reading brief documents, newspapers, books, and magazines per day at home and at work was 137.5 minutes (about 2.6 hours). Women read more than men (about 186 minutes per day compared to about 114 minutes per day), and individuals with an education beyond high school read more than those with a high school diploma or less. Findings also showed that reading plays different roles for individuals in different occupation groups, that the time devoted to content areas varies by occupation, and that media categories of newspapers, books, and magazines were read in distinctive patterns by different occupation groups. In the surveyed community, the greatest volume of reading was directed toward reading brief documents, followed by materials on news and business, social issues, reference, fiction, and sports. References and tables of findings are included. (EL)

Descriptors—Comparative Analysis, \*Occupational Surveys, \*Reading Habits, \*Reading Interests, Reading Materials, \*Reading Research, Reading Skills, \*Recreational Reading, Technological Advancement, Time on Task

Identifiers—\*Job Literacy, \*Job Related Reading

A reading activity inventory was administered to approximately 13% of the employees at one division of a high technology company in order to (1) assess the amount of time spent reading different content or topic areas, (2) assess the amount of time spent reading different types of materials, and (3) determine the prevailing uses for reading in terms of amount of time. The inventory was administered in two one-hour guided interviews. Three-way analyses of variance were run to address nine questions concerning the reading practices of these persons in different occupations and settings. It was found that the reading volume for specific contents, materials, and uses were each significantly influenced by the occupational categories and settings in which reading occurred. (Extensive tables and appendixes contain the reading inventory, reading profiles, statistics on the uses of reading, and types of materials read for work and leisure.) (HOD)

Descriptors—Adults, \*Cognitive Processes, Electronic Technicians, Engineers, Ethnography, Job Skills, \*Reading Ability, Reading Comprehension, \*Reading Interests, \*Reading Research, \*Reading Strategies, \*Reading Tests, Test Construction

Identifiers—Job Literacy, \*Reading Uses

A study was conducted to construct measures of reading competencies that are frequently needed in an occupational environment and to describe the influence of the components of reading practice on these competencies based on the conceptual framework of ethnographic psychology. The reading practices of 25 electrical engineers and 30 electronic technicians were quantified in terms of the number of minutes per month spent reading journal articles, manuals, and schematics. Simulations of reading these materials for general knowledge, specific information and for evaluation purposes were constructed. Results showed that performances on these simulations were moderately correlated for the technicians and uncorrelated for the engineers. Reading practices were independent of each other for both groups. Three out of four specific competencies were predicted from the specific practices that were expected to facilitate them, and these competencies were not associated with other practices that differed in the materials and uses of reading. Six appendixes, which make up nearly half of the document, contain copies of measures used in the study along with related reading materials, most of which are illustrated with diagrams and photographs. Eleven data tables and an extensive reference list are also included. (Author/FL)

Baumann, James F.

Anaphora in Basal Reader Selections: How Frequently Do They Occur?

Pub Date—Dec 85

Note—18p; Paper presented at the Annual Meeting of the National Reading Conference (35th, San Diego, CA, December 3-7, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Basal Reading, Classification, Comparative Analysis, Content Analysis, Elementary Education, Form Classes (Languages), Pronouns, \*Reading Comprehension, \*Reading Research, \*Textbook Content, \*Textbook Research

Identifiers—\*Anaphora

To determine how frequently various forms of anaphora appear in materials written for children,

1,000-word excerpts were analyzed from the second, fourth, and sixth grade texts of four basal reader series. The basal programs consisted of the "Cinn Reading Program," the "Houghton Mifflin Reading Program," "Scott, Foresman Reading," and "Harcourt Brace Jovanovich Bookmark Reading Program, Eagle Edition." A taxonomy of anaphoric relationships, consisting of three main categories (noun substitutes, verb substitutes, and causal substitutes), each of which is broken down in various subcategories of anaphora, was used for identifying and classifying anaphora. The findings revealed that (1) the frequency of anaphora did not differ as a function of grade level of text; (2) the frequency of anaphora in narrative selections was significantly greater than in expository selections; (3) the frequency of anaphora differed as a function of publisher, and this could be traced primarily to significantly lower frequencies for the demonstrative, other pronouns, locative, and temporal categories for the Harcourt Brace Jovanovich series; and (4) grade level of basal reader, text genre, and publisher did not interact in any way. (HOD)

Identifiers—\*Naval Training, Navy

Academic Remedial Training (ART) is a program providing remedial instruction in reading and verbal and study skills to Naval recruits who have scored below the sixth grade reading level on a standardized reading test (Gates-MacGinitie, 1978) or who have encountered academic difficulty completing recruit training. To determine whether data reflecting educational characteristics of Naval recruits over a 12-month period could be used to better manage the allocation and utilization of ART resources, the relationships among several characteristics were examined. Of the information routinely summarized monthly, the following variables were used: years of education, high school graduation status, month of entry, aptitude test scores (Armed Services Vocational Aptitude Battery, 1967-80), and reading comprehension grade level scores (RGL). Six null hypotheses reflecting various comparisons of these characteristics were tested statistically. The results indicate that recruits who enter the Navy are likely to vary in different months of the year according to the following variables: the percentage of those who score above and below the sixth grade reading level (6.0 RGL), the percentage of high school graduates, the percentage of high school graduates who score above and below 6.0 RGL, and the percentage of high school graduates who score below 6.0 RGL. The information gathered through consistent monitoring and analysis of monthly reports concerning the composition of the recruit population is valuable and can aid in the more efficient management of ART resources. Descriptors—Elementary Education, Grade 3, Grade 4, Morphology (Languages), \*Predictive Validity, \*Reading Research, \*Vocabulary Development, \*Vocabulary Skills, \*Word Frequency, \*Word Recognition  
Identifiers—\*Root Words

To determine if measures of the frequency of English root words can serve as reliable predictors of knowledge of those words, a 98-item multiple choice vocabulary test, in which all of the items

were English root words, was administered to 46 third graders and 45 fourth graders. The percentage of correct responses for the words was correlated with four measures of word frequency, using two methods of grouping—arithmetic and logarithmic. Three hypotheses were tested: (1) for morphologically basic (unaffixed) root words, there should be a strong relationship between word frequency and word knowledge; (2) the advantage of logarithmic grouping over arithmetic grouping should be less apparent, or non-existent, for morphologically basic words; and (3) for grouped basic words, simple item frequency would prove as strong a predictor of word knowledge as family frequency. All three of the hypotheses were confirmed. All frequency by knowledge correlations were quite high, arithmetic grouping gave the highest correlations, and simple item frequency proved to be the strongest predictor of root word knowledge. (Author/HOD)

Descriptors—\*Auditory Discrimination, Aural Learning, \*Beginning Reading, Kindergarten, Kindergarten Children, Language Acquisition, \*Phoneme Grapheme Correspondence, \*Phonemes, Reading Achievement, Reading Instruction, \*Reading Research, Teaching Methods, Visual Learning  
Identifiers—Auditory Discrimination in Depth Program

The Auditory Discrimination in Depth (ADD) program, an oral-motor approach to beginning reading instruction, causes students to become aware of the oral-facial characteristics of phonemes by calling conscious attention to the motor characteristics of each sound. This aspect of phoneme production is connected to visual and auditory cues to provide heightened sensory awareness of number, order, and identity of sounds in a spoken syllable. A study was conducted to examine if exposure to the ADD program in kindergarten would make a difference in students' first grade entry scores as measured by a standardized reading achievement test. Sixty-two kindergarten children in one school tracked consonant and vowel phonemes in syllables by using labels that identified the presence of each phoneme at a pre-grapheme level. Once children were aware of the sequence of phonemes on an auditory, oral-motor level, graphemes were introduced and the tracking of sounds was extended to spelling and reading. Results indicated that children who received ADD training entered first grade with better reading skills, as measured by the Woodcock Reading Mastery Tests, than did students who did not receive the training. (FL)

Descriptors—\*Content Area Reading, Grade 7, Grade 11, Graphs, Illustrations, Reading Processes, \*Reading Research, Secondary Education, \*Study Skills, \*Test Construction, Test Reliability, Test Validity, \*Visual Aids, \*Visual Discrimination  
Identifiers—\*Graphic Organizers

A study was conducted to develop a questionnaire for gauging student perceptions of the graphic climate (the extent to which students habitually use and construct appropriate graphics during the reading and studying process) in middle and high school history classes. The questionnaire was a 4-point Likert scale consisting of 18 questions, five of which had more than one part, giving a total of 31 items. The questionnaire required students to discriminate among the various kinds of graphics (maps, illustrations, charts and flow charts, graphs, and cartoons) and to know that the word "graphics" referred to all

of these. The questionnaire was administered to 176 seventh graders and 205 eleventh graders. The questionnaire proved to be reliable and easily administered and analyzed. However, it lacked content validity. In other words the students did not perceive the content of the questionnaire as a whole. Nevertheless, the data did suggest that the categories of questions were content valid. They included (1) the use and construction of graphics, (2) the comprehension of graphics, (3) the value of using and constructing graphics, (4) the value of textbook graphics, and (5) the value of learning more about graphics. Two tables and five figures are appended.

The Strategic Abilities of Above Average and Average High School Students: A Function of Text Conditions.  
Pub Date—4 Dec 85

Note—28p; Paper presented at the Annual Meeting of the National Reading Conference (35th, San Diego, CA, December 3-7, 1985).  
Pub Type—Reports—Research (143)—Speeches—Meeting Papers (150)

**EDRS Price—MF01/PC02 Plus Postage.**  
Descriptors—Academic Achievement, Comparative Analysis, Grade 10, High Schools, \*Metacognition, \*Reading Comprehension, Reading Processes, \*Reading Research, \*Reading Strategies, \*Schemata (Cognition)  
Identifiers—\*Text Structure

A study investigated the ability of above average and average high school students to use text structure to identify main ideas and write a summary. Schema possession of 388 sophomores was assessed by measuring their ability to organize the components of a scrambled passage. Only 10 students in the above average and 20 in the average ability groupings were used in the analysis; no low ability students qualified. Students were then asked to read an adversative passage and rate the individual propositions according to importance, and to read an additional passage on an alternative topic and write a summary of main ideas. The results supported the hypothesis that while average students use the same strategies as high ability students, due to the lack of automaticity in processing certain text components (e.g., unfamiliar topic, difficult vocabulary, unsigned text), a bottleneck occurs and average students cannot apply these strategies. Given easy text or text written on a familiar topic, average ability students used text structure to write summaries comparable to those of high ability students. However, neither topic familiarity nor ease of text aided average students in the main idea rating task. The results suggest that high ability students are more metacognitively aware than average students. (HTH)

The Effects of High and Low Relevant Text Underlining on Test Performance.  
Pub Date—Dec 85

Note—20p; Paper presented at the Annual Meeting of the National Reading Conference (35th, San Diego, CA, December 3-7, 1985).  
Pub Type—Reports—Research (143)—Speeches—Meeting Papers (150)

**EDRS Price—MF01/PC01 Plus Postage.**  
Descriptors—Higher Education, \*Prior Learning, \*Reading Research, \*Reading Strategies, Recall (Psychology), \*Study Skills, \*Test Wisdom, Textbooks  
Identifiers—\*Outlining

A study was conducted to investigate the effects of high and low relevant text underlining and annotating (making margin notes or other marks to indicate important material) on test performance. The subjects, 67 college freshmen, were randomly assigned to one of four experimenter-generated conditions: (1) high relevant underlining; (2) high relevant underlining and annotating; (3) low relevant underlining; or (4) low relevant underlining and annotating, or to a control condition in which students generated their own text markings. During two sessions, all subjects took a test of prior knowledge, read an assigned passage, and took a 24-item multiple choice test consisting of 12 high and 12 low relevant questions. Data analysis showed that subjects in the high relevant condition answered more high relevant questions correctly while low relevant subjects answered more low relevant questions correctly. Subjects who generated their own underlining did not perform significantly better than did

those who were given experimenter-generated underlining. The findings show that researcher underlining and annotating have the effect of directing students' attention and are as effective as student markings. However, experimenter markings place different demands on the reader, greatly reducing the number of his or her decisions as to what is or is not important, thus making the reading task easier. (FL)

Identifiers—Illinois (Chicago), Schoolwatch IL

Intended for parents and all citizens concerned about improving Chicago's 592 public schools, this handbook explains how important reading is to a decent education and future employment. Chapter one describes the school improvement campaign called "Schoolwatch," the problems in the Chicago public schools, and the components of effective schools. Chapter two analyzes what it means to know how to read; it explains how reading is tested and evaluated in the Chicago public schools and what the scores mean. It also shows how to look at reading scores for the school system as a whole, for one's own school, and for a child. Chapter three describes in depth the ten ingredients that researchers have identified as crucial for an effective school. For each one, a "report card" gives parents specific things to look for to help them decide whether their school measures up and where there is room for improvement. Chapter four describes how decisions made ("downtown") affect the way that children learn (or do not learn) to read in Chicago, and tells what changes are needed so that the school system's huge bureaucracy serves the local school. Finally, chapter five tells exactly how parents, business people, community groups, and journalists can work together in Chicago's "Schoolwatch" program to improve the schools. (HOD)

Descriptors—Comparative Analysis, Content Area Reading, \*Plumbing, Readability, \*Reading Difficulties, \*Reading Habits, \*Reading Instruction, \*Reading Research, Reading Strategies, Time on Task, Vocational Education

Identifiers—\*Job Literacy, \*Job Related Reading  
The vocational reading demands of the plumbing trade were investigated to compare the curricular reading demands encountered by apprentices in the educational setting and the occupational reading demands encountered by journeymen in the actual job situation. A secondary purpose of the study was to examine the role and treatment of reading, as both an educational tool and a vocational skill, in the education/apprenticeship situation. Subjects included members of a fourth-year apprenticeship class who were in the final stages of training before becoming journeymen plumbers and five journeyman plumbers selected at random. Data were gathered through interviews with and observations of plumbing students and incumbents, in a four-part process using interrelated instruments and procedures. Three conclusions were drawn from the findings: (1) the curricular and occupational reading demands of the plumbing trade are different in terms of the variety, complexity, frequency, perceived importance, general and specific strategies, and time involved; (2) the vocational reading de-

mands appear to be extensive and diverse; and (3) reading is only minimally treated as a concern in the educational setting and some minor reading-related problems do exist. (Among the numerous appendices are attitude questionnaires, task checklists, observation records, and assessments of reading material difficulty.) An extensive reference list is also included. (HOD)

Descriptors—Concept Formation, \*Deafness, Grade 1, Interaction, Kindergarten Children, \*Modeling (Psychology), Primary Education, \*Reading Research, \*Reading Skills, Sign Language, \*Teacher Student Relationship, \*Teaching Methods, Theory Practice Relationship  
Identifiers—\*Prereading Skills

As part of a larger study on the levels experienced by deaf children in acquiring knowledge about printed letters, words, and stories, an investigation was undertaken to discover the effects of a reciprocal teaching method on deaf children's learning of four prereading skills—finger spelling, book reading, story reciting, and word recognition. Subjects, 23 prelingually deaf kindergarten and first grade students with severe-to-profound and profound hearing losses, met in groups of five or six for 30 minutes each week with the teacher. The teacher read and signed an experimental storybook containing three to five new words in a picture context with a manual sign illustration. After discussing the new signs, the children performed a number of activities involving the four target skills. In addition, the children took the books home to read with siblings, parents, and friends. Gains made in prereading were measured through pretesting and posttesting. Results indicated that the reciprocal teaching procedure could build prereading skills in young deaf children. The training was beneficial for students with a wide range of abilities. (FL)

Idol-Maestas, Lorna Croll, Valerie J.

The Effects of Training in Story Mapping Procedures on the Reading Comprehension of Poor Readers. Technical Report No. 352.

Bolt, Beranek and Newman, Inc., Cambridge, Mass.; Illinois Univ., Urbana. Center for the Study of Reading.

Spons Agency—National Inst. of Education (ED), Washington, DC.

Pub Date—Dec 85  
Contract—400-81-0030

Note—45p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Cognitive Development, Elementary Education, Intermediate Grades, \*Learning Disabilities, \*Listening Comprehension, \*Reading Comprehension, \*Reading Research, Retention (Psychology), \*Schemata (Cognition)

Identifiers—\*Story Mapping  
To determine whether story mapping would improve reading comprehension, five intermediate grade students with mild learning handicaps and poor comprehension were prepared to use story mapping procedures as a schema-building technique. As they were reading, students learned to identify the setting, problem, goal, action, and outcome of narrative stories. The primary dependent measure was a set of responses to ten explicit and implicit comprehension questions. Secondary dependent measures were length of story retell, a comparison of story retell responses to comprehension question responses, standardized reading tests, generalization probes, and listening comprehension. Results showed performance of all five students improved on most of the dependent measures. Four students demonstrated increased ability to answer

comprehension questions, maintained performance after intervention, and increased tendency to mention story mapping components in their story retells. The remaining, and much slower, student improved marginally on most measures, despite the fact that his slow progress did not enable him to complete a maintenance phase. Three students' performance also improved on comprehension of more difficult classroom reading materials. Five pages of references, and tables and graphs are appended. (Author/HOD)

Descriptors—Comparative Analysis, Elementary Education, Grade 3, Grade 4, \*Grouping (Instructional Purposes), Learning Disabilities, Listening Comprehension, \*Prior Learning, \*Reading Comprehension, \*Reading Improvement, \*Reading Research, Schemata (Cognition)

Identifiers—\*Story Mapping  
To demonstrate that a proven story mapping technique for teaching learning disabled, poor comprehenders could be used to improve the comprehension of groups of normal children as well as learning disabled and low-achieving children, heterogeneous groups of third and fourth graders, including five learning disabled and low achieving students, were taught to use a story mapping strategy. A multiple baseline design across two groups was used to demonstrate group control. A model-lead-test teaching paradigm was used to shape comprehension responses to a level of independence, without teacher assistance. The three major findings of the intervention study were that (1) both experimental groups improved on daily story comprehension as a result of learning to use a story mapping technique, (2) all five low achieving and learning disabled children showed similar improvement, and (3) the progress of the normally achieving children was not impeded by including low achievers in the group instruction, thus by-passing use of ability grouping. Academic Remedial Training: A Language Skills Development Program for U.S. Navy Recruits.

Pub Date—Oct 85  
Note—16p.; Paper presented at the Annual Meeting of the College Reading Association (29th, Pittsburgh, PA, October 24-26, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Evaluative (142)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Academic Education, Cognitive Processes, Language Skills, Postsecondary Education, Reading Improvement, Reading Programs, Reading Skills, \*Remedial Instruction, Remedial Programs, Remedial Reading, Verbal Communication

Identifiers—\*Naval Education and Training System, \*Navy

Noting that the program is primarily a reading and verbal skills program for adult learners, this paper describes the Academic Remedial Training (ART) Program of the U.S. Navy. The first section of the paper discusses the historical background of the program. The second section describes the reading skills component and the verbal skills component of the program. The third section contains a profile of the recruit population, and the fourth section evaluates the success of the ART program. In summary, ART has been highly successful in remediating the deficiencies of recruits assigned to it, with success rates of 92 percent in 1981, 97 percent in 1983, and over 95 percent in 1984. (Tables of findings are included.) (DF)

Disguising the Issues in Education.  
Pub Date—Oct 85

#### 40 Document Resumes

Note—7p; Paper presented at the Annual Meeting of the College Reading Association (29th, Pittsburgh, PA, October 24-26, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Bilingual Education, Educational Policy, Educational Trends, Elementary Secondary Education, Government Role, Learning Disabilities, \*Literacy, Phonics, \*Politics of Education, Reading Instruction, Textbooks, Writing Instruction

Identifiers—\*Educational Issues, Thinking Skills

None of the current issues in education have much to do with education; they are politically, socially, or economically based, and opinions tend to be presented as facts. For example illiteracy statistics are inflated. Virtually all children have the opportunity to learn to read and write at school, and the majority of them do. Neither is the adult literacy problem an epidemic. Bilingualism in the schools has also become politicized, and those making pronouncements on bilingual education are not necessarily experts in the field. Students with so-called learning disabilities and dyslexia can be helped more by instruction than by the mislabeling that brings more funds into the schools. Rudolf Flesch has kept the phonics issue alive, but teaching phonics to children who already know how to read is like teaching the basics of driving to people who know how to drive. Because of the increase in working mothers, there is a trend toward earlier formal education with a focus on reading, although the benefits of such instruction are not proven. Schools spend money on word processors for composition instruction to improve thinking skills, when it is clear thinking that leads to clear writing. Finally, textbook publishers rush to respond to the politics of the states with the largest textbook contracts. Nevertheless, what many in education have been saying for years is now being said by persons in power. If educational issues are put into a proper, realistic perspective, they can be solved. (HTH)

Descriptors—Comparative Analysis, Elementary Education, Foreign Countries, Higher Education, Instructional Materials, \*Reading Attitudes, \*Reading Habits, \*Reading Instruction, Sociocultural Patterns, Teacher Behavior, Teacher Education, \*Teaching Methods

Identifiers—\*Aliteracy, Reading Writing Relationship

Aliteracy, the ability to read but the unwillingness to do so, is a growing problem in American society. Aliteracy crosses all socioeconomic levels, thereby allowing autocratic, charismatic leaders to influence thinking and decision-making. Social changes that have contributed to the problem of aliteracy include the influence of television on reading motivation and comprehension, the changing structure of American families, and state minimum competency legislation. A look at reading instruction in other countries, specifically Greece and New Zealand, can shed some light on possible solutions to the problem of aliteracy. These include deemphasis on the basal reading system, fill-in-the-blank workbooks, and teaching for competency tests. Reading must also be made relevant for students, by demonstrating to children that the reason for learning to read is so they can read and learn independently and enjoy the process. Modeling reading behaviors can work in the teacher education classroom as well as in the elementary or secondary classroom. Communicating ideas in writing is the vital connection between learning to read and becoming an avid reader: language arts methods courses must provide preservice teachers with writing confidence so that they can model positive writing behaviors in the classroom and teach writing processes more effectively. Assessing Silent Reading during the Process: An Investigation of the Opin Procedure.

Pub Date—Oct 85

Note—27p; Paper presented at the Annual Meeting of the Northern Rocky Mountain Educational Research Association (3rd, Jackson, WY, October 10-12, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Comparative Analysis, Grade 7, Junior High Schools, Miscue Analysis, \*Reader Text Relationship, \*Reading Comprehension, \*Reading Diagnosis, Reading Processes, \*Reading Research, Secondary Education, \*Test Reliability

Identifiers—\*Opin Procedure (Reading)

A study assessed the reliability and some aspects related to the validity of an open sentence approach to assessing comprehension during silent reading. Subjects, 37 randomly selected seventh-grade students, read an "Opin" passage, prepared by deleting the second half of every other sentence. The blanks filled in by students were evaluated using a scale based on the response's resemblance to the author's intent. Responses were also divided into fragmented, projective, and interactive categories. Oral readings of a second, intact passage were used to determine the kinds of reading miscues made by students. The results confirm that the Opin sentence procedure has sufficient interrater reliability to be used for assessing a reader's ability to interact with text during silent reading. Both the percent score method and the category scoring method proved reliable for reading assessment purposes. The pattern of correlations with the miscue scores also indicates that readers who attempt to interact with the text while reading are more likely to make miscues that are consistent with their search for meaning. (Tables of data and a sample Opin passage are appended.) (HTH)

Descriptors—Comparative Analysis, \*Educational Research, Educational Theories, English, Foreign Countries, French, \*Immersion Programs, Primary Education, Program Content, \*Program Effectiveness, \*Reading Ability, \*Reading Processes, \*Second Language Learning, Second Language Programs, Teaching Methods

Identifiers—\*Canada

The reading skill development of anglophone kindergarten children in French immersion programs in Canada is the subject of the two papers included in this document. The first paper describes a study that examined the English reading ability of both kindergarten and first grade children in immersion programs and compared the results with those of children in regular English classrooms. The paper concludes that children in both groups were equally knowledgeable at the beginning and end of kindergarten, that both groups gained competence in reading related skills over the year, and that children in the immersion program did not fall behind their peers in regular English classes. Copies of measures used in the study are appended to this paper. The second paper, a response by Mia Beer Tokar, raises concerns about (1) the theoretical position and model of reading presented in the study and its environmental validity, (2) the comparability of the teaching approaches evaluated in the study, and (3) the question being addressed in the study—the nature of the skills being transferred from French to English reading. This paper concludes that education in Canada is at a point where it should be concerned with research that views reading as an interactive process, the purpose of which is to transfer meaning, rather than with the ability to manipulate specific, discrete skills. Protocols, Retrospective Reports, and the Stream of Consciousness. CDC Technical Report No. 8, Carnegie-Mellon Univ., Pittsburgh, PA. Communications Design Center.

Report No.—CDC-TR-8

Pub Date—Mar 85

Note—22p.

Pub Type—Opinion Papers (120) — Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Cognitive Processes, \*Educational Theories, \*Protocol Analysis, Research Methodology, Writing Instruction, \*Writing Processes, \*Writing Research

Noting that recent issues of several scholarly journals have contained criticism of protocol analysis and the use of verbal reports in the analysis of the writing process, this paper examines some of the charges made and then explores the implications of the criticisms. Specific charges addressed in the paper include the following: (1) protocols and the transcripts that represent them seriously falsify what is happening in the mind of the writer giving the protocol; (2) protocols are works of fiction; (3) cognitive processes are not visible enough to be examined scientifically; (4) the presence of the person arranging for the protocol and of the tape recorder, as well as the nature of the protocol session, distort the cognitive processes of the writer; and (5) protocol analysis was rejected as unscientific by psychologists many years ago. After making the case that a closer look at one particular criticism shows how it indicates a misunderstanding by the critics of the true nature of protocol analysis, the paper cites works by cognitive psychologists and others who have examined the writing process from this perspective to demonstrate how valuable protocol analysis and similar techniques can be. Finally, the paper deals with the question of whether protocol analysis is scientific and with the inconsistencies present in many criticisms of the technique. (FL)

Identifiers—University of Texas El Paso

Intended for use in curriculum planning, course development, and program evaluation, this report contains data from a study of the writing abilities of entering freshman students at the University of Texas at El Paso. The first chapter of the report provides background information concerning the need for systematic assessment of the writing abilities of entering freshmen, the design of the study, the theoretical framework used in the study, and a description of the University's composition program. The second chapter details the study's methodology, specifically describing the instruments and writing tasks used, scoring procedures, and instructions to teachers. The five sections of the third chapter contain (1) background information on the subjects, including subjects' standardized reading and entrance test scores; (2) a discussion of responses to the survey questionnaire completed by all students enrolled in the Freshman Composition Program in Fall 1983; (3) a summary of students' composing processes on the writing tasks; (4) sample student essays, along with commentary explaining what is characteristic of papers at selected points in the continuum from poorest to best; and (5) reports on the surface features of a subsample of the essays. Sixty-four data tables are interspersed throughout the report. Appendixes contain copies of materials used in the study, including the survey questionnaire. (FL)

Identifiers—\*Ohio (Cleveland)

The literacy problem in the Cleveland area and recommendations for dealing with it are presented in this booklet. Beginning with a definition of literacy and a discussion of the human costs and economic consequences of illiteracy, the booklet advocates reducing adult illiteracy, eliminating basic skills deficits, and improving communications skills among the workforce. Recommendations include: (1) forming a coalition to increase public awareness, develop programs, and set standards; (2) developing a Greater Cleveland compact recording the agreement that businesses will provide job opportunities for high school students; (3) developing a literacy agenda on state competency standards; (4) developing trained paid and volunteer tutors; (5) expanding existing literacy services; (6) attending to the social service needs of youth and adults receiving literacy training; (7) reallocating existing resources and developing new sources of support from the private sector; and (8) making suggestions involving the support of literacy to elected officials, business and social organizations, and schools and individuals. Sources for combatting illiteracy—including programs, organizations, and published materials—are included in the appendixes. (EL)

Identifiers—\*British Museum, \*Shaw (George Bernard)

The British Museum Library and Reading Room played a significant role in George Bernard Shaw's literary life. Having already read every book that had come his way, Shaw first gravitated toward the reading room in 1880, where he began work on his second novel and drafted most of his three remaining novels. His literary, artistic and musical background led him to conclude that, although he lacked academic qualifications, he was better educated than most university scholars. This education however, often led him to unorthodox, even startling, conclusions about the relevance of literature, including his recommendation of "Lady Chatterley's Lover" as requisite reading for young girls. He also claimed to know the aesthetic value of books as works of art, noting that finely printed books were as scarce as well written ones, and leading him to scrupulous involvement in the typesetting of his own works. Shaw decried collectors, and was wont to destroy his first drafts and much of his correspondence. He was, nevertheless, a generous benefactor of libraries, leaving his estate to the British Museum, the National Gallery of Ireland, and the Royal Academy of Dramatic Art. His remaining literary manuscripts and papers, the largest single gift ever given to that institution, were also left to the British Museum. "In acknowledgement of the incalculable value to me of my daily resort to the Reading Room of that Institution at the beginning of my career." (HTH)

Kindergarten Performance for Reading and Matching Four Styles of Handwriting.

Pub Date—[84]

Note—17p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Comparative Analysis, \*Cursive Writing, \*Handwriting, Kindergarten, \*Manuscript Writing (Handlettering), Primary Education, Teaching Methods, Writing Instruction, \*Writing Research, \*Writing Skills

Identifiers—\*D'Nealian Manuscript

A study was conducted to determine the ability of kindergarten children to match manuscript, cursive, italic, and D'Nealian handwritten letters to typeset letters, their ability to read letters in these five styles, and the relationship of reading and matching abilities. Children were asked to match typeset distractors to lower case letters handwritten in four styles using a Matching Letter Styles Test, to read the same small letters reproduced on flash cards in the handwriting and typeset styles, and to write the letters "b" and "d" like the four handwriting models. Results showed that students were able to match manuscript style no better than they were able to match italic style to typeset letters. The students were able to read manuscript, italic, D'Nealian style letters and typeset equally well. The results suggest that manuscript does not resemble the print in books for young children, and that teaching manuscript because it more nearly resembles book print is not a legitimate approach. Evaluating the Difficulty of Cursive, Manuscript, Italic and D'Nealian Handwriting.

Pub Date—[85]

Note—28p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Comparative Analysis, \*Cursive Writing, \*Handwriting, \*Manuscript Writing (Handlettering), Teaching Methods, \*Writing Evaluation, Writing Instruction, \*Writing Research, Writing Skills

Identifiers—\*D'Nealian Manuscript, \*Italic (Handwriting)

A study was conducted to establish a process for evaluating the difficulty of different handwritten letter forms. A criterion for calculating difficulty scores was delineated and four sets of letter forms were evaluated: manuscript, cursive, italic, and D'Nealian. Using the criterion, small letters were given a score of difficulty, the sum of which determined the difficulty of a style of handwriting. Maturation and move scores were calculated to determine the visual memory difficulty; and retrace and touch scores were calculated to determine "the control of movement difficulty. The results indicated that cursive had high maturation and hand movement difficulty scores, indicating that cursive was the most difficult style to write and that it may not be a suitable style for beginning writers. The high visual memory score of manuscript suggests that students with poor visual memory would find it difficult to use. D'Nealian, although not as difficult as cursive, was slightly more difficult than manuscript. The scores for italic writing indicated that it was the least difficult to write, and offers the best alternative to manuscript with a transition to cursive. The change from italic print to an italic cursive writing is the natural joining of the same letter forms as speed

increases. (HTH)

ED 265 540 CS 209 490

Duvall, Betty  
An Evaluation of the Speed and Legibility of Italic Handwriting.

Pub Date—[84]

Note—25p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Curriculum Evaluation, \*Cursive Writing, Elementary Secondary Education, Evaluation Methods, \*Handwriting, Manuscript Writing (Handlettering), \*Teaching Methods, \*Writing Evaluation, Writing Skills  
Identifiers—\*D'Nealian (Handwriting), \*Italic (Handwriting)

Noting that introducing students to cursive writing just when they have begun to master manuscript does not provide the continuity consistent with the rest of their education, a Montana school district implemented instruction in italic handwriting. The program was evaluated three years after implementation. Writing samples from all students in grades 1 through 6, 7, 9 and 11 were collected, including a timed sentence with all 26 letters of the alphabet. Fifty samples from each grade level were evaluated. Mean scores for the number of letters per minute were calculated for speed, and literature was reviewed to establish criteria for judging legibility and speed, which came to include size and slant of writing, and form, alignment, and spacing of letters. The results indicated that students receiving three years of italic handwriting instruction scored higher than students receiving handwriting instruction in other styles. Students in grade 7, who had received three years of manuscript, two years of cursive and two years of italic instruction, had the lowest scores in legibility, suggesting that students are unable to maintain legibility during transition from one style to another. Assigned Writing Tasks in School: A Search for Meaning.

Pub Date—29 Mar 85

Note—20p.; Paper presented at the Annual Meeting of the National Council of Teachers of English Spring Conference (4th, Houston, TX, March 28-30, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Elementary Education, Language Processing, \*Student Reaction, \*Writing Exercises, Writing Improvement, \*Writing Instruction, Writing Processes, \*Writing Research, Writing Skills

Identifiers—\*Writing Topics

Extending an earlier Donald Graves study by including students over seven years of age, this study identified relationships among the nature of writing tasks assigned by teachers and the written responses of elementary school students to those tasks. One class each at the third, fifth, and seventh grade levels provided eighteen sets of writing tasks and responses representing over 400 pieces of writing. Students' writings were analyzed for topic, territory, person, and mode of discourse. Results indicated that relationships do exist among the nature of writing tasks assigned by teachers and the written responses of students. For example, topics were always assigned as part of the writing task and students' writings reflected the assigned topics. Although territory, person, and mode were seldom specified in the assigned writing tasks, when teachers did clearly state specifications for territory, person, or mode, students' writing reflected them. In addition to raising questions about aspects of the writing process, this study provides information that teachers can use to provide a wide range of writing activities for students. (DF)

Descriptors—College English, English Instruction, Higher Education, \*Revision (Written Composition), \*Writing Improvement, \*Writing Instruction, Writing Processes, Writing Skills  
Identifiers—\*Basic Writing

A major goal in teaching basic writers is to show them the importance of revision in the writing process, specifically revision for correctness (correcting), for creating content (adding), and for cutting out inessential material (subtracting). Revising for correctness includes varying or limiting the assigned revision tasks, varying the length of writing and revision assignments, assigning several distinct tasks of reading and revision of a single piece, varying the timing of rereading or the amounts reread, assigning collaborative rereading and rewriting, suggesting rereading aloud, intervening directly in the rereading and rewriting process, and using the holistic process of rereading for errors. Revising for creating meaning and content begins with helping students find good topics to work on, then uses oral or written brainstorming sessions to show how topics can be narrowed or broadened. Some aspects of revision by adding meaning include supplying examples or details left out, adding specific information to support generalizations, straightening out problems of logic, or otherwise clarifying a text. Along with adding meaning, revisers must cut out nonessential material, which includes removing "deadwood"—words or details that are vague, roundabout, repetitive, obvious, unnecessary, or contradictory. Reading Literature: Integrating Close Reading, Responding, and Writing-A Model for Teaching.

Pub Date—[81]

Note—19p.

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Elementary Secondary Education, \*Literary Criticism, \*Literature Appreciation, \*Metaphors, Reader Response, Reading Material Selection, Student Evaluation, \*Teaching Methods

Noting National Assessment of Educational Progress findings that indicate students have difficulty analyzing literature, this paper presents a model for teaching students the process of reading and responding to literature in an orderly manner. Following an introduction to the problem of literature analysis in the schools, the model is discussed in terms of (1) developing a rationale for using a particular work in the classroom, (2) general instructional objectives for the literature course, and (3) characteristics of teaching strategies suitable for the literature classroom. Guidelines for discussing a story in class are described, including categories of questions to which students can respond. The next elements discussed are ways to help students understand metaphor, and two passages by Ray Bradbury are given—one verbatim, the other devoid of the author's figurative language. Questions for exploring metaphors are included. Finally, the model's activities for evaluating student performance, for both teacher and students, are presented. (HTH)

Samuel Clemens (Mark Twain), who had set type by hand in his youth, had believed that a mechanical compositor was beyond the realm of possibility. In 1880, however, he invested \$2,000 in an early typesetter invented by James W. Paige. Both Clemens and Paige dreamed of immense wealth that would be generated by selling thousands of Paige Compositors. Clemens' fame as an author and humorist lent a certain aura to the proceedings. Both men were sustained by an unshakable belief in the ultimate success of the Compositor. Newspapers, toward the end of the 19th century, were keenly interested in a revolutionary device that would lower composi-

tion costs, increase profits, and expand the amount of reading matter. The Paige Compositor, with Clemens as its principal promoter, impressed both printers and publishers. Paige, though, tinkered with its design so frequently that no practical test of the Compositor could be undertaken until 1894. The machine, with its 18,000 parts, was judged to be too complicated and too expensive for practical use. Only two prototypes were built, and Clemens lost his \$190,000 investment. The Paige Compositor approached the marketplace too late for serious consideration by newspapers and printing companies. Capitalists declined to finance it. By the mid-1890s, the state of the art had passed over the Paige and its brilliant capacity to set, justify and distribute foundry type. The Linotype, which composed type lines in a hot-metal process, became the popular machine at newspapers and printing offices. (Author/HTH)

Identifiers—Process Research, \*Teacher Researchers, \*Writing Attitudes

Because of her interest in determining how to persuade other teachers to incorporate process-centered writing in their classrooms, the author applied for and received a teacher-as-researcher grant. Her research was conducted in New York City and nearby suburban schools. Although city schools tended to be shabbier and some teachers were not enthusiastic about changing their approaches to teaching writing, the response was primarily positive. She was especially impressed by the teacher trainer's sensitive, positive responses, and to and toward the classroom teachers they observed and helped. However, in spite of the fact that suburban schools were staffed and attended by wealthier people, the prevailing attitude of the teachers toward understanding the writing process was not as receptive as that of their colleagues in the city. As district writing coordinator, the researcher decided to continue teaching junior high school writing class for credibility. Among the conclusions were that the approach to other teachers would have to be as delicate as the approach to students, that "ownership" of the classroom must remain with the teachers, and that regularity of support and follow-through is crucial. In addition, teacher training is a process, not a product. Perhaps most important, it is necessary to learn more about teacher training from teachers themselves. (DF)

Identifiers—\*Language Reform, \*Spelling Reform  
Tracing both current concern for correctness in speech and writing and continued suspicion of formal language regulation, this book explores the his-

tory of American language reform and failure. The first three chapters examine early attitudes toward the English language in the New World, and the development of the concept of Federal English in post-Revolutionary America. The fourth and fifth chapters consider the movements for spelling reform and for the creation of a language academy on the model of the French Academy. Chapters six and seven then examine the role of the common schools in directing the course of English through grammar instruction and consider the numerous nineteenth-century guides to correct usage, which picked up where the schools left off (or which tried to succeed where the schools had failed) in their mission to create a linguistically orthodox, uniform, and sophisticated American public. The final chapters conclude with a brief look at the state of current language reform, which differs very little in form or substance from its precursors. Altogether, the chapters demonstrate that language reform in America, for all its good intentions, has proved an exercise in futility. (HOD)

Identifiers—\*Harper (Ida Husted), \*Leslie Bureau of Suffrage Education NY, Womens Suffrage

In 1917, the Leslie Bureau of Suffrage Education was created in New York. The Bureau was to be the news purveyor, publicity expert, and propaganda carrier, disseminating suffrage material through every available avenue of publicity. One of its departments, the Department of Editorial Correspondence, was chaired by Ida Husted Har-

per. Of her 66 years, Harper had spent 40 working in support of women's rights and suffrage. Harper took her responsibility seriously, for in the two years she served the Leslie Bureau, she issued nearly 8,000 letters. Ida Husted Harper was typical of the second generation suffragist: her early writings indicate that she saw the vote as a means toward social reform, especially temperance. Her later work for the Leslie Bureau reveals that she regarded the vote as an end in itself. She also believed white women were superior to nonwhites and that the only appropriate tactic to win reform was to work with the power structure, not to offend it. Her primary tactic was to fit her material to her audience. While the Congressional Union and Woman's Party deserved a great deal of credit for the success of the Nineteenth Amendment, it is likely that neither group could claim all the credit, for it took a combination of tactics to win. In any event, the road to victory seemed so certain that Harper closed the editorial department in December 1918. (HOD)

Identifiers—Teacher Researchers

Articles and essays in this journal issue focus on explaining ethnographic (observation taking into account socioeconomic and cultural factors) research procedures and showing how this methodology can be applied to English classes and reported in ways useful to teachers. The first article, by Paul Diesing, provides background on ethnography. The

second article, by Miles Myers, shows how the ethnographic mode of inquiry can be used in English classrooms to describe daily teaching routines, while Sondra Perl's article next after this cites connections between the ethnographic process and the composing process. In the fourth and fifth articles, Rita Pollard shows how ethnographic research gives insight into composing habits of grade school writers, and Cheryl Amand explores the ties between the classroom context and the whole school-community environments. The sixth article, by H. William Burns, discusses how teachers and students can be ethnographers. The last two articles, by Marie Wilson Nelson and Robbie W. Strickland, explore how ethnography can teach researchers about roles in teacher-student interaction. A book review by Rita Pollard completes the issue. (HTH)

Reflecting changes in the focus and methodology of writing research over the past 20 years, this book provides a meta-analysis of studies on teaching approaches and focuses on composition instruction at the elementary, secondary, and college levels. The first chapter of the book examines general studies of the composing process, studies of process in classrooms, and studies of planning, production factors, revision, and writing apprehension. Summaries of the limitations and key findings of the research on process are included. The second chapter explores research on the repertoire of lexical, syntactic, or rhetorical forms which writers call upon in their writing. The third chapter examines criticisms of experimental studies and the difficulties in doing them, then explains the techniques used in the meta-analysis of such studies, the selection of studies, and the variables examined. The next four chapters analyze the studies in the areas of modes of

instruction, grammar and the manipulation of syntax, criteria for better writing, and invention. The eighth chapter presents the results of the meta-analysis for the dimensions examined: grade level, duration of treatment, mode of instruction, focus of instruction, revision, and feedback. The final chapter discusses the compatibility of results of treatment or method studies with those of processes studies, and offers recommendations for future research. (HTH)

Identifiers—Speaking Writing Relationship  
Viewing writing as both a form of language learning and an intellectual skill, this book presents essays on how writers acquire trusted inner voices and the roles schools and teachers can play in helping student writers in the learning process. The essays in the book focus on one of three topics: the language of instruction and how response and revision are accomplished in educational settings; the use of computers for response to and revision of writing; and theories of and research on revision. The essays and their authors are as follows: (1) "Intelligent Writing in an Audience Community: Teacher, Students, and Research" (Shirley Brice Heath and Amanda Branscombe); (2) "The Teacher as Respondent to the High School Writer" (Saundra Dunn, Susan Florio-Ruane and Christopher M. Clark); (3) "Spontaneous Repairs in Sharing Time Narratives: The Intersection of Metalinguistic Awareness, Speech Event, and Narrative Style" (Courtney B. Cazden, Sarah Michaels, and Patton Tabors); (4) "Helping Children Learn to Write in English as a Second Language" (Paul Ammon); (5) "The Language of Writing Groups: How Oral Response Shapes Revision" (Anne Ruggles Gere and Ralph S. Stevens); (6) "Written Language Acquisition: The Role of Response and the Writing Conference" (Sarah Warshawer Freedman and Melanie Sperling); (7) "Do Writers Talk to Themselves?" Oral Language, Parent Child Relationship, Reading Skills, \*Sociolinguistics, Speech Communication, Writing Skills, \*Young Children

Encouraging the appreciation and assessment of children's language and communication, from birth to the age of eight, is the focus of this volume. Following an introduction, chapter 2 elaborates on the interactionist framework, citing recent studies related to the acquisition of oral language and literacy, while the next two chapters describe communication in home and day care settings. Chapter 5 looks at the effect of situations on the kinds of language preschool children use; chapter 6 focuses on using language for a variety of purposes, such as asking questions, sharing experiences, and directing others' behavior; and chapter 7 discusses ways of assessing and fostering the ability of six- to eight-year olds to use language effectively in a variety of contexts. Chapter 8 presents a brief summary of procedures for assessing children's language, principles for fostering and assessing language, and the nature of language development in young children. Each chapter lists sources of related research, activities, or assessment methods. The volume concludes with a list of references, and author and subject indexes. (EL)

Recent research on children learning to write, coming from a mix of disciplines (English education, linguistics, psychology, anthropology, and rhetoric), is described in this volume. The introduction, by Marcia Farr, emphasizes how the research contributes to understanding (1) of research methodology and theoretical frameworks, and (2) of children's writing development, using a conceptual framework that views writing as language, writing growth as development, and writing as varying according to context. The titles and authors are as follows: "The Social Foundations of Children's Early Writing Development" (Robert Gundlach, Joan B. McLane, Frances M. Stott, and Gillian Dowley McNamee); "Individual Differences in Emerging Writing" (Anne Haas Dyson); "Kindergartners as Writers and Readers" (Elizabeth Sulzby); "Children's Writing in an Elementary School Postal System" (Jennifer Greene); and "Learning to Write in a Workshop: A Study in Grades One through Four" (Susan Sowers). Identifiers—Speaking Writing Relationship, Text Structure, Writing Functions  
The concern of this book is to examine written language and its relation to what is ordinarily understood by the term oral language, the process of its acquisition, and the place of written language in the process of mental development. The eight chapters (1) examine the relation of written language to oral language and trace the phonocentric canon, (2) critically scrutinize the phonocentric canon and argue that the vast preponderance of evidence does not sustain the view of the naturalness of oral language and the unnaturalness of written language, (3) take up certain principles of functional differentiation and reexamine oral and written manifestations of language in light of the principle of functional differentiation, (4) explain some central features of a general model of psychological development, (5) discuss the written norm of language as partly constituted by particular cultural practices and institutions, (6) propose a model of monologic text based on structural-functional lines, (7) detail the parallels between text construction strategies and the logic of operational thought, and (8) tie together three themes: the distinctive nature of written language as partly constituted by cultural practice, the dual biological and cultural determinants of psychogenesis, and the mediated nature of much of ontogenesis. Identifiers—Audience Awareness, Scaffolding, \*Writing Development, \*Writing Functions, Writing Tasks

Building upon the National Study of Writing in the Secondary School conducted in 1981, this volume presents the results of recent scholarly inquiry into the nature of writing. Background information for the study is discussed in chapter 1, while chapter 2 describes the additional data that have been gathered since the national survey: a study of textbooks in a variety of secondary school subject areas and a longitudinal study of the writing development of 15 students over a 16-month period. It also describes the system for analyzing student writing in terms of the audience addressed and the functions of writing. Chapter 3 reports the results from the study of the writing activities suggested in popular textbooks, and chapter 4 introduces the case study students and the writing they undertook during the 16 months. Chapters 5 and 6 examine this writing in more detail, focusing on the organizational patterns students are mastering. Chapters 7 and 8 concentrate on the varying approaches students took to their writing tasks, while chapters 9 and 10 address the link between the problems students have in writing, their knowledge of the topic under consideration, and the role of writing as an aid to learning in content area classrooms. Chapter 11 develops in more detail the notion of instructional scaffolding and its usefulness in improving writing instruction. Finally, chapter 12 highlights the findings and suggests some questions that need to be addressed in future studies. (HOD)

The Radical Press and the Beginning of the Birth

Control Movement in the United States.

Pub Date—Aug 85

Note—31p.; Paper presented at the Annual Meeting of the Association for Education in Journalism and Mass Communication (68th, Memphis, TN, August 3-6, 1985).

Pub Type—Speeches/Meeting Papers (150) — Historical Materials (060)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Books, \*Contraception, Family Planning, Federal Legislation, Journalism, Mass Media, Newspapers, Pamphlets, Persuasive Discourse, Publications, Public Opinion, Sex Education, Socialism

Identifiers—Anarchism, Nineteenth Century, \*Radical Press, Twentieth Century, \*United States

The American birth control movement was born among radicals, mostly socialist women, early in the twentieth century. Although some information about birth control had circulated in medical journals, books and advertising in the nineteenth century, the passage in 1873 of a federal obscenity law known as the Comstock law resulted in the absence of information about birth control in nonmedical media. Birth control proponents, such as William and Margaret Sanger and Emma Goldman, then used and created their own publications by means of the radical press, which provided press coverage of birth control and the heroes and martyrs of the movement. A profound change in American attitudes toward birth control occurred in the early twentieth century. Late nineteenth century moral revulsion became disinterested acceptance. The true context of the movement received media attention only in the radical press, however. Progressivism, a product of Victorian values, did not go beyond those values. The progressive movement as inherently conservative in its attempts to make American institutions function properly served as a catalyst for the anarchistic rebellion of the birth control movement. The radical press recognized contraception as antagonistic to progressivism rather than accepting it as a delayed part or result of progressivism. That press perceived progressivism as dealing with only the symptoms, as opposed to the causes, of poverty. However, the radical press did function as both informer and persuader in its coverage of the birth control movement. (DF)

Identifiers—Journal Writing

Noting that students read and write nonfiction without noticing how the language of nonfiction shapes the subject they are studying, the articles in this journal demonstrate ways in which teachers can link their concern for language with their students' interest in content subjects. Titles of the 24 essays are as follows: (1) "Spreading the Word about Nonfiction: Notes from a School Librarian"; (2) "Library Resources for Nonfiction"; (3) "Some Readers Prefer Nonfiction"; (4) "A Primary Source Method of Teaching Biography"; (5) "From Biographical Research to Presentation to Writing"; (6) "In Search of Self and Others: Reading and Writing Autobiography"; (7) "Consider Autobiography"; (8) "How They Write: A Study of Writers' Self-Reports"; (9) Hot-Spot: The Journal as Nonfiction"; (10) "How Do You Spell 'Nonfiction'"; (11) "Making Connections: Fiction and Nonfiction"; (12) "The Unexamined Life"; (13) "A Nonfiction Unit That Costs Less Than It Comes To"; (14) Generating Nonfiction: Writing Across the Curriculum"; (15) "American Studies: What Is It?"; (16) "Fiction and Nonfiction in U.S. History"; (17) "Using a Historic Site in a Writing Class"; (18) "Creating Readers Who Look for Something"; (19) "An Essay for Life" Joan Didion's "On Self-Respect"; (20) "Can 'The Meaning of Life' Have Meaning in High School?"; (21) "Betteheim's 'Uses of Enchantment' as Part of a Storytelling Unit"; (22) "Gibbon's 'Decline and Fall': Nonfiction History as a Literary Classic"; (23) "Fiction, Nonfiction: Some New Elements with a Dash of History"; and (24) "Clue Me In: Mystery Stories with Exotic Backgrounds." A small scale research project involving teaching writing skills to slower learning students in three different Scottish schools is the focus of this volume. Chapter 1 discusses the context and nature of the project, while chapter 2 presents teachers' accounts of their professional practices in teaching writing, including their perceptions of pupils and criteria of minimum competence, classroom methods, remedial strategies, and assessment procedures. Chapter 3 describes three case studies which examined how the participating teachers approached the teaching of writing in their classrooms, and identified whether their organization and management were consistent with the project's rationale. Chapters 4 and 5 analyze and discuss the constituent elements of an information processing model of writing and the theoretical rationale regarding classroom methodology. Chapter 6 presents two case studies integrating this theoretical rationale into classroom

practice, and chapter 7 describes the final phase of classroom work, illuminating those aspects of the project's theoretical rationale that had proved problematic in Chapter 6. The final chapter discusses the success of the project, the professional demands made of collaborating teachers, and the implications for implementing the rationale on a wider scale. All but the first and last chapters include summaries, while 14 appendices contain samples of research materials used in the study and a seven-page list of references. (EL)

Identifiers—Contests, Excellence in Education, \*Literary Magazines, National Council of Teachers of English

In keeping with efforts of the National Council of Teachers of English to promote and recognize excellence in writing in the schools, this booklet presents the rankings of winning entries in the second year of NCTE's Program to Recognize Excellence in Student Literary Magazines in American and Canadian schools, and American schools abroad. Following an introduction detailing the evaluation process and criteria, the magazines are listed by state or country, and subdivided by superior, excellent, or above average rankings. Those superior magazines which received the program's highest award in a second evaluation are also listed. Each entry includes the school address, student editor(s), faculty advisor, and cost of the magazine. (HTH)

Pen and Paper vs. the Machine: Writers Composing

in Hard Copy and Computer Conditions.

CDC Technical Report No. 16.

Carnegie-Mellon Univ., Pittsburgh, PA. Communications Design Center.

Report No.—CDC-TR-16

Pub Date—Feb 86

Note—16p.

Pub Type—Reports - Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Comparative Analysis, Higher Education, \*Microcomputers, Research Methodology, \*Word Processing, \*Writing (Composition), Writing Evaluation, Writing Improvement, \*Writing Research

Identifiers—Carnegie Mellon University PA, IBM Personal Computer

A study was conducted to replicate partially John Gould's study using more advanced machines and editors, and to test several of Colette Daiute's hypotheses about writing with the computer. Gould's study indicated that expert writers using text editors required 50% more time to compose on text editors than on hard copy, and the extra time did not improve the writing. Colette Daiute hypothesizes that the computer's speed and ease in editing will help writers to produce more text, that the blinking cursor will stimulate an audience and prompt the writer to consider the reader's needs and to keep writing, and that the machine's speed and ease of editing help to destroy writing blocks. The 15 subjects—faculty, administrators, and system designers from Carnegie-Mellon University—were experienced writers, and had several years of computer experience. Each wrote one letter on each of four topics, in a hard copy condition and three computer conditions. In two of the computer conditions, writers used "Andrew," an advanced computing system and related software being developed at the Information Technology Center as a joint venture of Carnegie-Mellon University and IBM, while the third used the IBM PC and the text editor MINCE. Three quantitative measures were collected and analyzed: time to compose the letter, total words produced, and words produced per minute. The results indicated that writers at the advanced work station produced more texts than in the pen and paper condition, in contrast to the machine Gould tested, and produced better text than in the PC condition.

The results suggest that some machines can help people write more and better, but some machines may also make them write more poorly. (HTH)

Redesigning and Testing a Work Order Form. CDC

Technical Report No. 28.

Carnegie-Mellon Univ., Pittsburgh, PA. Communications Design Center.

Report No.—CDC-TR-28

Pub Date—Feb 86

Note—38p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Comparative Analysis, \*Design Preferences, Evaluation Methods, \*Layout (Publications), \*Printing, \*Protocol Analysis, \*Recordkeeping, \*Records (Forms)

An order form used in a university printing office was evaluated, redesigned, and tested to determine whether the original or the revised version could be completed more quickly and accurately. Two types of subjects were used: six "experienced" subjects who had previously used the old version of the form, and six "novice" subjects who had never used the form before. Each subject filled out the appropriate version of the form four times, once for each of four tasks. Performance on the tasks was measured in terms of the time subjects required to complete each task and the number and nature of the errors in the completed forms. Results showed that subjects who used the new version of the form tended to complete it more quickly than subjects using the old version. (An analysis of thinking-aloud protocols is included to explain the superiority of the re-designed form. Samples of both the original and revised forms are appended.) (HOD)

Analyzing the Various Approaches of Plain Language Laws. CDC Technical Report No. 29.

Carnegie-Mellon Univ., Pittsburgh, PA. Communications Design Center.

Report No.—CDC-TR-29

Pub Date—Feb 86

Note—21p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Consumer Protection, Contracts, Evaluation Criteria, \*Evaluation Methods, \*Federal Legislation, \*Language Usage, \*State Legislation

Identifiers—Bureaucratic Language, Legal Language, \*Plain Language Laws

Noting that plain language laws—designed to put the consumer on a more equal footing with business and industry when signing business contracts—have become an important new kind of legislation, this paper traces the development of such legislation and the need to evaluate its effectiveness. The first section of the paper describes the federal impetus for plain language laws, examining President Carter's executive order for plain language and why it largely failed, and efforts by the Reagan administration that resulted in the Plain English Forum. The second section examines state legislation to regulate the clarity of consumer contracts, and the issues of criteria and compliance raised by these laws. The third section examines the need for evaluating plain language legislation to determine which laws best meet plain language objectives, while the last two sections detail the two phases of an evaluation strategy: analysis of contracts and consumers' ability to use them, and analysis of the design process that led to the contracts that are easiest to use. Descriptors—\*Creative Writing, Elementary Secondary Education, Figurative Language, Imagery, Metaphors, \*Poetry, Student Motivation, Sym-

bols (Literary), \*Teaching Methods, Writing Evaluation, Writing Instruction

Identifiers—\*Poetry in the Schools

Beyond providing insights into evoking, evaluating, and encouraging children's poetry, this book may give other poets and writers insights for their own writing. The 17 chapters discuss the following topics: (1) teaching poetry in the schools; (2) relating personal memories in poetry; (3) writing poems about animals; (4) using the chant; (5) writing poems collaboratively; (6) candor and innocence; (7) energy in poetry; (8) poems with the element of surprise; (9) rhythm, rhyme, and other sounds; (10) poetic "moves" or play with meaning; (11) creating poetry with an emphasis on factual details; (12) metaphor and surreal language; (13) concision, shapeliness, and understatement; (14) adult-like thought and feeling in children's poetry; (15) empathy; (16) other methods to use in writing poetry; and (17) evaluating children's poetry. The appendix contains eight poems by such poets as Denise Levertov and William Carlos Williams. (EL)

Descriptors—\*Adolescent Literature, \*Authors, Censorship, Fiction, Instructional Materials, Jews, \*Literature Appreciation, Novels, Reading Material Selection, Secondary Education, Sex Role, Textbooks

Identifiers—Bridgers (Sue Ellen), Majors (Kevin)

Intended for junior or senior high school English teachers, articles and features in this journal issue focus on young adult literature and the adolescent audience. The first article, Kevin Major's "The Truth about My Fictitious Friends," describes the genesis of the author's fiction writing for the Newfoundland audience, and is followed by a biography and review of Major's books by Judith Bugniet. The second article, "Professional Riches: The Textbooks are Here" by W. Geiger Ellis, discusses three books on literature by Alleen Pace Nilsen and Kenneth L. Donelson, Robert E. Probst, and Arthea J. S. Reed. The fourth article, "World War II and Its Relevance to Today's Adolescents" by Kathleen Dale Colarusso, reviews four stories of the Nazi Holocaust and how they can show today's adolescents that everyone contributes to problems and solutions through action and inaction, while the fifth article, "Telling the Tale" by Wilbur C. Ward, discusses books dealing with the broader history of the Jews. In "The Young Adult Novel: Looking down the Road," John S. Simmons suggests that classic works of literature may be easier to defend in light of increasing censorship than young adult works, and in the seventh article, Christy Hammer discusses using "Rachel's Legacy" by Hila Coleman and other works to heighten awareness of sex roles. The next two articles are by Sue Ellen Bridgers; the first is her acceptance speech for the ALAN Award, and the second a discussion of her evolution as a writer. In the tenth article Anthony L. Manna and Sue Miehlf interview Ms. Bridgers about her writing. The final article, "The South in Recent Young Adult Novels" by Robert C. Small, Jr., explores the various stereotyped images of the southern United States culture and how they are treated in young adult works. Other features in this issue include suggested young adult readings grouped for specific teaching purposes, and a report from the 1985 ALAN workshop. (HTH)

Pub Type—Books (010) — Guides - Non-Classroom (055)

Document Not Available from EDRS.

Descriptors—\*Childhood Attitudes, Classroom Environment, Classroom Research, Elementary Education, Family Environment, Learning Processes, Parent Participation, Preschool Education, Reading Writing Relationship, \*Teaching Methods, \*Writing Instruction, Writing Processes, \*Writing Readiness, \*Writing Research

Based on a seminal classroom research project directed by Dr. Donald Graves, as well as the experiences of numerous children, teachers, parents, and researchers around the world, this book shows what can happen when teachers and parents realize that every child can write. Although the book is the result of a collaboration, the two authors have chosen to preserve their separate voices: Virginia Stuart tells the story of the children who have discovered the joys of writing, and of the parents and teachers who have helped them make that discovery. Drawing on his years of experience as a researcher, educator, and parent, Donald Graves adds a running commentary as that story unfolds, and his remarks appear throughout the book, indented and in italics. Among the observations in the book are (1) how parents and teachers can work together to improve writing instruction in the schools, (2) ways for parents to encourage their children's interest in reading and writing at home, (3) the social and intellectual climate that enhances children's natural desire to learn, (4) how children's writing reveals the information that parents and teachers need to help them learn, (5) how the splinter-skill "component approach" to teaching so prevalent in schools today actually hinders growth, and (6) how teachers have discovered their own writing abilities for the first time while working with young writers. Gaziano, Cecilie

Neighborhood Newspapers and Neighborhood Leaders: Influences on Agenda Setting and Definitions of Issues.

Pub Date—16 Nov 84

Note—41p; Paper presented at the Meeting of the Midwest Association for Public Opinion Research (Chicago, IL, November 16, 1984).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Community Leaders, Comparative Analysis, \*Educational Background, \*Influences, \*Local Issues, Low Income Groups, \*Media Research, Neighborhoods, Newspapers, Press Opinion, \*Public Opinion, Social Problems, Urban Problems

Identifiers—\*Agenda Setting

Assuming that neighborhood newspapers and neighborhood leaders are among the most important influences on neighborhood residents' issue agendas and definitions of issues, a study examined some of these influences by interviewing a random sample of 239 residents of a low income, urban neighborhood in Minneapolis. In addition, a purposive sample of 52 leaders of neighborhood organizations who had an interest in one or more of four issues was interviewed. Residents and leaders were asked to identify the neighborhood's most important problems or issues. Among the issues of greatest concern were crime, housing, physical appearance of the neighborhood, economic development, and chemical dependency of many residents. The order of emphasis by neighborhood residents varied, however, by education. The agenda of the leaders as a group correlated most highly with the agenda of the most educated. When definitions of the issues were examined in detail, the relative emphases by the neighborhood press bore comparatively much less relationship to the emphases by neighborhood residents. It was concluded that organization leaders were more influential in defining issues than the neighborhood press, and that leaders exerted the most influence when public attention to issues and knowledge about them were low. References and data tables are appended. (HOD)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Computer Assisted Instruction, Computer Oriented Programs, Elementary Secondary Education, English Instruction, Higher Education, \*Research Committees, Teacher Attitudes, Teaching Methods, \*Word Processing, \*Writing (Composition), Writing Improvement, Writing Processes

Identifiers—National Council of Teachers of English

Although it does not express the official position of the National Council of Teachers of English (NCTE) or of the NCTE Committee on Instructional Technology, this annual report of the NCTE Committee on Instructional Technology discusses the impact of technological advances on classroom instruction. The first section of the report documents a definite trend toward using computers in the teaching of composition. The second section of the paper discusses how computers can be used in the three stages of writing—planning, drafting, and revising/editing/proofreading. The third section of the paper cites seven arguments against the use of word processing, including the position that word processing is difficult to learn and takes time away from writing instruction. The fourth section of the paper lists eight steps that can be taken in support of the use of word processing, such as soliciting financial support for school computer labs from parents, local businesses, and government grants. The paper concludes with the opinion of most members of the committee that word processing is the best justification to date for using computers in the classrooms. (DF)

Squire, James R.

The Current Crisis in Literary Education.

Pub Date—Nov 85

Note—11p; Paper presented at the Annual Meeting of the National Council of Teachers of English (75th, Philadelphia, PA, November 22-27, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Cultural Awareness, Elementary Secondary Education, \*Literature Appreciation, \*Teaching Methods

Sharing the cultural heritage is not the only responsibility of literary education in the K-12 curriculum. Still, teachers' current lack of agreement on the kind of literary experience important to young people, coupled with the failure of all but one of the major national school reform reports to mention literature as important to achieving a quality education, signals a present dilemma. While waiting for a redefinition of literacy, educators can consider the ramifications of four basic issues that must be resolved in K-12 program in literary education: (1) a teacher's concern about the transaction between book and reader must not blind him or her to the recognition that the quality of the literary work affects the quality of the literary experience; (2) programs in literature must provide young people with selected major literary experiences if Americans are to develop a common culture; (3) understanding and appreciating major literary works is dependent on developing the background knowledge and experience needed for understanding; and (4) educators must reexamine the traditional and contemporary canon of major literary works and identify those that speak most persuasively to young people. These four issues long for clarification and resolution. Teachers of literature and specialists in the literary transaction need to join current efforts to seek quality in the English curriculum by reexamining the content of programs as well as the methods used to teach. Topicality 1 and Topicality 2: A Quest for True Meaning.

Pub Date—Feb 85

Note—22p; Paper presented at the Annual Meeting of the Western Speech Communication Association (Fresno, CA, February 16-19, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Conflict Resolution, Credibility, \*Debate, Definitions, Evaluation Criteria, Higher Education, Judges, \*Persuasive Discourse, \*Speech Communication

Identifiers—\*Topicality

The actual nature of topicality as it is presented in intercollegiate debate rounds has become so split that there are two different types of topicality. The first type (T1) is a "real" argument that is subjective, intentional, absolute, jurisdictional, pragmatic, and focuses on content and product. The second type (T2) is strategic, objective, partial, theoretical, and focuses on form and process. By voting on T2, since it is a mechanical device, a judge often never needs to decide the true T1 issue. Hence, a judge can vote on topicality and satisfy the internal need to limit the topic without ever really dealing with the heart of the issue. Possible remedies to this problem include: (1) externally applied mechanisms to shape topicality arguments, (2) cooperative endeavors, (3) significance as a criterion in the round where topicality is an issue, (4) resolutorial justification/conditional counterplans, (5) counterresolutorial disadvantages, (6) new standards, (7) dispensing with the resolution, and (8) topicality jihad, or hastening the polarization through hostile and antagonistic practices. Teaching Doctor-Patient Interviewing in Physical Diagnosis.

Pub Date—11 Apr 85

Note—45p; Paper presented at the Annual Meeting of the Southern Speech Communication Association (Winston-Salem, NC, April 11-14, 1985).

Available from—Vic Rice, Learning Resources Center, The College of Medicine, MOC Box 27, 12901 North 30th St., University of South Florida, Tampa, FL 33612 (For videotapes used in

course: 3/4 inch, \$50.00, 1/2 inch, \$35.00). Pub Type—Speeches/Meeting Papers (150) — Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Communication Skills, \*Course Content, Course Descriptions, Higher Education, \*Interpersonal Communication, \*Interviews, Medical Education, \*Physical Examinations, \*Physician Patient Relationship, \*Speech Communication, Speech Curriculum

The course content of a laboratory session on patient interviewing taught to medical students taking a course on physical diagnosis is discussed in this paper. The first part of the paper describes the basic course content covered in the lectures: the bio-psycho-social model, the communication process, and the skills necessary for effective doctor-patient communication. The second part of the paper deals with the interview as a task-oriented process and provides an outline of communication activities for the patient interview. The remaining part of the paper offers an instructor's outline, student informational protocols, and patient programs (patients' medical problems, personal lives, social histories, and so forth) for a laboratory session designed to help physicians influence the behavior of patients after they leave the office. South Korea's Communications Research: State-of-the-Art Paradigms.

Pub Date—May 85

Note—26p; Paper presented at the Annual Meeting of the International Communication Association (35th, Honolulu, HI, May 23-27, 1985).

Pub Type—Information Analyses (070) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Communication Research, \*Educational Philosophy, Foreign Countries, Higher Education, Journalism, Literature Reviews, \*Mass Media, \*Models, Research and Development Centers, \*Research Needs

Identifiers—\*Research Trends, \*South Korea

Noting that Korean mass media began to appear about a century ago, this paper gives a brief history of major Korean academic institutions that contributed to early communication studies. It also introduces exemplary studies done in 13 fields to aid in understanding state-of-the-art paradigms of communications research in the Republic of Korea (South Korea). The paper discusses three paradigmatic trends in Korean communications research: (1) that communications research is devoted to introducing Western (especially American) perspectives on communications; (2) that communications researchers accept and use without any suspicion in the Korean context American communications-related concepts like socialization, delinquency, displacement, mass culture, image, and libel, exactly the same way as American researchers treat them in research; and (3) that communications research is mainly descriptive, not explanatory, not only in historical studies but also in empirical studies using content analyses or survey methods. A five-page list of references concludes the paper. (HOD)

Using Research as a Guide for Teaching Interpersonal Communication Competencies.

Pub Date—Nov 85

Note—18p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150) — Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Communication Research, Higher Education, \*Interpersonal Communication, \*Interpersonal Competence, Speech Communication, Speech Curriculum, Speech Improvement, Speech Instruction, Speech Skills

Twenty years of research in interpersonal communication have provided teachers with a basis for identifying the competencies that should be taught in introductory interpersonal communication courses, including empathy, social composure, and conflict management. However, other issues such as "performance vs. knowledge," the affective dimension, and the situational nature of competency are still being researched and debated. Five suggestions for instructors who teach basic interpersonal communication courses are (1) review various conceptualizations of interpersonal competence and select

factors deemed crucial for students to possess, (2) select a basic textbook that treats those factors, (3) encourage students to critically examine their own behaviors, (4) use exercises that provide the opportunity to observe others who possess useful skills and that provide opportunities to practice in a non-threatening environment, and (5) allow students to make their own choices. Intended to provide current information about graduate programs in speech communication in the United States and Canada to prospective graduate students, teachers, administrators, and counselors, this directory is also useful to those people seeking summary data on the state of the profession and to those evaluating or expanding their own speech programs. The following information is provided for 276 speech departments: addresses and contact information, current enrollment statistics, degrees offered, admission requirements, tuition and fee charges, availability of financial aid, areas of graduate concentration, application closing dates, and special features. A table of summary data, a statement of ethics, and indexes to institutions offering masters and doctorate degrees are included. (EL)

Differences in Perception and Appreciation of "Goodbye, Farewell, and Amen" as a Function of Viewing Context.

Pub Date—Mar 84

Note—17p; Paper presented at the Annual Meeting of the Eastern Communication Association (75th, Philadelphia, PA, March 8-11, 1984).

Pub Type—Reports - Research (143)—Speeches/-Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Audience Analysis, \*Programming (Broadcast), Public Opinion, \*Television Research, Television Surveys, \*Television Viewing Identifiers—\*Audience Response, \*MASH (Television Program)

A study examined the impact of viewing context on the evaluation of televised content, specifically whether viewers of the final episode of *M\*A\*S\*H* who watched it at a party evaluated it differently from those who watched it in their usual manner. A group of 181 students, categorized according to the viewing context, were asked to rate program quality, program mood, and program pace, as well as how many times a week (out of a possible 7) they normally watched a *M\*A\*S\*H* program. The results indicated that the quality of a program seems to be based more on the content of the program and less on the environment in which it is viewed than at first thought. In the area of program quality and mood, context plays no significant part, but program pace seems to be sensitive to the context in which the program is viewed and the frequency with which it is viewed. (Tables of findings are included.) (EL)

Personal Characteristics, Job Satisfaction, and Organizational Styles of Television Program Directors Over Market Ranks and Station Sizes.

Pub Date—Nov 85

Note—33p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985). Partial funding provided by the National Association of Broadcasters, Washington State University, and California State University, Fresno.

Pub Type—Reports - Research (143)—Speeches/-

Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Job Satisfaction, Media Research, Organizational Climate, Programming (Broadcast), \*Television Research

Identifiers—Management Practices, \*Management Styles, Market Analysis, \*Program Directors (Broadcast)

A study compared the organizational styles of television station program directors (PDs) against indicators of market and department size, personnel stability, job satisfaction, and productivity. Researchers used the four types of management styles used by Likert: exploitative authoritarian, benevolent authoritarian, consultative, and participative. The study sought to (1) assess differences in PDs' perceptions of organizational characteristics across market and department size, and (2) determine how such personnel characteristics as personnel stability, job satisfaction, and productivity vary according to organizational characteristics in U.S. television stations. Questionnaires were completed by 181 (66.1%) PDs at 274 randomly selected United States television stations. The results of the questionnaire indicated that management principles and practices are homogenized throughout the industry and relatively so over different sized markets and departments. Significant differences occurred in the areas of leadership, control, and decision-making, indicating that PDs affiliated with the largest markets and departments perceive their stations' organizational styles to be more participatory than PDs at small or medium-sized stations. Job satisfaction among PDs was generally high to very high. Personnel stability and productivity did not appear to vary, despite differences in organizational characteristics although greater job satisfaction was found to be tied to the more consultative management styles. The findings showed that PDs oriented toward higher levels of management style in their operations expressed greater job satisfaction. (HTH)

Making Silk Purses Out of Sows Ears: An Overview of the Communication Arts Curriculum at George Fox College.

Pub Date—8 Nov 85

Note—11p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Reports - Descriptive (141)—Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Curriculum Design, Higher Education, \*Small Colleges, \*Speech Communication, \*Speech Curriculum, Student Needs, Telecommunications, Theater Arts, Writing Instruction

A small college's communication arts curriculum, designed for students either going on to graduate school or interested in meeting more immediate vocational needs, is described in this paper. The following components of the curriculum are discussed: (1) use of field experience courses, (2) use of on-campus "practicum" courses and extra-curricular activities, (3) emphasis on basic skills development, (4) emphasis on a carefully chosen core curriculum, (5) careful tailoring of individual courses and specific programs, (6) creative use of the entire curriculum, and (7) dedication to the ideals of coaching and mentoring. The paper concludes with a statement on five things that make the curriculum work: paying attention to the needs and abilities of individual students, a clear articulation of perspectives and values, a faculty free of territorial "imperatives," innovative public presentation of the virtues of the department, and a showcasing of alumni success. The objectives, requirements, and descriptions of individual courses for majors in communication arts, telecommunication, theatre, and writing are appended. (EL)

Ambler, Bob Elkins, Mike

An Examination of the Relationship between Irrational Beliefs and Communication Apprehension.

Pub Date—10 Nov 85

Note—15p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Reports - Research (143)—Speeches/-Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Communication Apprehension, \*Communication Research, Comparative Analysis, Females, Higher Education, Males, Public

Speaking, Self Esteem, Sex Differences, \*Speech Communication, Student Attitudes  
Identifiers—\*Irrational Beliefs

A study of the relationship between irrational beliefs and communication apprehension (CA) sought to determine (1) if CA is related to a person's irrational beliefs as defined in research by Ellis; (2) to which, if any, of the CA contexts (group, meeting, dyadic, or public speaking) the irrational beliefs are most related; and (3) whether the association between CA and irrational beliefs is different for males and females. Subjects, 29 males and 38 females from three speech communication classes, completed the Irrational Beliefs Tests (IBT) and the Personal Report of Communication Apprehension (PRCA). The results of analyses indicated that totally irrational beliefs and six of the ten subtests were significantly related to CA: demand for self approval, high self-expectations, frustration reactivity, anxious overconcern, problem avoidance, and dependency. Three of the IBT subtests were significantly related to CA for the males: frustration reactivity, anxious overconcern, and problem avoidance, while four were significantly related to females: demand for approval, high self-expectations, anxious overconcern, and dependency. The results provide support for the link between irrational beliefs and CA, but offer none for the notion that irrational beliefs are more strongly associated with other dimensions of CA than public speaking, and little clear support for the hypothesis that the irrational beliefs associated with CA are dependent on gender. Problems of Applying Communication/Behavior Theories to a Program of Smoking Reduction.

Pub Date—Nov 85

Note—22p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Behavior Theories, Cancer, \*Communication (Thought Transfer), Communication Problems, Communication Research, Physical Health, \*Program Implementation, Program Improvement, \*Research Problems, \*Smoking, Speech Communication, Theories, \*Theory Practice Relationship, Tobacco

Because the use of tobacco contributes to a large number of deaths each year in the United States, a current research project at the University of Iowa tests the application of a number of theoretical ideas—including social bonding, diffusion, and the spiral of silence—and attempts to develop new ideas in an effort to reduce smoking. The five-year study is a four-pronged behavioral change program directed at seventh graders who attended all the public schools in three Iowa cities. Two experimental and one control group were exposed to an anti-smoking curriculum during the first year of the study. Subsequent developments to be implemented in the experimental communities include knowledge reward, community competition, student involvement, and community involvement. The major problem encountered in this study was the difficulty of reinforcing group efforts to reduce smoking without having a negative effect on group bonding or attachment. Although problems clearly exist in trying to apply theory to real life, further research should be conducted because theory has no practical value unless it can be of some use in society. (DF)

The Use of Student Journals in the Basic Speech Course.

Pub Date—Nov 85

Note—14p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Guides - Classroom - Teacher (052)—Opinion Papers (120)—Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Assignments, Class Activities, Higher Education, \*Speech Communication, \*Speech Curriculum, Speech Improvement, \*Speech Instruction, Speech Skills, Writing Skills  
Identifiers—\*Journal Approach, \*Student Journals

The keeping of journals by students in the basic speech course is the focus of this paper, which is divided into three parts. Part I examines the bene-

fits of journal use to students and teachers and points out that three types of learning can thus be encouraged: the development of thinking skills, personal growth, and content learning. It also contains an excerpt from one student's journals. Part 2 lists 12 reasons for using journals in class and contains guidelines for their use that answer questions about evaluation, length and frequency of assignments, and choice of topics. Part 3 provides specific suggestions for journal assignments that correspond to topics covered in most basic speech courses. (EL)

Broome, Benjamin J.  
A Reconceptualization of Empathy and Its Role in Interpersonal Communication.  
Pub Date—Nov 85  
Note—33p.  
Pub Type—Information Analyses (070)—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Cognitive Development, Communication (Thought Transfer), \*Concept Formation, Conflict, \*Empathy, \*Interpersonal Communication, Interpersonal Competence, Models, Perspective Taking, Speech Communication

Although the role that empathy plays in communication transactions is an important one, there is a great deal of confusion surrounding that term as it is used in the field of communication. Empathy may be best defined as a process consisting of 3 stages: (1) decentering, which requires a shift in focus or multiple perspectives; (2) role-taking, which consists of perceptual and conceptual processes and the affective state; and (3) communication, which is nonevaluative, problem oriented, and receptive, and indicates commitment. Characteristics of the empathic process include viewing it as a series of successive approximations, requiring the integration of cognition and affect, making possible the bridging of differences, and being influenced by variables in the communication process. Understanding the empathic process is an important part of being able to deal with differences people encounter throughout their lives. (DF)

Descriptors—Achievement Tests, Admission (School), Educational Diagnosis, Educational Policy, Higher Education, \*Speech Communication, Speech Curriculum, State Programs, Student Evaluation, \*Student Placement, \*Test Construction, \*Testing Programs, Test Validity  
Identifiers—\*Placement Tests

Placement testing programs are generally designed to place students into courses for which they are best prepared, to reduce administrative costs due to students dropping and adding courses because of poor placement decisions, and to provide faculty with information concerning students' levels of preparation well in advance of the first day of classes. The objectives of such programs are to provide students with an easily accessible place to take their placement tests, to reduce the amount of re-testing needed if students transfer between university campuses, and to provide faculty with advance information concerning students' selection and levels of preparation. Development of the tests must follow a well-defined set of procedures. First, a set of objectives must be identified, and a sampling included on any one form of the test and test questions constructed to measure them. After editing, a pilot test is run and, if necessary, questions are revised or replaced and a pilot test is run again. The final version of the test is then prepared, and a description of the test and how it is intended to be used is distributed to high school and university faculty in speech and communication arts. The monitoring is done by studying the test items after each administration to see that they continue to function as expected. New items and new test forms should be developed to prevent the test from losing its effectiveness and to enable it to respond to course content change. (EL)

The Academic and Practical Values of Debating.  
Pub Date—[85]

Note—17p.  
Pub Type—Opinion Papers (120)  
EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—College Programs, \*Debate, \*Financial Support, Higher Education, Persuasive Discourse, Public Speaking, Rhetoric, Speech Communication, \*Speech Curriculum, \*Speech Instruction

The educational benefits of debate suggest several reasons for funding debate programs on college campuses. First, debate training improves communication skills (analysis, delivery, and organization) and helps students in other communication situations. Second, debate promotes depth of educational experience by exposing students to important social issues of the time and by improving critical thinking ability. And, third, debate provides excellent preprofessional training through enabling students to gain experience in public speaking and to improve their skills in argumentation, organization, logic, and leadership. Listeners' Socioeconomic Status and the Uses of All-News Radio.  
Pub Date—Nov 82  
Note—14p.

Pub Type—Reports - Research (143)  
EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—\*Audience Analysis, Economic Status, Media Research, Media Selection, \*News Media, Programming (Broadcast), \*Radio, Social Status, \*Socioeconomic Status  
Identifiers—Media Analysis, \*Media Use

A study was conducted to determine the socioeconomic status (SES) of listeners of all-news radio. Subjects, 102 females and 98 males in the Philadelphia metropolitan area, responded to a 12-statement questionnaire in a telephone survey. Although previous studies suggested that listeners of low SES regarded radio primarily as a source of entertainment, the results of this study indicated that listeners of low SES view all-news radio as a source of both information and entertainment. One theory regarding this conclusion is that listening to the radio does not require the expenditure of intellectual effort or money and is therefore easily accessible to persons of low SES. (D1)

Coaching Strategies in Contest Rhetorical Criticism.  
Pub Date—8 Nov 85

Note—17p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).  
Pub Type—Speeches/Meeting Papers (150) — Guides - Classroom - Teacher (052)  
EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Communication (Thought Transfer), Higher Education, \*Persuasive Discourse, Public Speaking, \*Rhetorical Criticism, Speech Communication, Speeches, Verbal Communication  
Identifiers—\*Coaching, \*Contests, Speech Events  
Coaching rhetorical criticism events is demanding because it places demands on a forensic coach's knowledge of rhetorical theory and method and is time consuming. However, it may become a simpler event to coach if there is an understanding of the process of developing a speech for rhetorical criticism and specific strategies that can be used in coaching the event. There are six steps in developing a speech: (1) deciding on a subject, (2) doing research, (3) analyzing through dialogue, (4) utilizing method, (5) synthesizing methods, and (6) writing the speech. Among the ten suggested coaching strategies are talking and listening to students, making students defend their answers to a coach's questions, and keeping an annotated card file of books and articles encountered in readings. (DF)

The Competitive Atmosphere: Its Effects on Forensic Speeches.

Pub Date—Nov 85  
Note—16p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).  
Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Communication (Thought Transfer), \*Competition, Higher Education, Motivation Techniques, \*Persuasive Discourse, \*Public Speaking, Speech Communication, Speeches, Verbal Communication  
Identifiers—\*Contests, \*Speech Events

By exploring the relationship between competition theory and forensic speech contests, three benefits can be clearly identified: (1) students learn communication theory, (2) students who most accurately follow what is taught are awarded, and (3) students modify speeches by studying judges' comments, imitating winners, and utilizing selective innovation. Among the positive effects of the competitive atmosphere are students' attempts to excel, because only one speech receives a first place award and the winner must strive to improve in order to remain a winner. However, more research is needed in this area in order to determine whether the effects of competition are primarily positive or are in fact negative. (DF)

Communication Skills in Business and Industry.  
Pub Date—11 Oct 85

Note—6p; Paper presented at the Michigan Association of Speech Communication Convention (Battle Creek, MI, October 11, 1985).  
Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Business, \*Communication Skills, \*Education Work Relationship, Higher Education, Industry, Internship Programs, \*Job Skills, Job Training, \*School Business Relationship, \*Skill Development, \*Speech Communication, Teacher Role

Among the communication skills needed for business and industry are the ability to (1) express logical ideas in an organized fashion in public address, small group, and interpersonal contexts; (2) analyze receiver needs and adapt to those needs; (3) write thoughts in a correct and concise manner; (4) listen actively; (5) conduct thorough research; (6) think in a reflective, problem-solving manner; (7) interact in a flexible manner; (8) discover new ways of looking at an issue; (9) find the right medium or media for relating an idea; and (10) understand the nonverbal and verbal behavior of others. The best way to develop these communication skills is through realistic practice and application of theory gained in the classroom. Instructors should make sure their students are getting the most out of internship opportunities and provide time for students to evaluate and assess their internship experiences. Another way of further developing communication skills in students is by controlling more specifically major/minor selections and combinations. Finally, at every available opportunity, the private and public sector should seek out channels to develop partnership arrangements with higher education. (HOD)

Descriptors—\*Communication, \*Apprehension, \*Communication Research, High Schools, High School Students, \*Sex Differences, Speech Instruction, Speech Skills, \*Student Attitudes, \*Student Needs, \*Writing Apprehension, Writing Instruction, Writing Skills

A study was conducted to examine the communication reticence of high school students enrolled in required speech and writing courses. Approximately 200 students completed the Personal Report of Communication Apprehension (PRCA), the Unwillingness-to-Communicate Scale (UCS), and the Writing Apprehension Test (WAT). Data were then analyzed to determine biological and psychological sex differences, if any, in ratings on the three measures, and relationships among scores on the measures. Results indicate that significant differences occurred (1) between males and females in rating the Public and Platform Speaking dimension of the PRCA, and (2) among psychological sex groups in rating the three dimensions of the PRCA, the Ap-

proach-Avoidance dimension of the UCS, and the Enjoyment and Ease of Writing dimensions of the WAT, with masculine and androgynous subjects rating the dimensions lower than feminine and undifferentiated subjects in all cases. Overall, the findings show that over 40% of the students were apprehensive about public speaking and over 30% did not enjoy writing. Ten data tables are appended. (FL)

McCoy, Claire Elaine  
The Communicative Relevance of Instrument Flight: A Technologically Contingent World.  
Pub Date—May 85

Note—9p; Paper presented at the Annual Meeting of the International Communication Association (35th, Honolulu, HI, May 23-27, 1985).

Pub Type—Speeches/Meeting Papers (150) — Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Aircraft Pilots, Communication Research, \*Flight Training, Instrumentation, Interaction, Interpersonal Communication, Interpersonal Competence, \*Nonverbal Communication, Qualitative Research, \*Research Needs, \*Safety, Speech Communication, \*Verbal Communication

The success and safety of flight in actual instrument conditions is dependent upon the communicative competency of the individuals involved. The more obvious elements of communication involved include crew coordination and communication both verbal and nonverbal, aircraft and ground communication links, pilot interpretation of verbally and instrumentally derived information, and analysis of the nuances of accepted verbal phraseology. The pilot co-constitutes and maintains the "world" of instrument flight at various levels. This participation emerges as an expressive function as well as a cognitive task. An understanding of the fluidity of performance of certain pilots may be found by examining characteristic aspects that provide the qualitative background of the human experience of instrument flight. Expressive dimensions of communication are an integral part of pilot performance. The presence of the expressive region accounts for the difference noted between the "mechanical" pilots and those who have a "feel" for the aircraft. For the sake of flight safety, it becomes a responsibility to investigate and to attempt to understand how the instrument flight pilot incorporates the technology of flight and of instrumentation with every act of flight, with every thought, expectation, and remembrance. Larson, Mary Strom  
Teaching Production Courses: A Survey of Course Content and Structure.  
Pub Date—8 Nov 85

Note—12p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Course Content, Course Organization, Curriculum Development, Enrollment, Film Production, Higher Education, Mass Media, \*Production Techniques, Radio, \*School Surveys, \*Speech Communication, Student Projects, Teaching Methods, Television

To gather input for the development of a two semester basic production course in radio, television, film, and media writing, a survey was sent to 278 college speech departments. Ninety departments responded. The first question dealt with the format for the course. The answers were so varied that the responses were combined into those that covered one, two, three, and four or more terms. One-term courses took many forms. The majority of the two-term courses took the form of one term of radio or audio and one term of television or video. Of the three-term sequences, most offered one term each of radio, television, and film. Responses to other questions showed that (1) most production courses incorporated as much or more lab instruction as lecture instruction, (2) on most campuses the low enrollment class is the norm, (3) 76% of the respondents incorporated no team teaching methods, (4) "Audio in Media" and "Television Production Handbook" were the clear radio and television text favorites, and (5) major projects included simple mix, 30-second spots, 2-minute news, commercials, silent image, visual essay, and interviews. These re-

sponses led to the development of a 2-semester, 10-hour sequence production course offered at Northern Illinois University for the first time in the fall of 1986. Each five credit course will incorporate five hours of lecture and six hours of lab weekly. (HOD)

Descriptors—\*Communication (Thought Transfer), Communication Research, Cybernetics, Linguistic Theory, \*Models, \*Phenomenology, \*Semiotics, \*Speech Communication

Identifiers—\*Communication

Divided into three sections, this paper explores semiotic phenomenology as a paradigm for communication (a translation for the new French "communicologie" and the "German Kommunikationsgemeinschaft," which are used increasingly to suggest a qualitative and human significance as opposed to the quantitative and technological reference of "cybernetics," "communications," and "informatics"). The first section discusses the origins of semiotic phenomenology in philosophy and explores the French and American versions. The second section suggests how this paradigm would function in the human and social sciences in general, while the third section discusses what this paradigm might do for the study of communication as human discourse, and elaborates on the four propositions used to define the paradigmatic status of semiotic phenomenology: (1) a discursive model of being human, (2) a human model of discourse, (3) a normative logic in communicological theory, and (4) a normative logic in communicological praxis. The paper concludes with a three-page list of references. (HOD)

Jenkins, Merciles M.  
Guidelines for Cross-Cultural Communication between Students and Faculty.  
Pub Date—[83]

Note—22p.

Pub Type—Guides - Classroom - Teacher (052) — Tests/Questionnaires (160)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Classroom Communication, College Students, Communication Research, Guidelines, Higher Education, \*Intercultural Communication, Interviews, Nonverbal Communication, Student Behavior, Teacher Behavior, \*Teacher Student Relationship, Verbal Communication

The result of interviews with 77 students on California state university campuses, this paper explores a set of guidelines designed to facilitate communication between white faculty and minority students. The paper is divided into three sections, each dealing with one of the three areas of the guidelines: classroom interaction, advising, and evaluation. Each section begins with a discussion of student responses to questions from the interviews, formulates general principles for dealing with the concerns students expressed, and discusses ways that these principles can be applied. The conclusion of the paper discusses the importance of college professors trying to be as fair as possible to all students. (Interview questions are appended.) (DF)

Holmes, W. Lance  
O-I-C: An Orality-Based Procedure for Teaching Interservice Communication in the Basic Course.  
Pub Date—Nov 85

Note—18p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Cognitive Processes, Higher Education, Interpersonal Communication, \*Speech Communication, \*Speech Curriculum, Speeches, Speech Instruction, Speech Skills, Verbal Communication, Writing Processes

Identifiers—Howells Levels of Competence

In order to improve instruction in basic speech courses, a program was developed adapting creative

problem solving to speech preparation and to interactive speech communication. The program, called O-I-C—Orientation, Incubation, and Composition—and based on Howell's five levels of competence and their implications, begins with a thorough study of the various aspects of the anticipated communication event (orientation). The second stage of the program allows time for processing to occur (incubation). Finally, the third stage of the program consists of composition. The program emphasizes orality, based on the assumption that writing is a later developmental and cognitive process than speaking. (DF)

Towell, Bob  
Improvisational Drama in the Classroom (K-5).  
Pub Date—Jun 85

Note—18p; Paper presented at the Conference of the Association for Childhood Education International (San Antonio, TX, June 18-22, 1985).

Pub Type—Guides - Non-Classroom (055) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Class Activities, Creativity, \*Dramatic Play, Elementary Education, Teacher Student Relationship, \*Teaching Methods

Identifiers—\*Improvisation

Improvisation can show teachers ways to use the senses to make ideas, emotions, or any academic lesson stick with a child. By using improvisational techniques, the teacher asks the student to play-to be active and to discover. For example, there are games to help the child to concentrate, verbalize, touch and make contact with other children, and show their understanding of abstract ideas. Games to help children get accustomed to improvisational teaching include the mirror game, tug-of-war, and demonstrating through physical action places, characters, and events. Suggestions for getting started include asking children what they might like to improvise, and participating in improvisational games. Teachers might present plots from children's literature or fables for improvisation, or a newspaper or magazine article. Teaching techniques that will help while conducting improvisation include teaching in role, asking good questions, and encouraging students to become involved in the search for understanding. Improvisation guarantees to encourage students to take risks and to become individuals, rather than relying completely upon the teacher. It can also be used for academic work in other classes as well, to show the importance of listening and to create energy and excitement for the classroom. (HTH)

VerLinden, Jay G.  
Ethical Guidelines for Students Completing the Interpersonal Communication Course.  
Pub Date—10 Nov 85

Note—27p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150) — Information Analyses (070)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Cognitive Processes, College Students, Decision Making, Ethical Instruction, \*Ethics, \*Guidelines, Higher Education, \*Interpersonal Communication, Moral Values, Speech Communication, Speech Curriculum

Because a review of the literature concerning interpersonal communication ethics indicates that communication ethics are rarely discussed explicitly in interpersonal communication textbooks, there is a need for clear guidelines appropriate for individuals who have completed interpersonal communication courses. The following are among seven ethical guidelines appropriate for students who have completed an interpersonal communication course: (1) communication is more ethical when the communicator acknowledges and demonstrates sensitivity to the humanity of all participants, (2) those with instruction in interpersonal communication have an ethical responsibility to actively use their knowledge and skills to humanize their relationships with others and to actively avoid dehumanizing others, and (3) those with instruction in interpersonal communication have the ethical responsibility, when possible, to develop methods to communicate humanely in advance of an encounter. Although these guidelines are not always easy to follow, they assume that people can learn from their mistakes and call for people to acknowledge their behavior, take responsibility for it, and improve it. Upbach, Steve And Others  
Organizational Mavericks and Innovation: A Tri-  
angulation Study of Culture.

Pub Date—Nov 85

Note—31p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Research (143)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Business Communication, \*Communication Apprehension, \*Communication Research, Employee Attitudes, \*Organizational Communication

Identifiers—Organizational Behavior, \*Organizational Culture, \*Organizational Mavericks, Organizational Research

A study examined the communicative behavior of mavericks as they relate to innovation in organizations and the impact of such non-conforming behavior on organizational change. Two approaches were used: (1) studying organizational life from the cultural perspective and (2) collecting both qualitative and quantitative data. Subjects, 32 employees of a medium-sized midwestern corporation, completed a questionnaire measuring their communication style, apprehension, and eagerness to communicate with others across a variety of contexts. All subjects were also interviewed. Results indicated that organizational mavericks were more eager to communicate than non-mavericks and were less apprehensive about a number of communication situations. However, it appeared that skillful mavericks did not want to be identified as separate from the group, so loosely structured organizations were more likely to facilitate maverick behavior. (DF)

The Most Significant Rhetorical Work in French  
Is: L'Abbe Joseph Cyrien Nadal's "Dictionnaire d'Eloquence Sacree" (Paris: Migne, 1851).

Pub Date—Nov 85

Note—22p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Opinion Papers (120)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*French Literature, Persuasive Discourse, Public Speaking, Rhetoric, \*Rhetorical Criticism, Speech Communication, Speeches, Verbal Communication

Identifiers—Dictionnaire d'Eloquence Sacree (Nadal)

Joseph Cyrien Nadal's "Dictionnaire d'Eloquence Sacree" is an outstanding work because of Nadal's thorough treatment of all the elements young speakers should know as they embark on a platform career. The most important of these elements are invention, disposition, style, memory, and delivery. In addition, the book discusses five duties of the Christian orator, provides sound advice on impromptu speaking, offers original ideas on argumentative disposition, serves as a model for publishing a multivolume rhetorical encyclopedia, and cautions preachers about plagiarism. Such information is invaluable to all speakers. (DF)

Undergraduates as Adult Communicators: A Life Skills Model for Curriculum Change.

Pub Date—Nov 85

Note—13p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Descriptive (141)

EDRS Price—MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Adult Students, College Students, \*Communication (Thought Transfer), \*Daily Living Skills, Higher Education, Learning Processes, Models, Speech Communication, \*Speech Curriculum, Speech Instruction, \*Undergraduate Students

Identifiers—\*Adkins Life Skills Structured Inquiry  
The population of college students contains an increasing number of students who are over 25 years old. Therefore, more adult-focused courses in communication are needed because adults tend to be interested in communication problems rather than communication subjects and value learning that

makes use of their experiences. One model that fulfills those requirements and could be used as the basis for curriculum change is the Adkins Life Skills Structured Inquiry learning model. This model consists of four stages: (1) Stimulus Stage, in which students are stimulated to learn by a provocative presentation; (2) Evocation Stage, in which goals for the curriculum are established; (3) Objective Inquiry Stage, in which students explore what outside sources know about their subjects; and (4) Application Stage, which allows students to evaluate their behavior to determine if objectives have been achieved. Two prerequisites are required for instituting the program. First, the curriculum director must evaluate the target population. Second, the instructor must maintain a nonthreatening classroom climate. The program will allow students to develop their skills in ways most valuable to them. (DF)

Job Satisfaction and the Alabama Public School Speech-Language Pathologist.

Pub Date—[85]

Note—19p.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Attitude Measures, \*Job Satisfaction, \*Occupational Information, \*Occupational Surveys, Speech Communication, \*Speech Pathology, Supervision, Work Attitudes, \*Work Environment

Identifiers—Alabama

To assess the attitudes of Alabama public school speech-language pathologists toward various aspects of their employment, an attitudes assessment instrument was completed by 272 practicing public school clinicians. The first section of the instrument contained items pertaining to the respondents' years of experience, tenure status, and degree held. The second section consisted of a list of 14 factors affecting job satisfaction. Responses indicated that perceptions of positive relations with peers and supervisors, job security, having significant responsibilities, the achievement of program goals, and a reasonable salary contributed to an overall positive feeling about their positions. The clinicians felt negative with respect to their opportunity for advancement and the meaningfulness of the supervision they received. The fact that few of the state's public school speech-language clinicians were supervised by individuals with training in the discipline was felt to be the single most important factor in the clinicians' negative feelings concerning the supervision they received and their own opportunities for advancement. (Appended are the percentages and frequencies of responses as well as the job satisfaction scales.) (Author/HOD)

The Affinity-Seeking of Classroom Teachers.

Pub Date—Nov 85

Note—16p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Classroom Communication, Classroom Environment, \*Classroom Techniques, Communication (Thought Transfer), Communication Research, Elementary Secondary Education, Nonverbal Communication, Teacher Behavior, \*Teacher Student Relationship, Verbal Communication

Identifiers—\*Affinity Seeking Strategies

A study explored the extent to which affinity-seeking strategies are used in elementary and secondary school classrooms. Subjects, 311 elementary and secondary school teachers enrolled in classes related to communication instruction, completed a measurement instrument designed to evaluate their use of affinity-seeking strategies. Analysis of the data revealed that when teachers seek increased affinity with students they frequently use such strategies as physical attractiveness, sensitivity, and dynamism. However, such strategies as reward association, self-inclusion, similarity, openness, supportiveness, and conceding control were not often used. Teachers in the lower grades tended to use sensitivity, dynamism, and nonverbal immediacy more often than teachers in upper grades, while presenting interesting self and personal autonomy were used more frequently in the

upper grades. (DF)

Willingness to Communicate: The Construct and Its Measurement.

Pub Date—Nov 85

Note—11p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Communication (Thought Transfer), Communication Apprehension, Communication Research, \*Interpersonal Communication, Personality Traits, Speech Communication, Test Validity, \*Verbal Communication

Identifiers—Communication Patterns, \*Willingness to Communicate Construct

Because a review of literature revealed that no valid instrument for measuring a person's willingness to communicate existed, a willingness to communicate (WTC) instrument was developed. The basis of this construct is the assumption that willingness to communicate is a personality-based, trait-like predisposition which is fairly consistent across a variety of communication contexts and types of receivers. A scale was designed that includes items related to four communication contexts—public speaking, talking in meetings, talking in small groups, and talking in dyads—and three types of receivers—strangers, acquaintances, and friends. The instrument was administered to 428 college students as were two other instruments that measured communication apprehension and self-reported verbal activity. Analysis of the data indicated that the willingness to communicate construct is valid. Further research in this area is needed, particularly under conditions where the individuals observed truly have free choice of whether to communicate or not. (DF)

Alternative Methods to Practicum Grading.

Pub Date—Aug 85

Note—9p; Paper presented at the Annual Meeting of the American Theatre Association (Toronto, Ontario, Canada, August 4-7, 1985).

Pub Type—Guides—Classroom—Teacher (052)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Acting, \*Evaluation Criteria, \*Evaluation Methods, \*Grading, Higher Education, \*Practicums, Speech Communication, \*Theater Arts

The grading system for technical practicums in theatre at California State University, San Bernardino uses an evaluation form completed by each student's practicum supervisor. The evaluation form gives concrete evidence that there are viable criteria for grading practicums, and also helps if a student wishes to challenge his or her grade. Usually upon seeing the completed form and receiving verbal explanation of it, the student realizes that care was taken in determining the grade. The evaluation form has ten-point scales in the areas of (1) initiative, (2) attitude toward work and willingness to learn, (3) attitude toward co-workers and supervisor, (4) growth based on ability and potential, (5) responsibility for completing the work assigned, (6) dependability, and (7) overall. Number of hours completed and whether the student attended striking of a stage set are also considered. The 10-point scale translates to a letter-grade scale, ranging from A through D with pluses and minuses. Making this grading policy effective requires consistency. Students may also fill out the evaluation form themselves. This form can be modified for grading Acting Practicums, if they are optional or required only for majors. (A copy of the evaluation form is included.) (HTH)

Descriptors—\*Communication Research, \*Competition, \*Debate, Higher Education, Persuasive Discourse, Speech Communication, Teacher Atti-

Identifiers—\*Debate Coaches, \*Debate Tournaments, Tournament Hosts  
 Forensic directors (n=102) affiliated with Phi Delta Kappa responded to a survey to determine perceptions regarding participation of host school students in their respective forensics tournaments. When asked whether they permitted host school students to compete in their respective tournaments, 56% indicated that they did, but 73% of those had conditions attached, such as not being permitted to advance to eliminations, or being permitted only to fill in schedule or increase national qualifying opportunities. When asked to rank order their respective value objections to having a host school's students compete in a tournament, the respondents' objections came under five major categories: (1) fairness to others, (2) graciousness, (3) tournament integrity, (4) educational experience, and (5) managerial difficulties. Most pronounced was the perceived potential for bias among judges. (Suggested guidelines for directors electing to have host school students compete in a tournament are included.) (HTH)

Gotcher, James M.  
 Who Should Judge CEDA Debate?

Pub Date—Apr 85  
 Note—21p; Paper presented at the Annual Meeting of the Southern Speech Communication Association (Winston-Salem, NC, April 11-14, 1985).  
 Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
 Descriptors—Competition, \*Persuasive Discourse, \*Qualifications, Rhetorical Criticism, Speech Communication

Identifiers—\*CEDA Debate, Debate Format, \*Debate Tournaments

The most common criticism of CEDA (Cross Examination Debate Association) debate tournaments voiced by coaches and students alike centers on the quality of judging. If the debater is completely unaware of the qualifications or credentials of the critic, he or she will be unable to fulfill the judge's expectations. Debates are then lost not on analysis, evidence, or logic, but on a lack of knowledge of the judge's preferences. A competent critic must possess three important qualities: (1) an understanding of the rules governing debate activity, (2) an understanding of logical thought, and (3) an analytical mind. This is not to suggest that tournament directors intentionally recruit ill-qualified judges, but they have a responsibility to those participating to provide the contestants with competent judges. The first step is to require competing schools to fulfill the "one judge per two teams standard" obligation. The tournament directors must also brief the judging pool on CEDA goals, speaking order, nature of the resolution, and the responsibilities of the various speakers. This can be accomplished by means of a review sheet, or practice sessions with judges several days before a tournament. (A sample judges review sheet is included.) (HTH)

Descriptors—\*Curriculum Development, Educational Objectives, Higher Education, \*Honors Curriculum, Models, \*Speech Communication, Student Needs

Identifiers—Bloom's Taxonomy, Miami University OH, Perry Scheme of Intellectual Ethical Development

Noting that the decision to offer special sections or courses for superior communication students is often ignored because such students are not very visible in the traditional classroom, this paper focuses on some of the considerations involved in honors programs and proposes some guidelines for developing them based on extant honors programs and models of intellectual development in young adults. The first part of the paper explores established models for honors programs; nationally identified objectives for honors programs; a program at

Miami University, Oxford, Ohio, that encompasses those objectives; and the departmental honors sequence of that program. The second section of the paper discusses guidelines for developing course/curriculum content, specifically Bloom's Educational Taxonomy and Perry's Scheme of Intellectual Development. A syllabus based on Bloom's Taxonomy is included. (Appendices contain a more detailed list of the national honors program objectives, guidelines for participation in the Miami University Honors program, and more detailed presentations of Bloom's Taxonomy and Perry's Scheme of Intellectual Development.) (HTH)

 Improvement in Grades and Dropout Rates of Apprehensive College Students Who Voluntarily Videotaped Their Speeches.

Pub Date—20 Apr 85  
 Note—23p; Paper presented at the Annual Meeting of the Montana Academy of Sciences (45th, Butte, MT, April 20, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Academic Achievement, Basic Skills, \*Communication Apprehension, \*Communication Research, Comparative Analysis, \*Drop Out Rate, \*Grade Point Average, Higher Education, \*Speech Communication, Student Attitudes, \*Videotape Recordings

A study examined the effect on grades and dropout rates of students videotaping their first speech in a basic speech course. Subjects, 224 students at a northwest college, were tested for communication and for speech apprehension using McCroskey's Personal Report of Communication Apprehension. All students were offered an opportunity to videotape and critique their first speech from two semesters. Statistical tests showed a marked increase in grade point average (GPA) for the group of students that videotaped over the group of students who did not: the average GPA of apprehensive videotapers is significantly higher than that of apprehensive non-videotapers. However, because the samples are not random, this increase cannot be attributed to the videotaping. The results also indicated that no apprehensive students who videotaped their speeches withdrew from class, compared to 22 apprehensive non-videotapers who did withdraw. (HTH)

Comadena, Mark E.  
 Communication Apprehension and Academic Achievement among Elementary and Middle-School Students.

Pub Date—Nov 85  
 Note—20p; Paper presented at the Annual Meeting of the Speech Communication Association (71st, Denver, CO, November 7-10, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Academic Achievement, \*Communication Apprehension, \*Communication Research, Comparative Analysis, Elementary Education, Student Attitudes

A study examined the relationship between communication apprehension (CA) and student achievement among elementary and middle school students. It was hypothesized that students high in CA would demonstrate lower academic achievement than students moderate in CA who, in turn, would demonstrate lower levels of achievement than students low in CA. Subjects, 1,290 elementary and middle school students in a midwest state, completed the Measure of Elementary Communication Apprehension (MECA). Academic Achievement was determined from scores on the Stanford Early Achievement Test for kindergarten subjects, the Metropolitan Readiness Test for subjects in grade 1, and the Stanford Achievement Test for subjects in grades 2-8. Since students across grade levels completed three different achievement tests, separate statistical tests were conducted. The results provided partial support for the hypothesis. The hypothesis was not supported for students in kindergarten and grade 1. Analyses of mathematics and reading achievement test scores for students in grades 2-8 provided support for the hypothesis. The findings did not support the contention that students high in CA achieve at levels comparable to those of students moderate in CA, but did suggest that students low in CA achieve at levels comparable

to students moderate in CA. (HTH)

 Identifiers—\*Burke (Kenneth), \*Deception  
 K. Burke's (1945) pentad identifies five contributing factors in any communication event: agent, purpose, act, scene, and agency. Using the pentad as an organizational schema, this paper summarizes problems in methods used by behavioral researchers to study the deceptive communication event. The paper argues that fragmenting the communication act into separate research variables reduces the ability to understand how several variables combine to produce the total effect of deception. The paper then summarizes these variables in a model intended to make their interrelationships more obvious, and concludes with a call to consider deception as a rhetorical event by applying Burke's pentadic "ratio" method to naturally occurring examples of deceptive communication. Descriptors—\*Adoption (Ideas), \*Change Strategies, Delivery Systems, \*Diffusion (Communication), Educational Change, Educational Innovation, Instructional Materials, Junior High Schools, Middle Schools, Predictor Variables, Teacher Education, Teacher Participation, \*Workshops

Identifiers—Ohio

Four different methods for disseminating materials and activities used in a program to teach middle school students about aquatic environments were compared in Ohio. Six hundred teachers elected to attend one-and-a-half day workshops, 180 teachers attended workshops requiring 10 full days' participation, 200 teachers ordered materials by mail, and 400 teachers took advantage of a museum's sponsorship of selected program activities for groups of students. Questionnaires were sent to a sample of the teachers in each group. The responses indicated that those attending the short workshops used the materials and activities at a higher rate, and introduced them to others at a higher rate, than did teachers in other groups. Participants in the museum program showed the least use. Differences among the teachers making up the groups appeared to have greater impact on use than did the presentation format. Analysis showed that teachers selecting short workshops were less likely to have master's degrees and more likely to attend professional meetings and to participate on curriculum and textbook adoption committees. They appeared more interested in the professional benefits of the workshop than in the larger number of academic credits associated with the larger workshop. (PGD)

Identifiers—Board of Education Members, \*Tennessee

A sample of teachers, principals, supervisors, superintendents, school board members, and county commissioners across Tennessee responded to questionnaires concerning funding patterns and revenue sources for public education. Except for the commissioners, who are the funding agents for school systems in Tennessee and are responsible for setting tax rates, all groups were dissatisfied with present funding levels for education. The respondents supported raising funds through parimutuel betting, and through alcohol and tobacco products, retail sales, and severance taxes. General support was indicated for increasing funding of basic skills instruction and teacher salaries (indexed to the cost of living), providing programs for the gifted and talented, and reducing teacher-pupil ratios. Reactions were mixed regarding expending monies for athletics, bands, extracurricular activities, and the elimination of the need for school fund-raising activities. The respondents also split over support for income taxes and for legislation allowing local school boards to set school tax rates. (PGD)

Descriptors—Change Strategies, Competence, Creativity, \*Critical Thinking, Curriculum, \*Educational Change, Educational Improvement, \*Educational Objectives, Elementary Secondary Education, Imagination, Intellectual Development, Teacher Qualifications, Teacher Recruitment, Teaching Conditions

The development of critical thinking skills in students is seen in this presentation as a significant and worthy objective of education, though the realization of this objective will be dependent upon many important factors. Among the factors cited here are, first, that recent major reform efforts have created no barriers to including critical thinking among educational objectives, but that attempts to realize these reforms through rules, regulations, and standards may be creating conditions that are detrimental to critical thinking. Second, many of today's teachers are not competent to teach in their subject areas, let alone to approach those subjects critically; moreover, economic and other conditions make it unlikely that great numbers of competent teachers will soon be entering the profession. Third, it is essential that critical thinking not become an end in itself; rather, it must be learned in the context of subject matter. Fourth, creative imagination should be considered a worthy educational goal along with critical thinking, since the two interact to produce insight and discovery. This transcript of a talk on these matters includes answers to several specific questions raised by listeners in response to comments in the main body of the address. (PGD)

Identifiers—Idaho, Oregon, Situational Administrative Decision Making Invent, Washington

Public school superintendents consider situational and organizational variables when determining whether to involve others in decision-making processes. A sample of 240 superintendents from Washington, Oregon, and Idaho were sent the Situational Administrative Decision-Making Inventory. The sample was evenly divided geographically and by district size. The 184 respondents were presented with representative situations drawn from six topic categories: business, instruction, personnel relations, student relations, community relations, and noninstructional operations. Each situation included a short, medium, or long decision-making time frame. Respondents were asked to characterize each situation according to the extent to which they would make their decisions alone or with some degree of participation by others. The results were examined using analysis of variance. The data revealed that participatory modes were used more when time frames were longer and when districts were larger. Mean scores for the different situations suggested that only in rare cases do superintendents feel called upon to include others in decision-making formally, and even more rarely do they act with only minimal advice. The great majority of decisions, under all types of time constraints, tend to be made after a significant amount of input has been sought through informal means. (PGD)

Descriptors—\*Administrator Role, \*Computer Literacy, Educational Administration, Educational Change, Elementary Education, \*Microcomputers, \*Principals, Technological Advancement, Trend Analysis

Identifiers—\*Computer Uses in Education

The continuing growth of computer understanding and use by educators makes it imperative for elementary school principals to become computer literate. Teachers' knowledge and skills relating to computers are increasing; computer costs are declining and computers becoming more readily available; software is improving in response to demand; and the microcomputer is making its presence felt as an effective teaching tool. To be able to respond to the school's increasing use of and need to use computers, principals must have a basic working understanding of both the school's computer hardware and the software that is available for that hardware. The principal should be able to assess such factors as hardware costs, capacities, and uses, and software's availability, compatibility with hardware, quality, and relevance to educational or administrative goals. Principals should read at least one computer education journal regularly to keep up on developments in the field. With computer literacy, principals can increase their control of budgeting, office administration, and instructional leadership. (PGD)

Descriptors—Cognitive Style, Elementary Secondary Education, Faculty Development, Inservice Teacher Education, \*Learning Theories

Learning style theorists have advanced several distinct definitions of learning style and have proposed diagnostic procedures and instructional practices based on these definitions. Practitioners could benefit by being able to draw on the full range of these conceptions, but the conditions of dissemination discourage theorists from drawing attention to more than their own specific approaches. This document reviews 17 conceptions of learning style. Each

conception has been examined in terms of the definition put forward, the number of learning style elements encompassed, the categories into which the elements are distributed, the individuals involved in applying the concept, and the instruments used in the course of this application. This analysis led to the identification of three continua as critical for fixing the essential differences among the conceptions: the first specified the grade levels served, the second the number of learning characteristics encompassed, and the third the extent to which learning style strengths are taught exclusively or are used to develop new strengths. By developing inservice programs that build upon a synthesis of these conceptions rather than on one alone, administrators will enable teachers to choose more wisely among the concepts and approaches available. "Educators in the professions" is a term covering those who provide educational services to professionals and who engage in the research and development efforts necessary for the understanding and improvement of these specialized educational endeavors. An informal research effort indicated that there are probably 1,500 to 1,750 such educators in the professional schools, examination services, and professional societies of North America. These educators can fill roles on service staffs or as teachers, consultants, researchers, project developers, or administrators, among others. They must be resourceful, capable of grasping new fields of study quickly, bright, tough, politically and diplomatically astute, able to sell, and knowledgeable about education generally. Such educators find dissemination of their work difficult since they frequently seek to address two audiences at once: educators in general and noneducator professionals in their chosen specializations. These educators receive substantial benefits from their positions but also frequently find themselves regarded as secondary in status to the full professionals in their subject areas. Their teaching colleagues are usually professionals untrained in pedagogy. In the immediate future it is likely that increasing budgetary restrictions will place considerable pressure on such educators to justify their existences and meet outside demands for productivity. Identifiers—\*District Secondary School Study, Excellence in Education, Organizational Excellence  
Descriptive findings concerning organization and management practices in 16 urban high schools across the United States are reported in this paper. The findings are based on data from the as yet incomplete 3-year District/Secondary School Study. This research effort involved urban comprehensive high schools without special admissions require-

ments and with significant numbers of students drawn from minority and low income groups. Some schools were examined intensively through interviews, observations, and analysis of records; others participated only in limited interviews. The paper first reviews relevant elements of school effectiveness theory and organizational excellence theory. The researchers sought data on dependent variables reflecting school performance outcomes and independent variables reflecting the presence of characteristics found in the effectiveness and excellence theories. District policies and community characteristics were also considered. This paper reports that the school-related organizational characteristics suggested by the effectiveness and excellence theories are not present in all schools. The research further found that schools varied in the extent to which the district participated directly in school administrative decisions. The relationship between these findings and school performance is not reported because the research is not yet complete, but preliminary analysis suggests that some relationship may be found. (PGD)

Identifiers—Knoxville City Schools TN

Some ninth-grade students from three Knoxville City high schools have continuously performed substantially less well than those from other city schools in the Tennessee State proficiency tests. A task force developed a plan to work with grade 8 in the middle schools and grade 9 in the high schools to prepare students to perform better on state proficiency and citywide basic skills tests. Pretest/post-test data from experimental (N=170) and control groups (N=175) were analyzed in an attempt to determine the impact of the project on pupil performance. Three groups (teachers, pupils, and parents) were to receive various "treatments" that included many elements of the effective schools efforts. Gross measures such as total percentage passing the language arts and mathematics proficiency tests in various high schools and comparisons of these scores over time were used as preliminary indicators of project progress. Additional data included anecdotal reports from teachers, logs and timelines of activities, comments of project researchers, and teacher questionnaire data. Major gains on the percentage of pupils passing the proficiency test were observed in 1985. An analysis of covariance supported the assertion that the sample of project students significantly outperformed a similar sample of control students. Tables and graphs illustrate the data. Appended are 12 references. (MLF)

Descriptors—Curriculum Development, Educational Trends, Elementary Secondary Education, Futures (of Society), Information Science, Information Sources, Inservice Education, Leadership Styles, Leadership Training, Management Development, Principals, School Business Relationship, Technological Advancement

To assist educational leaders in understanding the implications of the transformation from an industrial to an information society, this paper cites selected societal changes. Among these are new information technologies that will give birth to new

activities, processes, and products; and the existence of masses of data from which leaders must choose what is relevant to education. Several management models and instructional programs can help administrators inform themselves and alert others to both the unprecedented shifts in societal values and behavior, and the technology and knowledge explosion. Existing and planned models used in the District of Columbia are briefly described, including the Management Institute and the Principal's Center. Noting that the private sector and public agencies have been helpful in preparing students for an information society and technological future, career modules in several District of Columbia high schools are mentioned. This handbook is intended for school decision-makers who need to evaluate the validity of financial data before making management judgments. The book is an analysis of what is contained in various kinds of school accounts in relation to what could be or should be contained. The book is for self-directed study, estimated to require not more than six to eight hours to complete. A "scrambled" book format is used with each sheet consisting of two pages with each page having one or more directions to follow. According to the answers given to the problems, directions are given for the next page. The following topics are covered in four chapters: (1) Assets, Liabilities, and Equities; (2) The Flow of Revenue and Expense; (3) Classification of School Accounting Data; and (4) Factors in Evaluation of Classified School Accounting Data. Identifiers—Oregon, Planning Programming Budgeting System

A conference on new perspectives in school administration was held for elementary school principals in the summer of 1975 by the Confederation of Oregon School Administrators. This paper summarizes material presented in five topic areas by eight speakers. Steve Goldschmidt's talk on school law touched on the administrator's and the school's liability in cases where negligence is alleged, and looked at the extent of the school's right to punish students, search lockers, and confiscate student property. Don Dunbar and Jim Beach discussed preparation for and prevention of teacher strikes from the administrator's perspective. The trend toward contract negotiation between administrators and school boards was Denny Westover's topic. Orville Aue covered evaluation of school personnel using an evaluation by objectives framework. Don Casida and Gene Perry reviewed the Planning Pro-

gramming Budgeting System concept. Barbara Krohn described school public relations, noting the personnel involved, the audiences addressed, and some practical approaches to relations with the community. (PGD)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Community Involvement, Declining Enrollment, Educational Facilities Planning, Educational Finance, Educational Planning, Elementary Secondary Education, Enrollment Trends, Reduction in Force, School Closing, School Districts, School Space, Space Utilization Identifiers—Highline School District WA

Declining enrollment forces school districts to cope with many new problems, but also opens the door to new opportunities. A review of the implications of enrollment decline provides deeper understanding of both the problems and the opportunities. Among the major concerns are the disruptions caused by school closures, the new emphases required in planning, increases in financial pressures as income falls while costs remain high, and reductions in teacher morale as reductions in force occur. The major benefits are to be found in the freeing up of space in previously crowded facilities and the opportunities created for schools to try new programs, including those that reach out to the community. Districts must focus carefully on understanding national and local population trends, finding uses for empty classrooms, and involving the community in decision-making (particularly through participation on task forces). The experience of the Highline School District in Seattle, Washington, suggests that careful planning and community involvement can lead to positive results. This review of enrollment decline concerns concludes with several comments by a panel of educators concerning teacher transfer policies, reductions in force, justifications for employing decline specialists, and problems of socioeconomic isolation of schools caused by population shifts. Descriptors—Conflict, Conflict Resolution, Educational Administration, Elementary Secondary Education, Organizational Climate, Organizational Communication, Organizational Effectiveness, Problem Solving

There are no simple answers to the tricky business of managing conflict within organizations. Almost every conflict is a unique case with its own issues, participants, dynamics, and consequences. Still, it appears possible to differentiate between organizations that handle conflict productively and those that do not. Successful organizations view conflict in neutral terms, use conflict to energize leadership, leave conflict as stronger organizations, and develop systems for handling rather than ignoring conflict. Conflict can lead to several outcomes: deadlock, the victory of one side and defeat of the other, compromise, the integration of both points of view in a new solution, or a purposeful decision to sidestep the conflict altogether. Each of these outcomes is suitable to particular situations; none is appropriate to all; and some are more difficult to achieve than others. The characteristics that seem most positively related to an organization's ability to resolve conflict productively include having an open organizational climate; maintaining clear, accepted organizational goals and roles; establishing effective

problem-solving mechanisms; keeping communication and feedback systems operating; equalizing power among internal groups; encouraging innovation; and developing cohesiveness and mutual trust among organization members. (PGD)

Identifiers—\*Eugene Public Schools OR

National concerns in education and their implications for one local district are the focus of these remarks by a superintendent to his returning staff as he begins his fifth year in the Eugene, Oregon school district. Among the topics addressed are popular attitudes toward education, the achievements of the American educational system through the century, the need to strive for both liberty and equality in education, the threat of conformity, significant changes in society's treatment of young people, the role of the community in the individual's life, the true value of size as a characteristic of institutions, and the role of leaders in today's world. Topics specific to the public schools of Eugene include curriculum development, interactions between school staff members and students, the importance of sharing decision-making among interested parties, the benefits of appropriate appraisal of programs and people, the special education program, and the significant role that can be played by each staff member. Identifiers—\*Board of Education Members, Oregon, Resignation (Job)

Over 100 former board of education members from Oregon completed a questionnaire originally prepared by the "American School Board Journal" for the purpose of investigating why school board members leave their positions. This document presents the full results of the Oregon survey and also provides a summary of the findings and an analysis of their implications for school administration. The survey revealed that the most frequently cited reasons behind members' resignations were that being on the board took too much time, working with federal government agencies was too difficult, and the member no longer had children in school. Over 50 percent indicated they'd consider serving again. The members were most satisfied with their contributions to improvements in personnel practices, educational programs, and facilities. Nine of 10 supported the concept of local lay control of public education. Other responses to the questionnaire provided information on the characteristics of the members, their districts, and their campaigns for office. The implications drawn from analysis of the findings consist primarily of specific actions that school boards and school administrators can take to eliminate unnecessary effort on the part of board members and to enhance the board's ability to focus on significant concerns. Like other social sciences, education has not yet established widespread consensus concerning its own elemental truths. Seeking absolute solutions to the problems of education under such conditions is futile, frequently resulting in the rejection of the good aspects of educational concepts when those concepts fail to meet expectations as educational curricula and are replaced by the next popular conception. The most promising and responsible approach to solving these problems is to encourage variety and eclecticism in the hope of constructing a broad base of knowledge from which a truly scientific educational theory can eventually be developed. Pub Type—Guides - Non-Classroom (055) — Col-

lected Works - Serials (022)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Decision Making, Educational Needs, Elementary Education, \*Instructional Materials, \*Reading Materials, \*Reading Material Selection, Reading Programs

Selecting elementary school reading program materials that will function as sharp and forceful teaching tools requires answering at least six basic questions: (1) What are the socioeconomic status, age, and grade levels of the students concerned? (2) What do these students need to be taught? (3) Who are the resource people available and how will they be used? (4) Which books meet the school's general needs? (5) Do the component parts of the program assist with classroom organization? and (6) Which books should be adopted? This guide provides specific strategies to follow when answering these questions. The document suggests looking for programs with a common instructional core and an initial emphasis on phonics, and for program elements that expand the teacher's repertoire of skills, encourage flexible grouping of students, enable teachers to use both direct instruction and discovery learning, and help increase time on task. The selection committee is urged to submit its recommendations to the program's intended users for final review. Forms designed to aid decision-making at each stage of the selection process are included. (PGD)

This document presents diagnostic and prescriptive techniques that will enable teachers to enhance secondary school students' learning through reading in content areas. Three terms used in the document are defined in Section I: "vocabulary skills" include word attack skills, sight word skills, and word meanings; "comprehension skills" are literal, inferential, and critical in nature; and "study skills" focus on using appropriate study strategies, reading speeds, and information location and selection skills. Section II reviews diagnostic procedures that allow teachers to match appropriate materials with students' entry vocabulary and comprehension. The Cloze procedure and the use of informal reading

inventories are covered. Section III presents material on vocabulary instruction, discussing guided reading strategy, vocabulary building methods, dictionary use, contextual analysis, word attack strategies, diagnosis, instructional design, and presentation. Section IV covers aspects of comprehension instruction: matching students and materials, establishing purposes, reviewing and synthesizing, and utilizing questioning methods. Study skills instruction is the topic of the fifth and final section. Subtopics presented are: utilizing organizational features, surveying the selection, using graphic aids, asking questions, adjusting reading rates, reading and reviewing the materials, using study guides and time saving techniques, and employing peer tutoring. \*Curriculum Alignment

Curriculum alignment means determining precisely what is intended to be taught, teaching that specifically, and measuring specifically what was taught. This paper contends that the alignment of objectives, actual teaching, and the means and content of testing are essential to effective schooling. The logical arguments of three authorities—Wilbur Brookover, Alan Cohen, and George Behr—are presented in support of the idea of alignment. Four techniques suggested for approaching the alignment problems recognize the complexities of the school context and the probable necessity of dealing with some of the elements of alignment as prerequisites. These are: (1) spelling out the implications of goals and objectives in behavioral terms; (2) content analysis of tests; (3) instructional program analysis; and (4) curriculum program analysis. The fifth approach, that of goal and objective formulation, is presented to show that alignment questions must be addressed from the very beginning. The paper concludes by advising that the entire curriculum and instructional program of a school or district cannot be subjected to an alignment effort simultaneously. Provided there is an overall scheme, the program can be examined and adjusted in sections. (MLF)

Identifiers—\*Policy Analysis and Simulation System

Policy Analysis and Simulation System (PASS) is an interactive microcomputer model that can be used by educational administrators, policy-makers, and planners to simulate and forecast, under conditions of environmental uncertainty, the impact of strategic policies on the projected trends and goals of educational performance. PASS generates alternative futures by incorporating various analytic procedures with the subjective judgments of experts to produce a single possible scenario that compares a simulated future with three alternative forecasts for the same period. PASS is a menu-driven program that operates on an Apple IIe microcomputer with

a single disk drive and a printer. A graphic display of the program and 12 references are appended. (MLF)

Identifiers—\*Excellence In Education, \*High School and Beyond (NCES)

Data from the High School and Beyond study—restricted to over 800 regular public school students from a population of 18,684 who completed test batteries in both their sophomore and senior years—are analyzed in this report. Included in the cluster of 12 school variables are school policies, school resources, and school practices. The student-body characteristics cluster includes the home background and individual characteristics such as the Socioeconomic Status (SES) index along with five psychological measures and a quantity-of-instruction variable. Outcomes examined are from three major skill areas (verbal, mathematics, and science), along with a test composite measure. Statistical analyses reveal that the variable contributing most strongly to senior achievement is the sophomore test performance. The student-body characteristics exhibiting a strong positive relationship with the test composite are socioeconomic status, locus of control, quantity of instruction, and parent involvement. Concluding the paper are 28 references, 4 data tables, and an appendix describing the selected variables. (MLF)

Identifiers—\*Augusta Unified School District 402 KS

To improve the existing junior high school's academic and activities programs as well as the school environment, a school superintendent and a middle school consultant teamed with others to effect the transition of a 7-9 grade junior high school plan to a 6-8 grade middle school plan in Augusta, Kansas. The overall plan was basically simple and straightforward: assess needs, develop alternative education participants, collectively decide courses of action, gain support, push for reform, initiate phasing-in plans, finalize decisions, evaluate progress, and share findings. The consultant examined all academic records in reading and mathematics for students then in grades 4-9. The school nurse supplied data for heights and weights for these same students. Principals and their assistants, at all grade levels, were interviewed for insights into both academic and social growth characteristics of these students. The consultant and superintendent met with several groups of school and community people to assess attitudes, concerns, and interest in school improvement. Based on the students' characteristics and the concerns of the school and community members, a series of concerns and recommendations emerged. The basic planning model used in the

organizational change is presented along with some general principles of operation that should be followed in making a transition to a different organization of classes in a district. (MLF)

Descriptors—Educational Environment, Elementary Secondary Education, Extended School Year, Nontraditional Education, \*School Schedules, Teacher Employment, Work Environment, \*Year Round Schools

Year-round schools offer a wide enough variety of scheduling options and educational benefits that all districts should consider adopting a locally appropriate year-round format. The traditional 9-month school year is based not on educational considerations but on the economic conditions that prevailed in preindustrial society—conditions that no longer affect most schools. Three basic types of year-round schools can be distinguished: multitrack schools that accommodate larger numbers of students than traditional programs, schools using single-track programs, and schools that have adopted extended school years by increasing the number of days students attend. In addition to permitting greater flexibility in handling enrollment cycles, year-round scheduling permits more effective use of teaching staffs. Increases in teachers' work years can justify salary increases, but it is not necessary for the additional time to go solely into instruction. Professional development and administrative duties can also be accommodated, providing refreshing variety in the teacher's work. Year-round scheduling has been found particularly beneficial for students ranking in the lower 50 percentiles academically as well, particularly since time away from formal instruction is reduced, yet the studies do not show that other students are hurt. Identifiers—Loose Coupling Theory, Sustaining Effects Study

Reductions in resources and increases in external demands place schools under pressure that can be relieved to some extent by organizational changes. When resources are sufficient, these changes may take the form of technical rationality—that is, decisions concerning policy and practices are made on the basis of neutral, measurable data rather than professional judgments. When resources are not sufficient, districts often turn to corporatist representation, drawing outside groups into the decision-making structure. Both strategies increase organizational certainty by decreasing the extent to which outside interests can assume control over the organization's practices. This report reviews the aspects of organizational theory used to explain educational systems—institutional theory and loose coupling theory—and explains why these concepts support the hypothesis that external pressures would lead to organizational changes of the types found. Particular attention is paid to the problem of legitimizing authority in school organizations and the role of technocratic corporatism in this legitimizing process. The rest of the report describes the study, its methodology, and its findings. Data were drawn from government sources and from the 1976-77 Sustaining Effects Study, a survey of super-

intendents and principals in over 240 school districts across the country. Tables are included. (PGD)

Descriptors—Adult Students, Continuing Education, \*Distance Education, Foreign Countries, Higher Education, Independent Study, \*Lifelong Learning, Nontraditional Education, Student College Relationship

Distance education programs often try to prove their legitimacy by using methods and materials as similar as possible to those used in traditional, classroom-based, lecture-oriented courses. Since off-campus students must exhibit a certain level of independence and self-guidance to succeed, it might be more reasonable to tailor educational experiences to exploit the possibilities of independent study, including the individual life situations in which students find themselves. This focus on independence and personal experience is also characteristic of Edgar Faure's concept of lifelong learning, which encourages learning from informal as well as formal sources, learning guided by learners, and concern with real-world experiences and problems. Some aspects of the lifelong learning model that are not typically included in distance education programs are: (1) using formative assessment of student progress, (2) tailoring learning strategies to individual situations, and (3) using real-world criteria in evaluations. It appears possible and desirable for distance education programs to incorporate successfully many more of the characteristics of lifelong learning than has typically been the case, but evidence from the field suggests that strong pressures exist in favor of using conventional educational approaches. Identifiers—Canada, \*University of Waterloo (Ontario)

Students taking university-level courses through distance education have special needs, primarily because of their isolation from immediate contacts with instructors and special facilities. Developing instructional methods to meet these needs is important if the quality of distance education is to be high. Schools established solely to provide distance education, such as Britain's Open University or Canada's Athabasca University, are committed to instructional development and the adequate training of instructors. But schools that provide a conventional, campus-based program and a distance program too often treat the distance program as merely an inferior version of the traditional program and give only token recognition to the special needs of the students. The University of Waterloo in Ontario offers distance education to 6,000 of its 25,000 students and has a small office of instructional development. This office has worked with other campus offices and departments on several projects, including conducting a major research study of program students, organizing workshops for both students and teachers, developing study skills materials for students, and consulting on preparation of an instrument for evaluating distance education. Still incomplete but in process is an effort to improve course design for distance education. (PGD)

Identifiers—Canada, University of Waterloo (Ontario)

The impact of the computer on education may be greater than the impact of any other technological innovation since the development of the printing press. Although distance education has relied more extensively on technological means for delivering education to its students than has traditional classroom-centered education, most distance programs use technology only to the extent that different modes of transmitting education are required by circumstances. Major efforts to use broadcast media, satellite transmission, or computer networking as basic modes of delivery have been limited to schools where distance education is the central emphasis. In most other cases, including the University of Waterloo in Ontario (where the administrative uses of computers and the extent of computer education efforts have been particularly important), costs and logistics have limited efforts to design and produce computer-based instructional delivery systems for off-campus students. Areas in which such efforts can be expected to bear fruit first include the speeding up of communication between students and schools, and the introduction of computer education courses relying on student-owned equipment. In any case, the technology should not serve as a reason to change delivery systems, but as a means for doing so. (PGD)

Identifiers—Canada, University of Waterloo (Ontario)

Distance education is frequently offered by conventional universities that also serve traditional, on-campus students. These "dual-mode" institutions face several special problems, many of which go unrecognized by those responsible for overall university administration. The experience of the University of Waterloo in Ontario, which with 6,000 off-campus students has become Canada's major dual-mode university, has brought to light many of these special problems: (1) distance education programs often develop informally and never become focused, purposefully administered educational efforts; (2) distance programs all too frequently generate substantial income that benefits the institution in general but not the program or its students; (3) distance program students are frequently accorded second-class status by decision-makers because of their low profiles on campus; and (4) those who serve distance learners often mistakenly assume that the needs of distance students are identical to the needs of those on campus. Additional problems develop when (5) dual mode schools try to adapt traditional student support services rather than create new ones; (6) the distance learner's main link with the school is an under-trained teaching assistant; and (7) distance program instructors are encouraged to pursue traditional discipline-based research but not encouraged to conduct research on aspects of distance learning or to concentrate on teaching. Instructional Evaluation: Current Issues and Future Directions.

Pub Date—Apr 85

Note—11p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150) — Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Educational Objectives, \*Evaluation Needs, Student Evaluation of Teacher Performance, Teacher Effectiveness, \*Teacher Evaluation, Teacher Improvement, \*Teaching Methods

The future of instructional evaluation will probably involve responding to changes in the goals of both teaching and evaluating teachers. The inadequacies of student achievement tests as measures of educational effectiveness will lead to a shift of interest away from tests and toward the abilities of students to solve problems, use learning strategies successfully, and structure knowledge. Examination of the methods teachers use to develop these abilities in students, as well as to motivate students, should be a central feature of evaluation in the future. Evaluation itself can be improved by increasing the amount of data upon which evaluations are based, including data generated by the teachers themselves; developing more reliable systems for obtaining students' responses to instruction; and maintaining a positive tone in evaluations to provide encouragement to teachers. The future of evaluation will also turn on the effects of evaluation processes on institutions in their entirety, including the effects of frequency of evaluation and the effects of evaluating teachers as opposed to curricula. Descriptors—Data Collection, \*Educational Assessment, Educational Planning, Educational Quality, Elementary Secondary Education, State Departments of Education, State Programs  
Identifiers—Colorado, Excellence in Education

The Colorado Department of Education undertook the establishment of an educational quality database that would contain the information necessary for measuring the effects of various efforts at educational improvement. Five major planning concerns had to be resolved before the database itself could be established. First, it was determined that methods were needed for monitoring student achievement and educational quality, for analyzing the effects of past reform efforts, and for projecting future needs and trends. Second, five levels of policy decision-making were identified: school, district, state, national, and international. Decisions at each level are affected by indicators of educational quality and by recognition of factors that influence educational quality. Third, a review of data currently being collected will permit streamlining present data collection processes and increasing the usefulness of the data gathered. Fourth, an adequate system for informing the public of assessment results and plans for change can be developed using printed reports, news conferences, and personal presentations. Fifth, the database development effort itself can provide benefits before the database is completed and in use. Information gathered in the process can inform the public and be used to support changes in policy, regulations, and legislation. An outline of Colorado's educational quality indicators and a summary of the state's Educational Quality Act of 1985 are appended. (PGD)

Descriptors—Artificial Intelligence, \*Educational Technology, Educational Trends, Elementary Secondary Education, Futures (of Society), Special Education, \*Technological Advancement, \*Technology Transfer

A study to determine how three advanced technologies might be applied to the needs of special education students helped inspire the development of a new method for identifying such applications. This new method, named the "Hybrid Approach," combines features of the two traditional methods: technology-push and demand-pull. Technology-push involves creating new technologies before markets are identified; demand-pull strategies focus on identifying user needs and developing technologies to meet them. The hybrid approach identifies existing applications of technology in one field and forecasts their future applicability to situations in another field. Five steps are involved: (1) defining the technology, (2) identifying current uses of the technology, (3) obtaining specialists' views of the potential applicability of the current uses to new settings, (4) rating the scenarios developed in the previous step according to their chances for success, and (5) disseminating information about the potential uses found. A modified Delphi technique was used for the hybrid approach in the study. This paper draws on one aspect of the study (concerning applications of artificial intelligence technology to special education) as an illustration of the workings of the process. (PGD)

Patterns of Interpretation and the Autobiographical Method—Some Remarks for Educators.

Pub Date—Feb 85

Note—12p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Autobiographies, Behavior Patterns, Elementary Secondary Education, Personal Autonomy, \*Personality Assessment, \*Self Evaluation (Individuals), Student Development, \*Teacher Behavior, Teacher Responsibility, Teachers, Teacher Student Relationship

Teachers have the paradoxical dual responsibility of fostering children's personal autonomy while ensuring that the children follow necessary rules affecting their health, safety, and educational development. Unfortunately, it is not always easy to determine when children should be allowed freedom and when they need regulation, and on occasion teachers may overstep reasonable bounds in either direction. The teachers' behaviors in these cases may be seen as the results of interpreting the situations in question using patterns of response developed earlier in life. To understand why these situations are inappropriately interpreted, teachers must review their own pasts and identify the incidents that gave rise to those patterns of response, then analyze the reasons behind the relationships between the incidents and the response patterns. A promising tool for this self-study is the autobiography. Ideally the autobiographical text will consist of responses made during an interview, since the respondent is less likely under interview conditions to find ways to present the past in a self-serving light. The autobiographical material can then be analyzed by the teacher for clues to his or her present behavior. (PGD)

Identifiers—Minnesota

The formulas used to determine the financial sup-

port available to Minnesota's school districts from the state are presented in this booklet along with examples of their application in a hypothetical district. The booklet first reviews a number of terms used in discussing Minnesota's aid program, then describes the foundation programs and categorical programs available. The foundation programs are funded through a combination of state aid and local property taxes, and include basic foundation aid, a cost differential allowance, minimum aid, shared-time aid, summer program aid, a declining enrollment allowance, and four additional tiers of aid replacing previous state aid programs. The booklet explains how each of these aid sources is tapped, how state and local contributions to each are established, how present aid components and previous programs compare, and how the elements of the aid formulas are determined. Categorical aid programs covered in the booklet provide support for capital expenditures, community education, early childhood family education, programs for the gifted and those limited in English proficiency, interdistrict cooperation, special education, transportation, vocational programs, and other programs. The booklet concludes with discussions of property tax relief, property tax levies, district operating revenues, and educational finance appropriations. (PGD)

Descriptors—\*Educational Change, Educational Needs, Educational Objectives, Educational Trends, Elementary Secondary Education, \*Global Approach, \*International Education, Postsecondary Education

Identifiers—\*Excellence in Education

An analysis of four major reports on the current quality of education in the United States turned up very little concern for international education. "A Nation at Risk" and the reports of the Education Commission of the States, the Twentieth Century Fund, and the Carnegie Commission for the Advancement of Teaching were examined and the major issues they addressed determined. Few of the reports referred to the kind of world children will live in—a world characterized by interconnectedness, interdependence, and a global interest in survival. Any definition of international education involves six broad categories of study: (1) area studies and foreign language, (2) multicultural and intercultural education, (3) international relations, (4) international development studies, (5) global issues education, and (6) education with a global perspective. Only one of the reports addressed more than one of these categories, and then only briefly. The content and tone of the reports suggest both a shift away from concern for equality in education and a growing tendency toward ethnocentrism. Studies have revealed an increasing lack of awareness of the outside world among American students. The failure of the major commission reports to address this issue is cause for considerable concern. (PGD)

Identifiers—Davis School District UT, Utah State University

This document describes a partnership program for administrator training that the Davis (Utah) School District has established with the College of Education at Utah State University. This program was initiated because of the district's anticipated need for a large number of new administrators, coupled with the availability of numerous top teachers for administrative training and the preference of the district for administrators who are attuned to the local culture and district philosophy. It also served the needs of the university for greater exposure to public school systems, and it provided them with an effective way to revise their curriculum. In developing the model for the program, the first step was to review the administrative/supervisory curriculum in order to determine which courses should be strictly preservice and which could be either preservice or inservice courses. The latter courses were completely revised by teams consisting of university and school district personnel, so that they could be delivered in discrete modules to working staff. Admission requirements and program costs are discussed, and tables are interspersed throughout the text to illustrate the structure of the preservice and inservice curricula. (TE)

Educational Standards, Accountability, and Student Assessment: Legal and Administrative Considerations for Competency Testing.

Pub Date—Aug 83

Note—75p.

Pub Type—Information Analyses (070)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Academic Standards, Accountability, Back to Basics, Competency Based Education, Court Litigation, Educational Objectives, Educational Quality, Elementary Secondary Education, \*Minimum Competency Testing, School Law, \*Student Evaluation

Identifiers—Illinois

Minimal competency testing of students can be an effective tool for improving educational quality if applied appropriately with adequate safeguards. The failure of academic standards through grade inflation, a policy of social promotion rather than academic promotion, and weak curricula has reduced public confidence in education and encouraged legislative and judicial bodies to become involved in setting educational policy. Legislatures have backed efforts to develop and institute minimal competency testing. The courts have accepted such tests as graduation requirements, but only upon adequate notice. Educators have begun to adopt several measures to reestablish meaningful academic standards, including higher graduation and university admission requirements, competency-based education programs, and renewed emphasis on "basic" subject matter. Minimal competency testing can be a valuable addition to these measures provided it does not become the sole criterion for academic advancement or lead to teaching for the test. Competency tests cannot measure all aspects of education equally effectively, and should be used in combination with other methods. Programs for establishing and administering minimal competency testing should include due process safeguards, valid and reliable tests, and provisions for remediation and for staff development in diagnostic and remedial skills. Ten recommendations affecting use of minimal competency testing conclude the document. (PGD)

Theory Z and American Education in an Advanced Industrial Society.

Pub Date—Oct 82

Note—39p; Report prepared for the American Institute of Architects.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Architectural Character, \*Economic Change, \*Educational Facilities Design, Educational Needs, Educational Trends, Elementary Secondary Education, \*Futures (of Society), Models, \*Sociocultural Patterns, Socioeconomic Influences, \*Technological Advancement

Identifiers—\*Theory Z

Suggesting that a major socioeconomic transformation is underway in American society, this paper discusses seven elements of an emergent post-affluent society: (1) the demographic effects of the "baby boom" generation; (2) the emergence and recognition of a post-affluent consciousness; (3) the recognition of the transcendental nature of many wants

and needs; (4) the related reforms in households and workplaces; (5) transformation in sex roles toward an androgynous culture; (6) continuing discontent with unequal distribution of income; and (7) patterns of uncertainty and indecision among large-scale organizations including the federal government and Fortune 500 corporations. The results of this transformation may depend on the success of Theory Z and the achievement of a new "System Z," which will be dependent upon, and dominated by, information-intensive technologies. Effective education and training will be essential to the achievement of greater productivity and a new prosperity. It is also suggested that the emergence of a new "high tech" society is partially responsible for the post-modernist movement in architecture and the arts and may influence the design and content of educational facilities as well. Identifiers—Jung (Carl G.), Memes

This paper argues that the emerging discipline of sociobiology has the potential of doing what epistemologists, developmental psychologists, psychoanalysts, and ethologists have been unable to do: to provide a theory documenting our inherited dispositions as reflected in cultural evolution and personal development. Accordingly, the paper begins with a summary of the basic concepts of sociobiology, and then shows how these concepts are compatible with a number of theories already applied in education, such as those of Piaget, Kohlberg, Chomsky, and Jung, which describe certain inherited behavioral or psychological patterns. A central concern of sociobiologists is an inquiry into the natural selection processes that govern the evolution of human culture. Elements of culture—"memes"—which can be communicated but not subdivided—are selected according to some criterion of value. The major tasks that sociobiologists face are: (1) describing the nature of these "memes" or bits of culture, which then evolve in a competitive process; and (2) identifying the values-based on inherited predispositions—that determine the survival of one set of memes over another. *The Federal Role in Education. An NEA Policy Paper. Revised Edition.*

National Education Association, Washington, D.C.

Pub Date—Jun 82

Note—32p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Educational Legislation, Educational Principles, Elementary Secondary Education, Federal Aid, \*Federal Government, \*Federal Programs, Federal Regulation, Foundations of Education, \*Government Role, \*Government School Relationship, \*Politics of Education, Public Policy

Identifiers—\*Department of Education

This paper presents a set of arguments in support of maintaining a cabinet-level Department of Education. It first traces the history of the federal role in education, which was established early in the history of the United States and has evolved over the decades through a series of specific responses to the nation's educational needs. It has never been as a comprehensive plan to nationalize American education. The next chapter presents a threefold rationale for federal involvement in education: to broaden access to education, to enhance the quality of education, and to provide financial assistance to local school districts. Federal education programs are needed because (1) state and local agencies are unable or unwilling to protect the political, economic, and educational rights of the disadvantaged; (2) improvement of the education system is a constant and important goal; (3) the federal government's tax base is broader, and its taxes are less regressive than state and local taxes; and (4) certain activities, such

as research and information collection and dissemination, are solely national level functions. A series of appendices provide a fact sheet on the Reagan Administration's proposals to dismantle the Department of Education and a summary of the accomplishments of the department, along with a letter to Congress describing right-wing attacks on the Department of Education, and a list of national associations supporting the Department of Education Coalition. Identifiers—Education Consolidation Improvement Act Chapter 1, \*Mississippi

An overview of public education in Mississippi during the 1983-84 fiscal year, from the point of view of the state department of education, is presented in this annual report. The report opens with a letter from the state superintendent that reviews major changes in the structure of state educational administration: the appointment of a new nine-member State Board of Education, the board's appointment of a state superintendent of education (an action replacing the previous elective process), and a reorganization of the state Department of Education. The report identifies the nine state board members and lists their recommendations to the 1985 session of the state legislature. The remainder of the report is devoted to reports highlighting significant activities and programs run by the divisions handling administration and finance, Chapter 1 oversight, instruction, junior colleges, school construction and transportation, and vocational and technical education. Charts and tables displaying education's share of state expenditures, trends in Scholastic Aptitude Test scores and primary grade enrollment, and current levels of teacher employment and salaries conclude the document. Legal Issues in Educational Order: Principals' Perceptions of School Discipline Policies and Practices.

Pub Date—Apr 85

Note—14p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Administrator Attitudes, \*Discipline, \*Discipline Policy, Due Process, \*Federal Regulation, National Surveys, Principals, School Policy, Secondary Education

Identifiers—School Discipline Policies Practices Study (NCES)

A preliminary review of early responses to a questionnaire sent to secondary school principals across the United States revealed that most administrators felt more rigorous due process procedures should be followed in discipline cases than those required by federal regulations and school policies. The principals also tended to believe that corporal punishment should be permitted under certain circumstances and that both inadequate teacher training concerning discipline and a lack of adequate alternative programs for students were the major factors limiting schools' abilities to maintain order. The 120 completed questionnaires from which these findings came were the first returns from the National Center for Education Statistics' study of School Discipline Policies and Practices. A random sample of 900 public schools housing secondary grades was selected to participate in the survey. The survey questions focus on the procedures required before short-term suspensions, the training given teachers, the use of corporal punishment, perceived obstacles to achieving discipline, practices implemented to improve discipline, and the current extent of discipline problems. Particular attention was paid to the impact of federal court decisions on school discipline policy and to the relationship of school policy to actual practice. (PGD)

Linking the Behaviors and Activities of Secondary School Principals to School Effectiveness: A Technical Report. Final Report.

Oregon Univ., Eugene. Center for Educational Policy and Management.

Spons Agency—National Inst. of Education (ED), Washington, DC.

Pub Date—Aug 85

Note—72p; For a related document, see ED 258 322.

Pub Type—Reports - Research (143) — Information Analyses (070)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Administrator Role, Critical Incidents Method, Leadership, Models, Predictor Variables, Principals, \*School Effectiveness, Secondary Education

This document reports on a study undertaken to identify specific behaviors of secondary school principals that are effective or ineffective in promoting positive school characteristics. The researchers first searched the literature to find an organizational model that would take into account the organization's goals, the means for measuring achievement of the goals, and the factors responsible for their achievement. The literature was further searched to determine accepted characteristics of effective schools. Eight characteristics were identified: recognition of achievement, a positive environment, articulation of the curriculum, support for instruction, high expectations, collaborative planning, instructional leadership, and parental involvement. A modified version of the Critical Incident Technique was then used to interview 55 individuals in Oregon and Kentucky who had had frequent opportunities to observe administrators. These observers cited over 1,000 instances of effective and ineffective principal behavior. The researchers and a panel of experts agreed that 335 of these were related to specific school characteristics, either positively or negatively, and found another 315 to be either effective or ineffective in relation to more than one characteristic. The document contains a discussion of how these 650 behaviors relate to the eight school characteristics and to the principal's organizational leadership role. Appendices include a four-page bibliography and statistical tables. (PGD)

Alternative Education Programs for Disruptive Students.

New Jersey State Dept. of Education, Trenton.

Pub Date—Jun 84

Note—35p.

Pub Type—Guides - Non-Classroom (055) — Information Analyses (070)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Behavior Problems, Discipline, Elementary Secondary Education, Guidance Programs, Program Content, \*Program Development, Program Evaluation, \*Program Implementation, \*Programs, Student Behavior, Student Needs

Identifiers—\*Alternatives to Suspension

This guide provides information about various types of alternative education programs that address the educational and behavioral needs of disruptive students. The programs suggested are aimed at students whose behavior is so disruptive that they must be removed from classes or from the school for varying lengths of time. These programs provide disruptive students with the special support and assistance they need to develop more responsible patterns of behavior, while helping them succeed in school and preventing them from interfering with the learning of others. The document has three major sections. The first derives a conceptual framework for developing alternative educational programs from the literature. The second describes individual program models identified as effective by the National Diffusion Network and the National School Resource Network. The third and last section describes a planning and implementation approach that might be applied to both program model selection and program implementation at the local level. The guide includes a list of general references and references on other programs for "at risk" students. (PGD)

Identifiers—Chicago Public Schools II, Dual Language Text

This bilingual handbook, in English and Spanish on facing pages, is intended to provide general information to Chicago (Illinois) public school parents about school discipline. After two brief introductory chapters that set forth the scope of the issue, the third chapter provides the following general guidelines for discipline programs in effective schools: establish high expectations for student behavior; develop clear rules; apply the rules consistently; praise as well as punish; don't disrupt learning; suspend only as a last resort; don't let students be anonymous; and plan to avoid future misbehavior. The fourth chapter addresses legal codes and issues pertaining to discipline in the Chicago Public Schools. The fifth chapter is a discussion of alternatives for school discipline programs, while the sixth chapter provides advice and precautions for evaluating a school's discipline program. The final chapter, "Take Action," sets forth general principles and tactics to follow in bringing about needed changes in school discipline. Two appendices are included: (1) an extensive list of approaches for improving school discipline, listing both advantages and disadvantages of each approach; and (2) two sets of interview questions, for principals and for students and parents. Public Attitudes toward Education Spending: The Role of Attentiveness to Local Schools.

Pub Date—31 Mar 85

Note—18p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Community Attitudes, Elementary Secondary Education, \*Local Issues, Multivariate Analysis, \*Public Opinion, School Community Relationship, \*School District Spending, \*School Support, Surveys, Tables (Data)

Identifiers—Illinois

This analysis examines the factors associated with a positive attitude toward the funding of local schools. Using data from a 1984 survey of 1,000 Illinois residents, the analysis found that attentiveness to local school issues was the strongest predictor of a positive attitude toward school spending. Suburban residents were less likely to be concerned about the level of school funding than were other Illinois residents, but this may reflect the relatively better funding base for suburban schools. Middle-income respondents in Chicago were significantly more likely to see public schools as underfunded than were other Chicago or Illinois residents, while middle-income residents of downstate areas were the least likely to see their schools as underfunded. The analysis concludes that, given the large impact of attentiveness on spending attitudes, it is important for local school leaders to identify and work with school attentives and that scholars should seek to better understand the sources and patterns of attentiveness to local schools. Identifiers—National Catholic Educational Association

This booklet is produced by the National Catholic Educational Association (NCEA) for sponsors of programs that prepare people for the principalship of Catholic schools: archdioceses and dioceses, colleges and universities, and religious orders. After a brief introduction that describes recent changes in the ecclesiastical and organizational context of the Catholic school principalship, the first chapter recommends procedures for use in recruiting qualified program applicants and provides a list of required qualities and competencies. It also suggests procedures for screening and assessing qualified applicants, interviewing them, and making a decision. The second chapter lists curricular topics and NCEA resources for a Catholic principals' training program, and discusses various approaches to teaching and learning. The third chapter presents a policy and design for evaluation of both the candidate and the training program itself. The conclusion briefly discusses five additional items of concern for sponsors of a Catholic principals' preparation program: record keeping, resources (both material and human), participant recognition, participant placement, and geographical and financial accessibility. An appendix lists graduate programs in private/Catholic school administration at Catholic colleges and universities. (TE)

**Human Action and Social Structure in the Study of Schools as Organizations.**

Pub Date—85

Note—33p.; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Educational Philosophy, \*Educational Sociology, Elementary Secondary Education, Foundations of Education, Marxian Analysis, Organizational Objectives, \*Organizational Theories, Politics of Education, Research Needs, Research Problems, \*Socialization, \*Social Theories, Systems Approach

This paper presents a critique of various theoretical traditions in the study of schooling. Both the predominant liberal tradition of social and educational theory, with its roots firmly in structural functionalism and human capital theory, and the more radical reproduction tradition, which builds largely on Marxian and Weberian analyses of society, are found to be inadequate in enabling satisfactory understanding of schools as organizations. Neither seems capable of affording satisfactory explanations of the mediations of large-scale social, cultural, and economic influences and structures in the specific circumstances of individual schools. A research approach is therefore advocated for bridging the gap between macro- and micro-analyses, and for working toward a more complete understanding of schools as organizations. Six pages of references conclude the paper. (TE)

Descriptors—\*Cooperative Programs, \*Credits,

Enrichment Activities, \*Experiential Learning, Field Experience Programs, Independent Study, Internship Programs, \*Nontraditional Education, School Community Programs, Secondary Education, State Standards, \*Supplementary Education, Transfer Programs, Vocational Education, Work Experience Programs

Identifiers—\*Credit Alternatives

Credit alternatives allow local school systems to take advantage of community learning resources as an enrichment for, or supplement to, school learning experiences. The first part of this handbook describes credit alternatives that may be used by local school systems to provide individualized curricula for diagnostic and prescriptive instruction. Three major examples of credit in lieu of enrollment programs are credit by examination, exemption by examination, and independent directed study. Five major examples of credit for planned off-campus experiences include (1) enrollment in courses at other institutions; (2) joint enrollment programs with community colleges or technical schools; (3) training internships with community or government agencies; (4) work-study cooperative programs; and (5) travel or enrichment programs. Attendance options and systematic planning considerations for development of credit alternatives are also listed. The second section, "Awarding Credit for Off Campus Experiences," describes an experience-based career education program in Dawson County and Franklin County High Schools (Georgia). It discusses present Georgia policies in relation to awarding credit and how the procedures developed in this project might be helpful to policymakers in credit determination for community-based learning programs in their own schools. Worksheets for job analysis are included, along with seven appendices: package goal checklists, student profile, needs/goals, learning plans, monitoring progress, summary evaluation, and student resume. Identifiers—Georgia, Georgia State Department of Education, Instructional Leadership

This handbook provides resources for curriculum directors and other instructional leaders in Georgia school systems to assist in reviewing, evaluating, and updating their instructional programs. The first section lists the various roles of the central office instructional leader, presents a model of the domains of instructional supervision, and discusses certification requirements, communication responsibilities, and professional growth opportunities. The second section is a detailed discussion of an instructional supervisor's three areas of primary responsibility: curriculum development, staff development, and improving classroom instruction. The third section lists services provided by various divisions of the Georgia Department of Education. An extensive set of appendices provide the following: (1) sample job descriptions, (2) requirements for certification and classification of school personnel in Georgia, (3) materials to assist in curriculum planning, and (4) Georgia codes and policies relating to instruction. Identifiers—Maine, Maine State Dept. of Educ and Cultural Services, National Institute of Education

The goal of Maine's Dissemination Capacity Building Project—the Information Exchange—is to build a comprehensive system for disseminating current information resources to Maine educators at every organizational level. This report begins with an abstract describing three major components of the information exchange: (1) a computerized information service; (2) a two-level system for supporting local school improvement, aimed at meeting the needs of individual educators and local school systems; and (3) developing the Maine Department of Educational and Cultural Services' capacity to provide leadership and support for the two previous components of information dissemination. An outline of specific objectives and activities of the project follows, along with a detailed comparison of resource dissemination before and after the building project. Remaining sections discuss current legislation for full state funding of the information exchange, effects of the program thus far, and equity issues, while the conclusion summarizes the functions of the information exchange. Appended are a variety of sample brochures and public relations materials. (TE)

Identifiers—\*Excellence in Education

In the attempt to improve achievement test scores, schools may overlook affective activities and events as well as processes and procedures that influence students in positive ways. The self-fulfilling prophecies held by teachers, administrators, and others for their students and the self-concepts the students hold for themselves are two major psychological notions that serve as a base for educational concerns. Using the mass of recent national reports on school improvement as its point of reference, this paper offers the following 10 strategies for improving the school climate: (1) make students feel important, (2) make students feel invited, (3) deal with needed changes in others from a positive point of view, (4) learn to make appropriate nonverbal cues, (5) get to know each student personally, (6) learn to empathize, (7) establish parameters, (8) use student-centered instruction, (9) learn to know and understand the difference between discipline and punishment, and (10) be enthusiastic about teaching. The references list eight citations. (MLP)

**Developing Public Confidence in Schools.**

Pub Date—17 Oct 85

Note—14p.; Paper presented at the Annual Meeting of the Midwestern Educational Research Association (Chicago, IL, October 17-19, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Administrator Attitudes, Elementary Secondary Education, \*Public Support, Questionnaires, \*School Community Relationship, School Effectiveness, Surveys, \*Teacher Attitudes

The characteristics and activities of schools with positive public images were identified in order to guide other schools in their efforts to reestablish effective relations with their communities. Recent polls reflect a serious decline in the public view of education, and the resulting confidence gap has created much difficulty for American public schools. A

national commission established by Phi Delta Kappa to study this problem used survey cards and questionnaires to gather data from the identified schools. Preliminary results showed that public confidence at both the building and district levels was largely determined by teacher and administrator attitudes. Other important factors were special programs, building and grounds, and student achievement. These results suggest that schools could improve their public relations by working directly on attitude improvement and by developing programs and efforts based on periodic needs sensing techniques. Identifiers—Wisconsin, Wisconsin Department of Public Instruction

This guide, the first volume in a 12-part series produced by the Wisconsin Department of Public Instruction, is an overview of the planning process for curriculum development in all subject areas. It explores ways to review, revise, create, and evaluate curricula, along with sample plans and organizational patterns that encourage staff participation. The first section discusses the purposes for developing this and the 11 subsequent subject-area guides. The second section discusses the process of curriculum development, including administrative organization and support for change, the climate for change, and the responsibility for curriculum development. The third section discusses subject-area curriculum development under four headings: planning, content of the subject area guide, implementation, and evaluation. Sample surveys, checklists, philosophies, and goals and objectives are included to serve as starting places for discussion and as models which may be adapted to local needs. The fourth section is a set of 15 appendices that provide a wide

range of resources and guidelines for problematic areas in curriculum development, including time allocation, controversial issues, censorship, educational freedom, media specialists, use of print materials, bias in curricular materials, sexism, ethnocentric materials, career planning material selection, and computers in education. Also included in these appendices are a list of organizational resources, a checklist for program evaluation, sample writing objectives, and Wisconsin statutes that affect curriculum. (TE)

Descriptors—Academic Rank (Professional), \*Athletic Coaches, Athletics, Elementary Secondary Education, \*Nonprofessional Personnel, \*Personnel Policy, \*Personnel Selection, Physical Education Teachers, Questionnaires, School Personnel, \*Staff Utilization

Identifiers—Wisconsin

An investigation has been made of the cause, extent, and administrative effect of the use of non-faculty athletic coaches—individuals not employed as professional staff members in the districts in which they coach—in small (fewer than 360 students) public high schools in Wisconsin during the 1983-1984 school year. The hiring of these people may be attributed primarily to the unwillingness of certified staff members to coach because of dissatisfaction with various aspects of the job, especially the time required, the relatively low compensation, and the attitude of students. The use of non-faculty coaches has increased more than 400 percent between 1977-1978 and 1983-1984. Seventy percent of small high schools in Wisconsin employ them. Administrators have expressed general satisfaction with the performance of non-faculty coaches, believing their employment necessary for the existence of adequate athletic programs. The chief problems arising from the use of these coaches lie in the area of effective supervision of students and the need to relate athletics to the overall school program. (Author/TE)

Identifiers—Connecticut, Connecticut State Department of Education

This manual was written to assist local school districts in fulfilling the 1984 legislative mandate of the Connecticut General Assembly that requires schools to develop, adopt, and implement written policies concerning homework, attendance, and promotion/retention. The first section offers a brief discussion of the process of policy development, characteristics of good policy, and the relationship between policy and administrative procedures. The next three sections focus on attendance, homework, and promotion and retention policies. Each section offers a short discussion of the topic, a listing of key elements that should be considered for inclusion in board policy or administrative procedures, and illustrative examples of how these elements have been treated by some Connecticut districts. An appendix lists members of the statewide committee that was formed to review policies on attendance, homework, and promotion/retention. (TE)

Identifiers—ERIC, National Institute of Education, Vermont, Vermont State Department of Education

This document comprises Vermont's final Five Year Management Report to the National Institute of Education on its Capacity Building Dissemination Project grant (1980-1985). The overall goals of the grant were (1) to develop a two-way communication network among the Vermont Department of Education, other public and private agencies, and Vermont local school districts; (2) to identify existing educational information currently available for distribution; (3) to identify, collect, and evaluate new and potential education information resources within Vermont and put them into format for widespread dissemination; and (4) to plan for future dissemination needs of the state by exploring computer-based dissemination systems. After a brief introduction, the paper discusses leadership positions and responsibilities as they evolved over the five-year period. Existing resources are described, including the ERIC system, the Vermont Educational Resource Base (VERB), equity packets, and computers. The fourth section discusses linkages with Vermont's Resource Agent Program, its Inservice Institute, the Vermont Educational Computer Technology Organization (VECTOR), and other state and federal agencies. The final section discusses plans for institutionalization of the project. Extensive appendices provide (1) impact studies conducted during the five-year period of the grant and (2) a detailed comparative table showing results of the project. (TE)

The goals of the Arkansas Capacity Building Dissemination Project (Project AID—Arkansas Information Dissemination) were to (1) increase the use of information for decision-making in Arkansas, (2) increase implementation of beneficial programs and practices in Arkansas schools, (3) develop a strong dissemination and communication staff at the Arkansas Department of Education (ADE), and (4) coordinate and strengthen all ADE dissemination efforts. This final project report addresses each of these goals and gives an outline of project activities and accomplishments. After a brief introduction, the three major components and activities of the project are described: building resources, building linkages, and building coordination and leadership. A detailed comparison of ADE dissemination resources before 1980 and at the conclusion of Project AID is also included. The subsequent discussion covers institutionalization of Project AID, its approach to equity issues, its effect thus far, client responsiveness and satisfaction, significant learnings about dissemination, and the establishment of collaborative relationships. Extensive appendices

include a variety of related brochures, information sheets, statistics, financial reports, an annotated bibliography on parental involvement, and an end of year report for 1984-85. (TE)

Identifiers—National Institute of Education, Tennessee, Tennessee Career Ladder Program, Tennessee State Department of Education

The purpose of the Tennessee Dissemination Capacity Building Project was to build an information acquisition, retrieval, and referral system. This system, known as Project Support, provided information models in order to foster a capacity for a comprehensive State Department of Education dissemination system. The dissemination system provided information to local school system personnel and department personnel in a usable format and within a time frame necessary for responding to immediate needs. The activities of the project and department have focused on providing technical assistance to practitioners in the use of information. The project has also used the teacher centers in the state as linkers. An advisory committee was also established to provide assistance in the implementation of the project. After an introductory overview of these activities, a detailed comparison is provided of dissemination activities in Tennessee before 1978 and at the conclusion of the grant. This is followed by a discussion of the institutionalization of dissemination activities, the approach to equity issues, and the effects of the project. Findings and recommendations derived from the dissemination project are then enumerated and discussed. A bibliography is included, and supporting materials are appended, along with a description of Tennessee's Career Ladder Program. (TE)

Identifiers—California

This report sets forth 27 recommendations by the California Commission on the Teaching Profession for improving California schools. After an outline summary of the recommendations and an introductory discussion of education as California's "growth industry," the recommendations are presented according to three general topic areas. The first ten recommendations pertain to restructuring the teaching career and establishing rigorous professional standards. These include deregulation of teacher education, residency requirements for credentials, a redesigned tenure process, competitive grants for advanced career options, salary credit for total years of experience teaching, and sabbaticals. The second set of 10 recommendations pertain to

redesigning the school as a more productive workplace for teachers and students. These include proposals for class size reduction, professional development, and restructuring the management of schools to involve teachers in decision-making. The third set of recommendations—pertaining to teacher recruitment—include upgrading of salaries, recruiting teachers statewide, and offering career incentives such as work-study programs and additional service-payback fellowships to college students. Appended to these recommendations are (1) a look at the price tag; (2) a table indicating agencies responsible for implementing each recommendation; (3) a fictional scenario illustrating the benefits of these reforms for a teacher's career; (4) documentation of the process of developing the recommendations; (5) a list of commissioned research papers; and (6) a list of commission members. EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Behavior Disorders, Elementary Secondary Education, \*Gifted, \*Models, \*Program Development

Identifiers—\*West Virginia

The conference paper examines West Virginia's process-product model used to develop educational programs for exceptional students (behavior disordered learners and intellectually gifted learners). The background of the program is discussed, and requirements of the state's master plan are outlined. Noted are findings and recommendations of task forces on the education of behavior disordered students and of gifted students. Task force reports address issues of philosophy, educational goals, curriculum goals, and program delivery. Recommendations for the task force on behavior disordered students include study of the needs of multihandicapped behavior disordered students, and the development of a K-12 continuum of learning outcomes for the content areas of behavior management, emotional/social education, language and communication training, leisure skills, and daily living/survival skills outlined in the program of study for autistic students. The task force on gifted education emphasizes the cultural role of the teacher. The use of Individual Education Plans (IEP) is also discussed, and school composite profiles, which show students' levels of achievement by area, are described. The paper highlights the need for gifted students to have the optimal opportunity for intellectual growth. (CL)

Requirements for Preparing Regular Class Elementary Teachers for Education of Exceptional Children.

Pub Date—Nov 84

Note—14p; Paper presented at the Annual Conference of the Teacher Education Division of the Council for Exceptional Children (7th, Las Vegas, NV, November 7-9, 1984).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Degree Requirements, \*Disabilities, Mainstreaming, \*Preservice Teacher Education, \*Special Education, \*Teacher Education

A descriptive study designed to assess the types of requirements used to prepare elementary preservice regular class teachers for education of the handicapped surveyed 102 schools granting a baccalaureate degree in elementary education and accredited by the National Council for Accreditation of Teacher Education. Most accredited programs either had requirements or are planning to implement requirements for training regular class elementary teachers for work with the handicapped. Results

indicated that a variety of special education courses and a combination of requirements are used to prepare regular classroom teachers for educating exceptional children. A "survey" class and/or "mainstreaming" course are the two most widely required special education classes. Additionally, most schools infuse special education information into required regular education classes. Experience with exceptional children in a special education setting was not found to be a widely used requirement in these teacher preparation programs. Requirements were also not found to be different or specific to public or private institutions or related to the population size of the schools. (Author/CL)

Creativity and Self-Concepts in First-Grade Children: Is There a Link?

Pub Date—Apr 85

Note—19p; Paper presented at the Annual Meeting of the Western Psychological Association (San Jose, CA, April 18-21, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Behavior Rating Scales, \*Creativity, Grade 1, \*Prediction, Primary Education, \*Self Concept

A creativity test along with both a self-concept battery and a behavior rating scale were administered to 55 first-grade children to see whether there existed a link between certain self-concepts such as anxiety, dependency, ego strength, attention, sense of identity, social conformity, behavior, intellectual and school status, physical appearance, popularity, and happiness with creativity. The scores on the various self-concepts were obtained by pre-determined scales on two of the tests. The creativity measure was graded objectively from an adaptation of Torrance's Creativity Measure. The results indicated that social conformity was the best predictor of creativity, accounting for 20% of the variance. The second best predictor was the child's sense of identity which accounted for about 5% of the total variance. The remaining variables contributed only a small amount of the total variance accounted for. (Author/CL)

Oral Language Disorders Program. Language Is a Group Experience.

Washington School District, Phoenix, Ariz.

Pub Date—Jun 83

Note—12p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Communication Disorders, Elementary School Curriculum, \*Intervention, \*Language Acquisition, Primary Education, Program Effectiveness, \*Speech Therapy

The paper describes the Oral Language Disorders Classroom (OLDC), an approach providing intensive speech and language therapy and academic support to students with severe communication disorders in a primary classroom setting. The OLDC emphasizes preparation for quick return to the regular classroom. General school curriculum is modified and supplementary materials are designed to stress success in academics. The curriculum is organized around six units: self, family, school, community, plants, and animals. Program evaluation data are discussed, including changes in articulation and functional language communication skills, and in discrepancy between chronological age and language age. (CL)

The Effects of Early vs. Late Cerebral Lesions on Verbal Learning and Memory in Children.

Pub Date—Apr 85

Note—9p; Paper presented at the Meeting of the Society for Research in Child Development (Toronto, Ontario, Canada, April 25-28, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adventitious Impairments, Age Differences, Cerebral Dominance, Congenital Impairments, Elementary Secondary Education, Memory, \*Neurological Impairments, \*Neurological Organization, \*Verbal Learning

The study sought to determine whether children with unilateral cerebral lesions sustained either pre-

nately or postnatally suffer from deficits in learning and memory skills and whether these differentiate left-sided from right-sided lesions. The subjects, 69 children ranging in age from 6 to 17 were divided into four patient groups: hemiplegic Ss classified on the basis of hemispheric side and age at injury (i.e., prenatal vs. postnatal groups). As controls, 16 normal children were matched for age and IQ to 16 Ss in the prenatal left hemisphere group. Ss completed neurological and neuropsychological evaluations, measures of somatosensory and motor function, and assessment of visuo-perceptual memory skills. Among conclusions were that Ss with left cerebral lesions demonstrated verbal memory deficits compared with controls and Ss with right cerebral injuries; the magnitude of verbal memory deficits was greater in left cerebral lesions acquired after birth and as early as 2 months of age; and that, in general, results did not support the notion of plasticity and language sparing, suggesting that even with very early lesions of the left cerebral hemisphere there are persistent verbal memory and learning deficits. Microcomputer Analysis of Children's Language Samples.

Pub Date—7 Oct 85

Note—39p; Paper presented at the Council for Exceptional Children/Division for Early Childhood National Early Childhood Conference on Children with Special Needs (Denver, CO, October 6-8, 1985).

Pub Type—Speeches/Meeting Papers (150) — Guides - Non-Classroom (055)

EDRS Price - MF01/PC02 Plus Postage.  
Descriptors—\*Communication Disorders, \*Computer Assisted Testing, \*Computer Software, Elementary Secondary Education, Evaluation Methods, Language Skills, \*Language Tests

The workshop paper examines the use of microcomputer packages to analyze spontaneous language samples of children with communication disorders. Advantages of computerized analysis are seen to include time saving, more efficient data management, and increased objectivity. To help consumers determine which programs to buy, four aspects are discussed: types of needed information, current information being obtained, type of available computer hardware, and backgrounds and attitudes of personnel involved. Language analysis software is then examined in terms of capabilities, time, user friendliness, cost, and local application. Three software packages for language analysis are examined: Lingquest 1, PANEL, and SALT. Advantages, limitations, and possible applications of each program are explored. (CL)

The Use of Teacher-Judgment Measures in the Identification of Gifted Pupils.

Pub Date—85

Note—49p; Support for this project provided by the Pickering Fund.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Definitions, Elementary Secondary Education, \*Gifted, Research Methodology, Research Needs, \*Talent Identification, \*Teacher Role

The paper intends to assess the psychometric properties of teacher-judgment measures for identifying gifted students in terms of the available empirical data. Problems of definition are cited, and the neglect and disparagement of teacher judgments as an alternative identification strategy are noted. The major conclusion from the review is that there is little basis for the negative assessments so often associated with these measures. Methodological flaws and weaknesses are cited. The paper includes a set of recommendations regarding the use of measures in the identification of gifted pupils (including expansion of the use of teacher judgments) and a set of recommendations regarding future research on the measures (including the need for more adequate definitions of the gifted construct). A nine-page bibliography concludes the paper. (CL)

The Modifiability of Maternal Language Use and Its Effect on Delayed Child Language Acquisition.

Pub Date—Oct 85

Note—21p; Paper presented at the Council for Exceptional Children/Division for Early Childhood National Early Childhood Conference on Children with Special Needs (Denver, CO, October 6-8, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Communication Disorders, \*Delayed Speech, \*Language Acquisition, \*Language Handicaps, \*Mothers, \*Parent Education, Program Effectiveness

To examine the effectiveness of a maternal intervention curriculum, 40 mothers and children with varying degrees of language delay were assigned to one of two intervention groups matched on child characteristics. Program impact was assessed through standardized tests (the Sequenced Inventory of Communicative Development to measure whether intervening with mothers appreciably affected children's overall receptive and expressive language levels, the Bayley Mental Scale or the Pictorial Test of Intelligence to measure whether intervention appreciably affected children's IQ) and a coding system designed to measure reciprocity of early mother/child language usage in the free play interaction. As hypothesized, 14 of 16 mothers who participated in the project decreased their use of directive speech compared to only 7 of 12 controls. A second hypothesis, that project mothers would increase use of contextual speech relative to controls, was also supported. A final hypothesis, that project mothers would increase usage of both expansions and extensions relative to controls, was not supported. (CL)

Interfering with Sentence Comprehension in the Deaf.

Pub Date—Nov 84

Note—8p; Paper presented at the Meeting of the Psychonomic Society (San Antonio, TX, November, 1984).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—College Students, \*Deafness, \*Learning Processes, \*Memory, \*Reading Comprehension, Sign Language

Eighteen deaf college students performed two tasks designed to investigate possible alternative codes of reading and remembering. First, Ss judged the meaningfulness of sentences with or without a concurrent task (intended to interfere with either articulatory or visual-spatial coding). Secondly, Ss remembered a list of six letters presented visually, where lists were composed of letters that were similar phonologically, graphemically, or dactylally. In contrast to hearing Ss, deaf Ss showed no effect of concurrent articulations on sentence plausibility judgments. Surprisingly, a concurrent visual imaging task slowed judgments for both groups about equally. Also, the proportion of "phonological" or "visual" errors in the letter-memory task did not correlate with the degree of articulatory or visual inference in the sentence task for either group. The results do not indicate greater reliance on visual codes during reading by the deaf. (CL)

Descriptors—Agency Cooperation, Coordination, Demonstration Programs, \*Disabilities, \*Outreach Programs, Preschool Education

Identifiers—Final Reports

The report documents progress in 1981-82 toward six objectives of a model preschool outreach center for handicapped children. Activities and accomplishments are discussed for the following six objectives: (1) increase awareness of needs and programs (present at a minimum of 10 state or local meetings); (2) develop, refine, and field test products for dissemination (conduct needs for assessment to determine what new materials are needed by the field);

(3) provide training and technical assistance (develop outreach training needs and agreements); (4) coordinate with institutions of higher education for workshops and conferences (attend workshops and conferences to share information); (5) provide assistance to state education agencies and other agencies (work with key state level agencies); (6) work through established networks in an interdisciplinary approach (design and implement interagency agreements, monitor all interagency service delivery). Descriptions of five adoption programs are provided. Two appendixes include letters of support and results of materials and training needs surveys. (CL)

Identifying the Gifted and Providing for Their Education: An Evaluation of School Based Procedures in the Edmonton Catholic School System. Part II: An Evaluation of the Honors Program in Archbishop MacDonald High School.

Alberta Dept. of Education, Edmonton. Planning Services Branch.

Pub Date—Jun 85

Note—103p; For Part I, see ED 259 518.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC05 Plus Postage.

Descriptors—\*Academically Gifted, \*High Schools, \*Honors Curriculum, Program Evaluation

The report presents findings from an evaluation of an academic high school in Edmonton, Alberta. Following Stake's Responsive Model, the various stakeholder groups (such as trustees, administrators, staff and students) were identified and interviewed or given questionnaires. Observations are presented in terms of four topic areas: (1) characteristics of the school, (2) description of the honors program, (3) stakeholder views and intents, and (4) scores on attitude measures. A Section on concerns and problems raises issues regarding philosophical and operational considerations. Among findings discussed are that the special program was being delivered largely as planned and was serving an identifiable group of students who were happy with the program. Recommendations include continuation of the program, study of the selection procedures, establishment of uniform definitions for honors courses, and more direct involvement in the program by central office staff. Alternative Assessment Techniques for High Risk Preschoolers.

Pub Date—[83]

Note—14p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Disabilities, Evaluation Methods, \*Handicap Identification, High Risk Persons, \*Preschool Children, Preschool Education, Screening Tests, \*Student Evaluation

Alternative systems are suggested for appraising preschoolers for possible inclusion in early special education programs. Frequency sampling, in which diagnosticians analyze performance of certain tasks predictive of school performance, are seen to be potentially valuable but lacking in accuracy. Examination of co-occurrences—interactions between the child and the environment—is suggested as one way to view children's abilities and disabilities. Additional diagnostic approaches described are play assessment, measurement of affective development, and appraisal of children's language acquisition. The alternatives are explained to mirror cognitive development. (CL)

Is Your District Considering a Preschool Special Education Program?

Pub Date—[82]

Note—10p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Disabilities, \*Handicap Identification, High Risk Persons, \*Intervention, \*Preschool Education, Program Effectiveness

Two assumptions underlying preschool programs for high risk students are examined: the belief that measurement instruments are available for diagnosing children who will eventually require some form of special education and that intervention will be

beneficial to the child. Diagnosis favors teacher interaction with the student in an instructional setting over individual instrument evaluation. Intervention involves a variety of aspects which must be considered in determining effectiveness. These include the delivery agent (home based or school program) and growth dimension (academic achievement or cognitive ability). Cited studies support the validity of early assessment and the effectiveness of intervention programs at the preschool level. (CL)

Descriptors—\*Artificial Intelligence, \*Computer Managed Instruction, \*Disabilities, Educational History, Elementary Secondary Education, \*Special Education

Identifiers—\*Expert Systems

The application of artificial intelligence to the problems of education is examined. One of the most promising areas in artificial intelligence is expert systems technology which engages the user in a problem-solving dialogue. Some of the characteristics that make expert systems "intelligent" are identified and exemplified. The rise of expert systems is reviewed, and selected present and potential applications of expert systems to the field of learning disabilities are presented, such as the development of an instructional prescription based on assessment information, the classification of students based on assessment information, and the selection of appropriate behavior management strategies based on classroom observational data. Descriptors—\*Early Childhood Education, Elementary Secondary Education, Ethics, Futures (of Society), Instruction, \*Mental Retardation, Multiple Disabilities, \*Public Policy, \*Research Problems, \*Severe Disabilities, Severe Mental Retardation, \*Trend Analysis

The monograph examines issues affecting the future of handicapped people generally, and mentally retarded people specifically. E. Meyen introduces the volume and describes how the issues were identified. H. Turnbull and P. Barber, in "Perspectives on Public Policy," discuss such issues as defederalization, redefinition of handicap, and professional ethics. R. Yoshida's "Perspectives on Research" follows with a discussion of four research topics: (1) appropriate assessment, (2) components of educational programs for mentally retarded students, (3) post-school adjustment of mentally retarded students, and (4) normalization of institutionalized mentally retarded students. "Perspectives on Severely Multiply Handicapped," including selective abortion, fetal surgery, euthanasia, and educability are examined by D. Lehr and F. Brown. Among the "Perspectives on Early Childhood Education" noted by A. Rogers-Warren and C. Poulson are family involvement, technology, and challenges in service delivery. In the final paper, "Perspectives on Instruction," J. Gottlieb and M. Alter review data on classroom effects as well as on teacher instructional behavior and curriculum considerations affecting handicapped children. (CL)

Descriptors—Adaptive Behavior (of Disabled), \*Clinical Diagnosis, \*Criteria, Elementary Secondary Education, \*Handicap Identification, Intelligence Quotient, \*Mental Retardation, \*School Psychologists, Surveys

School psychologists (N=119) were surveyed regarding current practices in diagnosing children with mental retardation. Results showed a wide range of responses for diagnostic criteria. Substantial discrepancies were found in relative weight given to intelligence and adaptive behavior, IQ cut-offs and ranges, importance of various areas of adaptive behavior, adaptive behavior deficits, and academic performance deficits. The need for standardization of criteria in diagnosing mental retardation is noted, and the likely results of diagnostic variation, less than equal access to special education programs, is also discussed. Evaluation Methods, \*Models, \*Multiple Disabilities,  
\*Program Evaluation, \*Severe Disabilities

The paper describes an interactive evaluation process based on E. Brown's transactional evaluation model, and its application to evaluating programs serving children with severe and multiple disabilities or other low incidence populations. The model emphasizes the first part of the assessment process, determining which questions to ask and what kind of information can provide suitable answers. Individualization of the evaluation design is accomplished through structured interactions with interested parties. Such meetings allow program staff, students, parents, administrators, advocates, and others to participate in the evaluation design. Subsequent meetings with these same parties allow for additional input and improve prospects for implementing change. (Author/CL)

Descriptors—Environmental Influences, \*Generalization,  
Literature Reviews, \*Self Control, \*Severe Disabilities

The report describes second year efforts of a 5-year investigation of skill generalization among severely handicapped students. An overview section introduces the Washington Research Organization, noting its administration and management and its major emphasis on the collection of descriptive data and laboratory research, research in natural educational settings, evaluation, and communication. Basic research concepts in generalization are reviewed. The four approaches to generalization are summarized: (1) studies in ecological variables, (2) studies in performance patterns, (3) studies in self control, and (4) studies in strategy implementation. The second part addresses each of the four generalization strategies by means of research reviews: training in the natural environment and skill generalization, response competition and generalization, teaching retarded students to reinforce their own behavior, and social skills training. Descriptors—Autism, \*Behavior Disorders, \*Definitions, \*Delivery Systems, Elementary Secondary Education, \*Program Development, Program Implementation

Identifiers—\*West Virginia

The report presents findings of a West Virginia task force on a program study for behavior disordered students in early childhood education, middle childhood education, and adolescent education. The first section presents a synopsis of studies on current research and best practices in the education of behavior disordered students. The conclusions include that academic, behavioral, and emotional/

social deficits will decrease with early and appropriate intervention. Additional sections of the report include programmatic definitions for the education of behavior disorders and of autism; a program of study for behavior disorders which outlines six components (basic learning outcomes, behavior management, emotional/social education, career education, leisure skills, daily living and survival skills) and a program of study for autism with six components (behavior management, language and communication training, basic learning outcomes, daily living skills, career education, leisure skills); a discussion of alternative methods and techniques in service delivery; program assurances regarding monitoring and evaluations; recommendations to be submitted to the West Virginia Board of Education; and roles and responsibilities in implementing programs for the education of behavior disordered students in West Virginia. Appended materials include lists of articles, books, and non-print media resources for teachers, as well as books for children and adolescents. (CL)

How Our Understanding of Reality Develops.  
Swedish Inst. for the Handicapped, Bromma.

Pub Date—Jun 85

Note—37p; Produced in cooperation with the ALA (Adjustment of Life and Work) research foundation of the National Association for Retarded Children, Youngsters and Adults.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Child Development, \*Cognitive Development, Elementary Secondary Education,  
\*Intellectual Development, \*Mental Retardation

This booklet is intended to help teachers and prospective teachers of mentally retarded students to understand the ways in which intellect affects the understanding of reality. Its recommendations are based on G. Kyles's theory of the intellect and J. Piaget's theory of intellectual development. The initial section describes the function and organization of the intellect as well as the intellect's use of structure. Chapter 2 traces four levels of intellectual development through five categories of reality (space, time, quality, number, and cause). Each of these five categories is addressed in terms of the intellect and different levels of development. (CL)

Kyle, Gunnar

The Intellect and Intellectual Handicaps.  
Swedish Inst. for the Handicapped, Bromma.

Pub Date—Jul 83

Note—43p; Produced in cooperation with the ALA (Adjustment of Life and Work) research foundation of the National Association for Retarded Children, Youngsters and Adults.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Abstract Reasoning, Elementary Secondary Education, Environmental Influences,  
\*Intellectual Development, \*Mental Retardation,  
\*Personality Traits, Theories

This guide describes, from the perspective of J. Piaget's theories, the nature of intellectual handicaps and their significance for cognitive development, personality development, and interaction with the environment. A description of intellectual capacity and intellectual development is followed by an analysis of the role of intellectual capacity in personality dynamics and in a person's interaction with the environment. Among topics considered are intellectual function related to abstraction level and the role of emotional experiences in personality. The second section describes intellectual handicaps, reviews different levels and etiology, and examines the personality dynamics involved. The paper concludes with an analysis of intellectual handicaps and interaction with the environment. (CL)

Kyle, Gunnar

Aids-Intellectual Aids: A Conceptual Investigation.

Swedish Inst. for the Handicapped, Bromma.

Pub Date—Nov 82

Note—13p; Produced in cooperation with the ALA (Adjustment of Life and Work) research foundation of the National Association for Retarded Children, Youngsters and Adults.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Classification, Cognitive Develop-

ment, \*Intellectual Development, \*Mental Retardation, \*Sensory Aids

The paper describes ways in which tools, or aids, can promote the interaction of mentally retarded persons with their environment. A classification of these aids is proposed according to psychological characteristics (such as senses, intelligence, knowledge, decision making, and action) as well as types of interaction (such as comprehension, communication, and physical influences). Intellectual aids are discussed in terms of space, time, quality, quantity, causes, and the importance of their accessibility for intellectually handicapped persons. (CL)

The Effects of Integrated Settings vs. Segregated Settings on the Adaptive Behavior of Mentally Retarded Children: A Review of the Literature.

Pub Date—[85]

Note—12p.

Pub Type—Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Adaptive Behavior (1 f Disabled), Elementary Secondary Education, \*Interpersonal Competence, \*Mainstreaming, \*Mental Retardation, Peer Relationship, \*Student Placement

The paper reviews literature on placement of mentally retarded students and the effects on adaptive behavior. Research cites the importance of social skills, intervention to benefit from integrated placement and touches upon the role of nonhandicapped peer trainers. Among findings noted are an increase in constructive peer interactions resulting from mainstreamed placements, imitation of modeled behavior by severely retarded children in mainstreamed settings, and increases in positive social interaction along with decreases in inappropriate behavior. The paper concludes that such benefits tend to be the result of using age appropriate nonhandicapped peer models. A three-page bibliography concludes the paper. (CL)

A Case Study of Technical Assistance to Demonstration Programs for Young Handicapped Children. Part III.

North Carolina Univ., Chapel Hill. Technical Assistance Development System.

Pub Date—[83]

Note—113p.; For Part I, see ED 204 982; for Part II, see ED 229 934.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC05 Plus Postage.

Descriptors—\*Case Studies, Delivery Systems, \*Demonstration Programs, \*Disabilities, Preschool Education, \*Technical Assistance

The report describes the third and final year of a 3-year case study of the technical assistance process as implemented by the Technical Assistance Development System (TADS) for the staffs of two demonstration programs for preschool handicapped children and their families. Following a review of TADS and the two demonstration programs, the development of the conceptual framework for the study is recounted. The bulk of the report is devoted to case reports of the technical assistance delivery process as it occurred during fiscal year 1981-82. A story-telling approach is used to present the observations regarding settings, individuals, events, and interactions. Processes described include initial needs assessments, phone conferences, followups, on-site and off-site consultations, and final interviews. (CL)

Recreation Therapy: Implications for the Ventilator Assisted Child.

Pub Date—Aug 85

Note—16p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Speeches/Meeting Papers (150) — Guides - Non-Classroom (055)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Elementary Secondary Education, \*Home Programs, \*Leisure Time, Parent Education, Recreational Activities, \*Special Health Problems, Staff Role, \*Therapeutic Recreation Identifiers—\*Ventilator Dependence

The paper examines the role of the recreation therapist in the new trend towards home care for the ventilator assisted individual. The focus on home care necessitates that the recreation therapist familiarize parents with the rationale for activities as well as providing them with information about a variety of future leisure pursuits. In addition, emphasis should be placed on providing children with opportunities for control over their environment through adapted recreational equipment. Additional concerns of community reintegration and safety should be explored to promote successful leisure functioning within the home environment. (CL)

Social Influences on Creativity: Interactive Effects of Reward and Choice.

Pub Date—Aug 85

Note—17p.; Paper presented at the Annual Convention of the American Psychological Association (93rd, Los Angeles, CA, August 23-27, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—College Students, \*Creativity, \*Motivation, \*Rewards

In a test of intrinsic motivation hypothesis of creativity, 60 undergraduate women did an artistic creativity task with either the expectation of receiving a reward or no expectation of reward. Reward was crossed with choice in task engagement, such that half of the reward \$s contracted to do the task in order to receive reward, and half simply received the reward as a bonus. As expected, reward and choice interacted significantly; the lowest creativity was exhibited by subjects who had contracted with the experimenter to do the task in order to receive the reward. Results suggest that creativity can be undermined by reward that is presented as contingent upon task engagement. (Author/CL)

Descriptors—\*Computer Assisted Instruction, \*Computer Managed Instruction, Computer Software, \*Disabilities, Elementary Secondary Education, \*Models

The paper examines the application of IMS—Instruction Management Systems—on classroom instruction with exceptional students. IMS, a computer-based material generation and record management software program which has been field tested in secondary school resource rooms in Utah and Idaho, is a unique model in that it includes aspects of both computer assisted instruction and computer managed instruction. Each of the major components of IMS are described: sequenced objectives, placement tests, worksheets (instruction, practice, mastery, and review worksheets), student progress records, and accompanying teacher manual. So far, teacher reactions to the product have been favorable, and it is possible that IMS may soon become a useful "electronic aide" in the classroom. (CL)

De-fusing Dyslexia.

Pub Date—28 Jun 85

Note—27p.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Academic Achievement, \*Dyslexia, \*Exercise, Junior High Schools, \*Motor Development

The paper describes a program in which 11 dyslexic students (grades 7-8) participated in exercises designed to return the brain to its intended wholeness of function. Students were asked to contract certain specified major muscles while performing a speaking or reading task. Corrective exercises were then performed to use both brain hemispheres. Parents were asked to supervise exercises at home. Results suggested that eight \$s showed significant growth in one to six of the testing areas (including academic changes, parental observation of change, oral reading, and information retention). Children with Disabilities in Ordinary Schools: An Action Study of Non-Designed Educational Integration in Pakistan.

Pub Date—Nov 85

Note—88p.; Sponsored by the Pakistan National Council of Social Welfare.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC04 Plus Postage.

Descriptors—\*Disabilities, Elementary Secondary Education, Followup Studies, \*Foreign Countries, Incidence, \*Mainstreaming Identifiers—Pakistan

The study of disabled children attending ordinary schools in Pakistan reports that 1.9% of the 43,416 pupils in urban primary and secondary schools in the Northwest Frontier were reported by their

teaches to have a perceptible disability. The breakdown of specific conditions varied from 32% with speech impairments to 8% with hearing loss. Details are given of class distribution, daily travel arrangements, and estimated severity of impairment. Follow-up of the disabled students gradually involved social workers and school principals. Outcomes of the study include public awareness, delivery of rehabilitation treatment and aids to an estimated 250 disabled children in ordinary schools, and increased government awareness of the needs of this population. Recommendations are offered for the government as well as the schools. (CL)

The Development and Implementation of a Self-Concept Guidance Program for Severely Language Impaired Students.

Pub Date—85

Note—46p.; Ed.D. Practicum Report, Nova University.

Pub Type—Reports - Research (143) — Dissertations/Theses - Practicum Papers (043)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Attendance, Counseling Techniques, Elementary Education, \*Language Handicaps, Program Effectiveness, \*Self Concept

The major goals of the practicum with 12 severely language impaired elementary students were: to increase and enhance the students' low self-concepts, and to reduce absenteeism among the students. A 3-month self-concept guidance program for these students was developed and implemented. Specific guidance activities were conducted in three areas: (1) individual counseling, (2) small group counseling, and (3) classroom guidance sessions. Parent conferences were conducted on a monthly basis. "Good Citizen of the Week" certificates were also earned by the students on a weekly basis at school. After the conclusion of the 3-month guidance program, eight students improved scores of 10 points or higher as measured by a self-concept appraisal inventory. The mean average in self-concept points gained for all 12 students was 20 points. Absenteeism was also reduced among the students by 33%. The teacher of the Severely Language Impaired class stated that the self-concept guidance program had been "very helpful" to her students. (Author/CL)

Jones, Renal

The Development of Speech Workshops and Videotape Library to Train Teachers and Parents of Exceptional Infants and Preschoolers.

Pub Date—85

Note—155p.; Ed.D. Practicum Report, Nova University.

Pub Type—Dissertations/Theses - Practicum Papers (043) — Reports - Research (143)

EDRS Price - MF01/PC07 Plus Postage.

Descriptors—\*Communication Skills, \*Developmental Disabilities, Infants, \*Language Acquisition, \*Parent Education, Parent Role, Program Effectiveness, \*Receptive Language, \*Speech Therapy, Teacher Role, Videotape Recordings, Workshops, Young Children

The practicum focused on the lack of sufficient speech therapy for 90 physically and mentally handicapped infants and preschoolers in a program for developmentally delayed children. Two workshops were conducted and a speech videotape library was established consisting of demonstrations of 49 receptive language goals in developmental order. Videos illustrated how parents or therapists carry out speech goals. Fifteen children, teachers, and parents comprised the evaluation sample. Results from questionnaires, observations/interactional analyses, developmental tests, recording forms, and videotape circulation forms indicated that 100% of the parents and teachers used the tapes, 100% learned how to carry out goals, 100% learned which goals came next developmentally, and 50% of the parents and teachers learned how to simplify goals. In addition, there was a 17% increase in use of proper reinforcers, and 100% of the children progressed in the area of receptive language. (CL)

Descriptors—Case Studies, Curriculum Development, \*Disabilities, Educational Philosophy, \*Foreign Countries, History, \*Mainstreaming, Program Descriptions, \*Program Development, Secondary Education, \*Social Attitudes

Identifiers—England, Italy, Norway, United States

Five case studies illustrate "good practice" in integrating handicapped secondary students. The articles focus on programs in Italy, the U.S., England, and Norway. Papers on the Scuola Di Rienzo on Rome and the Drayton School in Oxfordshire, England describe lower secondary schools. The Rome program was once a special school for physically handicapped pupils, and its evolution into an ordinary school is recounted. The English experience of integration policy is considered, and the Oxfordshire program is described; the program features internal arrangements designed to make the school more personal to its pupils. Success is ascribed to attitudes, relationships, resources/building, organization, and philosophy. The U.S. programs represented are LaFollette High School in Madison, Wisconsin, and North Eugene High School, Oregon. The LaFollette program is described in terms of local public policy, financial resources, the history of desegregation, and the importance of the individualized education program (IEP). Eleven brief case studies exemplify student programming and special support. The Oregon approach focuses on integrating adolescents with handicaps into the public school system. Strategies to facilitate functional, physical, social, and societal integration are described. The final case study describes an experimental upper secondary school in Oslo, Norway. The evolution of the organizational model is recounted, and timetables for two classes are cited to illustrate modifications made in the regular curriculum. (CL)

Training Opportunities Program: Special Education Component, 1983-1984. Final Evaluation Report.

New York City Board of Education, Brooklyn. Office of Educational Assessment.

Pub Date—Oct 85

Note—81p.; Prepared by the Instructional Support Evaluation Unit.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC04 Plus Postage.

Descriptors—\*Disabilities, High Schools, Program Effectiveness, Program Evaluation, Special Education, \*Work Experience Programs

Identifiers—\*Training Opportunities Programs NY

The Training Opportunities Program (TOP), a work experience and training program for New York City high school students, is designed to place students, as trainees, in agencies and businesses with equipment, facilities, and human resources not available in the public schools. In 1983-84, the third year of the program's operation, TOP was funded to serve 2,000 students. TOP has operated a special education component from its inception in 1982-83; this component operates from the Placement and Referral Center for the Handicapped of the Division of Special Education. The program is administered by donated staff from the Placement and Referral Center. The special education component served 255 students in 1983-84. In May, 1984, the program had 174 active trainees at 96 training sites. The 1983-84 evaluation consisted of a descriptive analysis of the special education component, in-person interviews with TOP staff and special education trainees, and telephone interviews with training site supervisors (employers). The majority of the respondents were supportive of the program and had positive attitudes about its activities and outcomes. All of the trainees said they benefitted from participating in the program and cited the practical work experience, new skills, and job seeking strategies learned as major benefits. Eighty-one percent of the supervisors said their agencies would participate in

the program next year and cited the trainee stipend, paid by TOP, and the mutual benefits gained by both students and employers as the primary reasons for their continued involvement in the program. (Author/CL)]

Auxter, David Couzzo, Laurie

Training Teachers of the Handicapped through a Competency Based Format to Instruct Motor Skills.

Spons Agency—Office of Special Education and Rehabilitative Services (ED), Washington, DC.

Pub Date—85

Grant—029AH50223

Note—34p.

Pub Type—Reports - Evaluative (142) — Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Competency Based Teacher Education, \*Disabilities, \*Motor Development, Program Effectiveness, \*Teacher Education

The study explored preparation of 38 instructors of motor skills for the handicapped through a competency-based mastery learning format. Both mastery learning and non-mastery learning formats of instruction were used to train the potential teachers. A systems approach to training was employed in a performance-based practical competency-based format. The mastery learning format involved instructional inputs with protocols which related to practical events, student responses to materials to generalize instructional information, in-class drill with feedback to selected students. Out of class activity, on a volunteer basis, provided additional instruction, drill on concepts, peer evaluations for competency, and peer drill of content. The results indicated that the mastery learning activity produced higher achievement than non-mastery activity. More time was spent by the students per time value of credit awarded in mastery learning activity. Furthermore, there was a significant relationship between the time spent in preparation for the mastery learning component of the course and performance on the examination. (Author/CL)

Descriptors—\*Delinquency, Emotional Disturbances, \*Equal Education, \*Individualized Education Programs, \*Juvenile Courts, Learning Disabilities, Program Evaluation, Secondary Education, Services, Special Education

Identifiers—\*District of Columbia

The report describes an audit by the General Accounting Office (GAO) of services provided under P.L. 94-142, the Education for All Handicapped Children Act, to learning disabled, delinquent, or seriously emotionally disturbed juveniles within the District of Columbia. The movement of a juvenile through the District's Juvenile Justice System is reviewed, followed by a discussion of GAO's data collection on 454 juveniles (173 handicapped and 281 nonhandicapped). Among major study findings considered are that many handicapped delinquents do not receive opportunities for special education, 73% of the individualized education programs do not meet all P.L. 94-142 requirements, and most handicapped delinquents in Youth Services Administration custody do not receive special education. Additional problems were found regarding teacher certification, testing issues, and public schools' monitoring. Recommendations are offered regarding actions by the Board of Education, the Mayor, the D.C. Superior Court, and the Secretary of the U.S. Department of Education. (CL)

Verbal Math Problem Solving: What the Research on Instruction Tells Us.

Pub Date—Oct 85

Note—39p.; Paper presented at the National Conference of the Council for Learning Disabilities (7th, New Orleans, LA, October 4-5, 1985).

Pub Type—Speeches/Meeting Papers (150) — Information Analyses (070)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Disabilities, Elementary School Mathematics, Elementary Secondary Education, \*Mathematics Instruction, Models, \*Problem Solving, \*Verbal Learning

Identifiers—\*Direct Instruction

The paper is a discussion of research on direct instruction and its implications for effective instruction in verbal math problem solving for elementary learning disabled students. Characteristics and problems of conventional programs are reviewed, as are the major features and logic of direct instruction programming. Components of instructional design are noted, including specification of objectives, identification of necessary preskills, and maintenance of acquired skills. The relationship of the direct instruction model to other promising models is analyzed, the feasibility of direct instruction in special education is considered, and obstacles to its implementation are noted. Speech Acquisition and Archetypes: A Developmental Study of Autistic Young Adults.

Pub Date—Dec 85

Note—28p.; Paper presented at the International Symposium on Autism (Geyersville, CA June 3-5, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Descriptive (141)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Affective Behavior, \*Autism, \*Communication Skills, \*Language Acquisition, \*Linguistics, \*Speech Therapy, Young Adults

This paper examines the communication of autistic individuals and describes a speech therapy approach based on a view of speech as an archetypal reality, and suggests that the archetypal nature of speech manifests itself in autistic persons and that drumming or chanting can release the inner flow. Intervention techniques were used to create rapport (meaning-bonds) with two autistic young adults in the course of 8 months of group and individual sessions. In the first instance, pre-linguistic development took place after the age of puberty in an autistic person whose pre-linguistic development had been arrested. In the second case, the young adult increased his vocabulary, sentences, and interaction with other subjects. His success is ascribed to his feeling at ease to respond to people and events, choice of topics and materials adapted to his interest and capabilities, and presentation of materials in small, meaningful units that could be used in differ-

ent communicative settings. (CL)

Literature for Use with Gifted Children.

Pub Date—Sep 85

Note—24p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Children's Literature, \*Creative Development, Curiosity, Elementary Education, \*Gifted, Humor, Language Arts, \*Personality Traits, \*Reading Materials, Student Characteristics, Vocabulary, Young Children

The article examines ways to differentiate the material used in a reading program for gifted students (birth to age 9). Suggested books are provided for the following categories that correspond to recognized characteristics of gifted children: vocabulary (quality retellings of folk tales, word play, poetry, satire, and nuances of language); curiosity (wordless books, imaginative play, informational books on single topics); sensitivity (friendship, peer relationships, relationships with adults); appreciation of beauty (quality illustrations); and humor (absurd situations, sense of fun, and word play). It is concluded that children's literature can become an important part of the reading program and that books can be representative of the strengths of gifted children. (CL)

Descriptors—\*Adults, \*Education Work Relationship, \*Employment, Foreign Countries, International Programs, \*Learning Disabilities, Success, Vocational Education, \*Vocational Rehabilitation

Identifiers—Canada, Denmark, Germany, Great Britain, Netherlands

The collection presents six articles giving international perspectives on learning disabled (LD) adults. G. Gray begins with an analysis of "Vocational Guidance for Dyslexic School Leavers and Adults in Great Britain," in which he notes coping strategies to be used in the workplace and describes the evolution of societal attitudes to LD persons in the United Kingdom. B. Dysegard follows with a look at "The Transition from School to Society in Denmark." "Educational and Vocational Issues: Learning Disabled Adults in the Federal Republic of Germany" is the topic of the paper by U. Bleidick which comments upon that country's organizational flexibility as exemplified in the extension of school attendance to a voluntary 10th year. Among the "Canadian Perspectives on Youth & Adults with Learning Disabilities-1985" considered by C. Smith are views of vocational rehabilitation and barriers to success for LD people. M. Bruck adds a review of data on "The Long-Term Prognosis of Childhood Learning Disabilities: A View from Canada." In the final paper, "Learning Disabled Adults in the Netherlands: A Problem for the Future?" A. Wilmsink and R. deGroot examine effects of structural provisions for LD students in that country. (CL)

Descriptors—Ancillary School Services, Costs, \*Court Litigation, \*Disabilities, Elementary Secondary Education, \*Lawyers, \*Private School Aid, \*Special Education

Identifiers—Related Services, Supreme Court

The memorandum discusses three Supreme Court decisions on special education as well as related cases decided by the U.S. Courts of Appeal. Irving Independent School District v. Tatro is the first case addressed and the implications for provision of related services under P.L. 94-142, the Education For All Handicapped Children Act, are analyzed. Specifically, the question of whether clean intermittent catheterization for a child with spina bifida constitutes a related service is examined. The second case, Burlington School Committee v. Department of Education of Massachusetts, is explored in terms of the court's ruling on reimbursements for private school placements. The final case, Smith v. Robinson, touched off a move in Congress to overturn the Court's decision limiting the ability of parents to recover attorney's fees in cases asserting the educational rights of a handicapped child. Descriptors—Curriculum Development, Elementary Secondary Education, \*Enrichment Activities, Environmental Education, \*Gifted, Language Arts, \*Learning Activities, Outdoor Education, Science Projects, \*Talent, Theater Arts, Writing (Composition)

The document presents a collection of projects developed by teachers enrolled in a 3-week summer institute on teaching various curriculum areas to gifted students. Outlines of 11 projects begin with brief descriptive information on project title, developer(s), grade level, curriculum area, and project duration. The following projects are represented: (1) a district-wide program featuring screening processes, models of delivery, and activities to help teachers feel comfortable with creatively gifted students; (2) a project to increase teacher awareness and involvement in gifted programming; (3) science activities for third graders; (4) a project to promote leadership, decision making, creative problem solving, research, and individual and group production in fifth and sixth graders; (5) a project combining language arts and visual arts through creation of a student magazine; (6) a young writer's conference for grades 6-8; (7) study and creation of editorial cartoons with secondary students; (8) a project in leadership development and self improvement in the outdoors; (9) publication of a student literary magazine; (10) production and performance of a major musical comedy; and (11) an outdoor environmental education project for grades 4-12. Each project description touches upon objectives, teacher and student prerequisites, setting, materials/equipment, procedures, evaluation, and budget. (CL)

Field Articulation: A Review of the Literature.

Pub Date—[79]

Note—11p.

Pub Type—Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Child Rearing, \*Cognitive Style, Elementary Secondary Education, Family Relationship, \*Field Dependence Independence, Interpersonal Competence, Parent Attitudes, Perception Tests, \*Perceptual Development

The paper reviews studies of field articulation, that is, dimensions of field dependence-independence in social as well as perceptual domains. Field independence, one's ability to isolate an item from its surroundings, is contrasted with field dependence, manifested in one's difficulties analyzing and focusing on specific aspects of a task. The paper traces the experimental basis of the field articulation phenomenon from early Gestalt psychologists such as Witkin through ego psychologists such as Rapaport, Kagan, and Kogan. Studies are also addressed that deal with child rearing attitudes and cognitive styles, touching upon such variables as age, social class, sex, and maternal attitudes. The final series of

studies considered examine the relationship of parental child rearing attitudes and cognitive styles in Turkey (marked by a conservative and inhibitive family structure dominated by an autocratic father). (CL)

Pub Type—Guides - Classroom - Teacher (052)  
EDRS Price - MF01/PC01 Plus Postage. PC Not Available from EDRS.

Descriptors—Disabilities, Elementary Secondary Education, \*Home Economics, Learning Activities, \*Learning Centers (Classroom), \*Mainstreaming, Teaching Methods

The manual provides information about using learning centers in mainstreamed home economics classrooms. The initial chapter introduces the rationale for the approach and presents a three-stage model depicting an integrational approach to mainstreaming. Chapter 2 outlines typical characteristics and recommendations for accommodating students with physical disabilities (hearing, visual, speech, and motor impairments); cognitive disabilities (learning disabilities, mild mental retardation); and affective disabilities (emotional disturbances). Chapter 3 offers teaching/learning strategies to accompany decisions in classroom management plans. Chapter 4, on designing and using learning centers, includes a checklist summarizing the steps to be taken and a sample plan for a home economics learning center. A learning center model is illustrated by activities on energy and includes a learning center planning sheet, sample scripts and student evaluation forms, and directions for developing energy flash cards. A Comprehensive Model: Vocational Preparation for Learning Disabled and Behaviorally Disordered Students and Vocational Assessment and Transition Objectives.

Pub Date—[85]

Note—98p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Behavior Disorders, \*Career Education, Career Exploration, \*Consortia, \*Curriculum Development, Daily Living Skills, \*Education Work Relationship, Job Skills, \*Learning Disabilities, Secondary Education, Vocational Adjustment, Vocational Education, \*Vocational Evaluation, Vocational Rehabilitation

The paper describes the efforts of five school districts, five private agencies, and an area vocational-technical school to meet the vocational needs of learning and behaviorally disabled students. The consortium developed a four-phase plan to meet these students' needs: (1) cooperation to set up school-based vocational evaluation services; (2) career exploration and preparation with courses in daily living skills, job readiness, and personal-social skills; (3) vocational preparation through the area vocational school, cooperative occupational education, work study or special classes; and (4) liaison with area junior colleges, rehabilitation agencies, and business and industry. Concerns related to assessment and follow-up were identified and levels of assessment (both formal and informal) were specified to remediate the problems. A bank of objectives to match terminology was also developed for aid in using data from vocational reports for individualized education programs. Consortium members further identified curriculum materials and assessment instruments corresponding to goals and objectives. A final consortium effort addressed educators' concerns over inadequate time to offer both academic and vocational instruction. Appended materials include a list of transition objectives and related curriculum concerns, and information on specific vocational assessment instruments, and various skills checklists. (CL)

The Effects of Maternal Training on Language Use.  
Spons Agency—Educational Testing Service, Princeton, N.J. Inst. for the Study of Exceptional Children.

Pub Date—Sep 82

Note—21p.; Research conducted as part of a doctoral dissertation, Yeshiva University.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Downs Syndrome, \*Interaction, Intervention, \*Language Acquisition, \*Mothers, Parent Child Relationship, \*Parent Education, \*Speech Skills

In an examination of ways maternal training can influence children's language use, 20 mother-child dyads (10 with Down's Syndrome children and 10 with nonhandicapped children) were videotaped during play sessions. Training centered on recognition and response to child intent, techniques for mapping language onto the content which the child is observing, and techniques to promote child request, response, and label behaviors. Analysis of pre- and post-training videotaped interactions indicated differences in maternal speech and response style addressed to the two groups. Data suggested that differences in response styles may be attributable to differences in child responsiveness, as Down's Sa complied less, looked less, answered less, and repeated less than their nonhandicapped peers. Questions were raised about the effects of mothers' didactic strategies with Down's Syndrome Children. (CL)

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC07 Plus Postage.

Descriptors—Counseling Techniques, \*Deaf Blind, \*Definitions, Educational Philosophy, History, Program Administration, \*Psychological Needs, \*Vocational Rehabilitation

The publication is intended to dispel misconceptions about the vocational rehabilitation service needs of deaf-blind persons. The first of five sections presents a history and comments on the philosophy of working with deaf-blind persons. Five programmatic definitions of deaf-blindness are offered. Section 2 addresses communication modes, aids, and devices (such as specific alphabets and braille hand speech) used by this population. The third section examines five topics: (1) administrative issues (legal aspects, program management); (2) a continuum of services (multi-agency collaborative networks, models of interagency agreements); (3) special needs of deaf blind persons (broken down into categories of types of deaf-blindness); (4) counselor concerns (caseload management, orientation and mobility, housing); and (5) the vocational rehabilitation process (training, job development). Section four examines training programs to enable rehabilitation personnel to deal with deaf blind clients and provides a list of resources that can be contacted for assistance. The final section is composed of references and a list of study group members who developed the document. (CL)

Symbols, Phonology, Second Language Instruction, \*Semantics

Identifiers—Kenya, \*Kikuyu, \*Survival Language

The second in a series of three volumes comprising a college-level course in Kikuyu, a Bantu language, this document contains a complete short, intensive course consisting of units organized by semantic categories. Its objective is to provide basic survival speaking and listening skills. The 10 units cover these topics: basic greetings; location; origins; work; negotiation, commands, necessity, time; modifiers; ownership, existence, buying/selling; objects, passives, quotations; auxiliaries, implied quotations, reasons, purpose; and completed action and temporal and conditional expressions. Each unit consists of four quarters covering unit subtopics, and each subtopic quarter includes an introduction to the topic, a set of initial drills, a summary of constructions covered, an inventory of constructions and, in some cases, a vocabulary list. The units also include taped drills and supplementary slides (not included in this document). In a typical university course, this volume would be combined with the longer course outline, "Wirute Gikuyu" (volume 1 of this series). (MSE)

A discussion of the objectives, breadth, and strategies of staff development for bilingual education program supervisors, teachers, teacher educators, and program developers outlines principles for assessing educational needs and planning develop-

ment programs. Recent experience in bilingual program staff development focusing on language teaching methodology and multicultural curriculum development is reviewed, and the common content and task emphases of development programs for teachers, supervisors, and teacher educators at the university level are analyzed. Economic and other resource considerations are discussed, and a practical approach to staff development program planning that involves case study analysis is recommended. Examples of representative case studies are presented along with analysis questions and illustrations of the staff development needs and strategies derived from each case study. Training issues and concerns and suggested program directions for the future are summarized. (MSE)

Puerto Rican Spanish: Linguistic Insecurity.

Pub Date—[85]

Note—29p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Error Patterns, Ethnic Groups, Grammatical Acceptability, \*Language Attitudes, Language Variation, \*Nonstandard Dialects, \*Puerto Ricans, Regional Dialects, School Surveys, Secondary Education, \*Self Esteem, Social Dialects, Socioeconomic Status, \*Spanish, Student Attitudes, Teacher Attitudes

Identifiers—\*Linguistic Insecurity

The three conditions given in the literature for the pervasiveness of linguistic insecurity (a speaker's attitude toward his or her own speech revealed in face to face interaction through the upward or downward shift of language forms) exist in the case of speakers of the Spanish vernacular of Puerto Rico. The conditions are: the rise of a middle class, a fossilized language curriculum, and a dialect stereotyped as inferior. A study of the latent attitudes of insecurity manifested by 104 teachers and students in 3 public high schools on the island assessed such factors as the following: the perceived social status of the students and teachers; student attitudes toward teachers as linguistic role models; attitudes about correctness and the tendency towards hypercorrection; and the prestige of language varieties spoken by various social, occupational, and national groups, including the subjects' own. The survey found the subjects to be generally insecure, particularly at the lexical level of language structure. No significant interaction of the linguistic variables related to linguistic insecurity occurred between or within the subject groups, although they showed a defensive ethnic stance about their linguistic insecurity. A study of the use of the complex Finnish morphological rule system in 45 children, aged 20-24 months, examined the children's inflection of nouns and verbs in speech characteristic of everyday Finnish. Analysis of the correct, unanswered, and incorrect test items found six classes of errors, which were then examined for clues to the underlying psychological processes of the children's speech. The subjects were divided into three speech achievement levels for further error pattern and rule application analysis. Results indicated that the children did not apply the same rule to all morphological forms, with rule selection seemingly guided by the morphological mastery level, form-specific variables, and contextual cues of the test items. It is concluded that further research in the interaction of these variables in different contexts is needed. (MSE)

Aspects of Cohesion and Coherence in Context: Investigating Causes of Difficulty for Israeli University Students Reading Texts in English.

Pub Date—10 Jun 84

Note—363p; Ph.D. Thesis, Hebrew University, Jerusalem. Pages 331-363 are in Hebrew and consist of a summary and selected tables.

Pub Type—Reports - Research (143) — Dissertations/Theses - Doctoral Dissertations (041)

EDRS Price - MF01/PC15 Plus Postage.

Descriptors—\*Coherence, \*Cohesion (Written Composition), \*College English, College Freshmen, Context Clues, Discourse Analysis, \*English (Second Language), Foreign Countries, Introductory Courses, Paragraph Composition, Readability Formulas, \*Reading Comprehension, \*Reading Difficulties, Sentence Structure

Identifiers—\*Israel

A study investigating the influence of certain features of cohesion and coherence on Israeli college students' difficulty in reading English expository texts examined the reader's ability to understand sequences of propositions and familiarity with markers of cohesion. Three methods were used to investigate the problem: application of a readability formula to the texts, several reading comprehension tests of original and altered versions of texts, and discourse analysis. The subjects were 3,600 freshmen at Haifa University attending a required English reading comprehension course. The students' native languages were generally Hebrew and Arabic, and most of them had had seven or eight years of English instruction. The readability formula and discourse analysis were applied to the texts used, and the comprehension tests were administered as a regular part of the course. The findings emphasize the importance of context in reading comprehension by showing that difficulties are not limited to lexical items but are related to the connection between ideas in sentences and paragraphs. Improved instruction in recognition of markers of cohesion and increased focus on relationships between sentences are recommended. (MSE)

## \*Teaching Methods

Identifiers—\*Japan

English language instruction, which is considered very important in Japan, is offered in 90 percent of all secondary schools and is studied by almost all students, even though it is an elective subject. English is considered a cultural and commercial link with the western world and has been taught in Japan since the mid-nineteenth century. Most college students use English as their required foreign language, and hundreds of thousands of Japanese people study English through private language schools, company courses, and radio and television instruction. Most elementary schools, which are municipally controlled, do not provide foreign language instruction, but some elementary school students learn English through private schools as early preparation for academic competition. Most students begin English instruction in junior high school, at age twelve. Very few alternative languages are offered. Junior high and high school courses, which are rigidly controlled, provide preparation for university entrance examinations. Private high schools offer more class hours of English than do public schools. College entrance examinations often contain substantial English portions. Universities generally require two foreign languages, with English the most popular. English teacher education emphasizes traditional curricula, not teaching methodology or language proficiency. La Escuelita, a Warwick (Rhode Island) Spanish language instruction program for children in grades 3 through 6, originated in 1983 in a group-tutoring program and expanded under the auspices of the local Parent-Teacher Association into an after-school activity for all city schoolchildren. The PTA undertook the administrative tasks, and the founders gathered a small faculty. The initial enrollment was 27 students. Policies emphasizing homework and parental involvement were established. Teaching methods, primarily audio-lingual, were geared to the age group, with emphasis on the spoken language in the third and fourth grades and with the addition of writing at the higher levels. Specific skill objectives were established for each grade level. Fees were set to pay for teacher and administrator salaries and supplies. Session schedules were coordinated with the PTA Council, but scheduling of classroom time was delegated to the school directors. An open house at the end of each school session has included a demonstration of learned skills and cultural knowledge and the awarding of certificates of merit to graduating students. Native speakers visit the classes; audiovisual programs, folk-dance demonstrations, and crafts activities are provided for enrichment. While some problems have arisen, such as money management, student placement, and publicity, the program has been generally successful. (MSE)

## Implementation Strategies for an Integrative Approach to Teaching Reading and Language.

Pub Date—Apr 85

Note—25p; Paper presented at a RELC Regional Seminar on Language Across the Curriculum (Singapore, April 22-26, 1985).

Pub Type—Reports - Research (143) — Guides - Classroom - Teacher (052) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Beginning Reading, \*Classroom Techniques, Comparative Analysis, \*English Instruction, Foreign Countries, Instructional Materials, \*Language Arts, \*Language Experience Approach, Primary Education, \*Reading Instruction, Teaching Methods

Identifiers—\*Language across the Curriculum

The psychological and linguistic rationales for an integrative approach to teaching reading and language that is based on the language experience and

shared book approaches are presented, and the necessary changes in the Singapore educational system are outlined. Because the program is an integrated language arts approach, reading instruction time is integrated with language learning time, and some blocked periods are scheduled. The implementation strategies include provision for monitoring and feedback from workshop leaders, teachers, and students. Data derived from children's reading and language test performance, classroom observation, and a study of instructional problems faced by teachers in using the approach are analyzed, and recommendations are made. ## The Sensitive Period Hypothesis: A Review of Literature Regarding Acquisition of a Native-Like Pronunciation in a Second Language.

Pub Date—15 Nov 85

Note—20p; Paper presented at a meeting of the TRI-TESOL Conference (Bellevue, WA, November 15, 1985).

Pub Type—Information Analyses (070) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adults, \*Age Differences, Educational Strategies, \*Language Proficiency, Language Research, Lateral Dominance, \*Learning Theories, Literature Reviews, \*Pronunciation, Psycholinguistics, Second Language Learning, Teacher Role, \*Time Factors (Learning)

Identifiers—\*Critical Period

A review of research was conducted on the possibility of a sensitive period for the acquisition of native-like pronunciation in a second language, as well as on related questions concerning the universality of this phenomenon, age factors, biological versus cultural origins, and developmental psychology. The review showed variation in studies and findings with regard to the age groups considered, nature of the pronunciation tests, and length and type of exposure to the second language. One conclusion drawn is that cerebral lateralization is likely to be irrelevant to mastery of accent-free speech in a second language, while age is a factor. Further research on adult second language acquisition is recommended, including examination of possible post-puberty psychomotor disadvantages, adult unwillingness to take risks, and identification with in- or out-groups through language proficiency. It is inferred that there is no innate psycholinguistic factor operating to prevent learning a second language with accent-free pronunciation as an adult, and that language teachers must attend to pronunciation accuracy as they would to accuracy in other aspects of language learning. Chambers, Patrick

Using the Rods for Structural Grammar.

Pub Date—Nov 85

Note—7p; Paper presented at the TRI-TESOL Conference (Bellevue, WA, November 14-16, 1985).

Pub Type—Guides - Classroom - Teacher (052) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Classroom Techniques, \*English (Second Language), \*Form Classes (Languages), Second Language Instruction, \*Sentence Structure, Teaching Methods, \*Visual Aids

The innovative use of a visual cueing device, or rods, in a second language class to represent the parts of speech and the grammatical structure of a sentence is explained and illustrated. The advantages found in it are that individual structures are not learned as isolated elements but rather as parts of a larger system, and that there is more student-generated production because the technique allows the teacher to use few verbal cues. The use of the technique for teaching the verb "to be" is described and charted, as well as its use for illustrating clauses. (MSE)

Faculty Salary Differentials by Race: A Management School Case Study of Suspected Treatment Discrimination.

Pub Date—[84]

Note—36p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Academic Rank (Professional), Business Administration Education, Case Studies, \*College Faculty, Comparative Analysis, \*Equal Opportunities (Jobs), Full Time Faculty, Higher Education, Males, \*Minority Groups, Personnel Policy, Racial Bias, \*Racial Discrimination, \*Salary Wage Differentials, \*Teacher Salaries, Whites

The effect of race on faculty pay, controlling for length of service and academic rank, was studied at the School of Management at a medium-sized, southwest university. The objective was to determine whether racial bias or discrimination affect faculty salaries. All of the 22 full-time faculty in the study were male and held Ph.D. degrees. Seven were nonwhite: one was Black, three were of East Indian descent, and three were of Chinese descent. Only faculty who had been at the university 3 years or more and had received at least two pay raise evaluations were assessed. All but three had the rank at the tenured associate professor level or higher. Using multiple regression analysis, it was found that white faculty received on the average \$462 more than nonwhite faculty in annual salary raises, and they earned on the average \$4,200 more than nonwhites. Rank accounted for a difference in salary raises of \$25 per year. Persons with longer tenure received about \$18 less than more recently hired persons in terms of annual salary raises. It was concluded that the process by which pay is determined appears to be biased against minority faculty. Implications for the enhancement of equal employment opportunity are discussed. A four-page list of references and several tables are appended. (SW)

Identifiers—Blue Ribbon Commissions, \*Excellence in Education, Institutional Mission, \*New Mexico, Public Colleges

A report on two- and four-year colleges in New Mexico is presented, including 50 recommendations of the Governor's Commission on Higher Education. An overview of higher education in the state and the different types of state-supported colleges is provided. Excellence in state institutions is discussed, with attention to governing boards; presidents and administrators; staffs; faculty teaching, research, and service; students; libraries and facilities; and alumni and private support. To address the extent of unnecessary duplication in the state, distinct roles and missions of the various kinds of institutions are delineated. Program review and quality control as mechanisms to eliminate and prevent unnecessary duplication are also considered. Attention is directed to equal opportunity for higher education and training, as well as faculty and administrative jobs. Specific concerns include admissions and retention, financial barriers, and the barriers of sex and ethnicity. Faculty and staff compensation and 1984 funding recommendations are also covered, along with current and future funding levels needed to promote excellence, and statewide and institutional governance. Appendices include five

articles, a report presented to the Commission, and a list of position and issue papers presented to the Commission. (SW)

Identifiers—Institutional Mission, "New Mexico

A 1983-1987 plan for postsecondary education in New Mexico is presented by the Commission on Postsecondary Education. A brief summary of postsecondary education in the state covers institutions, recent enrollment history, and state funding patterns. Assumptions about the planning context for the 5-year period are based on demographic, educational, societal, and economic factors. Recommendations are offered for (1) responding to New Mexico's environmental and economic needs, (2) access to education, (3) and resource requirements and their effective use. Specific attention is directed to: students' academic preparation; student costs; geographic access; changing needs and articulation; institutional role and mission; responsiveness to needs; public, state, and institutional roles; advances in technology; funding requirements; and partnerships in education. The Commission's recommendations were reviewed by groups and individuals throughout the state. Appendices include papers describing New Mexico's postsecondary system, the anticipated planning context for the 1980s, the rationale for selecting critical issues, and supporting data on enrollments, appropriations, instructional expenditures, students' age and ethnicity, and tuition. Descriptors—"College Planning, "Decision Making, "Economic Factors, Educational Policy, "Educational Quality, Higher Education, Models, "Policy Formation, "Problem Solving

Different planning methods are discussed, and quality and efficiency as planning objectives are addressed in this paper. The purposes of corporate, governmental, and collegiate planning are distinguished and sequential versus transactional models are explained. It is suggested that collegial planning may be a hybrid of sequential and transactional planning methods. The sequential model is characterized by step-by-step, rational, and analytic features, while transactional models permit the interplay of attitudes, beliefs, and values in the planning process. Transactional models can incorporate traditions, norms, standards, and other values that might go unattended in sequential planning modes. Advantages and disadvantages of sequential problem-solving and transactional decision-making models are identified. Two indices of efficiency in higher education are outlined: efficiency as a ratio of inputs and outcomes, and efficiency as a ratio of resources and demands. Nine convincing indications of quality in higher education institutions and programs are identified, along with three unconvincing indications of quality. (SW)

The different ways that colleges and universities can assume expanded responsibilities in national renewal are considered. After reviewing federal policy toward higher education, the American economy and competition from other countries are considered. The need for social and political renewal is also addressed, including the imperative for civic involvement in an age of self-interest. Also considered are: the question of whether colleges are graduating enough engineers and computer scientists; the availability of Ph.D.'s; the role of colleges in encouraging creativity; creativity and admission to selective programs; education for civic responsibility; active learning; student financial aid; college attendance by minorities; the expansion of international exchange; the university role in research and technology; international competition in technology; federal support for research and development; balancing the needs of defense, health, and economic development; university/industry cooperation; and investing in research libraries and advanced instruments for university research. Alternative proposals for the financial aid system include: providing aid to students who engage in public service, and awarding federal scholarships to students who agree to teach in the public schools after graduation. Areas of corporate concern about the current state of education are discussed by the chairman of the Council for Financial Aid to Education, along with suggestions on how corporate executives and academics can deal with these concerns. In addition

to greater mutual respect between business and academia, there has been an increase in corporate financial support to education with less red tape or fear that accepting corporate money, especially research grants, will infringe on academic freedom. Crucial social issues on which business and academia can cooperate to find solutions include: improving the quality of primary and secondary schools; improving the educational choices and opportunities of minorities; determining whether four-year colleges can better prepare graduates for business careers, without compromising academic standards or distorting curricula; and restoring the importance of the humanities and liberal arts in college curricula. Business can encourage students to study the liberal arts by hiring more liberal arts graduates. Colleges also have an important role in helping to bridge the gap between the needs of the business world and the qualifications of a liberal arts graduate. College teachers could learn more about business and how it operates, and colleges could do more to encourage students to stay as long as they can for as long as they can. (SW)

Higher Education's Economic Impact in Arkansas.

Pub Date—[85]

Note—14p.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Consumer Economics, Credit (Finance), Economic Climate, \*Economic Factors, Educational Economics, Employment Opportunities, \*Expenditures, \*Higher Education, Property Appraisal, Purchasing, Real Estate, \*School Business Relationship, \*School Community Relationship, School Personnel, Taxes

Identifiers—\*Arkansas, \*Economic Impact

Direct and indirect contributions of nine Arkansas universities to the economic well-being of the state, as well as the expected rate of return from support of higher education, were assessed. In-state expenditures by the universities and local expenditures by university staff and students were measured. A major impact was the value of business property, real estate, and inventory in Arkansas attributable to the presence of the universities. Another impact was the expansion of banks' credit base due to deposits from the universities, university staff, and students. Business volume attributable to selected Arkansas universities was estimated to be over \$940 million in fiscal year 1983, or 3 percent of the state's total business volume. Local business property and inventory committed to university-related business amounted to over \$175 million, or 9 percent of the total property and inventory in the state. Money deposited by Arkansas universities and their staffs and students expanded bank credit in the state by over \$85 million. Almost \$21 million of local business volume was generated by campus enterprises (e.g., bookstores and food services). The universities also created tax revenues for the state, 36,000 jobs, and \$400 million in personal income. (SW)

Descriptors—\*Admission Criteria, Class Rank, \*College Admission, \*College Applicants, College Entrance Examinations, Comparative Analysis, \*Eligibility, Grade Point Average, Higher Education, \*Models, Prediction, Public Policy, Scores, \*State Colleges, State Universities

The impact of different admissions policies on Black, Hispanic, and White applicants was investigated, using College Board data. Five undergraduate admissions models were assessed. The single-index minimum model uses a single index, such as high school grade point average (GPA), to determine eligibility. The multiple-index minimum model uses two or more indexes. An either-or minimum model allows for eligibility if a minimum is equalled or surpassed on either of one or more indexes. Students might be eligible, for example, if in the top half of their high school class or if their

Scholastic Aptitude Test (SAT) total score is 700 or above. A sliding scales model specifies different minimums on different indexes at different levels of high school or test performance. The fifth model is based on predicted performance: a regression equation is developed from data on past students and is used to predict performance for applicants. In addition to data on SAT scores, the analysis was based on responses to the Student Descriptive Questionnaire. A detailed description is provided of the five admissions models, the data base employed, and the analyses performed. Nine tables show the percentage of eligible seniors using each model, including the criteria of high school rank, high school GPA, and SAT total scores. (SW)

Austin, Ann E.

University Mid-Level Administrators: Comparisons between Men and Women on Work Experience, Commitment, and Job Satisfaction.

Pub Date—Apr 85

Note—48p.; Paper presented at the Annual Meeting of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Administrator Attitudes, Administrator Characteristics, \*College Administration, College Environment, Comparative Analysis, Employment Experience, Females, Higher Education, \*Job Satisfaction, Males, \*Middle Management, \*Sex Differences, \*Work Attitudes

Identifiers—Research Universities, \*Women Administrators

Male and female mid-level administrators at a large research university were compared on personal and demographic variables; perceptions of opportunities and job/organizational characteristics; job satisfaction; and degree of commitment to job, institution, and career. A total of 192 male and 38 female administrators participated. While males and females did not differ in their commitment to their position and career, 38.6% of the men indicated that their commitment to the institution was very important, compared to 19.1% of the women. The women administrators indicated that interactions with students were of greater importance to their work commitment than did the men, but they assigned less importance to salary and fringe benefits than did their male colleagues. More satisfied male administrators rated their positions as being high in autonomy, job feedback, and skill variety than did less satisfied administrators. Additional variables that were related significantly to job satisfaction for male administrators were age, the degree to which the organization was cooperative and caring, and salary. The degree of caring and support at the university was also important to women, as were skill variety and opportunities (i.e., the likelihood of finding a similar position at another university within or outside the state). The Assessment of Need for Administrative Development on a University Campus: A Report.

Pub Date—[86]

Note—37p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Administrators, \*College Administration, Higher Education, Information Needs, Interpersonal Competence, Job Skills, Knowledge Level, Language Skills, Leadership Training, \*Management Development, \*Needs Assessment, \*Professional Continuing Education, Questionnaires, \*Skill Development, Supervisory Training

Identifiers—\*University of Wisconsin Stevens Point

Professional development needs of administrators at the University of Wisconsin-Stevens Point (UWSP) were assessed. A survey was administered to determine topics that administrators needed to know, how knowledgeable they were on these topics, and topics they wanted to learn more about to improve their administrative performance. Of 134 administrators, 103 rated 89 topics and identified the college or division in which they worked. The respondents felt they would benefit from administrative development in eight areas: leadership skills, listening, reading quickly and with good compre-

hension, writing effectively, delegating effectively, interpersonal skills, administrative roles, and stress management. This information was derived by calculating need scores, knowledge scores, and importance scores. The 23 most important topics and the 23 topics of greatest need are listed in rank order. Mean importance, knowledge, and need scores are indicated for specific activities in the following areas: writing, speaking, listening, reading, interpersonal skills, self-development, meetings management, education techniques, time management, stress management, budgeting, leadership, motivation, career counseling, delegation, staffing, productivity, conflict counseling, team building, decision-making/problem-solving, objectives, and administrative role. The questionnaire is appended. (SW)

EDRS Price - MF01/PC19 Plus Postage.

Descriptors—\*College Faculty, College Instruction, \*Departments, Educational Responsibility, \*Faculty Development, \*Faculty Workload, Foreign Countries, Higher Education, \*Noninstructional Responsibility, Research, Teacher Responsibility, \*Teaching Load

Identifiers—Chile, Contact Hours, \*Universidad Tecnica del Estado (Chile)

An analysis of academic activities of college faculty at the eight campuses of Chile's Universidad Tecnica del Estado was conducted. Activities were grouped into seven categories: direct teaching, indirect teaching, research, community services, faculty development, academic administration, and other activities. Following the narrative descriptions of data collection and findings are extensive statistical tables which make up the bulk of the document. These concern: the number of faculty per department, courses taught by each faculty member, the number of teaching contact hours per week taught by each faculty, the workload distribution related to activities other than direct teaching, and the number of faculty engaged in faculty development programs and the courses taught by each participating faculty member. Matrix tables show the total weekly hours all faculty members devote to each type of activity, grouped by department and campus. Tables also show: the proportion of hours faculty devote to other activities per each hour devoted to direct teaching; the total number of teaching hours required for each academic department; the weekly teaching load per faculty member by academic department and campus; department majors, as well as instruction for nonmajors; and student-faculty ratios by departments and campuses. Implementing Microcomputers in Academic Departments: Changing the Face of Academic and Administrative Life at the University of California, Santa Barbara.

Pub Date—11 Dec 85

Note—12p.; Paper presented at the CAUSE National Conference (New Orleans, LA, December 11, 1985).

Pub Type—Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*College Faculty, Computer Literacy, \*Computer Oriented Programs, Data Processing, Decentralization, Department Heads, \*Departments, Higher Education, Management Information Systems, \*Microcomputers, Productivity, \*Program Implementation, State Universities, Word Processing

Identifiers—\*Academic Computing, Research Universities, \*University of California Santa Barbara. The installation of 275 microcomputers in 34 academic departments over 18 months at the University of California, Santa Barbara, is discussed. This undertaking by the Provost's Office of the College of Letters and Science was designed to enhance faculty productivity by increasing access to computing, and to enhance administrative support to chairpersons and faculty by automating recordkeeping and word processing at the departmental level. The implementation process involved development of a decentralized computing philosophy, the decision to utilize microcomputers, the phased implementation of hardware, and provision of user support services. Attention is also directed to 10 consequences of the implementation that might interest other universities: (1) computer literacy enhanced productivity; (2) standardizing microcomputer hardware throughout the college had both positive and negative outcomes; (3) microcomputers facilitated faculty independence; (4) real-time computing changed expectations; (5) user support was necessary but expensive; (6) microcomputers became status symbols; (7) shared use by faculty was ineffective; (8) centralized computing was adversely affected; (9) interdepartmental communication was improved; and (10) the benefits exceeded the costs. Descriptors—Adult Education, \*College Instruction, Conferences, \*Continuing Education, Financial Support, Higher Education, Institutes (Training Programs), Intellectual Disciplines, \*Noncredit Courses, \*State Universities, Student Characteristics, Teacher Characteristics, \*Workshops

Identifiers—\*State University of New York

Information on noncredit instructional activities at the State University of New York (SUNY) is presented, based on the biannual Survey of Noncredit Instructional Activities. These noncredit instructional activities require registration of participants and have a range of formats (e.g., courses, workshops, seminars, conferences, institutes). These activities are typically organized and administered by offices of continuing education, community service, adult education, innovative studies, and extension services. Included are summary reports on the number of noncredit activities and registrations by six categories: subject area, tar-

get clientele, organizing unit, instructional type (e.g., workshop, course), faculty status, funding source, and location (on- or off-campus). In addition, trend reports summarize the number of noncredit activities and registrations for four academic terms in 1984 and 1985. All noncredit courses offered at SUNY institutions are listed by subject area. Noncredit course system definitions are included, along with an explanation of codes used in the survey. The names and numbers of SUNY reports on noncredit offerings are identified. (SW)

Trusteeship in the Private College. Report No.—ISBN-0-8018-3270-5

Pub Date—15 Jan 85

Note—180p.

Available from—Johns Hopkins University Press, 701 West 40th Street, Baltimore, MD 21211 (\$22.50).

Pub Type—Books (010) — Opinion Papers (120) Document Not Available from EDRS.

Descriptors—\*Administrator Evaluation, \*Board Administrator Relationship, Case Studies, College Administration, \*College Presidents, Conflict Resolution, Governance, \*Governing Boards, Higher Education, Interprofessional Relationship, Liberal Arts, Money Management, Policy Formation, \*Private Colleges, \*Trustees

The function of trustees is discussed, based on in-depth interviews with trustees and presidents of 10 private liberal arts colleges. After a brief overview of the trustee mandate and role of recent attempts to redefine that role, major models of campus governance are summarized. In considering how boards diminish the presidency, attention is directed to the president as a political officer and bureaucrat, and the effect of the board's committee system. The board's evaluation of the president and sources of information about the president are also addressed. To demonstrate how difficulties between a board and president may arise and be resolved, case histories are presented of how two boards evaluated presidents. The board is also described as a discrete subunit of the collegiate organization, with a focus on the status of its members as volunteers and their reasons for serving. The role of the board chairperson, the board's financial activities, and recruitment and retention of board members are also covered. Additional topics include: three models of board behavior, the gap between policy and administration, the impact of the board on the college, and implications for theory and practice. Appendices provide information on the study methodology as well as sketches of the trustees, presidents, and 10 colleges (anonymous) that were studied. (SW)

Identifiers—Congress 99th, \*Higher Education Act 1965, Iowa, Reagan Administration

Recommendations and issues concerning reauthorization of the Higher Education Act of 1965 are presented in testimony from representatives of public and private colleges, students, counselors, lenders, guaranteed student loan programs, state loan and grant administrators, and student aid officials. Specific references are made to the effect of the Higher Education Act on Iowa colleges, and the effect of reductions in federal aid on access and choice in postsecondary education. The act is the primary source of federal support for colleges and universities and college students. A significant aspect of the Reagan Administration proposals is the \$4,000 cap for any student receiving federal aid, including loans and work-study grants. Another proposal that is considered is placing an income ceiling of \$25,000 on those who can receive the Pell

Grant or campus-based aid. It is suggested that the \$4,000 cap on federal aid would have a serious impact on private colleges and on high-need students attending public institutions. Additional topics include: the effect of the \$4,000 ceiling on graduate and professional students, outcomes of governmental decisions to emphasize loan programs administered outside of higher education, and priorities for categorical programs that are part of the Higher Education Act. (SW)

Identifiers—Congress 99th, \*Higher Education Act 1965, Illinois

Recommendations and issues concerning reauthorization of the Higher Education Act of 1965 are presented in testimony from representatives of higher education from the State of Illinois and its postsecondary institutions. The Act provides the primary source of support for postsecondary institutions and students. The link between the amount of educational aid granted and the economic strength and development of a particular area is discussed, with attention to cooperation between colleges and industry, research and development, and continuing education for scientists and engineers. The rehabilitation and modernization of physical facilities is another issue facing many colleges today that is addressed by the act. To illustrate the problem, a building condition audit for the University of Illinois is included. It is argued that Illinois does not have the resources to replace federal student financial aid funds if the federal programs are reduced or fail to keep pace with increasing college costs. Specific recommendations are offered for reauthorization that would be beneficial to Illinois community colleges, including recommendations to make education better serve working adults and part-time students, to serve adult students needing occupational education, and to renew cooperative education. Davis, Stephen F.  
General Psychology: Too Much to Give Away.  
Pub Date—Aug 85

Note—11p.; Paper presented at the Annual Meeting of the American Psychological Association (Los Angeles, CA, August 23-27, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—General Education, Higher Education, \*Information Utilization, \*Intellectual Disciplines, \*Introductory Courses, Psychologists, \*Psychology, Public Opinion

The idea of making general psychology more accessible to and/or usable by the general public is considered (i.e., the idea of giving psychology away). A larger and related question is whether general psychology, as an academic course and as an orientation to psychology, should be approached as general studies. One impediment to giving psychology away is the size and complexity of the field. There are 44 divisions of the American Psychological Association that include such areas as general, teaching, physiological and comparative, and public service psychology. The size and complexity of the field may also have created the impression that the field lacks unity and cohesion. Some have proposed that psychology be dissected into smaller parts that would more readily be accepted by consumers. It is argued that this proposal would be detrimental to psychology in general. It is suggested that psychologists might help others appreciate the importance and uniqueness of the total field, not "pushing" psychology as a panacea, but rather acknowledging that the field is large and loosely organized and is still having growing pains. Descriptors—\*Campuses, \*Colleges, Housing, \*Crime Prevention, Dormitories, Guidelines, Higher Education, Information Needs, Law Enforcement, Police School Relationship, Resident Assistants, \*School Security, \*Security Personnel, \*Violence

Steps colleges can take to minimize the likelihood of violent crime on campuses are recommended, and administrative responsibilities are identified. Important basics are to inform campus members about security risks and about procedures for summoning aid during an emergency. While attending to educational values, colleges should consider whether access of unwelcome visitors to campus should be restricted or monitored. With security in mind, each college should periodically examine its grounds-keeping standards and the adequacy of outdoor lighting and ensure that access to master keys is restricted. A campus with grounds as well as buildings should consider having an escort or shuttle service. Colleges offering on- or off-campus housing to undergraduates should provide some form of supervision within student housing on security issues. A related concern is providing training for student-housing supervisors responsible for safeguarding security. Training for security officers and procedures for communicating complaints about the performance of officers are also needed. If security officers are authorized to carry guns or chemical restraints, additional policies and procedures are required. An established pattern of communications and relations with the local police is important. (SW)

Descriptors—Administrator Characteristics, Administrator Qualifications, \*Administrator Selection, \*Church Related Colleges, Church Role, \*Governing Boards, Higher Education, Leadership Responsibility, \*Recruitment, \*Theological Education, \*Trustees

Identifiers—Search Committees

The important role played by trustees of seminaries and the recruitment of these leaders are considered. The serious financial problems facing the board of directors has focused attention on the role and scope of seminary trusteeship. Leadership is needed by trustees to address issues of declining enrollments, curricula that address theological issues of the contemporary world, and the changing needs of the church and its ministry. Trusteeship is an invitation to service and ministry in the church. The search for trustees must begin by revitalizing the nominating committee. The first step is to review the current board to determine its makeup, strengths, and weaknesses. Three essentials of the search and nomination process are: a pool of potential nominees from which the board can choose; a way to evaluate the current board and making long-range plans for board development according to an established ideal profile; and making the nominee aware of the seminary's expectations. A sample board profile is presented, that includes categories such as age, sex, race, areas of expertise, and geographical distribution. The specific circumstances that arise when board members are appointed by outside bodies are also addressed, along with future challenges for seminaries. (SW)

Descriptors—College Faculty, Comparative Analysis, \*Computers, \*Demand Occupations, \*Doctoral Degrees, Educational Demand, \*Engineering Education, Expenditures, Faculty Recruitment, Graduate Students, Higher Education, Manufacturing, Private Colleges, Questionnaires, Research, \*Robotics, School Surveys, State Colleges

Identifiers—\*Biotechnology, \*Microelectronics

Baseline data on engineering programs, faculty, and students in selected and rapidly developing engineering specialties are presented, based on a survey of engineering schools. The specialties of interest are: computers, materials, microelectronics, robotics, manufacturing, and biotechnology programs. National estimates are derived from the responses of 96 engineering schools. Attention is directed to the availability of qualified faculty, including the supply of doctoral students, in emerging engineering areas. Information is presented on: the total number of faculty recruitments in progress and completed during the 1983-1984 academic year; sources of qualified applicants and their citizenship; the organization and location of the engineering programs; how programs at public and private colleges compare; programs at the top 50 institutions that granted the largest number of doctoral degrees

in engineering in 1981-1982; and programs at the top 50 institutions ranked highest in terms of research expenditures. It was found that in 1983-1984, there were 470 operational programs in emerging engineering areas, averaging nearly four programs per institution. Appendices present the questionnaire, information on survey methodology, and technical notes. (SW)

Document Not Available from EDRS.

Descriptors—\*Annotated Bibliographies, \*Doctoral Dissertations, \*Foreign Countries, \*Graduate Study, Higher Education, Intellectual Disciplines, \*Masters Theses, \*Research Projects Identifiers—Africa, Asia, Europe, Latin America, Middle East, Pacific Region, South America, \*United States

Annotations on 2,948 bibliographies of dissertations, theses, and research completed and in progress for graduate degrees are presented. The bibliographies, produced through 1983 and most of 1984, are specialized and usually subject-oriented and cover current and retrospective research in the United States and throughout the world. The annotations include the following elements: level of work, number of items, years of the study, college(s) or place where the study was conducted, the subject coverage with representative topics, the bibliographic arrangement, and indexes. The bibliographies are presented within the following categories: universal, national (i.e., 42 countries), areas studies, special/racial groups, applied sciences, communications and mass media, education, fine arts, history, home economics, language and literature, law, library and information services, medical sciences, philosophy, psychology, science, social sciences, and theology and religion. An institution index covers works completed within a single university. An index of compilers and contributors and journal titles is also included, along with a subject index including and supplementing subject headings that appear in the body of the work. (SW)

Descriptors—Church Related Colleges, \*College Freshmen, Females, Full Time Students, Grade Point Average, Higher Education, Males, \*National Norms, National Surveys, Occupational Aspiration, Political Attitudes, Private Colleges, Questionnaires, Social Attitudes, State Colleges, \*Student Attitudes, \*Student Characteristics, Student Financial Aid, Two Year Colleges, Values Identifiers—\*Cooperative Institutional Research Program

National normative data on characteristics of students entering college as first-time, full-time freshmen are presented, based on results of the fall 1985 Cooperative Research Program survey. The data are weighted to represent the population of freshmen. Extensive statistical data are reported separately for women and men, and for 37 institutional groupings, based on the school's enrollment size, degree of selectivity, control, level, religious affiliation, and racial composition. The survey results revealed that students continue to support liberal positions on a number of key political and social issues. There is a continuing decline of freshman interest in tradi-

tional liberal arts majors, particularly the sciences. Significant increases occurred in the proportion of entering students participating in campus-funded aid and scholarship programs, but little change in the proportion of freshmen participating in federal grant and loan programs. Included are: a brief narrative summary of the results, information on the research methodology, the 1985 Student Information Form, a specification of region categories and the coding scheme, a list of participating institutions, and a sample survey report provided to a participating institution. Rank-Order Distribution of Administrative Salaries Paid, 1985-86, Nineteenth Annual Report.

Arkansas Univ., Fayetteville. Office of Institutional Research.

Pub Date—31 Dec 85

Note—122p.

Available from—University of Arkansas, Office of Institutional Research, 318 Administration Building, Fayetteville, AR 72701 (\$10.00).

Pub Type—Numerical/Quantitative Data (110)

EDRS Price—MF01/PC08 Plus Postage.

Descriptors—\*Administrators, College Administration, Comparative Analysis, \*Compensation (Remuneration), Deans, Doctoral Degrees, Geographic Regions, Higher Education, National Surveys, \*Salaries, \*State Universities

Identifiers—\*Public Colleges

Results of a survey of salaries of full-time administrators at public, doctoral-granting institutions for 1985-1986 are presented. Rank order distributions of 12-month administrative salaries are provided for 156 state universities in 49 states and 33 university systems in 27 states. Salary data for 151 universities in 47 states are also arranged into the nine regions defined by the Equal Opportunity Commission. A separate table indicates salaries paid to officers of university systems which have a separate administrative structure for multiple general academic institutions, at least one of which has doctoral offerings. Specific positions are covered under the following administrative categories: president (chancellor), academic officers, business officers, student affairs officers, administrative officers, public/relations/development officers, research officers, and deans (directors). Newly reported positions are the Dean

of Dentistry, Dean of Health Professions, Dean of Public Affairs, and the combined position of Graduate Dean and Vice President of Research Services. Salaries paid for positions with a dual function are identified. To provide anonymity, the universities are not identified with their salaries, but are listed separately. (SW)

Profiles of Enrollments and Origin of Students at Washington Public Four-Year Institutions of Higher Education for Fall Term, 1983.

Washington State Council for Postsecondary Education, Olympia.

Pub Date—Sep 84

Note—25p.

Pub Type—Numerical/Quantitative Data (110)—

Reports—Descriptive (141)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Age, \*College Freshmen, \*College Transfer Students, Community Colleges, \*Enrollment Trends, Foreign Students, \*Geographic Distribution, Graduate Students, Higher Education, \*High School Graduates, In State Students, Out of State Students, Place of Residence, State Colleges, State Surveys, Undergraduate Students

Identifiers—\*Public Colleges, \*Washington

Fall 1983 enrollment trends for public four-year institutions in Washington State are presented in narrative and statistical formats. To address the question of where Washington's college students come from, data are provided on high school graduates, transfer students, former students, and distribution by county. Total enrollments and enrollments for six state universities are provided for entering students. Enrollment percentages by university are presented by class level (lower division, upper division, graduate or professional) for selected years (1977, 1979, 1981, and 1983). The age distribution of students for these years is also indicated. For each university, the number and percentage of students from within the state are presented, along with the total number from out-of-state and from six specific states, and the total number from Canada and from other foreign countries. Also provided are data on: the number of high school graduates and college entrants for 39 Washington counties, and participation rates of Washington graduates in community colleges and four-year colleges, by county. Profiles for each of the six universities indicate the counties from which freshmen come, representation by county for the total student body, and the Washington two- and four-year colleges from which students transfer. Does Need-Based Student Aid Discourage Saving for College?

College Entrance Examination Board, New York, N.Y.

Pub Date—Jan 86

EDRS Price—MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—College Students, Dependents, Eligibility, \*Family Financial Resources, Family Income, Federal Aid, \*Financial Aid Applicants, Financial Needs, Higher Education, \*Incentives, Motivation, \*Need Analysis (Student Financial Aid), \*Parent Financial Contribution, Student Costs, \*Student Financial Aid

Identifiers—\*College Costs

The question of whether the availability of need-based student financial aid reduces the applicant families' incentives to save and work was assessed. Changes in the need-based aid system are also suggested. Need-based aid systems compute a family's ability to pay for college from information on the family's income and assets at the time a student applies for aid. If a family can arrange to have fewer assets (by saving less during the students' pre-college years or working fewer hours) the student will generally qualify for more aid. The two systems analyzed in this paper are the Pell system of federal grants and the Uniform Methodology system. It is concluded that perhaps 20% or fewer of all financial aid applicants face substantial incentives to adjust their work or savings behavior in response to the Uniform Methodology's aid incentives. Students from these families are heavily concentrated in

higher cost private institutions, since they would generally not qualify for aid at lower cost places. Adverse aid incentives flow primarily from institutionally-awarded aid, but are virtually nonexistent in the largest federal grant program, Pell Grants. The following strategies are suggested: reduce the marginal taxing rates facing families in the aid system, impute assets to parents with inadequate savings, extend the time period over which families are subject to needs analysis, and encourage parental effort through "matching" of parental contributions. Identifiers—California, Public Colleges

Trend data on college-going rates in California during 1974-1984 are examined. Consideration is given to statewide high school graduation and college-going trends, and participation rates for the University of California, California State University, California community colleges, and independent colleges and universities. Data are also provided on differences in enrollment rates by sector for 51 California counties for 1974-1984, and sex and ethnic differences in participation rates for each sector by county. Findings include: in Fall 1984, almost 5,700 fewer first-time freshmen from California high schools enrolled in the state's colleges and universities compared with the previous term; the University of California rate of enrolling first-time freshmen from California high schools increased from 7.0% for fall 1983 to 7.5% for fall 1984; California State University's rate for first-time freshmen remained at 8.9%; the statewide enrollment rate for the community colleges fell to 36.3% from fall 1984, a drop of 1.6 percentage points from the previous fall term; and the enrollment of women high school graduates as freshmen in each sector was higher than that of men. Enrollments for six ethnic groups (Asian, Filipino, Hispanic, Black, American Indian, White) are reported. (SW)

Identifiers—United States

Past and current impacts of the supply of foreign medical graduates (FMGs) on the total physician supply and on the availability of physician services are reviewed, and the possible future role of FMGs is forecasted. The relationship of the levels and changes in FMG supply to legislative decisions of the past three decades is also addressed, with attention to post-World War II legislation, the Immigration and Nationality Act of 1965, legislative changes in the mid-1970s, the Health Professions Educational Assistance Act of 1976, and recent legislation. The numerical impact of FMGs on specialty distribution, activity distribution, and practice location is analyzed, and information is provided on the performance of FMGs on standard qualification examinations. The activity and specialty patterns

and practice locations of U.S. citizen FMGs are also assessed. Over the 1970-1979 period, FMGs constituted about one-fifth of the annual active physician supply, but accounted for one-third of the growth in physician supply. It is estimated that the FMG supply will grow at a slower rate in the future than in the past: by about 35% between 1981 and the year 2000, with most of the growth occurring in the early years of the period as a result of the return of U.S. FMGs to the United States. Identifiers—New York, Public Colleges

Data on college attendance of ethnic and racial minorities at public and private institutions in New York State for 1984-1985 are presented. Enrollment data are presented for the state as a whole, public institutions, the State University of New York, the City University of New York, independent institutions, and proprietary institutions. The number and percent of full- and part-time undergraduates, graduate students, and first-professional students are reported by sex and racial/ethnic group. Six groups are represented: nonresident alien; Black, non-Hispanic; American Indian or Alaskan Native; Asian or Pacific Islander; Hispanic; and White, non-Hispanic. Undergraduate and graduate student enrollments by ethnic/racial group for the different types of institutions are also provided for the following subject areas: architecture and environmental design, biological sciences, business and management, engineering, mathematics, and physical sciences. First-professional enrollments in dentistry, law, medicine, and veterinary medicine are also reported. Trends in full- and part-time enrollments by level and racial/ethnic group are included for fall 1976 through fall 1984. (SW)

Descriptors—Black Colleges, \*College Students, \*Dependents, Family Income, \*Federal Aid, Higher Education, Private Colleges, Proprietary Schools, \*Resource Allocation, \*Self Supporting Students, State Colleges, \*Student Financial Aid

Identifiers—\*Supplemental Educational Opportunity Grants

The distribution of Supplemental Educational Opportunity Grant (SEOG) funds was investigated by the General Accounting Office. The SEOG program is a campus-based aid program that provides money to schools, which then distribute it to students. Attention was directed to the following concerns: the kinds of schools that receive SEOG funds, the family income of students receiving SEOG funds, the distribution of SEOG funds to different categories of institutions, and whether SEOG funds are going to students who receive Pell grants. The chief finding concerns the distribution of SEOG funds for dependent and independent students from different income categories. For dependent students (the larger group), the data show that in 1983-1984, the funds did not appear to be concentrated on students from lower income categories. SEOG dollars were awarded to students in all income categories, from the highest (\$25,000 or more) to the lowest (\$14,999 or less). This overall pattern held for all four groups of schools examined (private, public, private historically black, and proprietary), although in varying degrees. For independent students, SEOG recipients from all four groups of schools were concentrated in the lower income categories. Technical information on the sample and research methods is included. (SW)

Identifiers—\*Sweden

Information is provided on the Swedish National Board of Universities and Colleges' research on higher education program. An extensive (20-page) list of 1983-1985 publications of the research groups is included, followed by brief descriptions of 23 studies in progress, along with the project leader's name and institutional location. The percentage of grants since 1971 is indicated in four-year clusters for the following areas of research: the role of higher education in society, content and organization, the research function, and the educational function. Information is also provided on: the percentage of research grants by discipline since 1971; the extent of publishing in books, journal articles, and papers/reports by discipline; and publishing frequencies by 10 departments. Analysis of the content of the research programs reveals: the program began with studies of education and its organization, but has recently focused on research and its conditions at universities; while most of the research is conducted by social scientists and humanists, the topics of study are often located in the natural sciences and technology; and the journal article is the commonest form of publication. \*Educational Research, \*Higher Education, Policy Formation, Political Influences, \*Postsecondary Education as a Field of Study, Two Year Colleges, Universities

A total of 932 bibliographies on higher education topics are cited, nearly all since the 1960s. The bibliographies are listed under the following categories: comprehensive sources; history and philosophy of higher education; four-year institutions; two-year institutions; students; faculty; administrators and support staff; curriculum and instruction; financial management; administrative behavior; research, planning, and policy development; social and political issues; physical plant management; comparative higher education; and adult and lifelong education. Short annotations are provided for a few bibliographies where titles are not clearly indicative of subject. A list of publications on higher education as a field of study are appended, along with a directory of higher education research centers and advanced programs. Author and subject indexes are included. (SW)

Descriptors—Case Studies, \*Change Strategies, \*College Administration, Consultants, Decision Making, Glossaries, Higher Education, \*Program Costs, \*Technology, Telephone Communications Industry, \*Telephone Communications Systems

Identifiers—McPherson College KS, University of Tennessee Knoxville

Issues facing a college or university that seeks to change its telephone system are raised in seven chapters. Major topics addressed by this resource guide are: telephone deregulation and changes in the telephone industry, the new technology available, how to manage a system, consultants, financing options, and institutional case studies. Specific areas of concern include: factors to consider when changing a system; management and cost controls; why and when to choose a consultant; financing for public and private colleges, and external funding. Technological concerns include: Private Branch Exchanges (PBX), analog transition vs. digital, PBX switching, PBX link to databases and computing facilities, PBX internal links, ancillary services, and PBX access to local area networks. Chapter titles and authors are as follows: "The Changing Telecommunications Environment" (Michael A. Toner); "Managing Change" (M. Toner); "Selecting a Consultant" (David C. Metz); "Financing a New Telephone System" (William B. Dougherty, John W. Sleasman); "Telephone System Technology" (John M. Urban); "Large-Institution Case Study: University of Tennessee, Knoxville" (Homer S. Fisher); and "Small-Institution Case Study: McPherson College" (James M. Dodson). A 240-item glossary is included. Descriptors—\*Business Administration Education, Clinical Teaching (Health Professions), College Faculty, College Instruction, Educational Change, Educational History, \*Education Work Relationship, Graduate Study, Higher Education, Interprofessional Relationship, Medical School Faculty, \*Medical Schools, \*Professional Education, School Business Relationship, Teacher Role, Teaching Conditions, Work Environment

The structural ambiguity of American professional schools is considered, with attention to the academic branches of business and medicine. Differences in the nature of clinical-academic tensions in business and medical schools are explored, along with the structural sources of these differences. Trends within professional schools during the early twentieth century are identified and compared to arrangements resulting from the institutionalization of professional schools in the late nineteenth century. The recent reemergence of practical professionalization in business schools is linked to changes in contingencies facing American business and to efforts of management schools to remain relevant to the interests of corporations. Changes in medical faculty work roles are also addressed. Consequences of developments within professional schools for letters and science faculty are evaluated. It is noted that changes in academic work roles within the clinical departments of medical schools have been accompanied by heightened tension between medical and letters and science faculties over appointment tracks and tenure. Finally, the work environment at professional schools is considered, along with possible impacts of employment trends on the nature of knowledge produced by disciplinary subfields. A four-page bibliography is included.

Identifiers—\*Diversity (Institutional), \*Institutional Mission, Research Universities

The heterogeneity within the academic profession in work arrangements, institutional governance, and academicians' values and beliefs are described. Observations are based on interviews with about 150 faculty members from 16 types of institutions and in six subject fields: physics, biology, political science, English, medicine, and business. The following assumptions are made: (1) institutional structure shapes the professional role; (2) institutional differences operate more covertly than disciplinary differences; (3) a large division of labor exists within the professoriat; and (4) the turbulence of the United States higher education system causes some institutions to accumulate various missions that lead to idiosyncratic combinations of academics at the college. The diverse types of institutions (e.g., research universities, community colleges, elite liberal arts colleges) have different missions and serve different populations. Emphasis on faculty teaching and research roles is linked in part to institutional mission. Examples of authority arrangements at colleges indicate factors influencing faculty participation in governance. It is noted that as higher education systems divide into different work and governance settings, beliefs, attitudes, and ideologies of the academic profession are fragmented. A four-page bibliography concludes the paper. (SW)

Identifiers—United States

Problems affecting the relationship between American secondary schools and higher education are considered, and comparisons to other countries are made. Five features of American secondary schooling that undergird problems of effectiveness (as measured by international academic standards and expectations of higher education) are considered: (1) the extent to which secondary education has sought and achieved universal participation; (2) the extent to which the individual school is asked to replicate the coverage of subjects and types of students found in the system at large; (3) the close tie between primary and secondary education; (4) local control, whereby elementary and secondary school principals and teachers are watched carefully by lay chiefs and parents; and (5) a monopoly of clientele, based on geographic zoning, that typifies secondary schools. The education of secondary school teachers is also discussed in relation to the following topics: subject-matter departments of major universities, schools of education at universities, teachers' colleges located at nonuniversity institutions but which are under strong university influence, and teachers' colleges in a nonuniversity sector that have autonomy from the university. A strategy of variety is suggested that would give the secondary system greater adaptability and flexibility. (SW)

Descriptors—Academic Achievement, Academic Aspiration, \*Academic Persistence, \*Articulation (Education), \*Bachelors Degrees, College Role, College Students, \*College Transfer Students, \*Community Colleges, Higher Education, Low Income Groups, Minority Groups, State Colleges, Student Characteristics, \*Two Year College Students, \*Urban Universities

Identifiers—\*Public Colleges

Factors that affect the attainment of the baccalaureate degree by urban students are addressed. Attention is directed to: characteristics and aspirations of urban students attending public institutions in urban areas, problems and roles of urban community colleges and universities, performance of urban students, transfer from two- to four-year institutions, and ways to promote persistence to the baccalaureate degree. More poor people, more minorities, and more immigrants live in cities where the college-age population is still less than half as likely to enroll in college as their suburban counterparts. The problems of urban colleges include funding, student poverty, high attrition, school system failures, and confused missions. While urban community colleges and universities recognize the importance of the transfer student, problems in articulation remain. In assessing outcomes, consideration is given to the attainment of associate degrees, percentages of students who transfer, and the performance of transfer students. Progress in solving 10 problem areas affecting articulation is described, and policies to enhance transfer of community college students

are recommended (e.g., university scholarships, joint faculty events, and counseling exchanges). (SW)

Descriptors—\*College Planning, College Programs, Decentralization, Distance Education, \*Educational Change, Education Work Relationship, Experiential Learning, External Degree Programs, \*Graduate Study, Higher Education, Internship Programs, Interprofessional Relationship, \*Masters Degrees, \*Professional Education, \*Specialization

Past and current features of the master's degree and planning implications are considered. After outlining the traditional master's degree, five recent trends are addressed: specialization, professionalization, application, decentralization, and depersonalization. The number of special master's degree programs has grown, and many programs lead to specialized entry-level positions in the professions or to supervisory careers. Almost no American profession lacks an appropriate master's degree program. There has also been increasing provision for applied experience through internships. While residency and mentorship has been deemphasized or discontinued, no new consensus about the structure of external degrees, or external coursework, has been developed. In addition to professional education, master's programs also provide traditional scholarly training for future university leaders, and avocational study for students whose goal is learning. Likely trends for the future include: the professionalization of the master's degree will continue; the delivery of master's programs to distant sites, especially by technological means, will probably accelerate; and the master's degree in traditional disciplines will require continuing re-examination and refinement. Identifiers—\*Excellence in Education

State efforts to improve the quality of undergraduate education were surveyed by the Education Commission of the States. All 50 states and the District of Columbia have initiatives to improve undergraduate education. The high school/college transition is perceived by state officials as an area with great potential for bringing about real change in education. Ideas considered by some states include: early assessment programs, an alternative to placement testing; and disseminating a statement of knowledge and skills needed for success in college. Also receiving attention are articulation agreements for transfer from two- to four-year institutions, and assessment of student and institutional performance. Recent state assessment initiatives include: testing basic skills of entering freshmen, testing basic skills and competencies of college students,

value-added assessment of student outcomes, and providing incentives for colleges and universities to better define and measure their objectives. Some states have established or are considering special incentive funding for undergraduate education. In addition to institutional or systemwide reviews of undergraduate education, states are conducting comprehensive studies of higher education. (SW)

Descriptors—Academic Achievement, \*College Faculty, College Instruction, College Students, Grades (Scholastic), Higher Education, \*Student Evaluation of Teacher Performance, \*Teacher Characteristics, \*Teacher Effectiveness, Teacher Student Relationship

Issues concerning student evaluation of instruction are addressed. Answers to the following questions are provided: Are students in a position to identify the factors that make instruction effective? Do they know what makes teaching good? If ratings are high, does that mean students are learning more? Is there a relationship between instructor ratings and student learning? Do student evaluations of instruction agree with judgments made by faculty and others? Do student ratings tend to be lower in required courses where prior interest in the subject matter may be low? Are student ratings lower in larger classes? Do student ratings change over time? Do students change their minds about effective and ineffective instructors after graduation? Are student evaluation results different depending on when they are completed during a course: Is there a "best" time to administer evaluations? Do comparative data that rank instructors against each other or measure them against a set of norms tell faculty what they need to know in order to improve instruction? To what extent are student assessments of teaching effectiveness a function of an instructor's wit and personality? Is there a relationship between grades and ratings? Publications that provide additional information are cited for each area. (SW)

The 1983-1984 annual report of the Planning and Grants Committee of the Council for Higher Education in Israel is presented. Reports by the Chairman and Director-General note the severe budgetary cuts to higher education. The main activities of the Committee and its subcommittees are identified, along with 1983-1984 recommendations to the Council. Major developments in the following institutions are summarized: The Hebrew University of Jerusalem; The Technion (Israel Institute of Technology); Tel-Aviv University; Bar-Ilan University; the University of Haifa; Ben-Gurion University of the Negev; the Weizmann Institute of Science; Ezer-Nathan (Open) University; the Jerusalem Rabbinical Academy of Music and Dance; Bezalel (the Academy of Arts and Design); Jerusalem College of Technology; Shenkar (College of Textile

Technology and Fashion); and the regional colleges. Appendices provide information on: students in universities, 1969-1984; students in nonuniversity institutions of higher education, 1982-1984; university and nonuniversity degree recipients; university and nonuniversity staff; university and nonuniversity budgets; the development budget; research grants; foreign students; and students in pre-academic preparatory courses. Data on higher education in Israel are presented in both English and Hebrew versions as a supplement to the 1983-1984 annual report of the Planning and Grants Committee. Information is provided on students, degree candidates and recipients, staff, budgets and physical data, and institutions of higher education that are not universities but are accredited by the Council for Higher Education. Data on university student enrollments and degree recipients are categorized by: level of degree, institution, and field of study. Enrollments by age group, sex, and continent of birth are also identified. The number and type of university staff by institution are specified, along with junior and senior academic staff in universities, by grade and institution; technical staff in universities, by type of scale and institution; and administrative staff in universities, by type of scale and institution. Additional tables include: national expenditures on education and higher education, by type of expenditure; ordinary budget of the universities, by sources of income and academic years; university tuition fees; university development budget by institution and academic year; and area of buildings in universities, by institution and use. A bill to amend provisions of the Public Health Service Act relating to the National Health Service Corps (NHSC) is discussed. The bill extends the authorities for the NHSC field and scholarship programs. Provisions include a new requirement that the maximum amount of NHSC scholarship not exceed \$15,000 for the school year ending in fiscal year 1986, adjusted in subsequent years for tuition increases; greater flexibility in choosing the residency and clinical training programs that 1986 scholarship recipients participate in while deferring their service obligation; a clarification of the authority of the NHSC to maintain its Health Manpower Shortage Area Placement Opportunity List and to restrict obligees under the private practice option to serving in the listed high priority areas; special loans for corps members to enter private practice; a requirement to develop a plan for the recruitment, employment, and retention of personnel for the NHSC; and authorization to provide technical assistance to states in carrying out data collection and

public information activities. In addition to the text of the bill and a section-by-section summary, attention is directed to: the need for the legislation, history of the bill, committee views, budget estimate, administration views, and regulatory impact statement. (SW)

Descriptors—\*Accreditation (Institutions), Accrediting Agencies, Agency Role, \*Articulation (Education), Change Strategies, College Role, \*Educational Innovation, Educational Objectives, \*Educational Quality, \*Postsecondary Education, Undergraduate Study

Identifiers—\*Institutional Mission

Issues concerning postsecondary educational quality and accreditation are addressed. To pursue excellence, colleges and accrediting agencies must: build on present strengths and recognize the need for continuous improvement; respond to demographic changes and the growth of knowledge and technology; pursue well-defined missions and objectives; view accreditation as a major means of self-regulation; and respect the value of diversity, continuity, and innovation. Different types of colleges serve diverse populations, and complex skills learned in college are built on basic skills developed earlier. Innovative arrangements among institutions include: high school students enrolled in college classes and projects, and faculty exchanges between schools and colleges. The quality of an educational process relates to: the appropriateness of its objectives, effective use of resources to achieve objectives, and the degree to which objectives are achieved. Accreditation helps promote quality in two areas: the continuing demand for stating and refining institutional mission and program objectives, and emphasis on breadth as well as depth in undergraduate preparation. Responsibilities of colleges and accrediting bodies are identified that are essential to maintaining and improving postsecondary educational quality. A press release concerning the report is included with the document. (SW)

Descriptors—Administrator Characteristics, Administrator Evaluation, \*Administrator Selection, \*College Administration, \*Committees, \*Governing Boards, Higher Education, \*Recruitment, Self Evaluation (Groups), \*Trustees

Identifiers—Bylaws, \*Nominating Committees

The responsibilities and structure of the college governing board's nominating committee are discussed. Five responsibilities are addressed: helping the board determine its composition in terms of influence, diversity, and talents; maintaining a viable list of candidates and cultivating top prospects; overseeing the orientation and deployment of new board members; reviewing the performance of incumbent trustees and overseeing periodic reviews by the board of its own performance; and nominating and reviewing board officers' performance annually. Usually a nominating committee should have

seven to nine members, depending on the board's size. Because of the need for fund raising, various business and financial communities should especially be represented by appropriate trustees. Working procedures and points of discussion that should be covered by the committee are identified. A sample bylaw provision for the nominating committee is included, along with a form for profiling the committee, including age groups, sex, race, areas of expertise, geographical distribution, connections with the college, financial status (salaried/nonsalaried), and length of service. A short list of resources and other titles in the standing committee series are included. (SW)

Descriptors—Administrator Responsibility, \*Administrator Selection, Churches, \*Church Related Colleges, College Administration, \*College Presidents, Committees, Confidentiality, Higher Education, \*Leadership Responsibility, \*Religious Factors, \*Theological Education

Identifiers—\*Search Committees

Guidelines for college governing boards who are searching for the chief executive officer for a seminary, school of theology, or divinity school are presented. The seminary president will assume most of the tasks of a president in a private postsecondary institution. In addition, important considerations for a seminary president are: attending to the constituency, the church support; instilling confidence in the faculty; acting as a ministerial model and serving as the pastor for the school community; working well with the church's governing bodies; and being a good fiscal manager and fund raiser. Initiating and organizing the selection committee are covered, including choosing committee members and determining its size, and appointing a chairperson. Major tasks of search committees are: developing a presidential profile, gathering names, screening, interviewing, choosing those to be recommended, assisting in the appointment, and keeping a record of the process. Areas that can present problems are also identified, including: confidentiality, the time involved, considering internal candidates, not taking women or minority nominees seriously; and not giving proper consideration to a nominee's spouse. Descriptors—\*Administrator Characteristics, \*College Administration, Comparative Analysis, Educational Background, \*Governing Boards, Higher Education, Multicampus Colleges, Occupations, Questionnaires, \*Trustees

The makeup of college and university governing boards and the characteristics of board members were studied in 1985, as an update of a 1977 survey. A total of 215 single-campus boards and 157 multicampus boards provided information that was statistically adjusted to represent the traits of the 2,200 boards governing of the nation's 3,000 nonprofit colleges and universities. In addition to determining the types and number of boards and the number of trustees, the following characteristics of trustees

were assessed: occupation, sex, race/ethnicity, educational attainment, and age. Special requirements for board members (e.g., church members, alumni) were also identified. Comparisons between multicampus and single-campus boards, and between 1977 and 1985 findings were made. Appendices provide data on: the number of boards and schools by type of institutional control and student enrollments; the types of voting governing board members (e.g., proportion that come from the faculty) by type of institution; characteristics of board members; and change in the number of board members and characteristics of board members since 1977. Highlights of the 1977 survey and the 1985 questionnaire are included. (SW)

Identifiers—\*New York

New York State college and university personnel data for 1984-1985 are presented for various institutional classifications. Employment trend data are included by sector for 1980-1985. Data are provided on the number of full- and part-time employees by position, and the number of men and women employed by position and by institutional classification. This information is presented for the following institutional groupings: total state, total public, State University of New York, City University of New York, independent, proprietary, two-year, and four-year and higher. Data are also provided for categories within the sectors (e.g., university colleges, health sciences centers). The trend data, which is provided by position, and full- and part-time status, cover the following institutional types: public, independent, proprietary, and total state. The following positions are covered: executive, administrative, managerial; instructional faculty; other professional; and nonprofessional. Additional tables cover: tenure status and salary for instructional faculty on 9- and 12-month contracts; and the number and percent distribution of full- and part-time instructional faculty by age and sector. Descriptors—Bachelors Degrees, \*Career Choice, \*College Graduates, Comparative Analysis, Education Work Relationship, \*Employment Level, Equal Opportunities (Jobs), Females, Higher Education, Males, Masters Degrees, National Surveys, Predictor Variables, Regression (Statistics), Salaries, \*Salary Wage Differentials, \*Sex Differences

The relationship between background characteristics and salaries of male and female college graduates was assessed, and causes for salary differences were investigated. Data were drawn from the 1981 Survey of 1979-80 College Graduates, which covered individuals who received bachelor's or master's degrees from July 1, 1979, to June 30, 1980. A sample of 15,852 graduates from a nationally representative sample of 286 institutions was selected. The average salary in May 1981 for full-time employed male college graduates was \$17,000, com-

pared to \$13,400 for females. The salary differences between male and female graduates were analyzed using a descriptive approach, regression analysis, and the decomposition-of-means technique. It was found that men outnumbered women in the high-paying occupation and major field categories, while women outnumbered men in the low-paying categories. While half the difference in predicted salary was attributed to women choosing lower-paying industries and occupations, the other half appears attributable to a lower rate-of-return for females compared to males on all predictor variables. Extensive appendices provide statistical findings and information on predictor variables, the survey and sampling procedures, frequency distributions and salaries categorized by occupation, major field of study, industrial grouping, marital status, region, race/ethnicity, and full-time work experience. Descriptors—Access to Education, Agency Role, \*College School Cooperation, Educational Change, \*Educational Quality, Government School Relationship, Higher Education, National Organizations, \*Policy Formation, Preservice Teacher Education, Program Evaluation, \*Public Schools, \*State Colleges, Technical Assistance. Identifiers—American Association of State Colleges and Universities, \*Excellence in Education.

The role and activities of the American Association of State Colleges and Universities' (AASCU) Task Force on Excellence are identified. Functions of the Task Force are to assist AASCU members in: (1) evaluating and improving teacher preparation programs; (2) reviewing and evaluating recommendations contained in recent studies dealing with America's school system; (3) identifying issues that might be of particular concern to AASCU institutions and their constituents; (4) developing teaching/learning strategies designed to achieve excellence in education, in partnership with other public schools and institutions; (5) disseminating information on reforms to the public and to special audiences; (6) working with state officials and national agencies to form policies within states that will promote educational excellence; (7) assessing the effectiveness of educational reforms through periodic AASCU-sponsored regional and national conferences; and (8) co-sponsoring programs designed to assure continued access to educational opportunity for the disadvantaged. Activities projected for the Task Force concern preparation of policy statements, technical assistance to member colleges, and promoting collaboration among colleges, schools, and agencies. The 1983-1984 Task Force action plan is included. (SW)

Pub Type—Opinion Papers (120)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Citizenship Responsibility, \*College Role, Curriculum Development, \*Educational Objectives, Educational Policy, Futures (of Society), Higher Education, \*Interdisciplinary Approach, Leadership Responsibility, \*Liberal Arts, \*Moral Values, Position Papers, Social Values, \*Values Education.

A policy statement on value-centered education is offered by the American Association of State Colleges and Universities (AASCU). Examples of different types of value-centered education are also identified. It is advocated that colleges provide

more effective leadership in the areas of experience that prepare students to make future choices: personal, professional, and political. A key in responding to the needs of students lies in maintaining a strong emphasis upon the values traditionally associated with a liberal education and translating these into the contemporary setting. Curricula should be designed to acquaint students with the ways moral issues have been approached in the past, as well as how this knowledge can be applied to present and future dilemmas. Consideration should be given to developing university-wide interdisciplinary courses that emphasize universal ideas, along with expanded treatment of moral issues in specialized or professional programs. The university community can also be used as a forum for debate of moral issues, using visiting speakers, seminars, and colloquia. Examples of possible activities include: a course in environmental issues that relates ecology, society, and education; and an interdisciplinary course in human rights. (SW)

Research consulting services provided by an operational research and services unit of the College of Education at Memphis State University are described. The university is comprehensive, multi-purpose, public, and urban. Of concern are activities of the unit's professional staff that involve application of research-related expertise to perform assigned responsibilities. Attention is directed to the history and purpose of the unit, clientele and services, support personnel and facilities, contributions, and challenges. The primary target population of the Bureau of Educational Research and Services consists of faculty who are involved in research and development. In addition to informing College of Education faculty about external funding and university research grants, direct services are offered, including training in proposal writing and conducting special studies. Assistance is also given to other university units through consultation and conducting research. Bureau staff have also been involved in conducting and assisting with projects for external agencies, including school districts, and state and federal education agencies. Contractual activities have included needs assessments, district-wide surveys, project evaluations, test development, and staff training. (SW)

**Powers, Stephen. And Others. Attributional Profiles of Japanese-American and Anglo-American University Students.**

Pub Date—[84]

Note—19p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Achievement Need, Algebra, \*College Students, Comparative Analysis, Failure, Higher Education, \*Japanese Americans, \*Mathematics Anxiety, \*Self Esteem, Success, \*White Students.

Identifiers—University of Hawaii.

The attribution patterns of 132 Japanese-American and 63 Anglo-American students at the University of Hawaii were studied in 1984. Students were administered the Mathematics Attribution Scale as well as measures of achievement motivation, anxiety, and self-esteem. Japanese-American students were found to have lower achievement motivation and higher anxiety than the Anglo-American students. Attributions for success in algebra were significantly correlated with achievement motivation for both cultural groups. For both groups, those who attributed their success to their effort tended to be higher in achievement motivation and self-esteem. Those who attributed their success to the ease of the task tended to be lower in self-esteem. In addition, for both groups, those who attributed their failure to a poor educational environment tend to be lower in achievement motivation and self-esteem. It appears that Japanese-Americans who have higher achievement motivation also tend to attribute their success to their ability, while no such correlation was found for Anglo-Americans. Compared to Anglo-Americans, Japanese-Americans more often attributed their success in algebra to educational environment and ease of the task, and they more often attributed failure to lack of ability and poor educational environment. Identifiers—\*California State University

The status of student advancement services in the California State University (CSU) was assessed, and recent improvement efforts were evaluated. A total of 29 grant programs in academic and career advising funded between 1978 and 1981 were covered, along with systemwide workshops, a resource grants program, and dissemination efforts. It was found that advancement services at CSU have become more visible and integrated as a result of the grant competition, and faculty training and career advising were particularly benefited. The projects were successful in developing systemwide models for faculty training, staff development, career advising, and (indirectly) student retention, and in stimulating the production of scores of advising materials and aids. The following recommendations were offered: (1) student academic and career advising should be a campus and faculty responsibility, although other groups play a supportive role; (2) attention should be directed to faculty reward structures for advising, and expanded use of modern information technology for service delivery and analytic planning; and (3) all forms of advising could benefit from greater focus on the technical, political, and resources requirements attending program management. The titles of the grants, the campus, project director, and amount are listed. (SW)

Identifiers—Guaranteed Student Loan Program, \*Higher Education Act 1965, Pell Grant Program, Supplemental Educational Opportunity Grants

Issues concerning the reauthorization of the Higher Education Act of 1965 are voiced by representatives from various states, based on hearings held in New York City. It is recommended that the Pell Grant Program continue to be the cornerstone program of federal financial aid to postsecondary students. A large percentage of Pell grant recipients are minorities and women. Students at the City University of New York (CUNY) receive more Pell Grant dollars per student than any other postsecondary education institution, and more Black and Hispanic seniors receive Supplemental Educational Opportunity Grants than White students. CUNY's University Student Senate feels it would be unwise to increase funding for the Work Study Program at the expense of other aid programs. One-third of the students attending California State University depend on scholarships, grants, loans, and work to attend college. Of 91,000 financial aid recipients, 45,000 depend on Pell Grants and 43,000 rely on the Guaranteed Student Loan Program. Testimony from a Barnard College student addresses the proposed \$8,000 ceiling on financial aid and notes that the average amount required to attend private colleges is estimated at \$11,600 for 1986. Views of representatives from additional

states and institutions are included. (SW)

EDRS Price - MF01/PC06 Plus Postage.

Descriptors—Access to Education, Catholic Schools, \*Computer Assisted Instruction, Computer Literacy, Elementary Secondary Education, \*Equal Education, \*Microcomputers, National Surveys, Private Schools, Public Schools, Questionnaires, Research Methodology, School Districts, School Surveys, Tables (Data), Teaching Methods, \*Use Studies

Identifiers—\*Computer Uses in Education

This report of Market Data Retrieval's second comprehensive survey of microcomputers and their use in grades K-12 presents information for the 1984-85 year for public, private, and Catholic schools in the United States. The survey findings are summarized in a brief introduction, and detailed data are presented in the 37 tables and 9 maps that accompany the narrative report. Areas covered include microcomputer use by school type, micro-intensity by grade level and type of school, brand distribution, and growth trends. Findings indicate that: (1) U.S. schools are now using 630,000 microcomputers, a 75% increase over the 1983-84 school year; (2) public school use of micros (85.1%) still exceeds private (46.4%) and Catholic school (63.4%) use; (3) senior high schools still lead the way with 94.6% using microcomputers, but junior high schools are now at 93.1% and elementary schools at 82.2%; (4) 94.2% of U.S. public school districts now use microcomputers for instruction (an increase of 86.1% over last year, and 41.7% over 4 years ago); (5) Apple computer remains the most common microcomputer brand, with a 50.9% share of the market; (6) Radio Shack is second with a 19.7% share and Commodore is third with 15.2%; (7) IBM had the fastest growth rate, moving to a 3.5% share of the market; (8) while the number of children sharing a computer has been reduced in both wealthy and poor schools (54 versus 73.3), wealthy schools are making improvements at a faster pace. State rankings, state profiles, and survey methodology and definitions are appended. (JB)

Research Issues in Computer-Assisted Learning Environments.

Pub Date—85

Note—18p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Information Analyses (070) — Opinion Papers (120) — Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Academic Achievement, Classroom Environment, \*Computer Assisted Instruction, Computer Software, Elementary Secondary Education, \*Equal Education, Equal Facilities, Inservice Teacher Education, Instructional Innovation, \*Microcomputers, Sex Discrimination, Sex Stereotypes, \*Social Environment, Student Motivation, Teacher Attitudes, \*Teacher Role

This review of the research on concerns associated with the use of computers in school learning environments focuses primarily on issues related to the impact of computer technology on equity, espe-

cially the reasons for differential use of computers by boys and girls and the effects of economic disparities among schools and students; differences in philosophy of school management; differential use of computers by students with different cognitive ability (especially as related to the learning condition of locus of control); location of computers in schools; and the practice of using computers as a reinforcement for academic behavior. The effects of computer use on the social patterns of students, motivation, and the role and attitudes of teachers are also discussed. It is suggested that further research is needed to consider the effects of computer-student ratios, location and arrangement of computer-based learning environments, the design features of instructional hardware and software, and inservice teacher training models used to facilitate the implementation of the technology. It is pointed out that both qualitative and quantitative research designs are needed to provide information about the processes related to the use of computers in the learning environments and the immediate effects of computer-based learning on students. A list of references is provided. (JB)

Descriptors—Cognitive Processes, Comparative Analysis, Higher Education, Hypothesis Testing, Instructional Design, Intermediate Differences, Learning Strategies, Microcomputers, Research Methodology, Retention (Psychology), Skill Development, Tables (Data), Teaching Methods, Time Factors (Learning)

Identifiers—\*Elaboration Theory, \*Instructional Effectiveness

To examine the role of elaborations in learning a procedural skill (i.e., using a personal computer) from an instructional text, 88 members of the Carnegie-Mellon University community (students, faculty, and staff members) participated in two experiments. Experimental sessions consisted of a reading period followed by a task performance period in which subjects utilized an IBM personal computer. The first experiment compared two sources of elaborations: those provided in an elaborated version of the microcomputer user's manual, and those generated by learners while reading an unelaborated manual. For the second condition, subjects were given advance information about the tasks they were to perform so that they would generate more specific, task-related elaborations while reading. It was concluded that both sources of elaborations facilitated skill performance, in contrast to past experiments testing declarative knowledge in which author-provided elaborations were found to hurt performance. The second experiment examined responses to author-provided elaborations which were classified into two groups: those illustrating the syntax of the operation system commands and those explaining basic concepts and their applicability. Findings indicate that, although syntax elaborations produced significant facilitation for both experienced and novice computer users, concept elaborations produced no reliable improvement. Appendices contain samples of elaborations used in the two experiments, a five-page list of references, notes, and five data tables. (JB)

Identifiers—California State University Chico

This report discusses the development and characteristics of the Prospective Student Inquiry Data File and Information System, which is used by the California State University at Chico (CSUC) as part of an effort to increase its student applicant population. Following a brief review of organizational background information, the report is divided into five sections which provide: (1) a detailed description of the purpose and function of the School Relations and Outreach Office, one of the university agencies responsible for student recruitment; (2) information on the Prospective Student Inquiry Data File—function, history, data sources, data entry schedule, specific file record elements, file processing, file output, user population, and output utilization; (3) a discussion of problems caused by the computer-incompatibility on campus that inhibits full use of the Prospective Student Information System; (4) a case study of efforts by the CSUC School of Agriculture and Home Economics to incorporate the Inquiry Data File into a specialized information system that would streamline its recruiting process; and (5) some projections and recommendations regarding the future of the Prospective Student Information System at CSUC. Appendices contain three different prospective student inquiry forms, a sample computer listing of an inquiry report for the School of Agriculture and Home Economics, a flow-chart for the prospective student inquiry response system, and a list of references. EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Business Communication, Cost Estimates, Electronic Equipment, Information Needs, Information Networks, International Organizations, Program Costs, Program Implementation, Program Proposals, Teleconferencing, Telephone Communications Systems

Identifiers—Alaska, Computer Communication,

Electronic Mail, \*Pacific Circle Consortium

This report discusses teleconferencing as a possible medium for conducting certain types of Pacific Circle Consortium (PCC) business. Under the general heading of teleconferencing, the paper examines a number of telecommunications options including two-way video, electronic mail, slow-scan video, facsimile equipment, electronic blackboards, computer conferencing, and audio teleconferencing. Cost estimates are provided for each type of system, and it is recommended that PCC members become familiar with the lowest cost and most flexible of the various options, i.e., audio teleconferencing. It was also recommended that: (1) the Consortium use the teleconferencing services provided by Kellogg, Incorporated, of Denver, Colorado; (2) use of teleconferencing services by Consortium members initially consist of dialing from convenient locations, with use of electronic mail for correspondence and database access as a second step; and (3) the Consortium experiment with teleconferencing for the first year before purchasing or leasing the appropriate terminal equipment. Also provided are guidelines for setting up the teleconferencing services plan, including 10 protocols for ensuring a successful teleconference. A list of references is included, as well as lists of organizations providing: (1) teleconference services; and (2) audio conference terminal equipment. (JB)

Identifiers—Computer Uses in Education, Louisiana

In order to establish base line information on microcomputers and their use for K-12 schools in Louisiana, the State Department of Education measured the current status of the use of computers in the public schools of the state. Two different forms were used for the survey, one designed to collect information on the instructional use of the computer in the schools, and the second designed to examine the central office data processing activities. A total of 66 local education agencies (LEAs) were contacted by the State Department of Education; 51 responded by returning the instrument. Results indicate the following: (1) 40 LEAs (78% of the respondents) have microcomputers in one or more schools; (2) 30% of the schools in the responding LEAs are using computers in instruction; (3) all grade levels K-12 are involved, with the most involvement at the highest grade level; (4) the computer is used most in mathematics classes; (5) the Tandy Corporation's TRS-80 computers were the most widely used (54%), and Apple came next with 25%; and (6) inservice teacher training was ranked the most important need by 70% of the respondents, followed by software and hardware information as second and third in importance. Eleven data tables summarize survey findings, and sample survey instruments are appended. (JB)

Surveys, Tables (Data), Teaching Methods, \*Use Studies  
**Identifiers**—Computer Uses in Education, \*Louisiana

Designed to follow up a 1981-82 study which established base line information on microcomputers and their use for K-12 schools in Louisiana and two subsequent annual surveys, this report presents information for the 1984-85 school year. After a brief introduction describing the population surveyed and instruments used, survey findings are summarized; figures are based on responses from 911 schools (61%) and 65 local education agencies (98%). Detailed survey results are then presented in 17 data tables which show: (1) institutions not using computers in instruction; (2) percentage of schools using and not using computers between the years 1981 and 1985; (3) computer utilization by grade levels; (4) distribution of computer use in the schools across subject areas; (5) total number of computers in the schools, 1981-1985; (6) number of computers by make and model; (7) functional use of computers and number of students served; (8) demographics of students taking courses which utilize computers; (9) number of schools with special programs that encourage girls or special education students to use computers; (10) number of schools with access to district computer planning; (11) selected locations of computers within schools; (12) computer software sources; (13) sources of computer equipment maintenance; (14) average and total number of teachers receiving computer training; (15) number of schools using other technologies in conjunction with computers; (16) sources of funds for computers; (17) number of schools reporting various sources of funds used to purchase computers; and (18) number of schools by type purchasing computers from the state contract. Also included are five recommendations for the Louisiana Department of Education, the survey instrument, and four appendices which provide raw data from the survey. (JB)

**Identifiers**—\*Electronic Text, PLATO, TICCTT Computer System

This paper argues that electronic text applications in higher education can be conceptualized in terms of three communicational intentions of computer-based systems: informational, instructional, and instrumental (tool-oriented). Product-oriented and service-oriented applications of electronic text are contrasted, and instructional applications are explored through case histories of mature computer-based instructional systems, including TICCTT and PLATO. A discussion of the potential of authoring systems as tools for generating electronic text-based instruction is followed by an outline of perspectives for a systematic/scientific approach to instructional product development. It is suggested that if electronic text systems are to become truly useful resources, the problem of how to integrate the delivery of instructional products with other educational activities that are based on electronic text, must be addressed; such activities would include library data bases, electronic mail, and computer conferencing. A list of references completes the document. (Author/JB)

Focusing on ways in which Oregon educators have made use of computers, the 47 papers in this proceedings show substantial progress in some areas and point out some unanswered research, instructional, learning, and management questions. The contents are divided into three general areas: Curriculum Applications, Learning and Teaching, and Classroom and School Management. Each major section is further sub-divided into topic areas which contain from one to four papers each: (1) Elementary Education; (2) Language Arts; (3) Mathematics; (4) Science; (5) Social Studies; (6) Business; (7) Art; (8) Music; (9) Health; (10) Programming; (11) Instructional Design; (12) Problem Solving; (13) Special Education; (14) Computer Networking; (15) Library and Information Systems; (16) Classroom Management; (17) Legal Implications; (18) Computer Coordination; (19) Hardware/Software Purchasing; and (20) Computer Support of School Management. An author index is provided. (JB)

The Great Circle of Life. A Resource Guide to Humanistic Films on Aging.

Pub Date—85

Note—365p.

Pub Type—Reference Materials - Bibliographies (131)

EDRS Price - MF01/PC15 Plus Postage.

**Descriptors**—Adults, \*Aging (Individuals), Attitudes, Elementary Secondary Education, Emotional Response, Filmographies, \*Films, Gerontology, Grief, Higher Education, \*Humanistic Education, \*Human Relations, \*Individual Needs, Interpersonal Relationship, Older Adults, Stereotypes

Designed as a comprehensive resource guide for educators, health-care professionals, and media librarians, this document contains information on 45 aging-related films which are humanistic in nature, i.e., films which recreate an individual's experience at a specific time and in a particular setting. The text is divided into five chapters, each focusing on a different aspect of aging: Symbolic Statements, Portraits of Aging, Intergenerational Relationships, Responses to Loss, and Life Review. Specific information given for each film includes: (1) a brief introduction which serves to orient users to the story and the filmmaker's style; (2) previewing notes and activities to prepare audiences for the film; (3) a detailed, but concise, summary; (4) a set of discussion questions; and (5) a sample worksheet for use in a particular class or program. After the major films are covered in each chapter, two charts are presented which relate to programming concerns: (1) Recommended Audiences, which is designed to help users select a representative sample of films on a particular topic or subject area suitable for a specific age group, i.e., pre-school through adult; and (2) Recommended Subject Areas, which identifies more than 20 subject areas and indicates which films include materials relevant to those areas. Also included for each chapter are lists of additional recommended films; 49 films are included in these sections. Each entry provides a brief summary of the film, some evaluative comments, suggested audiences, and possible uses. A listing of distributors' addresses and phone numbers appears at the end of the document. (JB)

Microcomputers in Alberta Schools—1985. A Final Report on the Results of a Resource Survey of Alberta Schools.

Alberta Univ., Edmonton. Faculty of Education. Spons Agency—Alberta Dept. of Education, Edmonton.

Pub Date—Jun 85

Note—73p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC03 Plus Postage.

**Descriptors**—\*Computer Assisted Instruction, \*Computer Literacy, \*Courseware, Data Processing, Elementary Secondary Education, Inservice Teacher Education, \*Microcomputers, Questionnaires, School Surveys, Tables (Data), Teaching Methods, Use Studies

**Identifiers**—Alberta, \*Computer Uses in Education, LOGO Programming Language

To determine the number and current use of microcomputers in Alberta's elementary, junior, and senior high schools, a total of 1,509 schools were surveyed. The results, as reported by 1,271 schools (84.2%), showed the total number of microcomputers to be 13,748. To provide more in-depth information, schools were categorized by six instructional levels and survey results were tabulated both by school level and by microcomputer brand category. Data indicate Apple computers dominate at the elementary and junior high level; however, this dominance seems to weaken at the senior high level. Another aspect of the survey sought to determine how many microcomputers schools would buy in the next fiscal year; results of this projection showed that the 1,271 respondents expected to purchase an additional 6,859 microcomputers during this period. It was concluded that the computer literacy program is strong at the elementary and junior high school levels, while courses in computer processing seem to be more popular at the senior high level. One of the biggest obstacles to the implementation of instructional computing is identified as the lack of teachers who are computer literate; it is recommended that both pre- and in-service teacher educa-

tion include computer literacy courses. Appendices include a sample survey package and a list of participating school jurisdictions. In addition, 30 data tables present findings on computer literacy, computer use, computer location in schools, and teacher attitudes toward MECC (Minnesota Educational Computer Consortium) software. These tables provide information for elementary, junior, and senior high schools as well as total results for all schools surveyed. (JB)

This document comprises three progress reports for a 5-year environmental aging study aimed at establishing the lifetimes of magnetic tapes and the poly(ethylene terephthalate) (PET) base of photographic and electronic film under archival storage conditions. The first annual report (1982) introduces the rationale for the project, provides background information on PET and a review of selected aging studies involving PET, and describes the scope of the current project. The second annual report (1983) provides the results with PET in the first year as well as descriptions of the second year experiments and their subsequent findings. The progress report (1984) summarizes the two annual reports, discusses their findings, proposes further research, and states conclusions for PET films. Each section of the document contains its own set of references, as well as data tables and graphs which support the study's findings. (JB)

Descriptors—Curriculum Development, \*Educational Television, Elementary Secondary Education, Instructional Innovation, Instructional Material Evaluation, Models, \*Program Guides, Program Implementation, Resource Materials, Skill Development, Teacher Attitudes, Teaching Guides, Teaching Methods

Identifiers—Nebraska

This resource guide is designed to help principals acquaint themselves and their teachers with instructional television (ITV) programming and to assist in the supervision of ITV use to obtain the optimum educational value for students. A brief introduction presents a rationale for the educational use of television and describes the Nebraska State Instructional Television Services Department. A checklist is provided for use in evaluating the overall system for use of ITV in a school before addressing the validity of ITV use by individual teachers. The title, class level, and a brief description are presented for each of 118 general ITV on-air programs which are available to teachers through the Nebraska system. Additional programs are also listed in eight categories: (1) foreign language; (2) guidance; (3) language arts; (4) physical education; (5) science; (6) social studies; (7) teacher inservice; and (8) vocational education. Suggestions are provided for successful classroom implementation of instructional television, and ITV Services support materials are outlined. An ITV evaluation checklist, a model for using instructional

television, a diagram of the relationship of ITV to instructional skills, and copies of four different types of ITV program request forms complete the document. (JB)

Identifiers—\*Analogies

Over the past several years, technical communicators have been struggling to change some of the stylistic traditions inherited from scientific discourse. Rhetoricians, writing teachers, and psychologists all agree that the use of analogy and first- or second-person sentence construction make for more effective communication than the absence of analogy and the use of the impersonal third person. However, established conventions and standards sometimes preclude inserting these stylistic devices into our material. With only an intuitive feel for the use of language, our arguments lack the substantive basis with which to change the standards. In order to examine the discrepancy between theory and practice, an experiment with computer documentation was conducted to measure the effects of analogy and second-person construction in learning, and another to assess whether these same stylistic devices were annoying to subject matter experts. The use of analogy made it easier for subjects to recall information without being cued; however, it had no effect on cued recall (recognition). Computer programmers were indifferent to the use of analogy (not hostile), and they preferred the second person sentence construction to the third person. (Author/JB)

Descriptors—Cluster Analysis, \*Computer Assisted Instruction, \*Courseware, \*Elementary School Teachers, Elementary Secondary Education, \*Inservice Teacher Education, Interviews, Mathematics Education, \*Microcomputers, Observation, Questionnaires, Science Instruction, \*Secondary School Teachers, Tables (Data), Teacher Attitudes, Teaching Methods, \*Use Studies

This study of patterns of microcomputer-based instruction in elementary and secondary schools had three objectives: (1) to describe how teachers who were nominated by their peers as "unusually successful" in their microcomputer-based mathematics and science teaching use technology for instruction; (2) to describe how these uses vary as a function of teacher characteristics and other background variables; and (3) to recommend policies for educating teachers in the instructional uses of microcomputers and for devising courseware that serves pedagogical aims. A total of 60 teachers—40 elementary and 20 secondary—in 25 districts and 49 schools in the state of California were interviewed. Schools varied in the number of microcomputers

available for instruction (1 to 55, with an average of about 12), and in the resources they provided for microcomputer-based instruction. Based on 16 variables of instructional characteristics underlying microcomputer-based instruction, four homogeneous clusters of teachers were identified: orchestration (N=18), enrichment (N=23), adjunct instruction (N=14), and drill and practice (N=5). Analysis of the data indicates that, although teacher attitudes toward microcomputers were not related to the patterns of microcomputer-based instruction that were identified, all teachers held uniformly positive attitudes. Teacher knowledge about microcomputers was also unrelated to the average amount of coursework taken in mathematics, but the amount of science taken as an undergraduate did reflect positively on instructional use. Recommendations are presented for staff development and the characteristics of teacher-friendly courseware are discussed. Appendices include the interview guides and questionnaires used as well as discussions of methodological considerations and modes of microcomputer-based instruction. A list of references completes the document. (JB)

Identifiers—Minnesota

Third in a series of reports on Minnesota's Technology Demonstration Program, this document provides a synthesis of previous findings, presents a critique of the technology program, and evaluates 15 demonstration sites which were chosen to serve as models for the uses of technology in instruction and management. The report is divided into three major sections. The first section contains: (1) a brief explanation of the evaluation and data gathering methods used; (2) an overall description of the program; (3) a series of judgements about, and ratings of, the program; (4) some general observations about technology; and (5) recommendations for action. Appendices contain summary data on the projects, including their major focus, sources and amount of funding, expenditures by project and expenditure category, and a fact sheet for each site. The second section presents a summary of case study findings as well as a detailed analysis of each of the 15 programs. Comments on each program are divided into: introduction, project context, program input or resources, program implementation or process, program outcome, and synthesis/summary. The third section contains regulations developed by the Minnesota Advisory Committee on Technology in Education for school districts and the Department of Education. These relate to state funds, inservice education, availability and production of computer courseware, and criteria and procedures for evaluating courseware packages. A chart is appended which indicates the appropriate grade level specific MECC (Minnesota Educational Computing Consortium) software programs. (JB)

Gantz, Walter Weaver, James B. III  
Parent-Child Communication about Television: A View from the Parent's Perspective.

Pub Date—Aug 84

Note—27p.; Paper presented at the Annual Convention of the Association for Education in Journalism and Mass Communication (Gainesville, FL, August 1984).

Pub Type—Reports - Research (143) - Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Adolescents, Analysis of Variance, Children, \*Family Environment, Family Influence, Family Life, \*Interpersonal Communica-

tion, Interviews, \*Parent Child Relationship, Parents, \*Programming (Broadcast), Tables (Data), Television Research, \*Television Viewing

This study examined both general and specific parent-child television viewing experiences together with any interactions related to television viewing whether the child has watched television with a parent or alone. A total of 384 telephone interviews of parents (57% female, 43% male) with children at home between the ages of 6 and 18 were conducted in a major midwest market. The questionnaire elicited information on: general patterns of both individual and joint (parent-child) exposure to television; general patterns of parent-child conversations about television; specific parent-child TV-related conversations recalled from the previous evening; and relevant demographic and communication variables. Respondents reported watching television with their child an average of 4 days per week; one in three (34%) said every day. Most (59%) said that when they watched television with their child, it was because they both wanted to watch at the same time. Parents appeared to have ambivalent feelings toward talking about TV with their child. While 79% said that it was at least somewhat important and 30% said very important, relatively few reported really enjoying such conversations. In addition, children did not appear to talk with their parents about the programs they watched alone; 53% said such discussion occurred, at most, occasionally. These findings suggest that the form and content of television may serve to minimize rather than facilitate communication among co-viewers, although the frequency, duration, and quality of conversations about television may be no different than other non-television related conversations between parents and children. Additional survey and experimental examinations are called for to continue to collect data on television's role in the context of family relationships. A bibliography and five data tables complete the document. (JB)

Identifiers—\*Computer Chips

Very Large Scale Integration (VLSI), the state-of-the-art production techniques for computer chips, promises such powerful, inexpensive computing that, in the future, people will be able to communicate with computer devices in natural language or even speech. However, before full-scale VLSI implementation can occur, certain salient factors must be addressed: quicker circuitry, lithography for greater bit density, spare memory elements, military needs, computer aided design, combined chip and system design, the engineering education crisis, and the nature of designers and their work. The cost of this technology in human terms must also be considered. While more intelligent machines may intensify production, they may also put skilled people out of work and increase the demand for clerical workers, leading to a devaluation of human resources. In addition, the immediate application of research funds for computer technology may not address quality of life improvement; mass destruction is also a potential result of technological advancement. The conflict is not humans versus the machine; only the way the machine is used can bring about change. (JB)

Identifiers—Apple II

This document describes the WORDS software, a computer program designed to evaluate a reading disabled student's sight word vocabulary using an Apple II microcomputer. A brief discussion of various methods of addressing reading difficulties precedes a detailed description of the WORDS program and its use. This description covers: (1) the organization of the program; (2) the learner response system; (3) the examiner's role; (4) methods of recording responses to stimulus words; (5) the program's branching capabilities; (6) directions for data viewing; (7) student data storage; (8) suggestions for successful operation; and (9) directions for the Save and Print commands. Appendices include a brief bibliography, a flow-chart of the WORDS scheme, and a printout of the entire program. (JB)

Micro-CAI in Education: Some Considerations.

Pub Date—Oct 84

Note—24p; Paper presented at the Montana Council for Exceptional Children Fall Conference on Exceptionality (October 1984).

Pub Type—Information Analyses (070) — Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Computer Assisted Instruction, \*Computer Software, \*Discovery Learning, Elementary Secondary Education, Instructional Design, \*Learning Disabilities, \*Learning Processes, Literature Reviews, Man Machine Systems, \*Microcomputers, Models, Programming Languages, Special Education, Teaching Methods

Identifiers—\*Instrumental Learning Theory

This paper focuses on the applications which best suit the microcomputer in an educational setting with emphasis on adapting effective pedagogical practice to the computer's programmability and delivery capabilities. Discovery learning and "being told" are identified as two types of computer assisted instruction (CAI) and sample uses of each method are compared and contrasted to identify their strengths and weaknesses. Comparison of these two CAI methods is based on analyses of five components: (1) student reinforcement; (2) full use of the potential of microcomputers; (3) student-computer interactions; (4) knowledge of possible answers and probable mistakes; and (5) existence of an interactive environment. It is pointed out that learning to program in "discovery languages" (LOGO, PILOT) is a powerful skill that all students should have available to them. Implications of CAI for use with special education students are discussed, and specific benefits are suggested for behaviorally disoriented, mentally and physically handicapped, and learning disabled students. Four major components of CAI that assist these students are identified: program patience, program repetition, eagerness of students to use computers, and suitability for discovery learning. Teachers are encouraged to familiarize themselves with programs that teach effectively and to help create programs that ensure superior instruction. A three-page list of references completes the document. (JB)

Designing Videodisc-Based Courseware for the High School.

Pub Date—85

Note—26p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Opinion Papers (120) — Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Computer Assisted Instruction, \*Courseware, High Schools, Instructional Design, \*Instructional Development, Instructional Innovation, \*Mathematics Education, \*Science Education, Secondary Education, Teaching Methods, Technological Literacy, \*Videodisc Recordings, Video Equipment

Identifiers—\*Interactive Video

The purpose of this paper is twofold: (1) to outline the issues involved in designing videodisc-based instruction to meet the needs of the public high school, and (2) to describe the approach being used

in one project that is developing videodisc-based courseware for high school math and science instruction. The first of two major sections presents a rationale for interactive videodisc instruction, a description of a four-level classification scheme for instructional videodisc configurations, and a discussion of the educational implications of the different levels. It is pointed out that videodisc-based courseware can be designed to work effectively in both Level 1 and Level 3 delivery systems; this dual approach to courseware development appears particularly suitable for use in public school math and science instruction. The second section summarizes the development of a series of interactive videodiscs, "Core Concepts in Math and Science," including instructional format, development and validation procedures, and observations from the field testing. It is concluded that the combination of interactive videodisc technology, selected instructional design, and mastery learning procedures provided the teacher with a flexible and powerful resource. A list of references is appended. (JB)

Interaction of Learner Control and Prior Conceptual Understanding in Computer-Assisted Video Instruction.

Pub Date—Apr 85

Note—33p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Analysis of Variance, Aptitude Treatment Interaction, Biology, \*Computer Assisted Instruction, Concept Formation, Epistemology, Higher Education, Hypothesis Testing, \*Individual Differences, \*Individualized Instruction, Intermediate Differences, Science Instruction, Tables (Data), \*Time Factors (Learning), \*Video Equipment, Videotex

Identifiers—\*Instructional Effectiveness, \*Learner Control

The purpose of this study was to examine how learners with different levels of prior understanding of a topic interact and learn from computer-assisted video instruction systems when they have control of content, sequence, pace, and mode of instruction. Based on pretest scores, 80 subjects were randomly selected, half with low prior conceptual understanding, and half with high prior conceptual understanding. Half of the subjects from each group were randomly assigned to a program vs. learner control treatment which consisted of computer-assisted video instruction modules on protein synthesis. A 2X2 analysis of variance was conducted on posttest scores and time on task, followed by a regression analysis to assess the relationship of other independent variables with posttest scores and time on task. In the learner control condition, subjects with high prior conceptual understanding in the subject area made significantly better use of control options and their time than did subjects with low prior conceptual understanding. In the program control condition, there were no significant posttest score differences, but there were significant time on task differences between subjects with low prior conceptual understanding and high prior conceptual understanding. Low prior conceptual understanding subjects had significantly higher posttest scores in the program control condition than in the learner control condition; however, there were no significant differences in time on tasks between conditions. Finally, high prior conceptual understanding subjects performed equally well in both program control and learner control conditions. A three-page list of references and several tables/figures complete the document. (Author/JB)

Descriptors—Athletic Coaches, Case Studies, Computer Assisted Instruction, \*Computer Software, Information Networks, Information Storage, Intermediate Grades, Junior High Schools, \*Mi-

crocomputers, \*Physical Education, \*Physical Education Teachers, Recordkeeping, Word Processing

Identifiers—\*Computer Uses in Education

Designed to assist physical education teachers realize the benefits of microcomputer usage, this paper presents the case study of a hypothetical middle school teacher who utilizes Apple computers for record-keeping, planning, teaching, and coaching. The case study shows how the computers save time, assist in individualizing instruction, help motivate and interest students, and allow the teacher to communicate with others in her field. In addition, several computer programs and their applications are discussed: (1) Appletworks; (2) Teacher Utilities, Volume 1; (3) Sports Data Services Volleyball Statistics; (4) Network (a hypothetical communications network); (5) Project REACT Athletic Scheduling; (6) Attendance Taker; (7) The Factory; (8) Project REACT Bowling; (9) Physical Education Record Keeper; (10) Body Fat Calculator; and (11) Comp-Tech Systems Design Volleyball. A list of references is appended which provides sources for the computer software mentioned in the document. (JB)

Teaching Generalizations Using a Computer-Based

Drill Strategy.

Pub Date—Apr 85

Note—51p; Paper presented at the Annual Meeting of the American Educational Research Association (Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Algebra, Analysis of Covariance, \*Computer Assisted Instruction, \*Concept Teaching, \*Drills (Practice), Higher Education, Individualized Instruction, Instructional Design, Intermediate Differences, Learning Strategies, Mathematics Instruction, \*Microcomputers, Models, \*Recall (Psychology), \*Review (Reexamination)

Identifiers—\*Instructional Effectiveness, PLATO IV

The Corrective Feedback Paradigm (CFP), a computer-based instruction model, addresses the problem of inefficient sequencing of items in a set to be learned by suggesting the use of an increasing ratio review schedule for presenting drill items. With this system, items answered correctly are either removed from the list entirely or replaced at the end of the stack of items; if an incorrect answer is given, the missed item is inserted in the stack of drill items according to a specified spaced review schedule. To determine the effectiveness of increasing ratio review for teaching generalizable concepts, 51 subfreshman, enrolled in one of three Algebra I classes at a university laboratory high school, utilized the PLATO system to study the generalizations suggested by the relationship between the equations for curves. For purposes of the experiment, three drill paradigms were used: (1) increasing ratio review with generalized item generation (IRR-GEN); (2) increasing ratio review with fixed items (IRR-FIX); and (3) immediate review only with generalized item generation (IMM-GEN). Pre- and posttests were given to subjects who were randomly assigned to three treatment groups. It was found that the systematic review of difficult items helped the IRR-GEN subjects to remember the concepts over time better than the immediate review treatment helped the IMM-GEN group. There was also a significant difference in posttest performance between the IRR-FIX and IMM-GEN groups. These differences support the claim that increasing ratio review techniques can be successful in enhancing traditional drills to teach generalizations. PLATO system directions and the study posttest are appended, and a list of references is provided. (JB)

Gender and Computers: The Beneficial Effects of

Experience on Attitudes.

Spons Agency—Lilly Endowment, Inc., Indianapolis, Ind.

Pub Date—Oct 85

Note—32p; Paper presented at the Conference on Computers & Children (Ann Arbor, MI, October 1985). A project of the Education and Technology Panel of the Study of Stanford and the Schools.

Pub Type—Reports - Research (143) — Speeches/

Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Academic Achievement, \*Adolescents, Attitude Measures, Equal Education, Hypothesis Testing, \*Microcomputers, Questionnaires, Secondary Education, \*Sex Differences, Sex Role, \*Student Attitudes, Surveys, Tables (Data), Use Studies

A study was conducted to examine gender differences in computer attitudes and experiences of adolescents. A random, systematic sample of students (1,138) from five San Francisco Bay area high schools was surveyed for their uses of computers before and during their high school years. Four main categories of data were collected: (1) instructional and informal computer experiences of high school students; (2) students' attitudes toward computers; (3) social influences affecting computer use; and (4) student background and demographic data. Findings indicate that adolescent males had greater total exposure to computers, based primarily on higher enrollments in computer programming classes and participation in voluntary experiences, such as home computer use. Fewer gender differences were found in enrollment in classes using computers for purposes other than programming. Overall, males also held more positive attitudes of interest in, and confidence with, computers than did females. However, controlling for amount of computer experience indicated that males and females responded with similar levels of interest. Social influences, particularly those among peer groups, are explored as important factors for differential rates of participation in computer activities. It is suggested that the job of preparing male and female students for prospective career paths and helping them to realize the occupational utility of computer experience remains a challenge for our schools. A three-page list of references completes the document. (JB)

Descriptors—Child Development, \*Children's Television, \*Educational Television, Evaluation Methods, Formative Evaluation, Literature Reviews, Preschoolers, Public Television, Questionnaires, \*Science Education, Sex Differences, Student Attitudes, Teaching Methods, \*Television Research

Identifiers—\*Instructional Effectiveness, Nielsen Surveys

This report discusses research related to the educational potential of 3-2-1 CONTACT, a PBS (Public Broadcasting Service) series on science and technology, which was produced by the Children's Television Workshop for a primary target audience of 8- to 12-year-olds in both home and school settings. Conducted over a 6-year period (1977-83), this research encompasses a number of different types of studies and data ranging in purpose and methodology. A discussion of the evaluation context introduces the review of the research, which is presented under the following topics or subtopics: (1) Formative Research for Seasons I & II; (2) Nielsen Ratings for Seasons I & II; (3) Other Indicators of Effectiveness (teacher's guide requests, PBS station response, reaction from the science community, collaboration with service groups, etc.); (4) Ann Arbor Study of Season I; (5) The Erikson Study of Season II; and (6) The Oakland Study of Season II. Each section includes a discussion of the research methodology and findings. Some summaries of results indicate special areas of concern, such as image of scientists, science knowledge, appeal of program materials, sex differences, and science attitude formation. A final summary/discussion and a list of references complete the document. (JB)

Identifiers—Pepperdine University CA

Case studies are presented for seven Los Angeles area (California) high schools that worked with Pepperdine University in the IBM/ETS (International Business Machines/Educational Testing Service) Model Schools program, a project which provided training for selected secondary school teachers in the use of personal computers and selected software as aids to learning. The major purpose was to determine how microcomputers and software could be used to assist in the existing instructional process at the secondary level. An introduction briefly describes the IBM/ETS Model Schools program objectives, research methods, and techniques used for the case studies. Information is then presented for each of the schools, including the educational setting, microcomputer laboratory set-up, and a description of the computer applications that were developed. In addition, major issues that emerged from the project are discussed for each school: hardware, software, teacher training, time requirements, applications versus programming, school support, and school culture. Recommendations are presented for those planning or developing microcomputer programs in secondary schools, and eight applications that were developed in the IBM/ETS project are described. These applications used word processing (2), communications (1), a database management system (2), a database and graphics (1), and an electronic spreadsheet (2). A report on a formal course offering that is now part of the Pepperdine University Master of Science Degree in Educational Computing concludes the report. Lists of core software and software options and an outline of a computer curriculum module are appended. (JB)

Descriptors—\*College Faculty, \*Communication (Thought Transfer), Computer Literacy, Electronic Equipment, Electronic Mail, Faculty Development, Higher Education, Information Needs, \*Information Networks, Information Sources, \*Microcomputers, Online Systems, \*Social Networks, \*Telecommunications, Telephone Communications Systems

Electronic networking is communication between two or more people that involves one or more telecommunications media. There is electronic networking software available for most computers, including IBM, Apple, and Radio Shack personal computers. Depending upon the sophistication of the hardware and software used, individuals and groups can conference (or "talk") with one another, leave messages, post messages that the entire group can read, send a confidential letter from one member to another, instruct the computer to regularly remind other members of the group about some item, and a variety of other applications. College and university faculty will find electronic networking a valuable addition to the types of professional linkage to which they are already accustomed: articles, papers, newsletters, memos, and messages. Electronic networking can also be utilized for instructional purposes, dialog among members of a professional society, and for the development of jointly-authored articles. As faculty and professional staff at colleges and universities become more familiar with the operation of computers and computer terminals, and as they become more knowledgeable in the use of electronic networking on campus, their desire to communicate with colleagues in other institutions will grow. As a result,

newer, stronger, and more frequent exchanges of ideas, materials, and news will facilitate the interchange of ideas among the professoriate, thereby increasing the quality of teaching, learning, and research in higher education. (JB)

Descriptors—Analysis of Covariance, \*Computer Assisted Instruction, Higher Education, Intermediate Differences, \*Medical Education, \*Medical Students, \*Neurological Impairments, \*Pediatrics, Student Attitudes, Tables (Data), Teaching Methods, \*Videodisc Recordings

Identifiers—Instructional Effectiveness, \*Videodiscs

To assess the instructional effectiveness and user acceptance of a computer-controlled videodisc program designed to teach medical students to recognize and assess motor dysfunction in infants, an experimental group of third year medical students (N=65) were instructed using the videodisc program; a corresponding control group (N=70) did not use the program. Data were gathered from three instruments: (1) a 10-item multiple choice subtest on knowledge that was embedded in the 120-item final examination at the end of the 6-week pediatric rotation; (2) a 9-item multiple choice subtest assessing diagnostic skills that was provided via videotape as part of the same exam; and (3) a 20-item attitude questionnaire for students in the experimental group. Findings indicate that there were statistically significant differences between the experimental and control groups and that the students in the experimental group scored higher on both subtests. Neither variation on the amount of prior clinical experience nor time spent in the clinical unit had an effect on student scores. In addition, despite some technical problems, students' evaluation of the program's educational qualities was very positive and all said the program should continue to be part of medical school training in pediatrics. However, medical students did rate computer-videodisc second behind actual experience as an instructional method. Information on subsequent updating of the program, sample computer screen and videodisc frames from the program, a list of references, four data tables, and examples from the 19-item diagnostic test complete the document. To determine the current and future competencies required by librarians and information professionals, a project was undertaken to meet the following objectives: set forth an idealized framework to be used by the librarian and information

professional community; determine a first set of competencies which are validated in the workplace to some extent; establish initial education and training requirements; initiate a process for communication among the principal librarians and information professional participants which can be continued after project completion; and describe steps that can be taken in the future to ensure continuation of the competency achievement cycle. To meet these objectives, substantial input was obtained from a large number of organizations, educators, employers, professional societies, and individual professionals. The study results are presented in a six-chapter report and five appendices. Report chapters comprise: Overview of the Project; A Framework for Describing Librarian and Information Professional Competencies; Methods; Information Workers and Librarians and Information Professionals; Librarian and Information Professional Competencies; and Educational Requirements and Implications. Appendices include a literature review; secondary analyses (including analyses of information professional and librarian vacancy announcements); an example of the relationships between competencies, performance, effectiveness, and value in three special libraries; a bibliography; and an annotated bibliography. Twelve supplementary volumes provide detailed descriptions of competencies for the following positions: (1) Academic Librarian; (2) Public Librarian; (3) School Librarian; (4) Special Librarian; (5) Database Producer; (6) Database Distributor/Service; (7) Information Center/Clearinghouse; (8) Records and Information Manager; (9) Archivist/Museum; (10) Information Analysis Center; (11) Information Service Company; and (12) Library System Supplier. This document contains validated activities and competencies needed by information professionals working in an information center/clearinghouse. The activities and competencies are organized according to the functions which information center professionals perform: acquisitions; thesaurus de-

velopment and control; indexing/abstracting; reference/information analysis; and publications and product management. Within each function, competencies are grouped under the categories of Knowledge, Skills, and Attitudes, and three professional levels are dealt with: entry level (0-3 years experience), mid-level (4-9 years experience), and senior level (10 or more years experience). Descriptors—Construction Materials, \*Equipment, Hand Tools, Libraries, \*Library Materials, \*Preservation, \*Repair, \*Supplies

Identifiers—\*Illinois Cooperative Conservation Program, Workstations

The first step in designing a work station that is appropriate for both the maintenance and repair of library materials is to determine procedures likely to be necessary based on the nature of the collection and the type of use it receives. Necessary equipment includes a work station with a bench and storage space (an illustration and a list of materials required are provided), a paper cutter, an adjustable-arm work lamp, access to running water, and metal-edged pressing boards. Additional or optional equipment includes a hook press, a large piece of 1/4-inch glass, a cutting board, and a boxboard crimper. Necessary tools include an awl; a bone folder; several types of brushes; cutting tools; light weights; a microspatula; measuring tools; metal knitting needles; sandpaper with block or holder; a squeegee; a staple remover; a tiny whisk; a metal T-square, metal or plastic triangle, or a metal L-square. Materials and supplies include adhesives; cloths, ribbons, and fasteners; cleaners; and papers, board, and film. A directory of suppliers is included. (THC)

Descriptors—Academic Libraries, Conferences, \*Library Cooperation, \*Library Networks, Library Planning, Library Research, \*Library Services, Library Surveys, Public Libraries, School Libraries, Special Libraries, \*Statewide Planning Identifiers—\*California, \*Multitype Library Networks, Resource Sharing

This conference was held to bring librarians and users from academic, public, school, and special libraries together to discuss how resource sharing among all types of libraries, for the benefit of all types of users, might be enhanced through formal multitype networking. A conference workbook was provided for participants to read ahead of time, and much of the work accomplished at the conference was done through interaction in small and large group sessions. Several resource persons and an on-site study collection were also provided, as well as two major speakers. These proceedings comprise: (1) the keynote address, "Legislation to Provide Something to Share" (Major R. Owens); (2) summaries of daily activities; (3) the conference address, "Benefits of Multitype Cooperation" (Hugh C. Atkinson); (4) an agenda for action; and (5) a response by Gary E. Strong. Appendices include: a full list of conference attendees; the conference workbook containing commissioned essays as well as the results of commissioned research on multitype net-

working; a bibliography of the on-site study collection; and brief biographies of conference resource people. Papers included in the conference workbook include: "Performance, Organization and Attitudes: Factors in Multitype Library Networking" (Betty J. Turock); "The Nature of Exchanges between Libraries in Multitype Cooperatives" (Barbara M. Robinson); "Funding Multitype Library Cooperatives" (Scott Bruntjen); "Multitype Library Networking: A Bibliography" (Betty J. Turock); "California Library Resources and Resource Sharing: An Overview" (Cy H. Silver); "Options for Multitype Library Cooperation under California Law" (Cy H. Silver); "California Libraries and Networking: Report of a Survey" (Nancy A. Van House); and "A Library Is a Library Is a Library—Or Is It? Report on Library User Group Interviews" (Diane E. Johnson). (THC)

**Catalog Maintenance Online in ARL Libraries.**

SPEC Kit 119.

Association of Research Libraries, Washington, D.C. Office of Management Studies.

Pub Date—Dec 85

Note—134p.

Available from—Systems and Procedures Exchange Center, Office of Management Studies, 1527 New Hampshire Avenue NW, Washington, DC 20036 (\$20.00).

Pub Type—Collected Works - General (020) — Guides - General (050) — Reports - Research (143)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Academic Libraries, Administrative Organization, Databases, Higher Education, Library Administration, \*Library Automation, \*Library Catalogs, Library Planning, Library Surveys, \*Library Technical Processes, Occupational Information, Online Systems, \*Research Libraries, State Libraries

Identifiers—Association of Research Libraries, \*Online Catalogs

To gather information on current catalog maintenance practices, researchers selected institutions from respondents to the September 1984 version of the OMS (Office of Management Studies) Automation Inventory of Research Libraries. A telephone survey of technical services and systems staff at 23 libraries investigated a wide range of issues related to both the database itself and organization-staffing. A concise summary addresses: planning and system issues; staffing and organization issues; and trends and implications. The kit contains SPEC survey information (questions asked, libraries contacted, documents received); manuals for catalog maintenance procedures from 10 institutions (University of Illinois at Urbana-Champaign, Pennsylvania State University, Syracuse University, University of Virginia, Duke University, University of California at Los Angeles, Northwestern University, Virginia Polytechnic Institute and State University, the New York State Library, and University of New Mexico); job descriptions and/or organization charts from five institutions (Pennsylvania State University, Northwestern University, University of Maryland, Virginia Polytechnic Institute and State University, and University of New Mexico); and a selective bibliography. **A Cooperative Project for the Development and Delivery of Training to Rural Library Staff across Alberta. Phase Two/Three. First Interim Report.**

Grant MacEwan Community Coll., Edmonton (Alberta.); Southern Alberta Inst. of Technology, Calgary.

Spons Agency—Alberta Advanced Education and Manpower, Edmonton.

Pub Date—Oct 85

Note—106p.; For the Phase One report, see ED 257 466.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC05 Plus Postage.

Descriptors—Cooperative Programs, \*Curriculum Development, Curriculum Evaluation, \*Distance Education, Educational Needs, Field Tests, Foreign Countries, \*Job Training, Library Cooperation, Library Networks, \*Library Personnel, Library Statistics, Program Descriptions, Public Libraries, \*Rural Areas, School Libraries

Identifiers—\*Alberta, Canada, Resource Sharing

The Rural Library Training Project was undertaken to design and implement a basic training curriculum for the staff of rural libraries in Alberta, Canada. Phase One of the project, which began in December 1984, is described in the First Phase Report published in April 1985. This first interim report describes the Phase Two/Three activities from April 1 through September 30, 1985. These activities consist of the design of the curriculum, the development of initial courses, and the beginning of the field test of those courses. Throughout the project, three specific areas of research will be addressed: the nature of the training needs common to library staff in rural public and school libraries and the demographics of this target group; a cost effective method of delivering training of this nature to this widely distributed population; and how the resources of many types of institutions may be organized into a delivery network to effectively deliver this training. This report also includes preliminary data about the students enrolled in the field test, evaluation methods, and projected activities for the balance of Phase Two/Three. A brief overview of activities projected for the remainder of the project and a selected bibliography conclude the report. Appendices include the proposed curriculum, student registration forms (and data), student assessment forms, forms for those who do not complete courses, and the external evaluator's report for Phase Two/Three. **Developing a Management Information System.**

Pub Date—May 85

Note—15p.; Paper presented at the Annual Meeting of the Association for Institutional Research (Portland, OR, April 28-May 1, 1985).

Pub Type—Opinion Papers (120) — Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Databases, \*Decision Making, \*Educational Planning, \*Higher Education, Information Needs, \*Information Systems, Long Range Planning, \*Management Information Systems, Position Papers, Program Descriptions, Systems Development

Identifiers—\*Strategic Planning, \*Trinity University TX

This paper is based on the assumption that in shaping academic strategies for long-range planning purposes, educational institutions must be able to gather adequate information on which to base administrative decisions. Information on how the institution has operated in the past as well as how it is currently operating are critical items for valid strategic planning; such information is crucial for internal operations. A management information system (MIS) is defined as a system that permits a user to retrieve, arrange, and display data maintained in the files. Negative characteristics of currently advertised MIS products are: they are expensive to purchase; expensive to install; often require the purchase of additional hardware; and, in addition, it takes time to install the systems, organize and input the database, and train people to use the systems. The essential capabilities in a simple local MIS system—the ability to retrieve, aggregate, and display data—are discussed. A case study of the systems development activities of a director of institutional research at a small private institution in Texas (Trinity University) describes the in-house development of an MIS that brings together and provides access to separately maintained information systems that had been implemented at Trinity at different times and for different purposes. **Information-Related Problems of Statewide Management Information Systems.**

Pub Date—21 Jan 86

Note—41p.

Pub Type—Information Analyses (070) — Reports - Evaluative (142)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Accountability, Databases, Educational Planning, \*Higher Education, \*Information Needs, Information Networks, \*Institutional Cooperation, Literature Reviews, \*Management Information Systems, Position Papers, \*State Government, State Programs, Statewide Planning This paper discusses the management information needs of state governing boards and higher educational institutions in their efforts to develop and

implement management information systems designed to improve institutional accountability. Based on a literature review, the paper describes the need and the experiences that state governing boards and higher educational institutions have had in the treatment of data and information. Information-related problems which negatively affect the effectiveness of statewide management information systems are given primary attention: management information illiteracy, organizational discontinuity, computer illiteracy, and financial limitations. Solutions are offered for information-related problems affecting three elements of the statewide management information system: data identification and collection; data analysis and use; and data linkages of information systems. Recommendations are proposed for improving the development and implementation of statewide information systems. (Author/THC)

Descriptors—\*Cognitive Mapping, Computer Assisted Instruction, Computers, \*Epistemology, \*Information Science, \*Intellectual Development, \*Learning Processes, Perceptual Development, Position Papers, Psychological Studies

This paper examines the gap between the learning potentials that computers provide and the actual impact of computer use on learning and development. It is argued that the computer's unique potential is derived in part from four basic attributes: information, symbol systems, user activities, and relations with the user. It is hypothesized that these attributes may affect four corresponding cognitions: knowledge structures, internal modes of representation, mental operations, and attitudes and perceptions. These effects may be obtained through "low road" learning (practice-intensive, leading to near automatic responses), or through "high road" learning (thinking-intensive, i.e., nonautomatic operations are mindfully employed). High road learning is seen as the more feasible and promising means to facilitate conceptual learning with computers. The extent to which high road learning occurs depends on the learners' volitional mindfulness, which in turn is partly determined by the materials encountered and by personal, perceptual, and attitudinal factors. It is argued that the opportunity for mapping the computer's attributes on corresponding cognitions often does not take place because learners do not become mindful on their own. The partner-like relationship which the computer can establish with the students can promote mindfulness, but it is the student's choice as to how mindful they will be while interacting with the computer. Identifiers—Organisation for Economic Cooperation Development

Designed to provide information on how educational institutions and government agencies are implementing new information technologies (NITs), this report combines an in-depth case study of 23 U.S. educational institutions (school districts, col-

leges, and universities) with an international study of exemplary educational programs in nine countries. Aspects addressed in the study include the role of the NITs in the instructional program, in policy structure, in management support services, and in teacher training and teaching functions. Information for the U.S. study was gathered through a lengthy questionnaire and comprehensive telephone and/or site visit interviews. Subsequent to the U.S. study, a similar study analyzed trends in curricula and institutional structures in Australia, Belgium, Canada, Denmark, Japan, New Zealand, the Netherlands, Turkey, and the United Kingdom. Concluding that the impact of the NITs on education has been powerful but is as yet inchoate and undefinable, the paper concludes with a discussion of the implications of the changes observed for future use of these technologies in education and some recommendations for research. EDRS Price - MF01/PC03 Plus Postage.

Descriptors—College Freshmen, College Libraries, \*Higher Education, Library Facilities, \*Library Instruction, \*Library Materials, Library Services, \*Library Skills, Workbooks

Identifiers—\*University of Arkansas

Successful completion of this self-paced library workbook is a course requirement of all second semester freshman English students at the University of Arkansas. The workbook contains 18 chapters. A brief introduction and instructions for using the workbook precede the library tour in Chapter 1, and the remaining 17 chapters discuss specific library resources or services. Each chapter includes an introduction explaining the material covered and is accompanied by a set of questions peculiar to each individual workbook. Subjects covered by the workbook include: (1) author and title approaches to the card catalog; (2) subject approach to the card catalog; (3) Library of Congress Classification; (4) locating and checking out books; (5) periodical indexes; (6) periodicals; (7) book review indexes; (8) newspapers and newspaper indexes; (9) audiovisual materials; (10) encyclopedias; (11) dictionaries; (12) sources of biographical information; (13) almanacs and statistical sources; (14) maps, atlases, and gazetteers; (15) special collections; (16) government documents; and (17) the reserve reading room. Floor plans of the various areas of the library and examples of catalog cards and assignments are provided. (Author/THC)

**Managing Local Government Records: A Manual for Local Government Officials in New York State.**

New York State Education Dept., Albany.

Spons Agency—National Historical Publications and Records Commission, Washington, DC.  
Pub Date—85

Note—108p.; Appendices contain small print.

Pub Type—Guides - General (050)—Legal/Legislative/Regulatory Materials (090)  
EDRS Price - MF01/PC05 Plus Postage.

Descriptors—\*Archives, \*Government Publications, Information Retrieval, Information Storage, Information Systems, \*Local Government, State Legislation, \*State Programs

Identifiers—\*New York, \*Records Management

This manual for local government officials provides a basic introduction to all aspects of records management, including the administration of an archival program. The direct result of two recent projects which have affected State Archives services toward local governments, the manual is intended to introduce and briefly explain the essential concepts of records management, suggest practical ways of applying them, and define the relationship between records management and archival administration. The manual comprises eight chapters: (1) Managing Local Government Records: An Intro-

duction; (2) Retention and Disposition of Records; (3) Surveying and Analyzing Records; (4) Records Controls; (5) Inactive Records; (6) Microfilm; (7) Archival Records; and (8) Where to Turn for More Help (a directory of other archives of state agencies, locally operating government records management programs, professional organizations and associations, local government associations, and publications). Three appendices include selected state laws and regulations pertaining to local government records; explanations of terms used in the manual; and a list of findings and recommendations and the full text of the section on local government records from "Toward a Usable Past," the New York State Historical Records Advisory Board's 1984 report to Governor Cuomo. Identifiers—\*Networking, \*Teacher Corps

This publication examines the process of networking, which is defined here as a framework to provide technical support between and among professionals. The process of networking is explored over a 7-year period as it served directors of the Midwest Teacher Corps, one of 12 networks established on a geographical basis by the Teacher Corps Program, a national effort begun in 1965 to address the educational needs of low income students. In seven chapters, each by a different author, the process of networking is evaluated and subjected to a number of critical assessments. Following a preface and introduction, the chapters are: (1) "Developing an Understanding of Professional Networks" (Jacqueline Loughheed); (2) "Midwest Teacher Corps Network: Insiders' Views" (William Patton); (3) "Organizational Structure" (Richard Hammes); (4) "Developmental Network Model" (Evelyn B. Freeman); (5) "Practical Concerns Related to Networking" (Leo W. Anglin and Dale L. Cook); (6) "Implementation and Maintenance of Networks" (John M. Kean and Carol J. Kean); and (7) "Summary and Conclusions" (Evelyn B. Freeman). Practical concerns related to networking are discussed and suggestions for the implementation and maintenance of networks are offered. Descriptors—\*Books, Cooperative Planning, Librarians, Library Collections, Library Education, \*Library Materials, \*Library Planning, Methods, Microforms, \*Paper (Material), \*Preservation, Prevention, Repair

Identifiers—\*Desacidification, Deterioration (Books)

This paper provides clarification of issues important to the preservation of paper materials and presents practical steps for any librarian to take in preserving the library collection. In order to deal with a manageable subsection of this complex issue, the paper concentrates on three interrelated aspects

of paper preservation: the nature of the problem, the extent of the damage, and recommendations for action. An examination of the problem discusses the causes of deterioration, the validity of current scientific methods of preservation, various complicating factors, and current tools available for creating a solution. A consideration of the extent of the problem covers examining the useful life of an item, determining how many books need immediate attention, and estimating costs involved in preservation. Recommendations for future action include microforming materials, full involvement by librarians in planning, and developing local and national plans. Appendices contain a directory of supply companies, a chronology of paper from circa 105 AD to 1981, an extensive reference list, and the author's vita. (THC)

Pub Date—85

Note—121p.

Pub Type—Guides—General (050)—Opinion Papers (120)—Reports—Descriptive (141)

EDRS Price—MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Archives. \*Books, Cleaning, Developing Nations. \*Environmental Influences, Guidelines, Library Planning, \*Paper (Material), \*Preservation, Prevention, Program Design, \*Program Implementation, \*Repair. Identifiers—Decidification, \*Deterioration (Books), Records Management

Intended for archivists and librarians, especially in developing countries, this study details the systems and principles important in planning and implementing a program for the preservation and restoration of paper documents and books. The importance of environmental (external) causes and effects of paper deterioration are discussed as well as the characteristics of the supporting and the sustained media (paper and ink) and the inherent (internal) causes of their deterioration. Preventive methods of conservation and conservation controls are also discussed, including factors relating to building design, document storage, bindings, lighting, and humidity/temperature. The larger part of this publication focuses on restoration, and discusses criteria for restoration and the processes involved, with guidelines for their use. These include photography, cleaning, decidification, repair of cuts and tears, drying and pressing, lamination, and assembly and encapsulation. A 48-item bibliography is provided. (THC)

**Preservation of the Biomedical Literature: A Plan for the National Library of Medicine.**

National Library of Medicine (DHHS/NIH), Bethesda, Md.

Pub Date—Oct 85

Note—131p.

Available from—Association of Research Libraries, 1527 New Hampshire Avenue, NW, Washington, DC 20036 (Order #FP05, \$15.00, prepayment required).

Pub Type—Opinion Papers (120)—Reports—Research (143)—Tests/Questionnaires (160)

EDRS Price—MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Biomedicine, Environmental Influences, \*Library Collections, Library Facilities, \*Library Materials, \*Library Planning, Medical Libraries, \*Preservation, Program Design, Program Implementation

Identifiers—\*National Library of Medicine MD

Established in 1956, the National Library of Medicine (NLM) was charged to acquire and preserve books, periodicals, prints, films, recordings, and other library materials pertinent to medicine. Since the establishment of the NLM, significant effort has been devoted to carrying out preservation responsibilities. In 1983, the Library Operations (LO) senior staff included the development and implementation of a preservation program of the biomedical literature as one of four broad objectives in the LO 1984-88 strategic plan. A senior preservation planning team was appointed to analyze the state of the

NLM collections, its environment, and use, and to present available options for preservation. The planning process used for this project was modeled on a self-study procedure developed by the Office of Management Studies (OMS) of the Association for Research Libraries (ARL) and described in "Preservation Planning Program: An Assisted Self-Study Manual for Libraries." This report documents the team's findings and presents a recommended plan of action for the library. Following an introduction and executive summary, the report covers: collection condition, physical facilities and environment, collection use and maintenance, present level of preservation activity at NLM, current state of preservation technology, external factors affecting NLM's preservation plan, and recommended strategies for preservation. Six appendices are included: a background paper; a list of task force members; procedures used in surveying the physical condition of the collection; indoor pollutant measurements of sulfur dioxide, nitrogen dioxide, and ozone; draft preservation policy; and rationale and functions of the proposed preservation section. A brief list of references completes the report. (THC)

**Retrospective Conversion Manual: University Library Recon Project.**

University of South Alabama, Mobile.

Pub Date—Apr 85

Note—55p.; A product of the University Library.

Pub Type—Guides—Non-Classroom (055)—Reference Materials (130)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—\*Academic Libraries, \*Cataloging, Guidelines, Higher Education, \*Library Catalogs, Library Planning, Library Statistics, \*Library Technical Processes, Methods. Identifiers—\*Online Catalogs, \*Retrospective Conversion (Library Catalogs), University of South Alabama

This manual provides a brief description of the procedures employed by the University of South Alabama in converting their library records from print to computerized cataloging. A description of the procedure is followed by detailed instructions and examples. Rules for NOTIS-LCCN Conversion Records, OCLC-Telex Transfer, and Conversion of Telex-Transferred Records are briefly presented. Sample forms for maintaining statistics, a key to color-coding signals in the shelf list, and examples of procedures for several different potential situations are outlined. (THC)

**A Statistical Review of Turnover among Library School Faculty Members, 1960-1984.**

Pub Date—[85]

Note—33p.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Faculty Development, \*Faculty Evaluation, \*Faculty Mobility, \*Faculty Promotion, \*Graduate School Faculty, Higher Education, \*Library Education, \*Library Schools, Statistical Data

This study was undertaken to analyze turnover among faculty members who taught during the academic years 1960 to 1985 at U.S. library schools offering master's programs accredited by the American Library Association (ALA). Included in the study were 1,235 persons of whom 605 (49%) were women, and 630 (51%) were men. U.S. library schools holding accreditation during part of or throughout the entire period numbered 66. The study was undertaken to determine: (1) the average age at which faculty members first entered teaching; (2) for those faculty members who left teaching prior to the 1984-85 academic year, age at which they left teaching, number of years taught, number of teaching positions held, and types of positions or endeavors undertaken when leaving teaching; and (3) for those faculty members actively engaged in teaching during the 1984-85 academic year, age, number of years taught, and number of different teaching positions held. A narrative summary is followed by a series of nine tables that present statistical analyses of the survey findings. (THC)

**Technical Writing: Library Resources for Engineers. A Self-Paced Workbook for the University of Arkansas Libraries. Revised.**

Arkansas Univ., Fayetteville. Mullins Library.

Pub Date—85

Note—86p.; For related document, see IR 051 417. Available from—University of Arkansas Libraries, University of Arkansas, Fayetteville, AR 72701 (\$5.00).

Pub Type—Guides—Classroom—Learner (051)

EDRS Price—MF01/PC04 Plus Postage.

Descriptors—Academic Libraries, College Freshmen, \*Engineering Education, Higher Education, Library Facilities, \*Library Instruction, \*Library Materials, Library Services, \*Library Skills, \*Technical Writing, Workbooks

Identifiers—\*University of Arkansas

This self-paced library workbook is a course requirement of all "technical writing" freshman English classes at the University of Arkansas. The technical writing course is required of all engineering students, and its major focus is on writing a term paper containing a bibliography produced through library research. The workbook introduces students to basic library resources and services, emphasizing items most useful to engineering students. The workbook contains 21 chapters; each includes a discussion of the material covered, and a set of questions unique to that particular subject. Following an introduction, subjects covered by the workbook include: (1) a library tour; (2) author and title approaches to the card catalog; (3) subject approach to the card catalog; (4) Library of Congress Classification; (5) locating and checking out books; (6) periodical indexes and abstracts; (7) periodicals; (8) chemistry library; (9) physics library; (10) book review indexes; (11) newspapers and newspaper indexes; (12) audiovisual materials; (13) handbooks; (14) biographical information sources; (15) encyclopedias; (16) dictionaries; (17) almanacs and statistical sources; (18) maps, atlases, and gazetteers; (19) special collections; (20) government documents; and (21) the reserve reading room. Floor plans of the various areas of the library and examples of catalog cards and other forms are provided. (Author/THC)

**The Use of Computer Networks in Data Gathering and Data Analysis.**

Pub Date—Nov 84

Note—14p.; Paper presented at the Conference of Computers in Psychology (November 1984).

Pub Type—Reports—Descriptive (141)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Analog Computers, \*Data Analysis, \*Data Collection, Data Processing, Digital Computers, \*Electroencephalography, \*Laboratory Technology, Medical Evaluation, Microcomputers, \*Statistical Analysis, Statistical Data. Identifiers—\*Computer Networks, \*Electrocardiograms, IBM PC XT

This document describes the review, analysis, and decision-making process that Trinity University, Texas, went through to develop the three-part computer network that they use to gather and analyze EEG (electroencephalography) and EKG (electrocardiogram) data. The data are gathered in the laboratory on a PDF-1124, an analog minicomputer. Once gathered, they are converted from analog-to-digital (A/D) and sent by the PDP to an IBM 370 3031. The data are then submitted to a fast Fourier analysis (FFT) on the IBM computer. Once the FFT is completed, the data are accessed by an IBM PC-XT which is equipped with an IRMA network system. The PC is used in its emulation mode to access the data in the mainframe where either SPSS (Statistical Package for the Social Sciences) or SAS (Statistical Analysis System) is then used to do the initial statistical analyses. When necessary, subsets of the data are transferred to the PC where other computer programs are used to analyze the data. In many instances, they are returned to the mainframe from the PC where they are submitted to multivariate statistical analysis. Finally, all of the data are stored on floppy disks which are prepared on the PC. (Author/THC)

 Libraries

Identifiers—Friends of the Library, Resource Shar-  
 ing, \*White House Conference Library Info Ser-  
 vices

This summary reports the results of the 1985 Sur-  
 vey of States and Territories gathered by the White  
 House Conference on Library and Information Ser-  
 vices Task Force (WHCLIST), which focused on  
 library service activities, overall progress made  
 toward the implementation of the resolutions  
 adopted by the 1979 White House Conference on  
 Library and Information Services, as well as the  
 agenda for the proposed 1989 White House Con-  
 ference. Individual questionnaires completed by re-  
 spondents from 45 states and 3 territories make up  
 the major part of the report. These questionnaires  
 provide information on legislation authorizing state  
 aid to libraries, other library-related legislation, li-  
 brary construction, resource sharing, literacy/edu-  
 cation, school libraries and school library/public  
 library cooperation, access to information, new state  
 publications related to libraries, public awareness  
 efforts, the extension of library services to non-tradi-  
 tional library users, statewide friends groups/citi-  
 zens library councils, and agenda items for the  
 proposed 1989 White House Conference. Appen-  
 dices include the American Library Association  
 (ALA) Resolution calling for a Second White House  
 Conference on Library and Information Services;  
 the ALA Resolution requesting UNESCO to de-  
 clare an International Year of the Library; and a  
 letter of reply from the Deputy Director-General of  
 UNESCO proposing an International Congress on  
 Library Promotion. (THC)

Identifiers—\*Iowa State University  
 This report describes the planning, implementa-  
 tion, and evaluation of a coordinated staff devel-  
 opment program to offer certified, non-degree credit  
 to non-professional librarians from small public li-  
 braries. The program plan includes a course consist-  
 ing of five 3-hour sessions covering the reference  
 interview; interlibrary loan, government publica-  
 tions, and statistical tools; circulation and media  
 services; children's literature; and issues affecting  
 community libraries. Each session stressed the pub-  
 lic services aspect of the topic being discussed. A  
 summary of the course as it was implemented for 18  
 library staff members is given, the testing proce-  
 dures are explained, and evaluation results are dis-  
 cussed. Student demographics are tabulated,  
 including type of library, education, work experi-  
 ence, and library staff size. Each student completing  
 the course was awarded 1.5 continuing education  
 units (CEUs). Appendices include copies of the  
 course outline and outlines for each session; the  
 student survey form; and the course evaluation  
 form. (THC)

 lum Development, \*Developing Nations, \*Librar-  
 ians, Library Associations, \*Library Education,  
 Library Personnel, Library Role, \*Library  
 Schools, Professional Education, \*Resource Ma-  
 terials

Identifiers—Information Resources Management

This annotated guide to resources on library and  
 information science education in developing  
 countries includes materials on library schools,  
 training and education of library staff, and the  
 progress of libraries in specific countries. Materials  
 in the guide were selected from the indexes of Li-  
 brary Literature, Library and Information Science  
 Abstracts (LISA), and Information Science Ab-  
 stracts. Most entries are journal articles, but a few  
 theses, workshops, occasional papers and reports  
 are included. All documents were published be-  
 tween 1980 and 1985 with the exception of a few  
 articles published prior to 1980. The sources are  
 listed in three categories. The first category contains  
 citations for reference and general resource materi-  
 als, including a directory and articles on librari-  
 anship, associations, education, and information  
 resources management (IRM). Articles pertaining  
 to courses, curricula, IRM, library schools, training  
 of library staff (whether in a specific country or a  
 region as a whole), are grouped together in the sec-  
 ond category. The final category includes work-  
 shops, seminars, reports, and occasional papers on  
 the progress and development of librarianship, in-  
 cluding the role of Unesco (United Nations Educa-  
 tional, Scientific, and Cultural Organization). All  
 materials are arranged alphabetically by author  
 within sections. An appendix includes a list of 125  
 developing countries and the addresses of profes-  
 sional organizations and library schools cited in the  
 resource guide. (THC)

 tific and Technical Information

Identifiers—\*National Standard Reference Data  
 System

The National Standard Reference Data System  
 (NSRDS) coordinates on a national scale the com-  
 pilation and dissemination of reference data in the  
 physical sciences. The primary aim of the program,  
 which involves the efforts of many groups in univer-  
 sities, government laboratories, and private indus-  
 try, is to provide compilations of critically evaluated  
 physical and chemical property data. Evaluated  
 databases of physical and chemical properties of  
 substances are available in printed form, on mag-  
 netic tapes, and through online computer networks.  
 This document provides a comprehensive list of the  
 products available from the NSRDS for the years  
 1964-1984. Following an introduction, the docu-  
 ment includes the following sections: Journal of  
 Physical and Chemical Reference Data (Reprints,  
 Supplements, Reprint Packages); Other NSRDS  
 Data Publications; Critical Bibliographies and In-  
 dexes (the National Bureau of Standards Series and  
 other publishers); Computer Programs for Handling  
 Technical Data; and the NBS (National Bureau of  
 Standards) Magnetic Tape Series. Indexes to au-  
 thors, properties, and material classes are given, as  
 well as information on ordering publications and  
 current prices. (THC)

 tion, \*Information Retrieval, \*Library Catalogs,  
 Library Research, \*Online Searching, Online Sys-  
 tems, Search Strategies, Use Studies

Identifiers—\*End Users, Ohio State University,  
 \*Online Catalogs

This report describes a computer-monitoring  
 study of users of the Ohio State University Librar-  
 ies' online catalog, an established and heavily used  
 information retrieval system. Designed for end us-  
 ers, online library catalogs require little or no formal  
 training, and often replace an existing manual sys-  
 tem. Data were gathered unobtrusively by monitor-  
 ing all transactions from 45 terminals on 5 of the  
 Ohio State University campus libraries. The termi-  
 nals were monitored online for 3 weeks in each of  
 the winter, spring, and autumn terms and 2 weeks  
 of the summer term 1981, and observation data  
 were used to define user sessions. The study charac-  
 terizes user behavior in terms of types of searches  
 done, patterns of use, time spent on searching, er-  
 rors, and system problems. Preliminary results sug-  
 gest that users have much shorter sessions on  
 online-catalog systems than on other types of re-  
 trieval systems. Patterns of use vary between cam-  
 pus libraries, academic quarters, and between short  
 and long sessions. Results of the study will be ap-  
 plied to improving the user interface and other sys-  
 tem features. (Author/THC)

Descriptors—Community Colleges, \*Geographic  
 Concepts, \*Geography Instruction, Laboratory  
 Manuals, \*Physical Geography, Science Materi-  
 als, Teaching Guides, Two Year Colleges

This sourcebook contains a collection of labora-  
 tory exercises assembled for use in introductory  
 physical geography classes taught at community  
 colleges. Introductory sections address the origins  
 of the sourcebook, the ways it differs from tradi-  
 tional laboratory manuals, and its form and antici-  
 pated use. Next, a list of terms or concepts,  
 preparatory information, and exercises are pre-  
 sented for 10 topic areas: (1) the Geographic Grid  
 and Time Zones; (2) Earth-Sun Relationships; (3)  
 Contour and Topographic Maps; (4) Solar Energy;  
 (5) Atmospheric Moisture; (6) Weather Maps; (7)  
 Classifying Global Climate Patterns; (8) Soil Com-  
 ponents and Characteristics; (9) Rating Curves and  
 Recurrence Intervals (Hydrology); and (10) Ap-  
 plications of Topographic Maps in Specific Subfields.  
 Lab exercises for each topic are ordered from easiest  
 to most difficult. (LAL)

Descriptors—\*Administrator Attitudes, Community Colleges, \*Faculty Development, Inservice Education, Needs Assessment, \*Part Time Faculty, \*Professional Development, \*Teacher Attitudes, \*Teacher Participation, Two Year Colleges

A study was conducted to analyze four dimensions of community college staff development activities (i.e., instructional, personal, professional and organizational) as related to part-time instructors' needs, awareness, and participation. Study findings, based on a telephone survey of staff development officers in Florida, a survey of 262 part-time instructors at three Florida community colleges, and a survey of the staff development directors of the three institutions, included the following: (1) only one of the three colleges offered training for part-time faculty in all four developmental areas; (2) although respondents indicated that the training they had received was useful to them, they also identified current needs for training that were not being met; (3) "training in the latest instructional trends" was considered the most needed by faculty; (4) at one institution, "training in student development needs" had the least amount of participation (4.7%), yet showed the highest amount of need (63.9%); and (5) at one institution, over 50% of the part-time instructors expressed a need for training activities in areas that were considered of little use by the staff development director. The survey instrument is appended. (LAL)

The Hospice Concept: Health Occupation 305.

Pub Date—4 Dec 85

Note—46p.; Graduate seminar paper, University of California at Los Angeles.

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Adult Education, Adult Students, \*Allied Health Occupations Education, Community Colleges, \*Death, Health Education, Two Year Colleges, \*Volunteer Training

Identifiers—\*Hospices

A description is provided of "The Hospice Concept," an elective course offered as part of a two-year college health occupations curriculum. The course is designed to further the students' understanding of the multiple facets of death and dying and to prepare them to be hospice volunteers. Following a course description and a glossary of terms, major course goals and long-range goals and objectives are stated, the units of instruction are outlined, and materials of instruction are listed. The bulk of the course description provides information on the goals and objectives of the individual units: (1) Introduction to Hospice Care; (2) Attitudes towards Death and Dying; (3) Stages of Death and Dying; (4) Coping with Death and Dying; (5) Types of Pain and Management; (6) Communication Skills; (7) Community Resources and Supports; (8) Role of the Hospice Volunteer; (9) Legal Issues and Answers; (10) Grief and Bereavement; (11) The Threat of Suicide; (12) Funeral Arrangements—Facts & Fallacies; (13) Review of the Literature; (14) Common Problems in Hospice Care; (15) Organization and Structure of Hospices; (16) Ethical Issues in Hospice Care; (17) Acting the Part: You as the Hospice Volunteer; and (18) Final Exam Information. Finally, course grading criteria, procedures for course revision, an instructor evaluation form, a bibliography, a recommended reading list, and examples of course handouts are included. (LAL)

Services for Learning Disabled Adults in California's Community Colleges.

Pub Date—Feb 86

Note—31p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Adult Students, \*Ancillary School Services, Community Colleges, \*Educational Trends, \*Learning Disabilities, Needs Assessment, \*Special Programs, \*Student Needs, Teaching Methods, Two Year Colleges

Identifiers—\*California

During the 1980's, a series of studies have been conducted to examine assessment strategies, teaching methodologies, core services, and delivery systems for Learning Disabled Average (LDA) adults in California's community colleges. Study findings included the following: (1) between 1981-82 and

1985-86, the number of formal programs for LDA adults increased from 80 to 85, while the number of students served by formal programs increased from 7,962 to 11,876; (2) tutorial services were delivered primarily in one-to-one settings in academic career and personal areas under the direction of the LDA program or external programs; (3) in 4 years, there were significant increases in support to the areas of registration services and notetaker services, and decreases in support to four areas (time extension to complete course requirements, course schedule modifications, Course curriculum revisions, and learning center availability); (4) at least 90% of the LDA referrals came from, in rank order, faculty, counselors, high schools, Department of Rehabilitation, parents/relatives, and the LDA students themselves; and (5) two tests were used by more than half of the LDA programs for identification/assessment: the Wide Range Achievement Test and the Woodcock-Johnson Psychoeducational Battery. Study findings revealed a lack of consistency in services to the LDA community college student. Research review includes a proposal for a revised definition of LDA. (EJV)

Financial Management: Cash Management Practices in Florida Community Colleges.

Florida Univ., Gainesville. Inst. of Higher Education.

Pub Date—Feb 86

Note—105p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC05 Plus Postage.

Descriptors—Community Colleges, \*Educational Finance, Finance Reform, \*Financial Policy, \*Money Management, Questionnaires, \*School Policy, State Surveys, Two Year Colleges

Identifiers—\*Florida

A study was conducted to identify those variables appearing to affect cash management practices in Florida community colleges, and recommend prescriptive measures concerning these practices. The study methodology included informal discussions with the chief fiscal officers of each Florida community college and appropriate state board staff, followed by a questionnaire survey of the college fiscal officers. Study findings, based on a 100% survey response rate and analyses of state financial and census data, revealed the following as the primary affecting variables: (1) relative community college size with respect to enrollment, service area population, funding, and banking facilities; (2) efficient investment use of community college assets; (3) use of proportionally large fund balances to improve investment performance rather than the magnitude of the fund balance itself; (4) perceived levels of training with respect to actual investment performance; (5) the investment instrument and its proper use based upon investment amount, time period, and market conditions; (6) the use of banking contracts to provide banking success; (7) aggressive placement of investable funds to improve investment performance; (8) the length of the investment instrument; (9) the deferral of payments with respect to discount terms and public reaction; (10) interest bearing checking accounts; and (11) pooled investment sources. The study report includes recommendations for the improvement of cash management practices and the survey instruments. (LAL)

Descriptors—\*Academic Achievement, \*Academic Persistence, Achievement Gains, \*Basic Skills, Community Colleges, Developmental Studies Programs, Educational Counseling, Enrollment Trends, \*Program Effectiveness, Program Evaluation, Questionnaires, Reentry Students, Self Concept, Self Evaluation (Groups), Student Characteristics, Two Year Colleges, \*Two Year College Students

In spring 1985, a study was conducted to evaluate

the basic skills program of San Joaquin Delta College (SJDC). The study focused on student demographics, skill growth, the effects of basic skills classes on performance in other classes, retention rates, self-confidence, assessment scores related to course selection/performance, and re-entry students' performance level. Study findings, based on data on fall 1984 and spring 1985 enrollees, included the following: (1) 60% of the basic skills students were female, 29% were Hispanic, 67% reported English as their primary language, and 24% were not high school graduates; (2) the average semester gain in reading comprehension was 1.1 grade levels; (3) in fall 1984, 74.5% of the basic skills students took other academic courses; (4) 74% of the students enrolled in the fall term returned in the spring; (5) retention rates for basic skills students exceeded the college-wide rate by over 8%; (6) the percentage of students who felt they would not be successful in college decreased from 61% to 4% after taking the basic skills test; (7) 30% scored below 8th grade in reading, 45% below college level, and 2% at college level; (8) 29% of the math students needed assistance in basic computation; (9) only 50% of the students took placement advice; and (10) re-entry students were more likely to take other classes in addition to basic skills. Survey instruments are included. (LAL)

Lewis, Merrill R. And Others

Performance of San Joaquin Delta College Freshmen Students in Reading, Writing and Math by Ethnicity, High School Status and Age.

San Joaquin Delta Coll., Stockton, Calif.

Pub Date—Oct 85

Note—14p.

Pub Type—Reports - Research (143) — Numerical/Quantitative Data (110)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Academic Achievement, Age, College Freshmen, Community Colleges, Educational Attainment, Educational Testing, Ethnic Groups, \*Mathematics Skills, \*Reading Ability, \*Student Characteristics, \*Student Placement, Two Year Colleges, \*Two Year College Students, \*Writing Skills

A study was conducted in fall 1985 to determine how well students at San Joaquin Delta College (SJDC) were prepared in reading, writing, and mathematics, comparing students by ethnicity, high school status, and age. SJDC uses the Comparative Guidance Placement (CGP) Tests to assess all new students who do not have an Associate of Arts degree or who do not present achievement test scores equivalent to the national average for college-bound seniors. Study findings, based on scores of 3,666 students assessed for fall 1984 and 3,382 students assessed for fall 1985, included the following: (1) there was little difference between the 1984 and 1985 students, with 46% functioning at a high school level in reading and writing; (2) in mathematics, 60% were functioning at a high school level; (3) more SJDC students scored at lower levels than students in the national sample; (4) performances of ethnic groups varied strikingly; (5) in mathematics, more Asian students performed at the highest level than any other ethnic group; (6) SJDC's ethnic distribution reflected the distribution of California community colleges; and (7) there were not significant differences based upon age. Several pages feature tables and a bar graph. (LAL)

Glenn, Hugh W.

A Review of Present and Proposed Occupational and Degree Programs Offered by the Saddleback Community College District and the Labor Market in Orange County.

Saddleback Community Coll. District, Mission Viejo, CA.

Pub Date—Nov 85

Note—74p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Community Colleges, \*Educational Needs, \*Employment Opportunities, \*Employment Patterns, Employment Projections, Job Training, \*Labor Market, Labor Needs, Needs Assessment, \*Occupational Information, Two Year Colleges, \*Vocational Education

Designed to assist in determining the need for the present and proposed occupational and degree programs offered by the Saddleback Community College District (SCCD), this report examines selected demographic and labor market data related to

Orange County, California, industrial and occupational trends, and employment opportunities for SCCD program graduates. Section I presents background information, covering Orange County labor market conditions, population data, and industrial trends. Section II compares SCCD's present occupational programs and certificate options with projections regarding specific and related job openings in Orange County by 1990. Section III identifies occupations with at least 500 projected job openings by 1990 which are not addressed by present district programs. In section IV, SCCD's proposed occupational and degree programs are listed and compared with job openings in Orange County projected for 1990. After section V summarizes occupational trends in Orange County, section VI provides a summary of findings. They show that: (1) SCCD presently offers 45 degree programs, 81 occupational programs, 89 certificate options, 6 training programs, and 1 apprenticeship program; (2) while some district programs prepare students in areas where the need for workers is great (e.g., accounting, automobile mechanics, nursing, sales and manufacturing), other programs prepare students for occupations where few jobs exist and are not expected to exist in the near future (e.g., emergency medical technician, fashion merchandising, oceanographer, and dietetic technician); and (3) of the 29 degree and occupational programs proposed for implementation in the SCCD by 1988, 53% are in the areas of engineering and related technology and health. Faculty Salaries and Related Matters in the California Community Colleges, 1984-85. Commission Report 85-31.

California State Postsecondary Education Commission, Sacramento.

Pub Date—9 Sep 85

Note—16p.

Pub Type—Reports—Descriptive (141)—Numerical/Quantitative Data (110)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*College Faculty, \*Community Colleges, \*Faculty Workload, Full Time Faculty, Part Time Faculty, \*School Policy, State Surveys, Teacher Employment Benefits, \*Teacher Salaries, Two Year Colleges

Identifiers—\*California

Drawing from California's computerized Staff Data File, this report provides 1984-85 data on the number of full- and part-time faculty employed by each California community college district and their age, sex, ethnicity, teaching load, promotions, number of new hires and continuing faculty, salaries, and stipends and bonuses. The report focuses on average salaries; general faculty salary increases between 1982-83 and 1984-85; variation among districts in average faculty salary; annual stipends granted to full-time faculty; overload instruction; and numbers and proportions of full- and part-time faculty. Highlighted findings include the following: (1) in fall 1984, average faculty salary was \$34,226, representing a 4.7% increase over 1983-84; (2) as of April 1, 1985, 20 of 72 districts were still engaged in faculty negotiations; (3) mean salaries ranged from a high of \$37,979 in the Rio Hondo District to a low of \$23,439 in the San Diego Adult District; (4) in fall 1984, 34.4% of all 72 districts' full-time faculty taught on an overload basis; and (5) between fall 1983 and fall 1984, the percentage of part-time faculty for all districts increased from 58.2% to 60.3%, and their percentage of total weekly faculty contract hours increased from 30.3 to 31.9. Descriptors—Access to Education, Accountability, Community Colleges, Cost Effectiveness, \*Educational Objectives, Educational Quality, Futures (of Society), \*Long Range Planning, Nontraditional Students, \*Postsecondary Education, Program Effectiveness, Remedial Programs, Rural Education, School Holding Power, State Universities, \*Statewide Planning, Teacher Education, Vocational Education

Identifiers—\*Alaska

Designed to provide direction for postsecondary education in Alaska for the next 5 years, this statewide plan analyzes the present status of postsecondary education in the state and offers goals and strategies for the future. Following an executive summary of goals and strategies, the report presents an introduction to the growth of postsecondary education in the state, the dilemma of declining revenues, the planning process, the goals of the statewide plan, and the report. Chapter I explains the assumptions about the future planning period from 1986 to 1990. Chapter II describes the current state of postsecondary education in the state. Chapter III provides a broad overview of the problems and issues facing American postsecondary education. Chapter IV contains a brief overview and explanation of each goal of the statewide plan: (1) promote excellence to improve educational service; (2) enhance accountability of the educational process; (3) foster efficiency within the educational enterprise; and (4) improve access to accommodate those citizens who desire postsecondary education. Finally, chapter V presents a series of strategies, with accompanying discussion, grouped according to the goal with which each strategy is associated. A six-page bibliography is included. (EJV)

Identifiers—\*Maryland

A series of projects were conducted in Maryland as part of an effort to develop a valid and reliable student database for planning, decision making, and

Vocational Education Data System reporting; and a systematic and objective procedure to evaluate the quality of occupational programs in Maryland's community colleges. The projects had three objectives: (1) to conduct statewide studies related to credit enrollment, degree recipients, graduate follow-up, leaver (entrant) follow-up, employer follow-up, discipline cost analysis, the continuing education data system, and program inventory; (2) to run the State Board's Program Data Monitoring System and review each of the career programs by June 15, 1985; and (3) to publish an in-depth evaluation of 50 community college programs and a statewide evaluation of two-year engineering programs by March 15, 1985. The project report provides a brief overview of procedures and results for each of the objectives. In addition, data are presented on the number and percentage of programs evaluated and discontinued between 1978 and 1984 by program area; programs designated for qualitative evaluation in 1985 are listed; and guides for using the Program Data Monitoring System and for using information to support instructional program evaluation are appended. Attitudes and Student Perceptions: Their Measure and Relationship to Performance in Elementary Algebra, Intermediate Algebra, College Algebra and Technical Mathematics.

Pub Date—Apr 84

Note—23p. Paper presented at the Annual Meeting of the American Educational Research Association (68th, New Orleans, LA, April 23-27, 1984).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Academic Achievement, Algebra, \*College Mathematics, Community Colleges, Self Evaluation (Individuals), \*Student Attitudes, Technical Mathematics, Two Year Colleges, \*Two Year College Students

A study was conducted at a large suburban community college in Northern Illinois to examine the nature of the relationship between student self-perception/attitude variables and final course grades in four levels of mathematics: elementary algebra, intermediate algebra, college algebra, and technical mathematics. Findings, based on data obtained from 89 elementary algebra students, 70 intermediate algebra students, 83 college algebra students, and 67 technical mathematics students, included the following: (1) 65% of the students had previously taken a similar course; (2) 55% indicated a neutral or negative attitude toward math, with college algebra and technical math students exhibiting more positive attitudes; (3) more than 70% of the students rated their math ability as average or poor, with college algebra and technical math students rating themselves higher; (4) 65% stated that they were taking the course because it was a prerequisite or required for a major; (5) about 50% reported taking their last math course 2 or more years previously; (6) 65% of the students felt they would perform at an above average level or higher in the course, and the final course grade average was slightly above C; and (7) the higher the course level, the more positively the students rated their confidence, the lower their anxiety level, and the more positively the students perceived the teacher's attitude to be. The study report includes a stepwise regression analysis of data. (EJV)

A comparison of the reading skills assessment programs at three community colleges in Virginia and New Jersey is presented as part of an examination of the kinds of placement decisions that are made from assessment test data. Introductory comments focus on the controversy surrounding the growing emphasis on skills assessment in open-door community college systems. Next, the three reading skills assessment programs are described in terms of their implementation, findings about students' skills levels, and placement policies. Finally, conclusions are presented, emphasizing: (1) the importance of skills assessment for translating the community college's open door policy into student retention and success; (2) specification of skills required in college level courses; (3) testing instruments that accurately and incrementally measure skills; (4) remedial curriculum staffed by faculty committed to developing these skills; (5) clearly stipulated performance goals and completion time frames set and monitored for students; (6) post-evaluations to determine when exit proficiency has been achieved; (7) regular interaction between students identified as being in need and faculty, advisors and counselors; and (8) financial support for administrative/faculty personnel, facilities, and monitoring systems for the program. Descriptors—\*Academic Advising, \*Community Colleges, \*Counseling Objectives, Educational Counseling, Faculty Advisers, Program Improvement, Two Year Colleges

After discussing the importance of good academic advising, this paper briefly describes the status of advising in 15 community colleges (all but one in New Jersey), highlights especially salient issues, and offers suggestions for the improvement of student advising. Introductory comments point out the benefits of academic advising to the student and the college when it is done well. Next, survey findings are presented regarding academic advising goals,

needs, policies, training, personnel, and strengths and weaknesses at the 15 colleges. The paper then compares the local survey findings with the results of a national survey and an analysis of current literature, revealing that the four basic questions in advising were: (1) What are the goals of advising? (2) Who does the advising and what are its rewards? (3) What kind of training needs exist? and (4) How is the program evaluated? After discussing each of these issues, the paper identifies several factors of primary importance in the implementation of a successful advising system (i.e., students and advisors must be aware that a system is in place and must know what the system is designed to accomplish and how it can be accessed; advisors must be available when students need them; and the college must place high value on advising. Identifiers—\*New Jersey

The New Jersey Department of Higher Education (DHE) adopted a revised set of General Education Regulations for community colleges in April 1983. The stated purposes of the regulations were to cause students to cease taking disproportionate number of courses in a specific discipline; to require general education courses for certificate programs; and to facilitate articulation between county colleges and state colleges. The unstated purpose of the change in regulations was to extend DHE authority over the community colleges. The new regulations actually discouraged interdisciplinary offerings and innovations by imposing a specific curricular pattern. Mercer Community College responded by suggesting steps for the future to improve the general education programs despite the permanence of the DHE distribution program, including writing across the curriculum activities, pilot interdisciplinary offerings, forums focusing attention upon the connection between technology and general societal issues, and workshops for the college's Curriculum Committee regarding general education. Descriptors—Academic Standards, College Faculty, \*Community Colleges, \*Faculty Development, \*Honors Curriculum, Teacher Role, Two Year Colleges

An examination is provided of the limitations and the characteristics of community college honors programs. Introductory comments point to the potential of honors programs as one of the few opportunities for mid-career community college faculty desiring growth within a traditional institutional framework, while characterizing most existing programs as tiny, woefully underfunded, and of minimal impact on students and faculty. Next, specific reasons cited in the literature for starting honors programs are listed, and the emphasis on such words as "quality," "outstanding," "superior," and "scholarship" in these definitions is highlighted. After pointing to the lack of empirical data documenting the effects of honors programs on recruitment, retention and public image, the paper reviews efforts

to maintain high admissions standards in these programs and the instructional modes available, including the course-centered program, the single-track or prescribed curriculum program, the core-oriented program, the individualized honors program, and the comprehensive program. Factors limiting the size of honors program enrollment are next addressed, followed by a summary of the rewards for faculty initiative provided by honors programs. This summary stresses that: (1) honors programs can be conducted at a minimal level at little cost; (2) because honors programs rely heavily on faculty initiative, the individual can make a difference; (3) faculty are afforded close contact with students and ideas; (4) claims regarding the benefits of honors programs are unlikely to be challenged by research-minded administrators in the immediate future; and (5) honors programs bring community colleges back to their initial promise of educational opportunity for all. Descriptors—\*Community Colleges, \*Computer Assisted Instruction, \*Computer Literacy, Computer Oriented Programs, Educational Change, \*Microcomputers, Two Year Colleges, Two Year College Students

It is argued in this paper that "somehow" microcomputers must become a mandatory part of a community college education. For many reasons, microcomputers are flooding the college campus. The most important of these reasons is the recognition that computers are as relevant to the humanities and social sciences as they are to the physical sciences and engineering and that they will help student learning in all fields when used in a meaningful way. Though there are numerous examples of instructors devising innovative uses for computers in classes in management, drama, sociology, philosophy, and writing, there are educators who are opposed to computer fluency requirements. Some of these reasons are based on myths about computers undermining the art of the written word and eliminating personal interaction between student and teacher; beliefs that microcomputers will return instruction to repetitious drill-and-practice memorizing; and the vision of the computer user as isolated from human contact. Though evidence indicates that these perceptions and fears are unfounded, real problems unique to the community college exist. The characteristics and attendance patterns of typical community college students make it unreasonable and unacceptable to expect many of these students to purchase a microcomputer. Community colleges can promote the computer literacy of their students if they provide access to microcomputers for all part-time and freshman students, and require sophomores to own their own computers. Descriptors—College Environment, Community Colleges, \*Dropouts, \*School Holding Power, \*Student Attrition, \*Student College Relationship, Two Year Colleges, Two Year College Students, \*Withdrawal (Education)

Student attrition and retention have been familiar terms in higher education for a long time. Recently, however, there has developed an increased awareness of the cost of attrition, both to students and to community colleges. Although research has not provided any solutions to the complex problem of attrition, studies have identified some basic charac-

teristics that appear to be linked with attrition and retention at the community college. Among the student characteristics affecting attrition are academic factors (e.g., student's previous academic attainment), demographic factors, students' motivations and aspirations, and financial considerations. Institutional characteristics influencing attrition include the size and services of the college, student involvement, and institutional policies and procedures. The dominant theme in retention research is that retention and attrition result from the interactions that take place between the student and the institution. Steps to improve these interactions that can apply to virtually any type of institution include: (1) establish an institutionwide retention steering committee; (2) determine dropout rate; (3) conduct a study to determine why students are leaving; (4) conduct an institutional self-study to determine where improvements are necessary and where the institution is successful; and (5) institute a tangible reward system for good teaching and faculty advising. Descriptors—College Role, \*Community Colleges, \*Cooperative Programs, Industrial Training, \*Job Training, Labor Education, Private Financial Support, \*School Business Relationship, Two Year Colleges

The community college has a distinct role in working cooperatively with the business community. Changes in the labor market and labor force and structural changes in the economy on both a domestic and international level are underscoring the important role community colleges can play in meeting the needs of industry for training and education. From the industrial point of view, however, the educational community cannot be counted on to deliver the desired product on time. Hampered by self-imposed restrictions, lack of a willing and technically prepared faculty, and legal and contractual barriers, community colleges have been slow to respond to business and industry's needs. Community colleges can gain a number of distinct benefits from working cooperatively with business and industry. Cooperative relations with business provides the community colleges with additional lobbying power, additional students, and a competitive position with respect to the growing number of proprietary schools. Industry also enjoys certain gains, including training at a realistic cost, better-qualified entry-level personnel, and tax advantages. Finally, the community at large receives its share of benefits as residents become more employable, industries remain in the community, and new industries are attracted. (EJV)

Descriptors—College Faculty, Community Colleges, \*Evaluation Methods, \*Faculty Development, \*Faculty Evaluation, Performance Contracts, \*Teacher Effectiveness, Two Year Colleges

Changing conditions in higher education have altered the attitudes of many participants in the academic evaluation process, as well as the process itself. The overall result has been a trade-off between more useful data gathering, more informed discussion by the participants, and some diffusion of the decision-making power on one hand; and a more complicated, formalized, and time-consuming evaluation process on the other hand. Some of the safeguards that are not a visible part of evaluation include written and publicized criteria for retention,

promotion, and tenure decisions; a well-defined appeal procedure; and strict reliance on the rules of evidence in reaching personnel decisions. These characteristics of faculty evaluation relate primarily to procedural issues without clearly defining and measuring "performance." One way of including performance criteria in evaluation, while at the same time tailoring each professor's evaluation to the needs of the college and the specific strengths of the faculty member, is through the growth contract. Essential features of this approach are: (1) a conference to fashion an agreement between the faculty member and his/her peers which establishes a few key goals for the coming year as well as specifically defined performance measures; (2) agreement by the department chair to initiate frank and factual discussions if standards are not being met and to provide assistance and encouragement to faculty wishing to participate in development activities; (3) voluntary participation; and (4) peer feedback to alert the faculty member as to the effects of his/her performance. If growth contracts are built on the twin concepts of flexibility and individualization, the community college will grow along with its faculty members. (EJV)

In 1984-85, a study was conducted to gather information about current professional development policies in New Jersey's county colleges, professional development activities and opportunities, the effectiveness of these activities, variations among campuses and disciplines, and incentives for participation. The study involved surveys of the academic deans of New Jersey's 19 community colleges and of 1,094 faculty members at eight of the institutions. Study findings, based on responses from 17 academic deans and 401 faculty members, included the following: (1) industry experience and doctoral programs were felt to have the greatest impact on teaching, while publication had the least; (2) as faculty members grew older, their perception of the effectiveness of doctoral studies diminished; (3) while only 26% of responding faculty members who had been employed 5 years or less had pursued a doctorate since their employment, 46% of those who had been employed over 6 years had pursued a doctorate; (4) with respect to their plans for professional development, 86% of the respondents planned to attend conferences and 52% planned to publish; (5) the three factors that were consistently linked to increased job satisfaction and challenge were recognition, more pay, and better prepared students in class; and (6) the professional development activities identified by the deans as encouraged at the college included mini-grants for research, membership in professional associations, participation in workshops and conferences, travel, and publication. The survey instruments and a tally of the 401 faculty respondents cross tabulated by rank are appended. (EJV)

Vietnam in the Classroom: Fact, Fiction and Truth.

Pub Date—[85]

Note—10p.

Pub Type—Reports - Descriptive (141) - Opinion Papers (120)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Community Colleges, Content Area Reading, Content Area Writing, \*Controversial Issues (Course Content), Course Objectives, Course Organization, Instructional Materials, \*Interdisciplinary Approach, Nontraditional Ed-

ucation, Student Recruitment, \*Teaching Methods, Two Year Colleges

Identifiers—\*Vietnam War

In the fifties and early sixties, United States colleges and universities shied away from courses about communist insurgencies because of the repressive influence of McCarthyism. Vietnam was eliminated from classroom investigation, forcing students to take the issues to the streets. In an effort to expose and examine issues that arose from the United States' involvement in Vietnam, Dundalk Community College in Baltimore developed a course, "Reading and Writing about Vietnam," which may act as a useful model for other campuses. The course's success was due to three crucial factors: (1) careful thought was given to the goals and purposes of the course, which was designed to be comprehensive and interdisciplinary, focusing on both personal and international political dimensions of the war; (2) students from diverse backgrounds, including Vietnam veterans, were actively recruited through an extensive publicity campaign and individualized letters; and (3) an instructional process was implemented that allowed participants to express strong feelings about Vietnam and to move beyond those feelings. Journal writing and class discussions, as well as essay assignments, guest speakers, and a research project were among the instructional methods used in the course. The course reading list and titles of films used are included. (EJV)

Descriptors—Community Colleges, Community Services, Course Evaluation, \*Displaced Homemakers, \*Females, \*Outcomes of Education, \*Participant Satisfaction, Program Evaluation, Surveys, Two Year Colleges, Two Year College Students, \*Women's Education

As one element of the evaluation of the Women's Program at William Rainey Harper College, surveys were sent to 500 women who had participated in the offerings of the Women's Program in 1983; and to 194 women who had taken part in Project Turning Point between 1979 and 1981. Study findings, based on a 65% response rate, included the following: (1) almost half of the respondents had lived in their community for more than 10 years, and most were very active in community organizations and activities; (2) 31% held a bachelor's degree or higher; (3) the principal factor leading to enrollment in a Women's Program offering was interest in the subject matter; (4) 48.5% of the participants in the Women's Program indicated that the program had increased their confidence, 43.5% reported an increase in self-awareness, and 39% felt more aware of other people; (5) the major factors influencing women to participate in Project Turning Point were recommendations by friends and relatives (30%), the program brochure (21%), and a newspaper article (13%); (6) the most frequently mentioned outcome of participation in the project was employment, followed by continued education and support/help with a difficult problem; and (7) about one in five participants in the Women's Program were also participants in Project Turning Point. Detailed study results and the questionnaire are included. (EJV)

Descriptors—\*Academic Achievement, \*Academic Persistence, Community Colleges, \*Outcomes of Education, \*Program Effectiveness,

\*Remedial Mathematics, Remedial Programs, \*Remedial Reading, School Holding Power, Two Year Colleges, Two Year College Students

In spring 1985, a study was conducted to evaluate the effectiveness of remedial programs at William Rainey Harper College (WRHC) by following the progress of students after they had taken a remedial course. The sample included 223 students who enrolled in communications courses from 1980 to 1982, 299 students who enrolled in developmental mathematics courses from 1978 to 1982, and 201 students who enrolled in a developmental reading course from 1978 to 1982. An analysis of the academic records of these students through spring 1986 revealed the following: (1) students who earned an A or B in a remedial course had a high probability of success later, those earning a C or D had marginal chances of later success, and those failing had a low probability of success; (2) grades received in remedial reading correlated closely with later grades; (3) persistence was related to grades in developmental reading; (4) well over half (56%-61%) of those who earned an A or B in communications passed at least one English course at the 101 level or above; and (5) a strong relationship existed between grades in developmental math and overall grade point average and persistence. Based on study findings, it is concluded that remedial courses are effective in preparing students to do well in college-level courses. (LAL)

Identifiers—\*Organization of American States

These four issues of "ACCT Trustee Quarterly" contain articles on topics of current concern to community college trustees. The first issue contains the report of the Ad Hoc Committee on Excellence in Education of the Illinois Community College Trustees Association, and articles on merit pay in higher education, underrepresentation of minority transfers, board evaluation, reducing unemployment through basic skills education, the role of trustees, and business/industry partnerships. The second issue focuses on the Organization of American States (OAS) and community colleges, training initiatives of OAS countries, community colleges in international trade, relations with legislators, trustee understanding of the college president's challenges, the education budget, educational reform, and the heritage of public higher education. Articles in the third issue examine alternate funding sources, economic development, the role of research in marketing, a participatory approach to a reduction-in-force policy, decision making, telecommunications strategies, and the community college's function within the educational system. Finally, the fourth issue contains articles related to minority transfer programs, the board/president relationship, trustee ethics, fund raising, marketing, professional negotiations, and recruitment and retention. Descriptors—\*Anthropology, \*Behavior Theories, Community Colleges, \*Gestalt Therapy, Learning Modules, \*Psychology, \*Psychophysiology, Two Year Colleges

Identifiers—Biological Determinism, Freud (Sigmund), Jung (Carl G), \*Psychological Anthropology

Designed for use as supplementary instructional

material in a cultural anthropology course, this learning module traces the history of psychological anthropology, introducing various schools and perspectives within the field of psychology. First, a discussion is provided of biological determinism, examining its historical development and the extreme interpretations of the biological perspective popular in Germany following World War I. Next, physiological psychology is explained in terms of its focus on the brain and nervous system, electrical models of brain functioning, biofeedback, and chemical models of behavior. The next section looks at the contributions of Sigmund Freud, describing his theories of id, ego, and superego; oral, anal, phallic, latency, and genital stages; and the oedipal and electra complexes. The work of Carl Gustav Jung is considered next, with focus on his theories of the collective unconscious and archetypes. The final sections provide an overview of gestalt psychology as championed by Dr. Fritz Perls, which examines behavior from a wholistic perspective; and behaviorism as understood from the work of Ivan Pavlov and B. F. Skinner. Performance activities related to the module are included. (LAL)

Identifiers—\*Colorado, \*Nation at Risk (A)

In June 1983, the Colorado State Board for Community Colleges and Occupational Education (SBCCOE) appointed a sub-committee on the Quality of Education to consider the recommendations of recent national and state-level reports on the status of education. The sub-committee identified a number of issues relative to the quality of public education. This report identifies and discusses these issues, focusing on concerns related to: (1) curriculum and standards, and the negative consequences of returning to a classical, monolithic curriculum; (2) steps undertaken in Colorado to ensure the quality of vocational education programs; (3) the responsibility of public secondary education to prepare students for the world of work; and (4) high school/community college cooperation in areas such as advanced placement, early admissions programs, and high school fast-track programs. The next sections of the sub-committee's report identify issues that have yet to be resolved and suggest a series of steps for further action. Appendices provide the SBCCOE staff paper, "The Philosophy and Principles of Vocational Education"; the SBCCOE position paper on high school/community college cooperation; and a paper, "A Nation at Risk—The Forgotten Majority," prepared by the State Advisory Council for Vocational Education that criticizes the report by the National Commission on Excellence in Education for ignoring vocational education in the call for education reform. ## Two Year Colleges

An examination is provided of the environmental, economic, and educational factors that will influence the courses, programs, and services of the community college in the future. Introductory remarks provide an overview of the future of the community college, detailing factors affecting the institutions such as the tax revolution, declining enrollment, student fees, social and economic changes, protectionism, state mandates, and the litigious nature of society. Section I is devoted to the environmental component, looking at population trends and environmental deterioration from world, national, state, and county perspectives; and examining environmental regulators and social implications. Section II considers the economic component, analyzing the consumer price index, index to housing costs, renting costs, costs of maintaining a home, current salaries in key industries, and the monetary horizon. Section III addresses employment levels and unemployment issues, and section IV explores the educational component. This section includes a summary of the analysis so far, selections condensed or excerpted from two major educational reports including "A Nation at Risk," an examination of implications for community colleges, especially the faculty, a discussion of the need for articulation with secondary schools, and definitions of 10 areas having particular impact on the future of community colleges. Finally, a brief postscript affirms the role of the community college in a changing environment. Appendices include information on future planning, census data, and bibliography. (LAL)

Identifiers—\*Rockland Community College NY

Drawing from the experiences of the remedial/developmental program at Rockland Community College (RCC), this paper suggests a series of strategies for serving the educationally disadvantaged community college student amidst the economic and political pressures of the 1980s. Introductory comments identify the objectives for the development of remedial programs as: (1) to base proposals on the realistic needs of students; (2) to prepare students to meet the competency requirements of mainstream courses or to develop competencies which will be acquired in conjunction with other courses; (3) to maintain low attrition; and (4) to accomplish these goals in a cost-effective manner. Next, the paper explores the services which should be delivered in developmental programs, and the methods of delivery that will be used. Special attention is focused on the need for caution in using new technologies to ensure that they effectively serve the clientele of developmental programs. The next section describes the diversified staffing model used at RCC in the remedial/developmental program, including information on the specific roles and responsibilities of the professional and paraprofessional staff. Examples are provided of traditional instructors moving into developmental instruction. In the next section, changes within the institutional organization and structure are discussed, highlighting the areas of student assessment, counseling, and student support services. Finally, the paper outlines strategies for articulation and effective communication between the remedial/developmental staff and other personnel in the institution. (AYC)

Prompted by pupil dissatisfaction and indifference, an experimental scheme of modified working routines involving approximately 500 pupils and 40 teachers was conducted in senior level classes in the Municipality of Öckerö between 1976 and 1981. The purpose of the project was to transform the everyday life of school and to devise methods for experiential learning. The government sanctioned two departures from the regular order of things: free deployment of resources and the observance of an outline time schedule. The outline time schedule meant a minimum compulsory number of periods per subject. Generally, evaluation findings indicated that school work can be extensively changed without excessive alterations to existing organizational structures. More specifically, pupils with high marks were so preoccupied with the demands of upper secondary school that they did not dare devote time to projects according to interest. Low achievers tended more often to opt for project work, including leisure activities which might give them a feeling of success. Follow-up findings show that nearly all of the low achievers had jobs, even though unemployment is particularly high in their age group. Three-fifths of students participating in follow-up interviews had a positive view of their free choice experience, one-fifth were doubtful, and one-fifth were negative. (RH)

Identifiers—Congress 98th

These hearings of the Select Committee on Children, Youth, and Families mark the end of the hearing stage of the bipartisan child care initiative—the most in-depth congressional look at child care in a decade. Testimony and recommendations were given by representatives of business, labor, education, religious groups, child welfare and women's groups, as well as state and local elected officials, physicians and psychologists, and those who provide nonprofit and proprietary care. Issues specifically addressed included (1) the affordability, availability, and effectiveness of current child care provisions throughout the United States and predictions for future needs and (2) the effect of child care, particularly on young children. Numerous related reports and statements are appended, including a comparison of day care intervention programs of varying quality; an analysis of families' ability to pay for day care services and the impact of current New York State fee schedules on family income; the prepared statement of the Ad Hoc Day Care Coalition; an article entitled "Highlights of Official Child Neglect and Abuse Reporting 1982"; a preliminary report on a nationwide survey of maternity/parental leave; the prepared statement of the Children's De-

fense Fund; a paper identifying unspoken assumptions underlying debate in the child care field; a paper discussing work schedules of two-parent earner families and their implications for child care and family life; an experimental study of the effects of employer-sponsored child care services on selected employee behaviors; a policy report on school-age child care; a report on inequities of salary reduction as national child care policy; a discussion of four early stages in the development of mother/infant interaction; and a paper on politics and the child care debate. Second in the Select Committee on Children, Youth, and Families' national child care initiative, this hearing explored the entire range of issues surrounding child care in order to develop a set of specific recommendations for Congress. Appearing before the committee were representatives of corporations and voluntary agencies in Texas that have devised innovative ways to make child care more available for millions of working families and their children. The cooperative public-private solutions they have crafted include corporate development funds, city and county-supported vendor-voucher programs for family- and center-based care, resource and referral services, and after-school programs. Described are such programs as (1) child care services of the Southland Corporation and (2) Austin Families, Inc., a nonprofit organization formed to develop resources for working parents and their children. The hearing record also includes a publicity flyer describing The Advance (Ava-sey) Educational Programs for Parents and Children; the Texas Department of Human Resources' Parents' Guide to Registered Family Homes (Form 2916, December, 1982); the report and recommendations of the Child Care Total Involvement Team of the Lincoln National Corporation; a description of programs of Neighborhood Centers, Inc.; and a United Way of Texas report on child day care in Texas. EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Administrator Guides, \*Adopted Children, \*Adoption, \*Child Welfare, Foster Care, Placement, Program Descriptions, \*Program Development, Program Guides, \*Social Services, Social Workers

This manual, which provides guidelines for effective adoption services for children in residential group child care who need new, permanent families, emphasizes interagency collaboration and communication as critical to effective adoptive plans. The

manual is intended for public agency social workers responsible for placement and permanency planning, adoption social workers in public or private adoption agencies, and group care staff (primarily social workers) who are responsible for family services and planning for children. After a brief introduction in Chapter I and an overview of permanency planning and adoption in perspective in Chapter II, the remaining chapters are organized around the phases in the adoptive process. Chapters III through VII consider, in order, the following topics: deciding on the adoption alternative; clearing the child legally for adoption; finding and preparing the adoptive family; preparing the child; and the placement process. The concluding chapter includes a section on planning for children in group care who have some adoptive experience in their background. In addition, guidelines are provided for the development in other states or localities of an interagency project similar to the Group Care/Adoption Project. Included in the Appendix are reading references, an adoption agency resource list, a statement of legal provisions for the termination of parental rights in North Carolina, and an adopted child's personal "life story book." Identifiers—\*Volunteer Management

This practicum report describes an attempt to correct the inadequacies and improve the volunteer program in the Lower School of the University School of Nova University. The revised program endeavored to satisfy teachers and volunteers by matching the specific needs of the Lower School staff to the interests, skills, talents, and time of the volunteers. Additionally, the scope of the program was expanded to include volunteer activities that could be done at home, so that all interested persons could be involved. To achieve these aims, a needs assessment survey was administered to Lower School teachers; prospective volunteers' interests and skills and preferred type of time commitment were identified; parent volunteers meeting teachers' needs were recruited; orientation sessions for teachers and volunteers were planned and conducted; the program was supervised and maintained; and an evaluation component was developed and administered. Outcomes indicated that the revised and expanded parent volunteer program was a positive experience for both staff and volunteers. Teachers stated that the use of parent volunteers helped them to enrich the children's experiences. Eighty-two percent of parent volunteers were matched with tasks reflecting their stated interests. Many related materials, such as sample forms, evaluations, field trip guidelines, and public relations materials are appended. (Author/RH)

Neuro-Linguistic Programming: A Discussion of Why and How.

Pub Date—85

Note—10p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Communication Skills, Definitions, Elementary Secondary Education, Guidelines, \*Language Usage, \*Neurolinguistics, \*Teacher Role, \*Teaching Methods

Identifiers—\*Neurolinguistic Programming, \*Representational Competence

Intended for teachers, this article offers a definition of neuro-linguistic programming (NLP), discusses its relevance to instruction, and provides illustrations of the implementation of neuro-linguistic programming in instructional contexts. NLP is defined as an approach to instruction that recognizes the familiar visual, auditory, and kinesthetic modality preferences of pupils and supplements those with the concepts of access systems and representation systems. The concept of access systems

includes all sensory reception, including olfactory and gustatory. The concept of representation system indicates not only how an individual codes and symbolizes information but also how that individual represents him/herself through speech. Examples of a representation system by which teachers might improve communication with students are offered as well as examples of sentences in which language corresponds to various neuro-linguistic styles. Tips for discovering students' and teachers' primary representational systems and for applying NLP in the classroom are suggested. (RH)

A Scale of Student Teaching Concerns for Use with Early Childhood Education Teacher Trainees.  
Pub Date—[83]

Note—32p.  
Pub Type—Tests/Questionnaires (160)—Reports—Research (143)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—\*Attitude Measures, Competence, Early Childhood Education, \*Factor Structure, Higher Education, Questionnaires, \*Student Teachers, Teacher Education, Teacher Effectiveness, \*Test Reliability, \*Test Validity

Identifiers—\*Scale of Student Teacher Concerns

The primary purpose of this study was to devise a valid and reliable scale to assess the teaching concerns of early childhood students at various levels in their teacher training experiences. A total of 167 concerns, generated by 104 teacher trainees, their trainers, and an extensive review of the literature, were classified according to Katz's (1972) paradigm of teacher development. These concerns were randomly organized in a Scale of Student Teaching Concerns (SSTC) and administered to 107 teacher trainees prior to their involvement in training practicum at seven similar early childhood programs in Montana, Utah, and Oregon. The trainees rated each concern using a 5-point Likert-type scale on the dimension of perceived importance. In addition, the teacher competency of trainees was assessed using the Preschool Teacher Competency Rating Scale approximately 3 to 4 weeks into their training practicum. Findings indicated the existence of four factors, including survival, consolidation, renewal, and maturity, as suggested by Katz (1972). In addition, the final version of the SSTC successfully discriminated between beginning and advanced level teacher trainees, providing some construct validity

for the scale. Reliability estimates, including two internal consistency estimates, revealed concerns associated with each of the four factors in the final SSTC to be relatively homogeneous. An exploratory study regarding the relationships between teaching concerns and teacher competency revealed no significant relationships between these variables. (Author/RH)

Descriptors—\*Curriculum Development, \*Educational Practices, Elementary Education, \*Elementary School Curriculum, Teacher Responsibility

Identifiers—\*Curricular Debate, \*Educational Issues

Discussed are numerous issues pertaining to the elementary school curriculum, including (1) behaviorally stated objectives; (2) selection of learning activities; (3) the structure of knowledge; (4) handwriting; (5) teaching of spelling; (6) use of basal readers; (7) the initial teaching alphabet; (8) arguments for a national curriculum; (9) teaching of grammar; (10) balance in the mathematics curriculum; (11) inductive versus deductive learning; (12) reality in the social studies; (13) individual versus group work; (14) using standard versus nonstandard English; (15) foreign language in the elementary school; (16) use of specific guidelines by supervisors making observations of classroom teaching; (17) tuition vouchers; (18) accountability; and (19) open-space education. Generally, the discussions point out advantages and disadvantages associated with particular issues and provide a sense of current educational practices in the United States that are related to these issues. [Making Child Development Relevant for All Children: Implications for Teacher Education.]

Pub Date—15 Nov 85

Note—19p; Paper presented at the Annual Conference of the National Association for the Education of Young Children (New Orleans, LA, November 14-17, 1985). For a related document, see ED 264 967.

Pub Type—Opinion Papers (120)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—\*Child Development, Cognitive Development, Cognitive Style, \*Curriculum Problems, Early Childhood Education, \*Educational Change, Ethnicity, Higher Education, \*Relevance (Education), \*Teacher Characteristics, \*Teacher Education

Discussed are some changes needed in teacher education programs if prospective teachers' training in child development is to be relevant to the ethnically diverse children encountered in the classroom. Particular attention is given to characteristics teachers must have to teach children in large urban areas; the incorporation of human growth and development in all aspects of teacher education; training teachers to respond with appropriate instructional strategies to students' culturally-based learning styles; preparing teachers to teach students the intellectual skills they need to learn and use their knowledge; and recommendations for expanding the teacher preparation curriculum and the length of the teacher education program. ## Planning

Identifiers—Early Intervention, \*New Jersey

Focusing on problems believed to pose the greatest risk to the children of New Jersey, this report sets forth the views of the Governor's Committee on Children's Services Planning on priorities for action. After an executive summary of the report, the issues identified by the committee are summarized in chapter II, which describes the current status and needs of New Jersey's children and families. Issues chosen as priorities for action are detailed. Chapter III deals with actions to assure basic foundations for life and specifically addresses the issues of meeting the need for adequate income supports through AFDC, housing needs, preventive and remedial health care for children, and meeting educational needs. Chapter IV concerns actions to improve preventive and supportive services for children and families, including the social services system, comprehensive early childhood development program, and child care. Chapter V focuses on actions to address physical, emotional, and behavioral disorders, involving early intervention and mental health services, specialized services for emotionally disturbed juvenile offenders, prevention and treatment of substance abuse, and the juvenile justice system and the family court. Chapter VI briefly reports the recommendation to establish a continuous process for identifying and meeting children's needs. (RH)

Parent Inventory of Child Development in Non-school Environments. (Working Copy).

Madison Public Schools, Wis.

Pub Date—Apr 83

Note—99p.

Pub Type—Guides—Non-Classroom (055)

EDRS Price—MF01/PC04 Plus Postage.

Descriptors—\*Affective Behavior, \*Child Development, Cognitive Ability, Communication Skills, \*Developmental Stages, Individual Development, \*Infant Behavior, Motor Development, \*Parent Attitudes, Personality, Preschool Children, Preschool Education, Self Care Skills

Designed to inform professionals about how a child behaves when not in school, the Parent Inventory of Child Development in Non-school Environments assesses the affective behavior (including activity level, adaptability, distractibility, moodiness, sociability and persistence) and the fine motor, gross motor, communication skills, and cognitive skills of children from birth to 24 months, 24 months to 36 months, 36 months to 48 months, and 48 months to 60 months. Also assessed at each of the age levels are children's self-help skills. In answering questions such as "Does your child calm down when you comfort him?" parents choose from these responses: "My child does this consistently," "My child is starting to do this," "My child does not do this," "I would like doing this to be a goal for my child," or "I'm not sure why this is important for my child to do." Directions suggest that many persons may be involved in answering the questions, including family members, babysitter, daycare teacher, next door neighbor, and/or friend. Parents are instructed to complete the section assessing affective behavior and select the age-related section that best matches their child's level of functioning. (RH)

Which Is Better for Young Children—Family Day Care or Center Care?

Pub Date—Nov 85

Note—36p; Paper presented at the Annual Meeting of the National Association for the Education of Young Children (New Orleans, LA, November 14-17, 1985).

Pub Type—Information Analyses (070)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—\*Child Development, Comparative Analysis, \*Day Care Centers, \*Early Childhood Education, \*Educational Environment, Educational Quality, \*Employed Parents, \*Family Day Care, Family Environment, Group Experience, Research Problems, Selection, Trend Analysis

Using 20 comparative research studies, this paper compares advantages and disadvantages of family day care and center care. The results are discussed in terms of (1) the effects of family day care and center care on the intellectual, emotional, social, and physical development of young children and their parents; (2) the environmental differences between the two types of care; and (3) the implications for parents. For the most part, these research re-

PS 015 573

PS 015 569

PS 015 577

PS 015 572

ports are contradictory and inconclusive, and only two rather weak trends are discerned. When differences between family day care and center care children are reported on measures of cognitive and motor performance, the results tend to favor center day care. On the other hand, studies reporting differences in emotional development tend to favor family day care. No consistent pattern of differences favoring either type of care emerges from studies of social behavior or physical growth and health. The environmental differences between the two settings are generally consistent with the two trends in studies reporting differential effects on the participants. Overall, on the basis of present evidence, no strong argument can be made for the superiority of either type of care. The paper concludes that center care and family day care are both viable options for parents who need out-of-home care for their children and that the most important consideration in comparing child care arrangements is the quality of care. The report concludes with a five-page bibliography. (Author/DST)

*The Influence of Television on Children's Attentional Abilities.*

Children's Television Workshop, New York, N.Y. Pub Date—Dec 85

Note—12p.

Pub Type—Information Analyses (070)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Attention, Attention Span, Literature Reviews, \*Mass Media Effects, \*Preschool Children, Preschool Education, \*Research Problems, Television Research, \*Television Viewing, Validity

Identifiers—\*Sesame Street

The purpose of this review is to determine the scientific status of the proposition that viewing television in general or viewing "Sesame Street" in particular affects children's attentional skills, abilities, or behaviors. It has been frequently claimed that television viewing negatively affects children's attentional abilities. The most common complaint is that rapid scene changes and movements on many television programs foster short attention spans. On these grounds, "Sesame Street" is sometimes cited as negatively affecting attentional abilities in its young viewers because the program uses short segments and varied pacing. Research literatures in communication, education, medicine, and psychology were extensively searched. A total of 10 relevant studies were found, four of which dealt with "Sesame Street." The research indicates that television may affect attentional abilities in children. Contrary to claims by journalists and educators, the effects appear to be positive as well as negative. Viewing of "Sesame Street" in particular is associated with an increase in desirable attentional skills and behaviors. Because relatively few studies have examined the effects of television viewing on attention and because many of the studies have methodological shortcomings, conclusions should be considered tentative. *Studies of Day Care Center Climate and Its Effect on Children's Social and Emotional Behavior.*

Pub Date—Apr 85

Note—15p.; Paper presented at the Symposium on Care, Rearing, Education (Faro, Sweden, April 15-17, 1985).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Affective Behavior, Child Caregivers, Classroom Research, Comparative Analysis, \*Day Care Centers, Early Childhood Education, \*Educational Environment, \*Preschool Children, \*Social Behavior, Teacher Behavior, Teacher Role

Identifiers—\*Sweden

School climates at 12 day care centers in Sweden were compared to investigate effects of center climates on children's social and emotional behavior. Observations and interviews conducted at the day care centers revealed differences in center climates related to child-rearing patterns, patterns of interaction, the distribution of power, and in children's social behavior. At centers in which caregivers exhibited "present-focused" working methods, children were frequently involved in free play, planned activities did not always take place as planned, adults were rather passive in their relationship to

children, and children were seen often wandering around aimlessly. Children attending such centers also played less with each other and teased and rejected each other more than at "future-focused" centers. At centers in which caregivers used "future-focused" working methods, a clear daily plan and many planned activities were exhibited. Adults activated children who had nothing to do and required children to take responsibility for many situations. Consequently, children felt they were needed. Children played together more at these centers than they did at "present-focused" centers. (Examples of free play and planned activities at "present-focused" and "future-focused" centers are included.) (RH)

Identifiers—\*Computer Uses in Education, \*ERIC Digests

Guidelines for teaching early childhood teachers and other adults about computers and their use are offered. Discussion focuses on how attitudes of the adult learner can impede learning, how the trainer can encourage teachers and other school personnel to learn about computers, and the trainers' "invisible agenda" of educational goals that supplements the program of formal instruction. Trainers are advised to vary the pace and rhythm of instruction; avoid jargon while introducing basic concepts; encourage the development of useful computer habits by learners; recognize that, for adults beginning to learn about computers, memorization of routines is not as effective a strategy as understanding the program; provide explicit models for understanding concepts; and suggest strategies for continued learning. Descriptors—\*Childhood Needs, \*Children, \*Friendship, \*Interpersonal Relationship, Intervention, \*Peer Relationship

Identifiers—ERIC Digests

Children ought to have satisfying friendships because they otherwise may miss out on opportunities to learn important social skills, develop little faith in their abilities to achieve interpersonal goals, suffer painful feelings of isolation, and become vulnerable to influence by delinquent peers. Factors contributing to children's peer relationship problems include unacceptable social behavior, "differentness" from other children, family problems, and a reputation as a social outcast. Children with relationship problems can be helped through social skills training, interventions focused on related problems, provision of nonthreatening social experiences, and co-operative classroom projects. Adults are urged to give children evident opportunities to share peer-related concerns, show respect for children's unique social needs, and create social options for children without creating pressures. Descriptors—Age Differences, \*Cognitive Processes, \*Comprehension, Concept Formation, \*Developmental Stages, Early Childhood Education, \*Humor, Personality Traits, Play, \*Young Children

Identifiers—Incongruence (Psychology)

Highlighting pertinent research in the area of young children's development of humor, this paper reviews four areas from a cognitive-developmental perspective: (1) humor as a cognitive process, (2) humor and the developmental process, (3) research on young children's humor, and (4) humor and early childhood education. First, the structural properties of incongruity and resolution are discussed in terms of the forms that humor can take as a cognitive process. The stages involved in humor processing are examined in relation to the structure of humor and the cognitive status of the recipient. Secondly, humor is viewed as a developmental process which reflects underlying cognitive changes. General cognitive prerequisites for incongruity humor are defined and the stage at which young children first are capable of understanding comic incongruity is identified. Thirdly, research is reviewed and findings summarized in the areas of laughter-provoking situations, cognitive mastery, moderately novel humor stimuli, and structural aspects of humor. Lastly, the role of humor in four areas of early childhood education are explained: humor as a motivating factor; the value of humor in spontaneous play activities; the role of humor in the learning process; and the types of humor most appropriate for young children. Examples of children's jokes, riddles, etc. are used to illustrate important concepts throughout the paper. An 11-page reference list is appended. (DST)

Descriptors—\*Academic Achievement, \*Behavior Patterns, Children, Educational Environment, Elementary Secondary Education, \*Motivation, \*Performance Factors, Personality Traits, \*School Effectiveness, School Role, Teacher Role Addressing the question, "What can be done to promote school achievement?", this paper summarizes the literature on motivation relating to classroom achievement and school effectiveness. Particular attention is given to how values, ideology, and various cultural patterns impinge on classroom performance and serve to enhance motivation to achieve. In defining motivation and achievement, five identifiable behavior patterns are outlined along with an explanation of personal investment as a unifying concept for those patterns. Also, a description of the motivational cycle is provided and the rewards for personal investment in the educational process are briefly discussed. Next, the determinants of motivation and personal investment are examined in terms of the following factors: motivation as a personal trait; motivation and thoughts about the self; motivation and achievement goals; value attached to the task; and situational influences on motivation. Finally, a theory of personal investment stressing the role of cognitive mediators in determining motivation is developed. References and figures are appended. (DST)

**Kindergarten Children's Perceptions of Classroom Rules.**

Pub Date—85

Note—18p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Classroom Environment, \*Discipline, Interviews, \*Kindergarten Children, Primary Education, Punishment, \*Student Attitudes

Identifiers—Qualitative Research, \*Rules and Regulations

Concern for discipline has resulted in an emphasis on school rules and enforcement in many school districts. In order to begin to understand children's perceptions of classroom rules, the teacher and 18 children in one kindergarten class were interviewed about (1) what the rules in their classroom actually were; (2) what the punishments were; and (3) how they knew what the rules were. Although details of the rules varied considerably, responses fell within 10 general categories, with agreement between children and teacher by category on 71 percent of the rules. Children's perceptions of punishments did not reflect actual reported teacher behavior but instead emphasized a single dramatic incident as representative. Rules were learned by observation of the consequences, not by teacher instruction. (Author/RH)

Identifiers—Diagnostic Appraisal Systems

Providing instructor and participant materials, this training manual presents specialized information about the prevention of abuse in family foster care. Focal concerns are (1) the dynamics of abuse in general and in foster families particularly; (2) the need for prevention related activities on a systems level, for adequate training and supports for foster families, and for consistency and clarity of expectations; (3) worker's tasks such as identifying high risk children, assessment and matching for placement, use of individualized contracting, and picking up on danger signals; and (4) worker's role in helping foster parents with behavior management, including alternatives to physical discipline and ways of clarifying expectations for discipline. The manual discusses the licensing worker or foster home developer's role of supporting the foster home, developing resources for foster parents, and monitoring quality of care. Appendices provide information about liability for inadequate foster care services, foster parents' rights to share in decision making for the foster child, diagrammatic assessment of family relationships, development of support systems for foster families, guidelines for foster parents, what the Bible says about punishment, discipline and behavior management, the abused and neglected adolescent, mismatching of foster parents and the sexually abused preschool child, and talking with foster parents about sexual abuse. Physicians, Prevention, \*Social Networks, State Programs

Identifiers—\*Prenatal Care, \*Tennessee

In July of 1983, the state of Tennessee initiated The Healthy Children Initiative (HCI), a program designed to protect the health of Tennessee's children. Originally planned as a 4-year initiative, participating programs have been established on an ongoing basis. The first year's goal for Fiscal Year 83-84 was to make sure prenatal care was available for every pregnant woman in Tennessee. Another major area of emphasis has been the prevention of teenage pregnancies. The second and third years of the initiative concentrate on Infant Follow-Up (IFU), a program designed to insure that all babies receive developmental services and to establish networks between agencies and the private medical communities. This presentation describes the Infant Follow-Up Program designed for the Mid-Cumberland Region, an area consisting of 12 counties surrounding but not including the city of Nashville. The third year of the Healthy Children Initiative, which began July 1, 1985, focuses on expanding the Infant Follow-Up efforts to include a High Risk Registry to assure that infants with certain risk factors are identified systematically and followed with especially intensive efforts. Data indicate that the Follow-Up Program works: children have been assigned "medical homes," their immunization rate is better, and the medical communities are pleased. (RH)

Descriptors—\*Advantaged, Cognitive Ability, \*Educational Experience, \*Elementary School Students, Grade 3, Interpersonal Competence, Mathematics Skills, \*Outcomes of Education, \*Preschool Education, Primary Education, Reading Achievement

Identifiers—Full Day Programs, Half Day Programs

Preschool attendance and type of experience were examined for long-term effects on 226 third grade advantaged boys and girls. Information on preschool attendance was obtained from each subject's parents. Each subject was assessed on social competence, cognitive ability, reading achievement, and math achievement. Results indicated that advantaged children who attended preschool and advantaged children who did not attend preschool were not different in social and cognitive competence by third grade. Findings also indicated that children who attended half-day preschool, while not differing, had higher social competence and cognitive ability scores than children who attended day care. Underscored by this research is the critical question of how specific types of preschool experiences influence development in later years. A five-page bibliography concludes the report. (Author/RH)

Transition Time: Make It a Learning Time.

Pub Date—Jun 85

Note—14p.; Paper presented at the Association for Childhood Education International Study Conference (San Antonio, TX, June 18-22, 1985).

Pub Type—Guides - Classroom - Teacher (052) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Adjustment (to Environment), Curriculum Development, \*Curriculum Enrichment, \*Early Childhood Education, Group Activities, \*Learning Activities, \*Preschool Children, \*Teaching Methods

Identifiers—\*Transition Time

Teacher selection and planning of appropriate transition activities for preschool age children is discussed in this paper. Teachers are encouraged to use transition time to provide an opportunity for imaginative and creative thinking and to avoid tedious waiting and chaos. Transition activities can be used as a teaching technique to prepare children to listen, to relax, to move from place to place and from activ-

ity to activity, and to allow opportunity to apply and reinforce learning while others in the group complete a task. Topics covered include the following: criteria for selection of transition activities; suggested transition activities; activities for grouping and moving children; activities for changing learning centers, cleaning up, or completing tasks; relaxation activities; preparation activities for the next activity and listening; and waiting activities. Specific learning activities to be used by preschool teachers are described under each topic. (DST)

Factors Influencing Parent-Toddler Affiliative Interaction: Implications for Child Care Programming.

Pub Date—83

Note—16p.

Pub Type—Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Attachment Behavior, \*Child Rearing, \*Day Care, Early Childhood Education, Emotional Development, Fathers, Mothers, \*Parent Child Relationship, Parent Role, \*Play, Program Improvement, Prosocial Behavior, Sex Differences, \*Socialization, \*Toddlers

Literature on parent-toddler affiliative behavior which reflects the dynamic and reciprocal nature of parent-toddler interaction is reviewed in this paper, including an ecosystems perspective. Affiliative behaviors for parents and toddlers are defined with respect to the verbal and physical behaviors of both parent and toddler. Also, research results assessing affiliative behaviors together with research findings on parental caregiving and parental play interactions are presented. Practical implications and applications based on the research findings for child care programming are presented. Particular focus is placed on how verbal and physical affiliative behaviors for toddlers and adults can be used to develop more securely attached relationships for children in preschool settings. In addition, the importance of male interaction in the care of infants and toddlers as well as the cooperative play style of fathers with their toddlers is emphasized. Research findings related to categories of parental affiliative interaction with categories of parental play activities are interrelated with the implications for child care programs. (Author/DST)

Descriptors—Classroom Environment, \*Discipline, Elementary Secondary Education, Family Influence, \*Parent Education, Parent Participation, \*Parent Role, \*Parent Teacher Cooperation, \*Teamwork

Parent involvement has been documented as the most effective method of improving student performance in school. This book explores ideas, strategies, and resources that parents and teachers can use in teaming together to facilitate productive student behavior and to deal positively with discipline issues. Parental role in discipline is discussed in terms of three forms of parental influence: (1) on the child's behavior; (2) on the first learning environment; and (3) on the child's attitudes. The discussion of parents and teachers as copartners in discipline focuses on the need, basis, and process for a team approach. Educating parents about discipline is explored by discussing parent education with a discipline focus and orienting parents to the classroom discipline approach. Additionally discussed are strategies for involving parents in discipline and for dealing with special discipline situations. It is concluded that teachers who use parent education and involvement strategies that focus on discipline have found them to be an important ingredient in successful classroom discipline programs. Parent-teacher teaming is indeed a key step toward achieving more productive student behavior. (RH)

# Using Bibliotherapy to Help Children Adjust to Changing Role Models.

Pub Date—Mar 85

Note—14p; Paper presented at the Annual Future of Parenting Symposium (1st, Chicago, IL, March 21-24, 1985).

Pub Type—Opinion Papers (120)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Androgyny, Behavior Development, \*Bibliotherapy, \*Children's Literature, Early Childhood Education, Family Life, Identification (Psychology), Learning Theories, Role Models, \*Sex Role, Social Change, Socialization

Identifiers—Cognitive Developmental Theory, Psychoanalytic Theory

One technique for helping children adjust to changing role models is bibliotherapy—the use of children's books to facilitate identification with and exploration of sex role behavior. Confronted with change in various social systems, particularly the family, children are faced with conflicts concerning their sex role development. The process through which children learn to identify with a particular sex role is explained by learning, psychoanalytic, and cognitive-developmental theories. A brief outline of the bibliotherapeutic process and techniques for implementing bibliotherapy are discussed. A selected list of current preschooler's literature dealing with sex role development is presented. (DST)

Descriptors—Academic Achievement, Demography, Elementary Education, \*Elementary School Students, Grade Repetition, Kindergarten, Longitudinal Studies, \*Parent Attitudes, Questionnaires, \*School Entrance Age, Self Esteem, Student Adjustment, \*Student Attitudes, \*Teacher Attitudes

Identifiers—\*Developmental Placement

To evaluate the long term impact of developmental placement, a longitudinal study was initiated with over 500 subjects from a variety of school settings across the state of Michigan. Three groups of subjects were selected: (1) children recommended for a "growth year" before entering kindergarten who followed the recommendation, thus delaying entry to kindergarten for 1 year; (2) children similarly recommended who did not follow the recommendation, thus entering kindergarten at the expected chronological age; and (3) a control group of randomly selected classmates. Questionnaires for parents, teachers, and children covered demographic information, school adjustment, school achievement, and self-esteem information. Results from the fourth year of this study on the effects of giving children a growth year are presented here. Parents indicate that they made the right decision, and would recommend a growth year to friends with children in similar circumstances. Questionnaires with responses are included. (RH)

tion, \*Professional Recognition, Specialization, Standards, Teacher Education

Identifiers—Professional Ethics, \*Professionalism

Based on the current drive toward professionalism in early childhood education and the low status and prestige afforded teachers in this field, this paper applies some of the main concepts of professionalism to the current state of the art of early childhood education. Two uses of the term "professional" are delineated: the "folk" concept and the scientific concept. The first use is explained in terms of an honorific designation, and early childhood practitioners are not seen in the public mind to have achieved the goals implicit in this concept. In the scientific conceptions of the term "profession," eight criteria must be met: social necessity, altruism, autonomy, code of ethics, distance from client, standards of practice, prolonged training, and specialized knowledge. The current status of different aspects of early childhood education is then assessed in relation to meeting these individual criteria. In a closing section, the work of several contemporary developmental researchers is cited as rich in implications for principles of education in the early years. Finally, the difficulty that the field of early childhood education experiences in producing reliable and persuasive empirical evidence for the activities of its practitioners is discussed. (DST)

Descriptors—\*Child Development, Early Childhood Education, Listening, \*Music Education, \*Play, Preschool Children, \*Stress Variables, Student Participation, \*Teacher Role, Theories, \*Young Children

Identifiers—Aesthetic Response, Children's Preferences, Research Results

Proceedings of the 1984 Music in Early Childhood Conference held at Brigham Young University are presented in this document. Part I contains keynote addresses; Parts II through IV, respectively, consist of reports by research teams, synopses of workshops, and abstracts of research sessions. Keynote speakers addressed a broad scope of issues related to early childhood and music education. Joe L. Frost's paper, "Toward an Integrated Theory of Play," reviewed different theories of play and play environments spanning 3,000 years. David Elkind in "Hurried Children-Stressed Children" warned that hurried children, whether "clock hurried" or "calendar hurried," often become the nation's stressed children. A contemporary state-of-the-art perspective of early childhood music achievements, practices, and research was given by Marilyn Zimmerman. Lytle Davidson presented his analysis of tonal structures used in songs by preschool children. Barbara Andress contrasted structured musical experiences with exploratory-based activities and addressed the practitioner's need to use age-appropriate materials. Reports by three research teams comprised of music educators and early childhood specialists focused on (1) expanding the music listening preferences of 3- and 4-year-olds by fostering recognition of and responsiveness to selected works of music; (2) recent research on young children and its implications for teaching and development as well as for music education; and (3) nurturing and assessing aesthetic response in preschool children. Workshops explored stages of children's movement to music, multicultural music materials for early childhood, the play songs of Japanese children, music in family and family-like settings, social learning through music and other activities, young children's spontaneous singing, nurturing creative behavior in early childhood, cultivating music awareness, a parent/toddler music program, procedures for training the singing voice of young children, and learning styles. Topics of research sessions were the role of music in child development, historical reasons for teaching music to young children, music and language learning in

early childhood, observations of music babble in young children, children's understanding of pitch and pitch relations, children's figural and metric understanding of rhythm, the nature and structure of rhythm, naturalistic observation of young children's musical behaviors, influences of home and family on musical opportunities of educationally advantaged young children, and preschool children's spontaneous songs. Children, Get a Headstart on the Road to Good Nutrition.

Montclair State Coll., Upper Montclair, NJ. Life Skills Center.

Spons Agency—Administration for Children, Youth, and Families (DHHS), Washington, D.C.

Pub Date—85

Contract—105-85-1527

Note—728p; Many pages are printed on colored paper.

Pub Type—Guides—Classroom—Teacher (052)

EDRS Price—MF04/PC30 Plus Postage.

Descriptors—\*Day Care, Early Childhood Education, \*Eating Habits, Interdisciplinary Approach, Learning Activities, Lesson Plans, \*Nutrition Instruction, \*Preschool Children, \*Preschool Curriculum

Identifiers—\*Food Selection, \*Project Head Start

This multidisciplinary preschool nutrition education curriculum has been specifically written to promote learning among 3-, 4-, and 5-year-olds who are participating in the National Head Start program. Provided are eight units which should be taught in sequence because each builds on the concepts taught in previous units. Unit 1 focuses on children's need to try new foods and eat a variety of foods. Unit 2 concerns acceptable mealtime behaviors and manners. Units 3 through 8, respectively, focus on hygiene at mealtime, variety in foods, sensory enjoyment of foods, origins of foods, healthy foods, and desirable eating habits. Introductory pages of each unit describe the focus of the unit, explain the child-oriented goals, provide a brief rationale, give a summary of background information for the teacher, and describe the skills and knowledge the children should be able to demonstrate after participating in the unit lessons. The first lesson in each unit introduces the unit concepts and provides a framework for all other lessons in the unit. All of the lessons that follow the first lesson are designed to reinforce or expand upon the ideas and concepts presented in the first lesson. Included are references to books for preschoolers, audiovisuals for preschoolers, teachers, and parents, teacher/parent materials, and a list of sources of inexpensive nutrition education teaching aids. Identifiers—\*Context Effect, Theoretic Orientation, Vygotsky (Lev S)

Collected are four conference speeches which in various ways attack the developmental perspective that views genetics as a source of stability and environment as a source of change. Dr. Bonnie E. Litowitz's discussion of "Context and Continuity: Changing Perspectives on Children" explores differences among development, learning, and evolution to account for the importance of the concepts of interaction and context in contemporary research on children. Discussing the "Development of a Transactional Self," Dr. Jerome S. Bruner argues that the nature of the development of self is such that it becomes possible to maintain continuity in development while providing the basis for change. In "Children and Social Networks," Dr. J.P. Comer asserts that there is too little research on the life and

development of children in their social networks beyond the family or on the skills and interactions needed to function adequately in those social networks in the complexity of contemporary, urban society. Particular attention is given to the success of the Yale Child Study Center team's intervention efforts in inner-city schools. In conclusion, Dr. Michael Cole's description of "A Socio-Cultural Approach to the Study of Re-mediation" argues that information processing theory and systems of remedial reading instruction fail to see reading as a process of interpreting the world. He describes research documenting the effectiveness of incorporating that view in remedial interventions. (RH)

Identifiers—\*Context Effect, Theoretic Orientation, Vygotsky (Lev S)

When studied closely, it is evident that children who seem to be developing through their own interactions with the environment are really benefiting from adult interactions in the process. The developing child must form a dyadic relationship with a caretaking adult. The complex workings of that dyadic unit now preoccupy researchers as they study interactions and are forced back to a more careful reexamination of context as well. Researchers now see development not as internally driven but as "outside-in." Each child grows up speaking a "mother tongue," a member of the parent's culture, but individually shaped in relation to that parent as distinct from all other members and speakers. As a result of taking the mother-child dyad as the unit of observation and analysis, a major direction of the 1980s focuses on interaction research. Two questions arise from recent studies. How can investigators observe interactions without being simply additive? How can they analyze the learning process taking place in interaction without reverting to neobehaviorist conditioning and contingency patterns? The challenge of the 1980s is to redefine "social" beyond just the notion of child-plus-other. Attention must also turn to the transformations of early dyadic relationships and early contexts constituting those relationships. (RH)

Identifiers—Theoretic Orientation, \*Transactional Self

It is in the nature of the development of the self that it becomes possible to maintain continuity in development while providing the basis for change. Language forms the self by making it possible for a user of language to relate himself as agent to others and to the culture. The formation of self depends powerfully on the meanings that a human being shares with others. Joint reference achieves a kind of union or solidarity. Language, used in a certain way, constitutes shared, public realities of its own. Such realities are one of the means whereby, once words are uttered, the silent self becomes the transactional self. The sincerity conditions of speech acts, properly managed, provide an extraordinary scaffold for the construction of self, for in meeting those conditions, decisions about silence, indirect-

tion, manipulateness, and the like are made. Learning how to use language involves both learning the culture and learning how to take stances that are "personal." In acquiring language one becomes a member of the culture and one becomes one's own self. In the light of the foregoing, classic views about the nature of early endowment and the direction of growth need re-examination: they are considered under the headings of egocentrism, the private self, unmediated conceptualism, and tripartism, or the analytic separation of human functions, such as perception, feeling, thinking, and action, which through cultural means are kept related and become fused into self-directing patterns—ways of being a self. Descriptors—\*Authoritarianism, Children, \*Community Influence, Elementary Education, \*Expectation, \*Family Influence, \*Individual Development, Intervention, Program Effectiveness, Social Change, Social History, \*Social Networks

This address first briefly reviews what children are expected to know and be able to do when they reach adulthood and considers the critical developmental tasks which they must engage in and go through to meet such expectations. Then, consideration is given to the institutions of social networks in which development occurs as they operated in the pre-1940s period and as they operate today in the post-1940s period. The discussion relies on personal and research experience in the family and work in schools to point out the importance of looking beyond the individual and the family for causes of particular behaviors in young people. Finally, suggestions are offered concerning future directions and needs for research on child development and child behavior. (RH)

Identifiers—\*Interpretation, Theoretic Orientation, Vygotsky (Lev S)

The basic character of literacy is the creation of objects to regulate interactions with the physical and social worlds. "Remediation" means a shift in the way that mediating devices regulate coordination with the environment. If research on reading is to make a difference, it will have to start with an understanding of how contemporary social-historical contexts shape the nature of instruction and the production of school failure. Current data show how, without special cultural support systems, the individual teacher is at an enormous disadvantage in trying to get a student over the major misunderstanding that reading is reading individual words so that they sound right. Reading is a process of interpreting the world. Current research using an interpretive model has produced remarkable changes in the reading ability of seventh grade students. But the system of remediation most commonly used is one that goes back to the system of the basic unit again. Instead of basic skills, a socio-cultural approach to reading talks about basic activities and instantiates those needed to carry out the whole process of reading in the general conditions for learning. When such lesson contexts are created, children can learn to read who otherwise couldn't be taught (RH)

**The Interrelationship between One's View of Man, Culture and Curriculum.**

Pub Date—Aug 83

Note—10p.; Paper presented at the Meeting of the World Congress of Philosophy (17th, Montreal, Quebec, Canada, August 21-27, 1983).

Pub Type—Opinion Papers (120)—Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Civil Liberties, Cultural Awareness, \*Cultural Education, \*Educational Philosophy, Foreign Countries, \*Relevance (Education), Religion

Identifiers—Cultural Preservation, \*Ontology, \*South Africa

This paper states that school is an institution created by society to transmit the valuable life contents to be found in culture to children in the shape of learning contents. Discussed are (1) the ontological issues underlying curriculum; (2) the coherence between reality, culture and curriculum; and (3) man's cultural rights. Curriculum is viewed as a composite body of knowledge resulting from man's search for and discovery of the concrete reality of God's will (law) within creation. Cultural reality is the result of man's execution of his vocation as steward of nature. The curriculum includes knowledge about culturally formative activities that include a whole spectrum of reality. The way in which communities and nations throughout the ages have discovered the laws underlying reality and ordered these for an orderly existence is to be found within the culture. This is a concretization of "the right of peoples to preserve their culture." The homogeneity of cultural groups in the same school is a prerequisite for the orderly existence and functioning of any curriculum. On the basis of the foregoing information, it is, in the last analysis, essential to point to the utility of the adoption of curricula from countries with conflicting cultures. (RH)

**A Tale of Two Learners.**

Pub Date—86

Note—43p.; Appendix contains small print.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Case Studies, Comparative Analysis, Comprehension, \*Educational Environment, English (Second Language), Foreign Countries, \*Kindergarten Children, Language Fluency, \*Language Proficiency, \*Personality, Primary Education, \*Second Language Learning

Identifiers—Accuracy, \*Alberta

This paper describes accounts of two kindergarten-aged children learning English as a second language (ESL) to demonstrate that exposure is a necessary but not a sufficient condition for acquiring a second language. The 10-month histories of "L," a quick and highly successful learner, and "M," a less successful, much slower learner, illustrate how proficiency in the native language, the school environment, and personality factors interact in the acquisition of a second language by young children. These three determining factors are discussed in detail. Extensive within-subject and cross-subject comparisons of language comprehension, accuracy, and fluency are made with data obtained from responses to the 21 questions of the Bilingual Syntax Measure, a test sometimes used to assess the English language proficiency of primary school students. It is concluded that the majority of ESL children entering school are neither as proficient at language learning as "L" nor as slow as "M." While the different abilities and different backgrounds ESL students bring to the task of language learning are beyond the teacher's control, teachers can provide a school environment that is supportive, linguistically rich, and that encourages the use of language which serves the functions of basic interpersonal communication. Descriptors—\*Amish, \*Educational Environment, Elementary Education, Elementary School Students, \*Farm Visits, Personality, \*Rural Environment, \*Urban Youth, \*Values Education  
Identifiers—\*Montessori Method

For the past 10 summers a rural Ohio farm family, convinced of the merits of involving children in farm experiences and/or plant and animal care, has shared its farmstead with approximately 3,000 urban elementary school children. This paper discusses the impact of farm experiences on children's development, exploring rural community life among the Amish, Maria Montessori's views of the value of farm experience, and British integrated day schools. American Amish society, particularly, is seen as lacking the neurotic symptoms of industrial society. It is asserted that (1) some of the qualities characteristic of Amish society were idealized by Maria Montessori; (2) Montessori's "erdkinder" schools look in many ways like today's Amish family life; (3) British integrated day schools attempted to provide an education based on the farm experience to post-World War II schoolchildren; (4) children's learning environments require proper scale and relevance, qualities inherent in farm life. Specific character traits which might develop among children involved in small scale relevant learning environments such as Amish society, the erdkinder, and the family farm include respect for nature and understanding of nature's generosity, the habit of observing life, foresight, responsible community participation, and a certain equilibrium of conscience, resulting from the knowledge that one has given one's best effort at all times. Note—27p.

Pub Type—Information Analyses (070) — Guides - Non-Classroom (055)

**EDRS Price - MF01/PC02 Plus Postage.**

Descriptors—\*Bilingualism, \*Child Rearing, Guidelines, Infants, \*Language Acquisition, Literature Reviews, \*Parent Role, Preschool Children, \*Second Language Learning  
Identifiers—English Speaking

The decision of parents whose native language is English to raise their child bilingually prompted a review of the literature concerning approaches to fostering infant bilingualism. The review focuses on (1) language strategies most often adopted by the bilingual family, such as dichotomy and alternation; (2) other family variables; (3) the Grammont formula; (4) setting and function; (5) factors related to person; (6) violations of the person/language rule; (7) issues of inclusion and exclusion related to language selection; (8) dominance and balance; and (9) alternative educational programs. The concluding section of the review offers 17 guidelines parents might adopt in their endeavor to foster bilingualism in their young children. (RH)

Identifiers—\*Canada, Piagetian Theory

This study paper discusses (1) changing emphases and current interpretations of child development; (2) the context of family, culture, and education within which children develop; (3) the transition to school; and (4) new issues concerning children, parents, and teachers in society today. Section 1 establishes 1959 as an approximate turning point at which child development research began to emphasize cognitive development. Discussion focuses on the impact of Piaget's theory, Weiskart's use of Piaget's theories, the environmental views of Basil Bernstein, and Smedlund's critique of Piaget. Section 2 describes the child in the social, physical,

institutional, and symbolic worlds; subsequent discussion gives special attention to communication and the acquisition of language. Section 3 explores implications of brain research for determining children's readiness for school, focusing especially on the views of Bernice McCarthy concerning different functions of brain hemispheres. Her model for looking at different learning styles and modes of processing information is described along with other aspects of her work, including the need to evaluate children learning differently through different styles. Section 4 concerns issues such as changes in family and parent role, gender development, peer influences, racial awareness, minority children in Alberta, child rearing, the special problems of adolescents, and implications for schools. Descriptors—\*Administrator Guides, Check Lists, \*Day Care, \*Early Childhood Education, Educational Objectives, Foreign Countries, \*Preschool Education, \*Program Evaluation, Questionnaires, Surveys  
Identifiers—Canada

This kit of materials is intended to assist local operators providing early childhood services (ECS) in evaluating their entire program or some aspect of it. Contents which are presented in topical outline form (1) stress the importance of objectives and list characteristics of a useful objective; (2) discuss planning an evaluation by deciding what will be evaluated, compiling available information, collecting needed additional information, deciding data gathering and reviewing issues, and deciding who will be responsible for carrying out recommendations for program improvement; and (3) very briefly describe four data gathering methods. Checklists for reviewing objectives and the evaluation plan are provided. In addition, examples of evaluation forms are included. These consist of: a survey of interests/needs for staff inservice training; questionnaires for identifying issues or problems affecting an ECS program, for evaluating program decision making, and for evaluating the use of health unit services; checklists for evaluating the health component of an ECS program, for evaluating services provided by support personnel, for observing sensory-motor skills, and for evaluating opportunities for parent participation. Inventories of room furnishings and sample activities in sand and water play are also included. (RH)

Identifiers—\*China

This study examined family beliefs and motivation as sources for the superior performance on mathematics tests by Chinese students compared with Caucasian students in the United States. Beliefs about children's performance were examined in mothers and their sixth grade children in the People's Republic of China and in Chinese-American and Caucasian-American groups in the San Francisco Bay area. Interviews covered attributions for children's relatively high and relatively low performance in mathematics, using five options: ability, effort, training at home, training at school, and luck. Mothers were asked how they would respond to specific instances of unusually high or low performance in math. ANOVAS were run on cultural/national

status, generation (i.e., mothers and children), and gender of child. Results indicated that mothers in the People's Republic of China attributed relative success to the school and low performance to lack of effort, in contrast to Caucasian mothers who blamed lack of ability and the school for low achievement. Responses of Chinese-American mothers were usually closer to those of mothers from the People's Republic of China than to Caucasian parents. (Author/DST)

Identifiers—\*Adoption Assistance and Child Welfare Act 1980, \*Case Review Systems

Under the Adoption Assistance and Child Welfare Act of 1980 (P.L. 96-272), Congress outlined a case review system to assure that child welfare agencies monitor children under their care, that parental and child rights are protected, that agencies periodically report progress in implementing case plans, and that agencies work toward a permanent plan for every child in placement. The first of four volumes, this report presents the preliminary findings of the Phase II Comparative Study of Case Review Systems which focused on the dispositional hearing requirement. The study consisted of a national overview of the hearings in fifty states and Washington, D.C. and an in-depth study of the hearings in eight selected sites. The primary sources of information for the national study were telephone interviews with the state foster care administrator and one judge from each state. The data collection instruments for both parts of the study were designed to elicit information about the type of judicial review operating within the state and to specifically explore the state's status with regard to the P. L. 96-272 dispositional hearing components. Chapter topics include current status of the states; state status, change, and support for individual components of P. L. 96-272; periodic reviews and other procedures; due process and decision-making authority of dispositional hearings; impact and problems in implementing and recommendations of agency and court respondents; and preliminary conclusions and issues to be addressed. Extensive tables and appendices are provided, including the agency and court questionnaires used in the study. (DST)

Identifiers—\*Adoption Assistance and Child Welfare Act 1980, Arizona, California (San Francisco

County), District of Columbia, Louisiana, Montana, North Dakota, South Carolina, Vignettes, Virginia

Under the Adoption Assistance and Child Welfare Act of 1980 (P. L. 96-272), Congress outlined a case review system intended to assure that child welfare agencies deal directly with various aspects of child placement. The second of four volumes, this document presents case study descriptions of the hearings within the context of the case review system in each of the eight states visited. The studies illustrate the variety of state responses to the dispositional hearing components of P. L. 96-272. In particular, they demonstrate the interaction between hearing implementation and the review system operating within a state prior to P. L. 96-272. The sites visited were all in the process of making significant changes in their review systems and were initially selected to illustrate the differing types of case review systems. However, as the descriptions indicate, each state had different problems to address and thus developed unique approaches to implementing case reviews and dispositional hearings. The eight states specifically covered were Virginia, California (San Francisco County), Montana, North Dakota, Arizona, South Carolina, Louisiana, and Washington, D.C. Finally, a series of vignettes drawn from actual cases serves to illustrate and define specific problems and issues arising from conclusions to be derived from each case and/or questions remaining to be resolved are summarized at the end of each vignette. **Identifiers—\*Adoption Assistance and Child Welfare Act 1980**

This report is the third of four volumes presenting results of the Comparative Study of Case Review Systems Phase II—Dispositional Hearings, focusing on implementation of the dispositional hearing requirement of P. L. 96-272, the Adoption Assistance and Child Welfare Act of 1980. This volume of the study presents the results of a state statutory survey of the laws in all fifty states and the District of Columbia which most closely resemble the P. L. 96-272 dispositional hearing requirement. In addition, it analyzes a number of legal issues that have arisen during the implementation of this provision. The aim of the study was to provide information useful to state agencies and courts on how the hearings are functioning. On a limited basis, primarily through analysis of hearing decisions, the issue of case outcomes also is addressed. Following an introduction which describes the study background and methodology, chapters cover (1) legal issues related to dispositional hearings and (2) state statutory survey results. An extensive appendix summarizes each of the fifty states' and the District of Columbia's state statutory provisions closest to P. L. 96-272 dispositional requirements. Each summary includes the following topical areas: procedure, coverage, procedural safeguards, scheduling, authority of court, and decision required. (DST)

**Identifiers—\*Adoption Assistance and Child Welfare Act 1980**

This report is the fourth and final volume presenting results of the Phase II Comparative Study of Case Review Systems, focusing on the implementation of the dispositional hearing component of the Adoption Assistance and Child Welfare Act of 1980 (P. L. 96-272). This volume presents results from questionnaires administered to 250 agency and court personnel in the states and from abstract analysis of 450 case records of children having dispositional hearings. Where possible in reporting survey results, comparisons are made to national study results. Because it is the final volume, the conclusion summarizes major findings from previous volumes and addresses issues raised in all phases of the study. Appendix C contains the executive summary of the National Survey Report published in Volume I. Chapter topics include the following: orientation toward the hearings; the survey results; perceptions of hearing functioning; the survey results; perceptions of impact, problems in implementation, and recommendations; the survey results; characteristics of children: the case record abstracts; decision making at hearings; and conclusions and issues to be addressed. Extensive appendices, exhibits, and tables provide additional data, including the survey questionnaires and case record abstracts. (DST)

**Descriptors—\*Adopted Children, \*Adoption, Organizations (Groups), Resources, Social Problems, \*State Legislation, Statistical Data**  
**Identifiers—\*Rules and Regulations**

This document is designed to fill major information voids in the field of adoption and to provide prospective adoptive parents with reliable data on which to base decisions. The factbook contains four major types of new information: (1) a frank discussion of the issues concerning adoption—including costs; tax regulations; transracial adoption; foreign adoption; foster care; pro's and con's of public, private, and individual adoption; characteristics of adoptive children, biological parents, and adoptive parents; and business firms and adoption benefits; (2) adoption regulations—including state regulations; Immigration and Naturalization Service Regulations for foreign adoptions; regulations on access to state adoption records; legislation on adoption registries; and regulations on surrogate motherhood; (3) adoption statistics—including previously unpublished data from the National Committee for Adoption's national survey of adoption; previously unpublished Immigration and Naturalization Service data on foreign adoptions; a new synthesis of trend statistics on adoption; and recommendations for a sensible federal/state adoption data collection program; and (4) adoption resources—including lists of about 600 adoption specialists, support groups, organizations, and programs designed to help lay persons and professionals at the local, state, and national level obtain access to the experts. A short list of publications available from the National Committee for Adoption concludes the document. (RH)

**Identifiers—Children's Preferences, \*Gender Identity, \*Sex Segregation**

Sex segregation is a powerful phenomenon in childhood. It occurs universally whenever children have a choice of playmates and is found in sub-human primates too. Adults are not directly responsible for sex segregation. Data do not support the hypothesis that the most ladylike girls and the most rough and active boys first form the segregated play groups that emerge in nursery school. Modest evidence indicates that participation in all-girl play groups serves a positive socializing function for girls. For boys, no such evidence was found. Recent findings contribute to the growing body of evidence that the cultures developed by boys and girls in their segregated groups are distinctive and serve different functions. Altogether, these findings and results of primate studies suggest that females are first to initiate segregation to avoid being dominated by males. These conjectures, however, do not explain why boys avoid playing with girls. It is concluded that gender segregation appears to be relatively intractable; it may be unwise for adults to try to prevent boys and girls from choosing same-sex playmates in unstructured play situations. Adults can play a very large role, though, in setting up structured situations in which cross-sex interactions can occur without placing on children the burden of letting their peers see that they have chosen a cross-sex partner. **Descriptors—Black Family, \*Black Youth, \*Day Care, Delivery Systems, Early Childhood Education, \*Educational Planning, Educational Policy, Needs Assessment, Policy Formation, \*Preschool Children, Public Education, \*Public Schools, Racial Bias, Social Change, \*Social Problems**

This report examines the consequences, particularly for Black children, of the trend toward lodging preschool care in urban public schools. The report also calls for discussion and debate about whether the public school system can develop the skills and techniques necessary to nurture Black preschool children. In recent years Black parents have had difficulty finding quality child care for several reasons, including the following: the loss of the traditional family support system; the declining income of Black families; decreased federal support for child care; church-based child care facility closings; and skyrocketing liability insurance costs in child care centers. Although housing child care in the public schools may seem an attractive alternative, any national policy discussion of child care must be based on the premise of a responsible, quality-oriented and culturally sensitive system and public school-based child care must be analyzed to answer the questions raised. Finally, components that must be included in public school based programs for young children are delineated and action steps are recommended both for workers in the child advocacy field and for targeted segments of the black community. **The Impact of Parental Views of the Nature of Humankind upon Child-Rearing Attitudes.**

Pub Date—Mar 85

Note—17p; Paper presented at the Annual Parenting Symposium (1st, Chicago, IL, March 21-24, 1985).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Authoritarianism, \*Child Rearing, \*Moral Values, \*Parent Attitudes, Participant Characteristics, Preschool Education

Identifiers—\*Permissiveness, \*Philosophy of Human Nature Instrument (Wrightman)

A total of 330 parents of preschool children were given Wrightman's Philosophy of Nature Instrument, a measure developed to assess the expectancies people have about others' behavior. The instrument consists of 14 items for each of six sub-scales assessing trustworthiness, altruism, independence, strength of will, complexity, and variability. Because the combination of the first four subscales has been shown to represent an individual's overall view of the positiveness or negativity of human nature, the last two subscales were not used. On the basis of their scores, parents were categorized as viewing others as moral, immoral, or amoral. They were then given the Parent Attitude Research Instrument, a measure assessing parental child-rearing attitudes. Demographic data were also obtained. Findings suggested that (1) parents who view humankind as moral tend to be relatively permissive in child-rearing attitudes; (2) parents who view humankind as immoral tend to be relatively authoritarian in their child-rearing attitudes; and (3) parents who view humankind as amoral tend to be relatively moderate in their child-rearing attitudes. Hamlin, Barbara R.

Make More Time for Laughter in a Preschool Setting.

Pub Date—Sep 85

Note—100p; Practicum Report, Nova University. Best available copy.

Pub Type—Dissertations/Theses—Practicum Papers (043)—Reports—Research (143)

EDRS Price—MF01/PC04 Plus Postage.

Descriptors—Childhood Needs, Comedy, Creativity, \*Curriculum Development, Educational Environment, \*Humor, Lesson Plans, Personality Traits, \*Preschool Children, Preschool Education, \*Program Development, \*Stress Management

Identifiers—\*Laughter

Based on the idea that laughter and humor are basic components of a healthy childhood, this practicum paper emphasizes the concern that preschool programs have become too academic and are creating stress for children. Similarly, adults in preschool settings, pressured by parents and public school academic expectations, have become too serious in their work with children. The goals of the practicum were to create, plan, implement, and evaluate a program that would unite parents, children, and staff in a serious effort to find ways to initiate humor and laughter into the preschool educational experience. Components of the practicum included developing a preschool environment that was more conducive to laughter, giving children more flexibility in a less teacher-controlled classroom, helping teachers to be sensitive to humor, encouraging parents to find ways to extend childhood through play and laughter, developing a file of humorous incidents, and developing a list of appropriate children's books that stimulate laughter. Results indicate that (1) the implementation of the program brought a lively environment into the preschool setting; (2) staff members and parents were helped to understand children's humor; (3) young and old were encouraged to use laughter with preschool children; and (4) staff and parents became aware of the age differences in children's humor responses. Following conclusions and recommendations given at the close of the paper, extensive appendices provide sample evaluation instruments, outlines for parent/staff seminars, and a children's book list. The Implementation of Strategies to Improve the Creative Behaviors of Prospective Preschool Teachers.

Pub Date—85

Note—82p; Practicum Report, Nova University. Pub Type—Dissertations/Theses—Practicum Papers (043)—Reports—Evaluative (142)

EDRS Price—MF01/PC04 Plus Postage.

Descriptors—Cognitive Style, \*Creative Thinking,

Critical Thinking, Divergent Thinking, Early Childhood Education, Higher Education, Methods Courses, \*Problem Solving, \*Program Improvement, \*Teacher Education Curriculum, \*Teaching Methods

Identifiers—Torrance Tests of Creative Thinking

This paper addresses the issue of incorporating creative thinking and problem solving techniques into an established teacher education methods course for prospective preschool teachers. The project's goals were (1) to increase students' knowledge and understanding of the value of creative thinking skills; (2) to provide group exercises using the four basic elements of divergent thinking; and (3) to evaluate students' application of creativity principles in their written assignments. The verbal and figural sections of the Torrance Tests of Creative Thinking and an evaluative survey questionnaire developed by the author were used to assess students' creative behaviors. Using a course alteration method, ideational strategies were integrated into all aspects of the child development methods course. After completing the implementation, the evaluation instruments were analyzed: results from the creativity exercises indicated that 85% of the students showed gains in one or more of the divergency factor areas of the TTCT scales. From the evaluation survey questionnaire, 95% of the students rated the ideational strategies informative and enriching. The results of the creativity practicum and the conclusions and recommendations of this report are discussed. (Author/DST)

Schnobrich, Janice

Implementation of a Program of Prosocial Behavior in an Inner City Kindergarten Classroom.

Pub Date—Jul 85

Note—58p; Practicum Report, Nova University. Pub Type—Dissertations/Theses—Practicum Papers (043)—Reports—Evaluative (142)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—Behavior Problems, \*Black Youth, Discipline, \*Inner City, Interpersonal Competence, \*Kindergarten Children, Modeling (Psychology), \*Primary Education, \*Prosocial Behavior, Social Studies, \*Student Behavior, Units of Study

This paper describes a social studies unit which addresses the problem of cultural dissonance in black, inner city kindergarten children who enter school without adequate classroom social interaction skills. In order to avoid using extensive academic time to orient children toward cooperative behavior and discipline procedures throughout the school year, step-by-step intervention program to promote prosocial behavior is offered. The program consists of modeling by an authority figure, practice of modeled behavior, video taping of the practice, and viewing the video tapes on a weekly basis for a period of ten weeks. Procedures for implementing the curriculum unit, as well as its setting, general goals, objectives, solution strategy, and calendar for implementation, are described in the body of the paper. A final chapter gives results, conclusions, and recommendations. (Author/DST)

The Early Childhood Educator's Knowledge Base: A Reconsideration.

ERIC Clearinghouse on Elementary and Early Childhood Education, Urbana, IL

Spons Agency—Office of Educational Research and Improvement (ED), Washington, DC.

Pub Date—86

Contract—400-83-0021

Note—29p; To be published as a chapter in Current Topics in Early Childhood Education, Volume 7, 1987, Ablex Publishing Corporation, Norwood, NJ; Lillian G. Katz, Editor.

Pub Type—Information Analyses—ERIC Information Analysis Products (071)—Opinion Papers (120)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—\*Child Development, \*Early Childhood Education, \*Educational History, \*Educational Theories, Politics of Education, \*Psychological Studies, Research Needs, Teacher Attitudes, Teacher Education

Identifiers—Critical Analysis, \*Critical Theory, Phenomenological Research, Piagetian Theory, \*Psychological Influences

Questions of how and why early childhood education has come to rely on a psychological perspective are examined and problematic aspects of the dis-

course of early childhood education are explored. An overview of the history of early education discusses the replacement of idealistic by pragmatic perspectives, the influence of Darwin's use of the scientific method on educators' thought, the emergence of the field of child development, the role of normative studies of children, and the current reliance of early childhood educators on psychological rationales for program design. Subsequent discussion of educational interests and psychological theory initially differentiates the two domains and explores the limitations of the psychological perspective for the educator through a brief analysis of Piaget's work that focuses on decontextualized knowledge, reason and value in psychology, and the metaphoric view of stage theories of development. Concluding discussion deals with perennial problems, such as the nature of appropriate knowledge for the young and the basis for the early childhood educator's professional expertise; future directions are advocated for early educators that would involve a qualitative shift in how and where knowledge is sought and in how they think about themselves, their work, and the children they teach. The Effects of Intraprogram Synopses on Children's Comprehension of Television Programming and Commercials.

Pub Date—84

Note—19p; Paper presented at the Annual Convention of the Western Psychological Association (San Jose, CA, 1984).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Age Differences, \*Comprehension, Elementary Education, \*Elementary School Students, Grade 2, Grade 5, Programming (Broadcast), \*Sex Differences, \*Television Commercials, Television Research, \*Television Viewing, Time Factors (Learning)

Identifiers—\*Synopses

This study investigated the effects of intraprogram synopses on children's comprehension of essential and peripheral content of an action-adventure television drama. The impact of these synopses on the comprehension of commercials also was investigated. A total of 30 second graders and 30 fifth graders participated. Synopses were presented to experimental subjects either before or after commercial breaks; no synopses were presented to control subjects. Immediately after viewing the program, all subjects were given a 44-item multiple-choice test assessing comprehension of the program and commercials. The second-grade boys in the post-commercial condition showed significantly greater comprehension of essential content than did second-grade boys or girls in the pre-commercial or control conditions. The comprehension level of the post-commercial second-grade boys was comparable to that of the fifth graders. There was no corresponding effect for second-grade girls in the post-commercial condition. Further, the synopses did not interfere with the comprehension of commercials for any group. Similarities and differences with past research are discussed. (Author/RH)

Kane, Diane Arnold, Mary

The Effect of Response Widening and Response Narrowing on IQ and Problem Solving.

Pub Date—Mar 86

Note—13p; Filmed from best available copy. Paper presented at the Annual Meeting of the Southern Association on Children Under Six (37th, Orlando, FL, March 5-8, 1986).

Pub Type—Reports—Research (143)—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Cognitive Ability, \*Convergent Thinking, \*Divergent Thinking, \*Intelligence Quotient, \*Preschool Children, Preschool Education, \*Problem Solving

The purpose of this research was to determine what effects, if any, widening or narrowing the response repertoire has on measures of IQ and problem solving of preschool children. It was predicted that response widening, or creative/divergent thinking, would have a positive effect on IQ and problem solving. Forty-one preschool children 3 to 6 years of age were divided into three matched groups. One group was exposed to response widen-

ing tasks, while a second group was exposed to response narrowing tasks. A third group served as control. Special training with response narrowing and response widening tasks was provided for a 3-hour period twice each week for 6 weeks. The Wechsler Preschool Primary Scale of Intelligence, the Torrance Thinking Creatively with Action and Movement, the convergent and divergent subtests of the SOI Learning Abilities Test, and the Kaufman Assessment Battery for Children were administered during pre- and post-tests. Results indicated that response widening had a positive effect on IQ, with training being most effective for younger children with average IQ scores on the pre-test. Contrary to the hypothesis, problem solving increased for all groups. (Author/RH)

**Migrant Services in South Carolina.**  
South Carolina Migrant Farmworkers Commission,  
Columbia.

Pub Date—85

Note—58p.

Pub Type—Reference Materials - Directories/Catalogs (132)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Community Resources, \*Employment Services, \*Federal Programs, \*Human Services, Legal Aid, Migrant Education, Migrant Health Services, Migrant Housing, Migrant Programs, \*Migrant Workers, \*Public Agencies, \*State Programs

Identifiers—Shelters, \*South Carolina

Specifically organized for the use of South Carolina public and private agencies providing information and referral services to migrant farmworkers, the directory is the most current listing of federal, state, and local resources available. Federal programs of the Farmers Home Administration, applicable sections of the Social Security Act, and responsibilities of the Wage and Hour Division of the Department of Labor are summarized. Migrant services of the South Carolina Department of Agriculture, Department of Education, Department of Health and Environmental Control, State Employment Service, Migrant Farmworker Commission, Department of Labor, Department of Mental Health, Department of Social Services, State Board for Technical and Comprehensive Education, Office of the Governor, Industrial Commission, Vocational Rehabilitation Department, and Farm Bureau are identified. Other agency services described include those of the Migrant and Seasonal Farmworkers Association, Clemson University Cooperative Extension Service, Neighborhood Legal Assistant Program, East Coast Migrant Head Start Program, Rural Health Initiative Clinics, East Coast Migrant Health Project, and religious organizations. A chart outlines human services rendered, project impact area, persons served, funding amounts and sources, and project dates for 24 of the education/employment, health, religious, and legal organizations described. Louisiana State Dept. of Education, Baton Rouge.  
Bureau of Migrant Education.

Pub Date—85

Note—64p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Databases, \*Data Collection, Elementary Secondary Education, Information Processing, Information Systems, Medical Case Histories, \*Medical Evaluation, \*Migrant Children, \*Migrant Health Services, Nurses, \*Record-keeping, Records (Forms), School Nurses, \*Student Records

Identifiers—Louisiana, \*Migrant Student Record Transfer System

Written for migrant nurses, this manual is intended to simplify and speed up the process of entering pertinent medical information onto the Migrant Student Record Transfer System (MSRTS) data base. It is designed to be used in conjunction with the indepth technical information in the National MSRTS Health Users Manual and includes page references to that document. The first section explains in detail the Health Data Entry Form and gives specific directions for completing each section: identifying data, patient history, family history, immunizations, screenings and laboratory tests, and health problems. Sample problem situations and solutions are included. Subsequent chapters provide basic information about the medical record (the output document prepared from the Health Data Entry Form), filing system requirements for migrant student health records, how to handle records when students move, how to make corrections and deletions to the records, and how to handle sensitive data (child abuse, neglect, etc.). The reference and resource section provides: a directory of migrant nurses by parish, codes and abbreviations used in the health records, a glossary of eight terms and acronyms used in MSRTS health records, and ordering information for two medical references. Descriptors—Databases, \*Data Collection, \*Educational Background, Elementary Secondary Education, Enrollment, Information Processing, Information Systems, \*Migrant Children, Migrant Education, \*Participant Characteristics, \*Recordkeeping, Records (Forms), \*Student Records

Identifiers—Louisiana, \*Migrant Student Record Transfer System

Written for Migrant Student Records Transfer System (MSRTS) specialists, this manual provides information to help them generate, translate, interpret, use, and update a migrant child's educational record. The manual serves as a reference to be used in conjunction with the National MSRTS User's Manual and as initial orientation and subsequent guide for new MSRTS specialists. Introductory information includes an overview of the system with subsequent chapters giving concise and specific instructions for recordkeeping with examples provided for handling typical cases. Individual chapters cover the authorization form, parental concurrence form, management information system form, enrollment form, non-migrant moves, school enrollment and withdrawal, change in migrant status, recertification, and termination of migrant status. A 13-page section covers the Migrant Student Educational Record with steps for completing each of 24 information areas on the form. Additional chapters cover summer school programs, the specialist's role in annual migrant program evaluations, and procedures

to follow when keeping records for more than one parish. The references and resources section includes names, mailing addresses, and phone numbers for MSRTS staff at state, regional, and parish offices. Also included are abbreviations and codes needed for recordkeeping and a copy of the annual evaluation questionnaire for Louisiana's Migrant Education Programs. (JHZ)

**Sturtevant, Richard A. And Others**  
**The Support System of the Hispanic Elderly and the Use of Formal Social Services.**

Pub Date—Nov 83

Note—25p.; Paper presented at the Annual Scientific Meeting of the Gerontology Society of America (36th, San Francisco, CA, November 1983). Appended material contains small print.

Pub Type—Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Community Services, Health Needs, \*Hispanic Americans, Middle Aged Adults, \*Older Adults, Path Analysis, Social Networks, \*Social Services, \*Social Support Groups, Socioeconomic Influences, \*Use Studies  
Identifiers—\*Causal Models, \*Predictive Models, Resource Utilization

The study examined the role played by informal (i.e., family, kin, neighbors, friends) and quasiformal (i.e., church-sponsored) support systems in predicting, enhancing, or inhibiting use of social services by Hispanic elderly. Thirty-seven variables and data selected from a 1979-1980 15-state survey of 1,805 noninstitutionalized Hispanic individuals aged 55 and over were categorized by the Andersen-Newman model of service use, which conceptualizes the individuals demand for services as a function of relationships among three factors: (1) predisposing (related to demographic, social, and belief characteristics); (2) enabling (related to availability and accessibility of community and family resources); and (3) need (related to perceived need and motivation). The path analysis method was used to ascertain relative importance and interrelationships of the variables. Knowledge of social services, perceived need for care, family income, self-rated health status, and ethnicity were found to be the most important determinants of social service use. Informal and quasiformal support systems affected use of services by contributing to the development of awareness of service availability and information about use, but took on differential levels of importance for various subgroups of the older Hispanic population. Problems for future research include examination of the types and sources as well as the frequency of support. References, path model diagrams and a zero order correlation matrix are appended. (LFL)

Identifiers—New York, Project ESCAPE

Intended for educators who work with migrant children, this handbook and resource directory will also be useful for other groups concerned with child abuse and neglect. The handbook aims to promote understanding of reasons migrant children are maltreated by parents and caretakers, to increase sensitivity to factors contributing to child abuse, to help distinguish maltreated children, to provide re-

sponses to abuse and neglect requiring collaboration between schools and other agencies, and to suggest ways to integrate school efforts with multidisciplinary community-based strategies directed at migrant families and children at risk. Attention is given to special circumstances of migrant families which leave them outside existing child protection systems and to the failure of the education system to become involved in detection and reporting of child abuse and neglect. The resource directory provides addresses and descriptions of 177 state, national, and community agencies and organizations arranged by topic area with 36 sources of audiovisuals, news services, computer bibliographic searches, and directories in the area of child welfare. An alphabetical index by organization name is included. Appendices provide examples of school abuse and neglect policies, New York state legal procedures and forms for reporting maltreatment, and a chart of indicators of maltreatment. (LFL)

Descriptors—College Role, Community Benefits, Community Size, Economic Factors, Entrepreneurship, Financial Support, Geographic Location, Higher Education, Program Descriptions, \*Program Development, \*Rural Development, \*Rural Economics, \*School Community Relationship, \*Small Businesses

Identifiers—\*Business Incubators, \*Facilitators, Illinois, Missouri, Ohio, Pennsylvania

One viable economic development option for rural areas is the creation of business incubators—facilities that aid in the early stages of growth of an enterprise by providing rental space, services, and business assistance. Business incubators promote community development by diversifying the economic base, enhancing the community's image as a center for innovation and entrepreneurship, and creating jobs. Most business incubators are located in urban areas, but in the past two years several rural incubators have been initiated including projects in aging industrial areas and rural isolated non-industrial areas of Western Illinois, Northwest Pennsylvania, Ohio, and Missouri. In planning and operating these rural incubators, development officials have had to consider the number of potential clients in the area, marketing strategies for the incubator, and the level of economic and community support available for incubator development. These considerations varied in relative importance depending on the type of rural area the incubator was located in, its degree of affiliation with a university, and the type of incubator facility, e.g., manufacturing, retail, or high technology. Strategies to overcome the problems associated with rural business incubators included aggressive marketing plans, commercialization of university research, and diversification of funding sources. Pub Type—Collected Works - Proceedings (021) —

Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Awards, Dance, Elementary Secondary Education, \*Environmental Education, \*Experiential Learning, First Aid, Foreign Countries, Handicrafts, History, Language Arts, \*Learning Activities, Music Activities, Natural Resources, \*Organizational Objectives, \*Outdoor Activities, \*Outdoor Education, Photography, Slides, Story Telling, Teaching Methods, Wildlife

Identifiers—Canada, \*Council of Outdoor Educators of Ontario

Summaries of 18 conference presentations on diverse topics related to outdoor education are collected in this combination journal and newsletter, which also covers conference events and organizational business. Presentation summaries—generally one or two pages in length—provide highlights of the presentations as well as some guidelines for specific outdoor activities. Topics include creation of a slide/sound presentation, wetland and pond life

study, teaching methods for outdoor educators, the Mobile Nature Centre of the Royal Botanical Gardens, safety practices for wilderness programs, prehistoric pottery making techniques, lobbying for the preservation of natural areas, story telling, popular music and environmental ethics, Iroquois culture, beekeeping, and folkdance. Other presentations describe an integrated unit for grades 7 and 8 based on Canadian fur trade and the use of schoolyard and neighborhood walks to develop language arts activities for intermediate grade students. A 6-page section is devoted to organizational goals and a 5-year plan for the Council of Outdoor Educators of Ontario. The planning process is described, followed by 22 general objectives related to administration and organizational purpose. Financial development, public relations, increased participation, and improved services for members are identified as high priorities. (JHZ)

Identifiers—\*Illinois

Conclusions reached by the Illinois State Board of Education Study, released in May 1985, that small schools are inferior and inefficient, that Illinois has too many schools, and that over half its schools should be closed seem to be an educational step backward. Without linking the two concepts, the study implies that school consolidation will result in streamlined state aid formulation and this improved distribution of money will assure educational quality. Research data do not prove that small schools are inferior and cannot link student performance to school enrollment. Because both large and small schools have strengths and weaknesses, with neither having clear advantages, the issue of school reorganization should not be an arbitrary bureaucratic decision but should begin on the local level where choice of school size can depend on what parents value in life. The School District Report Card, required by the 1985 Educational Reform Package, will establish a uniform database that can be used for school district evaluation and formulation of statewide standards to assess performance of both large and small schools. As long as the district, regardless of size, is meeting the set criteria, it should be unlawful to reorganize that district either by direct mandate or through imposed state funding restrictions. Identifiers—\*Kansas

This booklet is intended to inform (not advise) older Kansans about eligibility requirements and benefits provided by state and federal programs. Financial assistance programs discussed are Social Security, railroad retirements, veterans' benefits, unrestricted general assistance, Employee Retirement Income Security Act, food stamps, Low Income Energy Assistance, and weatherization. Health care programs outlined include Medicare, Medicaid, veterans' benefits, private insurance, Hill-Burton funds, and senior dental care. Housing information is provided about renting, public and private subsidized housing, homesharing, Continuing Care Retirement Community, extended family, nursing homes, alternatives to nursing home placement, and multi-purpose senior centers. Tax relief programs described are food sales tax refunds,

homestead tax refunds, intangibles tax exemption, and federal tax benefits, credits, and refunds. Consumer topics addressed are deceptive and unconscionable practices, contracts, mail solicitation, warranty laws, funeral plans, utility users' rights, and consumer protection agencies. Rights are summarized regarding age discrimination, grandparents' rights, small claims, living wills, protective services, power of attorney, guardianship, and conservatorship. Estate planning information covers probate, wills, estate and inheritance taxes, trusts, payable on death accounts, and real estate transfers. Guidelines for seeking legal assistance are given. Relevant maps, agency addresses and telephone numbers, and checklists for evaluating a nursing home are appended. (NEC)

Identifiers—\*Effective Schools Research, ERIC Digests

Small schools (with enrollments of 300 or less) are being rediscovered as models for effective schools. Currently 26.9% of America's school systems enroll

over 500,000 students in more than 26,000 small schools staffed by 50,000 teachers. Small schools have pioneered many educational "innovations": non-graded classrooms, individualized instruction, cross-age groupings, peer tutoring, and emphasis on the basics. Current efforts to reduce student/teacher ratios, use the community as a resource, and "mainstream" mildly handicapped pupils also have their roots in the small schools of the past. Small schools offer benefits in areas of personal relationships, student morale, teacher-student interaction, administration, and curriculum and instruction. Although research on optimum school size is mixed, research suggests that class size is related to pupil achievement, smaller classes are more conducive to improved pupil performance, smaller classes provide more opportunities to meet individual needs, pupils in small classes have more interest in learning, and teacher morale is higher in smaller classes. Strengths inherent in small schools that support characteristics/practices associated with findings from "effective schools' research" include orderly, serious, safe, attractive school climate, clear school mission; strong administrative leaders who emphasize instruction; high expectations for student achievement; presence of student, staff, and school evaluation systems; supportive home/school relations. Identifiers—Minnesota (Russell Tyler), \*Pairing (School Districts), Russell Independent School District 418 MN, Tyler Independent School District 409 MN

During the summer of 1983, a team from Mankato State University, Minnesota, surveyed 65 community residents, 85 school staff and board members, and 337 grade 6-12 students to measure attitudes toward the effectiveness of the pairing of the Russell and Tyler (Minnesota) school districts which occurred at the beginning of the 1981-82 school year. Based on survey data, which is presented in narrative and tabular form, the survey team made the following summarizing statements: (1) the majority of all three groups saw the pairing as favorable; (2) students from the Russell school district probably benefitted more from an improved curriculum than did those from the Tyler district; (3) both middle and high school youth had been able to adapt to the changes and did not feel any lack of opportunity to become involved in either curricular or extra-curricular activities; (4) students generally felt more positive toward school than before the pairing; (5) budget cuts made after the first year of the pairing weakened library services and senior class offerings; (6) on the basis of the attitudes of all three groups, the pairing should be continued. Appended are nominal group process question results; focused interview questions; and comments by patrons, staff, and school boards. (NEC)

Identifiers—Arizona, \*Navajo (Nation), New Mexico

This textbook for high school, college, or adult readers covers the history and culture of the Navajo People from their own perspective from the coming of American control in 1846 until 1978. Topics include the last Navajo war, the Long Walk, the impact of Navajo agents on policy, early traders and flourishing of crafts, settlement of reservation boundaries, modern political changes, the New Deal, education and health concerns in the 1920's and 1930's, World War II, and current reservation issues. Footnotes follow each chapter; a bibliography of 117 books, articles, and government publications and a subject index are included. Maps, charts, and 50 illustrations, mostly black and white photographs, enrich the text. Eight United States-Navajo treaties comprise the appendices. (LFL)

Identifiers—Anasazi (Anthropological Label), Arizona, Mexico, \*Navajo (Nation), New Mexico

This textbook for high school, college, or adult readers covers major areas of Navajo history from prehistoric times to 1846 from the Navajo point of view. A brief description of pre-Navajo cultures including the Hohokam, Mogollon, and Anasazi precedes the more detailed history of the arrival of the Navajo and contact with the Pueblo peoples. History of contact with the Spanish, the missionary period, and Mexican rule is detailed and descriptions of economic, social, and cultural, aspects of the Navajo are included. The text concludes with the takeover of the Province of New Mexico by American troops in 1846. Footnotes and 31 black and white drawings, photographs, and maps amplify the text. An 86-item bibliography of books and articles and a subject index are appended. (LFL)

*Efforts to Improve the Preparation of Teachers for Rural Schools.*  
Pub Date—86

Note—12p.; Paper presented at the Annual Conference of the Southwest Educational Research Association (Houston, TX, January 30-February 1, 1986).

Pub Type—Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Educational Research, Elementary Secondary Education, Higher Education, Preservice Teacher Education, Research Needs, \*Rural Education, Rural Environment, \*Rural Schools, \*Rural Urban Differences, Student Teaching, \*Teacher Education, \*Teacher Education Curriculum, Teacher Education Programs, Teaching Conditions

Education students planning to teach in rural areas need, but do not receive, specialized training. Among differences encountered by rural teachers are professional isolation and limited inservice training; assignment to more subjects, more grade levels, and more extracurricular activities; lower budgets and salaries; inadequate materials; less pressured environment; greater cooperation; more student involvement; and more interaction among students, parents, and staff. A literature review suggests that teacher training programs are unresponsive to needs of prospective rural teachers and that research interest in rural education is limited. Suggestions for preparation of rural teachers include cultivating awareness of cultural, social, and economic conditions of rural areas through student teaching/practicums in nonmetropolitan areas; preparing future teachers to work with broader age ranges in multigrade classrooms and to teach several subjects; and encouraging faculty to conduct research in rural education. A comparative list of rural-urban differences in the work environment and a chart showing emphasis given by public institutions to topics applicable to rural teaching are included. (LFL)

Descriptors—Access to Education, \*Adult Education, Adult Programs, Delivery Systems, Educational Development, Educational Opportunities, \*Educational Research, \*Participant Characteristics, Postsecondary Education, \*Research Needs, Rural Areas, Rural Development, \*Rural Education, Rural Urban Differences

Although roots of adult education can be traced back more than a century, rural adult education is an emerging discipline in American education which has yet to develop an established research base. Recent research has established that rural adult learners look like, act like, and learn like urban adult learners, but their opportunities for participation in adult education programs are limited because of access, distance and travel, self-confidence, and affordability. Identified as providers of rural adult education are four-year colleges/universities, federal and state government agencies, private organizations, research institutes, regional libraries, state departments of education, two-year community colleges, and vocational-technical colleges. Research shows programming offers undergraduate degrees, job training and professional development, non-credit conferences and workshops, Adult Basic Education courses, rural focused curricula, and community development activities. Efforts to im-

prove research on rural adult education focus on creating a complete picture of rural adult learners and educational providers, developing policy options more responsive to increased costs associated with delivering services to rural areas, examining collaborative models and methods of coordination that best serve rural communities, and studying successful rural adult programs. Research is also needed on the role of adult education as a mechanism to promote rural development. (NEC)

*Investigación Participativa y Gestión de Sistemas Educativos. (Participatory Research and the Management of Educational Systems).*

Pub Date—Nov 85

Note—29p.

Language—Spanish

Pub Type—Opinion Papers (120)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—\*Community Involvement, \*Educational Administration, \*Educational Change, Educational Development, \*Educational Improvement, Parent Participation, Rural Areas, \*Social Change, Urban Areas

Identifiers—\*Latin America, \*Participatory Research

Elements which, when put in harmony, might generate powerful tools for social change and educational development are (1) the ever present need of the educational systems to evaluate their performance; (2) the universal acceptance of the life-long education concept as a major guideline to design educational programs; (3) the trend toward a generalized participation and decentralization in social systems; (4) the humanization and modernization of managerial practice; and (5) the use of participatory research models to solve social problems. This paper presents some reflections on these elements and on their interrelationship. Some contextual considerations are made and concepts are developed about the common areas that can exist among participatory research and management of educational systems. In order to substantiate the potential of this interaction, some experiences in the Latin American countries of Colombia, Chile, and Central America are discussed and perspectives are stated about the harmonization of participatory research and educational management. *Proposiciones Sobre Autonomía Universitaria. (Propositions on University Autonomy).*

Pub Date—Jul 85

Note—26p.

Pub Type—Opinion Papers (120)

EDRS Price—MF01/PC02 Plus Postage.

Descriptors—Academic Freedom, Accreditation (Institutions), Coordination, \*Educational Cooperation, Foreign Countries, \*Government School Relationship, Higher Education, \*Institutional Autonomy, International Cooperation, \*Universities

Identifiers—\*Latin America

University autonomy is a concept widely discussed and often misunderstood. In the Latin American context, university autonomy has been regarded as something inherent to the nature of the universities. As long as universities exist, the phenomenon of university autonomy will be present. University autonomy should be examined in the light of such fundamental concepts as academic freedom, self-government, university-government relationships, and the university's concern for social issues. In studying its nature, several factors should be considered, i.e., juridical, historical, sociological, cultural, political, and philosophical matters. This paper makes some propositions about the concept of university autonomy, in light of important issues that have appeared in the academic realms. The propositions are made around the national planning movement in Latin American countries, the inter-institutional coordination among public sector organizations, the privatization of Latin American higher education, the accreditation of universities, the international cooperation, and the growing unionism among university sectors. *Dropout and Functional Illiteracy Rates in Central Appalachia. Appalachian Data Bank Report #1. Kentucky Univ., Lexington. Appalachian Center. Pub Date—Mar 85*

Note—16p.; Supported by a grant from the Chesale System.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Adult Literacy, Disadvantaged Schools, \*Dropout Rate, Dropout Research, Expenditure per Student, \*Illiteracy, Low Income Counties, \*Poverty, Poverty Areas, \*Regional Characteristics, Rural Areas, School Funds

Identifiers—\*Appalachia (Central), Kentucky, Tennessee, Virginia, West Virginia

Computerized analysis of 1980 Census data documented educational deficiencies in 85 Central Appalachian counties of Kentucky, Tennessee, Virginia, and West Virginia. Dropout rates among youth ages 16-19 were found to be higher in Central Appalachian counties than in non-Central Appalachian counties, the poorest counties had the highest dropout rates, and eastern Kentucky counties had the highest illiteracy rate as indicated by percentage of adults with less than an eighth-grade education. The 85 counties showed similarities that cut across state boundaries and set them apart as a group from other Appalachian and non-Appalachian counties. Among the similarities were high poverty levels, financial hardship for local school districts, and low percentage of school revenue from local sources. Data suggested that high dropout rates and adult illiteracy may not reflect a failure of the schools so much as general social and economic conditions. A map of Central Appalachia is included. Four figures show comparisons of: dropout rates in Central Appalachian counties compared with the rest of the counties in each state; dropout rates by poverty level in Central and non-Central Appalachia; county illiteracy rates by states; and dropout percentages, educational levels, percent below poverty, percent of school revenue received from local sources, annual expenditure per student, and pupil-teacher ratio. *Tort Liability and Risk Management in Adventure Education.*

Pub Date—19 Apr 82

Note—25p.

Pub Type—Reports—Evaluative (142)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Accident Prevention, \*Adventure Education, Camping, \*Court Litigation, \*Legal Responsibility, \*Outdoor Activities, Outdoor Education, Program Content, Program Improvement, Risk, Safety Education, \*Torts

Identifiers—Backpacking, Canoeing, Massachusetts, Negligence, \*Risk Management, Rock Climbing, Rope Courses

On the premise that the benefits of adventure education far outweigh risks in any well managed program, this document provides such programs, which stand on relatively untested ground in the eye of the law in this litigious society, with strategies for reduction of risk by controlling the nature and frequency of accidents. The first section outlines the law of liability related to the doctrine of governmental immunity and the concept of negligence. Section two applies risk management theory to six typical high risk activities (low and high ropes courses, canoeing, rock climbing, backpacking, and winter hiking and camping), illustrating responsibilities of program supervisors; principles of standard of care; and physiological, social-psychological, environmental, safety, and technical factors of concern. The next section cites recent Massachusetts cases illustrating governmental immunity, contributory negligence vs. assumption of risk, standard care required, trespassers, invitees vs. licensees, proximate cause, release forms, independent contractor liability, and hidden defects. The final section summarizes responsible features to incorporate into adventure programs: accident action procedures; general and specific supervision plans; lists of safety regulations; inservice education covering participant capabilities, first aid/emergency procedures, safety awareness, supervisory qualities, and technical skill maintenance; facility and equipment inspection and maintenance; public relations programs; and communication with lawyers and insurance agents about program activities and safety procedures. *Underrepresentation of Minorities Who Transfer to Baccalaureate Institutions.*

Pub Date—Oct 84

Note—12p.; Paper presented at the Association of

Community College trustees, Minority Affairs Assembly Luncheon (San Antonio, TX, October 12, 1984).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Access to Education, \*Articulation (Education), Black Students, Change Strategies, College Role, \*College Transfer Students, \*Community Colleges, Educational Innovation, Educational Trends, Higher Education, Hispanic Americans, Leadership Responsibility, \*Minority Groups, School Holding Power, \*Student Attrition, \*Transfer Policy, Transfer Programs, Two Year Colleges

Community colleges serve more than half of all entering freshmen, half of all the women seeking higher education, and more minorities than all of the 4-year colleges and universities combined. Serving this population, the leaders and policy makers of community colleges must recognize the reasons for the underrepresentation of minorities in college degree programs and be prepared to make changes that will provide equal educational opportunities for minority groups. College completion rate studies show that attrition is a serious problem for minority students. Studies of transfer policy have isolated some specific problems that contribute to the diminishing transfer rate: poor communication of transfer requirements to students, lack of information systems for counselors who advise transfer students, the complex admissions and registration procedures, and lack of financial assistance—the most frequently cited reason for dropping out. Many community colleges have initiated programs to remedy these problems. The successful programs, characterized by partnerships of community colleges with high schools and 4-year colleges, can provide guidelines for community college policy makers, who have a responsibility to rethink basic assumptions about the needs of minority students and develop programs that promote educational equity. Descriptors—\*American Indian Education, Classroom Communication, Classroom Environment, \*Classroom Techniques, Cultural Differences, Cultural Influences, Educational Strategies, Elementary Education, \*Instructional Design, \*Parent Participation, Parent School Relationship, \*Teacher Effectiveness, \*Teacher Student Relationship, Time Management

Identifiers—\*Effective Classroom Management (Elementary), Effective Schools Research

Based on a humanistic approach and on national effective schooling research findings translated into practices that were tested in actual school settings, the monograph provides elementary teachers of Indian students with techniques and information on how to deal effectively with specific situations common to Indian education. In a "how to" format, the monograph identifies situations/issues as a statement or question and then outlines applicable main ideas, specific techniques, and information. Each section concludes with a list of points to remember and a list of references. Part 1 deals with issues concerning how culture affects the Indian family and the Indian child's education. Part 2 focuses on creating environments that encourage productive Indian student behavior, emphasizing that effective classroom discipline is based on understanding the needs and goals of both the teacher and the Indian learner. Part 3 encompasses the wide range of instructional skills used to maintain an Indian student's involvement in instructional activities by first stimulating, then maintaining, student interest. Part 4 addresses daily planning and use of class time. Part 5 recognizes parents as partners with teachers and gives ideas for building cooperation between home and school. (NEC)

Descriptors—Academic Achievement, \*Administrative Principles, \*Administrator Role, \*American Indian Education, Check Lists, Cultural Influences, Curriculum, Evaluation, Discipline Policy, Educational Administration, Educational Improvement, Educational Principles, \*Educational Strategies, Elementary Education, Leadership, Parent Participation, School Community Relationship, \*School Supervision, Student Behavior, Teacher Administrator Relationship, Teacher Motivation, Time Management

Identifiers—Effective Schools Research

Using findings from national effective schooling research, the monograph describes tested administrative practices which are effective in enhancing the achievement of elementary-aged Indian students. The monograph is organized into 17 issues which commonly confront school administrators on or near Indian reservations. For each issue, steps are offered for their systematic resolution, check lists provided, and references cited. Issues addressed are: (1) identifying effective school practices; (2) becoming an effective leader; (3) establishing school improvement processes; (4) identifying processes to refine school goals, policies, and procedures; (5) involving staff in implementing school goals and policies; (6) ensuring that high expectations for student achievement are maintained; (7) ensuring that staff members meet specified performance standards; (8) choosing incentives/rewards to promote excellence in behavior and achievement; (9) choosing incentives/rewards to promote excellence in teaching; (10) ensuring that school time is used for learning; (11) ensuring that students/staff understand and follow acceptable behavior standards; (12) ensuring that disciplinary action is executed uniformly, fairly, and quickly; (13) minimizing suspensions, expulsions, absenteeism, and tardiness; (14) ensuring that curriculum objectives, resources, and strategies meet student needs; (15) involving parents in schooling; (16) ascertaining and using community perceptions of the school; and (17) informing the public of school progress. Descriptors—American Indian Culture, \*American Indian Education, \*Core Curriculum, Course Content, Cultural Awareness, \*Cultural Influences, \*Curriculum Development, Curriculum Evaluation, \*Educational Objectives, Educational Quality, Elementary Education, Guidelines, Inservice Teacher Education, \*Relevance (Education), School Community Relationship, Teaching Methods

Identifiers—\*Culture Based Curriculum, Effective Schools Research

Based on national effective schooling research translated into practices which have been tested in actual school settings, the monograph is designed to assist elementary educators develop and use cultur-

ally appropriate curriculum for American Indian students. The preface identifies contemporary American Indian values and traits; objectives of culturally appropriate curriculum; assumptions of culture learning; and the document's point of reference relative to the terms "curriculum," "culturally appropriate curriculum," and "culturally appropriate curriculum excellence." Part 1, which offers suggestions to help institutionalize culturally appropriate curriculum, is organized around key questions often asked by school staff attempting to locate, organize, and implement culturally appropriate curriculum. Issues are related to resources, content, integration, instructional techniques, community involvement, and staff inservice. Part 2 focuses upon issues and special strategies needed to develop culturally appropriate curriculum including Indian community and school responsibilities, sources of funding, use of goals/objectives, guidelines for selecting culturally appropriate curriculum, accuracy of content, copyright/ownership maintenance, quality assurance, product dissemination, staff inservice curriculum training and product evaluation. Part 3 is a 33-item selective bibliography. (NEC)

Descriptors—Academic Achievement, \*American Indian Education, \*Canada Natives, Change Strategies, Community Control, Community Involvement, Cultural Influences, Curriculum Development, \*Educational Change, Educational Improvement, Elementary Secondary Education, Foreign Countries, Organizational Change, \*Parent School Relationship, Program Evaluation, \*Program Implementation, School Community Relationship, \*School Responsibility, Small Schools, Student Responsibility, Teacher Evaluation

Identifiers—Canada, \*Community Controlled Education, Manitoba (Fairford)

Prepared by independent evaluators at the request of the Interlake Tribal Division for Schools, this report assesses the status of education in Fairford and makes recommendations for comprehensive educational improvements that would enable the community to regain local control of education. The opening sections describe the present situation, noting the poor condition of the physical plant and high rates of student deceleration and dropout. A section on community opinion reports concern over low academic standards and inadequate funding, a strong commitment to education, and an underlying dissatisfaction with the way the school system operates. Goals for education in Fairford are outlined, and recommendations for educational change are considered in sections dealing with: (1) the responsibility of the community through its educational authority for making decisions; (2) parent involvement and responsibilities; (3) student involvement and responsibilities; and (4) effective school organization, staff programs, and practices, including meeting special needs of students, improving student services and counseling, and strengthening school promotion and retention policy. Some topics—increasing student involvement and home-school cooperation, for example—are treated generally by drawing attention to the area of concern and illustrating a variety of alternatives for dealing with the matter. Specific recommendations are made for changes in the structure of the educational system and the creation of an incorporated education authority with an elected board of trustees. The final section, an Action Plan, provides details about responsibility and deadlines for change. (JHZ)

Descriptors—Cooperative Programs, \*Correspondence Study, Dropout Characteristics, Educational Cooperation, Educational Needs, \*Independent Study, \*Migrant Education, Migrant Youth, Nontraditional Education, Secondary Education, \*Secondary School Students, Student Needs, \*Student Problems, \*Supplementary Education

Identifiers—Credit Accrual, Migrant Student Record Transfer System, \*Portable Assisted Study Sequence Program, Wisconsin

The paper traces Wisconsin's adaptation of the California Portable Assistance Study Sequence (PASS), a semi-independent correspondence type study program, for junior high and senior high school migrant students. Educational needs and problems of the approximately 500 migratory secondary school students who attend Wisconsin schools are described. An overview of national, state, and local migrant education funding and programs is provided and the Migrant Student Record Transfer System (MSRTS) and California PASS program are explained. The interstate coordination activities which led to the 1985 implementation of PASS and the Wisconsin-originated Mini PASS are outlined and the programs' features are described. The Wisconsin programs address migrant student needs in several ways, including compatible scheduling of work and school, academic and career counseling, social activities, respect for cultural heritage, and involvement of parents in the instructional program. Among factors necessary for program success are maintaining student motivation, preventing feelings of isolation, supporting parent involvement, coordinating interstate cooperation, and providing appropriate support services. A speech given in Spanish to 1985 migrant high school graduates is appended. (LFL)

Descriptors—Dropout Characteristics, Dropout Research, \*Dropouts, \*Educationally Disadvantaged, Educational Needs, \*Migrant Education, Migrant Problems, \*Migrant Youth, Secondary Education, Secondary School Students, Student Mobility, \*Student Needs, \*Student Problems

Identifiers—\*Wisconsin

Wisconsin junior and senior high schools enroll approximately 500 children of migrant agricultural workers each year, but performance data shows that in 1982-83 twelfth grade service to migrant students was only 17% of the first grade figure. Problems which contribute to the high dropout rate of junior and senior migrant students in Wisconsin include lack of opportunity to participate in extracurricular activities, low attendance, limited English proficiency, lack of parental involvement, lack of home environment conducive to study, feelings of insecurity, responsibilities for sibling care, teenage pregnancies, early marriage, limited vocational guidance and academic counseling, and lack of coordination of class schedules, course content, textbooks, and recordkeeping between Wisconsin and homebase schools. A map of the major migrant streams is appended. (LFL)

#### Identifiers—Culture of Poverty

This manual for educators and administrators explores current educational research on self-concept and self-esteem, relates this research to migrant education, and offers a rationale for and examples of activities, techniques, and philosophies to enhance self-perception. Emphasis is placed on understanding of socioeconomic causes of migrant problems and correct attitudes toward self-perception enhancement. Problems which undermine self-perception in migrant students are detailed, including teachers' "Missionary Mentality," fallacies of offering equal educational opportunity to all, the "culture of poverty" theory, and language differences. Guidelines for educators of migrant students include remembering the social and cultural genesis of student problems and not blaming the victim, helping migrant families agitate for social reform and compensatory help, studying ways to transform schools to adapt to the students' needs as well as helping students adapt to school. Suggestions are offered for curricula which provide information about the migrant way of life, civil rights, and publications/organizations for migrants, and which teach ways for migrants to solve social and economic problems through their own efforts. Examples of student decision-making models and integration of families into school activities are offered. Teaching techniques to enhance self-perception are described and two lesson samples are included. Source materials are listed throughout the text and in the bibliography. (LFL)

Teaching Strategies in Algebra: The Effectiveness of Relating and Sequencing Algebraic Concepts.

Pub Date—[85]

Note—14p.

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Algebra, \*Error Patterns, \*Mathematical Concepts, \*Mathematics Instruction, Secondary Education, \*Secondary School Mathematics, Sequential Learning, \*Teaching Methods

Structuring the algebra course to provide a link between a student's existing knowledge and the new topic being presented is discussed. Developing relationships among topics is suggested through examples describing a mathematical problem and effective teaching approaches. Stress is placed on teachers reflecting on mistakes pupils are likely to make with particular content and recalling relevant previously learned material. (MNS)

General Biology Syllabus.

New York State Education Dept., Albany. Bureau of Curriculum Development.

Report No.—85-7438

Pub Date—86

Note—82p.

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Biology, Classification, \*Course Descriptions, \*Ecology, Evolution, \*Genetics, High Schools, \*Human Body, Physiology, Reproduction (Biology), Science Education, Science Instruction, \*Secondary School Science

Identifiers—New York

This syllabus has been developed as an alternative to Regents biology and is intended for the average student who could benefit from an introductory biology course. It is divided into seven major units dealing with, respectively: (1) similarities among living things; (2) human biology (focusing on nutrition, transport, respiration, excretion, and regulation); (3) variety among living things; (4) reproduction and development; (5) genetics; (6) evolution and classification; and (7) living things and their environment (with attention to ecology,

relationships in the environment, the human population, and human impact on the environment). Each unit includes: a brief introduction; list of objectives; understandings (basic information subject to testing); activities and teacher notes corresponding to the understandings (with suggested laboratory experiences, questions, demonstrations, topics for discussion, career choices, methods of presentation, and references to other portions of the syllabus); and content. General information about the syllabus is provided in an introduction. (JN)

Of Specialists and Generalists.

Pub Date—May 84

Note—20p.; March of the Mind Address presented at the XX Club of Morgantown, WV (May, 1984).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Experimenter Characteristics, \*General Education, \*Innovation, Inventions, \*Liberal Arts, Science Education, \*Science History, \*Scientific Personnel, Social Change, \*Specialists, Specialization, Technological Advancement

The issues involving the role and impact of specialists and generalists in society are critically examined in this paper. Currently held views on specialization are analyzed and challenged. Perspectives on this dilemma are developed in the following areas: (1) limitations of experts (casts doubt on the assumption that ordinary citizens are incompetent by citing historical cases of individuals who altered the dogma of experts); (2) new technical means—innovation and invention (provides examples of inventions that occurred from those outside the recognized establishment especially in the aviation and computer fields); and (3) leadership and governance (reviews accounts of how various institutions and organizations have accommodated change brought about by outside influences). Recommendations include establishment of a liberal education at all levels and a re-examination of the extensive emphasis on vocational and professional education and learning. (ML)

Descriptors—\*Classroom Techniques, \*Curriculum Development, \*Questioning Techniques, \*Science Education, \*Science Instruction, Secondary Education, Task Analysis, \*Testing

Identifiers—\*Science Education Research

This paper examines the academic task model used in the Managing Academic Tasks study as a potentially useful approach to some enduring problems or themes of research in science education: (1) effects of questioning and presentation strategies; (2) testing; (3) the role of laboratory activities; and (4) curriculum implementation and evaluation. The definition of academic tasks focuses attention on each of the following: the products students are required to produce; the resources, including content instruction, that are available to them; accountability or the reward structure in the class; and the cognitive demands of the tasks. Analysis of tasks in the classroom requires attention to interrelationships among tasks as well as to the actions and perceptions of students and teachers. This paper attempts to illustrate how further attention to these multiple dimensions of work systems in classrooms might shed light on some important questions in science education. (Author/JN)

Improving Science Teacher Education Programs

through Inclusion of Research on Classroom Psychosocial Environment.

Pub Date—85

Note—42p.; Paper presented at the Annual Meet-

ing of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Classroom Environment, \*Classroom Research, Educational Research, Higher Education, Preservice Teacher Education, \*Program Improvement, \*Science Education, \*Teacher Education Programs

Identifiers—Science Education Research

This paper argues the merits of including the topic of classroom psychosocial environment in the curriculum of science teacher education programs, on the assumption that having a positive classroom environment is an educationally desirable end in its own right. Discussions focus on the potential of the classroom environment as a way of: (1) sensitizing preservice teachers to subtle but important aspects of classroom life; (2) illustrating the environment's usefulness in curriculum evaluation; and (3) facilitating practical improvements in classrooms. Given the ready availability of instruments, the salience of classroom environment, the impact of classroom environment on student outcomes, and the potential of environmental assessments in guiding educational improvement, it seems crucial that researchers and teachers begin to include classroom environment instruments as part of the batteries of measures used in school evaluations and school effectiveness studies. Identifiers—\*Civilian Conservation Corps, Environmental Management, \*National Park Service

The Civilian Conservation Corps (CCC) has been credited as one of Franklin D. Roosevelt's most successful efforts to conserve both the natural and human resources of the nation. This publication provides a review of the program and its impact on resource conservation, environmental management, and education. Chapters give accounts of: (1) the history of the CCC (tracing its origins, establishment, and termination); (2) the National Park Service role (explaining national and state park programs and co-operative planning elements); (3) National Park Service camps (describing programs and personnel training and education); (4) contributions of the CCC (identifying the major benefits of the program in the areas of resource conservation, park and recreational development, and natural and archaeological history finds); and (5) overall accomplishments, 1933-1942 (highlighting the benefits resulting from the program). Full page illustrations cover representative aspects of the program. Appendices contain legislative, management, and product related documents. (ML)

Identifiers—UNICEF

Suggestions for communication activities in developing new and ongoing water programs are offered in this handbook. It is one in a series of UNICEF publications that aim to inform a variety of audiences on life quality concerns. Specific objectives in this guide focus on providing information and education in the use, transportation, storage, and processing of water. Topic areas which address water quality needs include: (1) the concept of safe water (discussing the meanings given to the categories of clean and unclean water and the importance of understanding theories of disease transmission); (2) audience identification and analysis (identifying the types of water that are of interest to different community groups and suggesting ways of improving water supply and sanitation); and (3) audiences outside the community (emphasizing the need for co-operation and assistance from engineers, technicians, and business people). A color coded, fold-out data checklist for program planning (listing the types of required data and indicating the implications of program design) conclude the document. (ML)

Identifiers—\*Mediterranean Region

The ultimate goal of the Program for the Exploration of the Eastern Mediterranean (POEM) is to reach a comprehensive knowledge of the physical, chemical, and biological oceanography of the Eastern Mediterranean. Such knowledge is an essential basis for environmental management, resource exploration, and marine operations. The overall scientific objectives are to: (1) describe the physical phenomena and quantify their kinematics; (2) define basic dynamical processes; and (3) construct physical models suitable for general ocean scientific studies and applications. This report on POEM consists of two parts. The first part, the report of the Paris meeting, discusses the scientific plan, the field program, data management, and modeling, with descriptions of relevant national programs in nine countries provided in appendices. These countries are Egypt, France, West Germany, Greece, Israel, Italy, Turkey, Cyprus, and the United States. A list of participants is also provided. The second part, the report of the Lucerne workshop, discusses: phenomenology and kinematics; general circulation; meso-scale dynamics; water mass formation; and air-sea interaction and remote sensing. Summaries of round table discussions on biological and chemical implications, data banks for the eastern Mediterranean, and methodologies/techniques are also included. The meeting agenda and a list of participants are provided in the appendices. (Author/JN)

Identifiers—\*Asia, Pacific Region

Science education specialists from Asian and Pacific countries convened to explore issues related to the evaluation of pupil science learning. This document contains a synthesis of the discussions and findings of the meeting. Summaries of the study group's deliberations are provided in four sections. Chapter 1 describes the participating countries' experiences concerning the nature of and problems in pupil evaluation. Common themes and issues are identified and discussed concerning instruction, the educational environment, and student attitudes. An analysis of current objectives and emphases of science education occurs in chapter 2. This chapter contains ideas on the purposes, prerequisites, influences, and constraints connected with pupil evaluation. Chapter 3 offers some possible solutions to the identified problems. Recommendations are itemized for societal, teacher, instrumentation, pupil, time, local, curriculum, facility, and language factors. Specific strategies and methodologies for evaluating pupil activities are presented in chapter 4. Descriptive tables provide examples of evaluation possibilities. The participants' names and addresses are included in an appendix. (ML)

Descriptors—Animals, Elementary Secondary Education, Ethics, \*Federal Legislation, \*Federal Regulation, Financial Support, Higher Education, \*Laboratory Animals, Medical Education, \*Medical Research, Policy Formation, \*Public Policy, Science Education, \*Scientific Research, Simulation

Identifiers—\*Animal Welfare, Humane Education  
With an estimated 17-22 million animals used in laboratories annually in the United States, public interest in animal welfare has sparked an often emotional debate over such uses of animals. Concerns focus on balancing societal needs for continued progress in biomedical and behavioral research, for toxicity testing to safeguard the public, and for education in the life sciences with desires to replace, reduce, and refine the use of laboratory animals. In 1985, the United States Congress enacted three laws that deal with laboratory animals, including amendments to the Animal Welfare Act. This assessment analyzes the scientific, regulatory, economic, legal, and ethical considerations involved in alternative technologies in biomedical and behavioral research, toxicity testing, and education. Included is a detailed examination of federal, state, and institutional regulation of animal use, and a review of recent developments in 10 other countries. The report illustrates a range of options for congressional action in seven areas of public policy regarding animals: using existing alternatives; developing new alternatives; disseminating research and testing information; restricting animal use; counting the numbers and kinds of animals used; establishing a uniform policy for animal use within federal agencies; and amending the Animal Welfare Act. **A Profile of the Woman Engineer, 1984.**  
Society of Women Engineers, New York, N.Y.  
Pub Date—85  
Note—14p.

Available from—Society of Women Engineers, 345 East 47th Street, New York, NY 10017 (\$5.00 members; \$10.00 non-members).  
Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

Document Not Available from EDRS.  
Descriptors—\*Degrees (Academic), \*Employment, Employment Level, Employment Statistics, \*Engineering Education, \*Engineers, \*Females, Higher Education, Profiles, \*Salaries, Science Education

This biennial report is based on responses from 2,112 of the 4,453 non-student members of the Society of Women Engineers (SWE) who were surveyed during the winter of 1983-84. All responses to the survey questionnaire (included in an appendix) were considered in the data analysis. Any woman with an engineering degree, holding state engineering registration as a professional engineer, or currently working in the engineering field was included. The latter group consisted mostly of individuals with a degree in mathematics, physics, chemistry, or other science fields. Conclusions drawn are based, in part, on trends indicated in past surveys. Statistics found pertain to: educational level and degree fields; employment information (current status, type of employer, product or service, job functions, supervisory functions); salary information; and general characteristics (membership grade, age of members, marital status and children, registration and technical societies, geographical location). The typical woman engineer described in this profile is about 27 years old, holds a bachelor's degree in mechanical engineering, lives on the west coast of the United States, works full-time in private industry, and is most likely to be married without children. Since not all women engineers are typical, similarities and differences obtained in the survey are noted and discussed. (JN)

Descriptors—College Mathematics, Educational Research, Higher Education, \*Mathematics Instruction, \*Preservice Teacher Education, \*Remedial Instruction, \*Remedial Mathematics, Secondary School Mathematics

Identifiers—Mathematics Education Research  
This study sought to determine what percentage of students entering teacher education needed remedial instruction in basic high school mathematics and what impact the remedial instruction had on those students. Fifty-four freshmen from Eastern Kentucky University who were planning to major in teacher education were given a 20-item pretest assessing basic high school mathematics concepts, including basic algebra, fractions, addition, geometry, calculation of area, and factorization. Ten students (19%) were able to pass at the minimum competency level of 85%; the remaining 44 students were enrolled in the remedial course. A posttest was administered at the end of instruction. Results of a t-test on gain scores indicated a statistically significant difference. Implications of these findings for preparing mathematics education majors for teaching are briefly discussed. Identifiers—\*Sweden

Experimental schemes of concentrated studies have been in progress for some years at a number of upper secondary schools in Sweden. Concentrated studies involve concentrating the number of periods devoted during an upper secondary school course to the teaching of one subject within a shorter period of time than is laid down by the regular time schedule. For example, a subject which is normally allotted 2 hours per week for 6 weeks can be taught 3 hours per week for 4 weeks. Evaluation efforts have considered the implications of the concept of concentrated studies. This working approach is discussed as a time-tabling reform, viewed in terms of educational administration, and also, from the student's point of view, as a learning situation (particularly with reference to mathematics achievement). Consideration is also given to the feasibility of evaluating such an extensive education program as concentrated studies. This final report does not contain any comprehensive evaluation of concentrated studies. On the other hand, it is observed that the experiments investigated cannot provide a basis on which to assess the value of the ideas underlying the concentration principle. The value of the ideas of concentrated studies, then, is a question which still remains to be answered. (JN)

Identifiers—Science Education Research  
This study was designed to determine: (1) the

level of understanding of selected science concepts typical of freshmen and senior University of Wyoming elementary education students; (2) relationships between the number and kind of science courses taken by elementary education majors and their level of understanding of science concepts; and (3) if there is a significant difference in attitudes toward science of freshmen (N=29) to seniors (N=43). Other objectives were to determine: any correlations between number and types of science courses completed and (a) students' attitudes toward teaching science and (b) their confidence in their ability to teach science; any sex differences in understanding, attitude, and confidence; and any correlation between attainment test scores and attitudes and confidences. Results obtained appear to substantiate the following interpretations. University of Wyoming elementary education students are being inadequately prepared to teach science in terms of attainment of a reasonable level of understanding of scientific concept currently included in elementary school science curricula. It appears that simply having these students take greater doses of traditional college science courses does not favorably impact understanding of science concepts, attitudes toward science, or confidence in personal ability to teach science. Freshmen appear to have a significantly serious negative attitudinal complex regarding science and science teaching. Though there is a discernible trend in the direction of positive attitudes toward science by students as they mature from freshmen to senior level, this trend is completely unrelated to the number of standard general education science courses completed. Descriptors—College Mathematics, Higher Education, \*Mathematics Instruction, \*Measures (Individuals), \*Problem Solving, \*Tests

A project is described that provides explicit instruction on the skills necessary for solving word problems. An informal inventory of such skills is being developed, intended for diagnostic use. It contains six sections, each keyed to the problem-solving skills of understanding the problem, representing the unknown, writing the equation, and solving the equation. In Fall 1985, a draft of the inventory was given to 130 students at South Dakota State University enrolled in two mathematics courses. Results indicated the skills on which students needed work. In addition, a pre/post test on problem solving was designed for use in future experiments. It was administered to 105 students; internal consistency estimates ranged from .63 to .65 for the two forms. Comments are included on the test as a whole and on particular items. Revision will continue. The inventory and tests are appended. (MNS)

Identifiers—North Carolina  
This paper: (1) discusses why science and mathematics education are important; (2) outlines why a comprehensive improvement program is necessary;

and (3) describes how North Carolina is attempting to improve science and mathematics education as related to teacher supply and quality, student enrollment and performance, curriculum and instructional resources, and innovation in public schools. Improvements related to teacher supply and quality include summer institutes, scholarships, establishment of mathematics and science education centers at universities, and other programs and changes. Improvements related to student enrollment and performance include the North Carolina Scholars Program, adding writing to the annual testing program, increased graduation requirements, and other measures. Improvements related to curriculum and instructional resources are currently focusing on the supply of qualified science and mathematics teachers and time for teaching science and mathematics. In addition, local improvement efforts (without any state support) are underway, as are Local Model Partnership programs (a combination of Reynolds foundation and state funds), the Business Committee on Math/Science Education, and the Growth Initiatives for Teachers for Mathematics and Science Pilot Program. This statistical review, the third in a biennial series mandated by Public Law 96-516, provides a comprehensive overview of the participation of women and minorities and the physically handicapped in science and engineering (S/E). To provide perspective, both long term (1976-1984) and short term (1982-1984) trends are presented. The report consists of three chapters. The first chapter examines the representation and utilization of women in S/E, considering employment levels and trends, field, experience, career patterns, and labor market conditions. The second chapter presents similar information for Blacks, Asians, Native Americans, Hispanics, and the physically handicapped in S/E. The third chapter examines the acquisition of scientific and engineering skills of women and minorities and highlights differences with men and the majority in achievement, test performance, academic coursework, and degree production. An appendix includes 55 statistical tables. One finding noted is that the employment of women scientists and engineers increased by 157 percent between 1976 and 1984, compared with about 63 percent for men. No recommendations on programs or policies are offered, since, in conformance with the legislation, the report serves as an information source for policymakers and others interested in this area. Various issues related to the role of scientific research at American museums were addressed during these hearings. The hearings include the testimony and prepared statement of Robert McCormick Adams (Secretary, Smithsonian Institution) and questions and answers for the record. These questions focus on such areas as the extent to which museums have dual responsibilities for research and public education, how non-university institutions handle the financial burdens of housing and maintaining newly acquired collections, and how achievements of natural history museums contribute to the public good. Also included is a panel discussion and prepared statements by the panelists representing the Associated Natural Science Institutions: Thomas Peter Bennett; Thomas D. Nicholson; George M. Davis; John E. McCosker; and John W. Fitzpatrick. Appended materials included a science policy report of the American Museum of Natural History and descriptions of the Associated Natural Science Institutions (The Academy of Natural Sciences of Philadelphia, Field Museum of Natural History, The Natural History Museum of Los Angeles County, American Museum of Natural History, and The California Academy of Sciences). Descriptors—\*Black Students, College School Cooperation, High Schools, Hispanic Americans, \*Honors Curriculum, \*Mathematics Achievement, Minority Groups, \*Program Descriptions, \*Secondary School Mathematics

Evaluated was a three-year pilot project, the Academic Scholars Achievement Program. Its goals were: (1) to revitalize the college-preparatory mathematics program of two California high schools, and (2) to increase the number of minority students completing that program. Establishing collegial relationships between the faculties of the schools and the University of California at Berkeley, mathematics honors programs, active involvement by parents, and close working relationships with a Hispanic community were the four tasks involved. Only one school was evaluated, since the other was closed. The emotional climate at the school prior to the program's beginning is sketched, and the mathematics department and its course offerings are described. Then how each task was implemented is described and evaluated. Finally, the academic records of black students are examined, with analysis

of the program's effect on their performance in mathematics classes and their persistence in taking mathematics. The evaluation is based on individual and group interviews and classroom observations. Problems with the honors programs and the parent component are noted, and the university-community relationships are briefly reported. The record of black students is discussed, and it is concluded that although the program was not successful in helping students who began in the slow track to move to the college-preparatory track, it did encourage schools to pay attention to the academic success rate of their minority students, encouraged students to contrive taking math, and created better communication between minority parents and school personnel. Descriptors—\*Cognitive Development, \*Comprehension, Course Content, Curriculum Guides, \*Developmental Stages, Elementary Education, \*Elementary School Mathematics, Interviews, \*Mathematics Achievement, Mathematics Education, Needs Assessment, Piagetian Theory, Program Evaluation

Identifiers—\*Alberta, Cognitive Demands, \*Mathematics Education Research, Piagetian Theory  
This project was designed to produce a program evaluation and needs assessment of the 1982 Alberta Elementary School Mathematics Program in terms of cognitive level comparisons between student responses and curricular demands. Assessment procedures consisted of 14 individual interviews and 8 paper-and-pencil tests based on children's responses to mathematical cognition tasks in one-on-one interviews. The same criteria embedded in student response assessments were applied to demands made by mathematics curriculum objectives, textbooks materials, classroom activities, and Alberta Education Assessment Test items. The project sampled curricular cognitive demands and student cognitive response levels from the six elementary school grades and across five mathematics topic strands (numeration, operations and properties, measurement, geometry, and graphing). Answers to various research questions varied by topic stand, grade level, and demand component. However, several general findings are noted. About three-quarters of all student responses were at the concrete operational level, with remaining answers at the preoperational level. About three-quarters of all demands were at the concrete operational level, with most of the remaining quarter at the early formal level. In general, cognitive demands made by the curriculum were found to correspond well to distributions of student cognitive responses in most topics and at most grade levels. (Author/JN)

This study of "successful" teachers' microcomputer-based mathematics and science instruction

had three objectives: (1) to describe how teachers who were nominated by their peers as "successful" microcomputer-using teachers use the technology for instruction; (2) to describe how these uses vary as a function of teacher characteristics and district, school, and classroom contexts; and (3) to make recommendations based on these teachers' suggestions for educating teachers in the instructional uses of microcomputers and for developing coursework that serves teachers' pedagogical aims. Sections in the report after the introduction include: theoretical framework, method, patterns of microcomputer-based instruction, teachers' attitudes and knowledge and teaching contexts, staff development for microcomputer-based instruction, characteristics of teacher-friendly coursework, and conclusions and recommendations. A bibliography is included. (MNS)

The six chapters in this report focus on: (1) a basic orientation for a focused research agenda; (2) research on reasoning (considering the development of competence and the search for generality in reasoning skills); (3) research on instruction (examining research on teachers, curricula and curricular materials, and testing); (4) research on settings (discussing research on classroom settings, the political and social context of science and mathematics education, the home as a setting for education, and out-of-classroom settings); (5) research on new learning systems (discussing research on interactive computer software, research on microsystems, and research on developing a systems approach to improving mathematics and science education); and (6) a summary of a research agenda (considering separately, research on reasoning, instruction, settings, and new learning systems). A list of background papers is included in an appendix. The report neither describes nor endorses a program for educational reform. The intent is simply to suggest a strategy for research and development that would provide somewhat better answers to such practical questions of educational change as how to design and teach new courses to ensure student achievement and what makes an effective teacher or a good school. Identifiers—\*Asia

Factual and conceptual information dealing with the biology of human populations is offered in this guide for secondary science teachers. Instructional approaches are reviewed and suggestions are offered for use of the problem method approach, the discussion technique, and the project option. Information is organized into an introduction and five

parts. The introduction described adaption possibilities and highlights basic ecological concepts and principles. The five parts focus on: (1) evolution of human populations (addressing the topics of genetics and evolution); (2) environment of human populations (synthesizing information on energy, atmosphere, water, soils, biota, oceans, nutrition, diseases, and mineral resources); (3) dynamics of human populations (identifying demographic parameters and population patterns); (4) reproduction in human populations (containing materials on human reproduction and sexual behavior); and (5) design for survival (discussing ecosystem management and control of environmental quality, fertility regulation, and humanity's future). Lists of reference readings are included after each of the parts. (ML)

**Identifiers—\*Mathematics Education Research**  
 Influences on sex equity in mathematics achievement are discussed in this summary of research and recommendations. Information on the following topics is presented, with each finding referenced to a source or sources in the bibliography provided at the end of the report: mathematics enrollment, influences on mathematics participation, predicting mathematics achievement, sex differences in attitudes toward mathematics and in mathematics achievement, visual/spatial skills, parents, peers and significant others, teachers, classroom environment, school structure, testing, advanced placement girls, career aspirations and educational goals, and recommendations to parents, teachers, and school personnel. Forty-four references are included in the bibliography. (MNS)

**A Field Test of a Structured Television Curriculum on the Mathematics Achievement of Incarcerated High School Equivalency Learners.**

Pub Date—Nov 85  
 Note—11p; Paper presented at the Annual Meeting of the Mid-South Educational Research Association (14th, Biloxi, MS, November, 1985).

Pub Type—Reports—Research (143) — Speeches/Meeting Papers (150)

**EDRS Price - MF01/PC01 Plus Postage.**  
 Descriptors—\*Adult Education, Audiovisual Aids, \*Dropouts, Educational Research, \*Field Tests, \*High School Equivalency Programs, \*Mathematics Achievement, \*Mathematics Instruction, \*Television

**Identifiers—\*Mathematics Education Research**  
 Problems connected with school dropouts and illiteracy are discussed. The need for decreasing recidivism and prison populations through educational programs is presented, with data on the costs of not doing so. The use of television as a teaching resource is proposed as a possible solution. A field test was conducted to determine the effects of a series of instructional television programs ('Adult Math'), designed to present mathematics concepts measured by the General Educational Development test on learners in a state correctional institution. Data were obtained for 22 persons in the experimental group and 18 persons in the control group. Two forms of the General Educational Performance Index were used as pre-and post-tests, and data were compared using analysis of covariance. The use of television curriculum did not significantly increase the mathematics achievement of the incarcerated learners. Those scoring at the 6.0 and above grade levels on reading and arithmetic skills attained the best results. (MNS)

 Descriptors—Calculus, \*College Mathematics, Higher Education, Mathematics Curriculum, \*Mathematics Instruction

**Identifiers—\*Nonstandard Analysis**  
 Nonstandard Analysis gives an alternative approach to teaching elementary calculus. This paper hopes to communicate to the reader the ideas of this recent development in mathematics and its implications in teaching undergraduate students. The development of the approach is first briefly traced. Then a method of constructing on ordered field extension of the real number system is presented in detail. Recent comments on the approach are presented, and arguments for its use at the undergraduate level are discussed. (MNS)

**Identifiers—\*Ohio**  
 This publication can be used as a guide for improving, expanding, and balancing the existing energy and resource conservation education program; a resource for planning appropriate inservice education activities in energy and resource conservation education for school district personnel; and a source of information for locating high quality curricular materials, background information, and community resources. It consists of seven chapters which focus on, respectively: (1) energy and resource conservation in the curriculum (examining components and outcomes related to lifelong learning skills, concepts and understandings, and ethical behavior); (2) energy and resource conservation in the course of study (with excerpts from school district philosophies, program philosophies, program goals, and with suggestions for constructing a model course of study); (3) choosing energy and resource conservation activities; (4) teaching strategies; (5) planning inservice programs and types of inservice activities; (6) using nonschool resources (including local resources, stage agency resources, state organizations, national organizations, and federal agencies); and (7) summary information. Appendices include biographical sketches of individuals who have made a contribution to environmental/conservation education and lists of curriculum and other types of resources. (JN)

State of the Art Reviews, \*Technology  
 Identifiers—National Science Foundation, \*Science Indicators

This report provides basic information on patterns and trends of research and development (R&D) performance in the United States itself and in relation to other countries, as well as data on public attitudes toward science and technology. Major areas addressed in the report's eight chapters include (1) the international science and technology system; (2) support for U.S. R&D; (3) science and engineering personnel; (4) industrial science and technology (examining scientists and engineers in industry, expenditures for R&D in U.S. industry, patented inventions, and university-industry cooperation in science and technology); (5) academic science and engineering (student enrollment and support, faculty roles, academic R&D, the supporting infrastructure, and other areas); (6) precollege science and mathematics education (considering student achievement, scholastic aptitude, top test scores, undergraduate student quality, courses and enrollment, international comparisons, and teachers of science and mathematics); (7) public attitudes toward science and technology; and (8) advances in science and engineering. This last chapter explores the role of sophisticated instrumentation in advancing scientific knowledge. It contains five case studies dealing with lasers, spectroscopy, superconductivity, monoclonal antibodies, and advanced scientific computing. (Detailed statistical tables are included in an appendix.) (JN)

Presidential Initiative for the Second Term. Report of the Committee on the Next Agenda.

Hudson Inst., Indianapolis, IN.

Pub Date—15 Jan 85

Note—64p.

Available from—Director of Development, Hudson Institute, 620 Union Drive, P.O. Box 648, Indianapolis, IN 46206 (\$8.00).

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Advisory Committees, Economic Climate, Economic Development, \*Federal Government, Federal Programs, \*Foreign Policy, \*Government Role, Long Range Planning, National Security, \*Planning Commissions, Policy Formation, Politics, \*Public Policy, \*Social Change

Identifiers—Presidential Initiatives, \*Reagan Administration, Strategic Defense Initiative

Based on the Committee on the Next Agenda's analysis of four major aspects of public policy, recommended presidential initiatives for President Reagan's second term in office are outlined. Biographic information about Committee members and a summary of initiatives preface the report. Section 1 examines initiatives related to the role of government in a free society. Section II "Domestic and International Economic Policy," presents short- and long-range economic policy objectives for 1981 and 1985. The third section, "U.S. Foreign Policy and National Security," presents constraints to a coherent foreign policy (including friction between the Congress and executive branch and reforms within the executive branch), and maintenance of national security via President Reagan's Strategic Defense Initiative (SDI). Suggestions for cost-effective defense are followed by discussion of regional issues such as U.S. involvement in Central America, U.S. security interests, and achievement of U.S. objectives. Recommended ways of maintaining the diplomatic initiative precede the final section which examines the need for a new social contract. Topics in this section include information on the legal system, government and ethics, poverty and welfare dependency, education and American culture, health care delivery, the work force, and immigration. Pub Type—Collected Works - General (020) — Guides - Classroom - Learner (051) — Guides - Classroom - Teacher (052)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Adult Education, Civil Liberties, Disarmament, Instructional Materials, \*International Organizations, Learning Modules, \*Orientation Materials, Resource Materials, Secondary Education

Identifiers—Namibia, \*United Nations

Intended to provide teachers, students, and the community with general information on the United Nations (UN), this kit contains a compilation of brochures, booklets, fact sheets, resource lists, and press releases on a variety of UN-related topics. The first three booklets, "United Nations Today-1984" (suggestions for speakers), "United Nations Day 24 October," "The United Nations at Forty," and "Report of the Secretary-General on the Work of the Organization" provide an overview based on main points made in annual reports of the organization by Secretary-General Javier Perez de Cuellar. "Come to the UN...It's Your World" provides information for those planning to tour the UN. Four press releases focus on UN headquarters, member states of the United Nations, membership of principal UN organs in 1984, and UN conferences and special observances. Topical issues materials include three booklets, "Human Rights: 50 Questions and An-

swers about Human Rights and United Nations Activities to Promote Them," "Universal Declaration of Human Rights. Final Authorized Text," and "United Nations Image and Reality: Questions and Answers about Management, Finance, and People." A wall chart containing maps and information about the UN and Namibia precedes a fact sheet listing UN information materials on disarmament (including a list of libraries and information centers receiving UN publications), a list of books and pamphlets about the UN, and information on inquiries that are frequently addressed to the UN Public Inquiries Unit. Descriptors—Behavioral Objectives, Citizenship Education, Community Cooperation, Conflict Resolution, \*Cross Cultural Studies, Developing Nations, Elementary Secondary Education, Environmental Education, Foreign Policy, \*Global Approach, Higher Education, Instructional Materials, Interdisciplinary Approach, International Cooperation, International Relations, Learning Activities, Peace, Social Studies, Teacher Education, Values Education, \*World Affairs, \*World Problems

Identifiers—Interdependence, United Nations

This sourcebook is designed to provide prototype materials on world issues suitable for adaptation to national and regional needs. Materials can also be adapted for many curriculum subjects at levels ranging from kindergarten to grade 12. A total of 26 units are organized into five sections. Following a foreword, introduction, and guidelines, a section on "Education and the New World" contains four activities for teacher education focusing on the following themes: the impact of world change on education and limited views of the world. The second section, "We the Peoples" contains five activities for grades K-3, focusing on commonalities of the world's people, diversity, equality, and community. The third section, "Developing Our Community" consists of five intermediate grade activities emphasizing community and group identity and respect. "The Great World Changes," section four, focuses on global awareness, civic responsibility, and rights of men and women. Seven junior high level activities are included. The final section, "Continuing Challenges," contains seven high school activities on human rights, people and work, interdependence, conflict and peace, and personal responsibility. Appendices contain texts of United Nations resolutions and reports, charts and maps, and other background information. (LP)

Courses on Population and Development: Aspects of Technical Co-operation.

United Nations, New York, N.Y.

Report No.—ST/ESA/SER.E/39

Pub Date—85

Note—61p.; Developed by the United Nations Department of Technical Co-operation for Development.

Pub Type—Reports - Descriptive (141) — Guides - Classroom - Teacher (052)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—Course Content, Course Descriptions, \*Curriculum Design, Curriculum Development, Developed Nations, Developing Nations, \*Economic Development, Higher Education, Interdisciplinary Approach, International Cooperation, International Programs, \*Population Education, \*Technical Assistance

Identifiers—United Nations

A conceptual framework and guidelines for courses on population and development are outlined. Following an introduction, the first of five

sections details the scope of a population and development course. A definition of an appropriate framework is provided and the role of population and development issues in such a course are described. Integration of population variables into the course is also considered. Section II, "Form and Content of Courses" provides a rationale and describes the curriculum. Section III, "Orientation of the Courses" is divided into subsections on senior management, middle level staff, educators and researchers, executing agents, and general information. Section IV provides recommendations for course admission requirements, and teaching requirements, and considers external conditions necessary for an effective course. The final section is devoted to the specific curriculum proposed for a course consisting of 825 hours spread over two academic years. Four instructional modules for each year are detailed. A three-page bibliography is included. (LP)

Identifiers—\*Japan

Certain Japanese educational practices serving as worthwhile examples to the United States' educational system are highlighted in this overview of Japanese education. However, it is stressed that because the United States and the Japanese educational systems are dependent upon their social context and exist in a symbiotic relationship within that context, the United States should refrain from refashioning its educational systems on Japanese patterns of success. The article begins by tracing the history of the Japanese system up until the period following World War II when the Japanese system underwent drastic changes in efforts to become more democratic. A brief section summarizing contemporary Japanese education is followed by an examination of some of its objectives and values. Three positive ways in which Japanese society shows support for its educational system are described: (1) Japanese society fosters a love of learning (a 99 percent literacy rate), promotes the notion of success through long-term goals attained by hard work, and rejoices in the celebration of music, literature, and the arts; (2) educational funding reflects the high priority placed on education; and (3) family life in Japan provides strong support for education. Focusing on positive and negative aspects of Japanese education, the final section comments on the high level of prestige and upward mobility awarded Japanese teachers, Japan's rigorous formal and informal curriculum, and Japan's heavy reliance upon an examination system. (LH)

Descriptors—Conflict Resolution, \*Governance, Government (Administrative Body), International Cooperation, International Law, Interna-

tional Relations, Peace, Policy Formation, Trustees, World Affairs, World Problems  
Identifiers—\*United Nations

The Charter of the United Nations is divided into 19 chapters. Following a preamble, Chapter I outlines the purposes and principles of the organization; Chapter II, the membership; and Chapter III, organization. Chapter IV describes the composition, functions, powers, and voting procedure of the General Assembly. Chapter V outlines the functioning of the Security Council. Settlement of disputes is the topic of Chapter VI. Chapter VII focuses on United Nations actions with respect to threats to peace. Regional arrangements are described in Chapter VIII and international economic and social cooperation in Chapter IX. Workings of the Economic and Social Council are detailed in Chapter X; non-self-governing territories in Chapter XI; the international trusteeship system in Chapter XII; and the Trusteeship Council in XIII. Remaining chapters are devoted to the International Court of Justice, the Secretariat, miscellaneous provisions, transitional security arrangements, amendments, and ratification. The Statute of the International Court of Justice outlines the organization of the Court, the competence of the Court, procedure, advisory opinions, and the amendment procedure. (LP)

Descriptors—Civil Rights, Economic Development, Human Relations, International Law, \*International Relations, Peace, Social Development, \*World Affairs, \*World Problems  
Identifiers—\*United Nations

The work of the United Nations is described in summary form. Material is divided into sections on the origin, programs, purpose, principles, and structure of the United Nations; the United Nations at work for International Peace; the United Nations at work for Economic and Social Development; the United Nations at work for Decolonization; the United Nations at work for Human Rights; the United Nations at work for International Law; and Intergovernmental Agencies. Each section contains paragraph overviews of relevant issues, developments, and United Nations efforts. For example, the section on international peace contains short descriptions of peace efforts in Afghanistan, Kampuchea, the Middle East, Cyprus, South Asia, the Congo, and Korea as well as discussions on disarmament, outer space, and the law of the sea. The section on international law includes coverage of judicial settlements, codification of international law, and international trade law. Appendices include a list of abbreviations, United Nations membership, United Nations information centers, and additional readings. (LP)

Kitchke, Martina I.

Children, Kitchen and Computer: Women-Torn between Family and Job. Developments in the Federal Republic of Germany, Social Report.

Inter Nationes, Bonn (West Germany).

Report No.—SR-4-83(e)

Pub Date—83

Note—28p.

Pub Type—Reports - General (140)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Cooperative Programs, \*Employed Women, Employment Opportunities, Family (Sociological Unit), Family Size, \*Females, \*Feminism, Futures (of Society), Marriage, Older Adults, Population Trends, Sex Bias, \*Sex Role, \*Social Attitudes, Technological Advancement  
Identifiers—West Germany

Focusing on the changing roles and consciousness of women currently living in the Federal Republic of Germany, this report is organized under seven topical headings. The first section, "Women and Politics," comments on the increasing influence of women in local politics, with 36 women currently occupying the posts of Lord Mayor, Mayor, Senior Town Director, and Town Director. The second section, which examines employment as part of the

life plan, concludes that although most girls in Germany consider a vocation as an integral part of their plans, they continue to gravitate toward traditionally female occupations. The third section, "New Technologies—Chances for Women?" suggests that while new technologies lead to the abolition of women's traditional jobs, they create new and, in most cases, better ones. Sections 4 and 5, which deal with the vocational reintegration of women after long periods away from the work force, describes a project devised by a federal committee on social policy entitled, "New Start at 35" and the role of women's cooperatives in facilitating this return to work. The next section, on marriage and the family, examines both the continuing trend toward the small family and upward trends in divorce, number of unmarried persons living together, and women desiring economic independence. Observations concerning changing attitudes of younger women in the Federal Republic of Germany and an increasing social responsiveness to "violence against women" are followed by the final section discussing the increase in the number of older women by 1990, particularly older women who are divorced, widowed, and single. A bibliography and addresses of seven women's organizations conclude the paper. (LH)

Descriptors—Conflict, \*Conflict Resolution, Decision Making, \*Interdisciplinary Approach, Intermediate Grades, \*Interpersonal Communication, Junior High Schools, Learning Activities, Lesson Plans, \*Peace, \*Problem Solving, Social Studies, Units of Study, Values

Intended to challenge students in grades 4-9 to deal creatively and constructively with conflict, this interdisciplinary resource book contains 40 reproducible student worksheets that can be incorporated into social studies, science, and language arts curricula. Teaching techniques include modeling, mediation, problem-solving, brainstorming, role playing, visualization, body movement, and integration of conflict-resolution concepts. Lessons encourage students to develop positive interpersonal skills, respect human differences, understand the causes of conflict, practice conflict-resolution strategies, learn ways to handle frustration and anger, and explore conflict as a positive force for change within the democratic process. Incorporated within the text, the teacher's guide presents major concepts, important vocabulary, teaching suggestions, discussion questions, and extension activities for each lesson. A posttest concludes the booklet. (LH)

Descriptors—Comparative Analysis, Course Descriptions, Curriculum Development, \*Futures (of Society), Secondary Education, Social Indicators, Social Studies, Teaching Methods, \*Trend Analysis

Focusing on whether or not it is worthwhile to think and to study about the future, presenting methods for effectively thinking about and studying about the future, and suggesting methods for introducing future studies into the curriculum, this paper argues that the ultimate purpose of futurism in education is to help learners cope with real-life crises, opportunities, perils, and especially with the individual's practical ability to anticipate and adapt to change. Following a rationale for future studies, four broad generalizations from the list drawn up by Fitch and Svengalis (1979) to characterize the definitions and methodologies of futurism are presented as providing especially useful perspectives. Next, generalizations relevant to curriculum and instruction at the senior high school level are examined. In a discussion of two methods used by futurists (The Future Wheel and trend analysis), the author describes three recent publications identifying top trends. A summary of four elements that current future studies courses have in common is followed

by an approach using separate futurism units in social studies courses. The paper concludes with references; a list of top trends in 1984 identified in "U.S. News & World Report," "Futureletter," and "Megatrends;" a list of separate units on futurism for standard courses in American history, world history, sociology, and psychology courses; and a course outline. The Nebraska Interstate-80 Sculpture Project and the Hidden Arts Curriculum of Small Towns.

Pub Date—85

Note—23p.; Paper presented at the Annual Meeting of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Reports—Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Art, Artists, \*Competition, Fine Arts, \*Hidden Curriculum, Interviews, Program Descriptions, Public Opinion, Rural Environment, \*Sculpture, \*State Programs

Identifiers—Bicentennial, \*Nebraska  
Ten American artists were commissioned in 1975 to produce sculptures as rest stops along the Nebraska stretch of Interstate-80 in celebration of the American Bicentennial. The ten commissioned sculptures were selected through a national juried competition that drew 121 initial entries at a cost of \$300,000. Despite initial controversy centering chiefly on the abstract, non-representational nature of the sculpture designs, and the fact that none of the artists were Nebraskans, eventual acceptance in the various communities involved suggests a number of things about the elements of a "hidden curriculum" in these small Midwestern towns. Part of a three-year study of the role of the arts in smaller towns, the Nebraska project is described in seven sections. The first, "History of Nebraska I-80 Bicentennial Project," precedes background information on the study and a description of the project's logistics. Information on the sculpture titles, locations, and artists' homes is followed by short summaries of conversations with local residents-art instructors, chamber of commerce members, shop owners, gallery directors and others—recorded in notes and/or audiotapes in seven communities. Observations of the hidden arts curriculum and principles upon which a conceptual framework of the public arts curricula can be constructed are examined in the next section. Conclusions in the final section suggest reasons for the project's success and elements of a "hidden arts curriculum" in small Midwestern towns. (LH)

Critical Thinking and Educational Reform: The Emerging Revolution.

Pub Date—Aug 84

Note—23p.; Paper presented at the Harvard International Conference on Thinking (Cambridge, MA, August 19-23, 1984).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Controversial Issues (Course Content), \*Critical Thinking, Educational History, \*Educational Needs, Elementary Secondary Education, Intellectual History, Interdisciplinary Approach, Public Education, \*Social Studies

Identifiers—Ideology  
This examination of deep-seated structural problems facing public education today is built on the premise that a new beginning is needed in which education focuses on critical thinking or "rational learning." Such a focus presupposes that students and teachers master the critical-analytical vocabulary of the English language in dialogical settings and become sensitized to the problems and pitfalls of uncritical, or "irrational learning." The call for a reconceptualization of the role of education for both student and teacher follows an historical review of the role of critical thinking in the history of public education. The field of social studies is then cited as a discipline particularly vulnerable to the fostering of irrational beliefs since there is a pronounced and natural tendency to inculcate an uncritical, monological, and nationalistic perspective concerning major social issues. Because major issues in social studies inevitably mirror multiple perspectives, a rational approach to historical, sociological, and anthropological issues reflecting a wide variety of

divergent and conflicting points of view is advised. Recommendations further emphasize the need for more coursework, instructional models, professional experiences, materials, and funding to help teachers and students develop the critical thinking skills necessary for the stimulation of important educational reform. Prince-Embury, Sandra

Risk Assessment: An Examination of Assumptions.

Pub Date—Sep 85

Note—22p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Bias, Costs, Decision Making, \*Economics, Mass Media Effects, \*Nuclear Energy, \*Nuclear Technology, Policy Formation, Politics, \*Public Opinion, \*Public Policy, \*Risk, Social Science Research, Social Theories, Technology

Identifiers—\*Quantitative Benefit Analysis  
A meta-analysis of theoretical debates concerned with the assessment of risk associated with the use of nuclear power as an energy source is presented in this paper. Based on a central premise that risk assessment has a direct impact on national policy decisions and is associated with different perspectives reflective of different social sectors, it is hypothesized that national policy decisions mirror an economic imperative, whereby economic cost is a better predictor of policy decisions than is consideration for human safety. Examples of this view are given including the belief that (1) the cost of safety regulations represent an impediment to technology and hence the economic well-being of the nation; and (2) the notion that quantitative risk-benefit analysis, in which possible costs and benefits of policy decisions are quantified and assigned a financial value, plays an increasing role in policy decisions. Public opinion is then addressed as a variable with potential cost attached to it. Research focusing on bias or individual heuristics that systematically color the public's prediction of the risk associated with hazardous events is followed by a discussion of error variance, expert bias and infallibility of expert opinion, and the use of Bayesian statistics. It is concluded that because different sectors of society are differentially impacted by policy issues, there is a need for greater political balance in prestigious committees concerning risk assessment and policy decisions. Joseph, Earl C.

Global High-Tech Economy Futures in the Information Age.

Pub Date—Aug 85

Note—18p.; Paper presented at the Annual Meeting of the World Future Society (Washington, DC, August 8-9, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Culture Lag, Developed Nations, Developing Nations, \*Economic Change, Economic Progress, \*Futures (of Society), \*Global Approach, \*International Cooperation, International Trade, Microcomputers, Revolution, Social Change, \*Technological Advancement, Technology

Identifiers—\*Europe, \*Information Society, Interdependence, Pacific Basin Countries, United States

It has become necessary to understand the expected trends and forces-of-change behind the global realities of technological advancement and the information age. The emergence of a new information age societal framework is rapidly altering the way in which social, business, economic, educational, and political exchanges are conducted. Motivating these changes is a high-tech economic equation, a technology insertion process, enabling us to "do more with less." Characteristics and dimensions of the information age environment include (1) information ecology, environment, and sociology; (2) information economy and capitalism; (3) information technology, tools, and systems; (4) information resources; (5) information conferencing and dialoguing; and (6) information politics. Without some command over the future in this high-tech information age arena, it will not be possible for Europe or any other country to remain and/or become competitive in the interconnected global economy. The European Economic Community (EEC) is falling behind in the crucial race for its economic and industrial well being, with the United

States capturing over 70 percent of the world market in high-tech microcomputers, and Japan surpassing all of Europe. The emerging shift in the United States and world economy from the European countries to the Pacific Basin countries presents a myriad of new opportunities, problems, outlooks, and power shifts. Future global events should be viewed as opportunities to plan and design through the use of proactive, anticipatory management rather than as problems to react against. (LH)

Descriptors—Developed Nations, \*Developing Nations, Ecology, \*Economic Development, Environmental Influences, Financial Needs, Financial Policy, Financial Support, International Programs, Natural Resources, Population Education, Population Trends, Quality of Life, \*Social Problems, \*World Problems

Identifiers—\*Africa (Sub Sahara)  
The economic crisis in Sub-Saharan Africa threatens to condemn an entire continent to human misery unless stronger action is taken to control population growth, reverse ecological devastation, eliminate distortions in domestic economic policies, and increase external development finance. Substantial increases in financial assistance to Africa are needed, including a raise in bilateral aid of at least 30 percent per year, increased assistance of the World Bank, further debt rescheduling, and establishment of special research programs to increase the world's understanding of African ecological issues. Outside assistance, however, must be matched by internal efforts, including efforts to change a number of disturbing domestic political policies, eliminate pervasive corruption, stop the use of scarce resources for defense and luxury projects, and reverse repression of internal dissent. Appendices include statistical data on basic indicators (Gross National Product, adult literacy, life expectancy, infant mortality, growth of per capita food production, levels of food imports, external debt and debt service, net transfers of external finance, and actual and projected populations. Descriptors—Comparative Analysis, Cross Cultural Studies, \*Cultural Differences, \*Developing Nations, \*Females, Feminism, \*Futures (of Society), Health Conditions, Health Needs, Social Differences, Womens Education

Identifiers—Brazil, Chad, China, Costa Rica, Nepal, I ru, Sudan, \*Women in Development, Zimbabwe

Focusing on the multiple roles and situations of the world's women, this collection of articles examines the current status of women, throughout the world. In the first article, "It's Not as Simple as You Think" (John Richardson), women in Brazil and Costa Rica explain issues they face in the struggle to improve their economic and social status. In the second article, "If the Rains Don't Come" (Maggie Murray-Lee), the lives of two women in Chad illustrate the way many women there are reacting to the current African famine. Lindsey Hilsum then discusses the low priority society puts on the work of women in her editorial, "Women's Work Doesn't Count." In a fourth article, two women leaders from Burkina Faso and Peru provide testimony on their own experiences as community leaders and identify

some of the tactics and qualities so important to good leadership. A fact sheet synthesizing data about the home, work, education, and health of women throughout the world, and a photo essay portraying the roles of women in various countries precedes "Give Us More Credit" (Sara Cameron and Manjula Giri), which describes the important role women in Nepal play in a program that provides credit to small farms. Remaining articles include "The Iron Rice Bowl Has Been Cracked" (Kim Lem); "Tradition Against the Law" (Sigurn Slagard); "The Real Village Health Workers" (Wendy Wallace); "Where Mothers Make a Difference" (Diana Smith); "Laziness? Apathy? No...Anemia" (Sue Kassirer); and an Executive Board update on UNICEF Women's programs. (LH)

Descriptors—Developing Nations, Employed Women, \*Females, Foreign Countries, \*Latin American Culture, Poverty, Public Policy, Quality of Life, Sex Role, Sex Stereotypes, Socioeconomic Status, Womens Education, \*Womens Studies

Identifiers—Caribbean, \*Latin America, United Nations, \*Women in Development

Five studies on the situation of women in Latin America focus on (1) the integration of women in development, (2) the family as the immediate social framework of children and women, (3) some types of poor women in Latin America, (4) the educational situation of women, and (5) women in development and housework. An introductory section outlining difficulties stemming from planning, difficulties arising out of the manner in which the situation of women is depicted as a problem, and general guidelines for public policy is followed by a section focusing on specific family characteristics in Latin America and the Caribbean. Topics in this section include the family as a unit producing goods and services; the family as the object of policies, family trends and economic and social change; size, type, and composition of households; and specific situations dealing with the families of small agricultural producers, seasonal laborers, office workers, and those families in the Andean altiplano, "informal" metropolitan sector, and the Caribbeans. The section on poor women examines the education, occupation, and income status of women in Latin America. A look at the educational situation of women focuses on the economic situation between 1960 and 1970, the situation since 1975, principal problems, and suggestions for public policy. The final section examines characteristics of the employment situation between 1960 and 1970, recent developments, principal problems, and recommendations for action. For each study, guidelines are presented for establishing priorities, strategies, and policy measures that might help improve the situation of women in Latin America. (LH)

Identifiers—International Youth Year, \*United Nations

Suitable for junior and senior high school students and presented in a synthesized, easy-to-read format,

this booklet includes more than 80 questions and answers relating to the United Nations. With the U.N. proclamation of 1985 as International Youth Year serving as an underlying theme, the booklet begins by outlining U.N. activities during International Youth Year. After reading the series of questions and answers, students obtain a simplified profile of the world's total population of young people between the ages of 15 and 24. Questions examine facts about the poorer countries of the world relating to population growth, health conditions, and educational opportunities. An overview of the U.N. includes brief statements about what the U.N. is, how countries become members of the U.N., how the U.N. operates, how the U.N. goes about solving problems like drought and famine in Africa, and limitations of the U.N. Questions then focus on the role of the Security Council, the General Assembly, and a number of specialized U.N. organizations. Historical questions about the U.N. are then answered, followed by questions about the oldest and youngest U.N. organization, the U.N. budget, the number of people working for the U.N., the number of languages spoken, the "Group of 77," the role of the U.N. Development Programs, themes of International Youth Year, U.N. resolutions concerning disarmament, special problems of the U.N., U.N. training, the United Nations University, and ways to get involved in U.N. activities. Identifiers—Multilateralism, \*United Nations  
Reporting on a series of workshops, a conference, and various study groups held during a three-month special program during the 39th General Assembly of the United Nations, this publication focuses on challenges presented to the United Nations' system of nearly 40 international organizations, regional institutions, international non-governmental associations, and communication networks. The keynote address, "Will the 1990's be '1984'?" (Sir Sridath Ramphal), is followed by summaries of remarks by respondents Sir John Thomas, Beatrice Harreche, and Ambassador Donald Mills. Next, summaries of remarks by members of a panel (Richard Gardner, Donald Mills, Michel Doo-Kinque, and Rosalyn Harris) are presented. Names of the facilitators and rapporteurs of the three conference working groups are then listed, followed by reports from the total conference based on the three broad workshop areas: (1) "Future Situations Confronting Humanity which Require Multilateral Co-Operation," (2) "Restructuring Multilateral Co-Operation and Organizations," and (3) "Agents in Advancing Multilateralism in International Relations and Institutions." A keynote statement on the future of the United Nations by Maurice Strong, 15 main recommendations from the conference, and a list of participants concludes the report. (LH)

The Fundamentals of an African American Value System.

Pub Date—13 Apr 85

Note—9p; Paper presented at the Annual Meeting of the Virginia State Humanities Conference (Newport News, VA, April 13, 1985).

Pub Type—Opinion Papers (120) — Speeches / Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*African Culture, African History, \*Black Culture, Cultural Awareness, Cultural Background, Holidays, Models, \*Values

The Nguzo Saba or "Seven Principles of Blackness" provide the fundamental basis for the development of an African American value system that is based on the cultural and historical particularisms of being Black in an American society that devalues Black efficacy and Black people. The fundamentals of this value system, foundational to the Kwanzaa life experience holiday celebration, are outlined as: (1) Umoja (unity), which is a commitment to the principle and practice of togetherness and collective action on critical levels (i.e., the family, community, nations, and races); (2) Kujichagulia (self-determination), which is a commitment to the principle and practice of defining, defending, and developing oneself instead of being defined, defended, and developed by others; (3) Ujima (collective work and responsibility), which is a commitment to active and informed togetherness in matters of common interest; (4) Ujamaa (cooperative economics), which is a commitment to the principles and practices of shared wealth and resources; (5) Nia (purpose), which is a commitment to the collective vocation of building, defending, and developing the national community in order to regain historical initiative and greatness as a people; (6) Kuumba (creativity), essentially a commitment to the principle and practice of positive proactive construction involving both aesthetic and material production and creativity, and commitment to African identity, both individually and collectively. Four reasons for placing emphasis on the African roots of the Kwanzaa life experience holiday situation, and a description of the Kwanzaa ritual conclude the paper. (LH)

Descriptors—Academic Standards, Annotated Bibliographies, Art, \*Art Education, Art Teachers, \*Competence, \*Competency Based Teacher Education, Educational Philosophy, \*Educational Theories, Elementary Secondary Education, Hidden Curriculum, Postsecondary Education, Values

Focusing on competency in art education, the seven essays in this critique deal essentially with two aspects of this topic: as it appears to manifest itself in competency-based teacher education (CBTE), and how competency might be interpreted to serve in the name of art education. In the introductory section, "Art Educators focus on Controversy," Nancy MacGregor compares and contrasts the remaining six articles. In the first article, "Competence and the Hidden Curriculum," Arthur D. Efland holds that while competency-based measures may objectively certain aspects of the teaching function, they will in all probability elude others. In "Different Art Teaching Styles and Some Elemental Competencies," Charles G. Wieder refers to two aspects of competency as he presents his concern for relationships between the learner and the teacher. The notion of two levels for competence is again apparent in the third essay, "Competency and the Craft Studio-Classroom: A Case for Literacy" (Donald Duncan). Duncan states that the term competence is synonymous with ability and skill, implying a quality of performance rather than a quantity of knowledge. Next, in "Some Thoughts on Competency, Art and Art Education," Robert Arnold writes about little and big competencies, with little ones being observable and testable and big ones being untestable because of differences in values. Similarly, Kenneth Marantz in "Toward the Liberation of a Conservative Concept," holds that competence has a built-in virtue or goodness and cannot be relegated to achievable bits and pieces. In the final essay, "The Logic of 'Competence' as it Bears on the Teaching of Art," Ross A. Norris views competency as defined by the CBTE movement and identifies five criteria to which teachers must conform to be competent. The publications contains an annotated bibliography of nearly 50 citations published prior to 1976. (LH)

The students who entered college in the fall of 1985 will have working careers spanning the years from 2001 to 2039 and live in retirement from 2039 to 2053. In the current preoccupation with preparing graduates of 2001 to get jobs using the technology of 1985, seldom is a distinction made between what makes life possible and what makes life worth living. Mistaken assumptions that seem to be commonly accepted include: the purpose of education for society is to contribute to the nation's economy and to the gross national product; the most urgent need in the curriculum is more science, math, and computing; and the arts are essentially frills to be offered as time allows. The failure of the National

Commission on Excellence in Education to include the arts among its "Five New Basics" reflects the commission's obsession with the computer and its view of children in terms of their future roles in the marketplace and their potential contributions to international competition. Three goals developed by Music Educators National Conference for serving the needs of the class of 2001 include: (1) By 1990, every student, K-12, shall have access to music instruction in the schools, with the curriculum of every elementary and secondary school, public and private, including a balanced, comprehensive, and sequential program of music instruction taught by a qualified teacher; (2) By 1990, every high school shall require at least one unit of credit in the arts for graduation (the arts being defined as music, visual arts, theater, and dance); (3) By 1990, every college university shall require at least one unit of credit in the arts for admission. Identifiers—\*Togo

A case study of a Togolese secondary school provides the focus for an examination of the impact of Western notions of gender-based role expectations in Third World education. Work on the reproduction of inequality in education suggests that in-school processes direct different knowledge to different groups. However, in the case of Third World schools, this process may not involve the reproduction of societal inequalities, but rather the legitimization of Western notions of sex-role divisions of labor which are not necessarily practiced in the Third World. The present study suggests that when the reproduction argument is extended to the Third World, the schools, as former colonial institutions, may not simply reproduce inequalities within that particular society but may also transmit a new set of sex-role divisions of labor. Togolese schools transmit images of women as unproductive housewives and mothers. These roles are incongruent with Togolese society and labor force participation patterns. This study further reinforces existing arguments that Third World schools may intervene to reverse the effects of modernization on women's declining status. The study suggests that even Third World schools with gender-biased informal curricula can be used by girls to obtain upward social mobility. The study concludes that, in the case of Lome Secondary School, the informal curriculum reproduced a significant pattern of sex-role differentiation even though the school outwardly reflected uniformity and equality. A uniform curriculum and open access policy do not necessarily eliminate discrimination. (LP)

Identifiers—\*Africa (West)

One of a series of papers on comparative education, this report considers curriculum and student life under colonialism through an examination of school knowledge in French West Africa in the first decades of the twentieth century. The monograph is divided into three parts. Part one describes the educational system of interwar West Africa. It emphasizes school organization, admissions and matriculation policies, the composition of the teaching staff, curriculum, and student enrollment. Part two contains translations from interwar elementary and primary textbooks. Part three is composed of translations from students' class notebooks. Focus is on students' French compositions and, in some cases, teacher corrections. What the notebooks reveal about how students perceive themselves, their school, and their aspirations for themselves once they graduate is evaluated. (LP)

able from EDRS.

Descriptors—Comparative Education, \*Curriculum Development, \*Developing Nations, \*Educational Change, Educational History, \*Equal Education, Futures (of Society), \*Primary Education, Social Change, Social Development

Identifiers—\*Bangladesh

This monograph examines efforts and progress that have been made in the universalization of primary education in Bangladesh and suggests factors that have impeded the successful achievement of universal primary education (UPE). The first portion of the report presents the historical context of the plan for achieving UPE. Separate sections outline the historical background of UPE in developing countries; the justification for UPE; efforts to achieve UPE during the Pakistan period, 1947-1970; the impact of disparities in primary education on the new nation of Bangladesh. A second portion of the report looks at efforts to achieve UPE since the founding of Bangladesh. Separate sections focus on the emergence of Bangladesh and early efforts at achieving UPE; efforts in UPE since 1972; educational planning and primary education; and progress towards UPE. A third portion of the report presents factors working against the achievement of UPE. It discusses inefficiency in schooling; qualitative aspects of UPE; the problem of inequality in educational planning; and an explanation for the failure to reach the goal of UPE. A final portion of the publication considers goals for the future: recommendations for what can be done; and a consideration of what reform in education can achieve in terms of socioeconomic equality. The five papers presented in this monograph deal with the implications of the criticisms of education and the calls for excellence now evident in a number of industrialized nations. While the issues discussed vary, there is a common concern to understand how current changes in educational policy may affect educational practice. "Women, Educational Reform, and the Process of Change" (Rosemary Deem) considers some of the attempts that have been made in Britain to reduce the amount of sexism in education, to offer better and fairer educational routes and experiences for girls, and to decrease gender inequalities within schools. "In/Forming Schooling: Space/Time/Textuality in Compulsory State Provided 'Mass' Schooling Systems" (Phillip Corrigan) raises questions against certain dominant forms of theorizing, investigating, and explaining schooling. "The Political Economy of Text Publishing" (Michael Apple) analyzes the production of curricular materials from the perspective of cultural commodities production and consumption. "Parents, Children, and the State" (Miriam E. David) argues that the New Right government in Britain, much like that of the United States, is subtly constructing public economic, social, and educational policies that will radically alter the place of family in the socio-economic system. "Public Education and the Discourse of Crisis, Power, and Vision" (Henry Giroux) argues that public education in the United States faces a dual crisis: a neo-conservative threat to all public spheres and a failure of radical educational discourse to either illuminate the nature of the existing failures of American education or to provide a theoretical discourse for educational reform. Teaching about the Holocaust and Genocide: Introduction. The Human Rights Series, Volume I. New York State Education Dept., Albany. Bureau of Curriculum Development.

Pub Date—85

Note—137p.; For related volume, see SO 016 925. Some photographs and maps may not reproduce clearly.

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price - MF01/PC06 Plus Postage.

Descriptors—\*Anti-Semitism, Bias, \*Civil Liberties, Controversial Issues (Course Content), \*European History, Futures (of Society), History Instruction, International Crimes, Learning Activities, \*Nazism, Resource Materials, Secondary Education, Social Studies, Units of Study, War Identifiers—Armenians, \*Genocide, \*Holocaust

Designed to assist secondary school social studies, English, and humanities teachers as they teach about the Nazi Holocaust, the first of two volumes serves as an introduction to the concept of human rights. Divided into a rationale and two units, each unit includes a statement of purpose, a list of objectives, and a group of learning activities and student materials. Because the guide is not a textbook, but rather a collection of materials and activities about the Holocaust and other examples of genocide, the learning activities are not arranged in a developmental order and may be taught in any sequence. A chart presenting a model for a two-week course of study provides lesson topics objectives, and questions. Following a rationale for studying about the Nazi Holocaust and genocide, Unit I deals with the roots of intolerance and persecution, denial of reality, indifference, prejudicial attitudes, conformity, and obedience to authority. Unit II, "Precursors of the Holocaust," focuses on genocidal theories, pseudoscientific racism, technological aspects of genocide, and a case study explaining the plight of the Armenians living in the Ottoman Empire during the deportation of 1915 to 1916. Handouts are included and guidelines for helping teachers deal with sensitive topics, design lessons, and select those readings which best fit his or her course or program are provided. (LH)

Descriptors—\*Anti-Semitism, Bias, \*Civil Liberties, Controversial Issues (Course Content), \*European History, Futures (of Society), History Instruction, International Crimes, Learning Activities, \*Nazism, Primary Sources, Resource Materials, Secondary Education, Social Studies, Units of Study, War

Identifiers—\*Genocide, \*Holocaust

Designed to assist secondary school social studies, English, and humanities teachers as they teach about the Nazi Holocaust, the second of two volumes serves as a continuing introduction to the concept of human rights. Building on the first volume, which dealt with the roots of intolerance and persecution and precursors of the Holocaust, this volume focuses primarily on the Nazi Holocaust and its implications for our future. Because the guide is not a textbook, but rather a collection of materials and activities about the Holocaust and other examples of genocide, the learning activities are not arranged in a developmental order and may be taught in any sequence. This second volume, beginning with Unit III, examines anti-Semitism—traditional, religious, and racial; Nazi thought; the Nazi rise to power; "The Final Solution"; perpetrators and victims; responses by individual institutions and nations; and judgment, justice, and survivors. Unit IV, "Implications for Our Future," contains three sections focusing on individual choices, group choices, and connections. The bulk of the guide consists of student handouts, including time-lines, photographs, readings, memoranda, telegrams, and other primary source materials. A bibliography correlated to Unit titles concludes the guide. (LH)

Identifiers—Interdependence, \*Science and Society

In view of the changing relationship between science, technology, and the quality of life, future efforts need to be devoted to the use of new knowledge for social objectives rather than for economics and defense. The mass of problems facing society today, which to some extent are direct side effects of technological growth, appear to have three interactive and inextricable causes: (1) the increase in world population and accumulation of population in urban areas, (2) an increase in level of affluence, and (3) the unmanaged upsurge of technology which has been the agent for producing affluence and urbanization. These problems appear to have three features in common. They are global and seem to appear in any kind of society at a certain level of development irrespective of the social or political system. Second, they are extremely complex and multi-variant in economic, social, political, and psychological aspects that are difficult to disentangle. Third, they are enormously interactive. Pessimistic projections from the world model developed at Massachusetts Institute of Technology (MIT) are not merely an experiment in futurology; they are an analysis of trends that indicate what is likely to happen if present growth and policy persist. The human species approaches a moment of fundamental crisis. There are ways out, but little time is left to initiate the basic changes in human objectives, motivation, and behavior that are necessary if man is to survive. (LH)

Revisions made in the 1981 Women's Educational Equity Act when it was extended in 1984 are outlined in this report. An introduction provides background on the 1981 and 1984 acts and briefly recounts the Reagan administration's opposition to the law. Various aspects of the 1984 law are outlined in separate sections. A description of authority and funding is followed by a section-by-section analysis of changes in the bill: purpose; grant and contract authority; local assistance programs; challenge grants; national advisory Council on Women's Education programs; and reports, evaluation, and dissemination. A final section describes what citizens can do to insure continuation of the law. (LP)

**Identifiers:** \*Reagan (Ronald), \*Reagan Administration, \*Women's Educational Equity Act

The decade of the 1980's has seen the beginning of a debate over the federal government's involvement in the nation's schools. The history of one program, the Women's Educational Equity Act (WEEA), sheds light on how the Reagan Administration has entered that debate. Congress created WEEA to help schools and colleges educate females for full participation in modern life. In 1981 the Reagan administration indicated that it was opposed to federal money being used to bring about social change. This shift in philosophy became particularly evident in Department of Education policies. In March 1981 Reagan asked Congress to eliminate the WEEA program. Bipartisan support for the program in Congress prevented this action. In 1982 the Department of Education's "Field Reader Outreach Program" became a primary vehicle for shifting the emphasis of federal funding away from equity efforts. This program proposed to select grant proposal readers from among non-experts. Also in 1982 the WEEA program director was temporarily removed and an advisory council director was fired. What has happened and will happen to WEEA is a microcosm of what is happening to women's rights in general and in education specifically under the Reagan administration. (LP)

**Descriptors:** \*Classroom Environment, Computer Assisted Instruction, Educational History, \*Educational Innovation, \*Educational Technology, Higher Education, \*Interpersonal Relationship, \*Psychology, \*Teacher Influence, \*Teacher Student Relationship, \*Technological Advancement

In this discussion of various educational technologies that have come and gone during the past 40 years in the teaching of psychology, factors affecting the effectiveness of teaching technologies are discussed and six technological innovations are reviewed. These are: (1) teaching by motion picture films; (2) closed circuit television; (3) teaching machines; (4) programmed textbooks; (5) Keller's Personalized System of Instruction; and (6) computer-assisted instruction. Despite efforts to determine which methods and technologies work best, researchers surmise that no significant differences in effectiveness have been found either because there are no real differences, the effectiveness of the teaching method depends on one or more attributes of the student, and/or the effectiveness of the teaching method depends on the impact of the teacher as a person. Parallels from a passage describing the ideal counselor-client relationship are drawn to illustrate the importance of the teacher-student relationship. Next, six roles of the teacher are identified and five key points concerning educational technology are made: (1) that there is a need to concentrate on the teacher's role as a socializing agent, ego ideal, and person; (2) that technologies eliminate opportunities for interpersonal functions by exaggerating the importance of information transmission; (3) that assessment should be based on student maturation, inspiration, and collegiality; (4) that teachers should not replace teaching with technology; and (5) that teachers need to become more "user friendly" to compensate for the increasing role of technology in the educational process. The Hamstringing of Moral Education: Athletic Metaphors and Educational Administration.

Pub Date—85

Note—19p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

**Descriptors:** \*Administrative Principles, \*Administrator Characteristics, Athletics, Business, Com-

parative Analysis, Competition, \*Educational Administration, \*Individual Characteristics, Intellectual History, \*Leadership Qualities, Moral Values, Social Behavior, Social Change, Social Environment

This discussion of "dominant metaphors" characterizing the nation's history focuses specifically on the period of metaphor change surrounding the ascent of the National Football League. The terms AGON and PAIDIA, used by the ancient Greeks to describe two dimensions of sports activities, provide the framework for a discussion of the athletic imagery that is too often used by educational administrators and the problem of too closely aligning educational methodology with business methodology. AGON, which requires a win-at-all costs approach to competition is seen as less desirable in the field of education than the PAIDIA approach which emphasizes the fun element, with winning being secondary in importance. When academic institutions and educational administrators are informed by AGON, the win-at-all-costs contest, education loses its independence and becomes little more than a tool securing the establishment whims of government and business. On the other hand, when education comes close to PAIDIA, it approaches moral education and infuses lives with character, and the more education moves away from PAIDIA, the more it claims that it really has no responsibility for morals and values. Organizational problems posed by management expert W. Edwards are then organized into two groups distinguishing between characteristics of AGON-oriented administrators and PAIDIA-oriented administrators. A similar breakdown between "conformist" managers, "conscientious" managers, and "post-conformist" managers, as defined by Alton Gratch, is then provided to further illustrate this concept. (LH)

The European Currency Unit: An Economical, Financial, and Political Currency.

Pub Date—85

Note—8p.

Pub Type—Opinion Papers (120)

EDRS Price - MF01/PC01 Plus Postage.

**Descriptors:** \*Banking, Developed Nations, Economic Factors, Economics, Governance, Inflation (Economics), \*International Cooperation, \*International Trade, \*Monetary Systems

**Identifiers:** \*Common Market (Europe), \*European Currency Unit, \*European Economic Community

Intended to provide a basic understanding of the history and complexity of a relatively new foreign currency measure, this paper briefly describes the history leading to the formation of the European Economic Community (EEC), its objectives, its governance structure, and its development of the European Currency Unit (ECU) as a means of stabilizing Europe's monetary system and strengthening the ties of the EEC's 11 member nations. Described as an intangible, cashless currency much like automated bank transfers, the value of an ECU is based on an average of all participating currencies. Should the ECU become independent of the fluctuating U.S. dollar, it could become a major currency of both account and settlement, creating a regional currency in Western Europe. The recent decisions of Spain and Portugal to join the EEC (often referred to as the Common Market) have enlarged the community market, but the implications of the ECU for Americans in the financial and business community remain to be determined.

**Descriptors:** \*Conservatism, Curriculum Development, Developmental Continuity, Educational Change, Educational History, Elementary Secondary Education, Interdisciplinary Approach, \*Program Descriptions, Social Attitudes, \*Social

Sciences, \*Social Studies

**Identifiers:** \*Iceland

This description of the content and structure of a 10-year Icelandic Social Science Curriculum Project serves as a commentary on the role of the project in the context of Icelandic curriculum reform. A discussion of the place of structural developmental curricula in the reform dynamics of educational progressivism precedes the specifics of the Icelandic reform context. The description of the special features of the project includes its role in the production of concepts, instructional materials, and teacher materials representing the integration of knowledge about man, society, and the ecological conditions of man's life on earth—a representation systematically built from a wide variety of social science disciplines using the inductive processes and discovery approaches as specified by developmental didactics. Next is a discussion of factors contributing to the defeat of the project; a defeat triggered by an onslaught of neo-fundamentalist ideologies in which perspectivism and socio-moral understanding were defamed as indoctrination and the goal of developmental education was replaced by the "Back to Basics" movement. Experiences gained and motives operating during two decades of Icelandic educational reform are then discussed and reasons for the vulnerability of rational and rationalist reforms are examined. Tables and appendices include (1) an overview of the project's K-9 social studies course; (2) a structural matrix of key concepts; (3) examples of the linkage of key concepts and content in a widening spiral framework; (4) a presentation of a unit; and (5) examples of second and third grade task structures, organization of tasks, and objectives. Global Unemployment: Challenge to Futurists.

Pub Date—Aug 85

Note—26p; Paper presented at the Global Economy Conference of the World Future Society (Washington, DC, August 8-9, 1985). In: Howard F. Didsbury, Jr., Ed. *The Global Economy, Today, Tomorrow, and the Transition*. World Future Society, 1985, p.33-59.

Pub Type—Collected Works - General (020) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC02 Plus Postage.

**Descriptors:** \*Accountability, Change Strategies, Democracy, Employment Opportunities, Foreign Policy, \*Futures (of Society), \*Global Approach, International Cooperation, International Relations, Models, Planning, Public Policy, \*Unemployment, Values

**Identifiers:** \*Ideology

Creative actions toward preventing global unemployment seek to (1) uncover the painful realities of joblessness, (2) design better models for fruitful discourse and action, (3) climb the "commanding policy heights" of moral vision, (4) move from autocratic to democratic corporatism, (5) uncover the kind of information that may hold power holders more accountable, and (6) promote global dialogue on the hidden crisis of unemployment. Possible actions along these lines include confronting the "ostriches" who shun full employment commitments, hide un- and under-employment, and dodge the sources of bank crisis. Multidimensional models that build upon the best in different systems, practices, ideologies, and faiths and the development of a moral vision that weaves the highest human values together with the strands of specific micro- and macro-politics can provide a constructive approach to the unemployment challenge. Included in this morality is a commitment to designing future policies to bolster economic and political rights for everyone and to bringing about "power democratization"—the organization of the weak to counter overcentralization and breathe more life into the structure and procedures of constitutional democracy. Democratic corporatism, stronger transnational labor movements, and political leaders for economic rights are needed. Moreover, overall democratic planning for fuller employment requires a research program based on continuous improvement in concepts, definitions, collectives, analysis, and distribution of quantitative and qualitative data. Finally, countries dealing with the unemployment crisis should consider "people-to-people planning forums" legislation and a United Nations full employment-technology conference. (LH)

Identifiers—Title IX Education Amendments IX

Data representing figures for the 1983-84 and 1984-85 school years indicate the degree of compliance with Title IX in Boulder Valley School District (Colorado). Findings represent three major components: (1) baseline data, which includes numbers and percentages by gender of enrollment in various courses and activities; Comprehensive Test of Basic Skills (CTBS) achievement similarities and differences; staffing patterns; disciplinary actions/suspensions; and school drop-out rate; (2) K-6 student-teacher interaction observations in 235 elementary class groups; and (3) questionnaires, which were distributed to all district certified employees (1566) to tap knowledge, attitudes, and interests relative to gender equity. Results suggest that of the 16 areas examined, four were found to be areas of strength, with the remaining 12 indicating a need for education, awareness, and action. Some of the report's findings indicate that although secondary teachers approached equity in terms of gender, distribution by subject area showed significant discrepancies; that there was a difference between numbers of boys and girls enrolled in 117 courses; that sex differences corresponding with traditional career choice for women were found in every area; that of four subject areas examined, statistically significant differences between CTBS scores of girls and boys were reported in three; that of the total number of students in special education, 71 percent were boys; that more boys (72 percent) were involved in events leading to written notice of suspension; that gender was a significant factor in three categories of student-teacher interaction; that more boys participated on athletic teams; and that approximately 73 percent of school and classroom environment observations were identified as reflections of gender disparity. Descriptors—Academic Standards, Black Colleges, \*Black Teachers, Court Litigation, Higher Education, \*Minimum Competency Testing, Standardized Tests, \*Teacher Certification, \*Test Validity  
Teacher certification issues are considered from the perspective of blacks in the profession. It is argued that teacher certification tests mandated by states threaten to reduce significantly the number of new minority teachers and seriously harm the historically black institutions of higher education that train teachers. The development of teacher training requirements, the history of blacks in the teaching profession, and the use of testing to prove accountability are considered. Recommendations are made on how teacher training and testing could be reorganized to be more effective and more sensitive to the

concerns of minority teachers. Two federal court decisions on civil rights issues are appended. (JD)

Descriptors—Followup Studies, Foundations of Education, Higher Education, Methods Courses, Preservice Teacher Education, \*Program Attitudes, \*Program Evaluation, \*Student Attitudes, Student Teaching, \*Teacher Education Programs  
This study sought to determine graduates' perceptions of program effectiveness in ten undergraduate areas of study at the University of Central Florida. Alumni responded to an original questionnaire that assessed three primary program components: foundations for teaching, specialization, and student teaching experiences. Questionnaire items included topics related to skills, knowledge, and affective factors found in required course descriptions. Respondents rated foundations and specialization topics on two dimensions: knowledge or instructional competence gained and usefulness. Data were analyzed separately for elementary education specialization areas and for secondary or K-12 certification specialization areas. Graduates rated four facets of the student teaching experiences: university coordinator, supervising teacher, coordination between university and school, and required time appropriateness. Graduates perceived their professional preparation positively, although there was variability within and across program components and areas of study. Alumni perceived teaching foundations least positively and the student teaching experience most positively. All majors had specific areas perceived as extremely strong, and some majors viewed their overall professional preparation as outstanding. (Author/JD)

Teaching as a Career. High School Students' Perceptions of Teachers and Teaching.

Florida State Dept. of Education, Tallahassee. Education Standards Commission.

Pub Date—7 May 85

Note—62p.

Pub Type—Reports - Research (143) — Tests/Questionnaires (160)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Career Choice, \*High School Students, Secondary Education, \*Student Attitudes, Teacher Characteristics, Teacher Effectiveness, Teacher Salaries, \*Teaching (Occupation)

Because Florida and the nation face a shortage of teachers, the Education Standards Commission designed a questionnaire "Teaching as a Career" to identify those aspects of teaching that are appealing and unappealing to Florida high school students (sophomores and seniors at public and private schools) and to learn what changes in the teaching profession would increase the attractiveness of teaching. The survey contained the following sections: (1) Demographic Information; (2) What Makes a Good Classroom Teacher? (3) Who Has Influenced You the Most? (4) What Aspects of Teaching Are Appealing to Young People? and (5) How I Feel about Teaching as a Career. From an analysis of the 2123 responses the following set of student beliefs about teachers and teaching was developed: (1) the salary for a beginning teacher is too low; (2) teacher work schedules would not encourage students to choose teaching as a career; (3) characteristics selected by students to describe a "good classroom teacher" were similar to behaviors identified by current research associated with improved student achievement; (4) teacher behaviors manifesting affective aspects of the teaching-learning process were among the most important characteristics of a good teacher; (5) more and newer equipment in schools is needed; (6) apparent lack of interest in learning by students was seen as a deterrent to a teaching career; (7) students do not show sufficient respect for teachers; and (8) ineffective teachers should leave teaching. Survey results and a detailed analysis of thinking pertinent to students' responses are presented. The major conclusions are accompanied by specific recommendations for state

action that could lead to more students choosing teaching as a profession. The survey questionnaire is appended. (JD)

Descriptors—\*Assessment Centers (Personnel), Evaluation Criteria, Evaluation Methods, \*Master Teachers, \*Teacher Certification, Teacher Effectiveness, \*Teacher Evaluation

Identifiers—\*Florida

Two major state-wide programs in Florida have adopted the Florida Performance Measurement System (FPMS) for the formative and/or summative evaluation of instruction: The Beginning Teacher Program and the Master Teacher Program. Since the state is responsible for compiling and reporting scores in a state-wide system, the Teacher Evaluation Assessment Center (TEAC) was established at the University of South Florida to process data for the Master Teacher Program. Observers using the FPMS in the Master Teacher Program must be trained and certified. Two criterion measures are used as the basis for observer certification: (1) a passing score on a cognitive examination on teacher effectiveness research; and (2) a passing score on two criterion observations using the FPMS summative instrument. The TEAC is responsible for security and maintenance of the cognitive examination and the criterion observation videotapes, their distribution to testing sites, and for scoring and reporting results. This document describes the training of observers, the evaluation methods and criteria used, and the dissemination of results. The appendices present data collected from the Master Teacher component of the program. (JD)

Identifiers—\*Pakistan

A micro-level project was developed in Pakistan to decrease the number of school dropouts. The program was tested in two rural primary schools by introducing three new types of activities: (1) body movement and educational games; (2) teacher training; and (3) community involvement. Teachers were trained at the school where they worked. After classroom observations were made of teaching activities and behaviors, events were reconstructed for teachers so they could see both the problems and possible solutions of the events. School principals and higher level administrators were also involved. The program has resulted in less strict regimentation in the classroom. Teachers have shifted their emphasis from rote memorization to understanding of concepts and have also become more organized in their teaching tasks. More freedom of movement and speech in classroom has been observed. The report concludes that the hidden curriculum of staff and the "laissez-faire" attitude of administration and the school community maintained the previous problems experienced at the school. The school-based change program offered many solutions to these problems. (CB)

**Descriptors**—Faculty Mobility, Secondary Education, \*Secondary School Teachers, Social Support Groups, \*Stress Management, \*Stress Variables, \*Teacher Burnout, Teaching (Occupation)

The purpose of this study was to determine if stress was one of the major problems facing today's secondary educators. If it were indeed a problem, the causes, the symptoms, and the methods of alleviating stress had to be known in order to prevent an exodus of stressed individuals from teaching. Research was conducted by reviewing relevant literature on stress, books and periodicals written since 1975, especially those written for secondary educators in the public school system. This investigation found stress to be a problem for secondary educators. However, for prevention or management of stress to be effective, educators had to know preventative techniques and how to use them. Some of these techniques could have been provided through school board policies or school district inservice workshops. Teacher support groups were considered a necessity for alleviation of stress and prevention of maladaptive responses through peer contact. Communications, with self and others, was considered the most essential ingredient in successfully dealing with stress. An extensive bibliography concludes the report. (Author)

This document presents an outline of a streamlined student record-keeping and advisement procedure used at the University of Mississippi to assure students' logical progression through the total professional teacher education process. There are four phases in this procedure: (1) enrollment in the College of Education; (2) admission to teacher education; (3) admission to student teaching; and (4) exit requirements. Descriptions of each of these phases list all of the sequential steps that must be accomplished before the phase is concluded. A sample admission form is included as well as an outline of admission instructions, requirements, and procedures for each phase. (JD)

**Identifiers**—\*Clinical Teacher Education

This manual incorporates the Clinical Teacher Education Guidelines which grew out of a program of research studies conducted by the Research in Teacher Education (RITE) program from 1980 through 1985. Three major studies covering preservice, induction, and inservice contributed to a better understanding of the nature and effects of clinical teacher education-learning activities that occur in the classroom and school setting. Findings from the descriptive studies of preservice clinical teacher education and programs of induction indicated certain characteristics to be consistently associated with desired outcomes in terms of teacher education. The clinical teacher education guidelines presented here are based on those program characteristics. The papers reporting on the findings of the studies are included in the manual appendix. Materials on the five workshop sessions make up the bulk of the document. They include in each case an outline of session objectives, suggestions for the trainer, handouts to be used in the session, and overheads. (JD)

**Descriptors**—\*Beginning Teachers, Program Effectiveness, \*Socialization, Staff Development, \*Teacher Orientation, \*Vocational Adjustment

**Identifiers**—\*Beginning Teacher Induction

A study explored the socialization process of beginning teachers participating in formal teacher induction programs. The focus was on perceived sources of influence on classroom practices. The findings suggest that a wide array of features compete for the attention of the first year teachers as they make instructional decisions. Over the course of the year, beginning teachers sort out these forces and attend to some more than others. The perceived sources of influence are similar at the end of the first year of teaching to those reported by experienced teachers who are operating in a similar context. Induction programs appear to contribute positively to the socialization process with respect to classroom practices through the mechanism of the peer or supporting teacher. The induction programs exert little in the way of positive influence on classroom practices through the evaluation procedures used. (CB)

The Teacher Center Program offers a non-threatening environment where teachers, students, administrators, and other personnel are assisted in self-improvement, skill development, and career advancement. This program evaluation consisted of the intended inputs, processes, and outcomes, outlined on specially designed status report forms. The interim report, distributed at the mid-point of the

project cycle, related agreements or discrepancies between intended and observed outputs and processes. This final report brings the interim report data up to date and cites the agreements and discrepancies between intended and observed outcomes for each objective determined for the teacher center. It consists of summaries of the agreements and discrepancies of each objective, including general conclusions where appropriate. Appended are samples of dissemination materials, forms used in collecting evaluation data, and summaries of teacher surveys on the use of the center. (JD)

**Descriptors**—Academic Achievement, Individualized Instruction, Junior High School Students, \*Mathematics Instruction, \*Program Evaluation, \*Reading Instruction, Secondary Education, Staff Development, \*Student Improvement, \*Teacher Improvement, Underachievement

The purpose of the basic skills component of this project was to improve the reading and mathematics skills of 2085 junior high school and middle or extended elementary school students who were assigned to transition teachers for help. The target population for the Mathematics Teacher Resource Development consisted of teachers who (1) needed further training for certification as mathematics teachers, (2) needed to upgrade their skills, or (3) were potential mathematics teachers who might be recruited to teach in the schools. In the basic skills component, teachers, using criterion-referenced tests, were to determine and record areas in which students needed extra help. An individualized program was to be established for students, and extra instructional materials would be supplied. The Mathematics Teacher Resource Development was set up to implement teacher training and upgrading in mathematics by providing inservice and college level courses. This final report on the project includes agreements and discrepancies between intended and observed outcomes for each stated objective of the project. Appendices include samples of the evaluation instruments and charts displaying evaluation results. (JD)

Note—26p.

Pub Type—Reports - Research (143)

**EDRS Price - MF01/PC02 Plus Postage.**

**Descriptors**—\*Comparative Analysis, \*Elementary School Teachers, Elementary Secondary Education, Job Satisfaction, \*Secondary School Teachers, \*Stress Variables, \*Teacher Attitudes, Teacher Persistence

A study investigated sources of stress among 61 elementary and secondary school teachers who had attended an inservice stress clinic. Teachers completed test or survey instruments which collected data on problem situations for classroom teachers, including personal information on their teaching situations, job satisfaction, consideration of leaving the profession, and frequency of experiencing minor discomforts such as headaches. Although K-6 grade teachers showed higher levels of distress on all of the stress related items, the magnitude of their differences from 7-12 grade teachers was usually small and nonsignificant. Job satisfaction appeared to increase with teaching higher grade levels. More reports of routine problems and life change adjustments correlated with lower grade levels. Teachers with higher job satisfaction scores thought less frequently about leaving the profession. (CB)

Descriptors—\*Beginning Teachers, Beliefs, Higher Education, \*Perspective Taking, Policy Formation, \*Socialization, \*Student Teachers, Teacher Attitudes, Teacher Behavior, Teacher Education Identifiers—\*Teaching Perspectives

This longitudinal study of the development of perspectives toward teaching consists of three major phases: (1) an examination of the impact of the student teaching experience on the development of teacher perspectives; (2) an examination of the continuing development of teacher perspectives during the first year of teaching; and (3) further exploration of several theoretical and methodological issues related to the study of teacher socialization which emerged during the first two phases of the study. In phase one of the study, the perspectives of 13 student teachers were examined and documented during their 15-week student teaching experience. During the second phase of the study, four of the original group were followed into their first year of teaching. Phase three explored several theoretical, methodological, and policy related issues that arose during the course of the study. The final report is organized to correspond to the three major phases of the study and their implications for policy, research, and practice. Four papers which address methodological and theoretical issues in studying the development of teacher perspectives are included. The final section contains an analysis of the implications of the entire project for policy, practice, and research in teacher education and schools. The appendices include the Teacher Belief Inventory used in the study, case studies of the four beginning teachers, and statements on the dilemmas of teaching. (JD)

An evaluation report is presented of the Resident Supervisory Support for Teachers, a peer supervision program designed to improve classroom instruction by training school personnel in concepts and strategies of school supervision, with an emphasis on a peer clinical approach. Participants are trained to help teachers identify their strengths and weaknesses. The ultimate goal of the program is to provide each participating school with a cadre of peer coaches. This final report includes a description of the development and implementation of the program as well as discussion on agreements and discrepancies found between intended and observed outcomes for each program objective. Supporting data are included in the appendices. (JD)

A Call for Professionalism.

American Federation of Teachers, Washington, D.C.

Pub Date—29 Jan 85

Note—16p.; Paper presented at the National Press Club (Washington, DC, January 29, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Evaluative (142)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Minimum Competency Testing, \*National Competency Tests, Teacher Certification, \*Teacher Evaluation, Teacher Selection, \*Testing Programs

Albert Shanker, President of the American Federation of Teachers (AFT), speaks about the national testing of teachers and calls for the creation of a new and better national examination for new teachers. While members of the AFT have a few differences with some of the current reform proposals, the AFT in general supports the overwhelming majority of specific proposals called for in the various reports on the state of education. Current examining procedures are inadequate. Problems exist in the nature and level of the testing, and also with conflicts re-

garding the quality and quantity of teachers needed. The AFT supports the notion of a national teacher examination developed along the same lines as examinations for doctors, actuaries, or lawyers. Such an instrument and testing program could be developed by a group of leaders of educational organizations, college presidents and other professionals in the field who could constitute themselves as a non-governmental American board of education. Such an instrument and testing program could be developed within three to five years. The test should cover three general areas: subject matter knowledge, ability to make judgments to justify instructional decisions, and an internship program. Teacher organizations can have a very important role in the development as well as the acceptance of such a test in that the AFT and the National Education Association could make passage of such an examination a requirement for membership. Descriptors—\*Cognitive Processes, Conceptual Tempo, Field Experience Programs, Foreign Countries, Higher Education, \*Preservice Teacher Education, \*Self Evaluation (Individuals)

Identifiers—Netherlands, \*Reflective Teaching

The Mathematics Department of the Stichting Opleiding Leraren (SOL) is responsible for the education of secondary school mathematics teachers in the Netherlands. This education takes four and a half years, and includes one year of professional preparation. The program trains teachers to reflect on their experiences by means of directing their own growth in the teaching profession. The model of reflection used in the program has five phases: (1) action; (2) looking back at the action; (3) awareness of essential aspects; (4) creating alternative methods of action; and (5) trial. It is called the ALACT model after the first letters of the phases. These reflective teaching procedures are taught to prospective teachers before they undergo field experiences. Although some prospective teachers have rated the program highly, it is suggested that the program needs to consider the differences between student teachers who lean toward reflection and those who need more external support. Modern educational research has its foundation in the fact finding techniques of the great educational organizers and administrators of the last century. Those individuals brought about the change from education administered in terms of tradition, to education administered in terms of knowledge. They created an atmosphere in education, accepting new ideas and encouraging innovation based on knowledge. That transition had to take place before the emerging new sciences, related to learning and development, could have their impact. This volume traces that transition through the following chapters: (1) American Builders of the Foundation for Educational Research; (2) New Lines of Scientific Discovery and Their Implications for Education; (3) Assessment and Evaluation; (4) Intelligence Tests and Their Impact on American Schools; (5) The Thorndike Sphere of Influence; (6) Judd and His Dream of a Psychology of School Subjects; (7) The Psychology of School Subjects; (8) Behaviorism and the Shadow of the Vienna Circle; (9) Child Development as a Basis for Education; (10) Economic Research and Education for Economic Change; (11) Research on Events in the Classroom; and (12) Recent Trends and Future Promises. Descriptors—Degrees (Academic), \*Educational Change, Graduate Study, Higher Education, \*Liberal Arts, \*Preservice Teacher Education, \*Program Length, \*Teacher Certification, \*Teacher Education Programs

Identifiers—\*Extended Degree Programs, Univer-

sity of South Carolina

A mandate to reform the teacher education program on the Columbia Campus of the University of South Carolina was enacted in December, 1982. The mandate was contained in a motion to eliminate the baccalaureate degrees in education, the traditional route to teacher certification then offered. This action did not eliminate teacher education at the baccalaureate degree level; rather, it precluded the issuance of the B.S./B.A. in education degrees. Protocols were established on campus whereby undergraduate students interested in becoming teachers could earn a degree in one of the Liberal Arts outside the College of Education and complete a teacher certification program within an expanded baccalaureate degree of 138 hours. Although the planning committee considered a full five-year program as the most desirable option, the level of protest by the educational community against a five-year program was such that the committee arrived at the concept of the extended baccalaureate of 138 semester hours. This paper provides an historical record of the changes, the factors that led up to the action by the Board, and the implementation of the changes in the teacher preparation program at Columbia. Identifiers—\*District of Columbia Public Schools

This study investigated teacher recruitment and retention patterns in the District of Columbia schools, characteristics of the D.C. teaching force, incentive awards already operating in the District, financial incentives for attracting and retraining qualified teachers, and the feasibility of using the current teacher evaluation process for identifying outstanding teachers. The study also included a survey of all D.C. teachers and principals about their views of existing incentives and teaching conditions as well as their opinions of proposed incentive plans. The first section discusses concepts underlying merit pay proposals and the underlying problems and issues involved. In the second section, research on teacher incentive programs is reviewed. The third section presents the findings of the D.C. survey, and recommendations of the study task force on career development incentives and incentive awards are set forth in the final section. (JD)

The authors claim that the principal contribution of research on teacher thinking is enrichment of understanding of what teachers know and what teaching entails. Studies of teacher planning, decision making, knowledge, and theorizing can be used to provide prospective teachers with a realistically complex picture of the cognitive aspects of teaching. This research also supports the development of a conception of teaching as a reflectively professional enterprise. For both novices and experienced teachers the proposed goals of applying this research are to promote understanding of teaching as a design profession and to empower teachers in self-directed professional development efforts. Knowledge about how teachers get their work done is of worth to teachers not because it will provide them with new tools to use, but rather because it changes the way researchers view what teachers need to know; researchers can then be of more help to teachers. Descriptions of teaching that have been produced by studies of teacher thinking can help to provide a framework for researchers to decide what sorts of information, advice, and support will be useable in the classroom. Note—26p.; Paper presented at the Annual Meeting of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143) — Information Analyses (070)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—\*Action Research, Inservice Teacher Education, \*Research Utilization, \*Staff Development, Teacher Attitudes, \*Theory Practice Relationship

A study examined the impact of assuming the role of action researcher in one's own classroom as an example of inquiry-oriented, professional staff development. The study was a part of a comprehensive, longitudinal investigation of the impact of certain professional development experiences on K-12 classroom teachers. A review of the literature and interviews and questionnaire results of teachers who had been involved in a classroom based action research project sought to determine: (1) ways that teachers were influenced by reflectively analyzing their own practices in light of research regarding the teaching-learning process; (2) the impact of the teachers' attitudes toward doing research, reading research, and using the results of research; and (3) the suitability of certain data collection techniques for investigating teacher experiences and beliefs regarding the relationship of educational research and their classroom practices. The teachers felt that there have been positive increases in their knowledge and skills in the following areas: (1) effective teaching-learning; (2) research; (3) reflective thinking habits; (4) the need for continuing professional development; and (5) overall effectiveness as teachers. Descriptors—Mother Attitudes, \*Parenting Skills, \*Role Conflict, Secondary Education, \*Socialization, \*Student Teachers, \*Teacher Effectiveness, Teacher Role

A case study is presented of a secondary student teacher, focusing on her adaptation to the role of a teacher, and factors that influenced the adaptation process. The student teacher described is one of a growing number of women who are making the decision to become professionals later in life, after having experienced roles such as marriage, parenting, and other jobs. The study was conducted over a 10-week period of student teaching. This student teacher's development as a teacher is traced through changes in her teaching and related changes in the language with which she described her experiences as a student teacher. For example, as the period progressed, she devoted increasing amounts of time to instruction, and talked less about classroom management per se and more about the impact of instruction on order in the class. Her adaptation to the role of a teacher was influenced significantly by the personal resources she had due to her age and life experience. They provided her with the strength to operate according to her own values, even when they differed dramatically from those of her cooperating teacher. This process of development is discussed by drawing on the role theory as well as existing literature on the socialization of teachers. (Author/JD)

**Joseph, Daniel P.**  
**The Effects of Augmented Verbal Information Feedback in the Motor Skill Learning of Totally Blind Subjects Fourteen to Twenty-one Years of Age.**

Pub Date—Nov 85

Note—16p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Blindness, \*Feedback, Motor Development, Physical Education, \*Psychomotor Skills, \*Verbal Communication

This study examined the effects of Knowledge of Results, Knowledge of Performance and a combination of the two in the learning of a novel motor task by totally blind subjects. Thirty-three totally blind subjects tossed a velcro ball dart at a target while receiving augmented verbal information feedback. Each subject completed three learning sessions and one retention session, each consisting of 30 trials. During learning sessions subjects received one of three forms of verbal information feedback. Across each of the sessions, the combination of Knowledge of Results and Knowledge of Performance generated a higher performance mean. The increase in performance mean across learning sessions supports the position that totally blind subjects are able to use augmented verbal information feedback to improve the performance of their gross motor skills. **An Investigation: Self-Esteem and Female Elementary School Teachers.**

Pub Date—8 Nov 85

Note—36p.; Paper presented at the Annual Woman Researcher Conference (6th, Kalamazoo, MI, November 8, 1985).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Elementary Education, \*Elementary School Teachers, Females, Job Satisfaction, \*Self Esteem, Teacher Burnout, \*Teacher Characteristics, Teacher Morale, Teaching Conditions

This study measured the self-esteem of 312 female elementary school teachers in the Chattanooga area public schools, and identified their perceptions of selected job-related factors that contribute to their self-esteem. The questionnaire consisted of three parts. Part one requested demographic information. Part two consisted of the Barkdale "Self-Esteem Evaluation No. 69." The third part sought to identify characteristics of job-related factors connected with teaching. Findings indicated: (1) personal goals, feelings of competency, pride in

work, evaluation by the principal, opportunity to help children and determine own materials showed the least discrepancies between the present amount and the ideal presence; (2) prestige of the teaching profession and credit for a job well done were among characteristics where the largest discrepancies were found; and (3) feelings of competency, success, and pride related more to aspects over which teachers had some control. An analysis of findings is presented and recommendations are made for improving teachers' self-esteem. The appendixes include the survey instrument and related correspondence; a four-page list of cited references concludes the document. (JD)

Locke, Lawrence F.

**Research and the Improvement of Teaching: The Professor as the Problem.**

Pub Date—Aug 85

Note—58p.; Paper presented at the AIESEP International Conference (Garden City, NY, August 19-22, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Descriptive (141)

EDRS Price—MF01/PC03 Plus Postage.

Descriptors—Curriculum Development, Higher Education, Physical Education, Preservice Teacher Education, Program Improvement, Research and Development, Research Utilization, Teacher Educators, Teacher Effectiveness, Theory Practice Relationship

In discussing how the use of research findings can improve teacher education program, a parallel is drawn between preservice education courses for physical education teachers and commercial training courses. A number of design and personnel characteristics that have application in teacher preparation are identified. It is pointed out that commercial training programs are client-oriented to a far greater degree than teacher education programs, and that research findings have indicated the effectiveness of this approach. However, while teacher educators have access to the research literature on teaching and teacher preparation, it does not necessarily follow that recourse to such knowledge is a normal part of program operation or curriculum development. The problem of helping physical education professors become more comfortable with research is discussed within the framework of not only individual effort but also of concerted and collegial effort on the part of the faculty within the department. (A 71-item bibliography is included.) (JD)

**Qualitative Research in the Gymnasium: Old Problems and New Responses.**

Pub Date—Jun 85

Note—23p.; Paper presented at the Seminaire International "La complementarite des approches methodologiques de recherche en enseignement de l'education physique" (Quebec, Canada, June 24-25, 1985). French title: La recherche qualitative dans le gymnase: Vieux problemes et nouvelles responses.

Pub Type—Speeches/Meeting Papers (150)—Reports—Evaluative (142)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Educational Researchers, Evaluation Criteria, Physical Education, Research Design, Research Methodology, Research Problems

Identifiers—Qualitative Research  
Most, though not all, qualitative research is naturalistic in that the researcher enters the world of the participants as it exists and obtains data without any deliberate intervention to alter the setting. The resulting accounts of what people say and do form the basis for inductive rather than deductive analysis—theory is created to explain the data rather than data being collected to test pre-established theory. Some graduate students and their professorial advisors have been drawn to this form of inquiry. Novices in qualitative research encounter problems which are familiar in any form of inquiry, but which often require responses different from those used in quantitative designs. This paper discusses, within the framework of research in physical education, external and internal problems and issues faced by the researcher using the qualitative design. The paper concludes with three pages of selected references for the novice. (Author/JD)

Descriptors—Preservice Teacher Education, Program Attitudes, Special Education, Special Education Teachers, Teacher Attitudes, Teaching Experience

Identifiers—Kentucky

A study elicited opinions of and suggestions for special education teacher preparatory programs from Kentucky special education teachers. A total of 142 special education teachers in Kentucky responded to a 13 item questionnaire concerning the teachers' undergraduate and graduate level training, prevalent academic problems exhibited by their students, most effective instructional techniques, most effective classroom management strategies, most important skills for special education teachers, and professional development courses. Teachers felt that practical experience was the most valuable facet of teacher training and that a multitude of varied methods and materials was necessary to meet the unique needs of atypical pupils. The teachers suggested observing peers' classrooms and exchange of ideas among peers as an alternative to classroom lectures. Results of responses to each of the questions are discussed and displayed in tabular form. (CB)

**Teachers Expectations of Bilingual Children's Achievement.**

Pub Date—85

Note—13p.; Paper presented at the Annual Meeting of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Bilingual Students, Expectation, Language Proficiency, Primary Education, Reading Achievement, Spanish Speaking, Teacher Attitudes

A study investigated the relationship between teachers' expectations of first and second grade bilingual students and reading achievement of students in English. Through classroom observation, researchers identified the expectations held by the teachers for the bilingual students and then identified teacher behaviors toward the high and low expectation students. Finally, the relationship between teacher expectations and reading achievement of the bilingual students was determined. Teachers had higher expectations of students with higher English proficiency. Spanish speaking students often received greater overall attention than did English speaking students, regardless of high or low expectations. Teachers spoke Spanish more often with students for whom they had low expectations. Students expected to have high achievement scored higher on reading tests than did those for whom teachers had low expectation. Implications of this relationship are discussed. (CB)

Descriptors—Policy Formation, State Standards, Teacher Certification, Teacher Employment, Teacher Evaluation, Teacher Selection, Teacher Supply and Demand

Identifiers—California, Colorado, Georgia, Oklahoma

Factors that influence the design of state teacher policies and the impact of these policies on issues of

coordination, equity, and teacher supply are examined. The structure and operation of policies in effect in four states—California, Colorado, Georgia, and Oklahoma—are described, and the factors that influence the design of these state policies are analyzed. While all four states each use some type of individual assessment as well as an approved program approach to screen teachers, the state policies showed a wide range of diversity. Various movements, such as the competency education movement, influenced the design of teacher assessment policies, with the major impetus differing for each state. Contextual factors also had a role in policy design, as did availability of funds to develop assessment instruments. One aspect similar to all of the states was that the policies were here to stay, regardless of the potential for low passage rates by minorities or graduates of certain schools of education. The paper concludes with implications of the teacher assessment policies and recommendations for the development of other such policies. (CB)

**Career Development and Satisfaction among Secondary School Teachers.**

Vrije Univ., Amsterdam (Netherlands).

Pub Date—[85]

Note—140p.; Tabular material contains small print.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC06 Plus Postage.

Descriptors—Adult Development, Age Differences, Career Development, Job Satisfaction, Midlife Transitions, Secondary School Teachers, Teaching (Occupation)

Identifiers—Netherlands

The original report of this investigation into career development among secondary school teachers was published in Dutch and contained two parts. The first part was a coherent survey of literature about adult (career) development which formed a necessary condition for a justified division into different age groups of teachers involved in the investigation. A summary of this study serves as a preface to the present study. The study investigated the affect of mid-life crisis in teachers on their attitudes toward their work and their satisfaction with their job. Detailed discussions are presented on: (1) motives regarding professional choice among future teachers; (2) developments concerning the age build-up of the teacher population; (3) the construction of the evaluation instrument used to survey 2,000 teachers; and (4) results. Discussions in the section on results center around the connection between orientation and satisfaction in relation to age, and differences in job satisfaction as they relate to the subject taught and teaching conditions. A 19-page bibliography, the survey instrument, and the tabulated data relating to it are appended. (JD)

Identifiers—Florida, \*Teacher Evaluation Project FL

The work of the Florida Teacher Evaluation Project was based upon the assumption that one of the most promising approaches to the improvement of student learning is through the study and modification of teacher behavior. The work has produced products in the areas of domain documents, handbooks, and manuals. This report is an extension of the previous year's work. The establishment of norms and standards of a performance measurement system, and testing the research base and the Florida Performance Measurement System (FPMS) for generalizability were two major objectives of the project. Other aims included continuing development of the research base and observation instruments for evaluating teacher performance in relation to student achievement, and developing and testing a feedback procedure and preliminary examinations for approving observers. Generic competencies were also revised. This final report is divided into five sections: (1) norming study; (2) development of new domains of performance; (3) a proposed feedback system; (4) development of the FPMS cognitive examination; and (5) proposed revision of Florida Generic Competencies. Teams of faculty members from the 13 institutions of the Associated Colleges of the Midwest examined how liberal arts colleges can play a significant role in addressing the demand for good teachers in America's public schools. More specifically, they examined the characteristics of good teachers, the relation of these characteristics to the liberal arts, and the ways that liberal arts colleges might support teacher education, both as individual institutions and as members of a consortium. The purpose of this conference was to establish: (1) cross-departmental working relationships to improve and promote teacher education at their respective colleges; and (2) cross-college working relationships to develop, fund, and promote consortium teacher education improvement projects such as a consortium five-year program in teacher education, and a consortium cancellable-loans program for teacher candidates. The first part of this report is an executive summary, detailing the consultant's findings for the conference. The second part is a consultant's responses report, containing the consultant's questions and rationales, ideas, and recommendations which emerged from the conference proceedings. The third part of the report is a chronological-narrative report in the form of an appendix providing elaborative information for each of the findings stated in the Executive Summary. (JD)

Pub Date—[85]  
Note—22p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Educational Quality, Higher Education, \*Humanistic Education, \*Preservice Teacher Education, Program Content, \*Teacher Education Curriculum

A project is described that seeks to incorporate broader understanding of the humanities into a teacher education program. The project is based on the assumption that the study of philosophy, history, literature, and other basic disciplines of the humanities will help prospective teachers to develop interpretive, normative, and critical perspectives on education. Assuming that the route to professional competence does not lie in converting members of the human species into unreflective, dependent beings, but in engendering critical reason, this project focuses on the teacher preparation component that bridges the gap between the educated person and the professional teacher. The intent is to improve professional competence for preservice teacher educators by providing new and prospective teachers the opportunity to heighten moral consciousness

and create conditions for professional independence. An outline is presented of the contents of a course designed to reach these objectives. A reading list for students in the course is included, as well as general references. (JD)

This report describes changes that have taken place between 1980-81 and 1984-85 affecting admission/graduation requirements and recruitment efforts in teacher education programs. Specifically the survey requested information on: (1) specific requirements for admittance into teacher preparation programs; (2) changes in credit hour requirements over the last five academic years; and (3) teacher recruitment efforts. Findings are discussed and listed in tabular form. Highlights include: (1) A majority of the nation's schools, colleges and departments of education (SCDEs) do not accept freshmen into their programs; (2) Most have minimum grade point average requirements in general studies for entering students; (3) The average number of credit hours required for a baccalaureate degree in education is about 127 hours and relatively constant in all institutions; (4) Education courses constitute about one-third of all credit hours required for graduation for elementary programs and just over one-fifth of those from secondary programs; (5) Virtually all programs require their students to have teaching practice before graduation; and (6) About two-fifths of the SCDEs have minimum grade requirements for completing general studies in English as part of their admission procedure. Developed Materials, Teacher Participation Identifiers—\*Focus on Teaching Project (Scotland), Scotland

The Focus on Teacher Project worked in the field of primary teacher staff development. Its aim was to produce, from a platform of school-based research, INSET materials to support improvement in primary classroom teaching. The focus was specifically on teaching, rather than on other aspects of a teacher's professional work. The materials to be produced in the project were to be for primary staff development in school—ideally for school staffs to use themselves without the help of outsiders being necessary. These materials were not to be directed merely at surface or even just technical improvements in teacher performance but were to go deeper and affect teachers' thinking about teaching; their actual conceptualization of teaching itself. Being a research and development project, Focus on Teaching was designed to do conceptual work and not just produce materials. The project was a joint effort between staff researchers and teachers who worked closely and intensively together. In this final report on the three-year project (1983-85), an overview is presented of the sequence of activities initiated by the project, trials and use of materials developed, and dissemination results. Appended are 7 figures and 38 tables illustrating the activities and products of the project, as well as information on the project chronology and on questionnaires used during the project and samples of appraisals from people using the project materials to improve their own and other's teaching. A Comparative Study on the Effects of Traditional versus Wholistic Physical Fitness Programs.

Pub Date—[83]

Note—35p.

Pub Type—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Comparative Analysis, Conventional Instruction, Higher Education, Holistic Approach, Physical Education, \*Physical Fitness, Stress Management, \*Training Methods

This experimental investigation compared the traditional and wholistic approaches to physical fitness. Volunteers from a physical education class were randomly assigned to three experimental groups: physical fitness, fitness/stress management, and fitness/stress management/wellness. A control group was selected from volunteers of a personal health class. Pre-post testing of subjects included: height, weight, skinfold thickness and percent fat measurements, sit and reach test, 10-minute submaximal treadmill test, State Trait Anxiety Inventory, Cornell Medical Index, Holmes-Rahn Stress Test, Personality Stress Test, Tennessee Self-Concept Scale, and the Canadian Lifestyle Indicator. During a 7-week period subjects received treatment according to their designated group. Statistical data analysis employed the ANOVA and Duncan's Multiple Range Test at the .05 alpha level. Results indicated subjects receiving a wholistic approach to physical fitness were not significantly different from those in the traditional physical fitness program. (Author)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Higher Education, \*Interpersonal Competence, Lecture Method, Mainstreaming, Practicum, Preservice Teacher Education, \*Teaching Methods, \*Team Teaching, Videotape Recordings

Regular educators need to develop skills to work collaboratively with specialists in meeting the special needs of young children in the mainstreamed classroom. These skills include: (1) developing a common knowledge base; (2) using effective interpersonal strategies; (3) using a problem solving approach related to individual and classroom instruction issues; (4) engaging in joint planning; and (5) teaching as a team with complementary roles. A one-year study was conducted to determine the effectiveness of three instructional methods to learn collaboration skills: (1) lecture-discussion; (2) instruction using videotape; and (3) systematic, guided experience in an interdisciplinary practicum.

A three-part written test and an experiential assessment were used to measure the effects of the three instructional methods. There were significant statistical differences on two parts of the written test and qualitative differences in the experiential assessment among the three instructional groups. Overall, systematic experience in an inter-disciplinary practicum was most effective on all measures in students' acquisition of collaboration skills. (Author/JD)

There has been a flood of publications concerned with the teaching of thinking and problem solving, a great many exploring definitions and approaches to instruction. This book explores the implications of recent theoretical positions as in the work of Elliott Jaques, Joseph Walters, and Howard Gardner; examines the long interest and study of intellectual development with the gifted and talented, which has occupied Harry Passow's attention for more than a decade; and examines specific theoretical and related curricular approaches described in the essays by Allan Glatthorn, Robert Sternberg, Frances Link, and Garry McDaniels. Wherever possible, these authors analyze how their ideas might contribute to thinking about educational planning. (JD)

Illinois Teacher Salary Schedule and Policy Study.

1984-1985.

Illinois State Board of Education, Springfield, Dept. of Planning, Research and Evaluation.

Pub Date—85

Note—190p.; For the previous year, see ED 243 827.

Pub Type—Numerical/Quantitative Data (110)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—Degrees (Academic), Elementary Secondary Education, School Districts, \*State Standards, \*Teacher Salaries

Identifiers—\*Illinois

The adoption of a salary schedule for Illinois teachers is typically the result of formal negotiations or comes out of meetings between representatives of the local board of education and the teacher organization. The majority of these districts engage in collective bargaining either annually or biannually. In view of a widespread need for comparative information, this study provides school board members, teachers, administrators, and the general public with accurate teacher salary schedule and contract provision information by school district. It also presents a statewide summary analysis as a comparative basis for overall planning and decision making. Salaries actually paid to teachers are reported and include salaries for full-time elementary, secondary, and special education classroom teachers employed by school districts. (JD)

Quality Assessments of Prospective Teachers: Surveys of Previous and Present Practices. College Reading and Learning Assistance Technical Report 85-11.

Spons Agency—College Reading Association.

Pub Date—Nov 85

Note—40p.

Pub Type—Reports—Research (143)—Tests/Questionnaires (160)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Basic Skills, \*Education Majors, \*Graduation Requirements, Higher Education, \*Minimum Competencies, \*Preservice Teacher Education, \*State Standards, Teacher Evaluation, Testing

A critical analysis of reports and empirical literature on the quality of candidates in teacher education programs is presented and the results of a nationwide survey of basic skills competencies required of such candidates are described. While standardized test scores for education majors have been declining, many states in the survey did not corroborate an attendant decline in basic skills competencies. It was also noted that a growing number of states are requiring prospective teachers to pass a test of basic skills, and at least two states are requiring a similar test for inservice teachers. In response to concerns over eroding standards, representatives of state credentialing agencies have recommended that colleges and universities impose stricter entrance and exit requirements, remedial coursework for students deficient in basic skills, and revocation of program certification of certain teacher training institutions that continue to graduate high numbers of students who fail to meet basic skill criteria. A copy of the survey instrument is appended. A master list of College Reading and Learning Assistance Technical Reports is also provided. (JD)

Descriptors—\*Demonstration Programs, Elementary Secondary Education, Program Costs, \*Program Descriptions, \*Program Development

Identifiers—\*National Diffusion Network Programs

This monograph presents an overview of all educational programs approved for national dissemination by the federal Joint Dissemination Review Panel since 1974. It provides basic information on exemplary products and practices in the described projects. The projects are divided into 16 sections: (1) adult education; (2) administration/organizational arrangements; (3) alternative schools/programs; (4) basic skills—language arts/writing; (5) basic skills—mathematics; (6) basic skills—multidisciplinary; (7) basic skills—reading; (8) bilingual/migrant education; (9) career/vocational education; (10) early childhood/parent involvement; (11) gifted and talented/technology/special interests; (12) health/physical education; (13) preservice/in-service training; (14) science/social science; (15) special education/learning disabilities; and (16) projects whose services are no longer available. The last section offers the following indices: sectional cross reference, projects by state, ERIC descriptors, and alphabetical listings. (JD)

Smokeless Tobacco: Attitudes and Practices in a Sample of Preservice Teachers.

Pub Date—Oct 84

Note—16p.; An earlier version of a paper presented at the Annual Meeting of the American School Health Association (Pittsburgh, PA, October, 1984).

Pub Type—Speeches/Meeting Papers (150)—Reports—Research (143)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Drug Use, Education Majors, \*Habit Formation, Higher Education, \*Physical Health, Role Models, \*Student Attitudes, Tobacco

Identifiers—\*Smokeless Tobacco

This study determined the prevalence and patterns of smokeless tobacco use in a sample of preservice educators at a southern university, and identified factors associated with initiation and reinforcement of the activity. A 26-item survey was completed by 174 persons enrolled in a course required for completion of the teacher education program. Results indicated that 23.3 percent of the male respondents, but none of the female respondents reported current use of smokeless tobacco. Among users, 55.0 percent used it nearly every day. Most users (60.0 percent) "dipped" or "chewed" 4-7 times per day. The factor most often cited for initiation of use was the influence of a friend. Both users and nonusers were unable to identify the

health effects associated with smokeless tobacco. It is concluded that a significant number of male preservice teachers in this geographic area use smokeless tobacco. Ignorance in this group about the health effects of smokeless tobacco is notable. These data suggest that some persons in the field of education have succumbed to the wave of popularity that smokeless tobacco enjoys in parts of the United States. The influence that these future educators could have on acceptance of smokeless tobacco use by younger audiences as a viable recreational activity may have practical significance for the college health educator. Descriptors—Busing, Divorce, Drug Abuse, Elementary Secondary Education, One Parent Family, Poverty, Pregnant Students, \*School Responsibility, \*Social Problems, Suicide

Using the schools to achieve racial balance, eliminate poverty, fight drug abuse, prevent pregnancy, and reduce youth suicide is simply too much to ask. Teachers and principals should be required to address educational issues, not unmet social needs. Moreover, those who demand the schools' improvement would be well-advised to pay significant attention to the social issues that have played such a critical role in the decline of the public school systems. If there is a wish to improve the educational performance of U.S. schools, first there must be improvement in the quality of life for U.S. youth. Only when this improvement occurs can an evaluation be made as to the degree to which schools are fulfilling their educational objectives. (JD)

A Researching Profession? The Growth of Classroom Action Research.

Pub Date—Dec 83  
Note—10p; Paper presented at the Seminar on Pedagogy, (Glasgow, Scotland, December 10, 1983). A product of the Focus on Teaching Project, Moray House College of Education.

Pub Type—Reports - Descriptive (141) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—\*Action Research, \*Classroom Research, Educational Research, Elementary Secondary Education, Participative Decision Making, Professional Development, Program Improvement, \*Teacher Participation

In education, action research is research carried out by practitioners with a view to improving their professional practice and understanding it better. This paper concentrates particularly upon classroom action research by inservice teachers, although the approach can also be embodied in preservice training courses and can embrace a very

wide range of professional practice outside the classroom. Classroom action research is now seen as a major means of professional development, particularly within innovative inservice courses and programs and, as such, it is attracting growing support and interest. As this approach becomes more widespread, the notion of teacher-as-researcher becomes better developed and more fully understood. This paper outlines the origins of the approach, describes its characteristic features, gives examples, and presents two questions which it raises for Scotland: (1) how will this approach contribute to the development of in-service? (2) how will it contribute to the development of research? (Author/JD)

Teacher Stress—An Ongoing Problem That Needs Attention.

Pub Date—Feb 86  
Note—15p; Paper presented at the Annual Meeting of the Association of Teacher Educators (Atlanta, GA, February 22-26, 1986).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Elementary School Teachers, Secondary School Teachers, Self Esteem, \*Stress Variables, \*Teacher Burnout, Teaching Conditions, Teaching Experience, \*Work Attitudes

This study examined the amount of perceived stress and its dimensions on 121 elementary and secondary school teachers. Correlations were found between the "Emotional Exhaustion" dimension of stress and gender (males experienced more burnout) and years of teaching (teachers with more years at their present job experienced more burnout). Correlations were also found between the "Depersonalization" dimension of stress and education level (secondary teachers experienced more burnout). Correlations were found between the third dimension of stress, "Personal Accomplishment" and gender, years of teaching, and years at the present job. The years at the present job made a significant contribution to the prediction of the three dimensions of burnout—Emotional Exhaustion, Depersonalization, and Personal Accomplishment. The subjects of this study perceived themselves to be in a low degree of burnout in the dimension of Emotional Exhaustion, but highly burned out in the dimensions of Depersonalization and Personal Accomplishment. It is suggested that teacher educators should consider changes in their curriculum to encourage the development of an internal locus of control and a more realistic attitude toward students and the administrative structure. Administrators should expand decision making in the curriculum and enhancement of external rewards recognizing competence. (Author/JD)

Influences of Personal and Academic Characteristics on Beginning Teacher Education Students' Attitudes, Concerns, and Anxieties Toward Teaching.

Pub Date—Feb 86  
Note—24p; Paper presented at the Annual Meeting of the Association of Teacher Educators (Atlanta, GA, February 22-26, 1986).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Academic Aptitude, Anxiety, Career Choice, \*Education Majors, Preservice Teacher Education, \*Student Attitudes, \*Student Characteristics, \*Teaching (Occupation)

The relationships between measures of anxiety, concerns, and attitude toward teaching and selected personal and academic characteristics of 260 beginning education students were investigated. Relationships were found between these measures and basic academic skills, earliness of decision to enter teaching as a career, relative assurance of decision to become a teacher, estimated future success as a teacher, level of father's education, gender of student, selected teaching field, and attained college class rank. Among the more specific findings were: males were more concerned about actual teaching tasks; more capable students were less positive about teaching and tended to delay their decision to become a teacher; students whose fathers had less education were more anxious about teaching; higher achieving students were more concerned about becoming teachers; students more confident about teaching had more positive attitudes and lower anxiety

scores. (Author)

Evaluation of a Diagnostic Teacher: A Reflective Analysis.

Pub Date—Feb 86  
Note—21p; Paper presented at the Annual Meeting of the Association of Teacher Educators (Atlanta, GA, February 22-26, 1986).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—\*Diagnostic Teaching, \*Learning Strategies, Secondary Education, Self Evaluation (Individuals), Teacher Improvement, \*Teaching Methods

Identifiers—\*Reflective Analysis

An eighth grade English teacher with 12 years of teaching experience in a conventional classroom setting decided to modify teaching and learning strategies to respond to the needs, interests, and abilities of individual students in a group setting. This action research study used the method of reflective analysis to analyze the process and results over a three-year period. Key components of the reflective analysis process include: (1) a recollection of an experience; (2) organization and use of data; (3) a form of representation; (4) an analysis of change and the process of change; and (5) confirmation of the findings. A description is given of how each of these five stages were followed in developing an accurate profile of the teachers' progress in bringing about the desired application of diagnostic teaching to the classroom. Factors that significantly assisted or impeded this progress are pointed out. The study shows that the method of reflective analysis is viable as a tool for experienced teachers who may be interested in examining their professional practice through a formal process of introspection. Appendices include data resulting from the study and references are supplied. (JD)

Lester, Paula E.  
Teacher Job Satisfaction: A Perspective.

Pub Date—Feb 86  
Note—25p; Paper presented at the Annual Meeting of the Association of Teacher Educators (Atlanta, GA, February 22-26, 1986).

Pub Type—Speeches/Meeting Papers (150) — Reports - Research (143) — Information Analyses (070)

EDRS Price - MF01/PC01 Plus Postage.  
Descriptors—Elementary Secondary Education, Faculty Mobility, \*Job Satisfaction, Professional Recognition, \*Teacher Attitudes, Teacher Characteristics, \*Teaching (Occupation), Teaching Conditions

This study consisted of the development of the Teacher Job Satisfaction Questionnaire (TJSQ), designed to assess teacher job satisfaction in elementary and secondary schools. A thorough review was conducted of concepts, theories, and approaches related to job satisfaction in order to develop a clear definition of job satisfaction. A list of different factors which might account for teacher job satisfaction was compiled after a systematic review of the literature. These factors were given operational definitions and an item pool was created. Statistical procedures were followed to develop a representative sample of items, and tests of reliability and validity were performed. A pilot study was conducted to improve the instrument before the final study. Item analyses and tests for item discrimination were performed to eliminate undesirable items. The questionnaire sought to identify the reasons people choose teaching as a career, the characteristics of teaching and reasons people leave teaching. The TJSQ was submitted to randomly selected teachers at all levels (in New York City, and Westchester, Nassau and Suffolk counties) and 620 returns were received. Resulting data is discussed and areas of general dissatisfaction are identified. Suggestions are made for administrators on evaluating staff attitudes and improving teaching conditions. (JD)

The Application of Instructional Design and Modeling Theory in Educational Psychology.

Pub Date—Feb 86  
Note—14p; Paper presented at the Annual Meeting of the Association of Teacher Educators (Atlanta, GA, February 22-26, 1986).

Pub Type—Speeches/Meeting Papers (150) — Re-

ports - Research (143)

**EDRS Price - MF01/PC01 Plus Postage.**

**Descriptors—**Course Content, Curriculum Development, \*Educational Psychology, \*Instructional Design, Learning Strategies, \*Modeling (Psychology), Preservice Teacher Education, \*Teacher Education Curriculum

Practically every teacher preparation institution offers a course in educational psychology, and it is often the initial education course taken by preservice teachers. Problems with such courses are that they are usually taught by several instructors with no standardization of course content, and the strategies used to teach these courses often do not model the theories covered. This paper describes an attempt at Montana State University to resolve and respond to these problems. A search for a solution led to a five-step training process described by Joyce and Showers (1980). In addition, education faculty involved in teacher education and students who had taken the course were surveyed to determine what they considered to be important. As a result of this survey, eight important components were identified: behavioral, cognitive, developmental, and humanistic psychology; learning styles; brain research; exceptional children; and multicultural education. In order to standardize this material, an instructional analysis, based on instructional design theory, was developed for each component. This process can be applied to other courses in the teacher education program. (Author)

**Identifiers—**\*Pennsylvania, \*Testing for Essential Learning And Literacy Skills

Pennsylvania Governor Dick Thornburgh initiated an education reform package, "Turning the Tide: An Agenda for Excellence in Pennsylvania Public Schools" in October 1983. The statewide competency testing program which followed was "Testing for Essential Learning and Literacy Skills (TELLS), and it tested reading and mathematics skills among students in grades 3, 5, and 8. State-funded remedial instruction was to be provided for students whose scores indicated a deficiency at their grade level. Tests were administered for the first time in October 1984 and were mandatory for the state's 501 school districts. (Participation was voluntary for nonpublic schools, and approximately one third of the nonpublic schools elected to participate.) This report summarizes the results of that administration. Aggregate data is given first for both public and nonpublic schools. District results follow in an alphabetical listing. Nonpublic school results are listed on the last page. The list presents, by district, the following figures for each of the six TELLs tests: (1) the number of regular students tested; (2) the number of regular students eligible for remedial instruction; and (3) the percentage of regular students eligible for instruction, computed by dividing the number eligible by the number tested in each case. **EDRS Price - MF01/PC01 Plus Postage.**

**Descriptors—**Correlation, \*Guessing (Tests), Research Design, \*Scoring Formulas, Secondary Education, Testing, \*Test Interpretation, Test Items, \*Test Theory

**Identifiers—**\*Rights and Formula Scoring

This paper points out that there are certain generalizations about directions for guessing and methods of scoring that require that data be derived from random groups design. It supports the viewpoint that it is neither sufficient nor appropriate to make such generalizations on the basis of an analysis of scores obtained from the answer sheets of only one group of students. An earlier study, using the principle of separate groups for separate instructions, was conducted by administering the SAT-Verbal to four randomly equivalent groups of students. It was found that if two groups were given the test with different directions, those given the test with Rights directions guessed more often and earned significantly higher Rights scores. When their papers were rescored by Formula, the Formula scores came much closer together. The two types of administration-and-scoring were about equally reliable. The correlation between Rights scores on one test and Formula scores on another was about the same as the correlation between Rights and Rights or between Formula and Formula. The approach that an examinee takes in responding to test questions is very much affected by the instructions he or she receives. (LMO)

**Identifiers—**Comprehensive Education Reform Act (Tennessee), \*Tennessee

This State model for teacher evaluation meets the requirements of Tennessee's Comprehensive Education Reform Act of 1984 (CERA). Special guidelines, approved by the State Board of Education for the beginning year of CERA (1984-85), are incorporated into the State model for local evaluation. Groups who must be evaluated during the 1984-85 school year are: (1) probationary teachers, who are beginning their first year of teaching; (2) teachers in their third year of teaching who elect to declare their intent to enter the Career Ladder for the 1985-86 school year; and (3) fast-track/full evaluation teachers, who have three years or more of experience and who have chosen to enter Career Level I during 1984-85 by the fast-track/full evaluation option. The model is suitable for evaluating all teachers and is not limited to evaluation of Career Ladder candidates. Included in the descriptions and evaluation instruments are: (1) basic assumptions and principles; (2) focus of evaluation; (3) methods for performing the evaluation; (4) reviewing the previous evaluations; (5) analysis of lesson plans; (6) in-class observation; (7) classroom observation instrument; (8) post observation conference record; (9) teacher conference forms; (10) improvement plan forms; (11) decision model, including rating scales; and (12) description of suggested management system. **Identifiers—**\*Functional Ability Rating Scale

The Functional Ability Rating Scale (FARS) is an instrument developed by local direct service workers in the field of human services to provide an objective measure of an individual's degree of limitation in seven areas of major life activity (MLA). The subject's level of functioning is assessed in Self-Care, Language and Communication, Learning Mobility, Self Direction, Capacity for Independent Living and Economic Self Sufficiency. FARS is intended to assess mentally retarded/developmentally disabled, mentally ill, and physically disabled individuals eighteen years of age or older. The scale consists of twenty-eight descriptions of component skills spread over seven areas of MLA. The rater is asked to score an individual according to his or her ability to perform the component skill, on a scale of one to five. Information can be gathered by several methods, in order of preference: (1) client interview/observation; (2) interview of client's significant others; and/or (3) review of client's case records. Reliability, validity, interrater Mobility, Self Direction, reliability, and test/retest reliability studies have been conducted using the Vineland Social Maturity Scale and the AAMD Adaptive Behavior Scale. The results are presented in table format. The scale and instructions for completing it are appended. (LMO)

**Identifiers—**\*Adaptive Learning Environments Program

This paper reports the results from an investigation of a method for systematic development of a procedure for assessing the administrator and instructional leader roles in implementation of an innovative school program. The purpose of the study was to design and field-test a feasible and useful approach to examining the degree of operationalization of certain administrative roles and responsibilities that have been identified as critical for performance by school principals and other designated instructional leaders in order to provide adequate implementation support. Instrument design procedures are described and results from the study are summarized based on data from 19 teachers, five principals, and four education specialists from five elementary schools where an innovative educational program known as the Adaptive Learning Environments Model (ALEM) was implemented. The implications for further research in the development of procedures for assessing the degree of program implementation and in the use of implementation assessment data also are discussed. Appendices include sample performance indicators and scorable descriptors, a list of essential performance indicators, and sample pages from the teacher survey for the principal and education specialist implementation measures in the ALEM. Identifiers—\*Florida Cooperative Extension Service

The purposes of this study are: (1) to investigate the attitudes of Florida Extension Service specialists toward in-service education evaluation; (2) to determine the extent to which extension specialists are evaluating in-service education programs for which they have responsibility; (3) to determine the kinds of in-service education evaluation information considered by Extension specialists to be important; and (4) to determine the uses being made of the evaluation information collected. Data were collected through open-ended telephone interviews with twenty state extension specialists. Interviewees were selected from 35 specialists listed in the 1983-84 Florida Cooperative Extension Service Professional Development Opportunities Booklet. They were asked to describe evaluative information that was most useful to them with regard to their in-service education programs and to list ways in which the information was being used. Information collected was primarily perceptual and reactive, but it encompassed a variety of program aspects. Of importance to specialists, in order of rank, were the following: (1) participants' perceptions of the usefulness of the content of the training; (2) perceptions of the extent that programs expectations had been met; and (3) reactions to various aspects of the teaching-learning process. Ediger, Marlow  
Evaluation of Pupil Achievement.

Pub Date—[85]

Note—28p.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC02 Plus Postage.

Descriptors—Check Lists, \*Educational Assessment, Elementary Education, \*Evaluation Methods, \*Formative Evaluation, Humanistic Education, Parent Teacher Conferences, Rating Scales, Sociometric Techniques, Standardized Tests, \*Student Evaluation, Student Records, \*Summative Evaluation, Teacher Made Tests, Units of Study

Because not all approaches to evaluating pupil achievement evaluate in the same facets of development, many methods are necessary to assess learner achievement in the different curriculum areas of the elementary school. This paper examines methods of evaluating pupil achievement, including: work samples, checklists, rating scales, sociometric devices, teacher-pupil conferences, parent-teacher conferences, diary entries, anecdotal records, teacher-made tests (essay items, true-false items, multiple-choice items, matching items, completion items), and standardized tests. Other techniques related to pupil evaluation are self-evaluation by teachers, and formative and summative evaluation. Feedback from evaluation results need to be utilized to improve the curriculum. Improved specific objectives, learning activities, and appraisal procedures selected by teachers might be a relevant end result. (LMO)

The Effect of the Violation of the Assumption of Independence When Combining Correlation Coefficients in a Meta-Analysis.

Pub Date—85

Note—22p.; Paper presented at the Annual Meeting of the American Educational Research Association (69th, Chicago, IL, March 31-April 4, 1985).

Pub Type—Speeches/Meeting Papers (150)—Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Correlation, \*Effect Size, Mathematical Models, \*Meta Analysis, \*Monte Carlo Methods, Path Analysis, Predictor Variables, Regression (Statistics), \*Research Methodology, Statistical Studies

Meta-analysis is a technique for combining the summary statistics from previously conducted research studies to indicate the direction of results and provide an index of the magnitude of effect size. This paper focuses on the effect of the violation of the assumption of independence (that the value of any included statistic is in no way predictable from the value of any other included statistic) when combining correlation coefficients to determine effect size. A Monte Carlo simulation used the following four parameters and specified values: (1) the sample size within a study (20, 50, 100); (2) the number of predictors (1, 2, 3, 5); (3) the population intercorrelation among predictors (0, .3, .7); and (4) the population correlations between predictors and criterion (0, .3, .7). Path diagrams are given for each predictor case. The means, medians, and standard deviations of the correlation coefficients and the Fisher's Z transformation of the correlation coefficients for all population correlations and population intercorrelation values for each sample size were calculated and the data is presented in table format. As all the standard deviations were very close to their expected values, it is concluded that non-independence does not affect the estimation of either the measure of central tendency or the standard deviations when the same population parameter is being estimated. An Investigation of the Feasibility of Using the Three-Parameter Model for Florida's Statewide Assessment Tests

Florida State Univ., Tallahassee. Coll. of Education. Spons Agency—Florida Univ., Gainesville. Inst. for Student Assessment and Evaluation.

Pub Date—Dec 85

Note—63p.; For a related document, see TM 860 045.

Pub Type—Reports - Evaluative (142)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Elementary Secondary Education, Equated Scores, Feasibility Studies, Goodness of Fit, Guessing (Tests), Item Analysis, Item Banks, \*Latent Trait Theory, \*Mathematical Models, \*Minimum Competency Testing, Sample Size, \*State Programs, \*Testing Programs

Identifiers—Florida, \*Florida Statewide Student Assessment Tests, LOGIST Computer Program, Rasch Model, \*Three Parameter Model

This study investigated the feasibility of using the three-parameter model in Florida's minimum competency testing program. LOGIST 4 was used to analyze 1984 Statewide Student Assessment Tests (SSAT)-II data, exploring possibilities that easiness of the test would cause problems in the estimation of the a and c parameters. These problems and results of the trial analysis are discussed in chapter 2 of this 7-chapter report. An elaborate investigation of the assumption of unidimensionality of SSAT scores is reported on in chapter 3. In the next two chapters, goodness of fit of the one-, two-, and three-parameter models to the SSAT-II data is discussed, and the results of a parameter estimation investigation are described, along with a consideration of the appropriateness of different models. Chapter 6 reports on studies of the optimum number of examinees to be used in analyzing the data available from Florida's tests, including an attempt to improve parameter estimates by oversampling the lower end of the achievement distribution. A brief chapter of conclusions completes the report. (LMO)

Descriptors—Elementary Secondary Education, Equated Scores, Feasibility Studies, Guessing (Tests), Item Analysis, Item Banks, \*Latent Trait Theory, \*Mathematical Models, Minimum Competency Testing, \*State Programs, \*Testing Programs

Identifiers—Florida, \*Florida Statewide Student Assessment Tests, LOGIST Computer Program, Rasch Model, \*Three Parameter Model

This study investigated the feasibility of the use of the three-parameter item response theory (IRT) model in Florida's minimum competency testing program. The paper includes the following sections: (1) a description of the procedures currently being used by the assessment program, with an emphasis on procedures currently involving the Rasch model; (2) a technical discussion of the differences between the two approaches; (3) a description of commercial and governmental testing programs now using the three parameter approach; (4) a description of the availability and adequacy of computer procedures for implementing the three parameter approach; (5) an analysis of the effect on the procedures currently used by the program if a move to the three-parameter program were made; and (6) a plan for implementing a try-out of the three parameters approach on Florida's assessment program data. This paper documents the evaluation use process among districts using the Guide for Evaluation Decision Makers, published by the Center for the Study of Evaluation (CSE) during the 1984-85 school year. Included are the following: (1) a discussion of research that led to conclusions concerning the administrator's role in evaluation use; (2) a characterization of project objectives and how they grew out of research findings; (3) a description of the process of locating and selecting districts to implement the guide; (4) a description of each evaluation context (the use-affecting factors which emerged at each site, the application of the guide by administrators to promote use, success in applying the intended evaluation uses); (5) a discussion of implementation issues; (6) a synthesis of the results across sites; and (7) suggested implications for future practice. Appendices include a factor pattern for evaluation use, worksheets, organizing strategies from the guide, a letter of invitation and a project description, and questionnaires for evaluation. (LMO)

Descriptors—Academic Achievement, \*Computer Oriented Programs, Databases, Data Interpretation, \*Educational Assessment, Elementary Secondary Education, High Schools, \*Information Systems, \*Information Utilization, \*Organizational Communication, School Surveys, Student Characteristics

Identifiers—\*School Based Information Systems

This paper presents a study of the contrast of social and clinical perspectives on the selection and use of information by school staff, including: (1) an outline of the context and activities of the study; (2) a definition and discussion of the basic distinction between social and clinical perspectives; (3) an examination of case material accumulated from the study; and (4) a discussion of implications for

school-based information systems. The study was conducted in a three-year secondary school of approximately 2,000 students, just outside of the greater Los Angeles area. A selected group of five to ten teachers, two administrators, and a counselor helped to develop the means whereby the district's extant information system could be modified or augmented to better meet the needs of staff at the building level. Three reporting mechanisms were designed for organizing student information: Student-At-A-Glance, Class-At-A-Glance, and School-At-A-Glance. The last phase of the study revolved around the actual use of reports by school staff. The ongoing assumption derived from the study is that multilevel analysis and interpretation of school-based information has an immense potential for facilitating individual-diagnostic, class-instructional, and school-organizational planning decisions and evaluations. Identifiers—\*Educational Indicators, National Assessment of Educational Progress.

The desire for a national picture of educational quality remains a continuing but unresolved goal. A question has been raised among high level policymakers regarding the feasibility of using existing data collected by the states to construct education indicators for state-by-state comparisons of student performance at the national level. A feasibility study was contracted to the UCLA Center for the Study of Evaluation (CSE) to explore the methodological and implementation issues of this approach. The results of the feasibility study are described and discussed in this report. Included in the study are analyses of: (1) the general characteristics of current state testing programs and of the content of currently used state tests; (2) alternative approaches to linking test results across states to create a common scale for purposes of comparison; and (3) the availability of auxiliary information about students and schools and its potential use in creating more valid indicators of achievement. These analyses culminated in a number of recommendations about ways to facilitate the use of state data for national comparisons. These recommendations focus on basic preconditions, proposed approaches, pilot study needs, auxiliary information collection and documentation, and strategies for optimizing political, institutional, and economic support. Descriptors—\*Adaptive Testing, \*Computer Assisted Testing, Computer Oriented Programs, \*Computer Science, \*Diagnostic Tests, Elementary Secondary Education, Microcomputers, \*Models, Prediction, Psychometrics, Reading Comprehension, \*Test Theory  
Identifiers—\*Diagnostic Testing Project

The use of computers to build diagnostic inferences is presented in two contexts: (1) closed world,

exemplified by the space shuttle launch monitoring system; and (2) open world, represented by computerized diagnostic testing of reading comprehension. The analysis shows that the closed world provides a substantially cleaner environment within which to perform diagnostic inference. In the case of educational diagnosis, most domains tend to be relatively open-ended, and thus no comparable clarity can be found. If the test materials for computerized administration can be designed within tightly controlled parameters, and if the diagnostic strategy can be strongly tied to theory about performance errors within the topic domain, then many of the ambiguities of diagnostic inference will be closer to resolution. The computer has proved itself valuable in managing more traditional varieties of educational test administration and scoring. Properly programmed, the computer can become an unparalleled asset in the context of diagnostic testing. (LMO)

Identifiers—\*Instructional Information Systems, Instructional Management Systems, Specificity, \*Systemic Evaluation Project

This paper presents an analysis of the factors influencing human decision making, and its implications for the judgments and choices that result from juxtaposition of data with decision content. The analysis serves as a background for the consideration of selected issues regarding the specificity of information in data-based decision making in schools. The text is divided into the following sections: (1) reasons for focusing on specificity of information during the course of the Systemic Evaluation (SE) Project; (2) issues that influence the choice of appropriate specificity of information in data-based decision making in schools; (3) application of points raised during general analysis to the work on instructional information systems; (4) examples from existing practice illustrate specificity choices; and (5) suggestions intended to advance the state of practice with regard to balancing the competing factors that impinge the choice of specificity in data-based decision making in schools. Identifiers—Diagnostic Testing Project

This manual is designed to provide teachers with technically sound, easy-to-follow procedures for developing diagnostic tests to be used with their own students. The definition of diagnostic testing is

broadened to include any tests systematically designed to provide information about skills that students have or have not mastered. A five-step development process divides the manual into five sections: (1) Specify the Diagnostic Skills to be Tested; (2) Create the Test Description; (3) Write the Test Items; (4) Review Test Items; and (5) Try Out Items. Much space is devoted to the conceptual plan underlying the diagnostic test, the skill map. Several strategies for developing the skill map through task analysis are mentioned. The application of research-based analytic methods to the description of important skills is treated as the core of the description section. Once the conceptual base for the diagnostic test is documented in the skill map and the test description, the steps for writing, reviewing, and trying out diagnostic items remain much the same as those used in survey testing programs. Appendices include model test descriptions, many with graphics, a test description review form, sample constructed response scoring guidelines and sample test item formats. (LMO)

Descriptors—Academic Standards, College Bound Students, Dropouts, \*Educational Change, Educational Improvement, Educational Trends, \*Equal Education, \*Graduation Requirements, High Schools, Noncollege Bound Students, \*Outcomes of Education, \*Required Courses, \*Secondary School Curriculum, Secondary School Teachers, State Legislation, State Standards

Since the 1983 publication of "A Nation at Risk," most states have responded to public demand for educational improvement by enacting legislation increasing the number of units in academic subjects required for high school graduation. Required courses now consume three-quarters of the high school years, countering the former trend to large offerings of various elective courses. This task force report to the Association for Supervision and Curriculum Development examines the observed and anticipated consequences of these requirements for the curriculum, for students, and for teachers. Major findings include: (1) students are required to make greater effort, and those going on to college will be better prepared to succeed; (2) negative consequences are more likely for those students not going to college as evidenced by the accelerating dropout rate; (3) inadequate attention has been paid to requiring carefully balanced programs; (4) time for elective courses has decreased, and increased requirements reinforce past artificial divisions of knowledge; and (5) teachers' professional latitude is being sharply curtailed. It is recommended that educators closely monitor, document, and evaluate actual consequences of increased graduation requirements on students and teachers, and that these findings be relayed to parents and legislators to ensure that future policy changes are enacted with wisdom. Identifiers—\*Test Specifications, Texas, \*Texas Educational Assessment of Minimum Skills

The Texas Educational Assessment of Minimum Skills (TEAMS) Exit Level Writing Test is based on eight behavioral objectives that fall under five skill areas. Satisfactory performance on this test is required for high school graduation in Texas. This document, intended for teachers and test developers, presents general testing instructions and specifications for each of the objectives. Test items and answer choices are described, and sample items are included for the multiple choice test. The five skill areas are: (1) mechanics—demonstrating knowledge of capitalization, punctuation, and spelling; (2) demonstrating knowledge of correct English usage; (3) recognizing correct and complete sentences; (4) organizing a written communication; and (5) proof-reading. (GDC)

The Chapter 1 Early Childhood Education (Preschool) Program in The Portland Public Schools (Oregon) provides educationally disadvantaged children with the experiences needed to ameliorate the disadvantages as they enter kindergarten. This year-end evaluation report contains both the statistical report forms with student test results and a narrative supplementary report for the 1984-85 preschool program. The narrative report contains: (1) a program description, including organization, student characteristics, recruitment and attendance, facilities and materials, daily activities, and project costs; (2) evaluation methodology and findings, which are organized according to program goals in the subject areas of language, arithmetic, small motor skills, and social skills as measured by the Record of Goals Mastery; (3) the follow-up study of former program students in kindergarten and grade

3; (4) comments on classroom observations conducted to examine both curriculum and instruction; and (5) summary and conclusions. Preschool evaluation results are more favorable than earlier years, with students making noticeable gains in academic areas. Follow-up study results are encouraging, but mixed. The Records of Goal Mastery Form and the Student Rating Form (used in the follow-up study) are appended. (BS)

**Descriptors**—\*Administrator Evaluation, \*Cognitive Objectives, Elementary School Teachers, Elementary Secondary Education, \*Equivalency Tests, Essay Tests, Multiple Choice Tests, Reading Skills, Secondary School Teachers, State Programs, State Standards, \*Teacher Evaluation, \*Teaching Skills, Testing Programs, Test Items, Word Lists, Writing Skills

**Identifiers**—\*Test Specifications, Texas, \*Texas Examination Current Administrators Teachers

Test specifications for the Texas Examination of Current Administrators and Teachers (TECAT) are presented in detail. These specifications are designed to help teachers prepare for the TECAT, and should also be made available to administrators and persons preparing review courses. This test focuses on reading and writing skills. In the test specifications, each skill area is defined and a sample item is presented. Then, stimulus attributes are presented to describe the test item characteristics such as content, length, and vocabulary level. Response attributes are also presented; they define the item type, the characteristics of correct and incorrect (distractor) answers, and the length of multiple choice response options. Reading skills include identifying main idea and details; distinguishing fact from opinion; drawing inferences; selecting and using reference sources; and comprehending job-related vocabulary. Writing skills include identifying proper mechanics of writing (capitalization, punctuation, and spelling); recognizing proper English usage; identifying errors in sentence formation; and producing a written composition. With the exception of the written composition, all items are multiple-choice. The appendix contains the Cumulative Word List which includes all words used in TECAT, with a few explicitly stated exceptions. (GDC)

**Identifiers**—Journal Writing

Conducted to define in detail the ingredients contributing to an effective classroom assessment environment, this study explored the assessment methods actually used by classroom teachers through case study observations and teacher journals. Chapter 1 provides an overview of the report. Chapter 2 presents the findings of a review of the literature on educational testing, teacher decision making, and the ethnographics of classroom assessment which formed the basis for the research design. (A seven page bibliography is appended to this chapter.) Chapter 3 presents three ethnographic studies (out of the 30 case studies conducted) of 6th grade classrooms in which researchers were participant observers for 20 days. Chapter 4 presents an analysis of assessment journals maintained by 32 elementary and secondary teachers over a 10-week period. Chapter 5 summarizes the findings. It con-

cludes that while the assessment environment is under the direct control of the teacher, there are six sets of factors that constrain teachers in establishing that environment effectively: (1) teacher characteristics; (2) classroom characteristics; (3) school and district policy; (4) instructional materials available; (5) specific school subject characteristics; and (6) the actual assessments used. The specific ingredients of these constraining factors are listed along with the relevant underlying continuum and recommended observation strategies. (BS)

This handbook is intended for persons who might develop or use an item bank to support their testing program. An item bank is defined as a "large collection of distinguishable test items," with "large" explained as meaning that the number of items available is greater than the number to be used in any one test. The first section of the handbook provides guidance as to the types of testing options which might be most appropriate for different testing purposes, resources, and local testing climate. The other two major sections deal with two item banking options: (1) accessing an existing item bank; and (2) developing one's own item bank. Because this handbook is intended as a practical guide, each section has three major parts: (1) a list of questions to guide users through decisions to be made on each topic; (2) assistance with answering questions; (3) examples to illustrate the various concepts presented. Extensive appendices include: (1) an item bank survey summary; (2) a summary of item banking software for microcomputers; (3) a summary of general purpose software for microcomputers which could be used for item banking; (4) item bank design questions; (5) test selection forms; and (6) sample classification scheme for reading items. Identifiers—Portland School District OR, Wisconsin Item Bank

This report and compilation of papers summarizes information collected by an Assessment Development and Use Project, initiated by the Northwest Regional Educational Laboratory (NWREL) to assist test development efforts by state and local agencies. Specific item banking applications are reported in two case studies, selected because they represent item bank efforts in which agencies other than the ones that developed the item bank have been able to develop tests from these item banks. The first item bank described is the Wisconsin Item Bank, developed by the Wisconsin State Department of Public Instruction to be used by school districts participating in Wisconsin's voluntary competency-based testing program. The design, history, problems, and operational details of the item bank are discussed in detail. The second report describes an item bank developed by the Portland Public Schools. This item bank has supported Portland's local testing needs and has been shared with several other districts. Discussed are the history and purposes for development, current uses, problems and issues in development, management, and use, and ways the technology may be shared. The final section of the paper considers issues related to how well item banks work and how well they fulfill their potential. (LMO)

Descriptors—Case Studies, Computer Assisted Testing, Criterion Referenced Tests, Curriculum Development, Educational Change, Educational Philosophy, Educational Technology, Elementary Secondary Education, Mastery Learning, Program Costs, Program Evaluation, Program Implementation, School Districts, Scoring, Teacher Education, Teacher Evaluation, Test Construction, Testing Programs

Identifiers—Kyrene School District AZ, McMinnville School District OR, Northwest Regional Educational Laboratory

This paper describes two case studies of testing programs at local levels. The work was conducted as part of the Assessment Development and Use component of the Northwest Regional Educational Laboratory's (NWREL) Assessment and Development project. Two school districts were recruited to participate in this effort—McMinnville, Oregon, and Kyrene, Arizona. The draft case studies covered the demographics of each site, the testing system in place, the overall history of the activities, and the current status of each effort. Comparisons were made on the following subjects: (1) costs; (2) change agents; (3) role of technology; (4) curriculum alignment; (5) major issues and concerns; and (6) process of change. Extensive appendices attached to each

case study provide background materials, such as five year curriculum plans, testing schedules, class profiles, philosophy of education, courses of study, program evaluation plans, and cost options. (LMO)

Testing Results for Minority Isolated Schools. San Diego City Schools, Spring 1984. Report No. 373.

San Diego City Schools, CA. Planning, Research and Evaluation Div.

Pub Date—1 Aug 84

Note—420p.; For related documents, see ED 250 329 and ED 210 335. Submission to Superintendent of Schools, San Diego, California.

Pub Type—Reports - General (140) - Numerical/Quantitative Data (110)

EDRS Price - MF01/PC17 Plus Postage.

Descriptors—Achievement Gains, Achievement Tests, Basic Skills, Comparative Testing, Compliance (Legal), De Facto Segregation, Elementary Secondary Education, Ethnic Groups, Graphs, Language Tests, Mathematics Tests, Minority Groups, Norm Referenced Tests, Reading Tests, Scores, Tables (Data), Test Results

Identifiers—Comprehensive Tests of Basic Skills, San Diego Unified School District CA

Spring 1984 achievement test results for court-identified, minority isolated (MI) schools in the San Diego Unified School District are reported. The Comprehensive Tests of Basic Skills (CTBS) were used to measure progress in the areas of reading, language, and mathematics. Language and math scores trended upwards across grades; reading also improved, but lagged at Grades 5, 6, 9 and 11. Additional data provided for districtwide testing indicated that the "margin of difference" between achievement levels in MI schools and other schools in the district has been reduced substantially since the 1979-80 baseline year. Part I reports interim goal progress for 1984; Part II compares test scores in minority-isolated schools and non-minority schools; Part III describes test scores by ethnic subgroups; and Part IV reports test scores of resident and non-resident students in Voluntary Ethnic Enrollment Program (VEEP) schools. Extensive appendices include the following: (1) court ordered integration plans; (2) historical baseline data; (3) detailed CTBS Test Results for Spring 1984; (4) graphic contrast of CTBS results; (5) degree of attainment of interim goals; (6) number and percent of students tested; (7) summary of achievement gains; (8) 1979-80 and 1983-84 CTBS Test Results; and (9) test results for resident and non-resident students in VEEP schools. Religion and Wellbeing: Concurrent Validation of the Spiritual Well-Being Scale.

Pub Date—Aug 85

Note—10p.; Paper presented at the Annual Meeting of the American Psychological Association (Los Angeles, CA, August 23-27, 1985).

Pub Type—Speeches/Meeting Papers (150) - Reports - Research (143)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adults, Affective Measures, Aggression, Assertiveness, Behavior Rating Scales, Church Related Colleges, Correlation, Higher Education, Psychological Patterns, Religious Factors, Test Validity, Well Being

Identifiers—Interpersonal Behavior Survey, Spiritual Well Being Scale

This study was designed to explore the concurrent validity of the Spiritual Well-being Scale (SWB). Ninety first-year student volunteers at an evangelical seminary served as subjects. As part of a larger study, the students completed the SWB and the Interpersonal Behavior Survey (IBS). The SWB Scale is a 20-item self-report scale. Ten items measure the vertical dimension of relationship to God, and comprise Religious Well-being (RWB). The IBS measures several dimensions of interpersonal behavior. It contains MMPI-type validity scales, seven aggressiveness scales, eight scales measuring assertiveness behaviors, and three relationship scales. Results showed that SWB and its subscales RWB and Existential Well-being (EWB) were positively correlated with the Denial and Impression Management validity scales of the IBS and negatively correlated with the Infrequency Scale; they were negatively correlated with all of the aggressiveness scales; they correlated positively with five of the assertiveness scales and were not significantly re-

lated to the remaining three assertiveness scales; they correlated negatively with the Shyness and Dependency relationship scales, but were unrelated to the Conflict Avoidance Scale. The results suggest that Spiritual Well-being is negatively related to self-reported aggressiveness, dependency, and shyness in this seminary population. (LMO)

Descriptors—Accountability, Criterion Referenced Tests, Educational Assessment, Educational Technology, Elementary Secondary Education, Error of Measurement, Evaluation Methods, Evaluation Needs, Higher Education, Models, Norm Referenced Tests, Outcomes of Education, Program Evaluation, Questionnaires, Self Evaluation (Individuals), Student Characteristics, Surveys, Validity

This document contains three papers developed by the Center for the Study of Evaluation's (CSE) Research into Practice Project. The first paper, "A Process for Designing and Implementing a Dual Purpose Evaluation System," by Pamela Aschbacher and James Burry, provides a model for evaluating programs for two purposes simultaneously: (1) program improvement; and (2) policymaking. While this paper was written to answer needs of individuals interested in educational evaluation, it can also provide formative information for local program managers and serve the accountability and reporting needs of a state legislature, district office, or other policymaking body. The second paper, "The Credibility of Student Self-Reports," by C. Robert Pace et al., demonstrates that there are many ways to confirm the accuracy, reliability, and validity of student self reports. Part 1 summarizes highlights from the literature and adds comments from the author's research; Part 2 reports on three questionnaires. The third paper "Assessing Instructional Outcomes," by Eva L. Baker and Harold F. O'Neil, Jr., presents a discussion of outcome assessment that puts into context the evolution of measurement from its beginnings up to its present state. It looks at commonly used psychometric measures, including criterion-referenced, norm-referenced and domain-referenced tests. A special model of evaluation, designed to be adapted especially to the problem of new technologies, is offered. (LMO)

Descriptors—Accountability, Data Collection, Educational Assessment, Elementary Secondary Education, Evaluation Methods, Evaluation Needs, Information Needs, Models, Policy Formation, Program Evaluation, Questionnaires

Identifiers—Center for the Study of Evaluation CA, Site Visits, Task Force Approach

This paper offers a guide for a dual purpose evaluation plan that can provide information for local program managers and simultaneously serve the accountability and reporting needs of a state legislature, district office, or other policy making body. The dual focus approach has two advantages: (1) it provides a common information base for decisions at both ends of the continuum; and (2) it helps ensure that these decisions are in harmony with each other. In addition, this approach conserves time and effort of staff and students alike by making one data collection effort serve two purposes. This user ori-

ented model reflects many years of evaluation experience by the Center for the Study of Evaluation (CSE). The model evaluation plan consists of eight steps: (1) identify evaluation users and their needs; (2) form a task force; (3) reach consensus on information needs; (4) specify information base and develop measures; (5) develop procedures for data collection and report of results; (6) pilot and refine measures and procedures; (7) collect information; and (8) prepare reports. While this plan was based on evaluation experiences in education, it is intended to be applicable to other fields also. Appendices include a form for description of programs and participants, a form for open-ended questionnaire, a sample checklist for the site visit team leader, and a sample site visit schedule. This report shows that there are many ways to confirm the accuracy, reliability, and validity of student self-reports. Examples from higher education and from public opinion polls and general surveys demonstrate some of the common sources of measurement errors and errors of substance. Part 1 of the report summarizes a few highlights from the literature, and adds comments from the author's research. Part 2 begins by briefly reporting a tabulation of "missing cases" in three questionnaires for college students. Two of these instruments are the Entering Student Survey, distributed by the American College Testing Program, and the Student Information Form, distributed by the UCLA Higher Education Research Institute; both are widely used, and each has the same general purpose and is intended for the same type of population. Following this, the College Student Experience Questionnaire, designed to be filled out by undergraduates toward the end of the academic year, is discussed in detail. Test-retest comparisons of this questionnaire are used as examples of how subjective responses can be objectively validated. Predictive and construct validity of this questionnaire are examined using multivariate statistical procedures. (LMO)

Descriptors—\*Criterion Referenced Tests, \*Educational Assessment, \*Educational Technology, Elementary Secondary Education, Instructional Systems, Mastery Learning, Models, \*Norm Referenced Tests, \*Outcomes of Education, Psychometrics, Test Construction, Test Format, Validity Identifiers—\*Domain Referenced Tests

This paper presents a discussion of outcome assessment that puts into context how measurement has evolved to its present state. Several types of testing and assessment options are considered against a background of validity. Criterion-referenced measurement is discussed extensively in terms of history, field study, identity problems, in-

tellectual conflict, social conflict, and test design. The conflict between criterion-referenced tests and norm-referenced tests, development of norm-referenced tests, domain-referenced testing, problems with domain referenced tests, new approaches to content specification, quality control, integration of testing and instruction, and the narrow definition of testing are discussed as subjects for concern. Following this, a special model of evaluation adapted to the problem of new technologies is detailed. In order for the model to assess new technologies as desired, the information must: (1) provide an enhanced documentary base for the processes of new technology development; (2) use state-of-the-art evaluation methodology, including both quantitative and qualitative approaches to measurement; and (3) provide policy feedback to the supporting agencies. Criterion referenced measurement is advocated for the assessment of instructional technology outcomes, with the caveat that such measurement is difficult. An 18 page bibliography is appended. (LMO)

Pub Type—Opinion Papers (120)

EDRS Price—MF01/PC01 Plus Postage.

Descriptors—\*Architecture, Cultural Context, \*Design, Elementary Secondary Education, \*Metaphors, Minority Groups, Program Design, \*Program Development

Identifiers—Contextual Analysis

The use of metaphor offers considerable promise within scientific disciplines for encouraging creative thinking, drawing attention to important concepts or principles in a discipline, and developing new methodologies. Ferguson's description of architectural practice as a metaphor for the development of social programs is used to demonstrate these uses of metaphor through a comparison of architecture to the development of culturally adapted minority education programs. Architecture's design process, which seeks to understand context through analysis and to create a form appropriate to that context through synthesis, parallels educational program development. Judging the success of the design process through the analysis of fit between the form and its context, extends the metaphor to program evaluation. Like architecture, educational programs have functional-practical, milieu-creating and symbolic purpose. As in architectural building tasks, minority educational program development must analyze the cultural contexts, seek solutions to a series of functional or psychological needs, view the resulting form as one solution among many, and evaluate the fit. Identifiers—Asymptotic Distribution Theory, \*Nonlinear Models, \*Robustness

The progress of modern mental test theory depends very much on the techniques of maximum likelihood estimation, and many popular applications make use of likelihoods induced by logistic

item response models. While, in reality, item responses are nonreplicable within a single examinee and the logistic models are only ideal, practitioners make inferences using the asymptotic distribution of the maximum likelihood estimator derived as if item responses were replicated and satisfied their ideal model. This article proposes a simple space acknowledging these two realities and derives the asymptotic distribution of the induced maximum likelihood estimator. It is assumed that items, while sampled from an infinite set of items, have but a finite domain of alternate response functions. Using the proposed sample space, the statistical functional approach of von Mises is applied to derive the influence curve of the maximum likelihood estimator; to discuss related robustness properties; and to derive new classes of resistant estimators. This article's general purpose is revealing the value of these methods for uncovering the relative merits of different item response functions. Proofs and mathematical derivations are minimized to increase the accessibility of this complex subject. (Author/LMO)

Identifiers—\*Expert Systems, \*NEOMYCIN (Computer Program)

This paper describes NEOMYCIN, a computer program that models one physician's diagnostic reasoning within a limited area of medicine. NEOMYCIN's knowledge base and reasoning procedure constitute a model of how human knowledge is organized and how it is used in diagnosis. The hypothesis is tested that such a procedure can be used to simulate both expert problem-solving behavior and a good teacher's explanations of reasoning. The paper is divided into four major sections: (1) acquiring the model by protocol analysis, using a framework that separates an expert's causal explanations of evidence from his descriptions of knowledge relations and strategies; (2) overview of the diagnostic model; (3) representing the model, including strategy and domain knowledge; and (4) evaluating the model for sufficiency and plausibility by testing it in different settings requiring expertise. NEOMYCIN's diagnostic procedure is discussed in detail, as a memory aid, as a set of operators, as proceduralized constraints, and as a grammar. (Author/LMO)

Descriptors—Analysis of Variance, \*Cognitive Processes, Cognitive Style, Conceptual Tempo, \*Encoding (Psychology), Flow Charts, Higher Education, Learning Processes, \*Memory, \*Models, Problem Solving, \*Recall (Psychology), \*Recognition (Psychology), Schemata (Cognition), Scoring

Identifiers—\*Question Answering

This paper presents a general framework for the process of answering questions from memory. The

focus is primarily on verification and recognition tasks. Six experiments support the assumptions of the proposed framework. The experiments are designed to address the following categories of inquiry: (1) Can we adjust our strategy preference to mirror the ratio of presented to non-presented statements in a story? (2) What strategy is preferred when both strategies always work? (3) Can people switch strategies from question to question based on advice proceeding each one? (4) Can people estimate answerability faster than they can answer? (5) Binary responding for estimate versus answer; and (6) Can our estimation process be subverted by spurious familiarity? The first three experiments show that strategy-selection is under the strategic control of subject and that contextual variables affect this selection. Experiments 4 and 5 suggest that strategy selection also involves evaluating the question itself; Experiment 6 suggests variables that influence the evaluation of the question. This model is shown to be consistent with processing strategies in domains other than question-answering. (Author/LMO)

Identifiers—College Entrance Examination Board, \*College Level Examination Program

This document contains the agenda for an Administrator's Workshop given by the College-Level Examination Program (CLEP) of the College Board. Included are an update on CLEP activities, a section on reaching out to faculty, and a section on reaching out to adult students. Covered in the update on CLEP activities are results of 1984 workshop surveys on: (1) new test titles; (2) local microcomputer scoring of CLEP examinations; (3) dates for the General Examination in English Composition with Essay; and (4) proposed change in the score scale for CLEP Subject Examinations. A report on test development includes a discussion of the CLEP Technical Manual, a table of five-year plans for re-developing examinations, and a description of the Test Information Guides. Guidelines for grading the optional free-response section of the College Composition Examination are provided. Outreach to faculty involves providing information through a series of seminars described here through a review of the agenda. Reaching out to adult students includes a business campaign, a program for companies employing potential students, and a description of the availability of College Board assistance. Addresses for regional offices are included. (LMO)

Identifiers—\*Brain Research

Using current mind/brain research, this paper explores the "hidden curriculum" in the contexts of teaching, learning and supervision. It explains ways in which current research on the nature of learning can fit into today's typical, "clinical" teaching techniques. The importance of respecting individual modes of learning is stressed; further to this, a merger between creating the conditions for learning and learning itself is proposed. Supervisors and teachers who bring this research into their schools

can further professionalize the jobs of educators. The paper is based upon findings in educational theory, psychology, mind/brain and neurological research; in most cases these research findings serve as foundations for actual classroom observations and findings made by the author over the past ten years. Identifiers—\*New Orleans Public Schools LA

This report summarizes the findings and recommendations of 22 internal, external, or combined studies written by committees, consultants, or staff. A listing is included of more than 70 other plans, reports, requests, or other efforts to identify needs of the New Orleans Public Schools. A synthesis of findings or recommendations from these sources is made as follows: (1) academic achievement of students should be significantly improved towards national averages; (2) affective growth of students should be promoted by school programs; (3) curriculum should provide for changing demands of the knowledge and technology-based information age, and for unique local needs; (4) social, economic, and health problems necessitate provision of adequate student support services; (5) decision-making and implementation in the school district should be accomplished through a long-range, comprehensive planning process; (6) administrative and managerial activities of the school district should operate more effectively and efficiently; (7) facilities of the school district should be made safer and more secure; (8) organizational climate of both schools and central offices should be more positive; (9) revenues of the School Board should be increased and more effi-

ciently spent; and (10) overall quality of staff should be improved through better recruitment, placement, staff development, administrative support and through greater accountability. (LMO)

**EDRS Price - MF01/PC01 Plus Postage.**  
Descriptors—Adults, \*Child Rearing, Cognitive Processes, \*Computer Oriented Programs, Computer Simulation, \*Decision Making, Flow Charts, Heuristics, \*Microcomputers, Parent Child Relationship, Parent Role, \*Problem Solving, Research Methodology, Role Perception, \*Social Cognition  
Identifiers—Computer Presented Social Interactions

A technique for studying how parents think, make decisions, and solve childrearing problems, Computer-Presented Social Interactions (CPSI), is described. Two studies involving CPSI are presented. The first study concerns a common parental cognitive task: causal analysis of an undesired behavior. The task was to diagnose the cause of non-contingent crying in an infant. The subjects were required to rule out causes of crying by acquiring the fewest and most important stored information units possible. The second type of problem, focused on decision making in a potentially difficult setting. The computer simulated the experience of shopping in the supermarket with a young child. As the computer reported that the child began to misbehave, the subject could select one of four or five pre-programmed responses. Subjects in both experiments were 120 middle-class, college educated women from two locations. In the first problem, mothers and pediatric nurses were more efficient and accurate at reaching a solution than women without children. In the second study, nulliparous, primiparous, and multiparous women showed differences in management techniques, but similarities in responses to child misbehavior. Further applications for the CPSI techniques are suggested. (LMO)

The Utilization of "Set: Research Information for Teachers" in Selected Educational Institutions.  
Australian Council for Educational Research, Hawthorn.

Pub Date—Mar 85  
Note—154p.; Appendix 1 contains light type. For earlier reports on SET utilization, see ED 217 529 and ED 217 536.

Pub Type—Reports - Evaluative (142)

**EDRS Price - MF01/PC07 Plus Postage.**  
Descriptors—Case Studies, \*Educational Research, Elementary Secondary Education, Field Studies, Foreign Countries, Higher Education, \*Information Dissemination, Information Utilization, Organizational Development, Questionnaires, \*Research Utilization, Surveys, Teacher Education  
Identifiers—New Zealand, \*Research Practice Relationship, \*SET Research Information for Teachers

This document researched the utilization of SET: Research Information for Teachers, a package of articles presenting a smorgasbord of educational research information. Five case studies in New Zealand schools were presented; five institutional visits were described. The purpose of the school visits was to investigate what happened to SET information documents and like matter when it reached schools of various types. Also investigated were within-school activities and systems to disseminate the information, and reactions of principals to various types of document content. The research plan incorporated preliminary studies, discussions with a number of educators, and questionnaires mailed to all members of an advisory committee for SET. Results showed that academics fall into categories of those who accept the research model and those who question its validity. Teachers and school personnel had limited experience with SET because the materials seldom reached them. Publishing and distribution problems could be corrected through a considerable effort to recruit the cooperation of

principals of schools, and through the development and use of a network. Current subscription statistics for SET and an analysis of item sources are included in the report. Appendices include a school visit checklist, a school librarian interview schedule, and other materials used in school and institutional visits. (LMO)

Identifiers—"California Assessment Program, One Parameter Model, Two Parameter Model

New legislation in 1972 shifted the emphasis of the California Assessment Program (CAP) from traditional every pupil achievement testing to a more efficient multiple-matrix testing design, under which a broad spectrum of skills could be surveyed without undue expenditure of educational resources. Scale score reporting was introduced to the grade 6 assessment in 1981-82. The purpose of the present report is to document activities undertaken in this endeavor. After a brief review of the fundamentals of CAP measurement models, the following topics are considered: (1) structure of the assessment instrument and the delineation of skill areas; (2) item calibration procedures and results; (3) scoring procedures for a single school in a single skill element, then for aggregations of schools and/or skill elements; (4) method of approximating results for demographic subgroups within schools; and (5) equating of results from the prior grade 6 surveys to the new score scale. Appendices include (1) Calibration of Skill Element "Classification of Numbers"; One- and Two-Parameter Logistic Models; and (2) 1981-82 Grade 6 Item Parameter Estimates. (LMO)

Duchastel, Philippe  
Student Attitudes Toward Economics-Development of an Attitude Questionnaire.

Pub Date—[85]  
Note—19p; Appendix A contains small print.  
Pub Type—Reports - Research (143) - Tests/Questionnaires (160)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Adult Students, "Attitude Measures, "Economics Education, Higher Education, Item Analysis, Professional Continuing Education, "Questionnaires, Scaling, Scoring, "Student Attitudes, "Test Construction, Test Interpretation, Test Reliability, Undergraduate Students

This study reports a preliminary investigation into the relationship of different subsets of student attitudes toward economics. A 49-item attitude form was developed with six subscales representing distinct aspects of attitudes toward economics: (1) satisfaction with current grasp of economics; (2) capability for understanding economics; (3) attraction to economics; (4) economics as a field; (5) general need for economics; and (6) economics courses. The questionnaire was administered to three groups of adult students pursuing continuing education programs in financial services and to two groups of undergraduate students. Item scores, subscale scores, full form scores, inter-scale correlations and item scale correlations were calculated. Results indicated good reliability for both the questionnaire and the subscales, but did not reveal strong differences between the subscales. In general, students' attitudes toward economics were quite positive. Differences and similarities between the different student groups followed traditional expectation. The data support further scale development and draw attention to the various facets of student attitudes toward economics. The questionnaire and item results and characteristics are appended. (BS)

Identifiers—"Imaging

This paper investigates the processes by which visual mental images—the precept-like short-term memory representations—are created from information stored in long-term memory. It also presents a new method for studying image generation. Three experiments were conducted using college students as subjects. In the first experiment, a Podgorny and Shephard paradigm was adapted to study image generation. In the second experiment, regression analyses were performed on response times in a scanning instruction and no-scanning instruction condition. Experiment three was designed to investigate whether scanning plays a functional role in image generation. Results indicated that images of upper case letters are formed segment by segment, in roughly the order in which most people draw the letters. Results were shown not to be an artifact of how people scan images once they are formed, and could not have been due to experimenter-expectancy effects. Results also indicated that subjective estimates of mental image generation time are quite close to those obtained using objective measures. (Author/LMO)

Identifiers—"Scholastic Aptitude Test, "Test Score Decline

This paper analyzes Scholastic Aptitude Test (SAT) score declines of two decades—the 1960s and 1970s. The importance of pervasive societal influences is accepted. A variety of data suggests, however, that the increase in school retention rates of poorly prepared students and the resulting heterogeneity of the high school population is a unifying exploratory variable for the second leg of the decline as well as the first. The argument is that several of the "pervasive influences" invoked to explain the continuation of the decline in the 1970s are best understood as adaptive responses of the schools to the appearance of a greater diversity of students in senior high schools. These responses, which in combination represent a reduction in the demand level of the school program, included grade inflation, proliferation of electives, textbook simplification, and reduction in homework assignments. Students also chose fewer academic and more vocational and general courses. It is hypothesized that the continuation of the decline in the 1970s was, in substantial part, the direct consequence of those school-related changes and thus was a delayed, indirect consequence of the compositional shift. Identifiers—Brain Hemispheres, "Imaging, "Neuropsychology

Visual recognition, navigation, tracking, and imagery are posited to involve some of the same types of representations and processes. The first part of this paper develops a theory of some of the shared types of representations and processing modules. The theory is developed in light of neurophysiological and neuroanatomical data from non-human primates, computational constraints, and behavioral data from human subjects. In developing theories of some of the high-level computations that are performed by the visual system, three problems which must be solved by any visual system are considered: (1) position variability; (2) figure/ground segregation; and (3) non-rigid transformations. The second part of the paper develops a mechanism for the development of lateralization of visual function in the brain. The theory rests on a set of relatively simple, uncontroversial properties of the brain, including: (1) processing components; (2) exercise; (3) selectivity; (4) "central" bilateral control; and (5) reciprocal innervation. This theory leads to predictions about the lateralization of the putative processing modules. The third part of the paper examines critical tests of these predictions, and reviews relevant empirical findings in the literature. Eight pages of references and several figures are included. Identifiers—"Pennsylvania, "Testing for Essential Learning and Literacy Skills

Pennsylvania's "Testing for Essential Learning and Literacy Skills" (TELLS) program was instituted during the 1984-85 school year, to identify reading and mathematics problems early in a student's school career. This document describes the intent and legislation behind TELLs, the implementation of the test, population tested, properties of the test, results of the test for noncategorical students and total groups, and analyses of results for each objective. Committees of Pennsylvania reading and mathematics professionals selected objectives to serve as the basis for the tests and chose Charles E. Merrill Publishing Company to provide test items meeting those objectives. The tests were administered in October 1984 to grades 3, 5, and 8. Students failing at or below cut scores became eligible for state-funded remedial instruction. About 35 percent of public school students and 24 percent of nonpublic students became eligible for at least one program. For certain objectives, the performance of above-cut students differed greatly from that of below-cut student. For grade 3 the Multiple Meaning Words objective marked the greatest difference on the

reading test; for grades 5 and 8, the Inferential and Critical Comprehension was most indicative. Appendices include: (1) selected sections from the State Board regulations; (2) applicable sections of Act 93; (3) TELLS objectives; and (4) samples of reports. (LMO)

Identifiers—\*Item Parameters, Japan, \*Logist Computer Program, Three Parameter Model, Two Parameter Model, Word Phrase Comprehension Tests (Shiba)

The use of a three-parameter logistic model for applying latent trait theory has become more popular because of the availability of computer programs. The program Logist 5 can be used not only for the item parameter estimation in the three-parameter logistic model, but also in the two parameter logistic model by setting the third parameter equal to zero. In the present study, comparison was made between the estimated item parameters obtained by assuming the normal ogive model and those obtained by Logist 5 assuming the two parameter logistic model. In some cases, item parameter estimation was also made by Logist 5 assuming the three-parameter logistic model, and comparison was extended to those results also. Data were obtained from the performance of fifth through ninth graders in Japan who took a battery of thirteen tests, Shiba's Word/Phrase Comprehension Tests. Results from four tests were chosen for this study. Resultant estimated item parameters were compared with those obtained using the tetrachoric methods. Results showed the mean and standard deviation of the distribution of the maximum likelihood estimate seem to be somewhat different from those of the distribution theta, and a certain systematic tendency was observed. A Comprehensive and Educative Approach to Program Evaluation.

Pub Date—Oct 85

Note—11p.; Paper presented at the Evaluation Network/Evaluation Research Society International Conference (Toronto, Canada, October 17-19, 1985).

Pub Type—Opinion Papers (120) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—Elementary Secondary Education, \*Epistemology, \*Evaluators, \*Holistic Evaluation, Humanism, \*Knowledge Level, Models, \*Program Evaluation, Scientific Methodology

This paper proposes a comprehensive approach to program evaluation and suggests employing a number of methods in evaluating a program. Exclusive allegiance to one school of thought and adoption of one particular technique leads to limited comprehension about programs, and hence their evaluations. If evaluation is viewed as a process by which knowledge is gained about the program rather than merely for gathering data or information, then the next conceptual step would be to recognize that there are various models of knowing. Program evaluation should not only be intensive, but also extensive in scope, and utilize a variety of techniques and models. A wide variety of sources of data have to be used. A comprehensive approach to evaluation requires an evaluator who has a comprehensive approach to understanding, broadness in mental grasp of events, and an open-mindedness about learning. (LMO)

Identifiers—Figural Intersection Test, \*Japan, Spatial Relations Test, Standard Progressive Matrices, \*United States

This investigation examined the effectiveness of training Japanese and American children with a visual animation/construction or verbal labelling strategy for solving computerized geometric matrices that were correctly or incorrectly completed and varied in number of elements (1 to 3) and number of transformations (0 to 2). Subjects were 209 Japanese and American second, fifth, and eighth graders from top academic schools. Pretests and posttests measured spatial reasoning. Japanese and American children achieved comparable accuracy rates on the test of 108 geometric matrices, but Japanese children had faster response times. Training effectiveness was mediated by gender. Boys benefitted from visual training and girls from verbal training (both, specifically, on incorrectly completed matrices). Cultural and schooling issues helped explain additional gender differences in the American sample. Both cultural groups exhibited "self-terminating" strategies on certain matrices and similar developmental trends. (Author)

Descriptors—\*Community Programs, Delinquency Causes, \*Delinquency Prevention, Elementary Secondary Education, Local History, Mexican Americans, Minority Groups, Program Development, \*Program Effectiveness, Program Evaluation, \*Program Implementation

Identifiers—\*Chicago Area Project, Illinois (Chicago), Implementation Analysis

This report examines the Chicago Area Project (CAP), the first community-based delinquency prevention program, from both a historical and a contemporary perspective. The analysis is in three parts. The first part describes CAP's founding in the 1930s and analyzes the process through which it was established and the operation of its prevention programs. The second part examines the operation of the CAP program in South Chicago in 1980, in light of assumptions derived from the historical analysis of the salient features of CAP philosophy and practice. Both parts focus on the ways CAP was implemented and the implications these ways may have had for its success, or lack of success, in preventing delinquency. The third part of the analysis combines census data with data on delinquency rates and data on program participation and operations to develop a rudimentary quantitative method to enlarge upon and with which to make a preliminary validation of earlier analyses. Transitional Bilingual Program Guidelines. Revised.

Reading School District, Pa.

Pub Date—Sep 85

Note—20p.

Pub Type—Guides - Non-Classroom (055) — Reports - Descriptive (141)

EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.

Descriptors—\*Bilingual Education Programs, Bilingual Teacher Aides, Bilingual Teachers, Elementary Secondary Education, \*Hispanic Americans, Limited English Speaking, Mainstreaming, Program Content, \*Program Guides, \*Student Placement

Identifiers—Pennsylvania (Reading)

This document outlines the Reading Pennsylvania School Districts' Transitional Bilingual Program, designed to successfully integrate all students into the regular school programs as quickly as possible. Students are taught English language skills in a bilingual setting (Spanish being the dominant foreign language) with mathematics, social studies and science taught bilingually until students are ready to enter mainstream classes. The document describes: (1) enrollment procedures; (2) testing for English language proficiency; (3) student review conferences; (4) parental requests for placement in a bilingual program; (5) testing procedures for placement in various levels of the program; (6) integration and placement of bilingual students in mainstream classes; (7) end of year promotion and retention; (8) referrals to bilingual caseworkers; (9) responsibilities of bilingual/English as a second language teachers and teachers' aides; (10) program record keeping; (11) transfer of students in and out of the district; (12) end of the year activities and responsibilities; and (13) a checklist of responsibilities for various program staff throughout the year. The document concludes with a description of the program's curriculum and classroom management approach. (CG)

How Do Immigrants Affect Us Economically?

Georgetown Univ., Washington, D.C.

Pub Date—85

Note—120p.; Prepared by the Center for Immigration Policy and Refugee Assistance.

Pub Type—Reports - Descriptive (141)

EDRS Price - MF01/PC05 Plus Postage.

Descriptors—\*Economic Factors, Employment Patterns, Federal Programs, \*Immigrants, \*Labor Market, \*Taxes, Undocumented Immigrants, Unemployment, Welfare Services

This document summarizes the key data and main findings of the book, "The Economic Consequences of Immigration into the United States." All immigrants, not only those who are illegal, are included in the discussion. Immigrants, it is concluded, raise the standard of living of the residents of the host country, rather than lowering it as is popularly supposed. The negative impact of immigrants is largely through the use of schools, hospitals, and public housing. However, immigrants pay more in taxes than the cost of the welfare services and schooling that they use—every year an average immigrant family puts about \$1,500 into the pockets of natives. The report includes an introduction and conclusion, and seven chapters: (1) "Welfare, Taxes, and the Public Coefficients"; (2) "Effects Through the Use of Capital"; (3) "Effects on Natural Resources and the Environment"; (4) "Labor Market Effects of Immigration"; (5) "Effects on Economic Productivity and Knowledge"; (6) "Overall Effects of More People on the Standard of Living"; and (7) "Income Distribution, Effects on Other Countries, and Additional Remarks." Community Intergroup Conflict Resolution Guide. Los Angeles County Commission on Human Relations, Calif.

Pub Date—Jan 86

Note—36p.

Pub Type—Guides - Non-Classroom (055)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*Arbitration, \*Community Coordination, \*Conflict Resolution, \*Consultants, \*Intergroup Relations

Identifiers—\*Negotiators

This booklet explains some of the basic characteristics and functions of third-party consultations, a problem-solving model in which community inter-

group conflicts are resolved with the assistance of a third party in a face-to-face interchange and problem-solving process. The guide, intended for use by consultants, is divided into eight sections. Section 1 defines conflict resolution as a process of coming to a mutual agreement on a dispute, and describes six models in common use: mediation, arbitration, litigation, conciliation, community boards, and third-party consultation. Section 2 focuses on skills and characteristics of third-party consultants, including active listening, communication, openness and flexibility, fairness and impartiality, discretion, and other skills. Section 3 advises consultants to consider playing the roles of facilitator, instructor, resources expander, change agent, enabler, and catalyst. Section 4 presents a community analysis outline which consultants can use to gain a better understanding of the context in which they work. Section 5 recommends actions to take in preparation for the resolution process, and Section 6 offers procedural recommendations for the resolution itself. Section 7 provides a bibliography, and Section 8 presents the community intergroup conflict resolution model in flow chart form. (KH)

Identifiers—New York (Bronx)

This report evaluates a program, in its second year of funding, which provides instruction in English as a second language (ESL) and native language arts to Hispanic students in a Bronx, New York high school. Bilingual instruction is also provided in social studies, mathematics, and science. The program was designed to develop career awareness and to encourage students to develop their bilingual skills as a potential asset in the business world. Program objectives were assessed in mathematics, science, social studies, and Spanish (teacher-made tests), and in English language development via the Criterion Referenced English Syntax Test (CREST). Quantitative analysis of achievement data indicates that: (1) Overall, students met the program criterion of mastery of one CREST objective per month of instruction both semesters; (2) Those enrolled in Spanish language courses achieved the 65% passing

objective; (3) In content-area subjects, only 11th grade students in science (fall) and 12th grade students in math (fall), social studies (fall), and science (fall and spring) were able to meet program objectives. The report recommends that students who are somewhat proficient in English be mainstreamed and assisted with tutoring. Further, it recommends that separate testing of the survival skills emphasized in the program be initiated, that greater efforts be made to involve parents, more materials be developed in mathematics and social studies; and that exploration be made of the failure of students to meet program objectives in content areas. Identifiers—New York (Bronx)

This report evaluates Project HOLA, in its first year of funding, which provides instruction in English as a second language, Spanish language skills, and bilingual instruction in mathematics, science, and social studies to approximately 230 students in a high school in Bronx, New York. The report examines the project's long- and short-range goals, its organizational structure in the school, and the school climate for mainstreamed students. The first two sections give student demographics and characteristics, followed by a description of Project HOLA's history, objectives, philosophy, and structure, funding, and staff. Section IV outlines the instructional services offered through the program, describing student placement and programming, classroom observations, and the mainstreaming of students as they progress in the program. Section V describes the non-instructional components of the program, including curriculum and materials development, support services, staff development, student feelings about the program, and parental and community involvement. The final section presents the findings on student achievement and attendance, evaluates the program's instructional objectives and makes recommendations. (CG)

Descriptors—Asian Americans, Bilingual Education, \*Bilingual Education Programs, \*English (Second Language), Haitian Creole, \*Haitians, High Schools, \*Hispanic Americans, \*Mainstreaming, Native Language Instruction, Program Evaluation, Program Improvement, \*Transitional Programs

Identifiers—New York (Brooklyn)

This report evaluates a program, in its first year of funding, which provides instruction in English as a second language, native language arts for Haitian and Spanish-speaking students, bilingual classes in mathematics, science, social studies, and typing in Creole/French in a high school in Brooklyn, New York. The program's major goal is to provide all students with special assistance in English in order to accelerate their progress into mainstream academic classes. English language development was assessed via the Criterion Referenced English Syntax Test (CREST). Quantitative analysis of student achievement data indicates that: (1) overall, students tested at Levels I and II of the CREST mastered 0.6 objectives per month, which was short of the proposed criterion; (2) thirteen 9th and 10th

grade students made gains in French and five 11th graders showed losses; (3) forty-six percent of the Haitian students enrolled in typing passed the course; and (4) the program attendance rate was significantly higher than the schoolwide rate. The report includes extensive recommendations for program improvement in the areas of administration, teacher involvement, student screening, language-use policy, follow-up evaluation, counseling, parent outreach, facility expansion and safety, and evaluation of the English language objectives. **Descriptors—**\*Black Population Trends, Black Students, Busing, Census Figures, \*Desegregation Plans, \*Neighborhood Integration, Racial Integration, \*Residential Patterns, \*School Desegregation

**Identifiers—**\*Kentucky (Jefferson County), \*Kentucky (Louisville)

This report describes housing desegregation gains in Louisville and Jefferson County, Kentucky, largely caused by school desegregation. The work of Judge James F. Gordon, who presided over the school desegregation plan, is cited as instrumental in aiding in this process. He ruled that no child in the minority in a neighborhood would be used for desegregation purposes, which in effect provided encouragement to black families to move into white school attendance areas, thus desegregating neighborhoods. The report finds the following desegregation gains in Louisville and Jefferson County: (1) In 1970, 15 census tracts were all white, and by 1980 the number was cut in half; (2) the percentage of black residents increased in 78.5% of the census tracts between 1970 and 1980; (3) the number of blacks living in suburban areas of Jefferson County increased by 275% between 1970 and 1980; (4) Louisville's desegregation status in 1980 was close to the national average; (5) housing desegregation has continued to increase based on a racial analysis of where the student age population lived in Jefferson County in 1980 and where they lived in 1984; and (6) 88.5% of the 104 census tracts with less than 20% black student age population in 1980 gained in the level of black students by 1984. These and other data are presented statistically and analyzed throughout the report. (CG)

This booklet is an overview and summary of the publication "Reducing the Risk: Unemployed Migrant Youth and Labour Market Programs" which reviews programs and services for migrant and refugee youth in Australia. The unemployment rate for this group is higher than for their Australian-born peers, and their participation in governmental labor market programs is low relative to their unemployment rates. The review assessed the special employment and training needs of migrant youth, the

availability and suitability of programs, and program coordination and evaluation, and discussed the Commonwealth Employment Service. This overview includes 34 recommendations for changes to improve the employment potential for immigrant youth. (CG)

**Identifiers—**\*Australia, Australians

This 7-chapter report reviews unemployment among migrant and refugee youth in Australia, examines the employment and training programs that exist for this population, identifies unmet needs, and suggests programs or services to meet those needs. An overview of the labor market programs and services available is contained in Chapter 2. Chapters 1 and 3 examine the extent of unemployment among overseas-born youth and explore the factors which influence their prospects in comparison with Australian born youth. Chapters 4 and 5 present evidence of program utilization by migrant youth. Chapter 6 examines the suitability of programs for overcoming the disadvantages of immigrant youth in seeking employment. The recommendations in the report's final chapter hinge on increasing migrant youths' utilization of resources, and involve four broad levels of improvement: (1) adjustments to the eligibility provisions for programs; (2) attention to procedures in program administration so as to assist those in greatest need; (3) adjustments to programs in order to enhance their suitability for a specific group; and (4) changes in the coordination and evaluation of programs and services. Appendices include program summaries, an overview of education and programs, and statistical information relating to the methodology and findings of the review. (CG)

This bibliography is a component of the Review of Manpower Programs and Services Affecting Migrant and Refugee Youth. It concentrates on Australian research and publications issued mainly between January 1977 and December 1983. Some unpublished papers are also included. The first section lists government reports and publications, with a subsection on publications of State and territory governments. The second section lists works on employment and the young migrant, and the third section lists works on preparing for employment of migrants. A list of some related bibliographies is also given. Each entry lists author or editor, title, publisher, and date, and gives a brief description of the work. The bibliography is indexed by main author.

The objectives of this review of multicultural and migrant education in Australia were to survey nationally current activities; assess whether programs can be improved and, if so, make recommendations for change; and identify areas requiring further research. The review covers the following topics: (1) patterns of Australian multiculturalism; (2) issues of education in a multicultural society, with discussion of teaching English as a second language, teaching of community languages, and studies of ethnic and cultural diversity; (3) community views on multicultural education; (4) discussion of relevant activities in government, Catholic, and non-Catholic independent schools; (5) the role of ethnic schools; (6) how tertiary institutions contribute to multicultural and migrant education through teaching community languages, preparing teachers of English as a Second Language, and courses in cultural and ethnic diversity; (7) issues of adult migrant education including home tutoring, courses in industry, and English teaching by television; and (8) what the government support structures are for multicultural education. Recommendations for action are made where clearly applicable and areas for further research are identified. A summary of conclusions and recommendations is included as well as a listing of contributors. (CG)

This directory is a guide to films and videos dealing with migration, migrant issues, and multiculturalism in Australia. Current and archival films are listed and most of the research sources used to obtain the listings are included in the directory. Section 1 lists documentaries and feature films; each citation includes title, production company (or director), year of production, format details, a brief description of the film, film-lending collections that have the film available for hire or viewing, and library catalog numbers, where applicable, that are used when ordering the film. The listing is prepared alphabetically and each item is numbered for ease of reference when using the subject index. Sections 2 and 3 list newswire and television items and other archival film material, using an availability code where applicable. Section 4 contains the complete address for each lending organization mentioned in the directory. There are two indexes to the films, one by subject and the other by title and number. The directory lists only such films as deal with social and/or cultural issues relating to migration and mi-

grant issues. (CG)

Identifiers—South Carolina

This handbook is designed for administrators and teachers dealing with Indochinese refugees from Vietnam, Laos, and Cambodia. The first section provides the reader with basic information on the personal and behavioral characteristics of Indochinese at home and in school. The second section gives practical suggestions on how to keep student records for Asian students, how to determine grade placement, and the types of programs most likely to be successful in teaching the students both English and native language skills. The third section outlines the legal requirements with regard to these students, and the next section is a simple listing of appropriate and inappropriate expectations to have and actions to take regarding this group. The booklet includes an extensive materials reference section and bibliography. (CG)

Identifiers—Texas

This study examines spending on children and youth in Texas by constructing a comprehensive children's budget for 1978 spending. The study attempts to include not only data on spending through State government sources, but also other public sources of funds, charitable spending, and indirect Federal subsidies through tax exclusions. Total spending is examined by purpose and source in Chapter 1, followed by a description of recipients of public expenditures and some of the rationales for these expenditures in Chapters 2 and 3. Next, the extent of community-based rather than institution-based programs is examined for such areas as mental retardation, delinquency, and substance abuse. Chapter 5 examines the extent of preventive as opposed to treatment programs. The final two chapters analyze the importance of nonresidence spending such as administrative expenses, and describe spending in Texas in relation to the State's administrative structure for children's programs. Appendices include data sources, and explanations of how estimates for county and local expenditures, tax expenditures, and private philanthropic expenditures were made. (CG)

Descriptors—African Culture, \*Black Culture, \*Black History, Community Characteristics, \*Cultural Background, \*Folk Culture, Local History, \*Preservation, United States History

Identifiers—\*Alabama (Africatown)

In 1868, Africatown was established in Mobile and Prichard, Alabama, by members of the last cargo of slaves brought to the United States. The community deserves recognition as a National Historic District because it is one of the few places in America where most residents can collectively trace their lineage to a group of pure Africans. In its earliest history, most of the Africatown men worked in the local lumber mills, and the women became fruit and vegetable vendors, cooks, or laundresses. These people were known as craftspeople, especially for woodworking and quilting. Africatown is also well known for its folk medicine, and most residents continue to rely on traditional African herbal drugs. Like most African music, the music in Africatown is chiefly vocal. The area is rich in folktales, many of which need to be recorded and documented. Another cultural area in particular need of preservation efforts is architecture. Many of Africatown's older shotgun houses and bungalows should be restored and preserved as monuments to the unsung craftsmen who erected them. Formal efforts to preserve Africatown began with the founding of the Progressive League in 1957, and in 1981 Africatown was nominated to become a National Historic District. In 1985, the Alabama legislature officially recognized Africatown as an historic area and made provisions for its establishment as a State park. (KH)

Descriptors—\*Black History, \*Black Leadership,

\*Civil Rights, \*Class Activities, Elementary Secondary Education, Justice, \*Learning Activities, \*Racial Relations, Voting Rights  
 Identifiers—\*King (Martin Luther Jr)

This resource guide was developed to commemorate Dr. Martin Luther King, Jr.'s birthday by providing school personnel with background information and hands-on activities for use with students in Grades K-12. The activities in the guide can be implemented throughout the school year to help students become aware of the social, economic, and political climate during the civil rights movement and to appreciate Dr. King's role as a proponent of civil rights for all people. Following a brief overview, a list of teacher and student objectives, and a chronology table, the guide is divided into two major sections: (1) Lesson Plans and Activities for Grades K-6, and (2) Lesson Plans and Activities for Secondary Grades 7-12. Both sections present five different lesson plans (together with the required readings, plays, charts, illustrations, and timelines) and conclude with a list of additional instructional activities. The activities in Section I focus on: (1) King's childhood; (2) his message of mutual understanding and respect (considered in relation to students' own behavior); (3) the facts and accomplishments of King's life; (4) the reasons for celebrating King's birthday; and (5) the chronology of King's life. Section 2 focuses on: (1) the struggle for voting rights; (2) the philosophies and activities of persons who influenced King's press for civil rights; (3) the relationship of King's goals to the goals upon which America was built; (4) the role of groups and organizations in the civil rights movement; and (5) the evolution of nonviolence from the 1940s through the 1960s. The guide concludes with an annotated bibliography of books, teaching aids, and information resources. An appendix includes additional materials and resources. (KH)

 Descriptors—Child Welfare, \*Disadvantaged Youth, Economically Disadvantaged, \*Family Financial Resources, Family Income, \*Family Programs, \*Federal Programs, Financial Policy, Low Income, \*Poverty, Social Services, \*Welfare Services

In response to the highest poverty rate among children since the 1960s, this report examines existing Federal policies to assist poor families with children and analyzes over 40 policy alternatives. Chapter 1 discusses how poverty is measured, recent trends and current patterns of childhood poverty as officially measured, and the effects of using alternative definitions of poverty. Chapter 2 describes issues that arise in determining the scope of direct government efforts to aid low-income families and in designing specific policies. It then examines the current Federal role, and concludes with an overview of options for altering current policies. The options themselves are discussed in chapters 3 through 6. Chapter 3, on options for cash transfer programs, focuses on aid to families with dependent children, the earned income tax credit, and other alternatives. Chapter 4 analyzes options for in-kind transfer programs, including food stamps, school nutrition programs, health care, and housing assistance. Chapter 5 considers options to deal with the effects of poverty, including nutrition and health services, child welfare services, targeted education programs, and services related to adolescent pregnancy and parenthood. Chapter 6 discusses options to improve employability, such as employment and training, and child care services. An appendix assesses current and alternative measures of poverty. The report includes 23 statistical tables and figures. (KH)

This guide profiles 36 Puerto Rican Studies programs at colleges, universities, and research centers throughout the United States, which comprise the majority of such programs that are available. Only those courses dealing specifically with Puerto Rican issues, and only faculty and staff members who work full-time, are listed. Each profile includes name, address, and contact person; a list of faculty; and a brief description of each course dealing with the Puerto Rican experience. Some of the listings include a general description of the institution's program in Puerto Rican studies. The programs listed are offered by the following universities: The City University of New York, Fordham University, State University of New York, University of Connecticut, Yale University, Rutgers University, Seton Hall University, Pennsylvania State University, University of Illinois, Indiana University, Wayne State University, University of Michigan, and the University of Wisconsin-Milwaukee. Also included is a bibliographical section which lists bibliographical sources, books, and selected masters and doctoral theses on Puerto Ricans in the United States. (CG)

Identifiers—CHAMPUS Program, Current Population Survey, Food Stamp Program, Medicaid, Medicare, \*Noncash Benefits, School Lunch Program

This document is a report of statistical data on the characteristics of households and individuals receiving noncash benefits in 1984. The data were obtained from the March 1985 Current Population Survey (CPS) conducted by the Bureau of the Census. The report covers data on: The Food Stamp Program; the National School Lunch Program; public and other subsidized rental housing; Medicare health insurance; Medicaid health insurance; CHAMPUS, VA, or military health insurance; and employer or union provided pension plans and group health insurance plans. There are two types of recipients for these noncash benefits: means-tested (those whose household income falls below a specified level) and non means-tested. In 1984, 88% of the households in the United States received at least one noncash benefit, an increase from 1983 of approximately 972,000 households. Households receiving at least one means-tested benefit did not change significantly from 1983 to 1984, but those households receiving nonmeans-tested benefits increased from 69.8 million to 70.7 million from 1983 to 1984. The body of this report consists of tables showing the collected data. Also included are extensive appendices which include information on: (1) definitions of terms and demographics; (2) sources and reliability of estimates; (3) underreporting; and (4) facsimiles of the 1985 CPS questionnaires.  Population Profile of the United States 1983/84.

Bureau of the Census (DOC), Suitland, Md. Population Div.

Pub Date—Sep 85  
 Note—55p.; Tabular material contains small print.  
 Available from—Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

Journal Cit—Current Population Reports; Series P-23 n145 Sep 1985

Pub Type—Numerical/Quantitative Data (110)—Reports - Research (143)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—Birth Rate, \*Demography, \*Educational Attainment, \*Family Characteristics, Income, \*Labor Force, Migrants, Migration Patterns, Population Growth, \*Population Trends, Poverty, \*Statistical Distributions

Identifiers—\*United States

This population profile summarizes a range of demographic, social, and economic data collected by the Census Bureau during 1983 and 1984. Geographic coverage is primarily for the nation as a whole, although some demographic data at the State level are also included. The areas covered are as follows: (1) national population trends; (2) national population projections; (3) fertility, childspacing, and birth expectations; (4) state population trends; (5) metropolitan/nonmetropolitan populations; (6) farm populations; (7) migration; (8) households and families; (9) living arrangements and marital status; (10) school enrollment; (11) educational attainment; (12) the labor force; (13) occupation; (14) earnings by occupation and sex; (15) money income; (16) participation in government benefits programs; and (17) poverty. Each section makes extensive use of graphs and charts to illustrate the data and concludes with a list of sources and the name and number of a specialist who can answer technical questions. Appendices include summary tables on the data, information on sources and limitations of the data, and sources for the figures. (CG)

Identifiers—\*New York, New York (Buffalo), New York (New York), New York (Rochester), New York (Syracuse), New York (Yonkers)

This document is a collection of racial/ethnic data on the school population of New York State for 1984-1985. Such data have been collected annually since 1966 and are part of the State Department of Education's Basic Educational Data System. Table 1 gives racial/ethnic student distribution in the State's five major school districts (Buffalo, New York City, Rochester, Syracuse, and Yonkers), for the rest of the State, and for the State as a whole. Table 2 presents the distribution of Black and Hispanic students by location in the State. It shows that 70.6% of all Black students and 86.5% of Hispanic students attend school in New York City. Table 3 shows a percent distribution of students by racial/ethnic origin for the years 1980-81 through 1984-85. In the large cities, the minority group population rose from 66.5% to 69.1%, with an even larger increase in Yonkers. Table 4 details the number of schools and the number and percent of minority students in schools of differing racial composition, and finds among other things, that 77.6% of Black and Hispanic students attend a minority school. Tables 5 and 6 present data on numbers and percents of Black and Hispanic students, respectively, in schools of differing racial composition. Tables 7 and 8 show the distribution of professional school staff by racial/ethnic origin, with current year data in Table 7 and trend data in Table 8. The document includes appendices which detail the distribution of public school students by racial/ethnic origin for each school district in the State, and distribution of school professional staff by racial/ethnic origin for each school district. Data are

included for: Native Americans, Alaskan natives, Asians, and Pacific Islanders, as well as Blacks, Hispanics, and Whites (non-Hispanics). (CG)

Descriptors—\*Demography, \*Educational Attainment, \*Family Characteristics, Family Income, \*Hispanic Americans, \*Labor Force, Population Growth, \*Poverty

Identifiers—\*Current Population Survey

This brief report presents preliminary data on the demographic, social, and economic characteristics of people of Spanish origin in the United States. The data were collected by the Census Bureau in a supplement to the March 1985 Current Population Survey (CPS), which used independent postcensal estimates on Hispanics. The Hispanic population has grown by 16% since 1980 as a result of high fertility and increased immigration. This is a proportionately larger increase than that for the total population. The Hispanic population has a higher median age in 1985 than it did in 1980 (up from 23.2 to 25) but still lower than the non-Hispanic population. Hispanics had a lower educational attainment level than non-Hispanics, with 14% having completed less than five years of school compared with only 2% of non-Hispanics of comparable age. In 1985, 72% of Hispanic families were married-couple families and 23% were families with single women heading the household. Family composition varied markedly among different Hispanic groups. There was no statistically significant difference between labor force participation of Hispanic and non-Hispanic populations, but the unemployment rate was substantially higher for Hispanics (11.3% versus 7.4%). The median income for Hispanic families in 1984 was \$18,800 and for non-Hispanics \$27,000. In 1984, the proportion of Hispanic families below the poverty level was more than double that of non-Hispanic families. (CG)

Identifiers—New York (New York)

This document evaluates the Bilingual Program in the Auxiliary Services for High Schools program, which provides instruction in English as a second language, native language development, basic education, and job counseling and placement services to approximately 1,900 students at 15 sites in New York City. The program was developed in 1969 to serve students with particular problems such as dropping out, chronic attendance problems, difficulty adjusting to a regular curriculum, armed forces veterans, and/or those who needed an alternative to the regular high school situation. The program objectives were to enable students to develop their level of English proficiency and the content area skills necessary to pass the GED examination, to expose them to job opportunities, and to teach analytical skills. Student achievement data indicates

that (1) all participants made significant gains on Levels 1 and 2 of the Stanford Achievement Test; (2) only one site achieved the objective of 60% promotion rate to the next higher English as a Second Language level and Haitians were the only participants among this group to achieve the 60% advancement; (3) each language group achieved significant gains in their native language; (4) students met the native language objective of 30% advancing in native language level; and (5) all language groups made significant gains in mathematics achievement. Recommendations for program improvement are included. (CG)

Descriptors—Academic Achievement, Attendance, \*Bilingual Education Programs, \*Career Education, English (Second Language), High Schools, \*Hispanic Americans, \*Italian Americans, Limited English Speaking, \*Native Language Instruction, \*Program Effectiveness, Program Evaluation, Program Improvement, Vocational Education

Identifiers—New York (Queens)

This document evaluates Project CAUSA (Career Advancement Utilizing Student Abilities), which provides instruction in English as a Second Language (ESL), native language development, and content-area courses, in addition to a career and vocational training program, to 115 students of limited English proficiency (LEP) from Italy and Spanish speaking countries at a high school in Ridgewood, Queens, New York. The project was designed to help recently arrived immigrants in these two language groups in the acculturation process, to provide them with basic skills, and to enhance their appreciation of their native cultures and languages. Program objectives were assessed in English language development, business skills, mastery of the native language, mathematics, science, social studies, and attendance. Student data indicates that: (1) overall, students achieved program objectives for English language achievement; (2) students' overall passing rates in business skills courses were 99% in the fall and 93% in the Spring; (3) Spanish students' gains in native language arts were significant; (4) overall passing rates of both language groups in native language arts met the 75% passing criterion both semesters; (5) passing rates in content-area courses exceeded the 70% passing rate criterion in all courses both semesters; and (6) the attendance rate of program students was higher than the school-wide rate. Recommendations are included for furthering the program's efforts in the areas of cultural awareness, parent/community involvement, and program evaluation. (CG)

Rorro, Gilda L. Leggio, Pamela J. A Handbook for Teachers of Haitian Students in New Jersey.

New Jersey State Dept. of Education, Trenton. Office of Equal Educational Opportunity.

Pub Date—Dec 84

Note—135p.

Available from—New Jersey State Dept. of Education, CN 500, Trenton, NJ 08625 (\$5.75).

Pub Type—Guides - Classroom - Teacher (052)

EDRS Price—MF01/PC06 Plus Postage.

Descriptors—\*Acculturation, \*Cultural Background, Curriculum Guides, Elementary Secondary Education, French, \*Haitian Creole, \*Haitians, Immigrants, Instructional Materials

Identifiers—Haiti, \*New Jersey

This handbook for teachers is designed to give information about the social and cultural background of Haitian immigrant students and their transition to life in the United States. The majority of the State's public school districts serving Haitian students have requested help in finding instructional materials for the more than 1,000 Haitians they are teaching, as well as information on curriculum adaptations and general understanding of their students' situation. This handbook was created in response to

this need. The first section focuses on the heritage and life experiences of Haitian students in Haiti, and includes information on: demography, history, social values, religion, language (Haitian Creole and French), education, and Haitian music. Section two describes the Haitian's adjustment to life in the United States and gives extensive information about working with students in the classroom. Included are: (1) suggestions on ways to help parents; (2) guidelines to understanding the Haitian Creole language; (3) comparisons of Haitian and American mathematical systems and orthography; and (4) various practical classroom considerations. Also included are stories, songs, poems, and other information—some Creole, French, and English translations for use by the teachers. Two sample lesson plans are given, one for the kindergarten through grade 2 level, and one for grades 7 through 9. A resource list is included, along with appendices which provide a variety of other information useful in dealing with this student population. (CG)

Identifiers—Congress 99th

The proceedings of a House of Representatives hearing on opportunities for self-sufficiency for single women in poverty are presented in this document. Included are statements presented by three panels consisting of experts in the field of welfare and employment policy, the General Accounting Office, and representatives of the National Association of State Welfare Administrators; the Reagan Administration; and witnesses who address specific concerns about child care, adolescent mothers, and educational opportunities for welfare recipients. Questions discussed include the following: (1) How should the income support system be structured so that it is able to provide a decent life for families without resulting in permanent poverty for so many of them? (2) How should resources be targeted to people with diverse needs? What approaches work best for which groups? (3) What is the Federal role in assuring that adequate child care and medical care are available to mothers making the transition from welfare to work? (4) How should government make the initial investment needed to reach severely disadvantaged participants? (5) How should Federal programs be designed to effectively serve large numbers of people? (6) How does Federal policy affect the availability of better-paying employment options for women? (7) Are adequate evaluation methods in place to determine which welfare employment programs are most successful in helping women achieve self-sufficiency? If not, how can they be implemented? (KH)

eral Programs, \*Private Education, Public Education, \*School Choice, State Church Separation Identifiers—\*Education Consolidation Improvement Act Chapter 1

This report analyzes problems in a proposal, submitted by Secretary of Education William J. Bennett, for Federal legislation to convert the Existing Chapter 1 program of the Education Consolidation and Improvement Act, which provides remedial educational services to disadvantaged students, into a tuition voucher program. The report, which is organized in outline form, makes 8 major points: (1) The voucher bill is objectionable on philosophical grounds. (2) Poor parents would not really have the choice of schools the voucher advocates claim. (3) The voucher bill would negatively affect Chapter 1, a program that is currently working well. (4) The bill would irresponsibly offer public funds without demanding public accountability. (5) The voucher program will be an administrative nightmare. (6) The bill could have a negative effect on civil rights and desegregation. (7) The bill raises serious constitutional problems, such as the separation of church and state and the tuition tax credit issue. (8) The voucher would be a \$3.2 billion experiment based on inadequate and inconclusive evidence. (KH)

Working with Patients from Other Cultures: Recent References for the Health Professional.

California Univ., San Diego.

Pub Date—Aug 85

Note—25p. Prepared for the Medical Library.

Pub Type—Reference Materials - Bibliographies (131)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—\*American Indians, \*Asian Americans, Cultural Differences, \*Cultural Traits, Ethnic Groups, \*Health, \*Health Needs, Health Services, \*Hispanic Americans, Mexican Americans, \*Pacific Americans

This bibliography of books and journals has been designed to aid San Diego and Imperial County (California) health care professionals in dealing with patients from three special population groups prevalent in that area: Hispanics, Native Americans, and Pan Asians. The bibliography is divided into four sections, the first of which lists general references. The remaining three sections are devoted to each of the respective groups. The guide concludes with a list of associations and agencies which disseminate further information. Literature pertaining to the Native American Indian population is limited primarily to Southwest Indians. Pan Asians include refugee populations such as Cambodians, Vietnamese, and Pacific Islanders. According to a brief introduction, the guide is highly selective and includes references that are easy to locate or order. References are limited, for the most part, to the past ten years, although some classic texts with earlier im-

prints are included. The most pertinent references are included at the end of each section as further readings for those who want a more comprehensive review of the literature. (KH)

Identifiers—New York (Bronx)

Project Bilingual Spanish-to-English Career Training (BISECT), in its second year of funding, offers bilingual instruction, career awareness development, and support services to 283 Hispanic students of limited English proficiency (LEP) in a high school in Bronx, New York. Program objectives were assessed in English language development, mathematics, science, social studies, career or vocational courses, and attendance. Quantitative analysis of the data indicated that program students: (1) mastered more than one Criterion Referenced English Syntax Test (CREST) objective per month in English as a second language, meeting program objectives; (2) were enrolled in mainstream content-area classes (25% in at least one course per semester); (3) exceeded the program objective (85% passing) in career and vocational subjects in both semesters; and (4) attended the program at a significantly higher rate than the school-wide attendance rate. The project's success is attributed to staff competence and commitment, program organization, curriculum development, and parental involvement. Recommendations for program improvement include recruitment of fully bilingual staff in mathematics and science, more individualized attention to problem students, offering algebra as part of the curriculum, and including non-bilingual school personnel in the in-service training activities. The appendices include information on staff characteristics and a listing of career courses available to students in and out of school. (CG)

Document Not Available from EDRS.

Descriptors—Access to Education, \*Adult Education, \*Adult Literacy, \*Black Education, \*Black History, Black Students, Educational Policy, Federal Programs, Government Role, Publications, \*Resource Materials, United States History

This bibliography provides an annotated list of 367 books and articles which address the subject of the education of black adults. The book is divided into five sections. The first includes resources on black education from 1619 to 1860. Education and training on the plantation, as well as in schools and special societies and through apprenticeships, is covered. The bibliography then lists literature covering the Civil War and Reconstruction period, 1860-1880. Included here are books which discuss the first efforts to reduce black illiteracy and the debate over the content and necessity of black education. The third section, covering the period from 1880 to 1930, lists sources concerned with the withdrawal of the Federal government from the realm of black education and black rights, and the implementation of the "separate but equal" doctrine. The fourth section, pertaining to the modern era, 1930 to the present, covers literature about the return of Federal support of black education and about various government programs. Finally, the fifth section lists "general resources," works which overlap the periods used to organize the bibliography. (KH)

Ball, Christopher C., Jr.

Explaining the Progressively Decreasing Scores on Comprehensive Tests of Basic Skills (CTBS) of the School Children of the District of Columbia Public Schools as They Progress from Elementary School into High School.

Pub Date—Jan 85

Note—67p.

Pub Type—Reports - Research (143)

EDRS Price - MF01/PC03 Plus Postage.

Descriptors—\*Academic Achievement, \*Academic Aspiration, \*Black Students, Elementary Secondary Education, \*Racial Discrimination, Racial Identification, Self Concept, Social Bias, Social Environment, \*Socialization, Social Status, \*Student Attitudes

Identifiers—\*District of Columbia Public Schools

This report uses motivation theory, social and cognitive development theory, and a construct, Definition of Reality (DOR), to explain why the black students of the District of Columbia Public Schools (DCPS) do less well on the Comprehensive Tests of Basic Skills as they progress from elementary school into high school. The report is divided into 8 chapters. Chapter 1 describes the study's purpose, background, and hypotheses, and Chapter 2 discusses its theoretical basis. Chapters 3 through 7 discuss social and cognitive development and the resulting DOR at progressive stages in school. Chapter 8 presents general conclusions. Major findings, it is said, are: (1) As black children mature, they begin to experience and discern the many culturally imposed hostilities of American society. This process engenders a DOR that encourages them to believe they will continue to be powerless, low caste, and discriminated against by white society. (2) By early adolescence, many blacks have learned to adapt to their DOR by giving less time and energy to schoolwork. They believe that academic achievement will neither change their economically subjugated position nor provide them with the benefits that come to high-achieving white children. (3) The declining test scores in the DCPS present a clear profile of lessening motivation as students adapt to the imposed DOR. Improving black academic achievement motivation, it is argued, will depend heavily on initiatives which take place outside of schools: integration and compensatory programs, in themselves, cannot significantly alter the black child's perception of the racial biases of the outside community. (KH)

General Psychology: Too Much to Give Away.
- ED 265 773  
Social vs. Clinical Perspectives on the Use of Information: Implications for School-based Information Systems. Systemic Evaluation Project.
- ED 266 155

Specificity of Information in Data-Based Decision Making in Schools. Systemic Evaluation Project. Final Report.

ED 266 158

**Inner City**

Implementation of a Program of Prosocial Behavior in an Inner City Kindergarten Classroom.

ED 265 973

**Innovation**

Of Specialists and Generalists.

ED 266 009

**Insight Programs**

Training's Benchmarks. A Statistical Sketch of Employer-Provided Training and Education: 1969-1981. Task I Report: The Impact of Public Policy on Education and Training in the Private Sector.

ED 265 379

**Inservice Education**

Administrator Inservice: Designing, Developing, and Delivering a Unique Institution of Higher Education (IHE), Local Education Agency (LEA), Partnership Program.

ED 265 647

Evaluation of Extension In-Service Education: Ritual or Precursor of Program Excellence?

ED 266 149

Extension Advisers' Perceptions of Their Jobs and Their Need for Additional Training in Relation to Duties and Demographic Characteristics.

ED 265 382

**Inservice Teacher Education**

Activities for Immersion. Proceedings of the 1983 Summer Immersion Workshop for Foreign Language Teachers Sponsored by the South Carolina State Department of Education.

ED 265 746

Beacon Hill Elementary Staff Involvement Leads to Improvements. Profiles Programs & Products. Goal Based Education Number 46.

ED 266 127

A Case Study of a School-Based Change.

ED 266 090

Clinical Teacher Education Guidelines. Report No. 9071.

ED 266 093

Developing Instructional Applications at the Secondary Level. The Computer as a Tool.

ED 265 850

Energy and Resource Conservation. Minimum Standards Leadership Series 1985.

ED 266 042

In-Service Teacher Education: A Key to Excellence in Vocational Education. Proceedings of a National Conference (Washington, D.C., April 10, 1985).

ED 265 410

Knowledge Development and Utilization: Getting Employability Research into Public Use.

ED 265 414

Staff Development: From the Bilingual Schoolroom to Beyond the Walls of the University.

ED 265 736

"Successful" Teachers' Patterns of Microcomputer-Based Mathematics and Science Instruction. A RAND Note.

ED 265 838

Symposium on the Initial and In-Service Training of Teachers of Modern Languages (Delphi, Greece, May 23-28, 1983).

ED 265 732

Teaching Mathematics and Science: Patterns of Microcomputer Use.

ED 266 036

Training of Science Teachers and Teacher Educators. Report of a Technical Working Group (Quezon City, Philippines, July 17-27, 1984).

ED 266 017

**Inspection**

Inspection. Youth Training Scheme. Core Exemplar Work Based Project.

ED 265 341

**Institutional Autonomy**

Proposiciones Sobre Autonomia Universitaria. (Propositions on University Autonomy).

ED 265 996

**Institutional Characteristics**

An Investigation of the Factors Associated with Effective Public High Schools.

Planning And Grants Committee, Council for Higher Education. Annual Report No. 11, Academic Year 1983/84.

ED 265 802

**Institutional Cooperation**

CLEP Fall 1985 College Administrators' Workshop.

ED 266 180

Information-Related Problems of Statewide Management Information Systems.

ED 265 871

School to Work, Transitioning Services in Northern Arizona. A Study of High School and VR Programs for Adolescent Disabled Individuals.

ED 265 286

**Institutional Mission**

Educational Quality and Accreditation. A Call for Diversity, Continuity and Innovation.

ED 265 807

Many Sectors, Many Professions. Comparative Higher Education Research Group. Working Paper #7.

ED 265 796

**Institutional Role**

The Role of the Research Museums. Science Policy Study-Hearings Volume 2. Hearing before the Task Force on Science Policy of the Committee on Science and Technology, House of Representatives, Ninety-Ninth Congress, First Session (April 17, 1985). No. 56.

ED 266 029

**Institutionalized Persons**

Helplessness, Pseudohelplessness and Psychotherapy.

ED 265 424

**Instructional Design**

The Application of Instructional Design and Modeling Theory in Educational Psychology.

ED 266 143

Effective Practices in Indian Education. Teacher's Monograph.

ED 266 000

The Role of Elaborations in Learning a Skill from an Instructional Text: Further Findings.

ED 265 824

**Instructional Development**

Designing Videodisc-Based Courseware for the High School.

ED 265 844

Electronic Text: An Amalgam of Capabilities for Creating, Informing, and Instructing. Monograph Number Two of the Electronic Text Monograph Series.

ED 265 830

Instructional Development for Distance Education.

ED 265 638

Instructional Leadership: A Handbook for the Georgia Curriculum Director.

ED 265 661

An International Study of the Impact of New Information Technologies on Curriculum and Institutional Structures.

ED 265 873

**Instructional Effectiveness**

Interaction of Learner Control and Prior Conceptual Understanding in Computer-Assisted Video Instruction.

ED 265 845

A Review of Research on the Educational Potential of 3-2-1 Contact: A Children's TV Series on Science and Technology. A Report for the Children's Television Workshop and the National Science Foundation.

ED 265 849

The Role of Elaborations in Learning a Skill from an Instructional Text: Further Findings.

ED 265 824

Teaching Generalizations Using a Computer-Based Drill Strategy.

ED 265 847

**Instructional Improvement**

Curriculum Alignment Topic Summary Report. Research on School Effectiveness Project.

ED 265 631

Focus on Teaching Project. Final Report.

ED 266 128

**Instructional Information Systems**

Specificity of Information in Data-Based Decision Making in Schools. Systemic Evaluation Project. Final Report.

ED 266 158

**Instructional Material Evaluation**

A Theory-Based Approach to Reading Assessment in the Army. Technical Report 625.

ED 265 494

**Instructional Materials**

Forging New Challenges in Curriculum.

ED 265 420

Selecting Elementary Reading Programs.

ED 265 629

**Instructional Program Divisions**

A Teamed Approach to Making the Transition to a Middle School.

ED 265 634

**Instructional Systems**

Specificity of Information in Data-Based Decision Making in Schools. Systemic Evaluation Project. Final Report.

ED 266 158

**Instrumental Learning Theory**

Micro-CAI in Education: Some Considerations.

ED 265 843

**Insurance**

Characteristics of Households and Persons Receiving Selected Noncash Benefits: 1984.

ED 266 221

University Benefits Survey. Part I (All Benefits Excluding Pensions).

ED 265 805

**Integrated Activities**

Convergences: Transactions in Reading and Writing.

ED 265 568

**Intellectual Development**

Aids-Intellectual Aids: A Conceptual Investigation.

ED 265 699

Essays on the Intellect.

ED 266 131

How Our Understanding of Reality Develops.

ED 265 697

Information Technologies: What You See Is Not (Always) What You Get. Revised.

ED 265 872

The Intellect and Intellectual Handicaps.

ED 265 698

**Intellectual Disciplines**

General Psychology: Too Much to Give Away.

ED 265 773

**Intelligence Quotient**

The Effect of Response Widening and Response Narrowing on IQ and Problem Solving.

ED 265 976

**Intensive Language Courses**

Gikuyu ni Kioigire: A First Course in Kikuyu. 2: Aria-i na Aagikuyu: An Introduction to Kikuyu Conversation.

ED 265 734

**Interaction**

The Effects of Maternal Training on Language Use.

ED 265 728

**Interactive Video**

Designing Videodisc-Based Courseware for the High School.

ED 265 844

**Intercollegiate Cooperation**

Teacher Education and the Liberal Arts. Wing-spread Conference of the Associated Colleges of the Midwest Report (October 11-13, 1985).

ED 266 124

**Intercultural Communication**

Guidelines for Cross-Cultural Communication between Students and Faculty.

ED 265 595

**Interdisciplinary Approach**

Creative Conflict Solving for Kids, Grades 4-9. Second Edition.

ED 266 053

Value-Centered Education and Moral Commitment.

Job Placement Guide. A Basic Approach to School-Based Job Placement Programs. Third Edition. ED 265 363

### Job Literacy

Case Studies of Reading in a High Technology Corporation. Reading Competencies and Practices. Technical Report #2. ED 265 509

An Investigation of the Curricular and Occupational Reading Demands of the Plumbing Trade. ED 265 522

Reading Practices of Adults in One High Technology Company. Reading Competencies and Practices. Technical Report #6. ED 265 512

### Job Performance

Extension Advisers' Perceptions of Their Jobs and Their Need for Additional Training in Relation to Duties and Demographic Characteristics. ED 265 382

Marginal Performance-A TA Model for Counseling and Appraising. Coombe Lodge Working Paper. Information Bank Number 1752. ED 265 487

New Directions in Library and Information Science Education. Final Report. ED 265 853

New Directions in Library and Information Science Education. Final Report. Volume 2.1: Academic Librarian Competencies. ED 265 854

New Directions in Library and Information Science Education. Final Report. Volume 2.10: Information Analysis Center Professional Competencies. ED 265 863

New Directions in Library and Information Science Education. Final Report. Volume 2.11: Information Service Company Professional Competencies. ED 265 864

New Directions in Library and Information Science Education. Final Report. Volume 2.12: Library System Supplier Professional Competencies. ED 265 865

New Directions in Library and Information Science Education. Final Report. Volume 2.2: Public Librarian Competencies. ED 265 855

New Directions in Library and Information Science Education. Final Report. Volume 2.3: School Librarian Competencies. ED 265 856

New Directions in Library and Information Science Education. Final Report. Volume 2.4: Special Librarian Competencies. ED 265 857

New Directions in Library and Information Science Education. Final Report. Volume 2.5: Database Producer Professional Competencies. ED 265 858

New Directions in Library and Information Science Education. Final Report. Volume 2.6: Database Distributor/Service Professional Competencies. ED 265 859

New Directions in Library and Information Science Education. Final Report. Volume 2.7: Information Center/Clearinghouse Professional Competencies. ED 265 860

New Directions in Library and Information Science Education. Final Report. Volume 2.8: Records and Information Manager Competencies. ED 265 861

New Directions in Library and Information Science Education. Final Report. Volume 2.9: Archivist/Museum Professional Competencies. ED 265 862

### Job Placement

Boatworks and Cleansweep: Mobile Work Crews for Adults with Developmental Disabilities. ED 265 692

Creative Job Development Strategies. ED 265 364

Employability Project: The Employment of Persons with Developmental Disabilities. ED 265 693

Job Placement Guide. A Basic Approach to School-Based Job Placement Programs. Third Edition. ED 265 363

Outplacement Counseling. ED 265 431

### Job Related Reading

Case Studies of Reading in a High Technology Corporation. Reading Competencies and Practices. Technical Report #2. ED 265 509

An Investigation of the Curricular and Occupational Reading Demands of the Plumbing Trade. ED 265 522

Reading Practices of Adults in One High Technology Company. Reading Competencies and Practices. Technical Report #6. ED 265 512

### Job Satisfaction

Career Development and Satisfaction among Secondary School Teachers. ED 266 119

The Complex Challenge of Professional Development: Current Trends and Future Opportunities. ED 265 911

Job Satisfaction and the Alabama Public School Speech-Language Pathologist. ED 265 602

The Mid-Career Plateau: A Note on Coping with Demotivated Staff. Coombe Lodge Working Paper. Information Bank Number 1706. ED 265 299

Personnel Characteristics, Job Satisfaction, and Organizational Styles of Television Program Directors Over Market Ranks and Station Sizes. ED 265 579

Teacher Job Satisfaction: A Perspective. ED 266 142

University Mid-Level Administrators: Comparisons between Men and Women on Work Experience, Commitment, and Job Satisfaction. ED 265 763

### Job Search Methods

Job Placement Guide. A Basic Approach to School-Based Job Placement Programs. Third Edition. ED 265 363

### Job Skills

Applied Industrial Electronics: Power Control and Electronic Troubleshooting. ED 265 417

Boatworks and Cleansweep: Mobile Work Crews for Adults with Developmental Disabilities. ED 265 692

Collaboration in Education and Employment: What It Takes to Make It Work. Annual Policy Forum Proceedings (Columbus, Ohio, October 29-31, 1985). ED 265 415

Communication Skills in Business and Industry. ED 265 590

Employability Project: The Employment of Persons with Developmental Disabilities. ED 266 116

Introduction to Auto Body. Vocational Trade and Industrial Education. ED 265 693

Learning to Work: Transitioning Youth with Developmental Disabilities. ED 265 691

Optometry Specialist. ED 265 401

### Job Training

Community Colleges and Industry: Rationale for a Relationship. ED 265 909

Converting Working into Learning. An Appraisal of an LEA Foundation Year Training Scheme. ED 265 392

A Cooperative Project for the Development and Delivery of Training to Rural Library Staff across Alberta. Phase Two/Three. First Interim Report. ED 265 869

Educational Training in a Pre-Release Correctional Center/A Collaborative Model. ED 265 391

The Institutional Background for the Transition from School to Working Life in the FRG. Coombe Lodge Working Paper. Information Bank Number 1881. ED 265 301

The Organisation of Productive Work in Secondary Technical and Vocational Education in the United Kingdom. Studies in Technical and Vocational Education 2. ED 265 288

Reducing the Risk: Unemployed Migrant Youth and Labour Market Programs. Report. ED 266 206

Selection to Pre-Employment Trades Based Courses. Working Paper 5. ED 265 298

Training's Policies: Public and Private Reinforcement for the American Economy. Final Report. The Impact of Public Policy on Education and Training in the Private Sector. ED 265 377

### Job Training Partnership Act 1982

Re-employment for Dislocated Workers: The Jobs Training Partnership Act Experience in Maryland. ED 265 374

### Journal Approach

The Use of Student Journals in the Basic Speech Course. ED 265 583

### Journalism

Ida Husted Harper and the Leslie Bureau of Suffrage Education. ED 265 548

New Directions in Journalism Research. A Selection of Papers from the Colloquium on Research in Journalism (Dubrovnik, Yugoslavia, April 1985). Publications Series B. ED 265 538

### Journalism Research

New Directions in Journalism Research. A Selection of Papers from the Colloquium on Research in Journalism (Dubrovnik, Yugoslavia, April 1985). Publications Series B. ED 265 538

### Juvenile Courts

Implementation of Public Law 94-142 as It Relates to Handicapped Delinquents in the District of Columbia. Report to the Ranking Minority Member, Committee on the District of Columbia, House of Representatives. ED 265 717

Guia Legal para Ciudadanos Envejecientes: Leyes y Programas Afectando los Ciudadanos Envejecientes de Kansas. (Legal Guide for Senior Citizens: Laws and Programs Affecting Kansas Senior Citizens). ED 265 987

Legal Guide for Senior Citizens: Laws and Programs Affecting Kansas Senior Citizens. ED 265 986

### Kentucky

Information from Special Education Teachers for Improvement in Teacher Education Programs. ED 266 116

## Subject Index

### Kentucky (Jefferson County)

School Desegregation Spurs First Housing Desegregation Gain in Forty Years in Louisville and Jefferson County. Three Decades of Increased Segregation Erased between 1970 and 1980. Staff Report 85-8.

ED 266 204

### Kentucky (Louisville)

School Desegregation Spurs First Housing Desegregation Gain in Forty Years in Louisville and Jefferson County. Three Decades of Increased Segregation Erased between 1970 and 1980. Staff Report 85-8.

ED 266 204

### Keyboarding

A Research Study to Determine the Effects of Early Keyboard Use upon Student Development in Occupational Keyboarding. Final Report of Research.

ED 265 367

### Kikuyu

Gikuyu ni Kioigire: A First Course in Kikuyu. 1: Write Gikuyu.

ED 265 733

Gikuyu ni Kioigire: A First Course in Kikuyu. 2: Arie-i na Aagikuyu: An Introduction to Kikuyu Conversation.

ED 265 734

Gikuyu ni Kioigire: A First Course in Kikuyu. 3: Essays, Texts, and Glossaries. Linguistic and Cultural Reference Materials.

ED 265 735

### Kindergarten

Kindergarten Reading: A Proposal for a Problem-Solving Approach. Technical Report No. 345.

ED 265 492

### Kindergarten Children

Implementation of a Program of Prosocial Behavior in an Inner City Kindergarten Classroom.

ED 265 973

Kindergarten Children's Perceptions of Classroom Rules.

ED 265 939

A Tale of Two Learners.

ED 265 957

### King (Martin Luther Jr)

Martin Luther King, Jr. Resource Guide.

ED 266 218

### Kinship

Marital Instability and the Changing Kinship Networks of Grandparents.

ED 265 443

### Kitchens

Fire. Youth Training Scheme. Core Exemplar Work Based Project.

ED 265 345

### Knowledge Level

A Comprehensive and Educative Approach to Program Evaluation.

ED 266 193

Play, Language, and Stories: The Development of Children's Literate Behavior.

ED 265 555//

### Knoxville City Schools TN

Results of a Project to Improve Proficiency Scores in Selected Ninth Grades, 1984-85 School Year. First-Year Evaluation Report: Knoxville City Schools (KCS).

ED 265 620

### Kyrene School District AZ

Two Case Studies of Local Test Development.

ED 266 169

### Labor Education

Education and Worker Co-operatives. Some Perspectives of the Australian TAFE Connection.

ED 265 296

### Labor Force

Persons of Spanish Origin in the United States: March 1985 (Advance Report).

ED 266 224

Population Profile of the United States 1983/84.

ED 266 222

### Labor Force Development

Making the Transition in Technology, Training, and Education.

Manpower Projection and Strategies 1979-91.

ED 265 283

Migrant and Refugee Youth in the Australian Labour Force. An Annotated Bibliography.

ED 266 207

Training's Practices: Education and Training within the American Firm.

ED 265 378

### Labor Force Nonparticipants

Reducing the Risk: Unemployed Migrant Youth and Labour Market Programs. Overview.

ED 266 205

### Labor Market

How Do Immigrants Affect Us Economically?

ED 266 197

A Review of Present and Proposed Occupational and Degree Programs Offered by the Saddleback Community College District and the Labor Market in Orange County.

ED 265 896

### Labor Needs

Developing and Implementing a Program of Employer and Job Needs Assessment.

ED 265 366

Manpower Projection and Strategies 1979-91.

ED 265 283

### Labor Supply

The Impact of Foreign-Trained Doctors on the Supply of Physicians.

ED 265 785

Manpower Projection and Strategies 1979-91.

ED 265 283

National Health Service Corps Amendments of 1985. Report to Accompany S. 1285. Ninety-Ninth Congress, First Session.

ED 265 804

### Laboratories

Laboratory Analysis within the Vocational Technical School as Adapted [from] a Guide to Job Analysis [by the] U.S. Department of Labor.

ED 265 416

### Laboratory Animals

Alternatives to Animal Use in Research, Testing, and Education. Summary.

ED 266 020

### Laboratory Technology

The Use of Compute, Networks in Data Gathering and Data Analysis.

ED 265 883

### Laboratory Training

Laboratory Analysis within the Vocational Technical School as Adapted [from] a Guide to Job Analysis [by the] U.S. Department of Labor.

ED 265 416

### Language Acquisition

The Acquisition of Written Language: Response and Revision. Writing Research: Multidisciplinary Inquiries into the Nature of Writing Series.

ED 265 553//

Advances in Writing Research, Volume One: Children's Early Writing Development. Writing Research: Multidisciplinary Inquiries into the Nature of Writing Series.

ED 265 556//

Development of a Transactional Self.

ED 265 953

The Development of Speech Workshops and Videotape Library to Train Teachers and Parents of Exceptional Infants and Preschoolers.

ED 265 713

The Effects of Maternal Training on Language Use.

ED 265 728

Fostering Bilingualism in Early Childhood in an English-Speaking Home.

ED 265 959

Language Assessment in the Early Years. Language and Learning for Human Service Professions Monograph Series.

ED 265 554//

The Modifiability of Maternal Language Use and Its Effect on Delayed Child Language Acquisition.

ED 265 680

New Directions in Studying Children. Speeches from the Conference of the Erikson Institute (Chicago, Illinois, April 29-30, 1983).

## Language Usage

189

Oral Language Disorders Program. Language Is a Group Experience.

ED 265 676

Rules in Child Language.

ED 265 739

Speech Acquisition and Archetypes: A Developmental Study of Autistic Young Adults.

ED 265 720

Written Language and Psychological Development.

ED 265 557//

### Language across the Curriculum

Implementation Strategies for an Integrative Approach to Teaching Reading and Language.

ED 265 743

### Language Arts

Implementation Strategies for an Integrative Approach to Teaching Reading and Language.

ED 265 743

### Language Attitudes

Puerto Rican Spanish: Linguistic Insecurity.

ED 265 738

### Language Experience Approach

Implementation Strategies for an Integrative Approach to Teaching Reading and Language.

ED 265 743

### Language Handicaps

The Development and Implementation of a Self-Concept Guidance Program for Severely Language Impaired Students.

ED 265 712

The Modifiability of Maternal Language Use and Its Effect on Delayed Child Language Acquisition.

ED 265 680

### Language Planning

Grammar and Good Taste: Reforming the American Language.

ED 265 546//

### Language Processing

Contexts of Reading. Advances in Discourse Processes Series. Volume XVIII.

ED 265 506//

Sequential Processes in Image Generation: An Objective Measure. Technical Report #6.

ED 266 188

Written Language and Psychological Development.

ED 265 557//

### Language Proficiency

The Sensitive Period Hypothesis: A Review of Literature Regarding Acquisition of a Native-Like Pronunciation in a Second Language.

ED 265 745

A Tale of Two Learners.

A Study of the Use of the Semantic Webbing Technique to Improve Reading Comprehension of Third and Fourth Graders. ED 265 490

## Subject Index

### Semantics

- Development of a Transactional Self.  
ED 265 953  
Gikuyu ni Kioigire: A First Course in Kikuyu. 2: Arie-I na Aagikuyu: An Introduction to Kikuyu Conversation.  
ED 265 734

### Semiotics

- Can An American Do Semiotic Phenomenology?  
ED 265 594

### Sensory Aids

- Aids-Intellectual Aids: A Conceptual Investigation.  
ED 265 699  
Reading Machines: Devices for Converting Print to Braille or Speech. Bibliography No. 85-2.  
ED 265 710  
Technology-A Bridge to Independence. RESNA '85. Proceedings of the Annual Conference on Rehabilitation Technology (8th, Memphis, Tennessee, June 24-28, 1985).  
ED 265 284

### Sentence Structure

- Gikuyu ni Kioigire: A First Course in Kikuyu. 3: Essays, Texts, and Glossaries. Linguistic and Cultural Reference Materials.  
ED 265 735  
A Study of Analogy and Person in Computer Documentation. Preliminary Report.  
ED 265 837  
Using the Rods for Structural Grammar.  
ED 265 747

### Service Providers

- New Directions in Library and Information Science Education. Final Report. Volume 2.12: Library System Supplier Professional Competencies.  
ED 265 865

### Services

- Directory of Programs Serving Children and Adults with Autism. Fifth Edition-1985.  
ED 265 690

### Sesame Street

- The Influence of Television on Children's Attentional Abilities.  
ED 265 933

### SET Research Information for Teachers

- The Utilization of "Set: Research Information for Teachers" in Selected Educational Institutions.  
ED 266 185

### Severe Disabilities

- Interactive Evaluation of Educational Programs Serving Students with Severe Disabilities.  
ED 265 694  
Investigating the Problem of Skill Generalization. 3rd Edition. With Literature Reviews.  
ED 265 695  
Mental Retardation: Topics of Today-Issues of Tomorrow.  
ED 265 687

### Sex Bias

- Assessment of Positive Sex-Role Characteristics.  
ED 265 476  
Title IX Gender Equity Profile, 1984-85. Boulder Valley School District.  
ED 266 085  
Unequal Knowledge Distribution: The Schooling Experience in a Togolese Secondary School. Occasional Papers Series, Number 9.  
ED 266 070

### Sex Differences

- An Assessment Study of the Communication Retention of High School Students.  
ED 265 591  
Attitudes Toward Death Across the Life Span.  
ED 265 449  
The Effects of Intraprogram Synopses on Children's Comprehension of Television Programming and Commercials.

- The Assessment of Need for Administrative Development on a University Campus: A Report.  
ED 265 764  
Belief Systems: The Effective Management of Self-Esteem by Internalizing Programmes from Assertion and Awareness Training. Management Development: Personal Growth through Intra-Personal Skills. Coombe Lodge Working Paper. Information Bank Number 2048.  
ED 265 489

- Communication Skills in Business and Industry.  
ED 265 590

- Critical Thinking Skills. Analysis and Action Series.  
ED 265 501

- Intra-Personal Skills: A Conceptual Model. Intra-Personal Skills Series. Coombe Lodge Working Paper. Information Bank Number 2047.  
ED 265 488

- A Research Study to Determine the Effects of Early Keyboard Use upon Student Development in Occupational Keyboarding. Final Report of Research.  
ED 265 367

- The Role of Elaborations in Learning a Skill from an Instructional Text: Further Findings.  
ED 265 824

- The Role of the Future Homemakers of America Student Organization in Facilitating the Development of Critical Thinking Skills.  
ED 265 397

### Skilled Occupations

- The Tools of the Trade. Youth Training Scheme. Core Exemplar Work Based Project.  
ED 265 332

### Small Businesses

- Business Incubator Development in Rural Areas.  
ED 265 983

### Small Colleges

- Making Silk Purses Out of Sows Ears: An Overview of the Communication Arts Curriculum at George Fox College.  
ED 265 580

### Small Schools

- The Advantages of Small Schools. ERIC Digests.  
ED 265 988  
Illinois, An Educational Step Backward.  
ED 265 985

### Smokeless Tobacco

- Comprehensive Smokeless Tobacco and Health Education Act of 1985. United States Senate, Ninety-Ninth Congress, First Session. Report to Accompany S.1374.  
ED 265 461  
Smokeless Tobacco: Attitudes and Practices in a Sample of Preservice Teachers.  
ED 266 135

### Smoking

- Problems of Applying Communication/Behavior Theories to a Program of Smoking Reduction.  
ED 265 582

### Social Action

- Ida Husted Harper and the Lealie Bureau of Suffrage Education.  
ED 265 548

### Social Adjustment

- Increasing the Social Networks of Isolated Elderly: Treatment and Research Findings.  
ED 265 480

### Social Attitudes

- Children, Kitchen and Computer: Women-Torn between Family and Job. Developments in the Federal Republic of Germany. Social Report.  
ED 266 052  
A Cultural Context for Japanese Education.  
ED 266 049  
Integration of the Handicapped in Secondary Schools: Five Case Studies. The Education of the Handicapped Adolescent, III.  
ED 265 714

**Social Behavior**

- Studies of Day Care Center Climate and Its Effect on Children's Social and Emotional Behavior. ED 265 934

**Social Change**

- Investigacion Participativa y Gestion de Sistemas Educativos. (Participatory Research and the Management of Educational Systems). ED 265 995  
Navajo History: The Land and the People. ED 265 990  
Presidential Initiative for the Second Term. Report of the Committee on the Next Agenda. ED 266 045  
Science, Technology and the Quality of Life. ED 266 076

Texas Examination of Current Administrators and Teachers (TECAT). Test Specifications.

ED 266 164

#### Text Structure

The Strategic Abilities of Above Average and Average High School Students: A Function of Text Conditions.

ED 265 519

#### Textbook Content

Anaphora in Basal Reader Selections: How Frequently Do They Occur?

ED 265 514

Contexts for Learning to Write: Studies of Secondary School Instruction. Writing Research: Multidisciplinary Inquiries into the Nature of Writing Series.

ED 265 558//

#### Textbook Research

Anaphora in Basal Reader Selections: How Frequently Do They Occur?

ED 265 514

Contexts for Learning to Write: Studies of Secondary School Instruction. Writing Research: Multidisciplinary Inquiries into the Nature of Writing Series.

ED 265 558//

#### Textbooks

The Meaning of School Accounts: A Self-Instructional Text. 4th Edition.

ED 265 622

#### Theater Arts

Alternative Methods to Practicum Grading.

ED 265 605

#### Theological Education

Recruiting Seminary Trustees.

ED 265 775

The Selection of Seminary Presidents: An Informal Guide for Trustee Search Committees.

ED 265 809

#### Theories

Human Development: The Early Years.

ED 265 960

#### Theory Practice Relationship

Exploring the Relationship between Research & Practice: The Impact of Assuming the Role of Action Researcher in One's Own Classroom.

ED 266 110

Problems of Applying Communication/Behavior Theories to a Program of Smoking Reduction.

ED 265 582

#### Theory Z

Theory Z and American Education in an Advanced Industrial Society.

ED 265 649

#### Therapeutic Recreation

Recreation Therapy: Implications for the Ventilator Assisted Child.

ED 265 704

#### Thinking across the Curriculum

Writing and Reading across the Curriculum: Proceedings of the Claremont Reading Conference (52nd, Claremont, California, March 22-23, 1985). Forty-Ninth Yearbook.

ED 265 503//

#### Three Parameter Model

An Investigation of the Feasibility of Using the Three Parameter IRT Model in Florida's Student Assessment Program.

ED 266 153

An Investigation of the Feasibility of Using the Three-Parameter Model for Florida's Statewide Assessment Tests.

ED 266 152

#### Time Factors (Learning)

Evaluation of Experimental Concentration of Studies in Upper Secondary School.

ED 266 023

Interaction of Learner Control and Prior Conceptual Understanding in Computer-Assisted Video

## Author Index

This index lists documents under the name(s) of their author(s). The index is arranged in alphabetical order by the person's last name.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

Author ——— Norberg, Kenneth D.  
 Title ——— Iconic Signs and Symbols in Audiovisual Communication. An Analytical Survey of Selected Writing and Research Findings. Final Report.  
 ED 013 371 ——— Accession Number

- Abel, Frederick J.**  
 The Application of Instructional Design and Modeling Theory in Educational Psychology.  
 ED 266 143

# Institution Index

This index lists the titles of documents under the institution responsible for them and/or the agency sponsoring them. The index is arranged in alphabetical sequence by the name of the university, agency, association, etc. Names beginning with the word "University" have generally been inverted in order to provide a more distinctive entry, e.g. Wisconsin University (for the University of Wisconsin).

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

**Institution** ————— **Sacramento State College, Calif.**

**Title** ————— **Iconic Signs and Symbols in Audiovisual Communication. An Analytical Survey of Selected Writings and Research Findings. Final Report.**

**ED 013 371** ————— **Accession Number**

**Abo Akademi (Finland).**

## Publication Type Index

This index lists documents under the Publication Type that has been assigned to them to characterize their form or organization, as contrasted to their subject matter.

As shown in the example below, the accession number is displayed below and to the right of the document title. Additional information about the document can be found under that number in the resume section. The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

The Publication Types are displayed in a classified index arrangement, according to the outline below.

PUBLICATION TYPE CATEGORIES			
CODE	CATEGORY	CODE	CATEGORY
010	BOOKS	080	JOURNAL ARTICLES
	COLLECTED WORKS	090	LEGAL/LEGISLATIVE/REGULATORY MATERIALS
020	— General	100	AUDIOVISUAL/NON-PRINT MATERIALS

## Clearinghouse Number/ED Number Cross-Reference Index

This index cross-references the temporary ERIC Clearinghouse accession number to the permanent ERIC Document (ED) accession numbers by which resumes are arranged in *Resources in Education (RIE)*. Readers who have only Clearinghouse numbers for a given document may use this index to trace the item to its ED number and hence to its location in *RIE*.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

The following Clearinghouse prefixes are used in this index:

AA —ERIC Processing and Reference Facility  
 CE —Adult, Career, and Vocational Education  
 CG —Counseling and Personnel Services  
 CS —Reading and Communication Skills  
 EA —Educational Management  
 EC —Handicapped and Gifted Children  
 FL —Languages and Linguistics  
 HE —Higher Education  
 IR —Information Resources

JC —Junior Colleges  
 PS —Elementary and Early Childhood Education  
 RC —Rural Education and Small Schools  
 SE —Science, Mathematics, and  
 Environmental Education  
 SO —Social Studies/Social Science Education  
 SP —Teacher Education  
 TM —Tests, Measurement, and Evaluation  
 UD —Urban Education

# THESAURUS ADDITIONS AND CHANGES

The following additions and modifications have been made to the ERIC controlled vocabulary since October 1983. They are, therefore, not included in the 10th (1984) edition of the *Thesaurus of ERIC Descriptors*.

## ADAPTIVE TESTING *Feb. 1984*

SN Testing that involves selecting test items according to the examinee's ability as shown by responses to earlier test items

UF Flexilevel Testing  
Response Contingent Testing  
Stradaptive Testing  
Tailored Testing

Aerobic Dance  
USE AEROBICS: DANCE

## AEROBICS *Jun. 1984*

SN Method of achieving physical conditioning and fitness by stimulating heart (pulse rate) and lung (oxygen intake) activity through successively longer periods of vigorous exercise, thereby gradually expanding the capacity of the cardiovascular and respiratory systems

## AIR TRAFFIC CONTROL *Jan. 1985*

SN Scheduling and monitoring the flow of air traffic at airports, during approaches, and en route

## ALTERNATIVE ENERGY SOURCES *Oct. 1984*

SN Sources of energy other than conventional fossil fuels (petroleum, coal, natural gas) or nuclear fission/fusion (note: see also related identifiers such as "Renewable Resources" and "Synthetic Fuels")

## ANDRAGOGY *Mar. 1984*

SN The art and science of the facilitation of adult learning, distinguished from child-oriented "Pedagogy" in terms of learner self-direction, application of knowledge and experience, learning readiness, orientation to the present, and problem-centeredness

UF Andragogy

## AQUATIC SPORTS *Jan. 1985*

UF Water Sports

Arithmetic Tests  
USE ARITHMETIC: MATHEMATICS TESTS

## ASSISTIVE DEVICES (FOR DISABLED) *Apr. 1986*

SN Devices to aid the disabled to perform normal living or vocational tasks  
UF Adaptive Equipment (Disabled)  
Self Help Devices (Disabled)

## BADMINTON *Jun. 1984*

## BIBLIOGRAPHIC UTILITIES *Apr. 1986*

SN Online library networking organizations with large bibliographic databases that are shared by participating libraries for a variety of technical purposes, including cataloging, interlibrary loans, acquisitions, and authority file control (note: see also such identifiers as "OCLC," "Research Libraries Information Network," "Washington Library Network," and "University of Toronto Library Automation Systems")

## BIOETHICS *Jan. 1985*

SN Discipline dealing with the moral and social implications of practices and developments in the biological sciences and medicine

## BOWLING *Apr. 1985*

SN (note: do not confuse with the identifiers "Lawn Bowling" and "Cricket (Sport)")  
UF Tenpins

## BRAINSTORMING *Dec. 1985*

SN Activity or technique to encourage the creative generation of ideas—usually a group process, in which group members contribute suggestions in a spontaneous, noncritical manner

## BREASTFEEDING *Apr. 1986*

## BRITISH INFANT SCHOOLS *Dec. 1985*

SN Lower-division schools of the British primary system for children 5 to 7 or 8, often associated with an informal, open approach to teaching and student-selected learning activities (note: coordinate non-U.S., including British, applications with geographic identifiers)  
UF Infant Schools (British Primary System)

Budget Cuts  
USE BUDGETING: RETRENCHMENT

## BULIMIA *Apr. 1986*

SN Disorder characterized by recurrent binge eating, usually followed by self-induced purging—attended by depressed moods and self-deprecating thoughts  
UF Bulimarexia

## CARDIOPULMONARY RESUSCITATION *Apr. 1986*

SN Procedure to restore normal breathing and heartbeat following cardiac arrest—may include mouth-to-mouth ventilation, external chest compression, and use of drugs  
UF CPR (Medicine)

Church State Separation  
USE STATE CHURCH SEPARATION

## CLIENT CHARACTERISTICS (HUMAN SERVICES) *Oct. 1984*

SN Distinguishing traits or qualities of persons who engage the assistance of human service workers (counselors, psychologists, physicians, nurses, social workers, etc.)  
UF Client Background (Human Services)

## COGNITIVE PSYCHOLOGY *Dec. 1985*

SN Branch of psychology concerned with the nature and structure of complex "knowledge processes" (e.g., recognizing, conceiving, judging, and reasoning) and their effects on, or interactions with, behavior—particularly identified with "information processing" models of human cognition, usually simulated on computers

## COMMUNITY PSYCHOLOGY *Apr. 1986*

SN The application of psychological methods (in collaboration with psychiatry, sociology, social work, etc.) to problems arising in a community and soluble only through a community-wide approach—attention is given to problems of mental health, social welfare, group relationships, education, social action, etc., involving the well-being of all community members

## COMPARABLE WORTH *Jan. 1986*

SN Principle of equal pay for work of comparable value, i.e., equal pay for jobs that may have different duties but that require similar levels of skill, effort, and responsibility under similar working conditions—frequently advocated to redress sex-based pay inequities, i.e., between comparable female- and male-dominated jobs (some analyses consider race/ethnicity among job types as well)  
UF Pay Equity

Computer Programs (Del Jun84)  
USE COMPUTER SOFTWARE

## COMPUTER SOFTWARE *Jun. 1984*

SN Logical sequences of instructions used to direct the actions of a computer system, and accompanying documentation (note: corresponds to Pubtype code 101 and should not be used except as the subject of a document—this restriction was not carried prior to Jun84 under the former term "Computer Programs"—if appropriate, use the more specific term "Courseware")

UF Computer Program Documentation  
Software (Computers)

Computerized Adaptive Testing  
USE ADAPTIVE TESTING: COMPUTER ASSISTED TESTING (Replaces "Computer Adaptive Testing" as USE Reference)

Computerized Tailored Testing  
USE ADAPTIVE TESTING: COMPUTER ASSISTED TESTING (Replaces "Computer Tailored Testing" as USE Reference)

Conference Skills (Communication)  
USE COMMUNICATION SKILLS

## CONSERVATISM *Jan. 1985*

SN Philosophy or disposition that generally supports the preservation or reinstatement of traditional values and statuses in social or political affairs

## COURSEWARE *Jun. 1984*

SN Computer software and accompanying documentation written for instructional applications (note: prior to Jun84, this concept was indexed by "Computer Programs," postings of which have since been merged to "Computer Software")  
UF Instructional Software

## DATA ANALYSIS *Jul. 1966*

SN (Scope Note Changed) Preparation of factual information items for dissemination or further treatment (includes compiling, verifying, ordering, classifying, and interpreting)

## DATA INTERPRETATION *Jan. 1985*

SN Explanation of the meaning, implications, or limitations of factual information

## DATABASE MANAGEMENT SYSTEMS *Apr. 1986*

SN Software used to create, organize, secure, access, and update databases  
UF DBMS  
File Management Systems

## DATABASE PRODUCERS *Apr. 1986*

SN Publishers, businesses, government agencies, or other organizations that create computer-readable information files, often for public access

## DISLOCATED WORKERS *Mar. 1984*

SN Workers who have lost their jobs because of economic and technological changes in a business or industry, e.g., plant closings or relocation, increased competition, automation, or market fluctuations  
UF Disemployment  
Displaced Workers

## DIVING *Jan. 1985*

SN Plunging into water in a prescribed manner (note: do not confuse with "Underwater Diving")  
UF Platform Diving  
Springboard Diving  
Tower Diving

## DOCUMENTATION *Jul. 1966*

SN (Scope Note Changed) Techniques used to collect, process, organize, store, and retrieve documents (note: use "Computer Software" for computer program documentation)

Drawing (Computerized)  
USE COMPUTER GRAPHICS

# **Drawing (Freehand)** **USE FREEHAND DRAWING**

## **Drawing (Precision Draft)** **USE DRAFTING**

### **EARLY RETIREMENT**

**SN** Withdrawal from one's occupation or career at an earlier age or time than is mandatory or customary *Mar. 1984*

### **EDUCATIONAL ASSESSMENT**

**SN** (Scope Note Changed) Determining and interpreting the attainment of educational objectives (nationwide, statewide, or locally) for use in educational planning, development, policy formation, and resource allocation (note: do not confuse with "Educational Diagnosis" or "Testing") *Jan. 1974*

### **ELECTRONIC MAIL**

**SN** The processing and delivery of printed messages (text or graphics) via telecommunications terminals *Apr. 1986*

**UF** Computer Based Message Systems  
Electronic Bulletin Boards

### **ELECTRONIC PUBLISHING**

**SN** Use of computers, instead of traditional print media, to produce and distribute information *Apr. 1986*

### **Employed Mothers**

## **USE EMPLOYED PARENTS; MOTHERS**

### **ENDANGERED SPECIES**

**SN** Plants or animals in danger of extinction *Oct. 1984*

### **ENERGY EDUCATION**

("Energy Education (Conservation)" deleted as **USE Reference**) *Jan. 1985*

**SN** Learning/teaching activities, often interdisciplinary in nature, that focus on such topics as energy resources, conversions, conservation, forms, uses, and issues—includes both general and technical educational programs

### **ENERGY MANAGEMENT**

**SN** Planning, operating, and maintaining facilities and equipment for maximum energy efficiency—includes conserving energy and procuring more economical fuels *Jan. 1986*

## **ENGLISH FOR ACADEMIC PURPOSES**

**SN** English for non-English speakers who require specialized skills in the language in order to pursue studies at the college or college-preparatory level *Dec. 1985*

## **ENGLISH FOR SCIENCE AND TECHNOLOGY**

**SN** Specialized English for non-English speakers who are studying or working in scientific and technological fields *Dec. 1985*

### **ESTUARIES**

**SN** Mouths of rivers, and other semi-enclosed bodies of water, that are open to the sea and within which fresh and salt water are mixed by runoff and tides *Apr. 1985*

### **EVALUATION PROBLEMS**

**SN** Difficulties associated with the methodology, interpretation, or use of appraisals of persons, organizations, or things (note: do not confuse with "Testing Problems" and "Research Problems") *Jan. 1986*

### **EYE CONTACT**

**SN** Direct eye-to-eye contact between individuals *Apr. 1985*

### **FACIAL EXPRESSIONS**

*Apr. 1986*

### **FAILURE TO THRIVE**

**SN** Growth disorder of infants and children associated with nutritional and/or emotional deprivation—characterized by low weight gain and psychosocial retardation *Apr. 1986*

**UF** Nonorganic Failure to Thrive

### **FAMILY HISTORY**

**SN** History that identifies or traces the structure, size, membership, customs, ethnicity, migration, socioeconomic status, biological characteristics, or lineal descent of a family or families *Jan. 1985*

### **FAMILY VIOLENCE**

**SN** Injurious or abusive physical force among members of a family or household *Oct. 1984*

**UF** Domestic Violence (Family)

### **FENCING (SPORT)**

**UF** Epee Fencing *Jun. 1984*

### **Fulfulde**

## **USE FULANI**

### **GENEALOGY**

**SN** History or account of lineal descent from an ancestor or ancestors *Jan. 1985*

**UF** Ancestral Lineage  
Family Trees

### **GEOTHERMAL ENERGY**

**SN** Power derived from the earth's heat *Oct. 1984*

### **GESTALT THERAPY**

**SN** Form of psychotherapy focusing on the totality of the individual's current functioning and relationships rather than on past experiences or developmental history—individual or group techniques are designed to elicit spontaneous feelings and self-awareness *Jan. 1985*

### **HABITUATION**

**SN** Progressive decrease in responsiveness to repetitive stimuli (note: for drug habituation, use "Drug Abuse" or "Drug Addiction") *Oct. 1984*

### **HANDBALL**

**SN** Singles or doubles game played by striking a small rubber ball against a wall or walls with the hands (note: do not confuse with "Team Handball") *Apr. 1985*

### **HANDICAP DISCRIMINATION**

**SN** Restriction of denial of rights, privileges, and choice because of physical, mental, or sensory impairment *Jun. 1984*

### **HAZARDOUS MATERIALS**

**SN** Ignitable, corrosive, infectious, reactive, or toxic materials that pose a present or potential threat to living things *Oct. 1984*

**UF** Dangerous Materials

### **Hazardous Wastes**

## **USE HAZARDOUS MATERIALS; WASTES**

### **HELPING RELATIONSHIP**

**SN** (Scope Note Changed) Relationship characterized by the provision of assistance—helping behavior may be one-sided or reciprocal *Nov. 1970*

### **High Technology**

## **USE TECHNOLOGICAL ADVANCEMENT**

### **HOLIDAYS**

**SN** Days set aside for commemorating historical, cultural, religious, or other special events—often marked by cessation of ordinary work or school activity (note: if appropriate, use the more specific term "Religious Holidays") *Oct. 1984*

### **HOME HEALTH AIDES**

**SN** (Scope Note Added) Workers who, under professional supervision, provide routine health/personal care and housekeeping services in homes of disabled, ill, or elderly clients *May 1971*

### **HOMELESS PEOPLE**

**SN** Individuals or families without permanent or fixed residences, typically living in abandoned buildings, public places, or the streets and, at times, seeking temporary shelter with public or private charities *Jan. 1986*

**UF** Homelessness  
Street People

### **ICE HOCKEY**

*Apr. 1985*

### **Illegal Immigrants (Del Feb84)**

## **USE UNDOCUMENTED IMMIGRANTS**

### **INFERENCE**

**SN** Judgments or conclusions derived from premises or evidence (note: see also such identifiers as "Causal Inferences," "Transitive Inferences," and "Social Inferences") *Jan. 1985*

### **Inhalation Therapists (Del Jan85)**

## **USE RESPIRATORY THERAPY; THERAPISTS**

## **INSTRUCTIONAL MATERIAL EVALUATION**

**SN** Determining the efficacy, value, etc. of any type of instructional material with respect to stated objectives, standards, or criteria (note: use as a minor Descriptor for examples of this kind of evaluation—use as a major Descriptor only as the subject of a document) *Jun. 1984*

### **INTERACTIVE VIDEO**

**SN** Online video computing systems capable of rapid, accept-and-react communications with human operators *Apr. 1986*

**UF** Intelligent Video

### **INTERGENERATIONAL PROGRAMS**

**SN** Programs that provide interaction among generational age groups, usually between older adults and younger persons *Apr. 1986*

### **Khmer (People)**

## **USE CAMBODIANS**

### **LANGUAGE SKILL ATTRITION**

**SN** The loss of native or second language skills due to discontinued use (note: do not confuse with "Language Handicaps") *Jan. 1985*

**UF** Language Attrition (Skills)  
Language Loss (Skills)

### **LATCHKEY CHILDREN**

**SN** Children left alone or unsupervised before or after the school day *Apr. 1986*

### **LIBERALISM**

**SN** Philosophy or disposition that seeks to use social and political institutions to foster human development and well-being—originally advocated freedom from government encroachment, but currently endorses government intervention when necessary to ensure individual welfare *Jan. 1985*

### **LIBRARY COLLECTION DEVELOPMENT**

**SN** Activities related to building, maintaining, evaluating, and expanding library collections—includes user needs assessment, budget management, selection policy formation, resource sharing, and weeding (note: prior to Apr85, the instruction "Collection Development (Libraries), use Library Acquisition" was carried in the Thesaurus) *Apr. 1985*

**UF** Collection Development (Libraries)

### **LIBRARY STATISTICS**

*Apr. 1985*

### **LOGARITHMS**

**SN** Exponents that indicate the power to which base numbers are raised to produce given numbers *Oct. 1984*

### **MARITIME EDUCATION**

**SN** Learning/teaching activities concerned with building, operating, and navigating boats, ships, and other floating structures, as well as related harbor and dock technology *Feb. 1984*

### **MARXIAN ANALYSIS**

**SN** Application of Marxist concepts, principles, and models in any field (e.g., educational or historical or literary criticism) *Mar. 1984*

**UF** Marxist Criticism

### **MARXISM**

**SN** Body of social, economic, and political thought originating with Karl Marx and Friedrich Engels—distinguished by the labor theory of value, the principles of dialectical materialism and economic determinism, and the doctrine of revolutionary change leading to a classless society *Mar. 1984*

**UF** Dialectical Materialism

### **MATHEMATICS TESTS**

**SN** Tests of ability, achievement, or aptitude in arithmetic or other aspects of mathematics *Dec. 1985*

**UF** Number Skills Tests

### **MEDIA ADAPTATION**

**SN** Modification of existing information and materials to meet alternative needs *Jan. 1985*

**UF** Educational Media Adaptation  
Instructional Material Adaptation  
Material Adaptation

**MENU DRIVEN SOFTWARE**

Apr. 1986

SN User-friendly software that presents lists of options at various stages of a program sequence—from each list, a selection is made to initiate subsequent actions

**MINERALOGY**

Oct. 1984

SN Science dealing with minerals, including their distribution, identification, and properties

**MINERALS**

Oct. 1984

SN Solid homogeneous chemical elements or compounds, usually with characteristic crystalline properties, that result from inorganic processes of nature

**MONTE CARLO METHODS**

Mar. 1984

SN Statistical simulation techniques using random numbers to derive probabilistic approximations to the solutions of problems—used especially for complex problems with many variables or interrelationships

**MONTESSORI METHOD**

Dec. 1983

SN Child-centered approach to teaching, developed by Maria Montessori and most often used in the early childhood years, that features a wide range of graded, self-motivational techniques and materials specially designed to provide sensorimotor pathways to higher learning

**MULTITRAIT MULTIMETHOD TECHNIQUES**

Apr. 1983

SN Experimental validation designs requiring the assessment of two or more traits, each by two or more methods

UF MTMM Methodology

**NATURALISTIC OBSERVATION**

Oct. 1984

SN Observation of behaviors and events in natural settings without experimental manipulation or other interference

**NONTENURED FACULTY**

Feb. 1984

SN Academic staff who have not received tenure (permanence of position) at their school or institution—includes those awaiting tenured appointments and those who are ineligible for tenure

UF Nontenured Teachers  
Untenured Faculty

**OCEANOGRAPHY**

Mar. 1980

SN (Scope Note Changed) Science that deals with the oceans and other large bodies of water, including their exploration, preservation, use, and interactions with air, dry land, and all life forms

**ONLINE SEARCHING**

Apr. 1983

SN Use of an interactive communications terminal to access and retrieve information stored in a computer (note: prior to Apr. 83, this concept was indexed under "Online Systems" and "Information Retrieval")

UF Interactive Searching (Online)  
Online Information Retrieval

**ONLINE VENDORS**

Apr. 1986

SN Organizations that maintain databases and related software on their computer systems and sell online retrieval time to clients at multiple remote locations (note: see also such identifiers as "DIALOG," "Bibliographic Retrieval Services," and "System Development Corporation")

UF Commercial Search Services (Online)  
Database Hosts  
Database Vendors  
Information Utilities (Online)

**OUTLINING (DISCOURSE)**

Jan. 1983

SN The sequential enumeration in condensed form of the main ideas and supporting details of written or spoken material

**Parenting****USE CHILD REARING****PARENTING SKILLS**

Oct. 1984

SN Child rearing skills used by parents or other primary caregivers

UF Parent Skills

**PARTICIPANT OBSERVATION**

Oct. 1984

SN Observation in which the investigator participates in the situation being studied

**PHENOMENOLOGY**

Oct. 1984

SN Study of reality in terms of individual perceptions or conscious experiences at any moment, without external interpretation and judgment

**PHOTOJOURNALISM**

Dec. 1983

SN The art or profession of using still photography or other pictorial copy as the primary means of presenting information on current affairs

UF Pictorial Journalism

**PIAGETIAN THEORY**

Apr. 1986

SN Theory of children's intellectual development (postulated by Swiss developmental psychologist Jean Piaget) that describes a universal sequence of four distinct mental stages—sensorimotor, preoperational thought, concrete operations, and formal operations—through which children progress from birth to maturity

**PLATE TECTONICS**

Oct. 1984

SN Branch of geophysics and seismology concerned with continental movements, based on the theory that the earth's surface is comprised of vast crustal blocks that float across the mantle, with seismic activity and volcanism occurring primarily along the periphery of these blocks

**POLITICAL CAMPAIGNS**

Dec. 1983

SN Competitive efforts to win support of the voting public for candidates or ballot propositions

UF Election Campaigns

**POLITICAL CANDIDATES**

Dec. 1983

SN Persons seeking election or appointment to public office

UF Political Nominees

**PREPOSITIONS**

Jan. 1983

SN Competitive efforts of rival candidates for the Office of the President of the United States

Presidential Candidates (United States)

USE POLITICAL CANDIDATES; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

Presidential Debates (United States)

USE DEBATE; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

Presidential Elections (United States)

USE ELECTIONS; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

**PROTOCOL ANALYSIS**

Dec. 1983

SN Procedure for determining and examining sequences of activities (protocols) used to perform a task, in order to characterize the cognitive/psychological processes involved—protocols may list motor behaviors, eye movements, subjects' self-reports of their thoughts, etc.

UF Thinking Aloud Protocols

**PSYCHIATRIC AIDS**

Jan. 1969

SN (Scope Note Added) Persons who assist in the care and treatment of mentally ill patients in psychiatric facilities, working under the direction of nursing and medical staff

**QUALITATIVE RESEARCH**

Dec. 1983

SN Research providing detailed narrative descriptions and explanations of phenomena investigated, with lesser emphasis given to numerical quantifications—methods used to collect qualitative data include ethnographic practices such as observing and interviewing (note: use as a minor Descriptor for examples of this kind of research—use as a major Descriptor only as the subject of a document)

**QUALITY CIRCLES**

Apr. 1986

SN Voluntary groups of individuals within an organization who meet regularly to identify, analyze, and solve work-related problems, with the goal of improving quality and productivity

**QUALITY OF WORKING LIFE**

Apr. 1986

SN Phenomenological construct of working environments including such extrinsic aspects

as pay, benefits, security, safety, production, and efficiency, and such intrinsic aspects as variety and challenge, responsibility, meaningful contribution, and recognition

**Quantitative Research (Statistics)  
USE STATISTICAL ANALYSIS****Quantitative Tests (Del Dec85) (Mathematics)  
USE MATHEMATICS TESTS****RACQUET SPORTS**

Jun. 1984

UF Racket Sports

**RACQUETBALL**

Jun. 1984

**READER TEXT RELATIONSHIP**

Dec. 1983

SN The character or quality of the reader's involvement or connection with the material being read

**READING WRITING****RELATIONSHIP**

Dec. 1983

SN The inherent interaction between the skills or processes of reading and writing

**RELATIONSHIP**

Jul. 1966

SN (Scope Note Changed) Type or mode of association between or among physical or conceptual entities, e.g., people, institutions, objects, ideas, processes (note: use a more specific term if possible—do not confuse with "Correlation"—prior to Mar. 80, the use of this term was not restricted by a Scope Note)

**RELIGIOUS HOLIDAYS**

Oct. 1984

UF Holy Days

**RESEARCH PAPERS (STUDENTS)**

Jan. 1983

SN Extended written exercises required of students, usually involving collection of primary or secondary data through research, and careful documentation and organization (note: do not confuse with "Theses" or "Practicum Papers")

UF Term Papers

**Research Practice Relationship**

USE RESEARCH AND DEVELOPMENT; THEORY PRACTICE RELATIONSHIP

**RESPIRATORY THERAPY**

Jan. 1983

SN Diagnosis and treatment of cardiopulmonary deficiencies or abnormalities through the use of breathing methods and apparatus, and the administration of gases and aerosols

UF Oxygen Inhalation Therapy

**RESUMES (PERSONAL)**

Jan. 1983

SN Summaries of individual experience and qualifications, typically submitted as part of the job application process

UF Curriculum Vitae  
Vitaes**RHETORICAL INVENTION**

Dec. 1983

SN Creativity or originality in speaking or writing—also, the process of choosing ideas appropriate to the subject, audience, and occasion for either oral or written presentation

**ROBOTICS**

Mar. 1984

SN Study, design, and use of robots, mechanical devices that can be programmed to perform tasks of manipulation and locomotion under automatic control

UF Industrial Robotics  
Robots**ROLE OF EDUCATION**

Jan. 1983

SN Functions of education, real or expected, in regard to the individual and the society at large (note: use a more precise term if possible)

UF Education Role  
(Former USE Reference "Educational Role" was deleted)

**SAILING**

Jan. 1983

**SCIENTIFIC AND TECHNICAL INFORMATION**

Apr. 1983

SN The body of information resulting from the study and technological application of natural scientific phenomena (note: use only when such information is the subject—do not use to classify items as scientific and/or technical)

UF Science Information

- Scientific Information  
Technical Information  
Technological Information
- SMALL ENGINE MECHANICS** Mar. 1984  
SN Assembly, operation, and repair of reciprocating internal-combustion engines used on lawnmowers, garden tractors, chain saws, and other portable power equipment—small engines are generally air-cooled and under 20 horsepower
- STATISTICAL INFERENCE** Jan. 1986  
SN The computation or prediction of statistics for a collective or whole (population) on the basis of a sample
- STUDENT TEACHER ATTITUDES** Jun. 1984  
SN Attitudes of, not toward, student teachers
- STUDENT TEACHER EVALUATION** Dec. 1985  
SN Judging performances of student teachers based on established criteria
- Student Teacher Ratio (Del Dec84)**  
USE TEACHER STUDENT RATIO
- Student Teacher Relationship (Del Dec84)**  
USE TEACHER STUDENT RELATIONSHIP
- SUGGESTOPEDIA** Jan. 1985  
SN Method of teaching, developed by Georgi Lozanov, in which relaxed concentration is combined with synchronized music and rhythmic presentation to tap the unconscious reserves of the mind and thereby accelerate learning—originally applied in language courses, but since expanded to a variety of learning tasks  
UF Lozanov Method
- Supervised Occupational Experience (Agriculture)**  
USE SUPERVISED FARM PRACTICE
- SURFING** Jan. 1985
- SURGICAL TECHNICIANS** Jul. 1966  
SN (Scope Note Added) Technical assistants on a surgical team who arrange supplies and instruments in the operating room, maintain antiseptic conditions, prepare patients for surgery, and assist surgeons during the operation
- TABLE TENNIS** Apr. 1985  
UF Ping Pong
- TEACHER STUDENT RATIO** Dec. 1984
- TEACHER STUDENT RELATIONSHIP** Dec. 1984  
UF Student Teacher Interaction  
Teacher Student Interaction
- TEAM HANDBALL** Apr. 1985  
SN Team sport played on a rectangular floor (court) whose object is to dribble and pass an inflated ball with the hands so as to throw it into a netted, floor-level end goal
- TEAM SPORTS** Jun. 1984
- TERRORISM** Oct. 1984  
SN Threat or use of violence against a population or government to achieve social or political ends
- THEMATIC APPROACH** Dec. 1969  
SN (Scope Note Changed) Teaching approach that organizes subject matter around unifying themes
- THEORY PRACTICE RELATIONSHIP** Dec. 1985  
SN The association between knowledge/understanding and action/application
- TODDLERS** Oct. 1984  
SN Approximately 1-3 years of age
- TRUST (PSYCHOLOGY)** Dec. 1985  
SN Assured reliance in the character, ability, strength, or truth of some person, group, institution, idea, or thing
- UNDERWATER DIVING** Jan. 1985  
UF Deep Sea Diving  
Scuba Diving  
Skin Diving
- UNDOCUMENTED IMMIGRANTS** Feb. 1984  
SN Persons residing in a foreign country without proper authorization, having entered that country by unlawful means or having violated the provisions of their visas  
UF Alien Illegality  
Illegal Aliens  
Immigrant Illegality
- Undocumented Workers**  
USE FOREIGN WORKERS; UNDOCUMENTED IMMIGRANTS
- VIDEODISC RECORDINGS** Jan. 1979  
SN (Scope Note Changed) Magnetic, capacitive, or optical (laser) discs on which are recorded video signals (with or without accompanying sound) for play back on a television monitor or screen
- VOCATIONAL ENGLISH (SECOND LANGUAGE)** Dec. 1985  
SN Specialized English for non-English speakers preparing for or working in skilled, semiskilled, paraprofessional, or technical occupations
- WATER POLO** Jan. 1985
- WORD PROBLEMS (MATHEMATICS)** Jan. 1986  
SN Mathematical problems expressed in narrative form—answered by conversion of the circumstances to equivalent computations or equations, which can be solved arithmetically, algebraically, or with symbolic logic  
UF Story Problems (Mathematics)
- WRITING LABORATORIES** Dec. 1985  
SN Facilities specifically designed for developing and improving writing/composition skills, ranging from areas within classrooms to separate, specially staffed centers  
UF Writing Centers

## GENERAL INFORMATION

### 1. PRICE LIST

The prices set forth herein may be changed without notice; however, any price change will be subject to the approval of the Contracting Officer/USED/Office of Educational Research & Improvement/Contracts and Grants Management Division.

### 2. PAYMENT

The prices set forth herein do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to CMC.

### 3. REPRODUCTION

Express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

### 4. CONTINGENCIES

CMC shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure or delay (a) is due to events beyond the control of CMC including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments; (b) is due to failures of performances of subcontractors beyond CMC's control and without negligence on the part of CMC; or (c) is due to erroneous or incomplete information furnished by Customer.

### 5. LIABILITY

CMC's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall CMC be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

### 6. WARRANTY

CMC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

### 7. QUALITY

CMC will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of CMC. Best available copy will be supplied.

### 8. CHANGES

No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of CMC.

### 9. DEFAULT AND WAIVER

a. If Customer fails with respect to this or any other agreement with CMC to pay any invoice when due or to accept any shipment as ordered, CMC may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of CMC in exercising any right hereunder shall waive any rights of CMC or modify this Agreement.

### 10. GOVERNING LAW

This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

### 11. DEPOSIT ACCOUNTS

Customers who have a continuing need for ERIC documents may open a Deposit account by depositing a minimum of \$250.00. Once a deposit account is opened, ERIC documents will be sent upon request, and the account charged for the actual cost and postage. A monthly statement of the account will be furnished.

### 12. STANDING ORDER ACCOUNTS

Customers who desire to receive microfiche copies of all ERIC reports announced in each issue of *Resources in Education* may do so by depositing \$1,600.00 or submitting an executed purchase order. The cost of each issue and postage will be charged against the account. A monthly statement of the account will be furnished.

### 13. PAPER COPY (PC)

A paper copy (PC) is a xerographic reproduction, on paper, of the original document. Each paper copy has a Velum Bristol cover to identify and protect the document.

### 14. FOREIGN POSTAGE

Postage for all countries other than the United States is based on the international Postage Rates in effect at the time the order is shipped. To determine postage allow 160 microfiche or 75 (PC) pages per pound. Customers must specify the exact classification of mail desired, and include the postage for that classification with their order. Payment must be in United States funds.

## OTHER ERIC COLLECTIONS AVAILABLE FROM EDRS

### STANDING ORDERS

Subscription orders for microfiche copies of all ERIC reports announced in each issue of *Resources in Education* average \$130.00 per month.

### BACK COLLECTIONS (Postage extra) 0.075/fiche

**Dialog Information Services, Inc.****DIALORDER™ SERVICE****SCOPE OF SERVICE**

EDRS supplies only the ED-numbered items in the ERIC database. ERIC ED-numbered documents have three levels of availability: 1) Document available in both microfiche (MF) and paper copy (PC) form, 2) Document available only in MF form, or 3) Document not available from EDRS. The prices and level are shown with each ED record in the ERIC database.

.ORDER ERIC must include document form desired (MF or PC) as special instructions.

The "ship to" and "bill to" address will be supplied by DIALOG. Requests for an address other than those with your DIALOG account must be supplied as special instructions. EDRS service is worldwide.

**OPTIONS AVAILABLE**

Order is shipped 48 hours after receipt of order. Type of delivery should be requested, e.g., airmail, United Parcel Service, Federal Express, etc. All shipments are F.O.B. Alexandria, Virginia.

**CHARGES AND TERMS**

Cost of document either in MF or PC is contained in ED record abstract data. Add \$.50 per document ordered plus postage. Payment upon receipt of invoice in U.S. funds only.

Deposit accounts desired.

All postage charges are F.O.B. Alexandria, Virginia, and will be billed on invoice.

**MISCELLANEOUS**

Supplier will retrieve orders daily from the DIALOG DIALORDER Service. No payments necessary to CCC.

**CONTACT**

Once an order has been retrieved by EDRS and a date and time appear in the .LIST TRANSMITTED column, all questions concerning the order should be directed to:

EDRS  
3900 Wheeler Avenue  
Alexandria, VA 22304

Telephone: 1-800-227-3742  
703-823-0500 (in Virginia)

— see ordering procedures on verso —

Only ERIC report documents (i.e., ED numbered items only) are supplied by the ERIC Document Reproduction Service. To be sure that you are requesting only publications that are available from EDRS, the following procedures are recommended:

- 1 → ? BEGIN 1

- 1 . BEGIN I in the ERIC file.
- 2 . Enter accession numbers for which full document copies are requested; or perform search according to normal DIALOG procedures, KEEPing records in set 99 (DIALOG 1) or set 0 (DIALOG 2) for order. Be sure to check first whether the document is available from EDRS. (This information is given in each ERIC ED-numbered record.)
- 3 . TYPE set 99 in a short format to view for accuracy. Delete unwanted items using KEEP-EDnnnnnn if necessary. (When using DIALOG Version 2, the KEEP set is 0. TYPE 0/611-4.)
- 4 . Enter .ORDER ERIC (MF or PC) (number of copies) (special shipping instructions, if any). **All ERIC orders must include an indication of MF or PC.** The period (.) preceding the ORDER command is optional on DIALOG Version 2.

## System Development Corporation (SDC)

### ORDER ERIC

Reports from the *Resources in Education (RIE)* portion of the ERIC database, available from the ERIC Document Reproduction Service (EDRS), are available through the ORBDOC<sup>tm</sup> Online Ordering Service. The ONLINE ERIC Command can be used to order these documents. (Documents indexed in *Current Index to Journals in Education (CIJE)* can be ordered through University Microfilms. See ORDER UMI.)

Here are important details for using ORDER ERIC:

- **Deposit Account.** A deposit account is not required but users may establish one through EDRS at the address given below.
- **Ordering and Shipping Information.** Include the following:
  - Deposit Account Number (if established) or
  - Billing information (if deposit account is not used): name, organization and complete address.
  - Ship to: same as billing information, or name, organization, and complete address. ERIC EDRS ships microfiche documents via airmail. Paper copies are shipped via United Parcel Service. If special shipping is required, indicate on one line, e.g. SHIP VIA: UPS BLUE LABEL.
  - Purchase Order Number (optional). Enter MY P.O. NUMBER IS: and the number.
- **Document Information.** Include the following on one line:
  - Accession Number (ED Number) (See Order UMI for articles [EJ Number] from CIJE).
  - Document form, i.e. MF for microfiche, HC for hard copy.
  - Number of copies.
- **Rates.** Prices of documents are indicated in the Availability (AV) field of ERIC citations or unit records.

EDRS checks its ORBDOC Online Ordering Service for ORDER ERIC each day and most orders are filled within 48 hours of receipt.

The key contact for this service at ERIC is:

**ERIC Document Reproduction Service (EDRS)**  
 3900 Wheeler Avenue  
 Alexandria, VA 22304  
 800/227-3742  
 703/823-0500 (in Virginia)

# ERIC TAPES ERIC TOOLS

## HAVE A COMPUTER?

### LOOK AT ERIC TAPES!

The Educational Resources Information Center (ERIC) data base is available on magnetic tape in a variety of options from ORI, Inc. Under special authorization from the U.S. Department of Education, these tapes are offered at unusually low cost to encourage the widest possible dissemination.

The ERIC data base provides coverage of the significant literature in the field of educational resources. Report literature (announced in *Resources in Education*) is covered from 1966 to date, and journal article literature (announced in *Current Index to Journals in Education*) is covered from 1969. Monthly, quarterly, and annual updates are available for both *RIE* and *CJIE*, so that the files may be kept current.

The basic files are available in the ERIC (IBM 360 OS) Format. These files include the complete resume, (document description, indexing, and abstract or annotation) of each document announced in the respective journal, in accession number order. A variety of peripheral files, including

Postings Files (inverted subject and source indexes) and the Thesaurus (controlled indexing vocabulary) are also available on magnetic tape, and almost any segment of the master files is obtainable on Special Order.

The files may be purchased individually or as a collection, and substantial discounts are available on annual subscriptions for updates. The files are written on new, high-quality, 9-track tapes (600-1200, or 2400-ft., as appropriate) at either 1600 or 800 BPI and are guaranteed. Prices per tape reel start as low as \$75.

## NO COMPUTER?

### LOOK AT ERIC TOOLS!

For organizations without access to a computer,\* ERIC TOOLS provide manual multi-viewpoint access to the ERIC document collection. ERIC TOOLS are a series of printed indexes, directories, and cross-reference lists, distributed internally to components of the ERIC network. The *Title Index* provides access by document title. The *Source Directory* provides access to all organizational names used in the system, i.e., corporate authors and sponsoring agencies. Cross-reference lists lead the inquirer to the accession number (ED number) from: Report Number; Contract Number; and Clearinghouse Accession Number.

The documents are available individually and on annual subscription at a discounted price. Prices start from as low as \$20 for some individual documents.

\*Many of these documents are also valuable tools for computer searchers.

For additional information, complete and mail the reply form or call: ERIC TAPES/ERIC TOOLS  
ORI, Inc., 4833 Rugby Avenue, Suite 301, Bethesda, Maryland 20814, (301) 656-9723

**REPRODUCTION RELEASE (Specific Document)**

**I. DOCUMENT IDENTIFICATION**

Title: \_\_\_\_\_

Author(s): \_\_\_\_\_

Corporate Source (if appropriate): \_\_\_\_\_

Publication Date: \_\_\_\_\_

**II. REPRODUCTION RELEASE**

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche and paper copy (or microfiche only) and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce the identified document, please CHECK ONE of the options and sign the release below.

CHECK  
HERE

☐

Microfiche  
(4" x 6" film)  
and paper copy  
(8 1/2" x 11")  
reproduction

"PERMISSION TO REPRODUCE THIS  
MATERIAL HAS BEEN GRANTED BY

**III. DOCUMENT AVAILABILITY INFORMATION (Non-ERIC Source)**

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents which cannot be made available through EDRS.)

## ERIC Network Components

There are currently sixteen (16) ERIC Clearinghouses, each responsible for a major area of the field of education. Clearinghouses acquire, select, catalog, abstract, and index the documents announced in *Resources in Education (RIE)*. They also prepare interpretive summaries and annotated bibliographies dealing with high interest topics and based on the documents analyzed for *RIE*; these information analysis products are also announced in *Resources in Education*.

### ERIC Clearinghouses:

#### ADULT, CAREER, AND VOCATIONAL EDUCATION (CE)

Ohio State University  
National Center for Research in Vocational Education  
1960 Kenny Road  
Columbus, Ohio 43210  
Telephone: (614) 486-3655; (800) 848-4815

#### COUNSELING AND PERSONNEL SERVICES (CG)

University of Michigan  
School of Education, Room 2108  
610 East University Street  
Ann Arbor, Michigan 48109  
Telephone: (313) 764-9492

#### EDUCATIONAL MANAGEMENT (EA)

University of Oregon
